BARCLAYS OFFICIAL CALIFORNIA CODE OF REGULATIONS

REVISED EDITION

This edition of *Barclays Official California Code of Regulations*, revised on April 1, 1990, has been published under the direction of the California Office of Administrative Law which is solely responsible for its contents. Comments or questions regarding regulations published in this edition should be addressed to the State of California, Office of Administrative Law, 300 Capitol Mall, Suite 1250, Sacramento, CA 95814, (916) 323-6225. Errors reported will be promptly corrected in subsequent supplements.

OFFICIAL PUBLICATION

Courts are required to take judicial notice of contents of regulations published in the *Official California Code of Regulations* (Gov. Code, § 11344.6). *Barclays Official California Code of Regulations*, as revised April 1, 1990, has been certified by the Office of Administrative Law as the official publication of the State of California for this purpose pursuant to title 1, *California Code of Regulations*, section 190.

CODE SUPPLEMENTS

Amendments to the official Code are certified weekly by the Office of Administrative Law for publication by Barclays. These amendments, when certified and published, become part of the *Official California Code of Regulations*, beginning with Register 90, No. 14, dated April 7, 1990, and include all regulations filed with the Secretary of State on or after April 1, 1990. Amendment subscriptions to the entire revised Code, or to parts of it, are available from the publisher. For a descriptive brochure and order form, write Barclays Official California Code of Regulations, P.O. Box 2008, San Francisco, CA 94126 or telephone 800-888-3600.

CODE CITATION

Cite all materials in the *Official California Code of Regulations* by title number and section number. Example: Title 3, *California Code of Regulations*, section 432 (Short form: Cal. Code Regs., tit. 3, § 432).

TITLE 13. MOTOR VEHICLES

(Originally Printed 7-28-46)

Division 1. Department of Motor Vehicles

Chapter 1. Department of Motor Vehicles

Article 1. Department of Motor Vehicles—Conflict of Interest Code

NOTE: It having been found, pursuant to Government Code Section 11344, that the printing of the regulations constituting the Conflict of Interest Code is impractical and these regulations being of limited and particular application, these regulations are not published in full in the California Code of Regulations. The regulations are available to the public for review or purchase at cost at the following locations:

DEPARTMENT OF MOTOR VEHICLES
2415 FIRST AVENUE
SACRAMENTO, CALIFORNIA 95818

FAIR POLITICAL PRACTICES COMMISSION
428 "J" STREET, SUITE 800
SACRAMENTO, CALIFORNIA 95814

ARCHIVES
SECRETARY OF STATE
1020 "O" STREET
SACRAMENTO, CALIFORNIA 95814

The Conflict of Interest Code is designated as Article 1, Chapter 1, Division 1 of Title 13 of the California Code of Regulations, and consists of sections numbered and titled as follows:

Article 1. Department of Motor Vehicles—Conflict of Interest Code
Section
1. General Purpose
Appendix

NOTE: Authority cited: Section 87300, *et seq.*, Government Code. Reference: Section 87300, *et seq.*, Government Code.

HISTORY

1. New article 1 (sections 1–10) filed 12–13–77; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 9–8–77 (Register 77, No. 51).
2. Repealer of article 1 (sections 1–10) and new article 1 (section 1 and Appendix) filed 7–9–81; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 6–1–81 (Register 81, No. 28).
3. Editorial correction of article 1 (section 1 and Appendix) filed 8–21–81 (Register 81, No. 34).
4. Amendment of section 1 and Appendix filed 8–19–83; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 7–12–83 (Register 83, No. 34).
5. Amendment of section and Appendix filed 4–20–92; operative 5–20–92. Approved by Fair Political Practices Commission 3–31–92 (Register 92, No. 19).
6. Amendment of Appendix filed 9–15–93; operative 10–15–93. Submitted for printing only. Approved by Fair Political Practices Commission 9–13–93 (Register 93, No. 38).
7. Amendment of Appendix filed 10–11–94; operative 11–10–94. Submitted to OAL for printing only. Approved by Fair Political Practices Commission 9–7–94 (Register 94, No. 41).
8. Amendment of Appendix filed 2–26–96; operative 3–27–96. (Register 96, No. 9).
9. Change without regulatory effect amending address for the Fair Political Practices Commission filed 4–21–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 17).
10. Amendment of Appendix filed 4–22–97; operative 5–22–97. Approved by the Fair Political Practices Commission 3–3–97 (Register 97, No. 17).
11. Amendment of Appendix filed 5–24–99; operative 6–23–99. Approved by Fair Political Practices Commission 4–12–99 (Register 99, No. 22).
12. Amendment of Appendix filed 5–25–2000; operative 6–24–2000. Approved by Fair Political Practices Commission 4–6–2000 (Register 2000, No. 21).

13. Amendment of Appendix filed 6–18–2002; operative 7–18–2002. Approved by Fair Political Practices Commission 5–2–2002 (Register 2002, No. 25).
14. Amendment of Appendix filed 12–28–2004; operative 1–27–2005. Approved by Fair Political Practices Commission 10–18–2004 (Register 2004, No. 53).
15. Amendment of Appendix filed 10–5–2006; operative 11–4–2006. Approved by Fair Political Practices Commission 8–22–2006 (Register 2006, No. 40).
16. Amendment of Appendix filed 5–1–2008; operative 5–31–2008. Approved by Fair Political Practices Commission 4–9–2008 (Register 2008, No. 18).

Article 2. Driver Licenses and Identification Cards

§ 15.00. Information Required to Establish Legal Presence in the United States (U.S.) for Purpose of Determining Eligibility for an Original Driver License or Identification Card.

(a) U.S. citizens who apply for an original driver license or identification card shall submit one of the following documents that is legible and unaltered to establish proof of the person's legal presence in the United States.

(1) A certified copy of a United States birth certificate issued in or by a city, county, or state vital statistics department.

(2) A U.S. Certificate of Birth Abroad (FS–545, DS–1350) or a Report of Birth Abroad of U.S. Citizen (FS–240).

(3) A Proof of Indian Blood Degree issued by the federal government.

(4) A Certified Birth Certificate issued from:

(A) Puerto Rico, on or after January 13, 1941.

(B) Guam, on or after April 10, 1899.

(C) U.S. Virgin Islands, on or after January 17, 1917.

(D) Northern Mariana Islands, after November 4, 1986.

(E) American Samoa.

(F) Swain's Island.

(G) District of Columbia.

(5) A U.S. passport (Expired or unexpired).

(6) One of the following unexpired U.S. Military Identification Cards and documents:

(A) DD–2 for active duty, reserve or retired Air Force, Army, Marine Corps, or Navy.

(B) DD–1173 for dependents of active duty military personnel, Air Force, Army, Marine Corps, or Navy.

(C) AF–447, A–447, MC–447, N–447 for dependents of reserve duty military personnel, Air Force, Army, Marine Corps, or Navy.

(D) DD–1934 for Medical/Religious personnel.

(E) DD–214 Report of Separation for Air Force, Army, Marine Corps, or Navy personnel.

(7) Certificate of Naturalization (N–550, N–570, N–578).

(8) Certificate of Citizenship (N–560, N–561, N–645).

(9) Northern Mariana Card issued by INS (I–551).

(10) American Indian Card issued by INS (I–551).

(11) U.S. Citizen Identification Card (I–179, I–197).

(b) Immigrants shall submit one of the following United States Immigration and Naturalization Service (INS) documents or other document with an INS notation to prove their legal presence in the United States. Immigrants are persons who have lawful permanent residency status. Documents must be legible and unaltered to establish proof of the person's legal presence in the United States.

(1) Resident Alien Card (I–551, AR–3, AR–3A, AR–103).

(2) Temporary Resident Identification Card (I–688).

(3) Alien Registration Receipt Card (I–151) valid until declared invalid by INS.

(4) Permanent Resident Re-entry Permit (I–327).

(5) U.S. Border Crossing Identification Card and Visa (Known as the "Mica") with a valid I-94.

(6) A foreign passport stamped "Processed for I-551".

(7) Record of Arrival and Departure (I-94) stamped Temporary Evidence of Lawful Admission for Permanent Resident.

(c) Immigrants may also submit one of the following unexpired U.S. Military Identification Cards and documents:

(1) DD-2 for active duty, reserve or retired Air Force, Army, Marine Corps, or Navy.

(2) DD-1173 for dependents of active duty military personnel, Air Force, Army, Marine Corps, or Navy.

(3) AF-447, A-447, MC-447, N-447 for dependents of reserve duty military personnel, Air Force, Army, Marine Corps, or Navy.

(4) DD-1934 for Medical/Religious personnel.

(5) DD-214 Report of Separation for Air Force, Army, Marine Corps, or Navy personnel.

(d) Non-immigrants shall submit one of the following United States Immigration and Naturalization Service (INS), Canadian documents or other document with an INS notation to prove their legal presence in the United States. Non-immigrants are persons who have lawful temporary status for a specific purpose. Documents must be legible and unaltered to establish proof of the person's legal presence in the United States.

(1) Canadian passport (expired or unexpired).

(2) A certified copy of a Canadian birth certificate.

(3) Non-Resident Alien Canadian Border Crossing Card (I-185, I-586).

(4) Mexican Border Crossing Card (I-186 with a valid I-94 or I-586 with a valid I-94).

(5) Record of Arrival and Departure (I-94 or I-94W) with a valid foreign passport.

(6) Record of Arrival and Departure (I-94) with one of the following types of unexpired foreign passports to Hong Kong residents:

(A) Certificate of Identity.

(B) Document of Identity.

(C) British National Overseas (BNO).

(D) Hong Kong Special Administrative Region (HKSAR).

(e) Other documents which may prove legal presence in the United States are:

(1) A certified order or judgement from a court of competent jurisdiction stating the true full name, date of birth and that the applicant was born in the U.S. or U.S. Territories or that the applicant's presence in this country is authorized by Federal law.

(2) Certification provided by the California Youth Authority (CYA) which verifies the legal presence of the applicant.

(3) Certification provided by the California Department of Corrections (CDC) which verifies the legal presence of the applicant.

(4) Employment Authorization Card (I-688A, I-688B, I-766).

(5) Record of Arrival and Departure stamped "Refugee, or Asylee, Parolee or Parole" (I-94) coded: Section 207 (Refugee), 208 (Asylum), 209 (Refugees), 212d(5) (Parolee), HP (Humanitarian Parolee) or PIP (Public Interest Parolee).

(6) An immigration Judge's Order Granting Asylum.

(7) Refugee Travel Document (I-571).

(8) Notice of Action (I-797) Approved Petition).

NOTE: Authority cited: Sections 1651 and 12801.5, Vehicle Code. Reference: Sections 12800 and 12801.5, Vehicle Code.

HISTORY

1. New section filed 11-29-93 as an emergency; operative 3-1-94 (Register 93, No. 49). A Certificate of Compliance must be transmitted to OAL by 6-28-94 or emergency language will be repealed by operation of law on the following day.

2. Amendment of article heading filed 12-9-93; operative 1-10-94 (Register 93, No. 50).

3. Certificate of Compliance as to 11-29-93 order transmitted to OAL 6-24-94 with amendment of section and NOTE and filed 8-8-94 (Register 94, No. 32).

4. Editorial correction restoring text and deleting former HISTORY 4 (Register 95, No. 9).

5. Editorial correction of article heading (Register 95, No. 28).

6. Amendment of section heading and section filed 9-27-95; operative 10-27-95 (Register 95, No. 39).

7. Repealer of subsections (a)(4)(H)-(I), amendment of subsections (b)(7) and (d)(6), and new subsections (d)(6)(A)-(D) filed 6-5-2000; operative 7-5-2000 (Register 2000, No. 23).

8. Change without regulatory effect redesignating article 2 to article 2.0 and amending article heading filed 7-23-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).

9. Amendment redesignating article 2.0 as article 2 and amending article heading filed 9-9-2004 as an emergency; operative 9-9-2004 (Register 2004, No. 37). A Certificate of Compliance must be transmitted to OAL by 1-7-2005 or emergency language will be repealed by operation of law on the following day.

10. Certificate of Compliance as to 9-9-2004 order transmitted to OAL 12-20-2004 and filed 1-26-2005 (Register 2005, No. 4).

§ 15.01. Out-of-State Driver License Verification for Driving Test Waiver.

(a) The "acknowledged national driver record data source" as specified in Section 12804.9 of the Vehicle Code shall be the National Driver Register Problem Driver Pointer System.

(b) The department shall inquire the Problem Driver Pointer System whenever an original California driver license applicant presents a license issued by another state, territory, or possession of the United States, District of Columbia, or the Commonwealth of Puerto Rico.

(c) Pursuant to Section 12804.9 of the Vehicle Code, the department may waive the behind-the-wheel drive test portion of the driver license examination process under the following conditions:

(1) An applicant presents an expired or unexpired driver license issued by another state, territory, or possession of the United States, District of Columbia, or the Commonwealth of Puerto Rico; and

(2) The department confirms through the Problem Driver Pointer System the status of the out-of-state driver license, and that there are no holds, stops, or other impediments (such as suspensions, revocations or withdrawals) to issuance of a California driver license.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 12804.9, Vehicle Code.

HISTORY

1. New section filed 10-7-99; operative 11-6-99 (Register 99, No. 41).

§ 15.03. Terms of Issuance and Restrictions.

(a) The department shall issue a temporary driver license valid for up to 60 days provided there is no other cause for refusal pending verification of documents submitted as proof of legal presence, or to allow applicants sufficient time to provide such documents. The department may extend the temporary license if the applicant provides evidence that he/she is in the process of obtaining proof of legal presence.

(b) The department shall not issue a driver license or identification card if the documents submitted as proof of legal presence in the United States indicate an expiration date less than 61 days from the application date. Canadian and U.S. passports are not subject to this requirement.

(c) The department shall not accept an application for an original identification card if the applicant cannot provide one of the documents in Section 15.00 to establish proof of legal presence.

(d) The department may elect to verify the authenticity of any document provided as proof of legal presence. Verification of documents may include electronic verification systems or manual methods.

(e) The department may issue a driver license or identification card termed to expire on the same date as the expiration date on the valid INS document.

NOTE: Authority cited: Sections 1651 and 12801.5, Vehicle Code. Reference: Sections 12506, 12800, 12801.5, 12805, 12816, 13000, 13002 and 14100, Vehicle Code.

HISTORY

1. New section filed 11-29-93 as an emergency; operative 3-1-94 (Register 93, No. 49). A Certificate of Compliance must be transmitted to OAL by 6-28-94 or emergency language will be repealed by operation of law on the following day.

2. Certificate of Compliance as to 11-29-93 order transmitted to OAL 6-24-94 with new subsection (e) and amendment of NOTE and filed 8-8-94 (Register 94, No. 32).

3. Certificate of Compliance for subsection (b) disapproved by OAL; emergency language repealed by operation of Government Code section 11346.1(f) (Register 94, No. 32).

4. New subsection (b) refiled 8-9-94 as an emergency; operative 8-9-94 (Register 94, No. 32). A Certificate of Compliance must be transmitted to OAL by

12–7–94 or emergency language will be repealed by operation of law on the following day.

5. Certificate of Compliance as to 8–9–94 order including amendment of subsections (a), (b), (e) and NOTE transmitted to OAL 12–2–94 and filed 1–19–95 (Register 95, No. 3).
6. Editorial correction of subsection (e) and HISTORY 5 (Register 95, No. 9).
7. Amendment of subsection (e) and NOTE filed 9–27–95; operative 10–27–95 (Register 95, No. 39).

§ 15.04. Social Security Account Number Verification.

(a) The department shall verify the authenticity of any social security number provided on a driver license or identification card application. Verification of social security numbers may include the use of electronic verification systems and manual methods.

(b) The department shall not issue a driver license or identification card, or a temporary license, interim license, or instruction permit, if the social security number submitted to the department does not match the records of the Social Security Administration.

(c) The department shall not accept an application for a driver license or identification card if the application does not include the applicant's social security number. Exception:

(1) If the application was submitted with document(s) that establish proof of the applicant's legal presence in the United States, AND

(2) The Department of Homeland Security verifies that the applicant is in the country legally but is not authorized to work, and is therefore ineligible for a social security number.

NOTE: Authority cited: Section 1651, Vehicle Code; and *Thomas Lauderbach et al., v. Frank S. Zolin*, 35 Cal. App. 4th 578; 41 Cal. Rptr. 2d 434 (1995). HISTORY

1. New section filed 7–19–2005; operative 8–18–2005 (Register 2005, No. 29).

§ 15.05. Appeals Hearings.

The department shall provide for an appeals hearing from denials of identification cards, driver licenses, or temporary driver licenses. The hearing shall be held in accordance with Article 3 (commencing with Section 14100) of Chapter 3 of Division 6 of the Vehicle Code. The only issue at the hearing shall be whether the department has acted properly in refusing to issue an identification card, a temporary driver license, or a permanent driver license.

NOTE: Authority cited: Sections 1651 and 12801.5, Vehicle Code. Reference: Sections 12506, 12800, 12801.5, 12816 and 14100, Vehicle Code.

HISTORY

1. New section filed 11–29–93 as an emergency; operative 3–1–94 (Register 93, No. 49). A Certificate of Compliance must be transmitted to OAL by 6–28–94 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 11–29–93 order transmitted to OAL 6–24–94 with amendment of NOTE and filed 8–8–94 (Register 94, No. 32).
3. Amendment filed 9–27–95; operative 10–27–95 (Register 95, No. 39).

§ 15.06. True Full Name.

For purposes of this article, "true full name" is defined as the name specified on one of the documents listed in Section 15.00 in Article 2, Chapter 1, Division 1, of Title 13 of the California Code of Regulations necessary to establish legal presence, birth verification, or a name change, that is submitted at the time of application. The true full name shall be the name that appears on the driver license or identification card, and recorded on the driving record.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12800, 12800.7 and 13000, Vehicle Code.

HISTORY

1. New section filed 5–18–99; operative 6–17–99 (Register 99, No. 21).

§ 15.07. Reduced Fee Identification Cards.

(a) An applicant for a reduced fee Department of Motor Vehicles identification card shall submit a completed Verification of Reduced Fee Identification Card, form DL 937, (NEW 8/2004), signed under penalty of perjury under the laws of the State of California by a representative of a governmental or non-profit entity pursuant to requirements of Vehicle

Code Section 14902. The Verification of Reduced Fee Identification Card, form DL 937, (NEW 8/2004) is hereby incorporated by reference.

(1) The certification of eligibility in the Verification of Reduced Fee Identification Card shall be dated within 60 days of the application for the reduced fee identification card.

NOTE: Authority cited: Sections 1651 and 1678, Vehicle Code. Reference: Sections 1678 and 14902, Vehicle Code.

HISTORY

1. New section filed 9–9–2004 as an emergency; operative 9–9–2004 (Register 2004, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–7–2005 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 9–9–2004 order transmitted to OAL 12–20–2004 and filed 1–26–2005 (Register 2005, No. 4).

§ 20.02. Definition of Motor Vehicles Documents.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12500 and 13000, Vehicle Code.

HISTORY

1. New section filed 12–9–93; operative 1–10–94 (Register 93, No. 50).
2. Editorial correction adding subheading before section (Register 95, No. 28).
3. Repealer filed 9–6–96; operative 10–6–96 (Register 96, No. 36).
4. Repealer of subheading filed 5–18–99; operative 6–17–99 (Register 99, No. 21).

§ 20.04. Information Required for a Name Change on a Driver License or Identification Card.

(a) Upon application for an original California driver license or identification card, the department shall require the applicant to produce identification necessary to ensure the name provided on the application is the individual's true full name.

(1) If the name provided on the application conflicts with the name on the document or documents submitted to establish legal presence or birth verification at the time of application, the department shall require the applicant to provide additional documentary evidence to establish that the name on the application is his or her true full name.

(b) Upon application for a renewal or duplicate California driver license or identification card, or before a California driver license or identification card may be issued, reissued, or returned to the licensee after a refusal, cancellation, probation, restriction, suspension or revocation of the person's driving privilege, the department shall require the applicant to produce identification when necessary to ensure the name provided on the application is the individual's true full name.

(c) Upon application for a change of name on a California driver license or identification card, the department shall require the applicant to produce identification to ensure the name provided on the application is his or her true full name.

(d) The department will accept an original or certified copy of one of the following documents that is legible and unaltered as additional documentation to establish the applicant's true full name as required by subsections (a) and (b), or as identification to establish the applicant's true full name for a name change:

(1) Any document specified in Section 15.00 in Article 2, Chapter 1, Division 1, of Title 13 of the California Code of Regulations.

(2) A completed Medical Information Authorization (Name and Gender Change) form DL 328 (Rev. 5/96), which is hereby incorporated by reference, verifying the applicant is in the process of, or has completed, a gender change.

(3) A document issued by a competent jurisdiction which contains the applicant's legal name, date of birth, if available, and government seal, stamp or other official imprint including, but not limited to:

(A) An adoption document which contains the legal name of the individual as a result of the adoption

(B) A name change document which contains the individual's legal name both before and, as a result of, the name change.

(C) A marriage certificate.

(D) A dissolution of marriage document which contains the legal name of the individual as a result of the court action.

(E) A certificate, declaration or registration document verifying the formation of a domestic partnership.

(4) For purposes of this subsection, “competent jurisdiction” is defined as any governmental agency within the United States, District of Columbia, territory or possession of the United States, including federal, state, and local agencies, or a foreign state or its equivalent, duly authorized to issue documents for adoption, name change, marriage, or dissolution of marriage.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12800, 12800.7, 12809 and 13000, Vehicle Code.

HISTORY

1. New section filed 5–18–99; operative 6–17–99 (Register 99, No. 21). For prior history, see Register 97, No. 26.
2. Amendment of section and NOTE filed 5–24–2001 as an emergency; operative 5–24–2001 (Register 2001, No. 21). A Certificate of Compliance must be transmitted to OAL by 9–21–2001 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 5–24–2001 order transmitted to OAL 9–7–2001 and filed 10–17–2001 (Register 2001, No. 42).

§ 20.06. Identification Elements and Document Inspection Terms.

(a) In addition to the content and form of a driver license specified in Vehicle Code sections 12800.5 and 12811, the essential elements of identification on a driver license include:

(1) A description of the sex, hair, eyes, height, and weight of the individual.

(2) The type of license.

(3) Endorsements and restrictions assigned to the driving privilege.

(b) A visually mutilated driver license or identification card means any essential element of information contained on the driver license or identification card is obstructed, absent, illegible, or exposed through the protective sealant or other technologically advanced visual security feature.

(c) In addition to (b), if the driver license or identification card contains a magnetic stripe, mechanically mutilated means that the document is unable to pass through a mechanical device designed to read the essential elements of identification contained in the magnetic stripe located on the reverse side of a driver license or identification card.

(d) In addition to (b) and (c), if the driver license or identification card contains a magnetic stripe, electronically mutilated means that the driver license or identification card is unable to transmit essential elements of identification through an electronic process or device designed to read the information contained in the magnetic stripe located on the reverse side of a driver license or identification card.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12800.5, 12811, 12815, 13003, 13005 and 13005.5, Vehicle Code.

HISTORY

1. New section filed 12–9–93; operative 1–10–94 (Register 93, No. 50).
2. Amendment of section heading, section and NOTE filed 6–27–97; operative 7–27–97 (Register 97, No. 26).

§ 20.08. Replacement of an Invalid/Mutilated Document.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12815 and 13003, Vehicle Code.

HISTORY

1. New section filed 12–9–93; operative 1–10–94 (Register 93, No. 50).
2. Repealer filed 6–27–97; operative 7–27–97 (Register 97, No. 26).

§ 25.01. Fraudulent Application for a Driver License or Identification Card.

(a) For the purposes of this section, “an application” means any form currently in use, under revision, or developed in the future by the department for the process of establishing driving privileges or personal identification.

(b) The department may revoke the driving privilege, for a period of up to one year, of an individual who submits an application for a driver license to the department which is determined to include, be substantiated with, or presented with fraudulent information or documentation. The individual may not reapply for a driver license until the period of revocation is completed. An individual subject to a revocation action pursuant to this section shall immediately surrender any California driver li-

cense issued, including temporary licenses, to the department or a peace officer upon notification of the action.

(c) The department shall immediately cancel an identification card which was issued based on submission of a fraudulent application. An individual subject to a cancellation pursuant to this section shall immediately surrender any identification card so canceled to the department or a peace officer upon notification of the action.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 20, 12809(d), 13101, 13004(a), 13359, 13551(a), 13362 and 14610, Vehicle Code.

HISTORY

1. New article 2.0 and section filed 9–18–95; operative 10–18–95 (Register 95, No. 38).
2. Change without regulatory effect deleting article heading filed 7–23–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).

Article 2.1. Commercial Driver Licenses

§ 25.06. Authority and Definitions.

The department is authorized in Part 383 of Title 49 of the Code of Federal Regulations to use third-party testers to conduct the commercial behind-the-wheel driving test under specified conditions. For purposes of these regulations, the following definitions apply:

(a) Certified Driver. A driver that has been issued a Certificate of Driving Skill (DL170ETP, Rev. 11/02 or Firefighter Certificate of Driving Skill (DL 170FETP, New 11/05)) by his or her employer for the purpose of waiving the department-administered driving test portion of the commercial driver testing process. The Firefighter Certificate of Driving Skill form is hereby incorporated by reference.

(b) Driving Test. The driving test is a performance test that consists of three components: a pre-trip inspection, skills test, and road test.

(c) Employee. Employee means a person who performs services for wages or salary under a contract of employment, expressed or implied for an employer. (See Labor Code Section 1132.2.). In addition, a volunteer of an employer who has an established volunteer workforce will be considered an employee, provided the employer has covered the employee under its Workers Compensation Insurance policy, and the employee has coverage under the Employer’s liability insurance policy. (Example: Volunteer fire departments.)

(d) Employer Testing Program. The State of California’s third-party commercial driver testing program. California Vehicle Code Section 15250(c) grants the department the authority to authorize third-party testers to conduct the commercial driving test portion of the commercial driver license testing process.

(e) Employer. A California sole proprietor, partnership, company, corporation, association, government entity or any other entity that meets the enrollment criteria to participate in the Employer Testing Program.

(f) Firefighting Organization. A federal or state agency which provides firefighting services; or a regularly organized fire department of a city, county, city and county, or district; or a regularly organized fire department having official recognition of the city, county, city and county, or district in which the department is located.

(g) Governmental Employer. The United States Government or any subdivision, department, court or agency thereof; the state or any subdivision, department, court or agency thereof, including special districts, school districts, the Board of Regents of the University of California; or any city, county, city and county or any agency or subdivision thereof.

(h) Route Approval. A review by the department of an employer’s primary and alternate driving test routes to ensure that each route meets the requirements set forth by the department for use by the Employer Testing Program participants.

(i) Testing Location. A place of business in California where an employer is authorized by the department to conduct driving tests utilizing the department approved primary and alternate driving test routes.

(j) Third-Party Tester. An employer with a place of business in California that is authorized by the department to conduct commercial behind-the-wheel driving tests for employees on behalf of the depart-

ment. California Vehicle Code Section 15250(c) grants the department authority to authorize third-party testers to conduct the commercial driving test.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; Part 383, of Title 49 of the Code of Federal Regulations; and Section 1132.2, Labor Code.

HISTORY

1. New section filed 1–5–2004; operative 2–4–2004 (Register 2004, No. 2).
2. Amendment of subsection (a), new subsection (f), subsection relettering and amendment of NOTE filed 9–14–2006; operative 10–14–2006 (Register 2006, No. 37).

§ 25.07. Employer Prerequisites.

(a) The employer requesting participation in the Employer Testing Program must be engaged in an activity that includes the use of vehicles requiring its employees to possess a valid Class A or Class B commercial driver license or a restricted firefighter Class A or Class B driver license.

(b) The employer must have a terminal(s) in California where business is conducted, driving tests are conducted, and Employer Testing Program records are kept. Rental of a desk or desk space in a structure that is not owned, leased, or rented by the employer does not constitute a valid place of business for purposes of Employer Testing Program qualifications.

(c) A firefighting organization may request limited participation in the Employer Testing Program to conduct behind-the-wheel driving tests only for the purpose of enabling a firefighter to obtain Class A or B license restricted to the operation of firefighting equipment.

(1) To request limited participation in the Employer Testing Program, the firefighting organization shall complete a Application for Employer Number Addendum (DL 520F ETP, New 11/05), which is hereby incorporated by reference, in addition to the Application for Employer Number (DL 520 ETP, Rev 8/02).

(2) A firefighting organization that is granted limited participation in the program shall not be provided or authorized to issue a Certificate of Driving Skill (DL 170 ETP, Rev. 11/02).

(3) A firefighting organization that is granted limited participation in the program will be provided and authorized to issue a Firefighter Certificate of Driving Skill (DL 170F ETP, New 11/05).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1–5–2004; operative 2–4–2004 (Register 2004, No. 2).
2. Amendment of subsection (a), new subsections (c)–(c)(3) and amendment of NOTE filed 9–14–2006; operative 10–14–2006 (Register 2006, No. 37).

§ 25.08. Employer Testing Program Enrollment.

(a) The employer requesting participation in the Employer Testing Program must submit:

(1) An original Employer Testing Program Application for Employer Number (DL520ETP, Rev. 8/02), hereinafter referred to as the Application (DL520ETP, Rev. 8/02). The Application (DL520ETP, Rev. 8/02) will serve as the employer's written agreement with the department. The completed Application (DL520ETP, Rev. 8/02) shall include the following:

- (A) An indication of the type of Application, whether original or renewal.
- (B) Name of employer.
- (C) Previous employer number(s), if any.
- (D) Mailing address (city, state, and zip code).
- (E) Telephone number(s), including area code(s).
- (F) Street address (city, state, and zip code).
- (G) Number of commercial drivers employed.
- (H) Number of commercial vehicles in fleet.
- (I) Nature of business and use of vehicles.
- (J) License class(es) for which driver testing authority is being requested. Requested authority must be consistent with the nature of the employer's business.
- (K) Whether vehicles carry Hazardous Materials.

(L) Street address(es) (city(ies), state and zip code(s)) and telephone number(s), including area code where the primary and alternate driving test routes originate.

(M) The department's route approval numbers (both primary and alternate driving test routes), if using an existing department approved route(s).

(N) Facility name(s), street address(es) (city(ies), state, and zip code(s)) and telephone number(s), including area code where employer's training, testing and employment records are kept.

(O) List of Authorized Representative(s) by name, driver license number, telephone number including area code, address, whether the individual is being added or deleted and date of action.

(P) Administrator's driver license number.

(Q) Administrator's printed name and title.

(R) Administrator's signature under penalty of perjury under the laws of the State of California certifying that the contents of the Application (DL520ETP Rev. 8/02) are true and correct, and that the employer will abide by the provisions of Title 13, California Code of Regulations, Sections 25.06 through 25.22, and Vehicle Code Sections 12804.9(e) and 15250 (c) and (d), governing the Employer Testing Program.

(S) Administrator's office street address (city, state, and zip code).

(T) An indication of the employer's participation in the department's Employer Pull Notice (EPN) program and the EPN number, if applicable.

(2) Documentation of primary and alternate driving test routes on the Employer Testing Program Commercial Driving Performance Evaluation Route and Directions (DL814ETP, Rev. 2/05) and the Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02), which are hereby incorporated by reference, and route map(s) for each driving test route, for department review and approval.

(3) Non-governmental employers shall pay a non-refundable application fee of \$45 (\$15 for each year for a period of three years).

(b) The department shall assign a unique identifying number, hereafter referred to as the employer number, to each employer enrolled in the Employer Testing Program. Exception: Firefighting organizations may band together under one employer number when using the same driving test route(s).

(c) The department shall notify the employer of its assigned employer number and department route approval number(s) within 30 days of the department's receipt of a complete Application (DL520ETP Rev. 8/02) package.

(d) The department shall return the Application (DL520ETP, Rev. 8/02) to the employer within 15 days of the department's receipt of the Application if the Application is incomplete with a cover letter listing the items needing correction. No changes shall be made to the Application (DL 520ETP, Rev 8/02) by department staff.

(e) No amendment, alteration, or variation of the Application (DL520ETP, Rev. 8/02) and Application for Employer Number Addendum (DL520FETP, New 11/05) (firefighting organizations) shall be valid unless made in writing and signed by the employer's Administrator and approved by the department.

(f) A Firefighting organization may request limited participation in the Employer Testing Program to conduct behind-the-wheel driving tests only for the purpose of enabling a firefighter to obtain a Class A or B license restricted to the operation of firefighting equipment. Firefighting organizations requesting limited participation shall submit an Application for Employer Number Addendum (DL520FETP, New 11/05) which is hereby incorporated by reference. The addendum shall be submitted before or during an Employer's enrollment term in the Employer Testing Program.

(g) If the Application (DL520ETP, Rev. 8/02) process has not been completed within 12 months of the department's receipt of the Application (DL520ETP, Rev. 8/02), that Application (DL520ETP, Rev. 8/02) becomes void, and a new Application (DL520ETP, Rev. 8/02), and a non-refundable application fee must be submitted to the department.

(h) The department shall initiate a staggered renewal cycle for existing employers, by imposing a one, two, or three-year renewal period on a

one-time basis at the time these regulations are adopted. Subsequent renewal periods shall be for the three-year period. The employer must renew its employer number every three years to remain active in the program.

(i) The department shall send the employer a renewal packet no later than 90 days prior to expiration of the employer number, which shall include:

(1) An Application (DL520ETP, Rev. 8/02) for completion.

(2) For firefighting organizations granted limited participation in the Employer Testing Program: An Application for Employer Number Addendum (DL520FETP, New 11/05).

(3) A list of drivers certified in the prior period for verification.

(4) A request for payment of an application fee (\$15 for each year) from non-government employers.

(j) The employer shall submit, no later than 45 days prior to expiration of the employer number, the following to renew its employer number. Failure to meet this time frame and/or to provide the required documents may delay the renewal of the employer number.

(1) A completed and signed renewal Application (DL520ETP, Rev. 8/02).

(2) A completed and signed Application for Employer Number Addendum (DL520FETP, New 11/05), if applicable.

(3) A list of drivers certified in the prior period signed by the Administrator.

(4) Payment of an application fee (\$15 for each year) from non-government employers.

(k) An existing employer shall be required to submit documentation of its primary and alternate driving test routes on the Employer Testing Program Commercial Driving Performance Evaluation Route and Directions (DL814 ETP, Rev. 2/05), the Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02), and route map(s) for each driving test route, for department review and approval, with its first renewal Application (DL520ETP, Rev. 8/02).

(l) The department shall return the Application (DL520ETP, Rev. 8/02) within 15 days of the department's receipt if the renewal Application (DL520ETP, Rev. 8/02) is incomplete with a cover letter listing the items needing correction. No changes shall be made to the Application (DL520ETP, Rev. 8/02) by department staff.

(m) The department shall approve the application and notify the employer of its renewed employer number and any new department route approval numbers, within 30 days of receipt of a complete Application (DL520ETP, Rev. 8/02) package.

(n) At the discretion of the department, the employer number expiration date may be extended if all application requirements have been met.

(o) If the employer number is expired, cancelled, suspended, or revoked for more than 12 months, the employer shall submit an original Application (DL520ETP, Rev. 8/02) with the appropriate documents and application fees.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2). For prior history, see Register 96, No. 15.
2. Amendment of subsections (a)(2) and (e), new subsection (f), subsection relettering, new subsections (i)(2) and (j)(2), subsection renumbering, amendment of newly designated subsection (k) and amendment of NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.09. Application Changes.

(a) The following changes must be reported to the department within 10 days of occurrence in writing on company letterhead, or by submitting a completed and signed Application (DL520ETP, Rev. 8/02):

(1) Change of address.

(2) Change of Authorized Representative.

(3) Change in class of license for which driver testing authority is requested.

(b) A change of Administrator or change of employer name must be reported to the department within 10 days of occurrence by submitting an Application (DL520ETP, Rev. 8/02).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9 and 15250, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).

§ 25.10. Driving Test Routes.

(a) Upon adoption of these regulations, every employer who applies for a new and/or renewed employer number must provide documentation of primary and alternate driving test routes on the Employer Testing Program Commercial Driving Performance Evaluation Route and Directions (DL814ETP, Rev. 2/05), Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02), and route map(s). Upon the department's approval, each route will be given a department route approval number.

(b) The department route approval number assigned to the route used for the driving test shall be required on the driving test score sheets and on the Certificate of Driving Skill (DL170ETP, Rev. 11/02) or on the Firefighter Certificate of Driving Skill (DL170FETP, New 11/05).

(c) The department may approve a waiver of missing route elements upon written request by the employer on the Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02) prior to use of the route.

(d) Any changes to an approved route must be reported by the employer on the Employer Testing Program Commercial Driving Performance Evaluation Route and Directions (DL814ETP, Rev. 2/05), Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02), along with the route map, and approved by the department prior to use. A new route number may be issued to changed routes.

(e) Corrections to any route found to be deficient by the Federal Motor Carrier Safety Administration (FMCSA), or its representative, and/or the department, or its representative, must be reported by the employer on the Employer Testing Program Commercial Driving Performance Evaluation Route and Directions DL814ETP, Rev. 2/05), Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02), and route map; and approved by the department before the new/revised route may be used.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2). For prior history, see Register 97, No. 30.
2. Amendment of section and NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.11. Quality Assurance Oversight.

(a) The employer shall establish and maintain a quality assurance program that:

(1) Ensures compliance with all provisions and terms of the Employer Testing Program regulations contained in the California Code of Regulations, Title 13, Sections 25.06 through 25.22.

(2) Ensures adequate internal controls are established for program responsibilities, and appropriate separation of duties are in place for program participants, in accordance with Section 25.19 of these regulations.

(3) Authorizes the Federal Motor Carrier Safety Administration, or its representative, and the department to conduct random examinations, inspections and audits without prior notice.

(4) Permits the department, or its representative to conduct on-site inspections at least annually.

(5) Permits the department to retest certified drivers without cause to compare pass/fail results.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9 and 15250, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2). For prior history, see Register 96, No. 15.

§ 25.12. Driver Training Program.

(a) Every employer shall establish a driver training program for its commercial drivers.

(b) Prior to testing employees for certification purposes under the Employer Testing Program, the employer must provide the employee commercial driver training that includes the following critical elements:

- (1) Conducting a vehicle pre-trip safety inspection.
- (2) Placing the vehicle or a combination of vehicles in operation.
- (3) Using vehicle controls and emergency equipment.
- (4) Operating the vehicle in traffic on public roads, and while passing other vehicles.
- (5) Turning the vehicle.
- (6) Braking and slowing the vehicle by means other than braking.
- (7) Backing and parking the vehicle.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9 and 15250, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).

§ 25.13. Driving Test Program.

(a) The employer must establish a driving test program for certification purposes under the Employer Testing Program, which includes the utilization of the Commercial Driver License Driving Performance Evaluation criteria established by the department, in all driving tests used for certification purposes.

(b) All driving tests must be conducted by an Examiner who has been authorized by the department to conduct driving tests for the Employer Testing Program.

(c) All driving tests must be conducted on an employer's department approved route, with no deviations from the approved route.

(d) If the employer utilizes a commercial vehicle with special equipment plates during the driving test, a trip permit is required at the time of the test.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9 and 15250, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).

§ 25.14. Certificate of Driving Skill (DL170ETP and DL170FETP).

(a) Upon successful completion of the driving test, a Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) shall be completed and signed by the Authorized Representative, Examiner, and driver under penalty of perjury under the laws of the State of California.

(b) When the Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) is presented to the department, the department may waive the driving test for a Class A or B license or restricted firefighter license when the driver has first qualified for a Class C driver license, has met the other examination requirements for the license for which the driver is applying as specified in Vehicle Code Section 12804.9, and the department verifies that the Certificate of Driving Skill (DL170ETP Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) was issued under the provisions of the Employer Testing Program by an authorized employer.

(c) A Certificate of Driving Skill (DL170 ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) shall include the following:

- (1) Driver's name.
- (2) Driver's driver license number.
- (3) Driver's address, including city, state and zip code.
- (4) Driver's home telephone number, including area code.
- (5) Driver's work telephone number, including area code.
- (6) Driver's date of employment with employer.

(7) Driver's signature and date signed under penalty of perjury under the laws of the State of California, including city and county where executed.

(8) Date driver passed the driving test.

(9) Type of vehicle(s), and vehicle features, used in the driving test.

(10) Department route approval number.

(11) Vehicle license plate number(s).

(12) Trailer identification plate number(s), if applicable.

(13) Examiner's printed name.

(14) Examiner's California commercial driver license number.

(15) Examiner's signature and date signed under penalty of perjury under the laws of the State of California, including city and county where executed.

(16) Authorized Representative's printed name.

(17) Authorized Representative's driver license number.

(18) Authorized Representative's signature and date signed under penalty of perjury under the laws of the State of California, including city and county where executed.

(19) Authorized Representative's telephone number including area code and extension.

(20) Employer name.

(21) Employer address, including city, state, and zip code.

(22) Employer number.

(d) A Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) shall include all of the information on a Certificate of Driving Skill (DL170ETP, Rev. 11/02) pursuant to Section 25.14(c), and a statement that the driver understands that the license issued based on the certificate will be restricted to operation of firefighting equipment and Class C vehicles.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).

2. Amendment of section heading, section and NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.15. Record-Keeping Program.

(a) The employer shall keep records of Employer Testing Program related information on training and testing provided to its certified employee drivers. The employer's records shall include the following:

(1) The employee's full name, address, and driver license number.

(2) The type of instruction the driver was given during training.

(3) The date(s) instruction was given.

(4) The subjects covered.

(5) The total hours of instruction.

(6) The training instructor's full name and address.

(7) A copy of the instructor's contract with the employer, if applicable.

(8) The results of any driving test conducted in conjunction with the training.

(9) The driving test Examiner's name and driver license number.

(10) Examiner's written contract with the employer.

(11) An Employer Testing Program Examiner Driver Testing Log (DL 819 ETP, New 1/2005), which is incorporated by reference, shall document the driving tests conducted, including both passed and failed driving tests. A copy of the Examiner's log shall document the past 90 days of certificate activity. The Examiner's log shall include the following:

(A) Examiner Name.

(B) Examiner Driver License Number.

(C) Examiner class of driver license and endorsements.

(D) Examiner address, city, state and zip code.

(E) Examiner telephone number.

(F) Driver name.

(G) Driver's driver license number.

(H) Name of Driver's Employer.

(I) Date of driving test.

(J) Results of the driving test (passed/failed).

(K) Documentation of any training drive tests conducted pursuant to Section 25.22.

(12) A copy of the trip permit for any commercial vehicle with special equipment plates used in the driving test, valid for the date(s) of the test.

(13) All pass and fail driving test score sheets ETP CDL Pre-Trip Inspection Evaluation Score Sheet/ETP CDL Driving Performance Evaluation Score Sheet (DL65ETP, Rev. 4/03), which is hereby incorporated by reference, used for each employee who is tested for purposes of issuing a Certificate of Driving Skill (DL170ETP, Rev. 11/02) or a Firefighter Certificate of Driving Skill (DL170FETP, New 11/05), pursuant to Section 25.22(d).

(14) A copy of each Certificate of Driving Skill (DL170ETP, Rev. 11/02) or a Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) issued.

(15) Documentation of the department approved primary and alternate driving test routes on the Employer Testing Program Commercial Driving Performance Evaluation Route and Directions (DL814ETP, Rev. 2/05), the Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02), and route map(s) for each driving test route.

(b) The employer must keep training records, driving test score sheets, employment records, examiner drive test logs, and all other Employer Testing Program related records for the three most recent years of the employer's participation in the Employer Testing Program and for a minimum of three years after the employer number becomes invalid (i.e., expired, cancelled, revoked, or suspended), during each driver's three most recent years of employment, and three years after the driver is released from employment.

(c) The employer shall make available all Employer Testing Program related records pertaining to driver training, testing, and employment, for monitoring by the Federal Motor Carrier Safety Administration, or its representatives, and the department during normal business hours at the record-keeping location identified on the employer's Application (DL520ETP, Rev. 8/02).

(d) At the department's request, the employer shall make records available which verify that:

(1) The Administrator and Authorized Representative are employees at the time of program activity.

(2) The drivers issued a Certificate of Driving Skill (DL170ETP, Rev. 11/02) or a Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) are its employees at the time of driver training, testing, and certification.

(3) The Examiner is under written contract with the employer at the time of the driving test.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).
2. New subsections (a)(11)-(a)(11)(J), subsection renumbering and amendment of subsection (b) filed 3-30-2005 as an emergency; operative 3-30-2005 (Register 2005, No. 13). A Certificate of Compliance must be transmitted to OAL by 7-28-2005 or emergency language will be repealed by operation of law on the following day.
3. New subsections (a)(11)-(a)(11)(J), subsection renumbering and amendment of subsection (b) refiled 7-28-2005 as an emergency; operative 7-28-2005 (Register 2005, No. 30). A Certificate of Compliance must be transmitted to OAL by 11-25-2005 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to 3-30-2005 and 7-28-2005 emergency amendments by operation of Government Code section 11346.1(f) (Register 2006, No. 7).
5. New subsections (a)(11)-(a)(11)(K), subsection renumbering, amendment of newly designated subsections (a)(13)-(15) and subsections (b) and (d)(2) and amendment of NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.16. Sample Testing of Certified Drivers.

(a) At the discretion of the department, the employer shall permit the department to test a sample of its drivers tested and certified by the em-

ployer, for the purposes of comparing pass/fail results between the employer's Examiner and the department's examiners.

(b) The selection of drivers to be tested shall be determined by the department.

(c) The employer shall notify each certified driver of the possibility of being required to pass a department-administered test at the department's discretion.

(d) The department shall provide written notice to the employer and the driver when the driver is selected for the department-administered test.

(e) The employer shall be held responsible for ensuring that the driver is available for a test at the department within 30 days of the department's notice for a department-administered test unless the driver is no longer employed by the employer. The employer must submit a copy of the driver's drive test score sheets to the department within 30 days of the written notice of the selection. If the driver is no longer employed by the employer, the employer shall notify the department within 10 days of receipt of the department's notice of the selection for the department-administered test.

(f) The department shall invalidate the Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) if the driver does not return to the department for the department-administered test, which shall result in the driver's license being downgraded to the previous class that the driver possessed before certification.

(g) The department will conduct an investigation of any driver who fails the department-administered test and may require a re-examination of the driver to retain the class of license issued through the Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05).

(h) If the driver fails the department-administered re-examination, the department shall downgrade the license to the previous class that the driver possessed before certification.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 13800, 13801, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).
2. Amendment of subsections (f)-(g) and amendment of NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.17. Cancellations/Reinstatements.

(a) An employer with an active employer number may at any time after issuance voluntarily cancel its employer number by submitting to the department an Employer Testing Program Voluntary Cancellation Request of Employer Number (DL520CETP, Rev. 8/03); or a written request to the department on employer letterhead with the following information:

- (1) Employer name.
- (2) Mailing address, city, state and zip code.
- (3) Terminal physical address, city, state, and zip code.
- (4) Telephone number, including area code.
- (5) Employer number.
- (6) Reason for cancellation.
- (7) Effective date of cancellation.
- (8) Date of request.
- (9) Administrator's printed name and signature.

(b) An employer who has been granted a voluntary cancellation of its employer number and wishes to reactivate its employer number may do so, as long as the prior term of the employer number has not expired. An employer seeking to reactivate an employer number shall submit an Employer Testing Program Request for Reactivation Employer Number (DL817ETP, Rev. 7/02), which is hereby incorporated by reference, to the department. If the employer number expires within 60 days of the date of Request for Reactivation, the employer must submit a renewal Application (DL520ETP, Rev. 8/02), an Application for Employer Number Addendum (DL520FETP, New 11/05) when the employer is a firefighting organization requesting limited participation in the Employer Testing Program, the Employer Testing Program Commercial Driving Perfor-

mance Evaluation Route and Directions (DL814ETP, Rev. 2/05), Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02), the route map, and payment of a \$45 non-refundable application fee (\$15 for each year for a three year period) for non-governmental employers.

(c) The department may cancel an employer number if the employer number was issued in error, by giving the employer at least 15 days prior written notice of such cancellation. Whenever an employer number is cancelled by the department, it shall be without prejudice.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).
2. Amendment of subsection (b) and amendment of NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.18. Sanctions/Reinstatements.

(a) The department reserves the right to take prompt and appropriate remedial action against the employer, examiners, and/or its certified drivers in the event that they:

(1) Fail to comply with State and/or federal standards for commercial driver license testing in the federal Code of Regulations, Title 49, Part 383, Subpart E, G and H;

(2) Fail to comply with the terms of the Employer Testing Program provisions in the California Code of Regulations, Title 13, Sections 25.06 through 25.22, and California Vehicle Code Sections 12804.9(e) and 15250 (c) and (d);

(3) Commit a serious offense that affects public safety; or

(4) Commit fraud or other criminal activity related to participation in the Employer Testing Program.

(b) The department will provide a 15-day written notice to the employer before suspending or revoking the employer number. However, the department shall immediately suspend or revoke the employer number if an employer is engaging in practices in such a manner that immediate suspension or revocation is required for the safety of persons on the highway. In reaching a decision on a disciplinary action, the Director of Motor Vehicles or his or her designee shall consider the guidelines entitled "Employer Testing Program Guidelines for Sanctions" (9/3/02, which are hereby incorporated by reference, and any and all other sanctions provided by relevant statutes and regulations. Deviation from these guidelines is appropriate where the Director or his or her designee, in his or her sole discretion, determines that the facts of the particular case warrant such a deviation, for example, the presence of mitigating factors, the age of the case, and evidentiary problems.

(1) A warning letter may be sent to an employer for minor violations.

(2) A first offense of less severity may be a minimum of 30-days suspension.

(3) A second offense of the same conduct may be a revocation for not less than 12 months.

(4) A serious offense that affects public safety, fraud, and non-compliance with required federal regulations/state statutes, may result in a revocation. A revocation shall be for a period of not less than 12 months.

(c) In the event the department suspends the employer number, the employer will be prohibited from conducting training, testing, and/or driver certification until verification is made that appropriate action has been taken to correct deficiencies causing the suspension, and the department lifts the suspension.

(d) Any action to appeal or review any order of the department canceling, suspending, or revoking an employer number shall be brought in a court of competent jurisdiction under Section 1085 of the Code of Civil Procedure, or as otherwise permitted by the laws of this state. The action shall be commenced within 90 days from the effective date of the order.

(e) An employer who has been suspended may submit a Employer Testing Program Request for Reinstatement Employer Number (DL813ETP, NEW 11/01), which is hereby incorporated by reference, after the period of suspension has ended. The department shall verify that the employer has corrected the deficiencies prior to reinstatement.

(f) An employer that has had its employer number revoked may submit an original Application, (DL520ETP, Rev. 8/02), an Application for Employer Number Addendum, (DL520FETP, New 11/05) when the employer is a firefighting organization requesting limited Employer Testing Program participation, along with proof of correction of the deficiencies which precipitated the revocation, documentation of primary and alternate driving test routes pursuant to subdivision (a)(2) of Section 25.08 of these regulations, and payment of a non-refundable \$45 Application fee (\$15 per year for three years) for non-governmental employers.

(g) The department shall provide a 15-day written notice to the employer and the Examiner before the department discontinues the Examiner's eligibility to conduct driving tests when it has been determined that driving tests were not conducted pursuant to Commercial Driver License Driving Performance Evaluation requirements; the Examiner has an action taken against his or her commercial driver license that disqualifies him or her to act as an Examiner (the driver license is suspended, revoked, or cancelled, or the driver is on probation for negligent operation of a motor vehicle); or the Examiner is not available to participate in the monitoring of Employer Testing Program activities.

(h) The Examiner must meet the provisions of subdivision (a) of Section 25.22 of these regulations prior to being reinstated after discontinuation of eligibility to act as an examiner under subsection (g). An Employer Testing Program Request for Reinstatement — Examiner (DL810ETP, Rev. 1/2005), which is hereby incorporated by reference, and a \$55 training fee shall be submitted to the department to attend the training. A new Certificate of Training will be issued upon successful class completion.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; Part 383, of Title 49 of the Code of Federal Regulations; and Sections 11340.5 and 11425.50(e), Government Code.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).
2. Amendment of subsections (g) and (h) filed 3-30-2005 as an emergency; operative 3-30-2005 (Register 2005, No. 13). A Certificate of Compliance must be transmitted to OAL by 7-28-2005 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsections (g) and (h) refiled 7-28-2005 as an emergency; operative 7-28-2005 (Register 2005, No. 30). A Certificate of Compliance must be transmitted to OAL by 11-25-2005 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to 3-30-2005 and 7-28-2005 emergency amendments by operation of Government Code section 11346.1(f) (Register 2006, No. 7).
5. Amendment of subsections (f)-(h) and amendment of NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.19. Employer Roles and Responsibilities.

(a) The employer shall designate an Administrator, and shall designate one or more Authorized Representative(s) and one or more Examiner(s).

(1) The Administrator and Authorized Representative may be one and the same person under the same employer number.

(2) The Administrator may not act as an Examiner under the same employer number.

(3) The Authorized Representative may be an Examiner under the same employer number, but cannot assume or sign for both responsibilities on the same Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05).

(b) The employer must ensure that all drivers are provided commercial driver training pursuant to subdivision (b) of Section 25.12 of these regulations prior to certification.

(c) The employer must enroll each commercial driver under its Employer Pull Notice number after issuance of the Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05), and during the driver's actual term of employment.

(d) The employer must enroll each Examiner under its Employer Pull Notice number during the employer and Examiner's contract period.

(e) When the employer receives a pull notice printout that reflects that an action has been taken against the Examiner's California commercial driver license that would disqualify the Examiner from conducting tests

for certification purposes under subdivisions (a)(2) and (a)(3) of Section 25.22 of these regulations, the employer must immediately discontinue the Examiner's testing authority. The employer must notify the department of this disqualification within 10 days of receipt of the pull notice printout.

(f) Upon adoption of these regulations, prior to allowing an Examiner to conduct a commercial driving test, the employer must:

(1) Ensure the Examiner is eligible under these regulations to administer driving tests for the specified class of license. An Examiner who has not conducted a driving test for 90 consecutive days is not eligible to conduct driving tests until he/she attends and passes a department sponsored Examiner refresher-training course, except as provided in section 25.22(f)(1).

(2) Enter into a written contract with all new examiners at the time of appointment, and with existing examiners at the time of the employer's first renewal.

(g) The employer's contract with the Examiner hereinafter referred to as the "Examiner's contract" must contain, at a minimum, the following provisions. The Examiner must:

(1) Have held a valid California Class A or Class B commercial driver license or a restricted firefighter Class A or Class B driver license for at least three consecutive years with the appropriate classification and endorsement for new and reinstated examiners.

(2) Currently hold a valid California Class A or Class B commercial driver license or a restricted firefighter Class A or Class B driver license with the appropriate classification and endorsements for the requested testing authority prior to being approved to attend training.

(3) Have attended and passed examiner training conducted by the department.

(4) Allow the employer to enroll him/her under the employer's Employer Pull Notice number.

(5) Verify that the driver has acquired an instruction permit from the department prior to testing.

(6) Certify that the driver successfully completed the required commercial driving test (i.e., pre-trip inspection, skills test, and road test).

(7) Certify that the correct type of commercial vehicle(s) was used for the driving test.

(8) Provide the employer with the original score sheets used during the driving test of drivers.

(9) Be available, between the hours of 8:00 a.m. to 5:00 p.m., with notice, to participate in the monitoring of the employer's third party testing program for the duration of the Examiner's contract and for a period of one year after contract termination.

(10) Not conduct commercial driving tests if his/her California commercial driver license is not valid or is on probation for negligent operation of a motor vehicle. Maintain his/her Examiner eligibility by conducting at least one driving test for certification purposes during a consecutive 90-day period; or attend and pass Examiner refresher training to reinstate his/her Examiner eligibility prior to conducting a driving test, except as provided in section 25.22(f)(1).

(11) Maintain an Employer Testing Program Examiner Driver Testing Log (DL 819 ETP, New 1/2005) of all driving tests conducted, including failed driving tests, and provide a copy of the log to the Employer.

(12) Not act as an Examiner for his/her own relative, supervisor, or for himself/herself.

(13) Not sign a Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) for his/her own relative, supervisor, or himself/herself.

(14) Not knowingly sign a false or incorrect Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05).

(h) Prior to the issuance of a Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05), the employer must ensure that the driver was:

(1) Employed by the employer at the time of training.

(2) Trained prior to taking the driving test.

(3) Employed by the employer at the time the driving test is given.

(4) Employed by the employer at the time the Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) was approved by the Authorized Representative.

(5) Required by law to hold a commercial license to operate commercial vehicles in the course of employment with this employer.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).
2. Amendment of subsections (f)(1) and (f)(10), new subsection (f)(11) and subsection renumbering filed 3-30-2005 as an emergency; operative 3-30-2005 (Register 2005, No. 13). A Certificate of Compliance must be transmitted to OAL by 7-28-2005 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsections (f)(1) and (f)(10), new subsection (f)(11) and subsection renumbering refiled 7-28-2005 as an emergency; operative 7-28-2005 (Register 2005, No. 30). A Certificate of Compliance must be transmitted to OAL by 11-25-2005 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to 3-30-2005 and 7-28-2005 emergency amendments by operation of Government Code section 11346.1(f) (Register 2006, No. 7).
5. Amendment of section and NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.20. Administrator Roles and Responsibilities.

(a) The Administrator must be an employee of the employer, and must have sufficient knowledge of the provisions of the California Code of Regulations, Title 13, Sections 25.06 through 25.22, to oversee the program and serve as the employer's liaison with the department.

(b) The Administrator must sign the Application (DL520ETP, Rev. 8/02), Application for Employer Number Addendum (DL520FETP, New 11/05), when the employer is a fire fighting organization applying for limited participation in the Employer Testing Program, Employer Testing Program Commercial Driving Performance Evaluation Route and Directions (DL814ETP, Rev. 2/05) and the Employer Testing Program Commercial DPE Maneuver Checklist (DL807ETP, Rev. 7/02) if requesting a route exemption.

(c) The Administrator is responsible for ensuring compliance with all provisions and terms of the Employer Testing Program regulations contained in the California Code of Regulations, Title 13, Sections 25.06 through 25.22.

(d) The Administrator must ensure that the Authorized Representatives, Examiners, and all drivers abide by the terms of the Employer Testing Program regulations contained in the California Code of Regulations, Title 13, Sections 25.06 through 25.22, in the performance of their roles and responsibilities.

(e) The Administrator must ensure that the driving test used for certification purposes meets the department's Commercial Driver License Driving Performance Evaluation standards.

(f) The Administrator must ensure that the employer continues to meet the qualifying criteria for an employer number pursuant to Section 25.07 of these regulations.

(g) The Administrator must ensure that any deficiencies found in the employer's program are corrected prior to the employer resuming Employer Testing Program training, testing, and driver certification.

(h) The Administrator must provide proper training, testing, and employment records and other required documentation when requested for inspection and verification by the Federal Motor Carrier Safety Administration, or its representative, and the department or its representative.

(i) The Administrator must not allow a Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) to be issued when the employer no longer qualifies for participation in the program.

(j) The Administrator must ensure the Examiner has successfully passed the department's Examiner training and has the appropriate valid

California commercial driver license for the type of vehicle used for certification purposes, prior to the employer's contract with the Examiner.

(k) The Administrator must not allow an Examiner to conduct a driving test when the Examiner is no longer authorized or qualified to do so.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code, and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).
2. Amendment of subsections (b) and (i) and amendment of NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.21. Authorized Representative Roles and Responsibilities.

(a) The Authorized Representative must be an employee of the employer.

(b) The Authorized Representative shall be responsible for ensuring that the Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) is accurate and complete before signing.

(c) The Authorized Representative must verify that the Examiner conducting the commercial driving test has:

- (1) a current contract with the employer,
- (2) maintained his/her eligibility by conducting a least one driving test during the preceeding 90 day period or successfully completed refresher training prior to conducting the driving test, except as provided in Section 25.22(f)(1) and
- (3) a valid commercial driver license with the appropriate class and endorsement, for the commercial driving test conducted at the time of the driving test.

(d) The Authorized Representative must verify that the driver being certified has received specified commercial driver training, and is an employee of the employer at the time of the training.

(e) The Authorized Representative must verify that the driver being tested for certification purposes is an employee of the employer at the time of the driving test.

(f) The Authorized Representative must verify that driver being certified under the employer's employer number is an employee of the employer at the time of certification.

(g) The Authorized Representative must ensure the required test is given to the driver using a department approved route.

(h) The Authorized Representative must not act or sign as the Examiner on the same Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05).

(i) The Authorized Representative must not act as an Authorized Representative for his/her own relative, supervisor, or for himself or herself.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 15250 and 15250.6, Vehicle Code; and Part 383, of Title 49 of the Code of Federal Regulations.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).
2. Amendment of subsection (c) and new subsections (c)(1)-(3) filed 3-30-2005 as an emergency; operative 3-30-2005 (Register 2005, No. 13). A Certificate of Compliance must be transmitted to OAL by 7-28-2005 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (c) and new subsections (c)(1)-(3) refilled 7-28-2005 as an emergency; operative 7-28-2005 (Register 2005, No. 30). A Certificate of Compliance must be transmitted to OAL by 11-25-2005 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to 3-30-2005 and 7-28-2005 emergency amendments by operation of Government Code section 11346.1(f) (Register 2006, No. 7).
5. Amendment of section and NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 25.22. Examiner Roles and Responsibilities.

(a) An Examiner is not authorized to conduct a commercial driving test for his/her employer until he or she does all of the following:

(1) For new and reinstated examiners, shall submit an Employer Testing Program Examiner Application (DL811ETP, Rev. 1/2005), which is

hereby incorporated by reference, or Employer Testing Program Request for Reinstatement-Examiner (DL810ETP, Rev. 1/2005), whichever is applicable, to the department. The department shall notify the Examiner applicant of their qualification to be enrolled in the department-sponsored Examiner Training class within 30 days of a complete Application. The department shall notify the examiner applicant within 30 days if the examiner fails to meet program requirements as stated in Section 25.22(a)(2)(6) to be an examiner. A letter will be sent to the applicant explaining the reason for the denial. If the Application is incomplete, a cover letter will be sent to the applicant within 15 days listing the items needing correction.

(2) For new and reinstated examiners, has held a valid commercial driver license for at least three years, with the appropriate class and endorsements.

(3) Currently holds a valid California commercial driver license with appropriate class and endorsements for the type of license for which the Examiner is requesting testing authority. Also, the Commercial Driver License must be consistent with the type required to drive the test vehicle.

(4) Has no current actions against his/her California commercial driver license that would disqualify him/her to act as an Examiner; i.e., suspended, revoked, cancelled, or on probation for negligent operation of a motor vehicle.

(5) Pays a \$150 examiner training fee.

(6) Attends and passes a department-sponsored examiner training class to establish his/her eligibility to act as an Examiner and receives a valid Certificate of Training.

(A) If the Examiner does not pass the training course, the training fee is non-refundable.

(B) If the Examiner does not pass the training course and applies to attend the training course again, an additional \$150 training fee shall be paid.

(C) If the Examiner does not attend the training class within one year of the department receiving the Employer Testing Program Examiner Application (DL811ETP, Rev. 1/2005), the Examiner must submit a new Employer Testing Program Examiner Application (DL811ETP, Rev. 1/2005) and pay a \$150 training fee to enroll in the department-sponsored examiner training course. Prior training fees paid are not refundable or transferable.

(7) The Examiner must be under written contract with the employer(s) at the time he/she conducts the driving test, as required in section 25.19(f)(2) of these regulations.

(b) The Examiner shall submit a written request to the department when the Examiner seeks authority to test drivers on vehicles that require a class of license or endorsement for which the Examiner is not authorized. The department shall verify that the Examiner has held a California Commercial Driver License for three years of the appropriate class and endorsements for type of license for which the Examiner is requesting testing authority, prior to approval of the request.

(c) The Examiner shall verify that the driver has obtained an instruction permit from the department appropriate for the test vehicle prior to testing.

(d) The Examiner shall maintain on file an Employer Testing Program Examiner Driver Testing Log (DL 819 ETP, New 1/2005) of all driving tests conducted for certification purposes, which includes a record of driving tests conducted under each Employer Number with whom the Examiner has a contract to conduct driving tests. The log must include successfully completed and failed driving tests.

(e) The Examiner shall conduct all driving tests for certification purposes using the Commercial Driver License Driving Performance Evaluation criteria established by the department.

(f) An Examiner, upon authorization by the department to conduct commercial driving tests as defined in Title 13, Section 25.06(b), who fails to conduct a driving tests for a period of 90 consecutive days, is ineligible to conduct commercial driving tests upon the 91st day of inactivity and must submit an Employer Testing Program Request for Reinstatement.

ment—Examiner (DL 810 ETP, Rev. 1/2005), attend and pass a department sponsored Examiner refresher—training class, and be reinstated by the department before conducting additional commercial driving tests.

(1) An Examiner who conducts driving tests only for a firefighter organization(s) that is a limited participant in the Employer Testing Program shall remain eligible to conduct driving tests even though he/she fails to conduct a driving test for a period of 90 consecutive days, provided that the Examiner completes a training drive test.

(2) The training drive test shall consist of the Examiner conducting a pre-trip inspection, skills test, and road test on the department approved route, accompanied and observed by an Authorized Representative, while the Examiner explains the scoring process.

(3) The Authorized Representative shall make a notation in the Employer Testing Program Examiner Driver Testing Log (DL819ETP, New 1/2005) indicating that a training drive test was successfully completed and shall sign and date the notation.

(g) The Examiner shall verify that the driver is given and successfully passes a complete commercial driving test including the pre-trip inspection, skills, and road tests.

(h) The Examiner shall verify that the correct type of commercial vehicle is used for the driving test.

(i) An Examiner shall not act as the Authorized Representative for the same driving test that he/she conducted.

(j) The Examiner shall complete and sign the Certificate of Driving Skill (DL170ETP, Rev. 11/02) or Firefighter Certificate of Driving Skill (DL170FETP, New 11/05) as the Examiner.

(k) An Examiner may work for more than one employer concurrently, as long as he/she is under written contract with each employer.

(l) The Examiner must allow each employer to enroll him/her in the Employer's Pull Notice program during the contract period.

(m) The Examiner shall maintain a valid medical card and ensure that a valid Medical Examination Report (DL51, Rev. 2/2004), described in Section 110.04(b) of Title 13 of the California Code of Regulations, is on file with the department. An Examiner possessing a noncommercial firefighter license Class A or B must submit a Health Questionnaire (DL546, Rev. 4/2000), described in Sections 28.22 and 28.23 of Title 13 of the California Code of Regulations, to the department.

(n) Upon the department's request, the Examiner shall be available between the hours of 8:00 a.m. to 5:00 p.m., with notice, to participate during the monitoring of the employer's third party testing program for the duration of the Examiner's contract and for one year after termination of the contract.

(o) The Examiner must update testing skills as needed in response to statutory and program changes. The department shall notify Examiners of statutory and program changes, and may require additional department-sponsored training to maintain eligibility.

HISTORY

1. New section filed 1-5-2004; operative 2-4-2004 (Register 2004, No. 2).
2. Amendment of subsections (a)(5) and (a)(6)(B)–(C), new subsections (d) and (f) and subsection relettering filed 3-30-2005 as an emergency; operative 3-30-2005 (Register 2005, No. 13). A Certificate of Compliance must be transmitted to OAL by 7-28-2005 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsections (a)(5) and (a)(6)(B)–(C), new subsections (d) and (f) and subsection relettering refiled 7-28-2005 as an emergency; operative 7-28-2005 (Register 2005, No. 30). A Certificate of Compliance must be transmitted to OAL by 11-25-2005 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to 3-30-2005 and 7-28-2005 emergency amendments by operation of Government Code section 11346.1(f) (Register 2006, No. 7).
5. Amendment of section and NOTE filed 9-14-2006; operative 10-14-2006 (Register 2006, No. 37).

§ 28.18. Minimum Physical and Medical Requirements for Class A, B, or Commercial Class C Driver Licenses; or Ambulance Driver Certificates.

The minimum medical requirements for a Class A, B, or Commercial Class C license or Ambulance Driver Certificate, required by Section 12804.9(a)(1), 12527(a) or 15275 of the Vehicle Code shall be:

(a) those standards required of motor carrier drivers by the Federal Highway Administration of the Department of Transportation as set forth in the Federal Motor Carrier Safety Regulations at 49 CFR 391.41 and

(b) those standards recommended in the medical advisory criteria for hypertension as set forth at 49 CFR 391.43(f) (Instructions for Performing and Recording Physical Examinations) prepared by the Federal Motor Carrier Safety Administration as guidelines to aid the medical examiner in making the qualification determination as they relate to blood pressure, hypertension, and recertification periods based on hypertension.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9(a)(1), 12527(a), 15210 and 15275, Vehicle Code; and Sections 391.41 and 391.43, Title 49, Code of Federal Regulations.

HISTORY

1. Change without regulatory effect renumbering former section 100.18 to section 28.18 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section heading, text and NOTE filed 10-26-94; operative 11-25-94 (Register 94, No. 43).
3. Amendment of section heading, section and NOTE filed 10-18-2005; operative 11-17-2005 (Register 2005, No. 42).

§ 28.19. Medical Certificates Required by Section 12804.9(a)(1), 12527(c)(3) and 15275 of the Vehicle Code that May be Issued by the Department of Motor Vehicles.

Unless otherwise specified, the medical examination form and medical certificate referenced in this section are those forms approved by the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation. If the medical examiner elects not to issue a medical certificate or the department determines that the applicant does not meet required physical qualifications for such a medical certificate, an applicant wishing to drive ambulances or Class A, B, or Commercial Class C vehicles for purposes other than engaging in interstate commerce, may submit a completed medical examination form to the department for consideration of obtaining a state approved medical certificate. Upon approval by the department, the department may issue a state approved medical certificate which qualifies the applicant to drive ambulances or Class A, B, or Commercial Class C vehicles for purposes other than engaging in interstate commerce if:

(a) The department determines from review of the examination form and any additional medical information submitted, that the applicant meets the standards set forth under Federal Motor Carrier Safety Regulations 49 CFR 391.41, or

(b) The applicant for a Class A or B license, or a Commercial Class C license, does not meet the standards set forth under Federal Motor Carrier Safety Regulations because of a physical condition wherein safe driving ability can be determined by driving examination and in the opinion of the department the defect is compensated for to insure safe driving ability. If such a state approved medical certificate is issued by the department, the applicant shall not be permitted to operate vehicles requiring a passenger vehicle endorsement or a hazardous materials endorsement pursuant to Section 15278 of the Vehicle Code. The department may authorize the applicant to continue to operate any of said vehicles if the applicant is renewing a California Class A, B, or a Commercial Class C license permitting the operation of such vehicles, or is applying for a medical certificate to keep valid such a license that has not yet expired, or

(c) The applicant for a Class A or B license, or a Commercial Class C license, fails to meet the standards set forth under Federal Motor Carrier Regulations because of a condition or conditions other than those where-

in safe driving ability can be determined by a driving examination, provided that the department determines upon evaluation of competent medical evidence that the condition or conditions do not affect the driver's ability to drive safely and may reasonably be expected not to affect the driver's ability to drive safely within two (2) years. If such a state approved medical certificate is issued by the department, the applicant shall not be permitted to operate vehicles requiring a passenger vehicle endorsement or a hazardous materials endorsement pursuant to Section 15278 of the Vehicle Code. The department may authorize the applicant to continue to operate any of said vehicles if the applicant is renewing a California Class A, B, or a Commercial Class C license permitting the operation of such vehicles, or is applying for a medical certificate to keep valid such a license that has not yet expired, or

(d) The applicant for an Ambulance Driver Certificate fails to meet the standards set forth under Federal Motor Carrier Regulations provided that the department determines upon evaluation of competent medical evidence that the condition or conditions do not affect his ability to drive safely and may reasonably be expected not to affect his ability to drive safely within two (2) years.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9(a)(1), 12527(c)(3), 13369, 13372, 15210, 15275 and 15278, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.19 to section 28.19 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section heading, text and NOTE filed 10-26-94; operative 11-25-94 (Register 94, No. 43).
3. Repealer and new first paragraph and amendment of subsections (b), (c) and (d) filed 10-18-2005; operative 11-17-2005 (Register 2005, No. 42).

§ 28.20. Medical Requirements for Hazardous Agricultural Materials Endorsement.

(a) The minimum medical requirements for a hazardous materials endorsement issued pursuant to Section 12804.2 of the Vehicle Code shall be those standards specified in Section 28.18 of Article 2.1, Chapter 1, Division 1, of Title 13 of the California Code of Regulations.

(b) The department shall require a person applying for a hazardous agricultural materials endorsement to complete and submit to the department a Health Questionnaire, Form DL 546 (Rev. 11/2004) provided by the department, pursuant to Section 28.23.

(c) If an applicant for a hazardous agricultural materials endorsement fails to meet the medical standards set forth in subdivision (a), the department shall not issue the endorsement unless the applicant is renewing a license with a hazardous agricultural materials endorsement, or is submitting a new Health Questionnaire, form DL 546 (Rev. 11/2004), to retain such an endorsed license that has not yet expired, and the department determines upon evaluation of competent medical evidence that the condition or conditions do not affect the driver's ability to drive safely, and may reasonably be expected not to affect the driver's ability to drive safely within two years.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 12804.2, Vehicle Code.

HISTORY

1. New section filed 9-12-2000; operative 10-12-2000 (Register 2000, No. 37).
2. Amendment of subsections (b) and (c) filed 10-18-2005; operative 11-17-2005 (Register 2005, No. 42).

§ 28.21. Medical Requirements for Restricted Class A Driver License.

(a) A person applying for a restricted Class A driver license issued pursuant to Section 12804.12 or 12804.14 of the Vehicle Code shall meet the following minimum medical requirements before a restricted license can be issued:

(1) Color Test. An applicant must be able to recognize the standard red, green, and amber colors of traffic signals and devices.

(2) Peripheral Vision. An applicant must have peripheral vision of 70 degrees or greater in the horizontal Meridian in each eye.

(3) Hearing. An applicant must be able to perceive a forced whispered voice in the better ear, without a hearing aid, at a distance of not less than five (5) feet.

(4) Visual Acuity. An applicant's visual acuity must be 20/40 or better in each eye with or without corrective lenses.

(5) Upper and Lower Extremities. An applicant must have:

(A) no loss of a foot, leg, hand, arm, or finger.

(B) no impairment of a hand or finger which interferes with grasping.

(C) no impairment of an arm, hand, foot, or leg, or any other limitation that interferes with the ability to safely operate a motor vehicle.

(6) Diabetes. An applicant must have no history or clinical diagnosis of diabetes mellitus currently requiring insulin for control.

(A) Prior to evaluation of competent medical evidence as specified in subdivision (c)(2), the department shall not issue a temporary or interim restricted Class A driver license to an applicant who has had a hypoglycemic episode or any adverse reaction related to diabetes in the last three (3) years.

(7) Heart. An applicant must have no current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, stroke, or congestive cardiac failure.

(A) Prior to evaluation of competent medical evidence as specified in subdivision (c)(2), the department shall not issue a temporary or interim restricted Class A driver license to an applicant who has had labored breathing, fainting, collapse, congestive heart failure, or other symptoms in the last three (3) years which may interfere with the ability to safely operate a motor vehicle.

(8) Lungs. An applicant must have no established medical history or clinical diagnosis of a respiratory condition such as emphysema, chronic asthma, or tuberculosis that is likely to interfere with ability to safely operate a motor vehicle.

(9) Blood Pressure. An applicant must have no current clinical diagnosis of high blood pressure which is likely to interfere with the ability to safely operate a motor vehicle.

(A) Prior to evaluation of competent medical evidence as specified in subdivision (c)(2), the department shall not issue a temporary or interim restricted Class A driver license to an applicant whose blood pressure is usually 140/90 or higher.

(10) Muscle, Orthopedic, or Vascular Condition. An applicant must have no established history or clinical diagnosis of a rheumatic, arthritic, orthopedic, muscular, neuromuscular, or vascular disease which interferes with the ability to safely operate a motor vehicle.

(11) Mental Condition. An applicant must have no diagnosis of a mental, nervous, organic or functional disease, or psychiatric disorder which is likely to interfere with the ability to safely operate a motor vehicle.

(12) Epilepsy and/or Lapse of Consciousness. An applicant must have no established medical history or clinical diagnosis of epilepsy, or any other condition which is likely to cause loss of consciousness or any loss of ability to control a motor vehicle.

(A) Prior to evaluation of competent medical evidence as specified in subdivision (c)(2), the department shall not issue a temporary or interim restricted Class A driver license to an applicant who has had a loss of consciousness or loss of ability to control a motor vehicle in the last three (3) years.

(13) Drugs. An applicant must not use a controlled substance, amphetamine, narcotic, or any other habit-forming drug.

(A) If the applicant is taking a substance or drug that is prescribed by the doctor who is familiar with the driver's medical history and has advised the driver that the substance or drug will not adversely affect the driver's ability to safely operate a motor vehicle, the department may issue a restricted Class A driver license to the applicant.

(14) Alcohol. An applicant must have no current clinical diagnosis of alcoholism.

(b) The department shall require a person applying for a restricted Class A driver license to complete and submit to the department a Health Questionnaire, form DL 546 (Rev. 11/2004), provided by the department, pursuant to Section 28.23.

(c) If an applicant for a restricted Class A driver license does not meet the medical requirements set forth in subdivision (a), the department may issue a restricted Class A license under any of the following conditions:

(1) The department does not meet the minimum medical requirements set forth in subdivision (a) because of a physical condition wherein safe driving ability can be determined by driving examination and, in the opinion of the department, the defect is compensated for to insure safe driving ability; or

(2) The department determines, upon evaluation of competent medical evidence, that the condition or conditions do not affect the driver's ability to drive safely and may reasonably be expected not to affect the driver's ability to drive safely within two (2) years.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.12 and 12804.14, Vehicle Code.

HISTORY

1. New section filed 9-12-2000; operative 10-12-2000 (Register 2000, No. 37).
2. Amendment of subsections (a)(9)(A) and (b) filed 10-18-2005; operative 11-17-2005 (Register 2005, No. 42).

§ 28.22. Medical Requirements for Restricted Fire Fighter Driver License.

(a) The minimum medical requirements for a restricted fire fighter driver license issued pursuant to Section 15250.6 of the Vehicle Code shall be those standards specified in Section 28.18 of Article 2.1, Chapter 1, Division 1, of Title 13 of the California Code of Regulations.

(b) The department shall require a person applying for a restricted fire fighter driver license to complete and submit to the department a Health Questionnaire, Form DL 546 (Rev. 11/2004) provided by the department, pursuant to Section 28.23.

(c) If an applicant for a restricted firefighter driver license fails to meet the medical standards specified in subdivision (a), the department may issue the license under any of the following conditions:

(1) The applicant does not meet the medical standards set forth in subdivision (a) because of a physical condition wherein safe driving ability can be determined by driving examination and, in the opinion of the department, the defect is compensated for to insure safe driving ability; or

(2) The applicant fails to meet the standards set forth in subdivision (a) because of a condition or conditions other than those wherein safe driving ability can be determined by a driving examination, provided that the department determines upon evaluation of competent medical evidence that the condition or conditions do not affect the driver's ability to drive safely, and may reasonably be expected not to affect the driver's ability to drive safely within two (2) years.

(3) If a restricted fire fighter driver license is issued under these conditions, the applicant shall not be permitted to operate vehicles requiring a passenger vehicle endorsement or hazardous materials endorsement pursuant to Section 15278 of the Vehicle Code. The department may authorize the applicant to continue operating such vehicles if the applicant is renewing a restricted fire fighter license, or is submitting a new Health Questionnaire, form DL 546 (Rev. 11/2004), to retain such a license that has not yet expired.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 15250.6, Vehicle Code.

HISTORY

1. New section filed 9-12-2000; operative 10-12-2000 (Register 2000, No. 37).
2. Amendment of subsections (b) and (c)(3) filed 10-18-2005; operative 11-17-2005 (Register 2005, No. 42).
3. Change without regulatory effect amending subsection (a) and NOTE filed 8-24-2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 34).

§ 28.23. Health Questionnaire.

(a) The Health Questionnaire, form DL 546 (Rev. 11/2004), shall be submitted upon application for a hazardous agricultural materials endorsement, restricted Class A driver license, or restricted fire fighter driver license and every two years thereafter.

(b) The Health Questionnaire shall contain the following information:

(1) The applicant's true full name, address, date of birth, driver license number, and daytime telephone number.

(2) A "yes" or "no" response as to whether the applicant:

(A) has difficulty recognizing the colors of red, green, and amber used in traffic signal lights and devices.

(B) has peripheral vision of less than 70 degrees for either eye.

(C) has difficulty perceiving a forced whispered voice in the better ear, without a hearing aid, at not less than five (5) feet.

(D) has a vision impairment in either eye that is not correctable to visual acuity of 20/40 or better.

(E) has a missing foot, leg, hand, finger, or arm.

(F) has an impairment of a hand or finger.

(G) has any other impairment of an arm, hand, foot, or leg, or any other limitation.

(H) has diabetes requiring insulin for control.

(I) has had a hypoglycemic episode in the last three (3) years.

(J) has had any other adverse reaction related to diabetes in the last three (3) years.

(K) has had a heart attack, angina, coronary insufficiency, thrombosis, stroke, or other heart problem, or cardiovascular disease, and if "yes," whether the applicant has had labored breathing, fainting, collapse, congestive heart failure, or other symptoms in the last three (3) years.

(L) has been diagnosed with a respiratory condition, such as emphysema, chronic asthma, or tuberculosis and, if "yes," whether the respiratory condition is likely to interfere with the applicant's ability to drive a motor vehicle safely.

(M) has been diagnosed with high blood pressure, and if "yes," whether the applicant's blood pressure is usually 140/90 or higher.

(N) has never been diagnosed with a rheumatic, arthritic, orthopedic, muscular, neuromuscular, or vascular disease, and if "yes," whether the condition is likely to interfere with the applicant's ability to drive a motor vehicle safely.

(O) has ever been diagnosed with any mental, nervous, organic, or functional disease, or psychiatric disorder and, if "yes," whether the condition is likely to interfere with the applicant's ability to drive a motor vehicle safely.

(P) has ever been diagnosed with epilepsy or any other condition which may cause loss of consciousness or loss of control, and if "yes," whether the applicant has had a loss of consciousness or loss of control in the last three (3) years.

(Q) uses a controlled substance, amphetamine, narcotic, or any other habit-forming drug, and if "yes," whether the applicant's physician prescribed the drug and whether the applicant's physician advised the applicant not to drive when taking the drug.

(R) has a current clinical diagnosis of alcoholism, and if "yes," when the applicant last had an alcoholic beverage.

(3) An explanation of any "yes" answer.

(4) The physician's name, office address, and telephone number.

(5) The month and year of the applicant's last visit to the physician.

(6) A certification, signed and dated by the applicant under penalty of perjury, that the information provided is true and correct, and that the applicant consents to the release of medical information to the department by the physician named on the form.

Article 2.3. Financial Responsibility

SUSPENSION OF LICENSE FOLLOWING ACCIDENT

§ 75.20. Policy or Bond Not in Effect at Time of Accident; Notice by Insurance Company or Surety Company.

(a) Manner of Giving Notice. The notification required by Section 16057 shall be rendered in writing, by the completion of the notice received from the department.

(b) Preparing the Notice. The notification shall be signed by a person authorized by the company.

(c) Time of Notice. The notification shall be given to the department within twenty days from the date of mailing as it appears on the notice.

(d) Mailing the Notice. The notification shall be forwarded to the Department of Motor Vehicles, Financial Responsibility, Sacramento, California.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16020, 16021(b) and 16057, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.20 to section 75.20 and adding article heading filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 77.00. Suspension Exemption.

A driver suspended for failure to provide evidence of financial responsibility, pursuant to Vehicle Code section 16070, is exempt pursuant to Vehicle Code section 16073 from the suspension when his/her employment requires the operation of a motor vehicle as part of his/her duties and the vehicle is not registered in the suspended driver's name. Neither an application, payment of fee(s), or proof of financial responsibility pursuant to Vehicle Code section 16430 is required to be provided by the suspended driver to qualify for the exemption. No marking of the driver license or the department's records is necessary for this exemption.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16070 and 16073, Vehicle Code.

HISTORY

1. New section filed 6–28–2000; operative 7–28–2000 (Register 2000, No. 26).

§ 77.05. Restricted License Requirements.

(a) A person whose driving privilege has been suspended pursuant to Vehicle Code section 16070 may apply and qualify for one or more financial responsibility driver license restrictions as described in Sections 77.15, 77.16 and 77.17, Division 1, Chapter 1 of Title 13 of the California Code of Regulations by submitting the following to the department:

(1) An application for the restriction(s) as described in Sections 77.10, 77.15, 77.16 and 77.17, Division 1, Chapter 1 of Title 13 of the California Code of Regulations with the appropriate sections completed and signed.

(2) Proof of financial responsibility pursuant to Vehicle Code section 16430.

(3) A fee totaling \$250, as specified in Vehicle Code sections 16072 and 16077.

(A) A single \$250 restriction fee, pursuant to Vehicle Code sections 16072 and/or 16077, qualifies an applicant for one or more financial responsibility driver license restrictions in lieu of the mandatory one-year suspension.

(B) The \$250 fee shall be payable in a single payment.

(b) The applicant shall not be eligible for the driver license restriction(s) if any other suspension or revocation of the driving privilege is in effect or if the applicant's driver license is a commercial class A, class B or class C. When a driver with a commercial driver license downgrades to a non-commercial class C or M driver license, he/she may be eligible for the driver license restriction(s).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16070, 16072, 16077, 16078 and 16430, Vehicle Code.

HISTORY

1. New section filed 6–28–2000; operative 7–28–2000 (Register 2000, No. 26).
2. Amendment of section and NOTE filed 1–30–2006; operative 3–1–2006 (Register 2006, No. 5).

§ 77.10. Application for a Driver License Restriction.

To drive a motor vehicle pursuant to Vehicle Code sections 16072 and 16077 and as described in Sections 77.15, 77.16 and 77.17, Division 1, Chapter 1 of Title 13 of the California Code of Regulations, the applicant shall complete, sign and submit to the department for approval the Application for Non-Commercial Restricted Driver License for Financial Responsibility Actions, form DL 691 (REV. 6/2005), which is hereby incorporated by reference. All applicants regardless of the restriction requested shall complete the Applicant Information section and Part D prior to submitting the form to the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16070, 16072, 16077 and 16078, Vehicle Code.

HISTORY

1. New section filed 6–28–2000; operative 7–28–2000 (Register 2000, No. 26).
2. Amendment filed 1–30–2006; operative 3–1–2006 (Register 2006, No. 5).

§ 77.15. Employment Restriction.

To drive a motor vehicle (including vehicles registered in the applicant's name) to and from employment and during the course of employment, the applicant shall submit the Application for Non-Commercial Restricted Driver License for Financial Responsibility Actions, form DL 691 (REV. 6/2005), with Part A completed. The restriction is not valid for a commercial class A, class B or class C driver license.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16070, 16072 and 16073, Vehicle Code.

HISTORY

1. New section filed 6–28–2000; operative 7–28–2000 (Register 2000, No. 26).
2. Amendment of section and NOTE filed 1–30–2006; operative 3–1–2006 (Register 2006, No. 5).

§ 77.16. School Transportation Restriction.

(a) To transport a minor dependent in the applicant's immediate family to and/or from a primary or secondary educational institution (Kindergarten through Twelfth grade), the applicant shall submit the Application for Non-Commercial Restricted Driver License for Financial Responsibility Actions, form DL 691 (REV. 6/2005), with Part B completed.

(b) For the purposes of this section a "minor dependent in the immediate family" is defined as any person enrolled in a primary or secondary educational institution who either resides within the household of the applicant or, without regard to place of residence, is the applicant's son, daughter, brother or sister.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 16072, Vehicle Code.

HISTORY

1. New section filed 6–28–2000; operative 7–28–2000 (Register 2000, No. 26).
2. Amendment filed 1–30–2006; operative 3–1–2006 (Register 2006, No. 5).

§ 77.17. Medical Treatment Restriction.

(a) To drive to and from medical and/or mental health treatments for the suspended driver and/or an immediate family member of the suspended driver, the applicant shall submit the Application for Non-Commercial Restricted Driver License for Financial Responsibility Actions, form DL 691 (REV. 6/2005), with Part C completed.

(b) For the purposes of this section "immediate family members" shall include, but are not limited to: a spouse, children, parents, or anyone who resides within the household of the applicant.

(c) For the purposes of this section and pursuant to Vehicle Code section 16077 and Evidence Code section 1010, a "practitioner" shall be defined as the health care professional licensed by the State of California who prescribed the treatment(s) upon which the restriction application is based. The professions qualified to sign shall include, but not be limited to: licensed physicians; surgeons; nurse practitioners; psychiatrists; psychologists; clinical social workers; and marriage, family and child counselors.

(d) A "serious health problem" shall be defined as a health problem that requires more than one treatment appointment.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 1010, Evidence Code; and Section 16077, Vehicle Code.

HISTORY

1. New section and new form DL 691 filed 6–28–2000; operative 7–28–2000 (Register 2000, No. 26).
2. Amendment of subsections (a) and (b) and removal of form DL 691 (incorporated by reference) filed 1–30–2006; operative 3–1–2006 (Register 2006, No. 5).

CERTIFICATES OF SELF-INSURANCE

§ 80.00. Definitions.

As used in this article, the following definitions shall apply:

(a) A "financial statement" shall include, but not be limited to, the documents commonly known as balance sheets, profit and loss statements, explanatory notes or other documents which allow the department to determine an applicant's net financial worth.

(b) An "independent certified public accountant" is a certified public accountant, lawfully licensed to audit financial statements and render an opinion of an applicant's financial condition. For purposes of this regulation, an independent certified public accountant shall not be an employee of, or have any material or vested interest in the entity being audited.

(c) "Net worth" shall be defined as an applicant's net financial worth determined by calculating financial assets minus liabilities as identified on the financial statements and application or renewal attachments.

(1) Liabilities include unresolved past, current and future financial responsibility obligations and assessed risk factors.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 16053, Vehicle Code.

HISTORY

1. New section filed 6–26–2001; operative 7–26–2001 (Register 2001, No. 26).

§ 80.25. Requirements.

The applicant shall meet the following requirements to qualify as a self-insurer:

(a) The applicant shall have more than 25 motor vehicles registered in the name of the applicant as it appears on the Application for Certificate of Self-Insurance, form SR44 (REV. 6/01).

(b) The applicant shall provide audited financial statements of the applicant's net worth as defined in Section 80.00, Division 1, Chapter 1, of Title 13, of the California Code of Regulations. Included with the financial statements shall be an opinion of the financial condition of the applicant rendered by an independent certified public accountant.

(c) The net worth evidenced on the financial statement(s) submitted with the original application and subsequent annual renewals shall be equal to or greater than the net worth pursuant to Section 80.60, Division 1, Chapter 1, of Title 13, of the California Code of Regulations.

(d) No unsatisfied final judgments shall exist against the applicant's name resulting from property damages and/or bodily injury (including death) that occurred as a result of a motor vehicle accident.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16053, 16054.2, Vehicle Code.

HISTORY

1. New section filed 6–26–2001; operative 7–26–2001 (Register 2001, No. 26).

§ 80.50. Initial Application.

(a) An applicant requesting the self-insurance method of compliance to the financial responsibility law pursuant to Vehicle Code section 16053 shall complete, sign and certify under penalty of perjury under the laws of the State of California, an Application for a Certificate of Self-Insurance, form SR44 (REV. 6/01).

(1) The Application for a Certificate of Self-Insurance, form SR44 (REV. 6/01) is hereby incorporated by reference.

(b) The department shall consider the completed Application for a Certificate of Self-Insurance, form SR44 (REV. 6/01) in accordance with the provisions of Articles 2 and 3, Chapter 1, of Division 7 of the Vehicle Code and Section 80.00, et seq., Division 1, Chapter 1, of Title 13, of the California Code of Regulations. If the application is approved, the department shall issue a Certificate of Self-Insurance form SR27 (REV. 10/99), which contains an assigned number that serves as evidence of financial responsibility as established in Vehicle Code section 16020(b)(2) and proof of financial responsibility pursuant to Vehicle Code section 16436.

(c) The Certificate of Self-Insurance, form SR27 (REV. 10/99) shall serve as proof or evidence of financial responsibility under Article 2, Chapter 1, and Article 1, Chapter 3, Division 7 of the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 16052, 16053, 16054.2 and 16436, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.50 to section 80.50 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Repealer and new section filed 6–26–2001; operative 7–26–2001 (Register 2001, No. 26).

§ 80.55. Financial Statement.

(a) The application for a Certificate of Self-Insurance, form SR44 (REV. 6/01) shall be accompanied by an audited financial statement for the three-year period immediately preceding the date of application. The financial statement shall include an opinion of the net worth of the applicant rendered by an independent certified public accountant.

(1) This opinion shall apply to the net worth of the applicant for the date and time when the financial statement is signed.

(b) When an applicant has not been in existence for three years prior to the date of application, the department may accept a financial statement covering the period the applicant has been in existence.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 16053, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.55 to section 80.55 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section and new NOTE filed 6-26-2001; operative 7-26-2001 (Register 2001, No. 26).

§ 80.60. Net Worth.

The audited financial statement shall reflect a net worth of not less than \$2,200,000 on the date of application.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16053 and 16054.2, Vehicle Code; and Sections 700.01, 700.02 and 700.25, Insurance Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.60 to section 80.60 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section and new NOTE filed 6-26-2001; operative 7-26-2001 (Register 2001, No. 26).

§ 80.65. Additional Information.

The department shall require a statement of claims and losses during the preceding three year period, a history of insolvency proceedings, accident and civil judgment history, claim reserves, and any relevant addi-

tional information necessary to determine the initial and continuing ability of the applicant to pay future claims.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16053 and 16054.2, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.65 to section 80.65 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section and new NOTE filed 6-26-2001; operative 7-26-2001 (Register 2001, No. 26).

§ 80.70. Updated Financial Statement.

If a Certificate of Self-Insurance, form SR27 (REV. 10/99) has not been issued or has been refused within six months of the date of application, the department may require the applicant to submit an updated financial statement.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16053 and 16054.2, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.70 to section 80.70 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section and new NOTE filed 6-26-2001; operative 7-26-2001 (Register 2001, No. 26).

[The next page is 5.]

§ 80.75. Renewal Requirements.

(a) The holder of a Certificate of Self-Insurance, form SR27 (REV. 10/99) shall submit to the department within twelve months after issuance of the certificate and at twelve month intervals thereafter, a completed Financial Responsibility Self-Insurance Renewal Attachment, form SR70 (REV. 3/98), which is hereby incorporated by reference and an audited financial statement for the previous year.

(1) The statement shall include an opinion of the net worth of the holder of the certificate rendered by an independent certified public accountant.

(A) This opinion shall apply to the net worth of the certificate holder for the date and time when the financial statement for the renewal application is signed.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 16053 and 16054.2, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.75 to section 80.75 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section heading and section and new NOTE filed 6-26-2001; operative 7-26-2001 (Register 2001, No. 26).

§ 80.80. Confidentiality.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 16005, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.80 to section 80.80 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Repealer of section and new NOTE filed 8-22-96; operative 9-21-96 (Register 96, No. 34).

§ 80.85. Formal Hearing.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 14100 and 16053(b), Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.85 to section 80.85 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Change without regulatory effect repealing section filed 3-28-96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 13).

§ 80.90. Grounds for Cancellation.

Reasonable grounds for cancellation of a certificate of self-insurance shall include, but not be limited to, the following:

(a) Failure of the holder of the certificate to maintain the requirements for obtaining a certificate as required by this article.

(b) Inability, refusal or failure of the holder of the certificate to submit annual financial statements, the Financial Responsibility Self-Insurance Renewal Attachment, form SR70 (REV. 3/98) and requested supporting documentation as required by this article.

(c) Submission of fraudulent or incomplete documents.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 16053 and 16054.2, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 100.90 to section 80.90 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section and NOTE filed 6-26-2001; operative 7-26-2001 (Register 2001, No. 26).

§ 82.00. Uniform Insurance Card.

Every insurance company licensed to offer private passenger liability policies as described in Section 660(a) and (b) of the Insurance Code, except as provided in Vehicle Code section 4000.37, shall issue to each policy holder, for each vehicle covered by private passenger liability insurance, a California Evidence of Liability Insurance Document (REG 890A (Rev 5/97)).

(a) Form Layout. The information must appear on the California Evidence of Liability Insurance Document (REG 890A (Rev 5/97) as it appears in the following sample:

CALIFORNIA EVIDENCE OF LIABILITY INSURANCE				
DO NOT FOLD OR STAPLE — SUBMIT ORIGINAL TO DMV				
This insurance complies with CVC § 16056 or § 16500.5 _____				
SIGNATURE OF INSURANCE REPRESENTATIVE				
NAME	VEHICLE IDENTIFICATION NUMBER (VIN)		VEHICLE MAKE	YEAR MODEL
POLICY NUMBER	POLICY EFFECTIVE DATE	POLICY EXPIRATION DATE	INSURANCE COMPANY NAME	
STREET ADDRESS	CITY	STATE	ZIP CODE	NAIC NUMBER

REG 890A (REV. 5/97)

(b) Form Content. Each California Evidence of Liability Insurance Document shall contain the following information:

(1) A statement that the policy complies with Sections 16056 or 16500.5 of the California Vehicle Code

(2) The primary name of the insured covered by the policy, or the vehicle owner, or both

(3) The Vehicle Identification Number

(4) The make/manufacture of the vehicle

(5) The year model of the vehicle

(6) The policy number issued for the policy

(7) The effective date of the coverage

(8) The scheduled expiration date of the coverage

(9) The name of the insurance company

(10) The address of the insurance company

(11) The five-digit National Association of Insurance Commissioners (NAIC) Number issued for the insurance company.

(c) Paper Specifications. The paper used for the California Evidence of Liability Insurance Document (REG 890A (Rev 5/97) shall meet the following specifications: Maximum and minimum 24 lbs. (90 gm2) OCR White Bond, and Laser Compatible. The paper shall be compliant with the American National Standard (ANSI) X3.96-1983, for Information systems — Continuous Business Forms (Single Part) — Paper Sizes.

(d) Document Size. The document shall be 3.5 inches tall and 8.5 inches wide. The document may be issued as a removable stub of a larger document.

(e) Color Ink. The ink used for completion of this form shall be black.

(f) Electronic Content

(1) Form number 89000 in postnet barcode font must be located 1/2 inch from the top and the right-side edge of the form. The form must have a 1/4 inch quiet zone around the postnet form number 89000. A stop and start bar must bracket the barcode.

(2) Each form shall also include a 72-digit electronic scan line of data that meets the following specifications:

(A) Font: OCR Font — A (OCRA) — 10 characters per inch

(B) Location: 1.2 centimeters from the bottom of the form; 1.2 centimeters from the right edge; and 2 centimeters from the left edge

(3) The OCR scan line shall contain the following information, in order:

(A) A two-position mail extraction code of 'FR'.

(B) A five-position National Association of Insurance Commissioners number.

(C) An eight-position policy effective date (MMDDCCYY format)

(D) An eight-position policy expiration date (MMDDCCYY format)

(E) A four-position vehicle year model (CCYY format)

(F) A three-position vehicle make, use the first three digits of the make. If the vehicle make is less than three positions, the remaining positions will be '9' (right fill)

(G) A two-position number indicating the number of positions that will be used for the vehicle identification number (01-30)

(H) A thirty-position vehicle identification number field, right filled with '0' if the number is less than thirty positions. If the vehicle identification number is greater than thirty positions, report the first 30 positions.

(I) An eight-position filed of zeroes (00000000)

(J) A two-position check digit (Algorithm). The DMV will make the algorithm available to insurance companies.

NOTE: Authority cited: Sections 1651 and 4000.37, Vehicle Code. Reference: Sections 4000.37 and 16056, Vehicle Code; and Section 660, Insurance Code.

HISTORY

1. New section filed 5-7-2003; operative 1-1-2004 (Register 2003, No. 19).

§ 85.00. Definitions.

(a) Satisfactory evidence of financial responsibility as used in this Article shall mean private passenger automobile liability policies and coverages, private passenger automobile policies and coverages issued by an automobile assigned risk plan electronically reported as established in Vehicle Code sections 4000.38 or 16058, or any of the documents in Section 85.04, Article 2.3, Chapter 1, Division 1 of Title 13 of the California Code of Regulations.

(b) "Issuance of original registration or transfer of registration" as used in this article shall mean the issue date of the registration card identified in Vehicle Code Section 4453, which is produced for vehicles subject to registration as specified in Article 1, Chapter 1, Division 3, of the Vehicle Code.

NOTE: Authority cited: Sections 1651 and 16058, Vehicle Code. Reference: Sections 4000.37, 4000.38, 16053, 16054.2 and 16058, Vehicle Code.

HISTORY

1. New section filed 6-30-2006; operative 7-30-2006 (Register 2006, No. 26).

§ 85.02. Registration Suspension.

(a) When the department determines that the vehicle registration has been obtained by providing false evidence of financial responsibility, a written notification shall be sent to the registered owner(s) requiring satisfactory evidence of financial responsibility to be received by the de-

partment or its agent within thirty (30) days from the date of the notification or a suspension takes effect.

(b) When an insurance company informs the department that the required vehicle insurance policy or coverage is canceled, a written notification shall be sent to the registered owner(s) requiring satisfactory evidence of financial responsibility to be sent to the department or its agent within forty-five (45) days from the date of the notification or a suspension takes effect.

(c) When evidence of financial responsibility has not been provided to the department within thirty (30) days after issuance of original registration or transfer of registration, a written notification shall be sent to the registered owner(s) requiring satisfactory evidence of financial responsibility to be sent to the department or its agent within thirty (30) days from the date of the notification or a suspension takes effect.

NOTE: Authority cited: Sections 1651 and 16058, Vehicle Code. Reference: Sections 4000.37, 4000.38 and 16058, Vehicle Code.

HISTORY

1. New section filed 6-30-2006; operative 7-30-2006 (Register 2006, No. 26).

§ 85.04. Alternative Procedure to Electronic Insurance Reporting.

(a) Under the alternative procedure authorized under Vehicle Code section 16058(e)(2), the department shall accept the following documents to permit the timely renewal of vehicle registration.

(1) An insurance card as described in Vehicle Code section 4000.37 and Section 82.00, Article 2.3, Chapter 1, Division 1 of Title 13 of the California Code of Regulations.

(2) A department-issued certificate of self insurance form authorized under Vehicle Code section 16053 and Section 80.50(c), Article 2.3, Chapter 1, Division 1 of Title 13 of the California Code of Regulations.

(3) A department-issued written confirmation of cash deposited with the department pursuant to Vehicle Code section 16054.2.

(4) Documentation of a liability policy pursuant to Vehicle Code sections 4000.37 or 16054.2(b) that indicates coverage issued by a charitable risk pool, which may be provided by an insurance company admitted to do business in California or by the charitable risk pool.

(5) An insurance covering note or binder authorized under Insurance Code section 382 or 382.5 and provided by an insurance company authorized to do business in California.

(b) Registration accepted under the alternative procedure shall be subject to verification by the department or its agent.

NOTE: Authority cited: Sections 1651 and 16058, Vehicle Code. Reference: Sections 382 and 382.5, Insurance Code; and Sections 4000.37, 4000.38, 16053, 16054.2 and 16058, Vehicle Code.

HISTORY

1. New section filed 6-30-2006; operative 7-30-2006 (Register 2006, No. 26).

§ 85.06. Registration Reinstatement.

A vehicle registration shall be reinstated after satisfactory evidence of financial responsibility, payment of a fourteen (\$14) dollar reinstatement fee authorized under Vehicle Code section 4000.38(c) and all fees and documents that meet registration requirements have been submitted to the department or its agent.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 4000.37, Vehicle Code.

HISTORY

1. New section filed 6-30-2006; operative 7-30-2006 (Register 2006, No. 26).

§ 85.08. Insurance Company Reporting Requirements.

(a) Insurance companies shall comply with Vehicle Code section 16058 by electronic reporting of information to the department or its agent in the American National Standards Institute (ANSI) X12.811 or California Automobile Liability Insurance (CALI) electronic formats.

(b) Unless there is no new information to report, the frequency for electronically reporting information shall be

(1) Pursuant to Vehicle Code section 16058(c), no less than once in any thirty (30) day period for all issued private passenger automobile liability insurance policies and coverages, or private passenger automobile policies and coverages issued by an automobile assigned risk plan.

(2) Pursuant to Vehicle Code section 16058(d), no less than once in any forty-five (45) day period for termination or changes in private passenger automobile liability insurance policies and coverages, or private passenger automobile policies and coverages issued by an automobile assigned risk plan.

NOTE: Authority cited: Sections 1651 and 16058, Vehicle Code. Reference: Sections 4000.38 and 16058, Vehicle Code.

HISTORY

§ 100. Federal Standards and Requirements.

NOTE: Authority cited: Section 3100, Vehicle Code. Reference: Sections 12804.1 and 12804.3, Vehicle Code; and Title 49, United States Code, Section 1811.

HISTORY

1. New section filed 9-15-87; operative 10-15-87 (Register 87, No. 38). For prior history, see Registers 87, No. 2 and 81, No. 21.
2. Change without regulatory effect repealing section filed 6-5-91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 38).

Article 2.4. Driver Safety

§ 100.01. Reexaminations Pursuant to Vehicle Code Section 13801.

(a) Pursuant to Section 13801 of the Vehicle Code, the department shall consider it a failure to submit to or complete the reexamination if:

- (1) The individual does not appear as scheduled for the reexamination.
- (2) The individual fails to provide any information requested by the department.

(3) The individual fails to complete a drive test, if required by the department.

(4) The individual fails to complete a vision examination, if required by the department.

(5) The individual is not responsive to the questions of the departmental representative during the reexamination.

(6) The department does not receive a required medical evaluation of the individual by the date required, either because the individual refuses to authorize the doctor to release the information required, or because the doctor does not submit the evaluation. If a medical evaluation is required, the individual shall be required to submit the evaluation to the department not later than 26 days from the date the request for the evaluation was mailed or given directly to the individual, unless an extension is approved by the department for good cause.

(b) The department may reschedule a reexamination at the request of the driver for good cause, in lieu of suspension, or may reschedule the reexamination at the need of the department.

1. Change without regulatory effect renumbering former section 101.45 to section 345.45 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 101.50. Separate Telephone Numbers.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11202(a)(3), Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 101.50 to section 345.50 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

LAPSES OF CONSCIOUSNESS**§ 110.01. Factors Considered in Lapse of Consciousness Determinations.**

The department may suspend or revoke the driving privilege of any individual that the department determines has a disorder characterized by lapses of consciousness or episodes of marked confusion, as defined in Title 17, Division 1, Chapter 4, Sections 2800 through 2808 of the California Code of Regulations, which affects the individual's ability to drive safely and/or to have reasonable control of a motor vehicle. In making this determination, the department may consider:

- (a) The effect(s) of the disorder on the physical and mental abilities necessary to drive safely and to exercise reasonable control of a motor vehicle.
- (b) The individual's testimony regarding the disorder and his/her ability to drive safely.
- (c) Testimony from other individuals who have knowledge of the individual's disorder and his/her ability to drive safely.
- (d) Whether the disorder is under control with or without medication.
- (e) The individual's reliability regarding compliance with any prescribed medical regimen.
- (f) Other medical conditions which may affect the lapse of consciousness disorder.
- (g) The individual's driving record.
- (h) Any other relevant evidence and/or factors which may affect the individual's ability to drive safely.

(i) A current medical evaluation of the individual provided by the individual's physician, as authorized by the individual, which provides information regarding:

- (1) The diagnosis of the disorder.
- (2) The date of onset of the disorder.
- (3) The date of the last episode and the frequency of episodes.
- (4) The stability of the condition.
- (5) Any manifestations or impairments associated with the condition.
- (6) The medical regimen prescribed and patient compliance with the prescribed regimen.
- (5) The physician's prognosis.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 103900, Health and Safety Code. Reference: Sections 12805, 12806, 12813, 12814, 13360, 13800(f), 13801, 13802 and 14250, Vehicle Code; and Section 103900, Health and Safety Code.

HISTORY

1. New section filed 8-9-94; operative 9-8-94 (Register 94, No. 32).
2. Change without regulatory effect amending first paragraph and NOTE filed 5-13-2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 20).

§ 110.02. Department Actions.

If the department determines that an individual has a disorder characterized by lapses of consciousness or episodes of marked confusion, as defined in Title 17, Division 1, Chapter 4, Sections 2800 through 2808 of the California Code of Regulations, but also determines upon evaluation of competent medical evidence and all relevant factors that the individual is able to drive safely and maintain reasonable control of a motor vehicle, the department may

- (a) Take no action against the individual's driving privilege.
- (b) Place the individual on medical probation to monitor the individual's condition to ensure that the individual continues to be capable of driving safely. An individual placed on medical probation shall be required to:
 - (1) Authorize his/her physician to provide the department with medical evaluations on a regular basis, the frequency of which shall be determined by the department, or
 - (2) Report to the department in writing on the status of his/her disorder and
 - (3) Comply with any additional restrictions of the individual's privilege which the department deems necessary.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 103900, Health and Safety Code. Reference: Sections 12806, 12813, 12814, 13360, 13800(f), 13801 and 14250, Vehicle Code; and Section 103900, Health and Safety Code.

HISTORY

1. New section filed 8-9-94; operative 9-8-94 (Register 94, No. 32).
2. Change without regulatory effect amending first paragraph and NOTE filed 5-13-2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 20).

§ 110.04. Disciplinary Guidelines.

In reaching a decision on an action regarding the driving privilege of a person under the provisions of the Vehicle Code, the department may consider the disciplinary guidelines, specified below, which are hereby incorporated by reference. Deviation from these guidelines, including the terms of probation, if any, is appropriate when the department, in its sole discretion, determines that the facts of a particular case warrant such a deviation; for example, the presence of mitigating or aggravating factors, the age of the case, and evidentiary problems.

- (a) Guidelines for Actions Against the Driving Privilege Based on the Negligent Operator Treatment System (Rev. 2/2001).
- (b) Guidelines for Actions Against the Commercial Driving Privilege (Rev. 2/99).
- (c) Guidelines for Actions Against Driver License Certificates and Endorsements (Rev. 2/99).
- (d) Guidelines for Actions Against the Driving Privilege Based On Physical and Mental Conditions (Rev. 2/99)
- (e) Guidelines for Actions Against the Driving Privilege Based On Financial Responsibility (Rev. 1/03).

(f) Guidelines for Actions Against the Driving Privilege Based On Fraud (Rev. 2/99).

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 12508, 12517, 12517.2, 12517.3, 12517.4, 12519, 12520, 12523, 12523.5, 12523.6, 12524, 12527, 12800, 12803, 12804.2, 12804.6, 12804.9, 12804.12, 12804.14, 12805, 12806, 12806.5, 12807, 12808, 12809, 12810, 12810.2, 12810.4, 12810.5, 12812, 12813, 12814, 12814.6, 12818, 12819, 13007.5, 13100, 13101, 13102, 13103, 13207, 13353, 13353.1, 13353.2, 13353.3, 13353.4, 13353.5, 13353.6, 13353.8, 13359, 13360, 13361, 13362, 13363, 13367, 13368, 13369, 13370, 13371, 13372, 13373, 13374, 13375, 13376, 13377, 13378, 13555, 13556, 13557, 13558, 13559, 13800, 13801, 13802, 13950, 13951, 13952, 13953, 13954, 14100, 14100.1, 14101, 14103, 14104, 14104.2, 14105.5, 14104.7, 14105, 14105.5, 14106, 14112, 14250, 14250.5, 14251, 14252, 14253, 15250, 15250.3, 15250.5, 15250.6, 15275, 15278, 16000, 16000.1, 16020, 16020.3, 16021, 16050, 16070, 16075, 16076, 16077, 16371, 16484 and 40807, Vehicle Code; Section 11425.50(e), Government Code; and Section 103900, Health and Safety Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.
2. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
3. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).
4. Amendment of subsection (a) filed 7-25-2001; operative 8-24-2001 (Register 2001, No. 30).
5. Change without regulatory effect amending subsection (e) to indicate amendment of the document, *Guidelines for Actions Against the Driving Privilege Based On Financial Responsibility* (incorporated by reference) filed 2-21-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 8).

§ 115.01. Applicability.

Sections 115.01 through 115.10 of this article are applicable to hearings conducted before the department pursuant to Article 3 (commencing with Section 14100) of Chapter 3 of Division 6, and Chapter 1 of Division 7 of the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 12508, 12517, 12517.2, 12517.3, 12517.4, 12519, 12520, 12523, 12523.5, 12523.6, 12524, 12527, 12800, 12803, 12804.2, 12804.6, 12804.9, 12804.12, 12804.14, 12805, 12806, 12806.5, 12807, 12808, 12809, 12810, 12810.2, 12810.4, 12810.5, 12812, 12813, 12814, 12814.6, 12818, 12819, 13007.5, 13100, 13101, 13102, 13103, 13207, 13353, 13353.1, 13353.2, 13353.3, 13353.4, 13353.5, 13353.6, 13353.8, 13359, 13360, 13361, 13362, 13363, 13367, 13368, 13369, 13370, 13371, 13372, 13373, 13374, 13375, 13376, 13377, 13378, 13555, 13556, 13557, 13558, 13559, 13800, 13801, 13802, 13950, 13951, 13952, 13953, 13954, 14100, 14100.1, 14101, 14103, 14104, 14104.2, 14105.5, 14104.7, 14105, 14105.5, 14106, 14112, 14250, 14250.5, 14251, 14252, 14253, 15250, 15250.3, 15250.5, 15250.6, 15275, 15278, 16000, 16000.1, 16020, 16020.3, 16021, 16050, 16070, 16075, 16076, 16077, 16371, 16484 and 40807, Vehicle Code; and Section 103900, Health and Safety Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.
2. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
3. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).
4. Amendment filed 7-25-2001; operative 8-24-2001 (Register 2001, No. 30).

§ 115.02. Public Observation.

(a) The hearing officer may:

- (1) Exclude persons whose conduct impedes the orderly conduct of the hearing;
- (2) Restrict attendance because of the physical limitations of the hearing facility; or

(3) Take other action to promote due process and the orderly conduct of the hearing.

(b) The following provisions apply to hearings conducted by telephone:

(1) Except as otherwise provided by law, the hearing shall be open to public observation, provided a written request to observe a hearing is received by the department in a timely manner.

(2) In lieu of a written request, a request to observe a hearing may, with the approval of the department, be made by telephone or in person.

(3) Notwithstanding the timeliness requirement in subdivision (b), the department may grant a late request to observe a hearing, if it is determined by the department that the public interest would be served by granting that request.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 1808, 1808.5, 16070 and 16075, and Article 3 (commencing with Section 14100) of Chapter 3 of Division 6, Vehicle Code; and Sections 11425.10 and 11425.20, Government Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.
2. Editorial correction of section number (Register 97, No. 28).
3. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
4. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).

§ 115.03. Interpreters and Accommodation.

(a) In addition to the notice required by Government Code section 11435.60, the department shall notify each party of the right to an interpreter at the time they are notified of their right to a hearing.

(b) In any hearing where a party, a party's representative, or a party's expected witness requires an interpreter for any language, including sign language, that party shall be responsible for notifying the department as soon as the requirement is known.

(c) A request for an interpreter or other accommodation pursuant to this section does not stay the action by the department for which the notice is given.

(d) In lieu of a written request, a party's request for an interpreter may, with the approval of the department, be made by telephone or in person.

(e) Any interpreter who assists with the testimony or evidence at a hearing shall first declare, by oath or affirmation, that he or she will perform his or her duties truthfully. A suggested model form for the oath or affirmation of an interpreter, based on the language of Evidence Code 751, is as follows:

"Do you swear or affirm that you will make a true interpretation of the questions asked and the answers given and that you will make a true translation of any documents which require translation, into the English language, to the best of your skill and judgment?"

(f)(1) In any hearing where a party, a party's representative, or a party's expected witness has a disability requiring accommodation at the hearing, that party shall be responsible for notifying the department as soon as the requirement is known, in order to provide reasonable accommodation.

(2) In any hearing where a party, a party's representative, or a party's expected witness is hearing impaired and requires electronic amplification equipment, that party shall be responsible for notifying the department as soon as the requirement is known.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 14100(d), 16070 and 16075, Vehicle Code; and Sections 11435.15, 11435.20 and 11435.60, Government Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on

December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.

2. Editorial correction of section number (Register 97, No. 28).
3. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
4. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).

§ 115.04. Hearing Requests.

Notwithstanding the requirement of a written request for hearing under subdivision (a) of Section 11506 of Part 1 of Division 3 of Title 2 of the Government Code, a respondent may, with the approval of the department, request a hearing by telephone or in person.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 16070 and 16075, and Article 3 (commencing with Section 14100) of Chapter 3 of Division 6, Vehicle Code; and Sections 11505 and 11506, Government Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.
2. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
3. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).

§ 115.05. Discovery Requests.

Notwithstanding the provisions of Section 11507.6 of the Government Code and, in order to conform to the time constraints for hearings under Chapters 2 and 3 of Division 6 of the Vehicle Code:

(a) A party's request for discovery may, with the approval of the department, be made by telephone or in person.

(b) A request for discovery must be made at least 10 days prior to the date set for commencement of the hearing to receive discovery prior to the hearing.

(c) A request for discovery may be grounds for a continuance; however, it shall not stay the action by the department.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 16070 and 16075, and Articles 1-4 (commencing with Section 13800) of Chapter 3 of Division 6, Vehicle Code; and Sections 11507.6 and 11507.7, Government Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.
2. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
3. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).

§ 115.06. Change of Venue.

(a) A hearing will be scheduled by the department at an office of the department, or another location designated by the department, except as otherwise provided by the Vehicle Code.

(b) The parties, by agreement, may select any other place within the state for the hearing.

(c) A motion for a change in the place of the hearing may be made either orally or in writing.

(d) A motion shall be made within 10 days of the service of the notice of action.

(e) A motion for a change in the place of the hearing shall not stay the action by the department.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 13558(b), 14104 and 16075(e), Vehicle Code; and Section 11508, Government Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.
2. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
3. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).

§ 115.07. Telephone Hearings.

(a) Any hearing conducted all or in part by telephone, television, or other electronic means must be sufficiently audible that it can be clearly recorded and made part of the official record of the hearing. The hearing officer will grant a continuance of the hearing if at any time the audibility is such that it cannot be clearly recorded.

(b) The hearing officer shall not conduct all or part of a hearing by telephone, television, or other electronic means, if a party objects.

(c) Any objection to conducting all or part of a hearing by telephone, television, or other electronic means must be made at the time the hearing is requested or scheduled.

(d) Notwithstanding the requirement of subdivision (c), the department may allow a late objection to conducting all or part of a hearing by telephone, television, or other electronic means for good cause.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 13558, 16070 and 16075, and Article 3 (commencing with Section 14100) of Chapter 3 of Division 6, Vehicle Code; and Section 11440.30, Government Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.
2. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
3. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).
4. New subsection (a), subsection relettering and amendment of NOTE filed 4-17-2003; operative 5-17-2003 (Register 2003, No. 16).

§ 115.08. Motions.

(a) Unless a motion, including a motion pursuant to Section 11450.30 of the Government Code, for a protective order or a motion to quash relating to a subpoena, is made during a hearing while on record, it shall be in writing, and shall be made with written notice to all parties, with proof of service upon all parties attached.

(b) Except as provided in subdivision (d), a motion to continue a case shall be made pursuant to Section 11524 of the Government Code.

(c) Any motion shall state in plain language the relief sought and the facts and circumstances the moving party contends support the motion, and shall be supported by legal authority.

(d) A motion shall be made and filed at least 5 business days before the date set for the commencement of the hearing.

(e) A motion filed pursuant to this section may be decided by the department without oral argument. Any party may request an opportunity for oral argument at the time of the filing of the motion or response. Oral argument shall be recorded and, with the approval of the hearing officer, may be made by telephone or in person.

(f) An order deciding any motion made pursuant to this section may be made by the hearing officer either orally on the record or in writing.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 16070 and 16075, and Article 3 (commencing with Section 14100) of Chapter 3 of Division 6, Vehicle Code; and Sections 11450.05, 11450.30, 11455.30, 11507.3, 11507.7, 11508(c), 11511 and 11524, Government Code.

HISTORY

1. New section filed 6-3-97; operative 6-3-97 (Register 97, No. 23). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998 unless earlier terminated, or replaced by, or readopted as, permanent regulations.
2. The Department has completed proceedings to replace or readopt interim regulations and has submitted permanent regulations for review by the Office of Administrative Law, but permanent regulations have not been filed with the Secretary of State. Pursuant to Government Code section 11400.20(b)(2), the interim regulations are extended until the date permanent regulations are filed with the Secretary of State or March 31, 1999, whichever is earlier (Register 98, No. 51).
3. Permanent regulations filed 3-31-99; operative 3-31-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).

§ 115.09. Hearing Officer Disqualification.

(a) A hearing officer shall voluntarily disqualify himself or herself and withdraw from any case in which there are clear grounds for disqualification, including disqualification for bias, prejudice, or interest in the proceeding by the assigned hearing officer.

(b) It is not alone or in itself grounds for disqualification, without further evidence of bias, prejudice, or interest, that the hearing officer:

(1) Is or is not a member of a racial, ethnic, religious, sexual, or similar group and the proceeding involves the rights of that group.

(2) Has experience, technical competence, or specialized knowledge of, or has in any capacity expressed a view on, a legal, factual, or policy issue presented in the proceeding.

(3) Has, as a lawyer or public official, participated in the drafting of laws or regulations or in the effort to pass or defeat laws or regulations, the meaning, effect, or application of which is in issue in the proceeding.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 14104, 14104.2 and 14112, Vehicle Code.

HISTORY

1. New section filed 8-3-2000; operative 9-2-2000 (Register 2000, No. 31). For prior history see Register 99, No. 14.

§ 115.10. Request for the Disqualification of a Hearing Officer.

(a) Any party may request the disqualification of any hearing officer by filing an affidavit, stating with particularity the grounds upon which it is claimed that the hearing officer is disqualified. The only grounds which will be considered in support of a disqualification request are those which clearly demonstrate the hearing officer's bias, prejudice, or interest in the proceeding.

(b) If notification of the hearing officer assignment has been made to the party ten days prior to the commencement of the scheduled hearing, the affidavit requesting the disqualification must be submitted to the driver safety office where the hearing is scheduled to be conducted at least four business days prior to the scheduled hearing. A written determination will be made on the hearing officer disqualification request, prior to the commencement of the notice hearing, by a person designated by the department. The written determination will be delivered to the requesting party at the noticed hearing prior to the taking of any evidence at the noticed hearing and shall be noted on the record.

(c) If notification of the hearing officer assignment has not been made to the party at least ten days prior to the commencement of the scheduled hearing, the request for disqualification must be made on the record, while the requesting party is under oath, and prior to the taking of any evidence at the noticed hearing. An oral determination on the request for a hearing officer disqualification shall be made on the record prior to the taking of any evidence by the person designated by the department.

(d) The person designated by the department to make the determination in response to a request for a hearing officer disqualification, shall not be the hearing officer who is the subject of the disqualification request.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 14104, 14104.2 and 14112, Vehicle Code.

HISTORY

1. New section filed 8-3-2000; operative 9-2-2000 (Register 2000, No. 31).

§ 118.00. Restricted Driver License Based Upon a Critical Need to Drive — Persons Under 21.

(a) The Department may issue a restricted driver license based upon a critical need to drive if the person's driver license was suspended or the issuance of a license delayed pursuant to Vehicle Code Sections 23136, 13388 and 13353.2. The applicant shall meet all other requirements for issuance of a driver license and have no history of disqualifying violations as described in Vehicle Code Section 13353.8.

(b) A request for a critical need restriction shall be made by submitting to the department an Application for Critical Need Restriction, form DS 694 (REV 10/2006) WWW or form DS 2694 (REV 10/2006), which is hereby incorporated by reference. The applicant shall complete the Statement of Facts by Applicant and supply required additional information and supporting evidence regarding circumstances under which a critical need is being requested. It is the applicant's responsibility to provide full and complete answers and to prove facts supporting the claim of a critical need to drive. The applicant shall attach any information regarding alternative transportation that can meet that need.

(c) A person is eligible for a restricted driver license when, in the opinion of the department, sufficient proof of one or more of the following circumstances exists:

(1) School or other transportation is not adequate for regular attendance at school and at activities authorized by the school. The applicant shall complete the Statement of Facts by Applicant and provide required additional information relating to transportation to and from school. The Statement of Facts by School Principal shall be completed on the application and the certification signed under the penalty of perjury under the laws of the State of California. If the school does not have a principal, then a department head, headmaster, administrator or other person whose title indicates a position of responsibility for the supervision and/or administration of the school shall complete the form. The application shall be accompanied by proof of current enrollment in the school.

(2) Transportation facilities are inadequate and the operation of a vehicle by an applicant is necessary due to the illness of a family member. The applicant shall complete the Statement of Facts by Applicant and provide required additional information relating to any family illness. The Statement of Facts by Physician shall be completed on the application and the certification signed under the penalty of perjury under the laws of the State of California. A separate Statement of Facts by Applicant shall be completed for each family member whose disability or illness affects transportation needs.

(3) Transportation facilities are inadequate and the operation of a vehicle by an applicant is necessary due to employment of the applicant and the applicant's income is essential to the support of the family. The applicant shall complete the Statement of Facts by Applicant and provide required additional information relating to transportation to and from work. The Statement of Facts by Employer shall be completed on the application and the certification signed under the penalty of perjury under the laws of the State of California.

(4) Operation of a vehicle by the applicant is essential to a family enterprise from which a substantial amount of the family's income will be derived and without which income the family will be unable to obtain essential goods and services critical to their survival or welfare. The applicant shall complete the Statement of Facts by Applicant and provide additional information relating to any family enterprise. The Statement of Facts by Employer shall be completed and the certification signed under the penalty of perjury under the laws of the State of California.

(d) If public transportation is available within one mile of the applicant's home, but conditions exist which make walking to that transportation unsafe, the applicant shall provide evidence to show the path is unsafe.

(e) If public transportation exists, but service between the applicant's home and medical office, school, place of employment, or family business enterprise is scheduled in a way that would prohibit the applicant from reaching the destination in the time needed and return home on the same day, the applicant shall attach the schedules of all scheduled public transportation, as well as connecting points, and explain how the transportation service will not meet his or her needs.

(f) Any application of an applicant under the age of 18 who is requesting a critical need restriction shall include the signature of both parents on the application.

(1) If a parent has sole custody, that parent shall indicate so by writing "I have sole custody" in the signature space provide for the second parent.

(2) If the applicant is in the custody of a legal guardian, the guardian shall strike through the words "Father" and "Mother" in the signature spaces and sign the application in one space and, in the other space, write "I am the legal guardian of the applicant." A guardian that has physical custody but has not yet been granted legal custody shall indicate so by writing "I have actual physical custody."

(3) An applicant who was an emancipated minor at the time of licensure shall indicate this status by writing "Statement of Emancipation on file" in the space provided for a parent signature. An applicant who is emancipated but has never applied for a driver license and does not have a Statement of Emancipation on file with the department, shall indicate this status by writing, "I am an emancipated minor and can file proof of my financial responsibility" in the space provided for a parent signature.

(4) An applicant who does not fall into any of the categories described in (f)(1) through (f)(3) above may meet the authorization and certification requirements of the application process by complying with provisions of Chapter 2 of Division 9 of the Vehicle Code, beginning at Section 17700 "Civil Liability of Persons Signing License Applications."

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 1652, 1653, 13353.2, 13353.8, 13388, 17700 and 23136, Vehicle Code.

HISTORY

1. New section filed 10-30-2006; operative 11-29-2006 (Register 2006, No. 44).

Article 2.5. Driving Under the Influence Program

§ 120.00. Purchase and Use of Notice of Completion Certificates.

(a) A Driving Under the Influence (DUI) Program provider shall use Notice of Completion Certificates, DL 101 (REV 1/2007), purchased from the department only for submission to the department for participants who have satisfactorily completed the course of instruction offered by the provider. Except as required by subdivision (g), a DUI Program provider shall not issue, sell, loan, or transfer the certificates to the program participant, any other DUI Program provider, person, or entity.

(b) The department shall charge a fee of \$3.00 per Notice of Completion Certificate.

(c) A DUI Program provider may purchase Notice of Completion Certificates in books of fifty (50) from the department's headquarters office. Requests to purchase completion certificates shall be mailed to:

DEPARTMENT OF MOTOR VEHICLES
FORMS AND ACCOUNTABLE ITEMS SECTION - MS G202
PO BOX 932382
SACRAMENTO, CALIFORNIA, 94232-3820.

(1) The request to purchase completion certificates shall be on a Request for DUI Program Forms, DL 101R (Rev. 04/2004), which shall be completed in full and shall contain the printed name and original signature of the program director or any employee authorized by the program director to order completion certificates. The Request for DUI Program Forms, DL 101R (Rev. 04/2004), is herein incorporated by reference.

(A) A DUI Program Director may authorize only one employee per licensed location to purchase or order DUI certificates and only two employees per licensed location to sign completed certificates by submitting a DUI Program Signatory Authority, DL 101S (Rev. 04/2004), which

shall be completed in full and include the printed name and title of the employee, the effective date of the authorization, the employee's signature, and the DUI Program Director's printed name and signature. The DUI Program Signatory Authority, DL 101S (Rev. 04/2004), is herein incorporated by reference.

(B) A DUI Program Director may delete the authorization of an employee to purchase or order DUI certificates or to sign completed certificates by submitting, a DL 101S (Rev. 04/2004), which shall be completed in full and include the name of the deleted employee, the effective date of the deletion, and the printed name and signature of the DUI Program Director.

(C) The DL 101S must be submitted at least five (5) days prior to the effective date of the employee authorization or deletion.

(2) The department shall mail the completion certificates only to the address of record for the DUI Program provider.

(A) Each DUI Program provider shall have only one address of record for each licensed location at a time, which shall be consistent with the mailing or site address given to the Department of Alcohol and Drug Programs and printed in the Directory of DUI Program Service Providers.

(B) Any changes to the DUI Program provider's address of record that occur between Directory update publications must be made, in writing, on the letterhead stationery of the DUI provider, signed by the DUI Program Director, and mailed to the Department of Alcohol and Drug Programs prior to requesting completion certificates at the new address.

(d) The DUI Program provider shall maintain the pink copy of the Notice of Receipt of DUI Program Certificates, ADM 518A (New 5/2002) issued by the department with each shipment of DUI certificates as proof of receipt of completion certificates as a business record for four years from the date the ADM 518A is issued. The Notice of Receipt of DUI Program Certificates, ADM 518A (New 5/2002) is herein incorporated by reference.

(1) The DUI program provider shall sign and mail back the white copy of the ADM 518A to the Department of Motor Vehicles' Forms and Accountable Items Section as evidence of receipt of the completion certificates.

(A) Until the department receives the white copy of the ADM 518A, the department will not authorize the acceptance of the completion certificates issued under that individual ADM 518A.

(B) If the department does not receive the copy of the signed ADM 518A from the DUI Program provider within eight weeks of the shipping date, the department may cancel the completion certificates shipped under the ADM 518A, and those completion certificates will not be accepted by the department.

(2) If the department cancels completion certificates pursuant to this section, no refund of the fees for the canceled certificates will be authorized.

(e) The department shall cancel any completion certificates for which the department received payment by check that is dishonored when presented for payment. The DUI Program provider shall surrender the canceled completion certificates to the department upon notification and demand for surrender.

(f) The department shall replace in full books of fifty (50), without a charge, those completion certificates which are damaged during the manufacturing and/or shipping process, or any completion certificates shipped, but not received as a full book of fifty (50).

(1) If the DUI program provider chooses to request replacement of the completion certificates, the provider shall submit a DL 101R (Rev. 04/2004), and shall complete it in full to include: a list of the numbers for the completion certificates for which replacement is requested, the reason for the replacement request, and a statement, signed under penalty of perjury under the laws of the State of California by the DUI program director or the authorized employee, that the information contained in the replacement request is true and correct.

(2) The DUI program provider shall retain the original certificate and all copies of the damaged completion certificates or those received individually as incomplete books in numerical sequence in the original book

until they are destroyed pursuant to Section 9867 Subdivision (f) of Title 9, California Code of Regulations.

(g) When proof of completion of a DUI Program is required by the Vehicle Code, and the program participant completes all program requirements, the DUI Program provider shall complete the DMV copy of the DL 101 and submit it directly to the department. The program provider shall also submit the court copy of the DL 101 to court, and give the participant the participant copy. The department will only accept the completed original DMV copy from the program provider as acceptable proof of program completion.

(1) DUI Program providers may submit completed certificates by express mail to:

DEPARTMENT OF MOTOR VEHICLES
MANDATORY ACTIONS UNIT
2570 24TH STREET -MS J 233
SACRAMENTO, CA 95818.

(2) DUI Program providers may submit completed certificates by regular mail to:

DEPARTMENT OF MOTOR VEHICLES
MANDATORY ACTIONS UNIT
P.O. BOX 942890
SACRAMENTO, CA 94290-0001.

(3) DUI Program providers who have been authorized by the department to submit completion certificates via electronic medium may submit completion certificates electronically to the department as authorized.

(h) The Vehicle Code requirements for a person to give, provide, or submit proof of completion of a DUI Program satisfactory to the department, shall be satisfied by a program participant when he or she completes all program requirements and signs the Notice of Completion Certificate (DL 101) or the Participant's Certification of DUI Program Enrollment or Completion, DL 804 (REV 1/2003) WWW, and the completed DL 101 is received by the department.

(1) The DL 804 (REV 1/2003) WWW, shall be used only when the participant is unavoidably absent and therefore unavailable to sign the Completion Certificate (DL 101) at the time it is issued by the program provider as evidence of the participant's program completion. The Participant's Certification of DUI Program Enrollment or Completion, DL 804 (REV 1/2003) WWW, is herein incorporated by reference.

(2) The DL 804 shall be retained by the DUI Program provider for the period required by Section 9866 of Title 9, California Code of Regulations, and shall be made available to the department immediately upon request.

(3) If an electronic completion certificate is submitted from a DUI Program provider that the department has authorized to submit completion certificates electronically, the participant's original signature which attests under penalty of perjury that he or she has completed all required DUI Program components will be captured on a DL 804 and retained by the DUI Program provider for the period required by Section 9866 of Title 9, California Code of Regulations. This document shall be made available to the department immediately upon request.

(i) The department will only accept completion certificates that contain all the information requested on the completion certificates. Incomplete or illegible certificates received by the department will be retained by the department and a DUI Program provider who submits an incomplete or illegible certificate will be required to submit a fully completed and legible certificate in place of the incomplete or illegible certificate.

(j) The department will only accept from a DUI Program provider those completion certificates that the department has assigned and shipped to that DUI Program provider, or electronic completion certificates from those program providers that the department has authorized to submit completion certificates electronically.

(k) The department will not accept completion certificates that are submitted more than four years from the date they were issued by the program provider.

HISTORY

1. New article 2.5 and section filed 7-10-95; operative 8-9-95 (Register 95, No. 28).
2. Amendment of section and NOTE filed 12-2-2004; operative 1-1-2005 (Register 2004, No. 49).
3. Amendment of subsection (a) and NOTE filed 4-28-2008; operative 5-28-2008 (Register 2008, No. 18).

§ 120.01. Acquisition and Use of Proof of Enrollment Certificates.

(a) A Driving Under the Influence (DUI) Program provider shall use a Proof of Enrollment Certificate, DL 107 (Rev. 7/2006), obtained from the department only for submission to the department, for participants who are enrolled in a course of instruction offered by the DUI Program provider. Except as required by subdivision (d), a Program provider shall not issue, sell, loan, or transfer the enrollment certificates to any other DUI Program provider, program participant, person, or entity. The Proof of Enrollment Certificate, DL 107 (Rev. 7/2006), is herein incorporated by reference.

(b) A DUI Program provider may obtain enrollment certificates in packages of fifty (50) from the department's headquarters office. Requests for enrollment certificates shall be mailed to:

DEPARTMENT OF MOTOR VEHICLES
FORMS AND ACCOUNTABLE ITEMS SECTION, M/S G202
P. O. BOX 932382
SACRAMENTO, CA 94232-3820.

(1) The request to obtain enrollment certificates shall be made on a Request for DUI Program Forms, DL 101R (Rev. 04/2004), which shall be completed in full and shall include the name, license number, and address of the DUI Program, the printed name and original signature of the program director or any employee authorized by the DUI Program Director, and the quantity of enrollment certificates requested.

(2) The department shall mail the enrollment certificates only to the address of record for the DUI Program provider.

(c) The DUI Program provider shall maintain the pink copy of the Notice of Receipt of DUI Program Certificates, ADM 518A (New 5/2002), as proof of receipt of enrollment certificates as a business record for four years from the date the ADM 518A is issued.

(1) The DUI Program provider shall sign and mail back the white copy of the ADM 518A to the Department of Motor Vehicles' Forms and Accountable Items Section as evidence of receipt of the enrollment certificates.

(A) Until the department receives the white copy of the ADM 518A, the department will not authorize the acceptance of the enrollment certificates issued under that individual ADM 518A.

(B) If the department does not receive the copy of the signed ADM 518A from the DUI Program provider within eight weeks of the shipping date, the department may cancel the enrollment certificates shipped under that individual ADM 518A and those enrollment certificates will not be accepted by the department.

(d) When evidence of enrollment in a DUI Program is required by the Vehicle Code, and the program participant enrolls in a program, the DUI Program provider shall complete the DMV copy of the DL 107 and submit it directly to the department. The program provider shall also submit the court copy of the DL 107 to the court and give the participant the participant copy. The department will only accept the completed original DMV copy from the program providers as acceptable proof of program enrollment.

(1) DUI Program providers may submit completed enrollment certificates by express mail to:

DEPARTMENT OF MOTOR VEHICLES
MANDATORY ACTIONS UNIT
2570 24TH STREET -MS J 233
SACRAMENTO, CA 95818.

(2) DUI Program providers may submit completed enrollment certificates by regular mail to:

DEPARTMENT OF MOTOR VEHICLES
MANDATORY ACTIONS UNIT
P.O. BOX 942890
SACRAMENTO, CA 94290-0001.

(3) DUI Program providers who have been authorized by the department to submit enrollment certificates via electronic medium may submit enrollment certificates electronically to Department of Motor Vehicles as authorized.

(e) If an electronic enrollment certificate is submitted from a DUI Program that the department has authorized to submit enrollment certificates electronically, the participant's original signature will be captured on a Participant's Certification of DUI Program Enrollment or Completion, DL 804 (REV 1/2003) WWW and retained by the DUI Program provider for the period required by Section 9866 of Title 9 of the California Code of Regulations. This document shall be made available to the department immediately upon request.

(f) The department will only accept enrollment certificates which contain all the information requested on the enrollment certificate. All incomplete certificates received by the department will be retained by the department and the DUI Program provider who submitted the incomplete certificates will be required to submit fully completed certificates in place of the incomplete certificates.

(g) The department will only accept from a DUI Program provider those enrollment certificates that the department has assigned and shipped to that DUI Program provider, or electronic enrollment certificates from those DUI Program providers that the department has authorized to submit enrollment certificates electronically.

2. Repealer filed 6-16-97; operative 7-16-97 (Register 97, No. 25).

§ 124.92. Termination of Suspension or Revocation.

(A) A person applying for termination of a suspension or revocation pursuant to Section 13353.5 of the Vehicle Code shall complete an Application for Termination of Action Section 13353.5 California Vehicle Code, DL 4006 (Rev. 11/2003). The DL 4006 shall be completed to include:

- (1) The full name and birthdate of the individual.
- (2) The California driver license number or file number assigned by the department in the absence of a California driver license number.
- (3) The current home and day telephone numbers, if available.
- (4) The current residence and mailing address.
- (5) A statement authorizing the department to cancel any California Driver License issued to the applicant if the applicant's suspension or revocation is terminated as requested.

(6) A statement, signed and dated under penalty of perjury under the laws of California, that the individual is a resident of a state other than California, has read and understood Section 12505 of the Vehicle Code, regarding residency requirements and Section 13353.5 of the Vehicle Code, regarding termination of suspension or revocation for nonresidents; and that the information provided on the application is true and correct.

(b) All applications submitted pursuant to subdivision (a) shall include documented proof of out-of-state residency. Proof of out-of-state residency shall include one or more of the following documents in the name and current residence address of the applicant:

- (1) Receipts for payment of resident tuition at a public institution of higher education or school records.
- (2) Utility bills issued by a utility company.
- (3) Documents issued by a licensing authority indicating a current application for a driver license in the state of residence.
- (4) Tax records issued by a State or Federal agency.
- (5) Home rental or leasing contracts, filing of homeowner's property tax exemption or homestead exemption certificate.
- (6) Official voter registration documents.
- (7) Official document issued by a governmental agency that can be used by the department to prove residency.

(c) Applicants who have received a prior termination of a suspension or revocation pursuant to Section 13353.5 of the Vehicle Code are not eligible to receive a subsequent termination of a suspension or revocation action pursuant to Vehicle Code Section 13353.5.

(d) Upon receipt of the completed DL 4006 and supporting documents, if the department determines that the driver meets the requirements of Section 13353.5 of the Vehicle Code, the suspension or revocation pursuant to Section 13352 or 13352.4 of the Vehicle Code may be terminated. Any other action against the driving privilege of the driver shall remain in full force until the driver meets the requirements for ending that action.

2. Amendment of section and NOTE filed 2-2-2005; operative 3-4-2005 (Register 2005, No. 5).

§ 124.93. Reissuance of California Driver License.

A driver whose suspension or revocation under Section 13352, 13352.1, or 13352.4 of the Vehicle Code was terminated pursuant to Section 13353.5 is not eligible for issuance of a driver license in California until:

(a) Payment of the reissuance fee imposed pursuant to Section 14904 of the Vehicle Code.

(b) The department determines that no grounds exist for refusal of a license.

(c) Three years have elapsed from the date of the termination or the driver completes the driving-under-the-influence program required pursuant to Section 13352, 13352.1, or 13352.4 of the Vehicle Code, submits a Notice of Completion Certificate (Form DL 101 (Rev. 1/2007)) to

the department, and submits proof of financial responsibility pursuant to Section 16430 of the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 13100, 13352, 13352.1, 13352.4, 13353.4, 13353.5, 14904 and 16430, Vehicle Code.

2. Amendment of section and NOTE filed 2-2-2005; operative 3-4-2005 (Register 2005, No. 5).
3. Amendment of subsections (a) and (c) and NOTE filed 4-28-2008; operative 5-28-2008 (Register 2008, No. 18).

§ 124.95. Restriction Fee.

Pursuant to Sections 13352, subdivisions (a)(3) through (a)(7), 13352.1 and 13352.5 of the Vehicle Code, a \$15 restriction fee is required to be paid upon application for a restricted driver license. This fee is in addition to all other fees required by the Vehicle Code, and shall be paid prior to the issuance of a restricted driver license.

Article 2.55. California Ignition Interlock Device Program

§ 125.00. Definitions.

As used in this article, the following definitions shall apply:

(a) "Ignition interlock device" is a device designed to allow a vehicle ignition switch to start the engine when the breath alcohol concentration test result is below the alcohol setpoint, while locking the ignition when the breath test results is at or above the alcohol setpoint.

(b) The "alcohol setpoint" is the breath alcohol concentration at which the ignition interlock device is set to lock the ignition. The alcohol set-

[The next page is 8.2(c).]

point is the nominal lockpoint at which the ignition interlock device is set at the time of calibration. The lockout setting shall be at 0.03 percent breath alcohol concentration.

(c) "Bypass" of an ignition interlock device, as used in Vehicle Code Section 23575, shall mean the same as "circumvention" as contained in the federal model specifications for breath alcohol ignition interlock devices as published by notice in the Federal Register, Vol. 57, No. 67, Tuesday, April 7, 1992, pages 11774–11787.

(d) To "tamper" with an ignition interlock device, as used in Vehicle Code Section 23575, means an overt, conscious attempt to alter, physically disable, or disconnect the ignition interlock device from its power source, and thereby allow a person with a breath alcohol concentration above the setpoint to start the engine. Examples of tampering with an ignition interlock device include, but are not limited to, the following:

(1) Altering the wiring of the vehicle which will allow the starting of the vehicle without blowing a passing test.

(2) Modifying the functionality of the breath unit.

(3) Altering, deleting, or modifying the electronic log.

(e) "Manufacturer" means any individual, partnership, or corporation engaged in the manufacturing or assembling of ignition interlock devices.

(f) An "authorized installer" is a designee of the manufacturer who is responsible for ensuring that the manufacturer's ignition interlock devices are properly installed, calibrated, serviced, and monitored; and is responsible for the completion of all required forms, and maintenance of all files.

(g) "Participant file" is a tangible file used to retain and maintain all records and documents directly associated with, but not limited to, the installation, calibration, servicing, monitoring and removal of the ignition interlock device(s) related to a program participant.

(h) "Electronic log" is a record of the vehicle use and interlock test results recorded by an ignition interlock device and shall mean the same as "data recording" as contained in the federal model specifications for breath alcohol ignition interlock devices published by notice in the Federal Register, Vol. 57, No. 67, Tuesday, April 7, 1992, pages 11774–11787.

(i) "Hardcopy" shall mean a legible, printed copy.

NOTE: Authority cited: Sections 1651 and 23575, Vehicle Code. Reference: Section 23575, Vehicle Code.

HISTORY

1. Renumbering of former article 2.4 to new article 2.55 (sections 125.00–125.22) and new section filed 6–22–2001; operative 7–22–2001 (Register 2001, No. 25).
2. New subsections (a), (b), (e)–(i) and subsection relettering filed 10–29–2003; operative 11–28–2003 (Register 2003, No. 44).

§ 125.02. Certification of Ignition Interlock Devices.

An ignition interlock device shall not be installed, or used as part of a program for driving under the influence offenders unless the model or type of device has been certified by the department in accordance with the requirements of this article.

(a) An individual, partnership, or corporation may apply to the department for certification of an ignition interlock device by submitting a completed application to the department. A separate application is required for each model or type of device. A completed application shall contain the following:

(1) Form DL 9, Application for Certification of Ignition Interlock Device (REV. 4/2000). The application form shall contain the following information:

(A) The name of the individual, partnership, or corporation which manufactures the device.

(B) The name and model number of the device.

(C) The business address and telephone number of the manufacturer.

(D) The business name under which the device will be marketed.

(E) Information specific to the type of business entity. If a sole proprietorship, the name and address of the sole owner. If a partnership, the partnership name, and the name and address of each general and limited partner. If a corporation, the California corporation number and the

name, address and title of each principal officer, director, or stockholder participating in the direction, control, and management of the policy of the business.

(F) A statement signed by the sole proprietor, each partner, or a corporate officer authorized to sign for the corporation (the corporate seal may be affixed), under penalty of perjury under the laws of the state of California, that all statements made on the application and all attachments to the application are true and correct.

(2) A detailed description of the device, including a photograph, drawing, or other graphic depiction of the device.

(3) Complete technical specifications describing the device's accuracy, reliability, security, data collection and recording, tamper detection, and environmental features.

(4) A complete and true copy of data from an independent laboratory demonstrating that the device meets or exceeds the minimum federal standards pursuant to Vehicle Code Section 13386(d). For purposes of this article, the term "independent laboratory" shall be interpreted to include any of the following, provided the laboratory is properly equipped and staffed to conduct laboratory tests on ignition interlock devices to ensure they meet the accuracy requirements and specifications provided in Sections 1 and 2 of the model specifications for breath alcohol ignition interlock devices as published as a Notice in the Federal Register, Vol. 57, No. 67, Tuesday, April 7, 1992, on pages 11774–11787:

(A) A state-run laboratory

(B) A private laboratory which can demonstrate its capability to carry out the required tests

(C) A laboratory certified by a state department of Public Health to conduct chemical tests

(5) A certification on Form DL 28, Laboratory Report (REV. 3/2000), signed by an authorized official of the laboratory which tested the device, that the device was tested by the laboratory indicated in accordance with the federal regulations and that the device was found to satisfy the requirements of Sections 1 and 2 of the model specifications for breath alcohol ignition interlock devices as published as a Notice in the Federal Register, Vol. 57, No. 67, Tuesday, April 7, 1992, on pages 11774–11787. The certification shall specify that the laboratory used properly maintained equipment, and trained personnel to conduct the tests, and that the test results are accurate. The Laboratory Report shall include the name, address and telephone number of the testing laboratory; the name, model number, and description of the device tested.

(6) A complete listing of all authorized installers' locations and their satellite locations that includes the name, Bureau of Automotive Repair number, telephone number, contact name, and hours of operation.

(7) A copy of the instructions that will be provided to authorized installers, including complete instructions for installation, operation, service, repair, and removal of the device.

(8) A copy of the written instructions that will be provided to participants who have the device installed.

(9) A certificate from an insurance company that the manufacturer holds product liability insurance and that the department is named as an additional insured. The policy limit shall be a minimum of one million dollars (\$1,000,000). The liability insurance shall include coverage for manufacturing, defects in product design and materials, calibration, installation, and removal of devices. The certificate of insurance shall contain a statement that the insurance company will notify the department 30 days before cancellation of the insurance.

(10) A signed statement that the manufacturer shall indemnify and hold harmless the state of California, the department and its officers, employees and agents from all claims, demands, and actions, as a result of damage or injury to persons or property which may arise, directly or indirectly, out of any act or omission by the manufacturer relating to the installation, service, repair, use and removal of an ignition interlock device.

(11) A copy of the fee schedule or schedules adopted by a manufacturer and manufacturer's authorized installer pursuant to subdivision (h) of Section 13386 of the Vehicle Code. The fee schedule shall include provi-

sions for the payment of the costs of the device by an applicant in amounts commensurate with the applicant's ability to pay. The fee schedule shall include the cost of all services provided, including standard charges for installation, service and maintenance, and removal of the devices, and any non-standard charges for service and maintenance of the devices.

(12) An imprint of the manufacturer's stamp. A manufacturer shall ensure that each authorized installer has the stamp of the manufacturer of the device, meaning a stamping tool, not an imprint.

(13) A manufacturer shall provide the department with a toll-free telephone number through which participants may be referred to the authorized installers.

(14) An application fee of \$100.00.

(b) The department may have the laboratory test results reviewed, at the manufacturer's expense, by an agency or individual outside the department, and of the department's choice, when such review is deemed necessary to determine whether or not a device meets the requirements for certification.

(c) The department may require that manufacturers install devices on vehicles approved by the department to field test the devices.

(d) The department shall certify, or refuse to certify, a device within 90 days of receipt of a complete application. The department shall notify the manufacturer within 10 days of receipt of the application if the application is incomplete and shall specify what information or documents are needed to complete the application.

(e) An applicant who has not received notification within the time periods specified may file an appeal with the Secretary of the Business, Transportation and Housing Agency in accordance with Chapter 6 of Division 3 of Title 21 of the California Code of Regulations. If the Secretary finds that the department failed to provide the notification required within the time period specified without good cause, the department shall reimburse the applicant fully for all application fees paid.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 1652 and 13386, Vehicle Code; and Sections 15374–15378, Government Code.

HISTORY

1. Renumbering of former section 100.91 to section 125.02, including amendment of section and NOTE, filed 6–22–2001; operative 7–22–2001 (Register 2001, No. 25).
2. Amendment of subsections (a)(6), (a)(11) and (a)(12), new subsection (a)(13) and subsection renumbering filed 10–29–2003; operative 11–28–2003 (Register 2003, No. 44).
3. Amendment of subsections (a)(4) and (a)(11) filed 9–18–2007; operative 10–18–2007 (Register 2007, No. 38).

§ 125.04. Modification of Certified Device.

A manufacturer shall notify the department in writing of any material modification or alteration in the components, design or installation and operating instructions of any device certified for use in this state. The manufacturer shall provide the department satisfactory proof (to include retesting by an independent laboratory, if required by the department), prior to the sale or distribution of a modified or altered device, that these modifications or alterations do not adversely affect the ability of the device to satisfy the requirements of the minimum federal standards pursuant to Vehicle Code Section 13386(e).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 13386, Vehicle Code.

HISTORY

1. Renumbering of former section 100.93 to section 125.04, including amendment of section and NOTE, filed 6–22–2001; operative 7–22–2001 (Register 2001, No. 25).
2. Amendment filed 9–18–2007; operative 10–18–2007 (Register 2007, No. 38).

§ 125.06. Compliance with Changes in Certification Requirements.

(a) A manufacturer of an ignition interlock device certified by the department shall comply with any regulatory changes within 60 days from adoption for the device to remain certified.

(b) If there are any changes to the list of authorized installers, a manufacturer shall submit an updated list to the department within 10 days of the change.

(c) If there are any changes to an adopted fee schedule, a manufacturer shall submit the updated fee schedule to the department within 30 days of the changes.

(d) If there are any changes to the manufacturer's stamp, a manufacturer shall provide an imprint of the new stamp to the department 30 days prior to its use.

(e) If there are any changes to the toll-free telephone number, a manufacturer shall provide the new toll-free telephone number to the department 90 days prior to its use.

(f) If there are any changes to any information provided on the Application for Certification of Ignition Interlock Device form (DL 9) (REV. 4/2000), a manufacturer shall submit an updated application within 30 days of the changes.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 13386, Vehicle Code.

HISTORY

1. New section filed 10–29–2003; operative 11–28–2003 (Register 2003, No. 44).

§ 125.08. Refusal, Suspension or Revocation of Device Certification.

(a) The department may refuse to certify a device, or may suspend or revoke the certification of a device and remove it from the list of certified devices, for any of the following reasons:

(1) Defects in design, materials, or workmanship of the device causing repeated failures of a device to function as intended.

(2) Termination or cancellation of a manufacturer's liability insurance.

(3) The manufacturer ceases to manufacture ignition interlock devices.

(4) Voluntary request by a manufacturer to cancel certification of a device.

(5) Violation of a provision of this article by a manufacturer or authorized installer.

(6) The manufacturer or certifying laboratory provides materially false or inaccurate information relating to the performance of a device.

(7) Modification or alteration of the components, design, or installation and operation instructions in such a way that the requirements of the minimum federal standards adopted in Vehicle Code Section 13386(e) are no longer satisfied.

(b) Suspension or revocation of certification shall be effective 30 days after written notification is sent to the manufacturer by certified mail. The notice of suspension or revocation shall specify the basis for the action.

(c) Within ninety days of the suspension or revocation of certification, the manufacturer shall be responsible for and shall bear the cost of removal of any and all de-certified devices and the replacement with a certified device regardless of the manufacturer of the device being substituted.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 13386, Vehicle Code.

HISTORY

1. Renumbering of former section 100.92 to section 125.08, including amendment of section and NOTE, filed 6–22–2001; operative 7–22–2001 (Register 2001, No. 25).
2. Amendment of subsection (a)(7) filed 9–18–2007; operative 10–18–2007 (Register 2007, No. 38).

§ 125.10. Referral to an Authorized Installer.

(a) A manufacturer shall only refer a driver participating in the ignition interlock program (a participant) to an authorized installer who meets the requirements in Sections 3363.1 through 3363.4 of Title 16 of the California Code of Regulations. The manufacturer shall also ensure that an authorized installer complies with the installation procedures established in Title 16 of the California Code of Regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 13386(f), Vehicle Code.

HISTORY

1. Renumbering of former section 100.94 to section 125.10, including amendment of section and NOTE, filed 6–22–2001; operative 7–22–2001 (Register 2001, No. 25).

2. Amendment of subsection (a) and repealer of subsections (b)–(c) filed 10–29–2003; operative 11–28–2003 (Register 2003, No. 44).

§ 125.12. Service and Maintenance of Ignition Interlock Devices.

(a) A manufacturer shall ensure that an authorized installer has the training and skills necessary to install, troubleshoot, check for proper operation of the device, screen the vehicle for acceptable condition, and complies with the following:

(1) Provides all participants with the following:

(A) A verification of installation report upon installation of an ignition interlock device. The installer shall submit verification forms under the following circumstances:

(i) When a participant is requesting a restricted driver license pursuant to Vehicle Code section 13352(a)(3) through (a)(7), the installer shall complete an original Verification of Installation, form DL 920 (REV 1/2007), which is hereby incorporated by reference, in accordance with section 125.16 of this article.

(ii) When a court has ordered the installation of an Ignition Interlock Device, the installer shall complete and submit a court-authorized verification of installation form to the court. The installer shall provide verification of installation to the department and must submit an original Verification of Installation, form DL 920 (REV 1/2007) or a copy of the court-authorized verification of installation form.

(B) Written instructions on cleaning and caring for the device.

(C) Written instructions on types of vehicle malfunctions or repairs that may affect the device, and what to do when such repairs are necessary.

(D) Written and hands-on training for the participant and all persons who operate the vehicle on use of the device after it is installed in the vehicle.

(E) A 24-hour emergency phone number that may be used to request assistance in the event of failure of the device or vehicle problems related to operation of the device. The assistance provided by the authorized installer shall include technical information, tow service, or road service. The device shall be made functional within 48 hours of the call for assistance, or the device shall be replaced.

(2) Follows the manufacturer's specifications for service and repair of an ignition interlock device.

(A) Services the device in intervals not to exceed 60 days.

(B) Service shall include, but not be limited to, physical inspection of the device and vehicle for tampering, calibration of the device, and monitoring of the data contained within the device's memory.

(C) Each time a device is serviced, downloads all the data recorded in the device's memory. The electronic log shall specify the corresponding device or participant file identification number (that when accessed will clearly specify the corresponding device), the date the download occurred and can be either a hardcopy or an electronic copy. If an electronic copy is used it shall be electronically maintained and a hardcopy shall be provided upon request. The downloaded data shall also contain a summary report that includes each incident the breath alcohol level was at or above the alcohol setpoint, any attempts to bypass or tamper with the device and shall specify the corresponding device or participant file identification number, and date the download occurred.

(D) Each time a device is serviced, a hardcopy of the summary report shall be included in the participant's file.

(E) Each time a device is serviced, a hardcopy of the calibration results shall be included in the participant's file.

(F) If an installed device is replaced with another device, the event shall be documented. The documentation shall specify each device and the documentation shall be included in the participant file.

(G) If a participant fails to return the vehicle for recalibration within 60 days, and does not contact the installer to reschedule the appointment for service, the installer shall schedule another appointment within seven days of the missed appointment. The installer shall notify the participant of the new appointment by mail and by telephone, if possible. If the participant fails to keep the second appointment, and does not contact the in-

staller to reschedule the appointment, the installer shall schedule a third appointment within seven days of the missed appointment. The installer shall notify the participant of the new appointment by mail and by telephone, if possible. If the participant fails to keep the third appointment, the installer shall report the participant's non-compliance to the department on the Notice of Non-Compliance, form DL 921 (NEW 11/99), pursuant to Section 125.18 of this article.

(H) If the participant is unable to return the vehicle for recalibration within 60 days due to military service, a family death, or similar event beyond the control of the participant, and the participant can document the event to the satisfaction of the installer prior to non-compliance being reported to the department by the installer, the installer may extend the time for recalibration as appropriate. A copy of the documentation shall be included in the participant's file. If the participant fails to return the vehicle for recalibration as scheduled, the installer shall follow the procedure in subdivision (G) to determine non-compliance.

(3) Conducts physical tamper inspections every time the device is serviced, or given routine inspection, maintenance, or repair, or is replaced.

(A) A tamper inspection shall include checking the device for proper operation of tamper detection capabilities. If tampering is detected, the inspection shall also include installation wiring connection and tamper seals.

(B) Documenting evidence of tampering shall include photographing the damage, an electronic log hardcopy, or completing a comprehensive incident report or other written documentation. If originals of such evidence are sent to a court or the department, copies shall be included in the participant's file.

(C) The installer shall report any evidence of attempts to bypass or circumvent the device or of physical tampering to the appropriate court or the department within three working days. When reporting such evidence to the department, the installer shall complete the Notice of Non-Compliance, form DL 921 (NEW 11/99) pursuant to Section 125.18 of this article.

(D) After the evidence of tampering has been recorded or photographed, and reported to the appropriate court or the department, the installer shall restore the system and its tamper seals, or equivalents, and all other components to their original condition to prevent further abuse.

(E) If a participant fails to maintain the device pursuant to Section 23575 of the Vehicle Code, the installer shall report non-compliance to the appropriate court or the department within three working days.

(F) When reporting non-compliance to the court personnel, the installer shall follow procedures and forms provided by the appropriate court and a copy shall be included in the participant's file.

(b) Whenever a device is removed, a manufacturer shall ensure that the vehicle is restored to its original condition by the authorized installer. When reporting the removal to the court personnel, the installer shall follow procedures and forms provided by the appropriate court and a copy shall be included in the participant's file or an "Ignition Interlock Notice of Removal," form DL 922 (REV 1/2007), which is hereby incorporated by reference, pursuant to Section 125.20 of this article, shall be sent to the department, within three working days after removal of a device.

(c) A manufacturer shall be responsible for providing continuing service by an authorized installer during the period the device is installed, without interruption, when an authorized installer is replaced with another affiliated authorized installer or replaced with another authorized installer affiliated with another manufacturer.

(1) The manufacturer shall obtain all participant files from an authorized installer being replaced, and shall provide the participant files to the new installer.

(2) The manufacturer shall ensure that each participant with an existing, installed device is able to obtain the required service within a similar distance or less from the participant's residence or place of business. If there are installed devices for which authorized service is no longer accessible, such devices shall be replaced by the manufacturer, at no cost

to the participant, with a device from another manufacturer's authorized installer located at a similar distance or less from the participant's residence or place of business.

(3) The manufacturer shall make every effort to notify all participants of a change of the authorized installer or replacement of the device 30 days before the change or replacement will occur. When the manufacturer is unable to notify participants 30 days prior to the change or replacement, the manufacturer shall notify all participants of the change as soon as possible.

(4) The removal of the device shall be recorded on an Ignition Interlock Notice of Removal form DL-922 (REV 1/2007) pursuant to § 125.20. Section II of the Ignition Interlock Notice of Removal form DL-922 (REV 1/2007) is not applicable for this type of removal. The installation of the new manufacturer's device shall be recorded on a Verification of Installation form DL-920 (REV 1/2007) pursuant to section 125.16. To substantiate that no break in service has occurred, the department copies of the Verification of Installation form DL-920 (REV 1/2007) and Ignition Interlock Notice of Removal form DL-922 (REV 1/2007) shall be submitted to the department together.

(d) A manufacturer shall be responsible for providing continuing service by an authorized installer during the period the device is installed, without interruption, when the participant elects to transfer to an affiliated authorized installer or to another authorized installer affiliated with another manufacturer.

(1) The participant's file shall be transferred pursuant to the procedures described in § 125.12(c)(1).

(2) The device removal and installation shall be recorded and reported pursuant to the procedures described in § 125.12(c)(4).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 13386 and 23575(g), Vehicle Code.

HISTORY

1. New section filed 6-22-2001; operative 7-22-2001 (Register 2001, No. 25).
2. Amendment filed 10-29-2003; operative 11-28-2003 (Register 2003, No. 44).
3. Amendment of subsection (a)(1)(A), new subsections (a)(1)(A)(i)-(ii), and amendment of subsections (b) and (c)(4) filed 9-18-2007; operative 10-18-2007 (Register 2007, No. 38).

§ 125.14. Installation Locations and Participant Files.

(a) Authorized installer installation locations may include mobile units or satellite locations for the installation, calibration, servicing, monitoring and removal of the devices.

(b) A manufacturer shall ensure that each authorized installer creates and maintains a participant file for each participant.

(c) A copy of all completed ignition interlock device program forms used by the court shall be included in the participant file.

(d) The department may obtain copies of participants' files directly from an authorized installer.

(e) The department may inspect the authorized installer's participant files or the installation locations during regular business hours.

(f) A manufacturer shall ensure that each authorized installer, after a device is removed, retains the participant's file for a minimum of five (5) years.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 13386, Vehicle Code.

HISTORY

1. Renumbering of former section 100.95 to section 125.14, including amendment of section and NOTE, filed 6-22-2001; operative 7-22-2001 (Register 2001, No. 25).
2. Repealer and new section heading and amendment of section filed 10-29-2003; operative 11-28-2003 (Register 2003, No. 44).

§ 125.16. Verification of Installation.

(a) Unless the participant is ordered by the court to install an Ignition Interlock Device, the participant shall submit the \$15 fee specified in Section 124.95 of Title 13 of the California Code of Regulations and a Verification of Installation, form DL 920 (REV 1/2007) upon application for a restricted driver license pursuant to subdivisions (a)(3) through (a)(7) of Section 13352 of the Vehicle Code. This fee and form is in addi-

tion to all other application requirements. The Verification of Installation, form DL 920 (REV 1/2007), shall contain the following information:

- (1) The stamp of the manufacturer of the device.
- (2) The participant's name and driver license number.
- (3) The participant's mailing address, and residence address, if different from the mailing address.
- (4) The participant's birth date.
- (5) The participant's home and work telephone numbers.
- (6) The name of the manufacturer of the ignition interlock device installed.
- (7) The installation location name, Bureau of Automotive Repair number, and address.
- (8) The date the device was installed.
- (9) The make, year, license plate number, and vehicle identification number of the vehicle in which the ignition interlock device was installed.

(10) The installer's printed name and a statement signed and dated by the installer, under penalty of perjury under the laws of the State of California, that the information provided on the form is true and correct.

(11) The installer's daytime telephone number.

(b) If an Ignition Interlock Device is ordered by the court, the participant shall submit an original Verification of Installation, form DL 920 (REV 1/2007) or the court ordered verification of installation form to the department.

(c) The Verification of Installation, Form DL 920 (REV 1/2007), may contain the date of the next monitor check.

(d) A manufacturer shall account for each Verification of Installation, form DL 920 (REV 1/2007), issued to the manufacturer. If any unused forms become lost, stolen, or misplaced the manufacturer shall immediately notify local law enforcement and provide written notification to the department.

(e) Completed copies of the Verification of Installation, form DL 920 (REV 1/2007), shall be distributed as follows:

(1) The original completed Verification of Installation, form DL 920 (REV 1/2007), shall be submitted to the department at a local field office, or mailed to the Department of Motor Vehicles, Mandatory Actions Unit, Mail Station J233, P.O. Box 942890, Sacramento, California, 94290-0001.

(2) One copy each shall be provided to the driver, the authorized installer of the device to include in the participant's file, and the manufacturer of the device or the manufacturer's agent, if applicable.

NOTE: Authority cited: Sections 1651, 13352 and 13386, Vehicle Code. Reference: Sections 1652, 13352 and 13386, Vehicle Code.

HISTORY

1. New section filed 6-22-2001; operative 7-22-2001 (Register 2001, No. 25).
2. Amendment of subsections (a) and (a)(7), new subsection (c), subsection relettering, and amendment of newly designated subsections (d)-(d)(2) filed 10-29-2003; operative 11-28-2003 (Register 2003, No. 44).
3. Amendment of subsection (a), new subsection (b), subsection relettering and amendment of newly designated subsections (c)-(e)(1) filed 9-18-2007; operative 10-18-2007 (Register 2007, No. 38).

§ 125.18. Notice of Non-Compliance.

(a) An installer shall submit to the department within three working days a Notice of Non-Compliance, form DL 921 (NEW 11/99), if an ignition interlock device indicates that the participant has attempted to remove, bypass, or tamper with the device, or if the participant fails three or more times to comply with any requirement for the maintenance or calibration of the ignition interlock device, pursuant to subdivision (g) of Section 23575 of the Vehicle Code. The Notice of Non-Compliance form, DL 921 (NEW 11/99), shall contain the following information:

- (1) The participant's name and driver license number.
- (2) The participant's mailing address, and residence address, if different from the mailing address.
- (3) The participant's date of birth.
- (4) The participant's home and work telephone numbers.
- (5) The name of the manufacturer of the device.

(6) The installation location name, Bureau of Automotive Repair number, and address.

(7) The serial number of the device and the date the device was installed in the vehicle.

(8) The make, year, license plate number, and vehicle identification number of the vehicle with the ignition interlock device.

(9) Whether the installed device shows evidence of attempts to remove, bypass or tamper with the device, and the corresponding date or dates.

(10) Whether the participant failed three or more times to comply with the device maintenance or calibration requirements, and the corresponding dates of non-compliance.

(11) The installer's printed name and a statement signed and dated by the installer, under penalty of perjury under the laws of the State of California, that the information provided on the form is true and correct.

(12) The installer's daytime telephone number.

(13) The date the form is sent to the department.

(b) Completed copies of the Notice of Non-Compliance form, DL 921 (NEW 11/99), shall be distributed as follows:

(1) The installer shall submit the original completed Notice of Non-Compliance form, DL 921 (NEW 11/99), to the department. The installer may mail the form to the Department of Motor Vehicles Mandatory Actions Unit, Mail Station J233, P. O. Box 942890, Sacramento, California, 94290-0001, or fax the completed form to the department at (916) 657-6001.

(2) One copy each shall be provided to the driver, the authorized installer to include in the participant's file, and the manufacturer of the device or the manufacturer's agent, if applicable.

NOTE: Authority cited: Sections 1651 and 23575, Vehicle Code. Reference: Sections 1652, 13386 and 23575, Vehicle Code.

HISTORY

1. New section filed 6-22-2001; operative 7-22-2001 (Register 2001, No. 25).
2. Amendment of subsections (a), (a)(6) and (b)-(b)(2) filed 10-29-2003; operative 11-28-2003 (Register 2003, No. 44).

§ 125.20. Notice of Removal.

(a) An installer shall submit to the department within three working days an Ignition Interlock Notice of Removal, form DL 922 (REV 1/2007), when the installer removes an ignition interlock device, pursuant to Section 125.12 of this article. The Ignition Interlock Notice of Removal, form DL 922 (REV 1/2007), shall contain the following information:

(1) The stamp of the manufacturer of the device.

(2) The participant's name and driver license number.

(3) The participant's mailing address, and residence address if different from mailing address.

(4) The participant's birth date.

(5) The participant's home and work telephone numbers.

(6) The date the ignition interlock device was removed.

(7) When an installer removes a device from a participant's vehicle and reinstalls the device into another vehicle operated by the same participant, the removal and reinstallation is to be recorded by completing Section II "Removal/Installation Information."

(A) The first segment of Section II identifies the vehicle make, year, license plate number and vehicle identification number of the vehicle from which the device is being removed.

(B) The second segment of Section II identifies the vehicle make, year, license plate number, and vehicle identification number of the vehicle in which the device is being reinstalled and also includes the date of installation, and the date of the next monitor check.

(8) The name of the manufacturer of the device removed.

(9) The name, Bureau of Automotive Repair number, and address of the installation location that removed the device.

(10) A certification signed and dated by the installer, under penalty of perjury under the laws of the State of California, that the information provided on the form is true and correct.

(11) The installer's printed name and daytime telephone number.

(12) The date the form is sent to the department.

(b) A manufacturer shall account for each Notice of Removal, form DL 922 (REV 1/2007), issued to the manufacturer. If any unused forms become lost, stolen, or misplaced the manufacturer shall immediately notify local law enforcement and provide written notification to the department.

(c) Completed copies of the Notice of Removal form, DL 922 (REV 1/2007), shall be distributed as follows:

(1) The installer shall submit the original completed Notice of Removal, form DL 922 (REV 1/2007), to the department. The installer may mail the completed form to the Department of Motor Vehicles Mandatory Actions Unit, Mail Station J233, P. O. Box 942890, Sacramento, California, 94290-0001, or fax the completed form to the department at (916) 657-6001.

(2) One copy each shall be provided to the driver, the authorized installer of the device to include in the participant's file, and the manufacturer of the device or the manufacturer's agent, if applicable.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 1652, 13386 and 23575(g), Vehicle Code.

HISTORY

1. New section filed 6-22-2001; operative 7-22-2001 (Register 2001, No. 25).
2. Amendment filed 10-29-2003; operative 11-28-2003 (Register 2003, No. 44).
3. Amendment of subsections (a) and (b)-(c)(1) filed 9-18-2007; operative 10-18-2007 (Register 2007, No. 38).

§ 125.22. Notice to Employers Regarding an Ignition Interlock Restriction.

(a) The department shall provide to any requesting participant a Notice to Employers, Ignition Interlock Restriction, form DL 923 (NEW 11/99).

(b) The participant shall provide a Notice to Employers, Ignition Interlock Restriction, form DL 923 (NEW 11/99), to any employer who owns a vehicle that the participant must operate during the course of employment, and keep a copy of the Notice to Employers Ignition Interlock Restriction in his or her possession or with the vehicle operated. The Notice to Employers, Ignition Interlock Restriction, form DL 923 (NEW 11/99), allows the participant to operate the employer's vehicle without an ignition interlock device. The Notice to Employers, Ignition Interlock Restriction form DL 923 (NEW 11/99), shall contain the following information:

(1) The participant's name.

(2) The employer's name.

(3) The business name, telephone number, and address.

(4) A certification signed and dated by the employer, under penalty of perjury under the laws of the State of California, that the employer has been notified by the employee pursuant to Section 23576 of the Vehicle Code.

NOTE: Authority cited: Sections 1651 and 23576, Vehicle Code. Reference: Sections 1652 and 23576, Vehicle Code.

HISTORY

1. New section filed 6-22-2001; operative 7-22-2001 (Register 2001, No. 25).
2. Amendment of subsections (a)-(b) filed 10-29-2003; operative 11-28-2003 (Register 2003, No. 44).

Article 2.6. Reinstatement Fees

§ 140.00. Reissue Fee.

(a) Pursuant to Section 14904 of the Vehicle Code, a \$42.00 driver license reissue fee is required to be paid after the suspension or revocation of a person's driving privilege. This fee is in addition to any other fees required by the Vehicle Code, and shall be paid prior to the issuance, reissuance or return of the driver license.

(b) Pursuant to Section 14906 of the Vehicle Code, a \$13.00 notice of sanction fee is required to be paid after the suspension or revocation of a person's driving privilege. This fee is in addition to any other fees required by the Vehicle Code, and shall be paid prior to the issuance, reissuance or return of the driver license.

(c) This Section does not apply to any suspension or revocation that is set aside by the department or a court, or which is based upon a physical or mental condition.

(d) This Section does not apply to any person subject to the fee required by Section 14905 of the Vehicle Code.

(e) The provisions of this section apply to driver license reissue and notice of sanction fees paid to the department on or after June 30, 1997.

NOTE: Authority cited: Sections 1651 and 14904, Vehicle Code. Reference: Sections 13106, 14904 and 14906, Vehicle Code.

HISTORY

1. New section filed 5-27-97 as an emergency; operative 5-27-97 (Register 97, No. 22). A Certificate of Compliance must be transmitted to OAL by 9-24-97 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 5-27-97 order transmitted to OAL 8-11-97 and filed 8-15-97 (Register 97, No. 33).

§ 146.00. Penalty Fee for Failure to Surrender Driver License.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 13551, 13551.1 and 14908, Vehicle Code.

HISTORY

1. New article 2.6 and section filed 9-7-95; operative 10-7-95 (Register 95, No. 36).
2. Change without regulatory effect repealing section filed 1-9-2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 2).

Article 2.7. Certificates and Endorsements

§ 147.00. House Car Endorsement.

(a) Applicants for a house car endorsement issued pursuant to Vehicle Code Sections 35400, 12804.09, 12804.10, and 12804.15 shall meet the following requirements:

- (1) Obtain a non-commercial class B driver license.
- (2) Meet and maintain the minimum medical requirements, by submitting a Physician's Health Report, form DL 546A (NEW 12/2001), upon application and every two years thereafter. The minimum medical requirement shall be the same as the requirements established for a restricted class A driver license in Title 13, Section 28.21, California Code of Regulations.
- (3) Successfully complete a specialized written test based on the California Recreational Vehicles and Trailers Handbook.
- (4) Successfully complete the practical (drive) test which includes (1) a vehicle safety check; (2) two skill tests that simulate the positioning of the house car in a designated space; and (3) driving/road test.
- (5) Pay a fee pursuant to subdivision (c)(3) of Vehicle Code Section 12804.15.

(b) The following driver license classifications shall be exempt from the house car endorsement requirement:

- (1) Commercial class A.
- (2) Commercial class B.

(c) The medical form provided by the department, shall be the Physician's Health Report, form DL 546A (NEW 12/2001), and shall be completed and signed by a physician and contain the following information:

- (1) The applicant's true full name, address, date of birth, driver license number, and daytime telephone number.
- (2) A "yes" or "no" response as to whether the applicant:
 - (A) has difficulty recognizing the colors of red, green, and amber used in traffic signal lights and devices.
 - (B) has peripheral vision of less than 70 degrees for either eye.
 - (C) has difficulty perceiving a forced whispered voice in the better ear without a hearing aid, at not less than five (5) feet.
 - (D) has a vision impairment in either eye that is not correctable to visual acuity of 20/40 or better.
 - (E) has a missing foot, leg, hand, finger, or arm.
 - (F) has any other impairment of a hand, finger, arm, foot, or leg, or any other limitation.

(G) has diabetes requiring insulin for control.

(H) has had a hypoglycemic episode or any other adverse reaction related to diabetes in the last three (3) years.

(I) has had a heart attack, angina, coronary insufficiency, thrombosis, stroke, or other heart problem, or cardiovascular disease, and if "yes", whether the applicant has had labored breathing, fainting, collapse, congestive heart failure, or other symptoms in the last three (3) years.

(J) has been diagnosed with a respiratory condition, such as emphysema, chronic asthma, or tuberculosis and, if "yes", whether the respiratory condition is likely to interfere with the applicant's ability to drive a motor vehicle safely.

(K) has ever been diagnosed with high blood pressure of 160/90 or higher.

(L) has been diagnosed with rheumatic, arthritic, orthopedic, muscular, neuromuscular, or vascular disease, and if "yes", whether the condition is likely to interfere with the applicant's ability to drive a motor vehicle safely.

(M) has ever been diagnosed with any mental, nervous, organic or functional disease, or psychiatric disorder, and if "yes", whether the condition is likely to interfere with the applicant's ability to drive a motor vehicle safely.

(N) has ever been diagnosed with epilepsy or any other condition which may cause loss of consciousness or loss of control, and if "yes", whether the applicant has had a loss of consciousness or loss of control in the last three (3) years.

(O) uses a controlled substance, amphetamine, narcotic, or any other habit-forming drug, and if "yes", whether the drug will interfere with the patient's ability to drive a motor vehicle.

(P) has a history or current clinical diagnosis of alcoholism.

(3) Visual acuity of each eye must be given and be at least 20/40 in each eye with or without corrective lenses.

(A) Whether contact lenses are worn, and if "yes", whether they are well adapted and tolerated.

(4) The applicant's blood pressure reading at the time of the exam.

(5) An explanation for any "yes" answers.

(6) A check-box indicating the applicant has been examined and has no physical impairment or condition to preclude him or her from driving a house car of more than 40 feet in length.

(7) The physician's name, office address, telephone number, date of applicant's last visit, physician's medical license or certificate number with the issuing state, date of the exam, and the signature of the physician.

(8) A certification signed and dated by the applicant under penalty of perjury, that the information provided is true and correct, and that the applicant consents to release of medical information to the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 12804.9, 12804.10, 12804.15 and 35400, Vehicle Code.

HISTORY

1. New article 2.7 (section 147.00) and section filed 5-12-2003; operative 6-11-2003 (Register 2003, No. 20).
2. Editorial correction adding article heading and amending HISTORY 1 (Register 2004, No. 19).

Article 3. Vehicle Registration and Titling

§ 150.01. Vehicle Engine or Motor.

A motor vehicle engine or motor shall hereafter be defined as the principal parts of a motor assembly, which are the cylinder block with the crank shaft, pistons, and connecting rods for the number of cylinders in the block, cam shaft or cam shafts; within or without the lower half of the crank case.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 4161, 4163 and 9257, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 200.01 to section 150.01 and amending article 3 heading filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment repealing subheading filed 9-2-2004; operative 10-2-2004 (Register 2004, No. 36).

§ 150.02. Decorative or Facsimile License Plate Size.

Pursuant to Section 4463.5 of the Vehicle Code, facsimile plates shall not be of a size substantially similar to the motor vehicle license plate issued by the department. The facsimile plate shall be:

- (1) Smaller than 9 inches in length and 3 inches in width, or
- (2) Larger than 15 inches in length and 9 inches in width.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 4463.5, Vehicle Code.

HISTORY

1. New section filed 3–11–94; operative 4–11–94 (Register 94, No. 11).

§ 150.04. Pickup Trucks.

(a) Pursuant to Section 471 of the Vehicle Code, any motor vehicle, except a motorcycle, motorized bicycle, or motorized quadricycle, with an open box type bed not exceeding 9 feet in length is by definition a pickup. Examples of this type of motor vehicle include the Ford Explorer Sport Trac, Nissan Frontier and other similarly designed vehicles.

(b) Pursuant to Section 471 of the Vehicle Code, any motor vehicle, except a motorcycle, motorized bicycle, or motorized quadricycle, that may be configured or reconfigured to provide an open box type bed not exceeding 9 feet in length is by definition a pickup. Examples of this type of motor vehicle include the Chevrolet Avalanche and similarly designed vehicles.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 471, Vehicle Code.

HISTORY

1. New section filed 6–24–2003; operative 7–24–2003 (Register 2003, No. 26).
2. Editorial correction adjusting placement of section (Register 2003, No. 27).

§ 150.06. Description of Vehicle Required for Sale or Transfer.

For purposes of notifying the department of the sale or transfer of a vehicle as required in Vehicle Code Section 5900, the description of the vehicle shall consist of either the California license plate number or the vehicle identification number or both numbers.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 5900, Vehicle Code.

HISTORY

1. New section filed 12–27–2004; approved by operation of law 12–22–2004; operative 1–21–2005 (Register 2004, No. 53).

§ 150.08. Truck Tractors with Living Quarters.

Truck tractors as defined in Vehicle Code section 655 that have been initially manufactured, modified by a second stage manufacturer or otherwise altered to include living quarters shall be considered commercial vehicles under Vehicle Code section 260 unless the living quarters permanently prevent the truck tractor from towing or drawing other vehicles.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 260 and 655, Vehicle Code; and *California Career Schools v. Department of Motor Vehicles* (2004) 120 Cal. App. 4th 10, 15 Cal. Rptr. 3d 813.

HISTORY

1. New section filed 7–11–2007; operative 8–10–2007 (Register 2007, No. 28).

§ 151.00. Refusal of Registration.

(a) Pursuant to California Health and Safety Code section 43151 and Vehicle Code section 4750, a new motor vehicle that is not certified by the California Air Resources Board as equipped with a California emission system may be refused California registration. The new motor vehicle shall not be driven or sold to circumvent this law.

(1) A new motor vehicle shall be defined as a vehicle with less than 7,500 miles on the odometer at the time it is first acquired, purchased, imported, delivered, rented, leased, or received by a California resident or a California established place of business.

(A) The odometer reading at the location and on the date the vehicle was purchased, imported, delivered, rented, leased, acquired or received by the California resident or an established place of business shall determine compliance with California Health and Safety Code sections 43150 through 43156.

(2) A new motor vehicle may include, but not be limited to, passenger motor vehicles, motorcycles, off-highway vehicles, and gas and diesel-powered motor vehicles.

(3) The term "resident" as used in Health and Safety Code section 43151 shall be as defined in Vehicle Code section 516.

(4) California residents that are military personnel on active duty outside of California when the new motor vehicle was purchased, imported, delivered, rented, leased, acquired or received may be considered non-residents for purposes of this section.

(b) The department may require additional documentation pursuant to California Vehicle Code section 4751 to substantiate the odometer reading, or the request of a California resident or a California established place of business for an exemption to register a non-California certified vehicle as provided in subdivisions (b) and (c) of Health and Safety Code section 43151; Vehicle Code sections 6701, 27156.2, and 27156.3; and Article 2, Section 1958 of Chapter 1, Division 3, Title 13, California Code of Regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 516, 4750, 6701, 27156.2 and 27156.3, Vehicle Code; and Sections 43150, 43151, 43153, 43154, 43155 and 43156, Health and Safety Code.

HISTORY

1. New section filed 12–22–2004; operative 1–21–2005 (Register 2004, No. 52).

§ 152.00. Motor Vehicle Bond Requirements.

(a) A motor vehicle owner applying for a California certificate of title without the required supporting evidence of ownership may submit a bond as authorized under Vehicle Code section 4157. The bond shall be executed by an admitted surety insurer on a Motor Vehicle Ownership Surety Bond, form REG 5057 (REV. 12/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) The penal sum of the bond shall be in the amount of the fair market value of the motor vehicle.

(1) The fair market value shall be determined by either:

(A) A written appraisal provided by a California licensed or other state licensed motor vehicle dealer or motor vehicle insurance representative; or

(B) Identification of the motor vehicle and its price variations based on information provided in a recognized industry motor vehicle valuation and pricing handbook, such as the Kelly Blue Book. The highest and lowest price variations shall be added together and then divided by two; the result is the average price of the vehicle. The average price shall be the fair market value.

(c) A motor vehicle owner applying for a California certificate of title without the required supporting evidence of ownership may submit a deposit equal to the monetary amount appraised in Section 152.00(b)(1)(A) or calculated in Section 152.00(b)(1)(B) in lieu of bond as provided in Section 995.710 of the Code of Civil Procedure.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 995.010 and 995.710, Code of Civil Procedure; and Sections 4157 and 4307, Vehicle Code.

HISTORY

1. New section filed 2–14–2006; operative 3–16–2006 (Register 2006, No. 7).

§ 154.00. Commercial Vehicle Weight Decals.

(a) The department shall issue a set of two (2) weight decals to each vehicle weighing 10,001 pounds or more in accordance with subdivision (f) of Vehicle Code section 9400.1. Except for school buses, as defined in Vehicle Code Section 545 (see subsection (a)(1) below for the requirements that apply only to school buses), one (1) weight decal shall be affixed to each door on the right and left sides of the vehicle, or, if the vehicle has sliding doors, immediately in front of or behind each door. The decals may be affixed to plaques that are permanently attached to or adjacent to the right and left door of the vehicle. Both decals shall be visible from fifty feet.

(1) School Buses, as defined in Vehicle Code Section 545, shall have one weight decal affixed on each side of the vehicle, or upon plaques which are permanently affixed to the vehicle, twelve (12) inches from the rear portion of the rear wheel well opening. Both decals shall be visible from fifty feet.

(b) The department shall charge a three dollar (\$3) fee for each set of weight decals, including substitute and duplicate weight decals.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9400.1, Vehicle Code.

HISTORY

1. New section filed 12-15-2004; operative 1-14-2005 (Register 2004, No. 51).
2. Amendment of subsection (a), new subsection (a)(1) and amendment of NOTE filed 7-28-2006; operative 8-27-2006 (Register 2006, No. 30).

§ 155.00. Definitions.

As used in this article, the following definitions shall apply:

(a) An uncovered total loss vehicle is a stolen vehicle that is not recovered within 60 days of the date the theft of the vehicle is reported to the police.

(b) A constructive total loss vehicle is a vehicle meeting the conditions set forth in section 544 of the Vehicle Code defining a total loss salvage vehicle.

(c) A nonrepairable vehicle is a vehicle meeting the conditions set forth in section 431 of the Vehicle Code.

NOTE: Authority cited: Section 10902, Revenue and Taxation Code; and Section 1651, Vehicle Code. Reference: Sections 431, 11515 and 11515.2, Vehicle Code; and Section 10902, Revenue and Taxation Code.

HISTORY

1. Change without regulatory effect renumbering former section 205.00 to section 155.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (a) and (b), new subsection (c) and amendment of NOTE filed 9-2-2004; operative 10-2-2004 (Register 2004, No. 36).

§ 155.02. Vehicle License Fee Refund Requirements.

(a) Prior to the submission of a vehicle license fee refund request for an unrecovered total loss vehicle, the following conditions shall be satisfied:

(1) The vehicle shall be registered in the name of the owner of the salvage value of the total loss vehicle in accordance with section 5902 of the Vehicle Code.

(2) Sixty (60) days shall have elapsed from the date the theft of the vehicle was reported to the police.

(b) Prior to, or at the same time as, the vehicle license fee refund request is submitted for a constructive total loss or nonrepairable vehicle, the requirements of section 11515 or 11515.2 of the Vehicle Code shall be satisfied.

NOTE: Authority cited: Section 10902, Revenue and Taxation Code; and Section 1651, Vehicle Code. Reference: Sections 9868, 11515, 11515.2 and 42231, Vehicle Code; and Section 10902, Revenue and Taxation Code.

HISTORY

1. Change without regulatory effect renumbering former section 205.02 to section 155.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (b) and NOTE filed 9-2-2004; operative 10-2-2004 (Register 2004, No. 36).

§ 155.04. Application for a Vehicle Licensee Fee Refund.

(a) The application for the refund of the remaining portion of the vehicle license fee for an unrecovered total loss vehicle shall be submitted to the department on an Application for Vehicle License Fee Refund, Part A, Unrecovered Total Loss Vehicle form, [REG 65 (1/1/2003)] and shall contain the following information:

(1) The vehicle license plate number, vehicle identification number, year model, and vehicle make of the unrecovered total loss vehicle.

(2) The month, day and year of the vehicle theft.

(3) The month, day and year of the vehicle theft report and the name and location of the police where the theft was reported.

(A) A copy of the police vehicle theft report shall be submitted to the department with the application for a refund for an unrecovered total loss vehicle when a Department of Justice stolen vehicle update is not included in the vehicle report of the department.

(4) A certification signed by the applicant under penalty of perjury under the laws of the State of California that the information entered by the applicant is true and correct.

(5) The true full name(s) and address of the registered owner(s) of record at the time the vehicle was stolen.

(6) The signature of the applicant and the date signed.

(b) The application for the refund of the remaining portion of the vehicle license fee for a constructive total loss or nonrepairable vehicle shall be submitted to the department on an Application for Vehicle License Fee Refund, Part B, Constructive Total Loss or Nonrepairable Vehicle form, [REG 65 (1/1/2003)], and shall contain the following information:

(1) The vehicle license plate number, vehicle identification number, year model, and vehicle make of the constructive total loss or nonrepairable vehicle.

(2) The month, day and year the constructive total loss or nonrepairable vehicle was wrecked, destroyed or damaged by a single event.

(3) The true full name(s) and the address of the registered owner(s) of record at the time the vehicle was wrecked, destroyed or damaged.

(4) A certification signed under penalty of perjury under the laws of the State of California by the registered owner(s) of record named in subdivision (3) that he and/or she was not cited or convicted of one or more violations pursuant to section 23152 or section 23153 of the Vehicle Code which relates to driving under the influence of alcohol or drugs, or pursuant to section 23103 of the Vehicle Code as specified in section 23103.5 of the Vehicle Code which involves a substitute (plea) for an original citation of driving under the influence on connection with the loss of the vehicle described in the application.

(A) If the registered owner of record named in subdivision (3) was cited under any of these code sections, acceptable proof of the dismissal of the citation or a finding of not guilty shall be submitted to the department with the application.

(B) Acceptable proof shall be defined as a court abstract form (DL106R), a magnetic tape court abstract, a letter from a court on court letterhead, a departmental phone slip signed or initialed by the department employee who initiated the telephone call, or departmental microfilm or microfiche documentation.

(5) A declaration signed by the registered owner(s) of record named in subdivision (3) under penalty of perjury under the laws of the State of California that all the information entered on the application by the owner(s) is true and correct.

(6) The signature(s) and the date signed by the registered owner(s) of record named in subdivision (3).

(7) The true full name and address of the applicant who is the owner of the salvage value of the vehicle.

(8) A certification signed by the applicant under penalty of perjury under the laws of the State of California that the information entered by the applicant is true and correct.

(9) The signature of the applicant and the date signed.

(c) The application for a refund for the remaining portion of the vehicle license fee for a total loss vehicle shall be received by the department within three (3) years after the date the vehicle license fees were paid.

NOTE: Authority cited: Section 10902, Revenue and Taxation Code; and Section 1651, Vehicle Code. Reference: Sections 9868, 11515 and 11515.2, Vehicle Code; and Section 10902, Revenue and Taxation Code.

HISTORY

1. Change without regulatory effect renumbering former section 205.04 to section 155.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Editorial correction of subsection (b)(7) (Register 95, No. 43).
3. Editorial correction reinstating inadvertently omitted section (Register 2003, No. 27).
4. Amendment of section and NOTE filed 9-2-2004; operative 10-2-2004 (Register 2004, No. 36).

§ 155.05. Application for Salvage or Nonrepairable Vehicle Certificates.

(a) In addition to the requirements specified in Section 11515 and 11515.2 of the Vehicle Code to obtain a salvage certificate for a constructive total loss vehicle, an Application for Salvage Certificate or Nonrepairable Vehicle Certificate form [REG 488C (REV 10/2003)] shall be submitted to the department and shall contain the following:

(1) The vehicle description, including the vehicle license number, make, year, vehicle identification number, the state of last known registration, and the date registration expires.

(2) The insurance claim number, if available.

(3) The cost/value of the vehicle as determined either by the insurance company's payoff or the purchase price from the previous owner.

(A) The cost/value shall not be required when the application is for a duplicate salvage certificate.

(4) The date the vehicle was wrecked or destroyed.

(5) The date the vehicle was stolen.

(6) The date the vehicle was recovered if stolen.

(7) A statement signed and dated by the applicant or authorized agent to certify that the described vehicle is a total loss salvage, that a properly endorsed certificate of ownership document or documents are attached, and a request for a salvage certificate.

(A) If the properly endorsed certificate of ownership or other appropriate evidence of ownership cannot be secured, a Statement of Facts form [REG. 256 (REV. 1/2003)] explaining why the title cannot be obtained must be submitted.

(B) When a certificate of ownership or other evidence of ownership is not attached, then a surety bond pursuant to Section 4157 of the Vehicle Code in the amount of the cost/value of the vehicle shall be required if the insurance payoff plus the salvage value is \$5,000 or more. A surety bond is also required when settlement is made to the legal owner of a vehicle without the release of the registered owner unless repossession documentation is attached.

(8) The name and address of the insurance company or applicant.

(9) The California Driver License or Identification Card number if the applicant is an individual and not a business or an agent.

(10) If applicable, the agent's name and occupational license number when the agent is licensed by the department.

(b) In addition to the requirements specified in Section 11515.2 of the Vehicle Code to obtain a nonrepairable vehicle certificate for a vehicle, an Application for Salvage Certificate or Nonrepairable Vehicle Certificate form [REG 488C (REV 10/2003)] shall be submitted to the department and shall contain the following:

(1) The vehicle description, including the vehicle license number, make, year, vehicle identification number, the state of last known registration, and the date registration expires.

(2) The insurance claim number, if available.

(3) The cost/value of the vehicle as determined either by the insurance company's payoff or the purchase price from the previous owner.

(A) The cost/value shall not be required when the application is for a duplicate nonrepairable certificate only.

(4) The date the vehicle was wrecked or destroyed.

(5) The date the vehicle was stolen.

(6) The date the vehicle was recovered if stolen.

(7) An indication of whether the nonrepairable condition pursuant to Vehicle Code section 431 was due to a surgical strip, a complete burn, or declared nonrepairable by the owner.

(8) A statement signed and dated by the applicant or authorized agent certifying that the described vehicle is a nonrepairable vehicle, that properly endorsed ownership documents are attached, and requesting a nonrepairable vehicle certificate to be issued.

(9) The name and address of the insurance company or applicant.

(10) The California Driver License or Identification Card number if the applicant is an individual and not a business nor an agent.

(11) If applicable, the agent's name and occupational license number when the agent is licensed by the department.

(c) The License Plate Disposition Certification Section shall be completed with original applications for salvage and nonrepairable vehicle certificates and shall contain the following:

(1) An indication by the applicant certifying that the license plates assigned to the vehicle either are being surrendered, have been lost, have been destroyed by an occupational licensee, or are special plates retained by the owner.

(2) If the plates are surrendered, the applicant shall indicate the number of plates surrendered.

(3) If the plates were destroyed by an occupational licensee, the occupational license number shall be indicated.

(d) A statement signed and dated by the applicant certifying under penalty of perjury under the laws of the State of California that the information provided on the application is true and correct.

NOTE: Authority cited: Section 10902, Revenue and Taxation Code; and Section 1651, Vehicle Code. Reference: Sections 9868, 11515 and 11515.2, Vehicle Code; and Section 10902, Revenue and Taxation Code.

HISTORY

1. New section filed 9-2-2004; operative 10-2-2004 (Register 2004, No. 36).

§ 155.06. Surrender of License Plates.

NOTE: Authority cited: Section 10902, Revenue and Taxation Code. Reference: Section 10902, Revenue and Taxation Code.

HISTORY

1. Change without regulatory effect renumbering former section 205.06 to section 155.06 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

2. Repealer filed 9-2-2004; operative 10-2-2004 (Register 2004, No. 36).

§ 155.08. Vehicle License Fee Refund Calculations.

(a) The amount of the vehicle license fee refunded for an unrecovered or constructive total loss or nonrepairable vehicle shall be based on one-twelfth of the annual vehicle license fee for each full month that remains until the vehicle registration expires.

(1) The number of full months remaining shall be calculated from the date of loss of the vehicle through the registration expiration date. A portion of each full month that remains until registration expires shall not be considered a full month when calculating the number of remaining months.

(b) An administrative fee pursuant to Vehicle Code section 11515.2(d) shall be deducted from the refund amount.

NOTE: Authority cited: Section 10902, Revenue and Taxation Code; and Section 1651, Vehicle Code. Reference: Sections 9868 and 11515.2, Vehicle Code; and Section 10902, Revenue and Taxation Code.

HISTORY

1. Change without regulatory effect renumbering former section 205.08 to section 155.08 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

2. Amendment of section and NOTE filed 9-2-2004; operative 10-2-2004 (Register 2004, No. 36).

§ 155.10. Repayment of the Refunded Vehicle License Fee.

(a) When a refund is received for an unrecovered total loss vehicle which is subsequently recovered in the same registration year for which the refund was received, the current owner shall return the amount of the vehicle license fee refunded per section 155.08(a) of these regulations.

(1) When the repayment is not received by the department prior to the subsequent renewal of the registration, the renewal fees will include the amount of the vehicle license fee refunded per section 155.08(a) of these regulations.

(b) When a refund is received for a constructive total loss vehicle which is subsequently repaired and registered in the same registration year for which the refund was received, the registration fees shall include the amount of the vehicle license fee refunded per section 155.08(a) of these regulations.

NOTE: Authority cited: Section 10902, Revenue and Taxation Code; and Section 1651, Vehicle Code. Reference: Sections 9868, 11515 and 11515.2, Vehicle code; and Section 10902, Revenue and Taxation Code.

HISTORY

1. Change without regulatory effect renumbering former section 205.10 to section 155.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

2. Amendment of section and NOTE filed 9-2-2004; operative 10-2-2004 (Register 2004, No. 36).

§ 156.00. Clean Air Vehicle Stickers.

(a) Applicants for Clean Air Vehicle Stickers shall complete an Application for Clean Air Vehicle Stickers [Form REG 1000 (REV. 5/2007)] which is hereby incorporated by reference, and available at all field offices and on the Internet at www.dmv.ca.gov.

(b) Only vehicles that meet both the Federal Inherently Low Emission Vehicle standards [as defined in Part 88 (commencing with Section 88.311-93) of Title 40 of the Code of Federal Regulations] and the California Ultra-Low Emission Vehicle (ULEV) or Super Ultra-Low Emission Vehicle (SULEV) standards, [as defined in Title 13, Section 1960.1, of the California Code of Regulations]; or hybrid vehicles or alternative fuel vehicles that meet California's advanced technology partial zero emission vehicle (ATPZEV) standards and have a 45 miles per gallon or greater fuel economy rating; or hybrid vehicles produced during the 2004 model year or earlier and have a 45 miles per gallon or greater fuel economy highway rating, and meet California's ULEV, SULEV, or partial zero emission vehicle standards, as listed on the Air Resources Board (ARB)'s Internet website at www.arb.ca.gov/msprog/carpool/carpool.htm, are eligible for Clean Air Vehicle Stickers and must be powered by one of the following:

- (1) Electric (E);
- (2) Liquid Petroleum Gas [LPG] (P);
- (3) Compressed Natural Gas [CNG] (N);
- (4) Hybrid [gasoline in combination with electric] Power (Q).

(c) If the applicant's vehicle(s) does not appear on the ARB's list of eligible vehicles, the application shall be refused, and if necessary, the department shall refer the applicant to the ARB's Internet website or toll free telephone number (800) 242-4450, for assistance. A certification from the ARB verifying the vehicle meets the emission standards as set forth in subdivision (b) will be required by the department before stickers may be issued.

(1) Vehicles converted by means of "aftermarket" kits to 100% electric power to meet the sticker qualification shall be referred to ARB's toll free telephone number to obtain an ARB certification before stickers may be issued.

(d) Registered owners who have a fleet of like vehicles may submit one application for the entire fleet.

(1) A list shall be attached to the application, which identifies each vehicle by:

- (A) Vehicle Identification Number;
- (B) License Plate Number;
- (C) Make;
- (D) Model and year.

(2) "Like" vehicles are those vehicles that are powered by the same energy source.

(e) If the application is incomplete or deficient, the department shall notify an applicant, in writing, within 30 days of receipt of the application.

(1) An application is considered deficient when the applicable requirements of these regulations are not fulfilled.

(A) When an application is determined to be deficient, the department shall identify the specific requirement(s) needed to complete the application.

(2) An application is considered complete when the applicable requirements of these regulations have been fulfilled.

(A) When an application is determined to be complete, a set of stickers shall be issued.

(f) An \$8.00 application fee for each set of Clean Air Vehicle Stickers requested and the completed application(s) as set forth in subdivision (c)(1), along with a list as set forth in subdivision (d)(1), if applicable, shall be mailed to:

SPECIAL PROCESSING UNIT - MS D238
DEPARTMENT OF MOTOR VEHICLES
P.O. BOX 932345
SACRAMENTO, CA 94223-3450

or delivered to any department field office.

(g) Number, color and placement of the Clean Air Vehicle stickers shall be as follows:

(1) For vehicles meeting ULEV, SULEV, or ZEV standards [as described in paragraph (b)], the stickers shall be of white material, issued to each vehicle in sets of three. The two larger stickers shall be affixed on each vehicle's rear quarter panels, one on each side of the vehicle, behind the wheel wells, with the State Seal in the up position. The smaller sticker in the set shall be affixed to the right side of the vehicle's rear bumper, with the State Seal in the up position.

hind the wheel wells, with the State Seal in the up position. The smaller sticker in the set shall be affixed to the right side of the vehicle's rear bumper, with the State Seal in the up position.

(2) For vehicles meeting California's ATPZEV standards or hybrid vehicles [as described in paragraph (b)], the stickers shall be of yellow material, issued to each vehicle in sets of four, with placement as described in paragraph (g)(1), except that the fourth sticker shall also be of the smaller size referenced in paragraph (g)(1) and shall be affixed to the right side of the vehicle's front bumper.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 5205.5 and 21655.9, Vehicle Code.

HISTORY

1. New section filed 2-19-2002; operative 3-21-2002 (Register 2002, No. 8).
2. Amendment of subsections (a) and (b), new subsections (c)-(c)(1), subsection relettering and amendment of newly designated subsection (d)(1)(D) filed 7-7-2004; operative 8-6-2004 (Register 2004, No. 28).
3. Amendment of section heading and section filed 3-24-2006; operative 4-23-2006 (Register 2006, No. 12).
4. Change without regulatory effect amending subsection (a) and Form REG 1000 (incorporated by reference) filed 7-25-2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 30).
5. Change without regulatory effect amending subsection (g)(2) filed 10-23-2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 43).

§ 156.01. Clean Air Vehicle Stickers: Transfers and Replacements.

(a) Clean Air Vehicle Stickers shall remain with the qualifying vehicle for which they were originally issued, regardless of changes in ownership.

(b) A new Clean Air Vehicle certification document (i.e., "Clean Air Certificate," issued with each set of Clean Air Vehicle Stickers) shall be made available for subsequent (i.e., transfer) purchasers of qualifying vehicles to which Clean Air Vehicle stickers have been issued. The department shall issue a new Certificate which shall retain the vehicle description while providing the new ownership information.

(c) Clean Air Vehicle Stickers shall be made available for issuance in complete sets as replacements for Clean Air Vehicle Stickers that are damaged, destroyed, stolen or not received, provided that such replacement stickers are issued to the same vehicle to which Clean Air Vehicle Stickers were originally issued.

(d) Applicants for replacement Clean Air Vehicle Stickers or a replacement Clean Air Certificate shall complete an Application for Clean Air Vehicle Stickers [Form REG 1000 (Rev. 10/2007)] which is hereby incorporated by reference and made available to the public at all field offices and on the department's internet website at www.dmv.ca.gov. The applicant shall sign the application under penalty of perjury under the laws of the State of California.

(e) An acceptable Application for Clean Air Vehicle Stickers, form REG 1000, herein after referred to as "application," requesting replacement stickers shall contain a check mark in the box labeled "Replacement sticker" and a check mark in one of the boxes indicating the reason a replacement is needed.

(1) An acceptable application requesting replacement Clean Air Vehicle Stickers that are declared "stolen" shall include a copy of the police report that was created by the responding law enforcement agency to which the stolen stickers were reported.

(2) An acceptable application requesting replacement Clean Air Vehicle Stickers which have been declared "lost," "not received," "damaged," or "destroyed," shall complete the vehicle information portion and Parts G and H of a Statement of Facts (Form REG 256 (Rev. 1/2007) which is hereby incorporated by reference and available to the public at all field offices and on the department's internet website at www.dmv.ca.gov. The applicant shall provide an explanation as to how the stickers were lost, not received, damaged or destroyed.

(3) An acceptable application requesting a new Clean Air Certificate only, due to the applicant acquiring a qualified vehicle through transfer, shall contain the word "transfer" or other words to indicate a transfer has taken place, in the space provided under the box marked "Other."

(f) Any and all remaining Clean Air Vehicle Stickers previously assigned to a vehicle shall be removed and surrendered to the department, either at a department field office or by mail to the address identified in subsection (g) of this section, before replacement stickers are affixed to the vehicle.

(g) An \$8.00 fee for each set of Clean Air Vehicle Sticker replacements and the completed application shall be mailed to:

SPECIAL PROCESSING UNIT — MS A 238
DEPARTMENT OF MOTOR VEHICLES
P.O. BOX 932345
SACRAMENTO, CA 94232-3450

or delivered to any department field office. There is no fee for an applicant requesting a Clean Air Certificate only.

(1) The \$8.00 fee will not be required of an applicant who indicates on the application that the original stickers were never received.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 5205.5 and 21655.9, Vehicle Code.

HISTORY

1. New section filed 6-16-2008; operative 7-16-2008 (Register 2008, No. 25).

§ 157.00. Firefighting Vehicles.

(a) A firefighting vehicle is defined as any vehicle that contains firefighting apparatus and equipment which is designed and intended primarily for firefighting. The following privately owned vehicles, when operated upon a highway only in responding to, and returning from, emergency fire calls, qualify as firefighting vehicles and are exempt from registration:

(1) Fire trucks equipped with hose and ladders.

(2) Fire engines.

(3) Other vehicles permanently equipped with firefighting apparatus and equipment.

(4) A tank truck operated solely in conjunction with a fire truck, fire engine or other self propelled firefighting apparatus.

(b) Privately owned vehicles or a combination of vehicles, which are not designed primarily for firefighting, including hazardous materials response vehicles, dedicated rescue vehicles, command post communications vehicles, passenger vehicles, buses, mobile kitchens, mobile sanitation facilities, and heavy equipment transport vehicles, do not qualify as firefighting vehicles as defined under subdivision (a) of this section.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 8589.10(c), Government Code; and Section 4015, Vehicle Code.

HISTORY

1. New section filed 4-17-2003; operative 5-17-2003 (Register 2003, No. 16).

§ 158.00. Zero Emission Vehicle Parking Decal.

(a) Applicants for a Zero Emission Decal shall complete an Applica-

tion for Zero Emission Parking Decal [Form REG 4048 (REV. 6/2003)], which is hereby incorporated by reference and available at all field offices and on the Internet at www.dmv.ca.gov.

(b) The issuance of the decal will be limited to zero emission vehicles that use electricity as the motive power and require the use of recharging equipment.

(1) A zero emission vehicle is defined as a car, truck, or any other vehicle that provides no tailpipe or evaporative emissions.

(c) If the application is incomplete or deficient, the department shall notify an applicant, in writing, within 30 days of receipt of the application.

(1) An application is considered deficient when the applicable requirements of these regulations are not fulfilled.

(A) When an application is determined to be deficient, the department shall identify the specific requirement(s) needed to complete the application.

(2) An application is considered complete when the applicable requirements of these regulations have been fulfilled.

(A) When the application is determined to be complete, a decal shall be issued.

(d) A completed application and a \$17.00 fee for each Zero Emission Vehicle Decal shall be mailed to:

SPECIAL PROCESSING UNIT — MS D238
DEPARTMENT OF MOTOR VEHICLES
PO BOX 932345
SACRAMENTO, CA 94232-3450

or delivered to any department field office.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 22511 and 22511.1, Vehicle Code.

HISTORY

1. New section filed 10-10-2003; operative 11-9-2003 (Register 2003, No. 41).

§ 159.00. Vehicle Classification.

(a) After determining the cost price to the purchaser, the department shall classify or reclassify every vehicle, other than a trailer or semi-trailer described in subdivision (a) of Section 5014.1 of the Vehicle Code, in its proper class according to the classification plan set forth in this section.

(b) For the purpose of this section, a classification plan is established consisting of the following classes: a class from zero dollars (\$0) to and including forty-nine and ninety-nine cents (\$49.99); a class from fifty dollars (\$50) to and including one hundred ninety-nine dollars and ninety-nine cents (\$199.99); and thereafter a series of classes successively set up in brackets having a spread of two hundred dollars (\$200), consisting of a number of classes that will permit classification of all vehicles.

[The next page is 8.3.]

(c) The market value of a vehicle, other than a trailer or semi-trailer as described in subdivision (a) of Section 5014.1 of the Vehicle Code, for each registration year, starting with the year the vehicle was first sold to a consumer as a new vehicle, or the year the vehicle was first purchased or assembled by the person applying for original registration in this state, or the year the vehicle was sold to the current registered owner as a used vehicle, shall be as follows: for the first year, 100 percent of a sum equal to the middle point between the extremes of its class as established in subdivision (b); for the second year, 90 percent of that sum; for the third year, 80 percent of that sum; for the fourth year, 70 percent of that sum; for the fifth year, 60 percent of that sum; for the sixth year, 50 percent of that sum; for the seventh year, 40 percent of that sum; for the eighth year, 30 percent of that sum; for the ninth year, 25 percent of that sum; and for the 10th year, 20 percent of that sum; and for the 11th year and each succeeding year, 15 percent of that sum; provided, however, that the minimum tax shall be the sum of one dollar (\$1). Notwithstanding this subdivision, the market value of a trailer coach first sold on and after January 1, 1966, which is required to be moved under permit as authorized in Section 35790 of the Vehicle Code, shall be determined by the schedule in Section 10753.3 of the Revenue and Taxation Code.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 10752, Revenue and Taxation Code. Reference: Section 5014.1, Vehicle Code; and Sections 10751, 10752, 10752.1, 10753 and 10754, Revenue and Taxation Code.

HISTORY

1. New section filed 3-1-2004 as an emergency; operative 3-1-2004 (Register 2004, No. 10). A Certificate of Compliance must be transmitted to OAL by 6-29-2004 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 3-1-2004 order transmitted to OAL 6-16-2004 and filed 7-21-2004 (Register 2004, No. 30).

§ 159.10. Window Decal for Vehicles with a Wheelchair Lift or Wheelchair Carrier.

(a) Applicants for a Window Decal shall complete Sections D and H of a Miscellaneous Statements of Fact (REG 256, REV. 2/2004), which is available at all field offices and on the Internet at www.dmv.ca.gov, as follows:

- (1) The disabled person plate, disabled veteran plate, or disabled person placard number.
- (2) The license number, vehicle make, and vehicle identification number of the vehicle to which the decal will be affixed.
- (3) The name and address where the decal is to be mailed.
- (4) A signature certifying under penalty of perjury under the laws of the State of California that the information provided is true and correct.
- (5) The date the form was signed.
- (6) Daytime phone number.

(b) A decal bearing a vehicle's license plate number will be issued, at no charge, to vehicles equipped with a wheelchair lift or wheelchair carrier, which obstructs the view of the vehicle's rear license plate. To qualify for the decal, the applicant must have been issued one of the following:

- (1) A disabled person license plate under Vehicle Code Section 5007;
- (2) A disabled veteran license plate under Vehicle Code Section 5007;
- (3) A disabled person permanent placard under Vehicle Code Section 22511.55.

(c) A completed Miscellaneous Statements of Fact form shall be mailed to:

SPECIAL PROCESSING UNIT — MS D238
DEPARTMENT OF MOTOR VEHICLES
P.O. BOX 932345
SACRAMENTO, CA 94232-3450

Or delivered to any field office.

NOTE: Authority cited: Sections 1651 and 5201, Vehicle Code. Reference: Sections 1652 and 5201, Vehicle Code.

HISTORY

1. New section filed 5-3-2005; operative 6-2-2005 (Register 2005, No. 18).

Article 3.1. Special Interest License Plates

§ 160.00. Applications and Fees for Special Interest License Plates.

(a) Sponsors of special interest license plates shall establish an account in a federally insured financial institution for the deposit of the funds collected for the required number applications, as specified in Vehicle Code Section 5060(d)(1), for the special interest license plates.

(b) Sponsors shall submit monthly reports to the department indicating:

(1) Number of applications for special interest license plates received in the reporting month, by type (sequential/Environmental License Plate);

(2) Amount of fees collected in the reporting month, by type (sequential/ELP);

(3) Total number of applications and total amount of fees collected to date.

(c) Sponsors shall submit the required number of applications, as specified in Vehicle Code Section 5060(d)(1), for the initial issuance of special interest license plates to the department, with a summary of the monthly reports for audit purposes.

(d) The required number of initial applications, as specified in Vehicle Code Section 5060(d)(1), for special interest license plates shall be submitted to the department with the associated fees collected by the sponsoring organization:

(1) The fees shall be submitted to the department in the form of one check payable in an amount equal to the fees due;

(2) The check shall be made payable in United States funds to the Department of Motor Vehicles;

(3) The check shall be currently dated and signed by the person(s) designated as signatory(ies) for the account;

(4) The check shall be drawn on a California financial institution.

(e) Applications for the initial number of special interest license plates, as specified in Vehicle Code Section 5060(d)(1), which are submitted to the department with more than one check will be returned, unprocessed, to the sponsor.

(f) Sponsors shall submit an annual report to the department as specified in Vehicle Code Section 5060(h).

NOTE: Authority cited: Sections 1651 and 5110(a), Vehicle Code. Reference: Section 5060, Vehicle Code.

HISTORY

1. Amendment of article 3.1 heading and new section filed 5-19-99; operative 6-18-99 (Register 99, No. 21).
2. Amendment of section and NOTE filed 2-5-2002; operative 3-7-2002 (Register 2002, No. 6).

ENVIRONMENTAL LICENSE PLATES

§ 170.00. Information Required on a Special Interest/Environmental License Plate Application.

(a) An application for special interest/environmental license plates, as defined in Sections 5060 and 5103 of the Vehicle Code, shall be submitted in person or by mail to the department on a Special Interest License Plate Application, Form REG 17 (Rev. 7/2000), provided by the department and available on the Internet at www.dmv.ca.gov.

(1) If the application is made in person, it shall be made to any department location which processes vehicle registrations.

(2) If the application is made by mail, it shall be sent to the Department of Motor Vehicles, P.O. Box 932345, Sacramento, CA 94232-3450, or to any department location which processes vehicle registrations.

(3) Another department-approved version of this form with a different revision date shall be acceptable if the content of the form is in substantial compliance with the requirements of this section.

(b) The application shall be accompanied by the applicable fee specified in Sections 4850, 5106 and 5108 of the Vehicle Code; the fee schedule is on the back of the form.

(c) The application shall include the following information:

(1) An indication of whether the application is for original plates, for replacement plates or to reassign, hold or release current plates.

(2) The purchaser's or plate owner's true full name.

(3) The mailing address of the person who will be the plate owner.

(4) The name of the recipient, if the plates are a gift.

(5) An indication of whether the license plates will be assigned to an auto, truck, trailer, or motorcycle, and the type of plate ordered.

(6) The location of the department or auto club office where the special interest/environmental license plates will be picked up or exchanged for

the current license plates and registration, if the license plates will not be mailed.

(7) The applicant's first, second, and third choices of the configuration of letters and numbers to appear on the license plates and the meaning of each.

(A) The configuration shall comply with the specifications of Section 5105 of the Vehicle Code.

(B) When a desired configuration is not available, a letter shall not be substituted for a number, nor shall a number be substituted for a letter, to create another configuration of a similar appearance.

(C) The number zero shall not be used in the configuration.

(D) The department shall refuse any configuration that may carry connotations offensive to good taste and decency, or which would be misleading, based on criteria which includes, but is not limited to, the following:

1. The configuration has a sexual connotation or is a term of lust or depravity.

2. The configuration is a vulgar term; a term of contempt, prejudice, or hostility; an insulting or degrading term; a racially degrading term; or an ethnically degrading term.

3. The configuration is a swear word or term considered profane, obscene, or repulsive.

4. The configuration has a negative connotation to a specific group.

5. The configuration misrepresents a law enforcement entity.

6. The configuration has been deleted from regular series license plates.

7. The configuration is a foreign or slang word or term, or is a phonetic spelling or mirror image of a word or term falling into the categories described in subdivisions 1. through 6. above.

(8) If the plate is reassigned, held for future use or relinquished, complete the appropriate information as required:

(A) The special interest license plate number.

(B) The Vehicle Identification Number (VIN) of the vehicle the plate was taken from.

(C) If reassigned, the current license plate number of the vehicle it will be on and that vehicle's VIN

(D) An indication if the plate is being reserved for future use.

(E) An indication of release of interest in the plate.

(9) If the application is for replacement of lost, stolen or mutilated plates indicate whether one or two plates are needed.

(10) A statement signed by the purchaser certifying under penalty of perjury under the laws of the State of California that the purchaser has provided true and correct information.

(11) The date the application is signed.

(12) The purchaser's daytime telephone number.

(13) If the plate is being purchased as a gift, the plate owner specified in subdivision (c)(4), of this regulation, shall be the recipient, and the purchaser specified in subdivisions (c)(2), (10), and (12), of this regulation, shall be the applicant.

(d) The department shall not honor a request for a change of choice or spacing in the letter/number configuration, or a request for a refund, after the license plate reservation is made, unless the request is due to departmental error.

(1) If the department erred when making the special interest/environmental license plate reservation, and the plate owner requests a change, the plate owner shall be permitted to submit a new special interest/environmental license plates application without payment of additional fees.

(2) If the department did not err when making the reservation, a new application and application fees shall be submitted for any change in the configuration.

1. New section filed 9-27-94; operative 10-27-94 (Register 94, No. 39).

§ 170.04. Receipt of Environmental License Plates as a Gift.

(a) A statement of facts shall be required when the plates were ordered as a gift and the purchaser's name was incorrectly listed as the plate owner.

(1) The statement of facts shall indicate that the plates are a gift to the registered owner or lessee of the vehicle to which the plates will be assigned and that no money changed hands.

(2) The statement of facts shall be completed either by the original applicant or the recipient.

NOTE: Authority cited: Sections 1651 and 5110, Vehicle Code. Reference: Sections 5101, 5104 and 5105, Vehicle Code.

HISTORY

1. New section filed 9-27-94; operative 10-27-94 (Register 94, No. 39).

§ 170.06. Surrender of Current Plates.

(a) When application for environmental license plates is made for a currently registered vehicle, and the vehicle to which the plates will be assigned is known, the current plates shall be surrendered to the department at the time of application, with the following exception:

(1) If the current plates are not available, the applicant shall complete a statement of facts.

(A) The statement of facts shall state that the applicant understands that the current plates are no longer valid and the applicant will destroy the plates.

1. The plates shall be considered destroyed when they are mutilated in a manner which renders them useless.

(b) When the vehicle to which the plates will be assigned is unknown at the time of application, the current plates and registration certificate shall be surrendered when the environmental license plates are picked up and assigned to the vehicle, with the following exception:

(1) If the current plates are not available, the applicant shall complete a statement of facts.

(A) The statement of facts shall state that the applicant understands that the current plates are no longer valid and the applicant will destroy the plates.

1. The plates shall be considered destroyed when they are mutilated in a manner which renders them useless.

HISTORY

1. New section filed 9-27-94; operative 10-27-94 (Register 94, No. 39).

§ 170.08. Delivery of Environmental License Plates.

(a) When the vehicle to which the plates will be assigned is known and the registration documents are furnished at the time of application, the department shall mail the plates to the plate owner.

(b) When the vehicle to which the plates will be assigned is unknown or the registration documents are not furnished at the time of application, the department shall notify the plate owner when the plates have been delivered to the designated office.

(1) The department shall make three attempts by telephone or mail to contact the plate owner to pick up the plates and assign them to a vehicle.

(A) If the owner does not respond within four months of the first contact attempt, the department shall notify the owner in writing that priority to the plates will be lost in 30 days and the plates will be destroyed.

1. New section filed 9-27-94; operative 10-27-94 (Register 94, No. 39).

§ 170.10. Retention of Environmental License Plates.

(a) When payment of registration renewal fees is not required as specified in Vehicle Code Section 4000 for a vehicle to which the environmental license plate was last assigned, the environmental license plate owner shall be permitted to retain the plate upon payment of an annual retention fee of \$25, as specified in Vehicle Code Section 5106(c).

(1) If the annual retention fee is not paid by the expiration of the registration year for which payment of registration renewal fees is not required, the plate owner shall lose ownership and the letter/number configuration shall become available for reassignment.

NOTE: Authority cited: Sections 1651 and 5110, Vehicle Code. Reference: Sections 5105 and 5106, Vehicle Code.

HISTORY

1. New section filed 9-27-94; operative 10-27-94 (Register 94, No. 39).

§ 170.12. Cancellation of Environmental License Plates.

(a) Pursuant to Vehicle Code Section 5105, the department shall cancel and order the return of any environmental license plate previously issued which contains any configuration of letters and/or numbers which the department later determines may carry connotations offensive to good taste and decency.

(1) The department shall base this determination on the criteria specified in Section 170.00(c)(3)(D).

(b) The department shall notify the plate owner in writing of the cancellation and advise the plate owner of the options available for further action, as specified in Vehicle Code Section 5105(b).

(1) Pursuant to Vehicle Code Section 5105(b), the plate owner shall be entitled to a hearing by submitting a written request to the department no later than ten departmental business days after receiving the notification.

NOTE: Authority cited: Sections 1651 and 5110, Vehicle Code. Reference: Section 5105, Vehicle Code.

FORMER PRISONER OF WAR PLATES

§ 171.00. Requirements for Former Prisoner of War License Plates.

(a) To be eligible for former Prisoner of War license plates, the applicant for plate ownership must meet the definition of a former prisoner of war as described in Section 324.5 of the Vehicle Code.

(b) In addition to the requirements specified in Sections 170.00 through 170.08 for environmental license plates, the applicant shall present proof of the registered owner's or lessee's eligibility for a former Prisoner of War license plate by submitting to the department one of the following documents:

(1) A letter of verification from the National Personnel Records Center showing the registered owner's or lessee's name and establishing that the registered owner or lessee was held a prisoner of war by forces hostile to the United States during a period of armed conflict.

(2) An official document which substantiates that the registered owner or lessee was a prisoner of war, such as a Veterans Administration Hospital Card marked "POW" or military discharge papers which declare the bearer to be an ex-prisoner of war.

(c) The evidence submitted to the department shall be returned to the applicant.

(d) The configuration specified in Section 170.00(c)(3) shall meet the specifications of Vehicle Code Section 5101.5.

PRESS PHOTOGRAPHER LICENSE PLATES

§ 172.00. Definitions.

(a) A press photographer is a person who is regularly employed or engaged as:

- (1) A newspaper photographer or cameraman.
- (2) A newsreel photographer or cameraman.
- (3) A television photographer or cameraman.
- (4) A newsmagazine photographer or cameraman.
- (5) A news gathering company photographer or cameraman.

(b) Regularly employed means full time employment (with the principal assignment as a photographer or cameraman) by:

- (1) A newspaper.
- (2) A newsmagazine.
- (3) A news gathering company.
- (4) A newsreel company.
- (5) A television station.

(6) A company taking pictures for newspapers, newsmagazines, news gathering companies, for newsreels, or for presentation on television.

(c) Regularly engaged means devoting more than 50 percent of employment time or deriving more than 50 percent of personal income from taking pictures for newspapers, newsmagazines, news gathering companies, for newsreels, or for television.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 5008, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 210.00 to section 172.10 and adding article 3.1 heading filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 172.05. Application.

(a) Application for press photographer license plates shall be completed upon an appropriate form provided by the department.

(b) Proof that an applicant is a press photographer as defined herein shall consist of:

- (1) The applicant's certification to that effect.
- (2) The name and address of the newspaper, newsmagazine, news gathering company, newsreel company, television station, or company taking pictures for presentation on television he is employed by or to which he sells pictures or his services.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 5008, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 210.05 to section 172.05 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 172.10. Plates.

(a) Press photographer license plates may be issued to not more than one motor vehicle registered (either solely or jointly with one or more owners) to a person who is a press photographer as defined herein.

(b) The press photographer license plates issued to a motor vehicle shall be surrendered to the Department of Motor Vehicles immediately when

(1) The press photographer owner ceases to be a press photographer as defined herein.

(2) The vehicle is transferred from the registered ownership of the press photographer.

(c) Press photographer license plates shall be used only on the motor vehicle to which they have been assigned by the Department of Motor Vehicles.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 5008, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 210.10 to section 172.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 172.15. Display of Validating Stickers.

NOTE: Authority cited: Sections 1651 and 5205, Vehicle Code. Reference: Sections 4457 and 5204, Vehicle Code.

1. Change without regulatory effect renumbering former section 210.15 to section 172.15 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Repealer filed 9-6-96; operative 10-6-96 (Register 96, No. 36).

LEGION OF VALOR AND PURPLE HEART LICENSE PLATES

§ 173.00. Application Requirements for Legion of Valor License Plates or Purple Heart License Plates.

(a) An application for Legion of Valor license plates or Purple Heart license plates for a vehicle currently registered in California shall be submitted to the department on a Special License Plate Application, Form REG. 583 (12/91), provided by the department and shall include the following information:

(1) The vehicle identification number of the vehicle which will be assigned Legion of Valor or Purple Heart license plates.

(2) The make of the vehicle which will be assigned Legion of Valor or Purple Heart license plates.

(3) The current license plate number of the vehicle to which the Legion of Valor or Purple Heart license plates will be assigned.

(4) The true full name of the registered owner of the vehicle which will be assigned Legion of Valor or Purple Heart license plates.

(A) To be eligible for a Legion of Valor license plate, the registered owner must be the recipient of one or more of the following medals: Army Medal of Honor, Navy Medal of Honor, Air Force Medal of Honor, Army Distinguished Service Cross, Navy Cross or Air Force Cross.

(B) To be eligible for a Purple Heart license plate, the registered owner must be a recipient of a Purple Heart.

(5) The address of the registered owner.

(6) A statement signed and dated by the registered owner certifying under penalty of perjury under the laws of the State of California that all the information entered on the application by the registered owner is true and correct.

(7) The registered owner's daytime telephone number.

(8) An indication of whether the vehicle to which the Legion of Valor license plates will be assigned is classified as auto/commercial or trailer.

(A) Legion of Valor license plates shall not be assigned to motorcycles.

(9) An indication of whether the vehicle to which the Purple Heart license plate will be assigned is classified as auto/commercial, motorcycle, or trailer.

(10) An indication that the type of plates requested are Legion of Valor or Purple Heart license plates.

(b) The application shall be submitted with:

(1) Proof of eligibility as specified in Section 173.02 for Legion of Valor license plates or Section 173.04 for Purple Heart license plates.

(2) The fee required by Section 5101.4 of the Vehicle Code for Legion of Valor license plates; or

(3) In addition to the regular fees for an original or renewal registration, a fee of \$36 for Purple Heart license plates, unless the recipient is exempt from the additional fees for one vehicle pursuant to Section 5101.8(d) of the Vehicle Code.

(4) The current registration certificate.

(c) The current plates shall be surrendered to the department at the time of application, with the following exception:

(1) If the current plates are not available, the applicant shall complete a statement of facts.

(A) The statement of facts shall state that the applicant understands that the current plates are no longer valid and the applicant will destroy the plates.

1. The plates shall be considered destroyed when they are mutilated in a manner which renders them useless.

1. New section filed 6–10–99; operative 7–10–99 (Register 99, No. 24).

§ 180.00. Application for Regular Series License Plates for State-Owned University Vehicle.

(a) In addition to the requirements for registration of a vehicle pursuant to Vehicle Code Section 4150 and 4150.2, the applicant for regular series license plates for a state-owned vehicle assigned to a university chancellor or president of the University of California or California State University, or one of their campuses, shall submit to the department a request for such plates. The request shall be completed on university letterhead and signed by the president, or his or her designee, of either the Trustees of the California State University or the Regents of the University of California, as applicable. The request shall identify the following:

(1) The chancellor or president to whom the vehicle will be assigned. Identification shall include the person's name, title, and driver license number and the name of the university system or campus of which the person is the president or chancellor.

(2) The vehicle to which the regular series license plates will be assigned.

(A) For original registrations, the vehicle identification shall include the make, model, vehicle identification number, and the date the vehicle was first sold by a manufacturer, remanufacturer or dealer to a consumer.

(B) For non-original registrations, the vehicle identification shall include the make, model, vehicle identification number, and vehicle license number.

(b) In addition to the request specified in subsection (a), when regular series license plates are ordered to replace exempt license plates, an Application for Duplicate or Substitute, Form REG 156 (Rev. 4/92), shall be completed and signed by the applicant to whom the vehicle is assigned. The Application for Duplicate or Substitute shall include:

(1) An indication that the type of substitute item being requested is a license plate.

(2) The vehicle license number, make, and vehicle identification number.

(3) An indication that the plates for which replacement is being requested are being surrendered to the department.

(4) A signed and dated certification under penalty of perjury under the laws of the State of California that the information provided is true and correct.

(5) The applicant's name, address and telephone number.

(c) When regular series license plates are ordered to replace exempt license plates, the exempt license plates shall be surrendered to the department at the time of application.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 5002.6.

HISTORY

1. New section filed 4–10–95; operative 5–10–95 (Register 95, No. 15).

§ 180.02. Surrender of Regular Series License Plates Upon Reassignment of Vehicle.

(a) When the vehicle to which the regular series plates have been assigned is reassigned to a person other than the person who requested the plates, the trustees or regents shall remove the regular series plates from the vehicle on the effective date of the reassignment and shall surrender the regular series plates to the department no later than 60 days after the vehicle reassignment.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 5002.6.

HISTORY

1. New section filed 4–10–95; operative 5–10–95 (Register 95, No. 15).

§ 181.00. Foreign Organization License Plates.

(a) Officers and designated employees of the Taipei Economic and Cultural Office (TECO) are eligible for exemption from registration fees and are entitled to apply for special Foreign Organization license plates. The American Institute in Taiwan, located in Arlington, Virginia, shall be authorized to verify the official status of these officers and employees and notify the department.

(1) The notification shall be in writing and shall include the officer's or employee's name, official status, and the date the officer's or employee's appointment is approved.

(b) Upon successful completion of the application process by a TECO officer or designated employee, the department shall grant exemption from registration fees and issue a special Foreign Organization license plate bearing the words, "Foreign Organization," for a vehicle owned or leased by the officer or employee.

(c) The TECO officer or designated employee shall apply to the department for registration exemption and special Foreign Organization license plates by doing the following for each vehicle owned or leased by the officer or employee:

(1) Complete and present to the department in person or by mail the following portions of Miscellaneous Certifications, Form REG 256A (Rev. 2/2007), provided by the department, which shall contain the following information:

(A) The vehicle identification number; license plate number; vehicle make and year.

(B) An indication that the vehicle is exempt from registration because the registered owner is an officer or designated employee of TECO (Part B).

(C) A certification, signed and dated by the applicant under penalty of perjury, that the information on the form is true and correct (Part F).

(D) The daytime telephone number of the applicant (Part F).

(2) Provide the Certificate of Title or bill of sale for an original/nonresident vehicle.

(3) Provide a photocopy of the Tax Exemption Card (BT 111) issued by the California State Board of Equalization and an identification card issued by the Department of State.

(4) If applicable, surrender the current state or country license plates, or sign a statement of facts certifying the plates will be destroyed and disposed of in a manner which renders them useless.

(5) Provide a certificate of compliance as specified in Vehicle Code section 4000.1.

(d) The department shall refund any registration fees previously paid on the vehicle by a TECO officer or designated employee for the period after the official approval date of appointment specified pursuant to subdivision (a)(1).

(e) The registration fee exemption does not apply to duplicate certificates or substitute license plates. A TECO officer or designated employee shall be required to pay the fees specified in Vehicle Code sections 4850(c) and 9265 when applying for duplicate certificates and substitute license plates.

(f) Registration of the vehicle owned or leased by a TECO officer or designated employee expires on December 31 of each year.

(g) If a TECO officer or designated employee transfers ownership of a vehicle to another person, the TECO officer or employee shall remove the Foreign Organization plates from the vehicle on the effective date of the transfer and shall surrender the plates to the department within 60 days of transfer of ownership.

NOTE: Authority cited: Sections 1651 and 5006.5, Vehicle Code. Reference: Sections 1652 and 5006.5, Vehicle Code; and Sections 10781 and 10901, Revenue and Taxation Code.

HISTORY

1. New section filed 7-21-97; operative 8-20-97 (Register 97, No. 30).
2. Amendment filed 12-21-98; operative 1-20-99 (Register 98, No. 52).
3. Editorial correction of subsection (c)(1)(A) (Register 2003, No. 20).
4. Change without regulatory effect amending subsections (c)(1) and (c)(1)(B)-(D) filed 6-26-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 26).
5. Change without regulatory effect amending subsection (c)(1) filed 6-29-2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 26).

DISABLED PERSON PLACARDS OR PLATES

§ 182.00. Definitions.

(a) Disabled Person Permanent Placard — A placard that has a fixed expiration date of June 30 every odd numbered year that is issued to permanently disabled persons meeting the disability requirements in Section 295.5 of the Vehicle Code.

(b) Disabled Person Temporary Placard — A placard that is issued for a maximum of six (6) months to a temporarily disabled person meeting the disability requirements in Section 295.5 of the Vehicle Code.

(c) Disabled Person Travel Placard — A placard issued to permanently disabled persons meeting the disability requirements in Section 295.5 of the Vehicle Code. The placard is issued to California residents for no more than thirty (30) days and to non-residents for no more than ninety (90) days.

(d) Readily observable and uncontested permanent disability — The disability of any person who has lost or has lost use of, one or more lower extremities or both hands.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 295.5, 5007, 22511.55 and 22511.59, Vehicle Code.

HISTORY

1. New section filed 3-26-2007; operative 4-25-2007 (Register 2007, No. 13).

§ 182.01. Application for Disabled Person Placard or Plates Form.

(a) Applicants for a disabled person placard or plates shall complete and submit an Application for Disabled Person Placard or Plates form (REG 195, REV 2/2007), which is hereby incorporated by reference. This form is available on the department's internet website at www.dmv.ca.gov, in any field office, or by calling the department's Telephone Service Center at (800) 777-0133. The form shall contain the following information:

- (1) The type of disabled person placard being requested and/or if disabled person license plates are being requested.
- (2) The applicant's true full name or organization name.
- (3) The applicant's residence address or organization address.
- (4) The applicant's or organization's mailing address, if different from the residence address.
- (5) The applicant's date of birth. This information is not required for an organization or government agency.
- (6) The applicant's driver license or identification card number, if one has been issued. This information is not required for an organization or government agency.

(7) The applicant's daytime telephone number.

(8) An indication of whether California disabled person or disabled veteran license plates or permanent parking placard have previously been issued. If the applicant indicates that license plates or a placard have previously been issued, the plate or placard number must be provided.

(9) If the applicant is requesting disabled person license plates, a current license plate number, a vehicle identification number and make of the vehicle to which the disabled person license plates will be affixed. For a new vehicle purchase, only the vehicle identification number and vehicle make are required. To qualify for disabled person license plates, the applicant must provide a registration card in the applicant's name or documents to register the vehicle in the applicant's name. License plates currently assigned to the vehicle must be surrendered to the department.

(A) An indication of whether the applicant is requesting an exemption from weight fees for the vehicle described. (Note: To qualify for an exemption, the vehicle must weigh less than 8,001 pounds unladen.)

(10) A statement by the applicant certifying that the applicant has read the information in Section D and fully understands and takes responsibility for the use of the disabled person placard or plates that are issued, and certifies under penalty of perjury under the laws of the State of California that the information provided in the application is true and correct and the applicant is a disabled person as defined under California Vehicle Code Section 295.5. The applicant shall designate if the disability is permanent or temporary and indicate what the disability is due to. The applicant shall sign and date the application and indicate the city and state in which the signature was executed.

(A) The application may be completed and signed by a parent or guardian of a disabled minor if parts G and H of a Statement of Facts form (REG 256, REV 9/2005), which is hereby incorporated by reference, are completed and signed by a parent or guardian indicating his or her relationship to the minor. This form is available on the department's website at www.dmv.ca.gov, in any field office or by calling the department's Telephone Service Center at (800) 777-0133.

(B) A person, other than the applicant, may complete the application if the applicant's disability prevents him or her from completing the application. Parts G and H of a Statement of Facts form (REG 256, REV 9/2005, which is hereby incorporated by reference, must be completed and signed indicating relationship to the applicant.

(11) The Doctor's Certification of Disability completed by a licensed physician, surgeon, chiropractor, optometrist, physician assistant, nurse practitioner, or certified nurse midwife that states the applicant meets the disability requirements described in Section 295.5 of the Vehicle Code. The physician shall indicate the type of qualifying criteria and provide any additional qualifying information.

(12) The doctor, physician assistant, nurse practitioner, or certified nurse midwife shall indicate the type of placard that is to be issued and the length of time a temporary or travel placard is to be issued.

(13) The doctor, physician assistant, nurse practitioner, or certified nurse midwife's name, address, daytime telephone number and medical license number.

(14) A statement by the doctor, physician assistant, nurse practitioner, or certified nurse midwife, certifying under penalty of perjury under the laws of the State of California that all statements provided on the application are true and correct and he or she will retain information sufficient to substantiate the certification and shall make that information available for inspection by the Medical Board of California at the department's request. The doctor, physician assistant, nurse practitioner, or certified nurse midwife shall sign and date the certification and indicate the city and state in which the signature was executed.

(A) The Doctor's Certification of Disability is not required if the applicant indicates that a disabled person or disabled veteran license plate or placard have previously been issued unless the placard was cancelled by the department or if the placard is no longer on record with the department.

(B) The Doctor's Certification of Disability is not required if the applicant appears in person and has a readily observable and uncontested per-

manent disability as specified in section 182.00(d) and the disability is verified by an employee of the Department of Motor Vehicles.

(C) The Doctor's Certification of Disability is not required for an organization or government agency involved in the transportation of disabled persons or disabled veterans. The applicant must complete Parts G and H of a Statement of Facts form (REG 256 9/2005), which is hereby incorporated by reference, certifying the organization or government agency is involved in the transportation of disabled persons or disabled veterans.

(15) The signature, office number, date and identification number of the Department of Motor Vehicles employee who certifies a readily observable and uncontested disability as specified in section 182.00(d).

(b) The completed form with the applicable fee may be mailed to:

DMV PLACARD
P.O. BOX 942869
SACRAMENTO, CA 94269-0001

Or submitted to any Department of Motor Vehicles field office.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 295.5, 5007, 22511.55 and 22511.59, Vehicle Code.

HISTORY

1. New section filed 3-26-2007; operative 4-25-2007 (Register 2007, No. 13).

§ 182.02. Surrender of Disabled Person License Plates and/or Permanent Disabled Person Placards upon Death.

(a) The disabled person license plates and/or placard shall be surrendered to the department within sixty (60) days of the death of the disabled person or upon the expiration of the vehicle registration, whichever occurs first.

(1) The disabled person license plates shall not be transferred to any other person, including the co-owner of the vehicle.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 5007 and 22511.55(d), Vehicle Code.

HISTORY

1. New section filed 3-26-2007; operative 4-25-2007 (Register 2007, No. 13).

Article 3.2. Registration of Vessels

§ 190.00. Display of Numbers.

(a) The number issued to each undocumented vessel shall be displayed in the following manner:

(1) Be painted on or permanently attached to each side of the forward half of the vessel.

(2) Be in plain vertical block characters of not less than 3 inches in height.

(3) Contrast with the color of the background and be distinctly visible and legible.

(4) Have spaces or hyphens that are equal to the width of a letter other than "I" or a number other than "1" between the prefix and the number, and the number and the suffix.

EXAMPLE: CF 1234 AB

(5) Letters and numbers to read from left to right.

(b) Vessels used by a manufacturer or by a dealer for testing or demonstrating shall have the number painted on or attached to removable plates that are temporarily but firmly attached to each side of the forward half of the vessel.

(c) On inflatable vessels or on vessels so configured that a number on the hull or superstructure would not be clearly visible or properly adhere, the number shall be painted on or attached to a backing plate that is attached to the forward half of the vessel so that the number is visible from each side of the vessel.

(d) No numerals, letters or devices other than those used in connection with the state number issued shall be placed in the proximity of the state number, and no numerals, letters or devices which might interfere with the ready identification of the vessel by its state number shall be carried on any part of the vessel.

NOTE: Authority cited: Sections 1651 and 9853.2, Vehicle Code. Reference: Sections 9850, 9853.2 and 9857, Vehicle Code; and CFR, Title 33, Sections 173.19, 173.27, 174.13 and 174.14.

HISTORY

1. Change without regulatory effect renumbering former section 300.00 to section 190.00 and amending article heading filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.01. Registration Stickers.

The registration stickers issued by the department under the authority of Vehicle Code Section 9853.4 to identify a vessel as currently registered shall be securely affixed on each side of the vessel three inches aft (toward the stern) of and directly in line with the registration numbers and shall be so maintained as to be clearly visible at all times.

NOTE: Authority cited: Sections 1651 and 9853.4, Vehicle Code. Reference: Section 9853.4, Vehicle Code; and CFR, Title 33, Section 174.15.

HISTORY

1. Change without regulatory effect renumbering former section 300.01 to section 190.01 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.02. Proof of Ownership.

Proof of ownership of vessels may be established for the purposes of Vehicle Code Section 9852 by one of the following:

(a) A Bill of Sale executed by the seller showing the name and address of the seller, name and address of the purchaser, the name and address of the legal owner if any, the location and date of sale, and description of the vessel; or a Certificate of Sale executed by the seller under oath showing the information required to be shown on the Bill of Sale.

(b) A properly endorsed document indicating title if the vessel has been numbered and issued a title by another state.

(c) Where neither (a) nor (b) above is appropriate, an affidavit executed by the applicant fully setting forth the facts to support applicant's claim of ownership in the vessel. Affidavits for materials used in construction of homemade boats shall be supported with Bills of Sale for major components.

(d) A Certificate of Origin, Bill of Lading or Invoice describing the vessel shall be required from any dealer who upon application for original

[The next page is 9.]

registration lists himself as the owner of the vessel when such vessel is obtained through the dealer's inventory.

NOTE: Authority cited: Sections 1651 and 9852, Vehicle Code. Reference: Section 9852, Vehicle Code; and CFR, Title 33, Section 174.31.

HISTORY

1. Change without regulatory effect renumbering former section 300.02 to section 190.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.03. Vessel Bond Requirements.

(a) A vessel owner applying for a California certificate of title without the required proof of ownership may submit a bond as authorized by Vehicle Code section 9923. The bond shall be executed by an admitted surety insurer on an Undocumented Vessel Surety Bond, form REG 5058 (REV. 10/2005), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) The penal sum of the bond shall be in the amount of the fair market value of the vessel.

(1) The fair market value shall be determined by either:

(A) A written appraisal provided by a California licensed or other state licensed yacht and shipbroker; or

(B) Identification of the vessel and its price variations based on information provided in a recognized industry vessel valuation and pricing handbook. The highest and lowest price variations shall be added together and then divided by two; the result is the average price of a vessel. The average price shall be the fair market value.

(c) A vessel owner applying for a California certificate of title without the required supporting evidence of ownership may submit a deposit equal to the monetary amount appraised in Section 190.03 (b)(1)(A) or calculated in Section 190.03(b)(1)(B) in lieu of bond as provided in Section 995.710 of the Code of Civil Procedure.

NOTE: Authority cited: Sections 1651 and 9852, Vehicle Code. Reference: Section 995.010, Code of Civil Procedure; and Section 9923, Vehicle Code.

HISTORY

1. New section filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7). For prior history, see Register 95, No. 34.

§ 190.04. Definition of a Livery Boat.

A livery boat is any vessel subject to registration under the California Vehicle Code, that is held primarily for the purpose of renting, leasing or chartering to others.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9840 and 9850, Vehicle Code; and CFR, Title 33, Section 174.19.

HISTORY

1. Change without regulatory effect renumbering former section 300.04 to section 190.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.05. Definition of a Vessel Carrying Passengers for Hire.

Vessels carrying passengers for hire means any vessel subject to registration under the California Vehicle Code which is held for use for the carriage of any person by such vessel for valuable consideration whether directly or indirectly flowing to the owner, charterer, operator, agent, or any other person interested in the vessel.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9840 and 9850, Vehicle Code; and CFR, Title 33, Section 174.19.

HISTORY

1. Change without regulatory effect renumbering former section 300.05 to section 190.05 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment filed 8-21-95; operative 9-20-95 (Register 95, No. 34).

§ 190.06. Definition of a Boat Manufacturer.

A boat manufacturer is a person who is engaged wholly or in part in the business of building or assembling vessels who subsequently offers these vessels for sale and receives or expects to receive money, profit or any other thing of value resulting from such transactions.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9840, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 300.06 to section 190.06 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.07. Definition of a Boat Dealer.

A boat dealer is a person who is engaged wholly or in part in the business of selling or offering for sale, buying or taking in trade for the purpose of resale, or exchanging, any vessel or vessels and receives or expects to receive money, profit, or any other thing of value.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9856 and 9912, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 300.07 to section 190.07 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.08. Certificates of Number for Dealer, Manufacturer, Livery Vessel and Vessel Carrying Passengers for Hire.

(a) The Certificates of Number for dealer, manufacturer, livery vessels, commercial vessels of less than five net tons and vessels carrying passengers for hire shall be clearly marked to show the vessel use.

(b) All applications for numbering of such vessels shall be submitted directly to the Department of Motor Vehicles, Sacramento, who may upon approval after the payment of the required fees issue a vessel number with distinctive suffix letters.

(c) Dealer or manufacturer numbers shall only be temporarily attached to the vessel during demonstration or test period and are valid for that period of demonstration or test only.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9850, 9853, 9853.1-9853.3, Vehicle Code; CFR, Title 33, Sections 173.27 and 174.19; and CFR, Title 46, Section 67.01-11.

HISTORY

1. Change without regulatory effect renumbering former section 300.08 to section 190.08 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.09. Terms and Conditions for Vessel Registration and Numbering.

The issuance of Certificates of Ownership and Number may be conditioned on:

(a) Title to, or other proof of ownership of a vessel except a recreational-type public vessel of the United States, and

(b) The payment of State or local taxes, except for such public vessels as defined in Section 9851 V.C.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9852, 9853.1, 9853.4, 9855 and 9858, Vehicle Code; and CFR, Title 33, Section 174.31.

HISTORY

1. Change without regulatory effect renumbering former section 300.09 to section 190.09 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.10. Contents of Applications for Certificate of Ownership and Certificate of Number.

(a) Applications for Certificates of Ownership and Number shall contain the following information:

(1) Name of the registered owner.

(2) Address of the registered owner and ZIP code.

(3) State in which vessel will be principally used.

(4) Location of vessel, city and/or county.

(5) Any number previously issued by an issuing authority for the vessel.

(6) Whether the application is for a new number, renewal of a number, transfer of ownership, duplicate Certificates of Ownership or Number.

(7) Whether the vessel is to be used for pleasure, rent or lease, dealer or manufacturer demonstration, commercial passenger carrying or other commercial use.

(8) Make of vessel.

(9) Year vessel was manufactured and model year, if known.

(10) Hull identification number.

(11) Overall length of vessel.

(12) Type of vessel.

- (13) Hull material.
- (14) Propulsion.
- (15) Fuel, gasoline, diesel or other.
- (16) Name and address of legal owner, if any.
- (17) Signature of the registered owner.

(b) Applications made by a manufacturer or dealer for a number that is to be temporarily affixed to a vessel for demonstration or test purposes need only furnish items 1, 2, 6, 7 and 17 of paragraph (a).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9852 and 9853, Vehicle Code; and CFR, Title 33, Section 174.17.

HISTORY

1. Change without regulatory effect renumbering former section 300.10 to section 190.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.11. Contents of Certificate of Number.

(a) Each Certificate of Number shall contain the following information:

- (1) Number issued to vessel.
- (2) Expiration date of the Certificate of Number.
- (3) State of principal use.
- (4) Name of the registered owner.
- (5) Address of registered owner, including ZIP code.
- (6) Name and address of legal owner, if any.
- (7) Use of vessel such as pleasure, livery, dealer or manufacturer for demonstration, commercial passenger carrying or other commercial.
- (8) Hull identification number.
- (9) Make of vessel.
- (10) Year manufactured and year model, if known.
- (11) Overall length of vessel.
- (12) Type of vessel.
- (13) Hull material.
- (14) Type of propulsion.
- (15) Fuel type, gasoline, diesel or other.
- (16) Information pertaining to change of ownership, documentation, theft or recovery of vessel, carriage of the Certificate of Number on board when vessel is in use; rendering aid in accidents and reporting casualties and accidents shall be contained on the Certificate of Number.

(b) A Certificate of Number issued to a manufacturer or dealer to be used on a vessel for demonstration purposes need only show items 1, 2, 3, 4, 5, 7 and 16 of paragraph (a) if the word "manufacturer" or "dealer" is plainly marked on the certificate.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9853 and 9853.1, Vehicle Code; and CFR, Title 33, Section 174.19.

HISTORY

1. Change without regulatory effect renumbering former section 300.11 to section 190.11 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (a)(16) filed 8-21-95; operative 9-20-95 (Register 95, No. 34).

§ 190.12. Validity of Certificate of Number.

- (a) The Certificate of Number shall become invalid after the date:
 - (1) The vessel is documented or required to be documented under Part 67 of Title 46, Code of Federal Regulations.
 - (2) The owner of the vessel transfers all of his ownership in the vessel.
 - (3) The vessel is destroyed or abandoned.
- (b) A Certificate of Number shall be invalid if the application contains a false or fraudulent statement.
- (c) A Certificate of Number shall become invalid 60 days after the day on which the vessel is no longer principally used within the State of California.
- (d) The Certificate of Number shall become invalid when the person whose name appears on the certificate involuntarily loses his interest in the numbered vessel by legal process.
- (e) The Certificate of Number shall become invalid when the primary use of the vessel changes from the use indicated on the Certificate of Number pursuant to Section 190.11(a)(7).

(1) The owner of a vessel shall apply to the department for a new Certificate of Number when the primary use of the vessel changes from that indicated on the Certificate of Number.

(2) "Primary use of the vessel" means use that accounts for more than fifty percent of the operation of the vessel during a calendar year.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9853.1, 9855, 9858, 9864, 9874 and 9915, Vehicle Code; and CFR, Title 33, Section 173.77.

HISTORY

1. Change without regulatory effect renumbering former section 300.12 to section 190.12 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. New subsections (c)-(e)(2) filed 8-21-95; operative 9-20-95 (Register 95, No. 34).

§ 190.13. Removal of Stickers.

The number and sticker shall be removed from the vessel if the Certificate of Number becomes invalid for reasons contained in Section 190.12(a)(1), (b), or (c) of these regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9853.4 and 9874, Vehicle Code; and CFR, Title 33, Section 173.33.

HISTORY

1. Change without regulatory effect renumbering and amending former section 300.13 to section 190.13 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.14. Temporary Certificate of Number.

A Temporary Certificate of Number shall be issued to applicants in accordance with Section 9858 V.C. to be valid for 60 days from date of issue.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9858; and CFR, Title 33, Sections 173.75 and 174.29.

HISTORY

1. Change without regulatory effect renumbering former section 300.14 to section 190.14 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.15. Hull Identification Numbers.

(a) All vessels subject to registration under the California Vehicle Code shall display a hull identification number. On vessels built after 1971, this number shall consist of at least 12 characters in a configuration consistent with federal regulations.

(b) Hull identification numbers will be assigned by the manufacturer or by the Department of Motor Vehicles upon failure by the manufacturer to assign the number.

(c) The hull identification number shall be carved, burned, stamped, embossed or otherwise permanently affixed using letters and numerals not less than 1/4 inch in height to the outboard side of the transom, or if there is no transom to the outermost starboard side at the end of the hull that bears the rudder or other steering mechanism, above the water line of the boat in such a way that alterations, removal or replacement would be obvious.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9871 and 9871.5, Vehicle Code; and CFR, Title 33, Sections 181.23, 181.25, 181.27 and 181.29.

HISTORY

1. Change without regulatory effect renumbering former section 300.15 to section 190.15 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.16. Fee-Exempt Boats.

(a) Boats belonging to State, County, or City Governments and Federal agencies of the United States shall not be required to pay the fees provided for in Sections 9853, 9855 and 9860 of the California Vehicle Code.

NOTE: Authority cited: Section 9851, Vehicle Code. Reference: Section 9851, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 300.16 to section 190.16 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.17. Recreational-Type Public Vessels.

Boats owned by the United States Armed Forces that are used for recreational purposes shall be known as "recreational-type public vessels."

The Department of Motor Vehicle, Sacramento, California, shall upon application issue a Certificate of Number and Certificate of Ownership to the Armed Forces Agency owning the vessel. Such vessels shall be exempt from payment of all fees.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9851, Vehicle Code; and CFR, Title 33, Section 173.11.

HISTORY

1. Change without regulatory effect renumbering former section 300.17 to section 190.17 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.18. Fee-Exempt Annual Renewal.

The number issued to fee-exempt vessels shall contain suffix letters to designate the vessel as "fee-exempt." Display of the number shall be in accordance with Section 190 of this regulation. A sticker shall be issued to each vessel to identify it to be currently registered. Display of the sticker shall be in accordance with Section 190.01.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9850, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 300.18 to section 190.18 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.19. Racing Vessels.

Boats brought to this state exclusively for racing purposes and remaining for less than 90 days, may be exempted from registering and numbering in California, providing the state of origin also exempts such vessels.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9854 and 9873, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 300.19 to section 190.19 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.20. Livery Vessels.

No person may operate a livery vessel unless that vessel has on board a valid Certificate of Number, a valid Temporary Certificate of Number, or a copy of the rental or lease agreement. The agreement must contain:

- (1) The signature of the owner of the vessel or his representative.
- (2) The signature of the person leasing or renting the vessel.
- (3) The vessel number that appears on the Certificate of Number.
- (4) The time period for which the vessel is leased or rented.

No obligation is created by these regulations (Sections 190.00 through 190.20) under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred in carrying on any program or performing any service required to be carried on or performed under these regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9853.3, Vehicle Code; and CFR, Title 33, Section 173.21.

HISTORY

1. Change without regulatory effect renumbering and amending former section 300.20 to section 190.20 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.21. Notification to the Department.

A person whose name appears as the owner of a vessel on a Certificate of Number shall, within 15 days, notify the Department of:

- (a) Any change in his address.
- (b) The loss or destruction of a valid Certificate of Number.
- (c) The destruction or abandonment of the vessel.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9864, 9865 and 9911, Vehicle Code; and CFR, Title 33, Section 173.29.

HISTORY

1. Change without regulatory effect renumbering former section 300.21 to section 190.21 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.22. Surrender of Certificate of Number.

A person whose name appears as the owner of a vessel on a Certificate of Number shall surrender the certificate in a manner prescribed by the Department within 15 days after it becomes invalid under Section 190.12, paragraphs (a)(1)(2)(3), (b), (c), (d).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 9864 and 9900, Vehicle Code; and CFR, Title 33, Section 173.31.

HISTORY

1. Change without regulatory effect renumbering and amending former section 300.22 to section 190.22 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 190.30. Department Agent's Authorization.

(a) Agents authorized by the department under Vehicle Code Section 9858 to accept registration applications of undocumented vessels shall be known as Undocumented Vessel Registration Agents. The appointment of such agents shall be at the pleasure of the department and they shall serve without compensation from the department.

(b) Undocumented Vessel Registration Agents may charge their customers a documentary preparation fee pursuant to Vehicle Code Section 9858.1.

NOTE: Authority cited: Sections 1651 and 9858, Vehicle Code. Reference: Sections 9858, 9858.1 and 9859, Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 190.03 to new section 190.30 and amendment of NOTE filed 8-21-95; operative 9-20-95 (Register 95, No. 34).

§ 190.32. Application for Appointment as an Undocumented Vessel Registration Agent.

(a) An applicant for appointment as an Undocumented Vessel Registration Agent shall submit to the department an Application for Appointment and Agreement as a Non-Public Undocumented Vessel Registration Agent, Form OL 54 (Rev. 3/2003).

(1) Another department-approved version of this form with a different revision date shall be acceptable if the content of the form is in substantial compliance with the requirements of this section.

(b) The Application for Appointment and Agreement as a Non-Public Undocumented Vessel Registration Agent shall contain the following information:

(1) Information specifying the reason the application is being submitted.

(A) An application shall be submitted for the original appointment, change of name or address, change of ownership structure, or when adding a branch location.

(2) The business name, address and telephone number.

(3) The days and hours the business is open for business and the days the business is closed.

(4) The nature of the business.

(5) The applicant's Board of Equalization resale number (including a copy of the resale permit).

(6) The limited liability company or corporate number.

(7) An indication of how the business is structured.

(8) The name, residence address, telephone number, and driver license or identification card number of the owner, each partner, each of the corporation's principal officers, or all association representatives depending on the business structure.

(9) An indication as to whether the applicant, any partner, or corporate officer has ever been a Vessel Registration Agent for the state, has ever been a yacht and ship broker, or has ever been a Department of Motor Vehicles Occupational Licensee, and, if so, the license number and date of the license.

(10) An indication as to whether the applicant partner or officer has ever been convicted of any misdemeanor or felony offense including the dates of offense and court information.

(11) An explanation of the bankruptcy, including the date and court of jurisdiction, if the applicant, any partner or officer has ever declared bankruptcy.

(12) A certification that the information provided on the application is true and correct, and an agreement to comply with the department's requirements as set forth in the Agreement for Appointment as an Undocumented Vessel Registration Agent to Represent the California Department of Motor Vehicles, Form OL 54 (REV. 3/2003) page 2.

(A) The certification and agreement shall be dated and signed under penalty of perjury under the laws of the State of California by the sole proprietor, all individual partners of a co-partnership, or all principal officers of the corporation, depending on the business structure.

(B) When the business is a corporation, the application shall also include the corporate officer title of each of its principal officers.

NOTE: Authority cited: Sections 1651 and 9858, Vehicle Code. Reference: Sections 9858 and 9859, Vehicle Code.

HISTORY

1. New section filed 8-21-95; operative 9-20-95 (Register 95, No. 34).
2. Amendment filed 10-25-2004; operative 11-24-2004 (Register 2004, No. 44).

§ 190.34. Responsibilities of Undocumented Vessel Registration Agents.

(a) Each Undocumented Vessel Registration Agent shall agree to assume, as a condition of appointment, the following responsibilities:

- (1) Maintain an established place of business.
- (2) Be engaged in an activity directly related to boating.
- (3) Display a means of identification which will clearly indicate to the public the name of the business. Each separate branch of the business which will be authorized to conduct registration of vessels shall display such means of identification.

(4) Maintain all supplies at the business location described on the Application for Appointment and Agreement as a Non-Public Undocumented Vessel Registration Agent, Form OL 54 (REV. 3/2003).

(5) Make available for review all accountable vessel registration items upon demand by an authorized department employee. Accountable vessel registration items shall include any item bearing a serial number and having a value attached to it.

(6) Notify the Department of Motor Vehicles, Occupational Licensing Unit, P.O. Box 932342, Sacramento, CA 94232-3420, in writing no later than the first business day following the event of any of the following:

(A) Sale of business or change of terms in the agreement for appointment.

(B) Change of business structure, including the addition or deletion of partners or corporate officers.

(C) Change of business name or address.

(D) Adding or deleting a branch location.

(E) Lost or stolen accountable vessel registration items.

(7) Upon sale or termination of the business, all accountable vessel registration supplies, applications, and fees shall be forwarded to the department no later than the first business day following the sale or termination.

NOTE: Authority cited: Sections 1651 and 9858, Vehicle Code. Reference: Sections 9858 and 9859, Vehicle Code.

HISTORY

1. New section filed 8-21-95; operative 9-20-95 (Register 95, No. 34).
2. Amendment of subsection (a)(4) filed 10-25-2004; operative 11-24-2004 (Register 2004, No. 44).

§ 190.36. Duties of Undocumented Vessel Registration Agents.

(a) Each Undocumented Vessel Registration Agent shall agree to assume, as a condition of appointment, the following duties:

(1) Accept applications and fees for registration and transfer of vessels and issue Permanent Vessel Numbers, Temporary Certificates of Number, and vessel stickers to applicants.

(2) Forward a report every seven days listing all vessel registration transactions received during the previous seven days, accompanied by each application listed on the report and a single check or money order for all fees received for the registration of a vessel, to the address designated by the department no later than the close of business on the date shown on the report.

(A) The report shall be prepared on the Transmittal Record of Vessel Agent Registration Applications, Form ADM 173-1 (10/94) provided by the department. Another department-approved version of this form with

a different revision date shall be acceptable if the content of the form is in substantial compliance with the requirements of this section.

(B) The Transmittal Record of Vessel Agent Registration Applications shall be completed in ink and shall include the following information: the business name, address, and telephone number; the agent's number; date submitted; the vessel's CF number, or, if a new vessel, the hull identification number or the last name of the registered owner; the amount of cash, check, or credit media collected; the number of the sticker issued; miscellaneous receipts issued for transactions such as transfers, duplicates, etc.; an indication of whether a credit or refund is desired; an indication of the preferred delivery method; the total number of items by type submitted with the transmittal bundle; an authorized signature; and, the printed name of the person signing the report.

(C) All accountable items issued shall be listed on the transmittal in numerical order.

(D) Each registration transaction processed shall be entered on the transmittal immediately after the receipt has been written.

(E) Three copies of the transmittal shall be sent weekly to the department, and the agent shall retain a fourth copy.

(F) A Transmittal of Vessel Agent Registration Applications shall be submitted indicating, "No transactions during week of xx/xx/xx" when no transactions have occurred during the week.

(3) Process the types of vessel registration transactions indicated on the Agreement for Appointment as an Undocumented Vessel Registration Agency to Represent the California Department of Motor Vehicles, Form OL 54 (REV. 3/2003) page 2.

(A) These transactions shall include either or both: original vessel registration for new boats; or, vessel ownership transfer applications for used boats, registration renewals and applications for duplicate certificates and stickers.

(B) Agents shall register only those vessels they sell.

(4) Complete and provide a Quarterly Physical Inventory of Accountable Items, Form BOAT 124-1 (12/94) by the fifth day of January, April, July, and October. Another department-approved version of this form with a different revision date shall be acceptable if the content of the form is in substantial compliance with the requirements of this section.

(A) The Quarterly Physical Inventory of Accountable Items shall include a listing of receipts for new and used boats, as evidenced by the beginning and ending number of Certificates of Number and Temporary Certificates of Numbers issued, and the number of each on hand; a listing of the number of vessel stickers issued, as evidenced by the beginning and ending number of stickers issued and the number on hand, a listing of void receipts, and an authorized signature.

NOTE: Authority cited: Sections 1651 and 9858, Vehicle Code. Reference: Sections 9858 and 9859, Vehicle Code.

HISTORY

1. New section filed 8-21-95; operative 9-20-95 (Register 95, No. 34).
2. Amendment of subsections (a)(2)(A) and (a)(3) filed 10-25-2004; operative 11-24-2004 (Register 2004, No. 44).

§ 190.38. Agreement for Appointment as an Undocumented Vessel Registration Agent.

(a) Each applicant for appointment as an Undocumented Vessel Registration Agent shall complete an Agreement for Appointment as an Undocumented Vessel Registration Agency to Represent the California Department of Motor Vehicles, Form OL 54 (REV. 3/2003) page 2 on which the owner, all partners of a co-partnership, or all principal officers of a corporation, agree to assume the duties and responsibilities which are outlined in the agreement and reflect the requirements specified in the Vehicle Code and in regulation. The signature of the applicant on page 1 of this form shall serve as acknowledgement of this agreement.

(1) Another department-approved version of this form with a different revision date shall be acceptable if the content of the form is in substantial compliance with the requirements of this section.

NOTE: Authority cited: Sections 1651 and 9858, Vehicle Code. Reference: Sections 9858, 9858.1 and 9859, Vehicle Code.

HISTORY

1. New section filed 8-21-95; operative 9-20-95 (Register 95, No. 34).

2. Amendment of subsection (a) filed 10-25-2004; operative 11-24-2004 (Register 2004, No. 44).

§ 191.00. Non-Motorized Surfboard-Like Vessels Exempted Under Vehicle Code Section 9873(e).

Non-motorized surfboard-like vessels over 8 feet in length, propelled solely by sail, and with a mast which is required to be held upright by the operator in order to sail are exempt from the numbering requirements of Vehicle Code Section 9850.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9873, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 301.00 to section 191.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 192.00. Proof Documents Re Lien Sale Vessels.

All applications for the transfer of title of an undocumented vessel after a lien sale of such vessel under Article 4 (commencing with Section 500) of the Harbors and Navigation Code shall be accompanied by proof of the possessory character of the lien so that the department may be satisfied of the genuineness and regularity of the transfer pursuant to Vehicle Code Section 9915(b). For the purposes of such proof, "storage" means services rendered in the safekeeping of a vessel by a person not the owner who has a right of possession together with a duty to care for the vessel and may include mooring, berthage, wharfing and anchorage and rental of vessel trailer parking space done in the process of the storage of a vessel. "Storage" does not include the rental of mooring space or of vessel trailer parking space when there is no duty to keep the vessel safe when occupying such space. Costs of repair means all material and labor of a repairman when a vessel is put in his keeping for such purposes and may include costs of mooring, berthage, wharfing and anchorage and rental of vessel trailer parking space if such services are included in the repairman's cost of handling a vessel for the purpose of repairing it.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9915, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 302.00 to section 192.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 200.01. Vehicle Engine or Motor.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 4161, 4163 and 9257, Vehicle Code.

HISTORY

1. New NOTE filed 7-7-82; effective thirtieth day thereafter (Register 82, No. 28).
2. Amendment filed 4-11-85; effective thirtieth day thereafter (Register 85, No. 15).
3. Change without regulatory effect renumbering former section 200.01 to section 150.01 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 3.3. Special Plates

§ 201.00. Use of Special Plates Issued to a Dealer, Manufacturer, Remanufacturer, or Distributor.

(a) Special plates referenced in this section may only be used on vehicles that a dealer, manufacturer, remanufacturer, or distributor owns or lawfully possesses.

(b) The following individuals may operate a vehicle with special plates for any purpose:

(1) An individual who is the sole owner, a general partner, a manager of a limited liability company, or a corporate officer or director of a dealer, manufacturer, remanufacturer, or distributor, provided that individual is actively engaged in the management and control of the business operations of the dealer, manufacturer, remanufacturer, or distributor;

(2) A general manager, or business manager, or sales manager who is actively engaged in the management and control of the business operations of the dealer, manufacturer, remanufacturer, or distributor when no other individual meets the criteria in (1) above;

(3) An individual employed by a manufacturer or distributor and licensed as a representative.

(c) Any licensed driver may operate a vehicle with special plates for any purpose if an individual identified in section (b) is also in the vehicle.

(1) An unaccompanied licensed driver, who regularly resides in the immediate household of an individual identified in section (b), may operate a vehicle with special plates solely to pick up or drop off that individual.

(d) A licensed driver who is an employee of a dealer, manufacturer, remanufacturer or distributor may drive a vehicle with special plates when that employee is acting within the course and scope of his or her employment.

(e) Any licensed driver may operate a vehicle with dealer, manufacturer, remanufacturer, or distributor special plates for special event purposes if the operator carries a letter of authorization from the licensee identifying the vehicle, duration, and location of operation, and person(s) authorized to operate the vehicle.

(f) Any licensed driver, who is a prospective buyer or lessee, may test drive a vehicle with special plates for up to seven days.

(1) A salesperson is not required to be present.

(2) If a salesperson is not present, the operator must carry a letter of authorization from the licensee identifying the vehicle, duration, and person(s) authorized to operate the vehicle.

(g) Employees of a commercial vehicle dealer, manufacturer, remanufacturer, or distributor who must operate a commercial vehicle in the course of their employment, may take a commercial drive test in a commercial vehicle displaying dealer, manufacturer, remanufacturer, or distributor special plates.

(h) A trailer, displaying special plates, may be towed by a vehicle with Vehicle Code authority to operate on the highways.

(i) Any use of special plates issued to a dealer, manufacturer, remanufacturer, or distributor except as specified is prohibited.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11714, 11715 and 11716, Vehicle Code.

HISTORY

1. Amendment of article heading and new section filed 6-8-2000; operative 7-8-2000 (Register 2000, No. 23). For prior history of article 3.3, see Register 93, No. 30 and Register 96, No. 35.

Article 3.4. Hearing Procedure Seizure of Vehicles

§ 212.04. Conduct of the Hearing.

(a) The department shall fix a time and place for the hearing as early as may be arranged in the county where the person requesting the hearing resides, and shall give ten (10) days' notice of the hearing to the registered owner, the legal owner, and to any other person known to be claiming an interest in the vehicle, except that the hearing may be set for a different place with the concurrence of the person requesting the hearing and the period of notice may be waived.

(b) The hearing shall be conducted by the Registrar or by a referee appointed by him from officers or employees of the department.

(c) The entire proceedings shall be recorded by a phonographic recorder or otherwise perpetuated by mechanical, electronic, or other means capable of reproduction or transcription.

(d) All evidence shall be taken only on oath or affirmation.

(e) Each party shall have these rights: to call and examine witnesses; to introduce exhibits; to cross-examine opposing witnesses on any mat-

ter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which party first called him to testify; and to rebut the evidence against him. The registered owner may be called and examined as if under cross-examination.

(f) Each party upon written request made to another party, prior to the hearing and within thirty (30) days after service by the department of the notice of lien, is entitled to

(1) obtain the names and addresses of witnesses known to the other party, intended to be called to testify at the hearing, and

(2) inspect and make a copy of all writings to include statements of witnesses, investigative reports, traffic or parking citations or any other thing which is relevant and which would be admissible in evidence at the hearing; this right does not extend to any writing or thing which is privileged from disclosure by law or otherwise made confidential or protected as attorney's work product.

(g) Before the hearing is commenced, the department shall issue subpoenas and subpoenas duces tecum at the request of any party for attendance or production of documents at the hearing, in accordance with Section 11510 of the Administrative Procedure Act.

(h) The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence upon which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil action. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence but shall not be sufficient in itself to support a finding unless it be admissible over objection in civil actions. The rules of privilege shall be effective to the extent that they are otherwise required by statute to be recognized at the hearing, and irrelevant and unduly repetitious evidence shall be excluded.

(i) In reaching a decision, official notice may be taken, either before or after submission of the case for decision, of any fact which may be judicially noticed by the courts of this state. Parties present at the hearing shall be informed of the matters to be noticed, and those matters shall be noted in the record, referred to therein, or appended thereto. Any such party shall be given a reasonable opportunity on request to refute the officially noticed matters by evidence or by written or oral presentation of authority, the manner of such representation to be determined by the department.

(j) Upon the conclusions of the hearing, the referee shall make findings on the matters under consideration and shall prepare and submit recommendations to the Registrar.

(k) The Registrar, or an employee designated by the Registrar to act on his behalf, following the hearing, upon review of the record, evidence, and the findings, shall render his decision concerning the validity of the imposition of the fees or penalties. The decision of the Registrar or his designee shall be effective on notice to the registered and legal owners.

NOTE: Authority cited: Section 1651, Vehicle Code; and Sections 11180, 11181 and 11182, Government Code. Reference: Section 9801, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 310.04 to section 212.04 and amending and repositioning article 3.4 heading filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 3.5. Motor Carriers Permit Program

§ 220.00. Definitions.

As used in this article, the following definitions shall apply:

(a) "Administrative costs" shall be defined as attorney fees and support staff costs incurred in determining legal entitlement to all or a portion of the cash deposit(s) or savings account(s) held in assignment(s) pursuant to Vehicle Code section 34631(c).

(b) An "applicant" shall be defined as a motor carrier applying as an original applicant for or a current holder of a motor carrier permit.

(c) An "assignor" shall be defined as a motor carrier who is granted a certificate of self-insurance.

(d) The "Deputy Director" shall be defined as the deputy director of the Department of Motor Vehicles for the State of California, who administers the Motor Carrier Permit Program.

(e) The "Director" shall be defined as the Director of Motor Vehicles for the State of California and any other department employee designated to act on behalf of the Director.

(f) A "fictitious name" as used in Vehicle Code section 34621(b)(1) shall be defined as a DBA (Doing Business As) and/or a trade name.

(g) "Licensed to write insurance in this state" as stated in Vehicle Code section 34631 shall be defined as an "admitted insurer" as stated in Insurance Code section 700.

(h) A "motor carrier" shall be defined as a business entity who operates vehicles in California and participates or qualifies to participate in the Motor Carrier Permit program.

(i) A "permit term" shall be defined as twelve (12) months starting on the first day of the month that the original application was received and ending on the last day of the following 12th month. The permit term shall establish the annual renewal date.

(j) For the purpose of this article, the terms "Motor Carrier of Property Permit" and "Motor Carrier Permit" shall be used interchangeably.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 34621 and 34631, Vehicle Code; and Section 700, Insurance Code.

HISTORY

1. New article 3.5 (sections 220.00–221.12) and section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 85, No. 15.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New article 3.5 (sections 220.00–221.12) and section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including relettering of subsections, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment of article heading and section filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 220.02. Application for a Motor Carrier Permit.

(a) An applicant for an original Motor Carrier Permit shall complete, sign and certify, under penalty of perjury under the laws of the State of California, an Application for Motor Carrier Permit form [DMV 706 MCP (REV. 4/2003)], which is hereby incorporated by reference.

(b) A change of motor carrier ownership status shall require a completed Application for Motor Carrier Permit form [DMV 706 MCP (REV. 4/2003)], signed under penalty of perjury under the laws of the State of California. This change shall be processed as an original application.

(1) A change of a motor carrier's Employer Identification Number (EIN) requires a new application.

(c) A change of motor carrier name shall require a completed Notice of Change form [DMV 152 MCP (REV. 8/2002)] signed under penalty of perjury under the laws of the State of California. The Notice of Change form is hereby incorporated by reference.

(d) An addition or deletion of "DBA" name or trade name shall require a completed and signed Notice of Change form [DMV 152 MCP (REV. 8/2002)].

(e) A change of motor carrier physical or mailing address shall require a completed and signed Notice of Change form [DMV 152 MCP (REV. 8/2002)] indicating a change of address within ten (10) days of the change.

(f) A list of vehicles shall be submitted with an original, reinstatement and renewal application and contain the full Vehicle Identification Number (VIN), license plate number and state of plate issuance for all motor vehicles the motor carrier intends to use during the permit period.

(g) The department shall notify an applicant in writing within ten (10) days of receipt of the application, that it is complete or deficient.

(1) An application is considered complete when the applicable requirements of the Motor Carriers of Property Permit Act and these regulations have been fulfilled.

(A) With the determination that an application is complete, a permit shall be issued.

(2) An application is considered deficient when the applicable requirements of the Motor Carriers of Property Permit Act and these regulations are not fulfilled.

(A) With the determination that an application is deficient, the department shall identify the specific requirement(s) needed to complete the application.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 1652, 1653, 34621 and 34632, Vehicle Code; and Section 15376, Government Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment of section heading and section filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 220.04. Expiration and Renewal of a Motor Carrier Permit.

(a) Motor Carrier of Property Permit Renewal Application form [DMV 134 MCP (REV. 1/2004)], which is hereby incorporated by reference, shall be completed and submitted to the department, prior to the date of expiration, when a motor carrier applies for renewal of a Motor Carrier Permit.

(b) The permit term shall remain the same unless the permit is withdrawn pursuant to Section 220.18 of these regulations or is suspended or revoked pursuant to California Vehicle Code sections 34505.6, 34623, or 34624(d).

(c) A permit term shall be limited to 12 months.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 1652, 34620 and 34621, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section heading and section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).
6. Amendment of subsection (a) filed 2-22-2005; operative 3-24-2005 (Register 2005, No. 8).

§ 220.05. Manner of Submission of Renewal Registration Transactions to the Department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 4610, Vehicle Code; and Section 12155, Insurance Code.

HISTORY

1. New NOTE filed 7-7-82; effective thirtieth day thereafter (Register 82, No. 28).
2. Amendment filed 4-11-85; effective thirtieth day thereafter (Register 85, No. 15).
3. Change without regulatory effect renumbering former section 220.05 to section 201.05 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 220.06. Motor Carrier Financial Responsibility.

(a) Acceptable proof of financial responsibility, pursuant to Vehicle Code section 34630, shall be submitted to the department in the form of a Certificate of Insurance, [DMV 65 MCP (REV. 7/2002)] pursuant to Vehicle Code section 34631(a); or a surety bond, [DMV 55 MCP (REV. 10/2003)] pursuant to Vehicle Code Section 34631(b); or a Certificate of Self-Insurance, [DMV 131 MCP (NEW 4/98)] pursuant to Vehicle Code Section 34631(c), which are hereby incorporated by reference.

(1) The Certificate of Insurance [DMV 65 MCP (REV. 7/2002)] shall be submitted to the department by the motor carrier's insurance provider.

(2) Proof of financial responsibility pursuant to Division 7, Vehicle Code section 16000 et seq., shall not be substituted for the proof required for a Motor Carrier Permit.

(3) The name of the motor carrier on the Certificate of Insurance, surety bond or Self-Insurance Certificate shall match the name of the motor carrier entered in Part 2 of an Application for Motor Carrier Permit form [DMV 706 MCP, (REV. 4/2003)].

(b) An Insurance Policy Endorsement, [DMV 67 MCP (REV. 6/2001)], which is hereby incorporated by reference, amending the insurance policy to comply with insurance requirements imposed by the Motor Carriers of Property Permit Act, commencing with Vehicle Code section 34630, shall be attached to and made part of, the insurance policy insuring the motor carrier.

(1) The Insurance Policy Endorsement, [DMV 67 MCP (REV. 6/2001)] shall be retained by the insurer and a copy provided to the insured motor carrier.

(2) A duplicate and all related documentation shall be provided to the department upon request.

(c) Written notice of cancellation of the Certificate of Insurance, required under Vehicle Code section 34630(b), shall be submitted by the insurer to the department on a Notice of Cancellation of Insurance, [DMV 66 MCP (REV. 6/2001)], which is hereby incorporated by reference.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 1652, 34630, 34631 and 34631.5, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 220.08. Verification of Vehicles Used by Motor Carriers.

(a) The annual list of motor vehicles, pursuant to Vehicle Code section 34632, shall be submitted to the department upon original application, renewal or reinstatement of a Motor Carrier Permit. The list shall contain the full Vehicle Identification Number (VIN), license plate number and state of plate issuance for all motor vehicles used in transportation during the previous permit term. The requirement to furnish the department with an annual list shall be satisfied by submitting the annual list signed and certified under penalty of perjury under the laws of the State of California.

(b) Each motor vehicle operated under the Motor Carrier Permit for thirty-one (31) days or longer shall be included in the list of motor vehicles submitted in accordance with Vehicle Code section 34632, upon renewal or reinstatement.

(1) This list shall include vehicles owned, rented, leased, or used on a seasonal or independent contract basis under the authority of the Motor Carrier Permit.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Section 34632, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of subsection (a), transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 220.10. Motor Carriers' Employees.

(a) The annual report of employees and owner-operator drivers, pursuant to Vehicle Code Section 34633, shall be submitted to the department by a Motor Carrier with a carrier fleet of 20 or more commercial motor vehicles, upon renewal or reinstatement of a Motor Carrier Permit. The report shall contain the total number of employees and owner-operator drivers, employee classifications (job titles), and compensation (annual gross salary).

(b) The requirement to file a report under oath shall be satisfied by submitting the list in the form of a sworn statement signed under the penalty of perjury under the laws of the State of California.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 34633 and 34640, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 30.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).

§ 220.12. Owner-Operators.

(a) A motor carrier may submit a written statement to the department, within fifteen (15) calendar days of the date of service of the order of suspension, showing why good cause exists not to suspend the Motor Carrier Permit pursuant to Section 34624(d) of the Vehicle Code.

(b) Good cause pursuant to Vehicle Code section 34624(d) shall be as follows:

(1) The motor vehicle(s) listed under an owner-operator's Motor Carrier Permit shall be operated by family members and other drivers who are enrolled in the department's Employer Pull Notice system, pursuant to Vehicle Code section 1808.1(a) and (e). This requirement shall be fulfilled prior to operating any motor vehicle defined in Vehicle Code section 1808.1(k) and operated under the owner-operator's Motor Carrier Permit.

(2) The motor vehicle(s) listed under an owner-operator's Motor Carrier Permit shall be operated by casual drivers, as defined in Vehicle Code section 1808.1(j), and under the owner-operator's Motor Carrier Permit.

(A) The owner-operator shall have possession of the casual driver's current public record prior to operating any motor vehicle identified in Vehicle Code section 1808.1(k) and operated under the owner-operator's Motor Carrier Permit.

(c) An owner-operator whose Motor Carrier Permit has been suspended pursuant to Vehicle Code section 34624(d) shall not be entitled to a hearing to show why the permit should not be suspended.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 1808.1 and 34624, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98

or emergency language will be repealed by operation of law on the following day.

2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section and NOTE, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).
6. Amendment of subsection (b)(1) filed 2-22-2005; operative 3-24-2005 (Register 2005, No. 8).

§ 220.14. Reinstatement Fee.

There shall be one reinstatement fee due after a single, overlapping or concurrent suspension period. Payment may be made upon receipt of the notice of suspension. Checks or money orders shall be made payable to the Department of Motor Vehicles and mailed to the following address: Department of Motor Vehicles, Motor Carrier Permit Branch, Mail Station G875, P.O. Box 932370, Sacramento, CA 94232-3700.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Section 34623.5, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Renumbering of former section 220.14 to section 220.16 and new section 220.14 filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 220.16. Workers' Compensation.

(a) Acceptable evidence of compliance with Workers' Compensation laws, pursuant to Vehicle Code section 34640(a)(1), shall be submitted to the department on a Certificate of Insurance form [DMV 65 MCP (REV. 7/2002)] or Workers' Compensation letter, [SCIF 10262 (REV. 5/01)] or [SCIF 10265 (no revision date)], which are hereby incorporated by reference or certification of consent to self-insure issued by the Director of Industrial Relations pursuant to Vehicle Code section 34640(a)(2).

(b) An applicant for a Motor Carrier Permit that does not employ any persons in the motor carrier operation shall certify on an Application for Motor Carrier Permit form [DMV 706 MCP (REV. 4/2003)], under penalty of perjury under the laws of the State of California, that as a motor carrier, no person is employed in any manner so as to become subject to California Workers' Compensation laws pursuant to Vehicle Code section 34640(a)(3).

(c) A motor carrier that becomes subject to California Workers' Compensation laws shall file with the department, within thirty (30) days, a certificate of workers' compensation coverage pursuant to Vehicle Code section 34640(a)(1), or certification of consent to self-insure issued by the Director of Industrial Relations pursuant to Vehicle Code section 34640(a)(2).

(d) Departmental notification of cancellation of insurance shall be on a Notice of Cancellation of Insurance form [DMV 66 MCP (REV. 6/2001)] or Workers' Compensation Notice of Cancellation letter [SCIF 19102 (NO REVISION)], which are hereby incorporated by reference.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 1652, 34621(b)(7) and 34640, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).

3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Renumbering of former section 220.16 to section 220.18 and renumbering and amendment of former section 220.14 to new section 220.16 filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 220.18. Voluntary Withdrawal.

(a) A motor carrier, who wishes to cease operations as a permitted motor carrier, prior to canceling or terminating liability insurance, shall submit a written request on a Request for Voluntary Withdrawal Motor Carriers of Property Permit form [DMV 716 MPC (REV. 6/2001)], which is hereby incorporated by reference.

(b) A refund of the fees for the next permit term shall only be issued when the vehicle will not be operated intrastate in California during the next permit term, and the term of the permit has not yet begun.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Section 34630(b), Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 220.16 to new section 220.18 filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 220.20. Seasonal Operations.

(a) A seasonal permit shall be issued for a period of no less than six (6) months and no more than eleven (11) months within an assigned twelve (12)-month permit term.

(1) The months may or may not be contiguous.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Section 7236(a)(3), Revenue and Taxation Code.

HISTORY

1. New section filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52). For prior history, see Register 77, No. 41.

CERTIFICATE OF SELF INSURANCE

§ 221.00. Requirements to Self-Insure.

Qualifications as a self-insurer shall include all of the following requirements:

(a) The applicant shall have more than twenty-five (25) motor vehicles registered in the name of the motor carrier on the Application for Motor Carrier Permit form [DMV 706 MCP (REV. 4/2003)].

(b) The applicant shall complete and submit to the department an assignment(s) of a cash deposit(s) or savings account(s) equal to the monetary amounts as specified in Vehicle Code section 34631.5, subdivision (a), paragraphs (1) and (2) and an additional \$5,000 to offset potential administrative costs along with the Assignment to the Department of Motor Vehicles [DMV 133 MCP, (REV. 8/2002)], which is hereby incorporated by reference, assigning the money to the department.

(c) The applicant shall have no unsatisfied final judgment(s) against the motor carrier name, the "Doing Business As" (DBA) name, or trade names listed on the Application for Motor Carrier Permit form [DMV 706 MCP (REV. 4/2003)] resulting from property damages and/or bodily injury (including death) caused by a motor vehicle accident.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Section 34630, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 221.02. Application to Self-Insure.

(a) An applicant requesting a Certificate of Self-Insurance [DMV 131 MCP (NEW 4/98)] shall complete, sign and certify under penalty of perjury under the laws of the State of California, an Application for a Certificate of Self-Insurance form [DMV 130 MCP (REV. 7/2002)], which is hereby incorporated by reference, to the department. The application shall be processed at no charge.

(b) The applicant shall indicate the level of financial responsibility requested and statutorily required for the type of commercial transportation operation(s) specified in Vehicle Code section 34631.5, subdivision (a), paragraphs (1) and (2).

(c) The department shall consider and may approve the Application for a Certificate of Self-Insurance in accordance with the provisions of Division 14.85 of the Vehicle Code and Sections 221.00 et seq. of Title 13, Division 1, Chapter 1 of the California Code of Regulations.

(d) The department shall notify an applicant in writing, within seven (7) days of receipt of an application, that it is complete or deficient.

(1) An application is considered complete when the applicable requirements of the Motor Carriers of Property Permit Act self-insurance statutes and these regulations have been fulfilled.

(A) With the determination that an application is complete, a certificate shall be issued.

(2) An application is considered deficient when the applicable requirements of the Motor Carrier of Property Permit Act self-insurance statutes and these regulations are not fulfilled.

(A) With the determination that an application is deficient, the department shall identify the specific requirement(s) needed to complete the application.

(e) An applicant shall respond in ten (10) days with supporting data requested by the department to determine initial eligibility as a self-insurer. Failure to respond may cause immediate cancellation of the application.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 34630, 34631 and 34631.5, Vehicle Code; and Section 15376, Government Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment of section heading and section filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 221.04. Assignment of Funds to the Department.

After approval, an applicant shall assign funds to the department in the manner described in this section.

(a) The applicant shall assign one or more cash deposits or savings accounts that accumulatively contain the monetary amounts specified in Vehicle Code section 34631.5, subdivision (a), paragraphs (1) and (2).

(b) The assignment of the monetary amount may be accepted on more than one assignment form, an Assignment for a Motor Carrier Certificate of Self-Insurance form [DMV 133 MCP (REV. 8/2002)].

(c) In addition to the statutorily required amount, the applicant shall deposit an additional \$5,000 to offset potential administrative costs. Administrative costs that exceed \$5,000 shall be paid out of the principal.

(d) An account shall be held in a bank(s) guaranteed by the Federal Deposit Insurance Corporation (FDIC); a savings association(s) guaranteed by the Savings Association Insurance Fund (SAIF); and/or a credit union(s) guaranteed by the National Credit Union Administration (NCUA). The financial institutions holding the funds assigned to the department shall have a physical office located in California.

(e) The applicant shall instruct the financial institution(s) to prepare and forward to the department an Assignment for a Motor Carrier Certificate of Self-Insurance, [DMV 133 MCP (REV. 8/2002)] assigning the above described funds to the department.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 34630 and 34631.5, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment of section heading and section filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 221.06. Issuance of the Certificate of Self-Insurance.

(a) After the application and assignment(s) are approved, the department shall issue a Certificate of Self-Insurance [DMV 131 MCP (NEW 4/98)], which shall contain an assigned number that serves as written evidence of self-insurance.

(b) The Certificate of Self-Insurance shall only serve as proof of financial responsibility under Vehicle Code section 34631.5, subdivision (a), paragraphs (1) and (2).

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Section 34630(b), Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 221.08. Cancellation of the Certificate of Self-Insurance.

(a) Cancellation of a Certificate of Self-Insurance [DMV 131 MCP (NEW 4/98)], which is hereby incorporated by reference, and self insurance status may be initiated by the department for the following:

(1) Failure to maintain the requirements for obtaining a certificate pursuant to Section 221.020 of Title 13, Division 1, Chapter 1 of the California Code of Regulations.

(2) Failure to submit data in ten (10) days that is requested by the department to investigate and determine ongoing eligibility.

(3) Failure to provide adequate financial responsibility or greater financial responsibility that may be required in the future as a result of a change in statute.

(b) The department retains the authority to cancel the Certificate of Self-Insurance and self insurance status if the motor carrier fails to provide adequate financial responsibility as required in Vehicle Code section 34630.

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Sections 34630 and 34631, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).

3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).

5. Amendment filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 221.10. Disbursement of Assignment.

(a) The assignment gives the Director the authority to disburse money from the principal and from the \$5,000 set aside for administrative costs.

(b) The money shall be disbursed for the following purposes:

(1) A final unsatisfied judgment against the assignor, to the limits set forth in Vehicle Code section 34631.5, subdivision (a), paragraphs (1) and (2), for damages to or destruction of property (other than the property being transported by the carrier), or bodily injury or death to any person arising from the use or operation of a motor vehicle under the Motor Carrier Permit.

(2) Administrative costs incurred by the department to determine legal entitlement to all or a portion of the cash deposit(s) or savings account(s). Costs that exceed \$5,000 shall be paid out of the principal.

(3) If the Director, the department, any of its officers or employees, or the State of California is a defendant in any action instituted to recover all or any part of the assigned account, or any action is instituted by the Director, the department, or the State of California to determine those entitled to any part of the account, the department shall be reimbursed for administrative costs from the account(s).

NOTE: Authority cited: Sections 1651 and 34604, Vehicle Code. Reference: Section 34630, Vehicle Code.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 8-17-98 order, including amendment of section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
5. Amendment of subsections (b)(1) and (b)(3) filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).

§ 221.12. Termination of Assignment.

(a) A request for termination submitted on a Request to Terminate Self Insurance form [DMV 132 MCP (REV. 3/2001)] shall be deemed a termination of the assignment of the cash deposit(s) or savings account(s) and self-insurance status. The termination shall be processed at no charge.

(b) The Director shall release the money held by the assignment to the assignor seven years after the termination of the Motor Carrier Permit; or when acceptable proof of financial responsibility pursuant to Vehicle Code section 34630 is submitted to the department in the form of a Certificate of Insurance, [DMV 65 MCP (REV. 7/2002)] or a surety bond, [DMV 55 MCP (REV. 10/2003)]; or receipt of an incomplete Application for Motor Carrier Permit form [DMV 706 MCP (REV. 4/2003)] with no further activity. The Director may utilize his/her discretion and release the assignment before the seven-year period is complete when he/she is satisfied that there are no outstanding claims and unsatisfied final judgments against the motor carrier or former motor carrier. A judge of a superior court may order the return of the money held by the assignment prior to the expiration upon evidence satisfactory to the judge that there are no outstanding claims against the money held by the assignment.

(c) The assignment shall be released when the Director orders the assigned account(s) returned.

HISTORY

1. New section filed 4-10-98 as an emergency; operative 4-10-98 (Register 98, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-10-98

- or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 98, No. 34).
 3. New section filed 8-17-98 as an emergency; operative 8-17-98 (Register 98, No. 34). A Certificate of Compliance must be transmitted to OAL by 12-15-98 or emergency language will be repealed by operation of law on the following day.
 4. Certificate of Compliance as to 8-17-98 order, including amendment of section heading and section, transmitted to OAL 10-16-98 and filed 12-2-98 (Register 98, No. 49).
 5. Amendment filed 12-23-2003; operative 1-22-2004 (Register 2003, No. 52).
 6. Amendment of subsection (b) filed 2-22-2005; operative 3-24-2005 (Register 2005, No. 8).

Article 3.6. Business Partner Automation Program

§ 225.00. Definitions.

The following definitions shall apply to this article.

(a) The term "BPA" shall identify the Business Partner Automation Program.

(b) The term "BPA contract" shall be defined as an agreement between the State and a qualified private industry partner as authorized under Section 1685 of the Vehicle Code.

(c) The term "accountable inventory" shall be defined as inventory identified by a unique serial number that is assigned by the department. These items are the department issued license plates and year stickers. These items are at all times the property of the department.

(d) The term "controlled inventory" shall be defined as inventory that may impact the registration of vehicles and collection of fees. These items are the department issued computer DMV95A paper and month stickers. These items are at all times the property of the department.

(e) The terms "first-line business partner," "first-line service provider," and "second-line business partner" shall be defined as set forth in Section 1685(b)(1)(A) through (C) of the Vehicle Code. A business partner that acts as a registration service is subject to Chapter 2.5, Division 5 of the Vehicle Code unless otherwise exempt.

(f) The term "interface" shall be defined as the electronic exchange of information.

(g) A "change in legal structure" shall be defined as a change between sole owner, partnership, corporation, Limited Liability Company or other legal entity.

(h) The term "owner" shall be defined as sole owner, partner (except for limited partner), Limited Liability Company members, or private and public corporation shareholders with 10% or more interest in the corporation.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New article 3.6 (sections 225.00-225.72) and section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New article 3.6 (sections 225.00-225.72) and section refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New article 3.6 (sections 225.00-225.72) and section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.03. Application Requirements.

A business partner applicant shall complete all requirements and submit to the BPA Program Administrator the following:

(a) A business partner applicant shall complete, sign and submit an application form for the appropriate type of business.

(1) The application form for a first-line business partner is a Business Partner Automation Application, First-Line Business Partner form, REG 4024 (REV. 4/2005).

(2) The application form for a first-line service provider is a Business Partner Automation Application, First-Line Service Provider form, REG 4023 (REV. 4/2005).

(3) The application form for a second-line business partner is a Business Partner Automation Application, Second-Line Business Partner form, REG 4025 (REV. 4/2005).

(4) The application forms identified in Section 225.03(a)(1) through (3) of these regulations are hereby incorporated by reference.

(5) Each business partner owner shall be identified on the application form submitted pursuant to Section 225.03(a)(1) through (3) of these regulations.

(b) A business partner applicant shall pay a non-refundable application fee of three hundred and twenty-four dollars (\$324) for its principal place of business and one hundred and thirty dollars (\$130) for each site added with the application. Checks shall be made payable to the Department of Motor Vehicles. This fee shall be paid at the time the application is submitted. An application for a BPA contract shall be submitted via US mail or private courier to the following address: Department of Motor Vehicles, BPA Program Administrator, 2415 1st Avenue, MS E383, Sacramento, CA 95818.

(1) An application shall be valid for one year from the date the application is first received by the department. An applicant who fails to fulfill the requirements identified in this section within one year from the date the application is first received by the department must reapply and pay a new application fee.

(c) A business partner applicant shall provide the information required by the Business Partner Automation Program Information Security Pre-Implementation Checklist for First-Line Business Partner and First-Line Service Provider form, INV5555A (NEW 11/2002) or the Business Partner Automation Program Information Security Pre-Implementation Checklist for Second-Line Business Partner form, INV 5555B (NEW 11/2002) and in the BPA contract.

(d) A business partner applicant shall submit a photocopy of the completed and signed Request for Live Scan Service form, DMV8016 (Rev. 11/2002) in accordance with Section 225.06 of these regulations and a Statement of Personal History form, REG 4019 (Rev. 11/2002) for each owner and each employee. The Statement of Personal History form is hereby incorporated by reference. A business partner applicant shall submit the documents required by this section for all owners, managers, and administrative staff responsible for the oversight of the program or who manage, administer, supervise, or monitor transactions, inventory, employees, or money; order or account for inventory; and employees who process vehicle registration transactions or work directly with customers.

(1) A business partner applicant located out-of-state or with BPA site locations out-of-state shall submit fingerprints for each owner identified on the application form and each of its employees on a Fingerprint Card form, ADM1316 (Rev. 1/97) or on a Request for Live Scan Service form in accordance with Section 225.06 of these regulations.

(A) The Fingerprint Card form shall be submitted to a local law enforcement agency. After the local law enforcement agency completes the form, processes for fingerprints, and signs and identifies itself, the form shall be returned to the business partner owner or employee, who will submit the form to the BPA Program Administrator.

(B) The completed original fingerprint forms, along with a copy of the receipt from the local law enforcement agency for processing the form, a photocopy of each person's valid driver license or identification card issued by the state where the site is located, a completed and signed Personal History Statement form for each person, and the fee as authorized in Penal Code section 11105(e) for the Department of Justice (DOJ) fingerprint checks for each set of fingerprints shall be sent by trackable mail. Checks shall be made payable to the Department of Motor Vehicles.

(e) Fingerprints shall not be required when the person to be fingerprinted is a business partner owner who is currently an occupational li-

cense of the department and whose fingerprints have already been submitted to the department.

(f) The business partner applicant shall submit evidence of compliance with Section 225.09 of these regulations.

(g) A business partner applicant shall complete, sign and submit the Information Security and Disclosure Statement (Firm) form EXEC201X (REV. 3/2003), which is hereby incorporated by reference.

(h) A business partner applicant that is a registration service, a dismantler or a vehicle dealer licensed by the department shall submit a copy of the Occupational License form, OL 39 (REV. 7/2004) form as evidence of a valid occupational license. The form is hereby incorporated by reference.

(i) A business partner with BPA site locations out-of-state shall maintain an office in the State of California or designate a registered agent within the State of California for service of process.

(1) The identification of a registered agent within the State of California that is available for service of process shall be provided on an application form identified in Section 225.03(a)(1) through (3) of these regulations.

(j) The department will review a submitted application package and determine whether or not the application package is complete within thirty (30) days of the receipt of the application package as required by Section 225.03 of these regulations. After a determination has been made by the department; written notification shall be sent to the applicant inform the applicant that the application is complete and acceptable for filing or that the application is deficient and what specific information is required by the applicant. The department will review a complete application package and decide whether or not to enter into a BPA contract within ninety (90) days of receipt of the complete package.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Sections 1652, 1653 and 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendments refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency, including amendments to subsections (a)(3), (c) and (d); operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order, including amendment of subsection (g), transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
5. Amendment of subsections (a)(1)-(3), (b) and (d)(1)(B), new subsection (h) and subsection relettering filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

§ 225.06. Fingerprints.

(a) A business partner applicant shall submit fingerprints for business partner owners and employees located in California to a Live Scan facility for each person identified in Section 225.03(d) of these regulations. A copy of the Request for Live Scan Service form, DMV 8016 (Rev. 11/2001) shall be submitted for any and all persons being fingerprinted prior to participation in the BPA.

(1) The Request for Live Scan Service form shall contain the following:

- (A) The typed or printed true, full name of the person fingerprinted.
- (B) Any aliases used by the person fingerprinted.
- (C) The birth date of the person fingerprinted.
- (D) The birthplace of the person fingerprinted.
- (E) The sex, height, weight, eye color and hair color of the person fingerprinted.
- (F) The driver license or identification card number of the person fingerprinted and state of issue.
- (G) The social security number of the person fingerprinted.
- (H) The date the fingerprints are taken.

(I) The signature of the person taking the fingerprints.

(J) A statement that the Request for Live Scan Service form shall be for the purpose of determining approval to participate in the BPA.

(K) The home address and telephone number of the person fingerprinted.

(b) A business partner applicant shall submit fingerprints for business partner owners and employees located out-of-state for each person identified in Section 225.03(d) of these regulations to a Live Scan facility or to any local law enforcement agency. A Fingerprint Card form, ADM1316 (Rev. 1/97) shall be submitted for the person being fingerprinted prior to participation in the BPA.

(1) The Fingerprint Card form shall contain the following:

- (A) The true, full name of the person fingerprinted.
- (B) The signature of the person fingerprinted.
- (C) The date the person is fingerprinted.
- (D) The signature of the official at the local law enforcement agency taking the fingerprints.
- (E) The name and address of the law enforcement agency performing the fingerprinting.

(F) Aliases (AKA) of the person fingerprinted.

(G) The driver license or state issued identification card number of the person fingerprinted.

(H) The sex, height, weight, eye color and hair color of the person fingerprinted.

(I) The birthplace of the person fingerprinted.

(J) The date of birth of the person fingerprinted.

(K) The social security number of the person fingerprinted.

(L) On the reverse side, the "Occupational Licensing Branch" box and "Other" box shall be checked and the notation "BPA" added to explain why the "Other" box is checked.

(M) The name of the business partner that is owned by or employs the person fingerprinted.

(N) The street address and city of the business partner that is owned by or employs the person fingerprinted.

(O) The position (title) in the business of the person fingerprinted.

(P) The street address and city of the person fingerprinted.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of subsection (a) refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.09. Financial Security Requirements.

(a) Every applicant for issuance or renewal of a business partner permit shall submit the bond required by Vehicle Code section 1685(b)(2)(C) to the department on a Business Partner Automation Surety Bond form, REG 866 (Rev. 4/2005), which is hereby incorporated by reference.

(1) The surety bond shall be valid for the term of its BPA contract plus three (3) months.

(2) A cash deposit as provided in Section 995.710 of the Code of Civil Procedure shall be acceptable in lieu of the surety bond.

(b) The amount of financial security required shall be as follows:

(1) A first-line business partner shall maintain a bond in the amount of six hundred and fifty thousand dollars (\$650,000).

(2) A first-line service provider shall maintain a bond in the amount of one million dollars (\$1,000,000).

(3) A second-line business partner processing new vehicle reports of sale, vehicle transfer, vehicle license fee (VLF) refund, salvage, junk, or nonrepairable vehicle transactions or any combination thereof shall maintain a bond in the amount of fifty thousand dollars (\$50,000). A second-line business partner processing registration renewal transactions only shall maintain a bond in the amount of ten thousand dollars (\$10,000).

(c) A business partner shall hold the State of California and any political subdivision thereof or any of its officers, agents, or employees harmless for monetary losses caused by the business partner's misuse of the information obtained from the department or obtained from customers for transactions processed by the business partner and secured by the bond.

(d) A rider for the surety bond may be accepted when adding processing transaction(s) to the surety bond.

(e) A business partner shall pay to the department monies collected by the business partner and due to the department, including any transaction fee imposed in regulation or statute by the State under Vehicle Code section 1685.

(f) A business partner shall reimburse the State of California, or any political subdivision thereof, for any loss or damage that the State of California, or any political subdivision thereof, may suffer by reason of any act of the business partner, its agents or employees arising out of or related to the business partner's duties, functions or obligations as a business partner, in any amount up to the maximum amount secured under the bond, when any of the following conditions occur:

(1) Information obtained from the department or customers by false or misleading representations while performing the duties, functions and obligations of a business partner.

(2) Information obtained from the department and customers and used for any purpose other than specified in the regulations or BPA contract.

(3) Any other act resulting in monetary losses being suffered by the State of California, any political subdivision of the State of California, or any of its officers, agents or employees arising out of or related to the duties, functions and obligations of a business partner.

(g) A cash deposit shall be released by the department five (5) years after the business partner ceases to do business in the BPA program or when the contract and permit expires and is not renewed and the department is satisfied that there are no outstanding claims and unsatisfied final judgments against the business partner arising out of or related to the duties, functions or obligations as a business partner.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of section heading and section refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency, including amendment of subsection (a)(1), new subsection (b)(2) and subsection renumbering; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order, including amendment of subsections (a)(1) and (a)(3) and new subsections (c)-(e)(3), transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
5. Amendment filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

§ 225.12. Business Partner Contract.

(a) A business partner applicant shall sign the BPA contract prepared on a State of California, Standard Agreement form, STD213 (NEW 2/98) and executed in accordance with the Department of General Services requirements and the State Contracting Manual.

(b) A BPA contract shall be in effect for thirty-six (36) months. A renewal application and new BPA contract shall be required for each subse-

quent permit. The renewal application process may be started one hundred and twenty (120) days before the BPA contract and permit expire.

(c) Should any provision of the BPA contract, statute or regulations be deemed illegal or unenforceable, all remaining provisions of the BPA contract, statutes, and regulations shall remain in effect.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Sections 1653 and 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of subsections (b) and (c) refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
5. Amendment of subsection (b) filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

§ 225.15. BPA Permit Authority.

(a) No person shall act as a business partner who is not a party to a currently valid BPA contract.

(b) A BPA permit shall be issued to each first-line business partner, first-line service provider and second-line business partner for each site location that the department has determined meets the qualifications to enter into a BPA contract. Upon the execution of the BPA contract, the department will issue a BPA permit. The BPA permit shall identify the business as an authorized business partner.

(c) The Authorized Business Partner Permit form, REG 4027 (Rev. 6/2002) shall be displayed within view of the business partner's customers.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Sections 1652, 1653 and 1685, Vehicle Code; and 15376, Government Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of subsection (c) refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.18. Cause for Refusal to Enter into a Contract and Issue a Permit.

(a) The failure of an applicant to establish its honesty, integrity, good character and reputation to the satisfaction of the department is good cause for the department to refuse to enter into a BPA contract with such applicant.

(b) The failure of an applicant to establish the honesty, integrity, good character and reputation of any of its owners or employees to the satisfaction of the department is good cause for the department to refuse to enter into a BPA contract with such applicant.

(c) The information provided on a Statement of Personal History form, REG 4019 (Rev. 11/2002), the message(s) from DOJ in response to a fingerprint check and/or other information obtained by the department may be the basis for approval or disapproval of a business partner, business partner owner(s) or employee(s) in meeting the standards stated in Section 1685(b)(2)(B) of the Vehicle Code to participate in the BPA.

(d) There is good cause for the department to refuse to enter into a BPA contract with a business partner applicant if the applicant, one of its owners or employees:

(1) Has been convicted of a felony or a crime, or committed an act or engaged in conduct involving moral turpitude that is substantially related to the function of a BPA business partner.

(2) Is or has been the holder of an occupational license issued by the department that has been suspended or revoked.

(3) Is or has been a managerial employee of an occupational licensee licensed by the department that has been suspended or revoked.

(4) Is or has been a commercial requestor or one of its owners that has been suspended or revoked.

(5) Has failed to comply with their BPA contract or failed to complete any of the audit requirements of Section 225.63 of these regulations.

(6) Has used a false name, made any false statement, or concealed any material fact in any BPA application or statement of personal history.

(7) Has displayed, caused or permitted a sign, mark or advertisement, or used a "Doing Business As" (DBA) in violation of Section 25 of the Vehicle Code.

(8) Has permitted or engaged in fraudulent practices or acts, with reference to clients, members of the public or the department.

(9) Has committed or was responsible for any other act, occurrence, or event in California or any foreign jurisdiction that provides cause for refusal to issue a permit.

(10) Has failed to comply with Section 1685, of the Vehicle Code; Division 5, (commencing with Section 11100) of the Vehicle Code, has violated Article 3, commencing with Section 1800, Chapter 1, Division 2 of the Vehicle Code or any regulation adopted under these statutes.

(11) Was a departmental employee dismissed by the department for cause related to honesty, integrity, good character and reputation of the person dismissed by the department within the last ten (10) years.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Sections 1653 and 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of subsections (c) and (d)(10) refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency, including amendment of subsections (c) and (d)(11); operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
5. Amendment of subsections (c) and (d)(10) filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).
6. Amendment of subsection (c)(11) filed 7-9-2007; operative 8-8-2007 (Register 2007, No. 28).

§ 225.21. Review of Criminal History Information.

(a) In reaching a decision on approval or disapproval of a business partner owner or employee to participate in the BPA, the BPA Program Administrator or a designee may review and consider the criminal history information provided by the California Attorney General pursuant to Section 11105(b)(9) of the Penal Code. This information may be used as part of the department's process in reaching a decision as it relates to Sections 225.00 et seq. of these regulations. The BPA Administrator or designee will consider the "Occupational Licensing and Disciplinary Guidelines" (Rev. 3/98) incorporated by reference in Section 440.04, Article 6.1, Chapter 1, Division 1, Title 13, of the California Code of Regulations in reaching a decision.

(1) Deviation from the Guidelines is appropriate when the Director or designee, in his or her sole discretion, determines that the facts warrant such a deviation, for example, the presence of mitigating factors, how long ago the conduct, action, or offense occurred, evidentiary problems and customer complaints.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of subsection (a) refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
5. Amendment of subsection (a) filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

§ 225.24. Failure to Meet Security Requirements.

The failure of an applicant or a business partner to comply with the information security requirements identified in Section 225.51 shall be good cause for the department to cancel, terminate or refuse to enter into a BPA contract with such business partner applicant.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.27. Transaction Access.

(a) The processing of vehicle registration and titling transactions and issuing of vehicle registration indicia and documents by a business partner requires access to the department's data communication system and the vehicle registration and BPA inventory databases through a network approved by the department.

(b) A business partner's interface access shall be compatible with the department's interface. Equipment and software to access and interface with the department's databases shall be the responsibility of the business partner.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Sections 1653 and 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.30. Electronic Fund Transfer.

(a) A business partner shall execute and comply with all terms and conditions of the Electronic Fund Transfer Authorization Agreement for Pre-Authorized Payments (09/04/02) (EFT contract) that provides for payment to the department of the fees collected by the business partner and due to the department.

(1) The first-line business partner shall authorize the department to initiate debit entries into the account identified in the EFT contract for payment of all fees collected for and due to the department.

(2) The first-line service provider shall authorize the department to initiate debit entries into the account identified in the EFT contract for payment of all fees collected by its second-line business partners for payment of all fees collected for and due to the department.

(3) When the department is notified by the financial institution of insufficient funds or closed account status, the department shall suspend interface access until payment of all fees and charges. Applicable bank service charges, in addition to a thirty dollar (\$30) (returned item) charge, shall be paid to the department.

(4) When the business partner is notified by the department of its insufficient funds or closed account status, the business partner shall make a same-day reimbursement by wire transfer. The reimbursement shall include the exact amount of the electronic billing, the thirty dollar (\$30) (returned item) charge, wire transfer processing fee charged to the department by the depository, and any applicable bank service charges.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendments refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.33. Use and Retention of Information.

(a) A business partner shall not use any information received from a customer or the department for any purpose other than the purposes authorized by this article.

(b) All information shall be treated as confidential or restricted information and shall retain the protections provided by Vehicle Code sections 1808.21, 1808.45, 1808.46 and 1808.47.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1798.26, Civil Code; and Sections 1685, 1808.21, 1808.45, 1808.46, 1808.47, 1810, 1810.7 and 1811, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.35. Renewal.

(a) A business partner renewal applicant shall complete and submit the following to the BPA Program Administrator prior to the expiration of the contract and permit term:

(1) A completed and signed Business Partner Automation Program Renewal Application form, REG 5056 (NEW 2/2005), which is hereby incorporated by reference.

(2) A completed and signed Information Security and Disclosure Statement (Firm) form, EXEC 201X (REV. 3/2003).

(3) A copy of the business partner's valid occupational license form, OL 39 (REV 7/2004), if applicable.

(4) A non-refundable renewal application fee of one hundred and ninety-eight dollars (\$198). Checks shall be made payable to the Department of Motor Vehicles.

(b) A renewal application shall be received within thirty (30) days of the expiration date on the BPA Permit form, REG 4027 (REV. 6/2002). Applications received after that date shall be required to comply with the original application requirements as specified in section 225.03 in these regulations. The Business partner shall not process any transactions after the expiration of the contract and permit without the completion and approval of the BPA renewal or original application.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

§ 225.36. Change of First-Line Service Provider.

(a) If a second-line business partner requests to change the first-line service provider identified in the BPA contract, the second-line business partner shall complete and submit to the BPA Program Administrator a request for a change in the BPA contract on the Business Partner Automation Program Service Provider Change form, REG 4022 (Rev. 11/2002), which is hereby incorporated by reference. The request shall be completed, signed and submitted to the BPA Program Administrator no less than twenty (20) days prior to any change of service provider.

(b) The department will process the requested change if the proposed first-line service provider is currently authorized by the department to act as a first-line service provider and the requirements of Section 225.36(a) of these regulations are met.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Sections 1652, 1653 and 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of subsection (a) refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency, including amendment of subsection (a); operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.39. Business Partner Responsibilities.

(a) First-line service providers shall be responsible for:

(1) Providing oversight for their second-line business partners to ensure they are in compliance with the terms and conditions of their BPA contracts.

(2) Ensuring that their prospective second-line business partners submit all application requirements pursuant to Section 225.03 of these regulations.

(3) Ordering and distributing inventory for their second-line business partners.

(4) Establishing an automated inventory tracking and assignment system to track accountable inventory shipped to the first-line service provider or their second-line business partner. The automated inventory tracking and assignment system shall be capable of recording the date received, status, and location of all accountable inventory.

(5) Tracking and monitoring the issuance of accountable and controlled inventory assigned to their second-line business partners.

(6) Ensuring that none of their second-line business partners have more than a three (3) month supply of inventory in their possession at any time.

(7) Submitting comprehensive quarterly physical inventory reports for their second-line business partners on a "Physical Inventory Non-DMV Entities" form, ADM 175A (Rev. 2/2000).

(8) Establishing security awareness and education programs and measures to ensure that all of their second-line business partners are aware of the first-line service provider's procedures for protecting the confidentiality of records.

(9) Ensuring that all of their second-line business partners have implemented the physical security required in this article and by the BPA contract to prevent and discourage inadvertent or deliberate alteration, disclosure, destruction, loss, misuse, or theft of DMV records, proprietary assets, and accountable and controlled items in their possession.

(10) Controlling access to the department's vehicle registration and titling and inventory databases by use of an authentication credentialing system that shall identify, authenticate and authorize access for each individual user.

(11) Providing registration and titling training for their second-line business partners authorized to participate in the BPA program.

(12) Auditing and reconciling transactions processed by their second-line business partners.

(13) Submitting all transactions to the department within twenty (20) days of the date the transaction was processed.

(14) Ensuring that all of their second-line business partners comply with the advertising requirements identified in any agreement with the department.

(15) Submitting all fees collected for and due to the department.

(16) Ensuring that their second-line business partners only process the types of vehicle transactions authorized for each second-line business partner.

(b) Whenever the State examines, audits or investigates any second-line business partner, the second-line business partner shall pay, within thirty (30) days after receipt of a statement from the State, the reasonable costs incurred by the State for the performance of the examination, audit or investigation, including, but not limited to:

(1) The reasonable amount of the salary and/or other compensation paid to the persons making the examination, audit or investigation.

(2) The reasonable expenses for travel, meals and lodging of the persons making the examination, audit or investigation.

(3) The reasonable amount of any other expenses, including overhead.

(c) When the second-line business partner fails to pay the department for the examination, audit or investigation within the thirty (30) days as required in Section 225.39(b) of these regulations, the first-line service provider that provides the interface access to the department for the second-line business partner shall be billed by the department and have thirty (30) days from the billing date to pay for the examination, audit or investigation.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Sections 1652, 1653, and 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.

2. New section with amendment of section heading and section refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

5. Amendment of subsection (a)(7), new subsection (a)(16) and amendment of subsection (c) filed 7-9-2007; operative 8-8-2007 (Register 2007, No. 28).

§ 225.42. Business Partner Changes.

(a) A business partner shall notify the BPA Program Administrator within the timeframes identified for the changes listed in Sections 225.42(a)(1) through (7) of these regulations on a Business Partner Au-

tomation Program Application for Changes form, REG 4026 (Rev. 11/2002), which is hereby incorporated by reference. The completed and signed Business Partner Automation Program Application for Changes form shall be sent by US Mail or private courier to the Department of Motor Vehicles, BPA Program Administrator, 2415 1st Avenue, MS E383, Sacramento, CA 95818. The following changes shall be entered on the Business Partner Automation Program Application for Changes form:

(1) Closing a site, identified by the site identification number. The business partner shall notify the BPA Program Administrator no more than five (5) days after the closure of the site.

(2) Changing the business, corporate, or Limited Liability Company name. The business partner shall notify the BPA Program Administrator no more than twenty (20) days after the effective date of the name change.

(3) Adding a site. A nonrefundable processing fee of one hundred and seventy-five dollars (\$175) shall be submitted to the BPA Program Administrator with the Business Partner Automation Program Application for Changes form when a business partner adds a site after entering into a BPA contract.

(4) Changing the address of a principal place of business or site. The business partner shall notify the BPA Program Administrator no less than twenty (20) days prior to the address change.

(5) Adding an employee. A business partner shall not permit an employee to access DMV inventory or data unless the business partner has complied with the requirements of Section 225.03(d) of these regulations and has received approval from the department under Section 225.18(c) for the employee to have access to DMV inventory and data.

(6) Deleting an employee. The business partner shall notify the BPA Program Administrator no more than five (5) days after deleting an employee from the BPA program. The business partner shall identify the reason for deleting an employee.

(A) A business partner who terminates an employee for cause related to honesty, integrity, good character and reputation, pursuant to Vehicle Code section 1865, shall notify the BPA Program Administrator no more than one (1) day after the termination date.

(B) A business partner who terminates an employee for cause unrelated to honesty, integrity, good character and reputation, pursuant to Vehicle Code section 1865, shall notify the BPA Program Administrator within five (5) day after the termination date.

(7) Changing controlling director(s) and/or officer(s); changing member(s) of a Limited Liability Company; changing management and/or supervising BPA personnel; or changing partner(s) or stockholder(s). The business partner shall notify the BPA Program Administrator no more than twenty (20) days after the effective date of the change.

(b) A business partner shall notify the BPA Program Administrator in a signed and written notification on business partner letterhead and sent by facsimile, US mail, or private courier at least twenty (20) days prior to the effective date of the following changes:

(1) Change of "Doing Business As" (DBA) name.

(2) Change of mailing address.

(c) A business partner shall notify the BPA Program Administrator in a signed and written notification on business partner letterhead and sent by facsimile, US mail, or private courier no more than five (5) days after the effective date of the following changes:

(1) Change of operations contact person.

(2) Change of registered agent for service of process.

(d) A business partner shall notify the BPA Program Administrator in a signed and written notification on business partner letterhead and sent by facsimile, US mail, or private courier at least sixty (60) days prior to the effective date of a change of the account number identified pursuant to Section 225.30 of these regulations.

(1) A change of the account number shall require a new EFT contract pursuant to Section 225.30 of these regulations.

(e) The business partner shall notify the BPA Program Administrator in a signed and written notification on business partner letterhead and sent by facsimile, US mail, or private courier within seven (7) days of a change of telephone number.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Sections 1652, 1653 and 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendments refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency, including amendment of subsections (a) and (a)(6)(A) and new subsection (a)(6)(B); operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Editorial correction of subsection (a)(6) (Register 2003, No. 33).
5. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
6. Amendment of subsection (a) filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

§ 225.45. Customer Fees.

(a) A business partner shall complete a Business Partner Automation Disclaimer form, REG 4020 (Rev. 1/2004) for each DMV transaction when a customer fee is charged.

EXCEPTIONS: (1) A business partner completing a conditional sales contract or lease agreement pursuant to Civil Code section 2982, 2982.5 or 2985.8 may disclose the amount of any optional Business Partnership Automation program fee to process transactions identified in Section 225.45(b)(1) through (3) of these regulations using the sales contract or lease agreement in place of the Business Partner Automation Disclaimer form. (2) A business partner acting as a salvage pool, as specified in Vehicle Code Section 543, shall be exempt from completing the form. (3) A business partner acting as a licensed registration service, as specified in Vehicle Code Section 505.2, may disclose the amount of any optional Business Partnership Automation program fee to process transactions identified in Section 225.45(b)(1) through (3) of these regulations using the methods required under Section 330.30, of Title 13 in the California Code of Regulations in place of the Business Partner Automation Disclaimer form.

(1) The business partner shall obtain the customer's signature on the form after the business partner enters on the form the fee amount that the business partner is charging to process the transaction.

(2) The business partner shall provide the completed original of the Business Partner Automation Disclaimer form to the customer, shall keep a completed copy, and shall send a copy to the department with the transaction documents. Voided copies of the form shall be retained with the completed copies kept by the business partner pursuant to Section 225.60 of these regulations.

(3) The Business Partner Automation Disclaimer form is hereby incorporated by reference.

(b) A customer may be charged the following maximum amounts for each type of transaction processed through to completion by a business partner.

(1) Licensed vehicle dealers and licensed dismantlers may charge up to \$25 for any transaction authorized under the Business Partnership Automation Program, in addition to any other fees authorized by statute.

(2) Licensed registration services may charge up to \$25 for a registration renewal, a substitute vehicle license plate and sticker, a substitute vehicle license plate sticker or new vehicle report of sale transaction, up to \$75 for a junk vehicle transaction, and up to \$75 for any other authorized transaction.

(3) Salvage pools may charge up to \$75 for salvage and non-repairable vehicle certificates.

(c) Business partners are not authorized to charge a fee for Vehicle License Fee refund transactions.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendments refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 3-3-2003 as an emergency, including amendment of subsection (a); operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 3-3-2003 order, including further amendment of section, transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

5. Amendment of subsection (a) filed 7-15-2004; operative 8-14-2004 (Register 2004, No. 29).

6. Amendment of subsections (a) and (b), new subsections (b)(1)-(3) and repealer and new subsection (c) filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

7. Amendment of subsection (b)(2) filed 7-9-2007; operative 8-8-2007 (Register 2007, No. 28).

§ 225.48. Transaction Fee.

(a) A first-line business partner and a first-line service provider shall pay a transaction fee to the department, pursuant to subdivision (d) of Vehicle Code section 1685, in the amount of three dollars (\$3) for each transaction processed through to completion. The transaction fee may be charged to the customer in addition to the customer fees authorized in Section 225.45 of these regulations.

EXCEPTION: Payment of a transaction fee for vehicle license fee refund transactions shall not be required.

(b) The transaction fee shall be paid to the department by the due date designated on the billing notice. The payment of the fee based on the billing notice shall be sent by traceable mail to the Department of Motor Vehicles, BPA Program Administrator, 2415 1st Avenue, MS-E383, Sacramento, CA 95818.

(c) Upon notification of insufficient funds or closed account status for the payment of transaction fees or failure to pay by the due date designated on the billing notice, the department shall suspend interface access until payment for all fees and charges is received.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 12-23-2003; operative 1-1-2004 pursuant to Government Code section 11343.4 (Register 2003, No. 52).

2. Amendment of subsections (a) and (b) filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

§ 225.51. Information Security Requirements.

(a) A business partner, its owners and employees shall comply with the department's *IT Security Guidelines for Use in BPA Program* (January 2004), which is hereby incorporated by reference, when processing transactions through the American Association of Motor Vehicle Administrators AAMVAnet conduit. A business partner, its owners and employees shall comply with the department's *California DMV Security Requirements for the Internet—Business Partners* (Revised November 2004), which is hereby incorporated by reference, when processing transactions through the Internet.

(b) A business partner, its owners and employees shall comply with the Information Practices Act of 1977 (Section 1798 et seq. of the Civil Code), the Public Records Act (Section 6250 of the Government Code), Sections 1808.21 and 1808.47 of the Vehicle Code, Sections 11015.5 and 11019.9 of the Government Code, and any and all related statutes pertaining to information security.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1798.19, Civil Code, Sections 6250, 11015.5, 11019.9, Government Code; and Sections 1685, 1808.21 and 1808.47, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.

2. New section with amendment of subsection (a) refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 3-3-2003 as an emergency, including amendment of subsection (a); operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

5. Amendment of subsection (a) filed 7-15-2004; operative 8-14-2004 (Register 2004, No. 29).
6. Amendment of subsection (a) filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

§ 225.54. Transaction Procedures and Inventory Requirements.

A business partner shall process transactions and control inventory according to the "BPA Transaction Procedures and Inventory Requirements Handbook" (Revised April 2007), which is hereby incorporated by reference.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with repealer and new section refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency, including amendments; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order, including further amendment of section, transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
5. Amendment filed 7-15-2004; operative 8-14-2004 (Register 2004, No. 29).
6. Amendment filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).
7. Amendment filed 7-9-2007; operative 8-8-2007 (Register 2007, No. 28).

§ 225.57. Inventory.

[Reserved for future use.]

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of section heading and repealer and reservation of section number refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. Repealer and reservation of section number refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.60. Retention of Business Records.

(a) Each business partner shall maintain all business records related to the BPA program. These records shall be retained for the term of the BPA contract in which they pertain, for three (3) years following the termination, cancellation or expiration of the BPA contract and during any ongoing examination, audit and investigation pursuant to Sections 225.63 and 225.66 of these regulations.

(b) Upon the department's request, all business records shall be immediately made available during normal business hours to the department's representative.

(1) A business partner's out-of-state site locations may be issued a permit only if the business partner agrees in writing, and subject to the sole discretion of the BPA Program Administrator, to (1) make the business records available in California for an examination, investigation or to complete an audit or (2) pay the reasonable costs of an examination, audit or investigation, including but not limited to the expenses for travel, meals and lodging of the department's representative incurred during an investigation or audit made at the business partner's out-of-state location.

(c) A business partner shall retain the business records at the business partner's principal place of business.

(d) The business records required to be maintained by the business partner under the terms of the BPA contract are records of the department.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendment of subsection (b)(1) refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order, including amendment of subsection (b)(1), transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.63. Audit Requirements.

(a) A business partner shall hire an independent auditor to perform three (3) compliance audits during the term of the BPA contract. The audits shall be conducted by an independent auditor in accordance with generally accepted government auditing standards and the department's BPA Audit Plan, which consists of the Independent Audit Plan (August 30, 2002) and Independent Audit Program (August 30, 2002). The independent auditor shall keep confidential the department's business practices obtained in the course of an audit.

(1) The department may accept the Business Partner Automation Program Audit Self Certification form, REG. 4016 (NEW 12/2002), which is hereby incorporated by reference, in lieu of a compliance audit from second-line business partners only.

(A) The second-line business partner shall submit a Business Partner Automation Program Audit Self Certification form, REG. 4016 (NEW 12/2002) to the BPA Program Administrator. A copy of the form shall be submitted to the first-line service provider and the Audits Office at the address indicated in Section 225.63(c).

(B) The Business Partner Automation Program Audit Self Certification form shall be submitted when an audit is due as set forth in Section 225.63(a)(2) of these regulations.

(2) An audit is required for each twelve (12) month period of the BPA contract. Each audit shall be completed within ninety (90) days of the end of each twelve (12) month audit period. A copy of the audit report, including any findings and recommendations, shall be submitted to the department within sixty (60) days of completion of each audit.

(3) The independent auditor shall be licensed as a certified public accountant in good standing in the state where the site is located.

(4) The independent auditor shall not be part of the ownership or involved in the operation or overview of any part of the business partner's business(es).

(b) The independent auditor shall sign a Representative Non-Disclosure Statement form, REG4028 (NEW 3/2002) agreeing to protect as confidential information all department records and information including, but not limited to, residence/ mailing addresses.

(1) The Representative Non-disclosure Statement form shall be kept with the business partner's BPA business records and available for audit.

(2) The Representative Non-Disclosure Statement form is hereby incorporated by reference.

(c) The independent auditor shall provide the business partner audit report, the independent auditor's findings and any suggested corrective action plan or audit response developed by the business partner to the department at the following address: Department of Motor Vehicles, Audits Office, P.O. Box 932328, MS H121, Sacramento, CA 94232-3890.

(1) Audits of second-line business partners shall require that a copy of the audit report, findings and any suggested corrective action plan or

audit response be sent to the department and the first-line service provider by the independent auditor. The first-line service provider shall retain and maintain a copy of the audit report and corrective action plan or audit response pursuant to Section 225.63.

(d) A business partner shall inform the BPA Program Administrator when an independent auditor is no longer employed by the business partner to perform an audit. This notice shall be sent within seven (7) days of release of the independent auditor. The signed and written notice on business partner letterhead shall be sent by facsimile, US mail, or private courier when an independent auditor is released from service.

(e) A business partner's principal place of business shall be open during normal business hours for an electronic or manual audit of the records required to be retained immediately upon a request from the State.

(f) The department may conduct a standard random audit to verify compliance without reimbursement from a business partner.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendments refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency, including amendment of subsections (a)(1)(A) and (b); operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order, including amendment of subsection (d) and new subsection (f), transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
5. Amendment of subsections (a)(1)-(a)(1)(A) and (c) filed 7-9-2007; operative 8-8-2007 (Register 2007, No. 28).

§ 225.66. Investigation and Review.

(a) The department may exercise any and all authority and powers available to it under any other provisions of law to administer and enforce this article, including, but not limited to, examining, auditing and investigating the business partner's books and records, and charging and collecting the reasonable costs for these activities. Any civil, criminal, and administrative authority and remedies available to the department may be sought and employed in any combination deemed advisable by the department to enforce the provisions of this article. Nothing in this section shall be construed to impair or impede the department's authority under any other provision of law.

(b) The State may examine, audit, or investigate a business partner's activities under Vehicle Code section 1685, these regulations, and any agreement between a business partner and the State even if the BPA contract is terminated, cancelled or expires. The examination, audit or investigation may relate to any matter, including, but not limited to, procedures, operations and finances relating to the business partner activity. The business partner shall make available to the State all of its records and reports relating to the conduct of the activity, whether hard copy, or stored in electronic media. Failure by a business partner to comply with the provisions of this section shall be cause for immediate termination of a business partner's authorization to process transactions as a business partner.

(c) Whenever the department examines, audits or investigates any business partner, that business partner shall pay, within thirty (30) days after receipt of a statement from the department, the reasonable costs incurred by the department for the performance of the examination, audit or investigation, including, but not limited to:

(1) The reasonable amount of the salary and/or other compensation paid to the persons making the examination, audit or investigation.

(2) The reasonable expenses for travel, meals and lodging of the persons making the examination, audit or investigation.

(3) The reasonable amount of any other expenses, including overhead.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendments refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.69. Cancellation or Termination of a BPA Contract and Permit.

(a) A first-line business partner and first-line service provider shall cancel a BPA contract and permit by notifying the BPA Program Administrator in a signed and written notification on business partner letterhead and sent by facsimile, US mail, or private courier no less than thirty (30) days prior to the cancellation.

(1) A second-line business partner shall cancel a BPA contract and permit by notifying its first-line service provider and the BPA Program Administrator in signed and written notifications on business partner letterhead and sent by facsimile, US mail, or private courier no less than thirty (30) days prior to the cancellation.

(b) The department may terminate a BPA contract and permit at any time without notice for any cause listed in Section 225.18 of these regulations.

(1) A business partner terminated for cause may not submit a new application until one year after the date its BPA contract was terminated by the department for cause.

(c) The department may terminate a BPA contract and permit without cause upon thirty (30) days written notification to a business partner.

(d) Upon the department's request, regardless of the reason, or upon the termination, cancellation or expiration of the BPA contract, a business partner shall immediately discontinue the use of electronic interface access and the issuance of any and all DMV inventory, including, but not limited to, license plates, stickers and DMV95A paper.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section with amendments refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency; operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).

§ 225.72. Voluntary Closing.

(a) A first-line service provider shall comply with the following procedures to close a site location within thirty (30) days of cancellation or expiration of the BPA contract:

(1) The first-line service provider shall collect all unassigned accountable and controlled inventory from all of its second-line business partner sites.

(2) The first-line service provider shall complete a Physical Inventory (Non-DMV Entities) form, ADM175A (Rev. 2/2000), by recording all of the unassigned accountable inventory on the form and signing the form.

(3) The first-line service provider shall update the status of its accountable inventory on the BPA Inventory Database system.

(4) The first-line service provider shall return the Physical Inventory (Non-DMV Entities) form and all accountable inventory by trackable

US mail or private carrier to: Department of Motor Vehicles, Automated Inventory Management Systems Unit, 2570 24th Street, MS G202, Sacramento, CA 94232-3820.

(5) The first-line service provider shall return all controlled inventory by trackable US mail or private carrier to: Department of Motor Vehicles, Inventory Management, 4201 Sierra Point Drive, Suite 112, Sacramento, CA 95834.

(6) The first-line service provider shall return all transactions and supporting documentation by trackable US mail or private carrier to: Department of Motor Vehicles, Manager Field Office Support Unit, 2415 1st Ave. MS E250, Sacramento, CA 95818.

(7) The first-line service provider shall return the permit by trackable US mail or private carrier to: Department of Motor Vehicles, BPA Program Administrator, 2415 1st Avenue, MS E383, Sacramento, CA 95818.

(b) A first-line business partner shall comply with the following procedures to close a site location within thirty (30) days of cancellation or expiration of the BPA contract.

(1) The first-line business partner shall collect all unassigned accountable and controlled inventory from all branch site locations.

(2) The first-line business partner shall complete a Physical Inventory (Non-DMV Entities) form, ADM175A (Rev. 2/2000) by recording all unassigned accountable inventory on the form and signing the form.

(3) The first-line business partner shall record the status of its accountable inventory on the BPA Inventory Database system.

(4) The first-line business partner shall return the Physical Inventory (Non-DMV Entities) form and all accountable inventory by trackable US mail or private carrier to: Department of Motor Vehicles, Automated Inventory Management Systems Unit, 2570 24th Street, MS G202, Sacramento, CA 94232-3820.

(5) The first-line business partner shall return all controlled inventory by trackable US mail or private carrier to: Department of Motor Vehicles, Inventory Management, 4201 Sierra Point Drive, Suite 112, Sacramento, CA 95834.

(6) The first-line business partner shall return all transactions and supporting documentation by trackable US mail or private carrier to: Department of Motor Vehicles, Manager Field Office Support Unit, 2415 1st Ave, MS E250, Sacramento, CA 95818.

(7) The first-line business partner shall return the BPA permit by trackable US mail or private carrier to: Department of Motor Vehicles, BPA Program Administrator, 2415 1st Avenue, MS E383, Sacramento, CA 95818.

(c) A second-line business partner and its first-line service provider shall comply with the following procedures to close a second-line business partner site location within thirty (30) days of cancellation or expiration of the BPA contract.

(1) The second-line business partner shall collect all unassigned accountable and controlled inventory and return it to its first-line service provider within seven (7) days of the cancellation or expiration of the BPA contract.

(2) The first-line service provider may redistribute the unassigned accountable inventory to its other second-line business partners.

(3) The second-line business partner shall return all transactions and supporting documentation to its first-line service provider within seven (7) days of the cancellation or expiration of the BPA contract. The first-line service provider shall return all transactions and supporting documentation by trackable US mail or private carrier to: Department of Motor Vehicles, Manager Field Office Support Unit, 2415 1st Ave, MS E250, Sacramento, CA 95818.

(4) The second-line business partner shall return the BPA permit by trackable US mail or private carrier to: Department of Motor Vehicles, BPA Program Administrator, 2415 1st Avenue, MS E383, Sacramento, CA 95818.

NOTE: Authority cited: Sections 1651 and 1685, Vehicle Code. Reference: Section 1685, Vehicle Code.

HISTORY

1. New section filed 7-5-2002 as an emergency; operative 7-5-2002 (Register 2002, No. 28). A Certificate of Compliance must be transmitted to OAL by 11-4-2002 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11-4-2002 as an emergency; operative 11-4-2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3-4-2003 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 3-3-2003 as an emergency, including amendment of subsections (a)(6) and (c)(3); operative 3-3-2003 (Register 2003, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2003 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 3-3-2003 order transmitted to OAL 6-27-2003 and filed 8-11-2003 (Register 2003, No. 33).
5. Amendment of subsections (a)(7), (b)(7) and (c)(4) filed 2-22-2006; operative 3-24-2006 (Register 2006, No. 8).

Article 4. Occupational Licenses

§ 250.00. Occupational License Application Requirements.

Occupational license application:

(a) Shall be submitted to the department at any of its locations.

(b) Shall be on the forms prescribed by the department.

(c) Shall be complete and contain the information required in this article.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11102, 11102.5, 11104, 11501, 11601, 11602, 11701 and 11704, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 414.00 to section 250.00 and relocation of article heading filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 250.02. Time Requirements for Submitting Application.

An applicant for an occupational license or a licensee wishing to change an existing license shall submit the required forms to the department at least three (3) business days prior to the desired effective date of such application or change.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11100, 11500, 11600 and 11700, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 414.01 to section 250.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 252.10. Business License Definition.

A business license is a license issued to any of the following categories: Dealer, lessor-retailer, dismantler, manufacturer, distributor or transporter.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11500, 11600 and 11700, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 414.10 to section 250.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 252.20. Business License Application Requirements.

An application for a business license issued by the department shall contain, but is not limited to, the following:

(a) Name of the business.

(b) Location of the business including street, address, city, and zip code of the principal place of business and any branch locations. Exception: The location of business requirement is not necessary when the applicant only wishes to determine if the department would grant the applicant a license because of previous business or personal irregularities.

(c) Type of business license requested, i.e., dealer, manufacturer, transporter, etc.

(d) If the application is for a dealer's license, then the applicant must specify the type of vehicles to be sold. Also, if new vehicles are to be sold the applicant must include the name or names of vehicles he is enfranchised to sell and the name or names and address of the manufacturer or distributor who has enfranchised the applicant.

(1) All new motor vehicle dealers, except recreational vehicle dealers, shall submit the form required pursuant to Section 3062 of the Vehicle Code.

(e) The type of ownership, i.e., individual, partnership, or corporation. If the applicant is a partnership, then the names and titles of all partners shall be disclosed. If the applicant is a corporation, then the names and titles of all controlling stockholders, directors, and officers who by reason of the facts and circumstances could be directing, controlling, or managing the vehicle marketing affairs of the licensed entity in this state.

(1) Any person required to be identified in subdivision (e) above shall submit to the department a personal history statement and a set of properly completed fingerprint cards on departmental forms. Exception: A corporation which is an applicant for a manufacturer or distributor license and which has authorized and is permitted to sell stock of the corporation to the general public may not be required, upon investigation by the department, to submit fingerprint cards as part of the application.

(2) The following information, but not limited to, shall be on the personal history statement:

(A) The true name of the applicant.

(B) The applicant's residence address, including zip code.

(C) The applicant's business and home telephone numbers.

(D) The applicant's physical description including gender, color of hair, color of eyes, height, weight and birthdate.

(E) If the applicant holds a valid driver's license, the number and state of issuance of such license.

(F) Any name or names the applicant has been known by or used other than the true name appearing on the application.

(G) The applicant's experience and employment record for the past three years.

(H) The applicant's personal business history with specific reference to previous bankruptcies, previous applications submitted to the department for an Occupational License and if the applicant was the subject of a disciplinary action by the department while an Occupational Licensee.

(I) A statement disclosing whether or not the applicant was either a sole owner, partner, officer, director or stockholder of a firm that had either a civil or criminal judgment rendered against it.

(J) A statement disclosing whether the applicant, has ever been convicted, fined or placed on probation for any crime or offense either felony or misdemeanor, excluding traffic offenses.

(f) The property data for the business location including size, property owner's name and address, and if the property is rented or leased, the owner's or lessor's name and address.

(g) The name, address and telephone number of the bank where the applicant's business account, if any, is carried as well as the name under which the account is carried if not the same name as on the application, and the name of persons authorized to draw funds or issue checks from the account.

(h) If the application is for a manufacturer's or manufacturer's branch license, the names and addresses of all distributors and representatives acting for the applicant in this state and all dealers franchised by said applicant in this state and business addresses of such dealers. Thereafter, all manufacturers or manufacturer's branches shall inform the department within 30 days of any change in the list of representatives or dealers.

(i) If the application is for a distributor's or distributor's branch license, the name of the manufacturer for whom the distributor will act, the names and business addresses of all representatives acting for the applicant in this state and the names and business addresses of all dealers in this state franchised by the applicant. Thereafter, all distributors shall inform the department within 30 days of any change in the list of representatives and dealers.

(j) If the application is for a dealer's or lessor-retailer's license, the bond and certificate of appointment as required in Sections 11710 and 11710.1 of the Vehicle Code. Exception: The bond and certificate of appointment requirement is not necessary when the applicant only wishes to determine if the department would grant the applicant a license because of previous business or personal irregularities.

(k) Appropriate fees.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11501, 11504, 11601, 11602, 11701, 11704 and 11712, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 414.20 to section 252.20 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 252.30. Time Requirements for Any Change in License.

Every person holding a business license shall notify the department within 10 days prior to the effective date of any change in the ownership. Except a corporation modifying its corporate structure shall submit the appropriate forms necessary to record the change within 30 days of the effective date.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11704 and 11721(d), Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 414.30 to section 252.30 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 252.40. Branch Location Application Requirements.

If an occupational licensee wishes to add a branch location, then the licensee shall submit to the department the following:

(a) The location of the branch location, including street, address, city, and zip code.

(b) If new vehicles are to be sold, then the name or names of the new vehicles for which the applicant is enfranchised to sell or exchange at that location and the name or names and address of the manufacturer or distributor enfranchising the applicant.

(1) All new motor vehicle dealers, except recreational vehicle dealers, shall submit the form required pursuant to Section 3062 of the Vehicle Code.

(c) The appropriate fees as required by the California Vehicle Code. NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 3062, 9262, 9550, 11704 and 11712, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 414.40 to section 252.40 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 253.02. License Renewal Terms.

(a) The department shall issue a renewal license for a two-year term, pursuant to Vehicle Code Section 1665, to an All Terrain Vehicle Safety Organization, Dealer, Dismantler, Distributor, Driving School Owner, Lessor-Retailer, Manufacturer, Registration Service, Remanufacturer, Traffic Violator School Owner, or Transporter. The first two-year term occupational license shall be issued based on the following criteria:

(1) Licenses issued prior to January 1, 2006, with a date-in-business in an even year, will be issued a two-year renewal term when the license expires in 2006.

(2) Licenses issued prior to January 1, 2006, with a date-in-business in an odd year, will be issued a two-year renewal term when the license expires in 2007.

(3) Licenses issued on or after January 1, 2006, will be issued a two-year renewal term upon the first expiration date of the license.

(b) Any dealer required to provide evidence of successful completion of an educational program pursuant to Vehicle Code Section 11704.5(c)(1), in conjunction with the first two-year term license renewal, shall be exempt from subdivision (a)(1) thru (3).

(c) The fee for a license issued for a two-year term shall be twice the licensing fee established in statute for the specific type of license.

(d) Any authorizing indicia issued in conjunction with the renewal of a license shall be issued for the same term as the license. The fee for the indicia shall be twice the fee established in statute for the specific indicia.

NOTE: Authority cited: Sections 1651, 1665 and 11202(a)(2), Vehicle Code. Reference: Sections 11105, 11105.2, 11105.6, 11204, 11208, 11409, 11410, 11500, 11508, 11601, 11620, 11700 and 11704.5, Vehicle Code.

HISTORY

1. New section filed 12-16-2005; operative 1-1-2006 pursuant to Government Code section 11343.4 (Register 2005, No. 50).

Article 4.1. Advertising by Occupational Licensee

§ 255.00. "Advertising" Defined.

(a) In the broad context of Vehicle Code Section 11713(a), any statement advertised refers to any statement, representation, act or announcement intentionally communicated to any member of the public by any means whatever, whether orally, in writing or otherwise.

(b) As used elsewhere in the Vehicle Code and in this article, the terms "advertising," "advertisement," or "advertise" refer to a statement, representation, act or announcement intentionally communicated to the public generally for the purpose of arousing a desire to buy or patronize.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Division 5, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 402.00 to section 255.00 and adopting new article 4.1 heading filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 255.01. "Dealer's Cost" Defined.

"Dealer's cost," "factory invoice," or similar terms are defined as the actual cost to the dealer of any vehicle or part thereof delivered to the dealer's place of business. "Dealer's cost" or similar terms do not include expenses incurred by the dealer such as flooring, overhead, commissions, dealer advertising, or other costs.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11713 and 11713.1, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 402.01 to section 255.01 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 255.02. "Demonstrator" Defined.

A "demonstrator" is a vehicle specifically assigned by a dealer to be regularly used for the purpose of demonstrating qualities and characteristics common to vehicles of the same or similar model and type. A vehicle in a dealer's inventory which is only occasionally demonstrated to a prospective purchaser whose interest has focused on a particular vehicle is not a "demonstrator."

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 665 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 402.02 to section 255.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 255.04. Applicability.

Unless otherwise provided, the provisions of Sections 255.00 through 262.09 are intended to govern the advertising of all entities subject to licensure by the Department of Motor Vehicles under Chapters 3.5 and 4 of Division 5 of the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Division 5, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 402.04 to section 255.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 260.00. Advertisements.

Any advertised statements, representations, or offers made in connection with the sale or attempted sale of any vehicle(s) shall be clearly set forth, and based on facts and shall be subject to these regulations and the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 403.00 to section 260.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 260.01. Vehicle Description.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 665, 11614, 11713, 11713.1 and 11713.5, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 403.01 to section 260.01 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Change without regulatory effect repealing section filed 2-18-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 8).

§ 260.02. Vehicle History.

(a) Express advertisements of a vehicle's prior use or ownership history must be accurate.

(b) Former taxicabs, rental vehicles, publicly owned vehicles, insurance salvage vehicles and revived salvage vehicles shall be clearly identified as such if the previous status is known to the seller.

(c) If a vehicle is advertised and/or sold as a "demonstrator" and such a vehicle has been previously registered or sold to a retail purchaser, the selling dealer shall clearly disclose to the buyer the fact of such prior registration or sale before obtaining the buyer's signature on a purchase order or sales contract.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 403.02 to section 260.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 260.03. Vehicle Condition.

Statements of vehicle condition must accurately reflect the known condition, and pictures of vehicles must accurately depict their overall appearance.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614, 11615 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 403.03 to section 260.03 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 260.04. Vehicle Availability.

(a) No dealer shall advertise a specific vehicle or a class of vehicles for sale, unless such vehicle(s) is in the dealer's possession, or is available to the dealer pursuant to a franchise agreement with the manufacturer or distributor of the vehicle(s). An advertisement of a vehicle not in a dealer's possession must so indicate, and must include a reasonable estimate of the date such vehicle will be available from the franchisor for delivery to a prospective purchaser.

(b) A specific vehicle advertised by a dealer or lessor-retailer shall be in condition to demonstrate and shall be willingly shown and sold at the advertised price and terms while such vehicle remains unsold or unleased, unless the advertisement states that the advertised price and terms are good only for a specific time and such time has elapsed. Advertised vehicles must be sold at or below the advertised price irrespective of whether or not the advertised price has been communicated to the purchaser.

(c) No manufacturer or distributor shall advertise vehicles for sale unless such vehicles are available to franchised dealers within the meaning of subsection (a) of Vehicle Code Section 11713.2, or, if not so available, the advertisement must include the date such vehicles will be available for purchase from retail dealers in the area in which the advertisement is disseminated.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614, 11713, 11713.1 and 11713.3, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 403.04 to section 260.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 260.05. Vehicle Equipment.

No specific vehicle shall be advertised as having special equipment or accessories unless such equipment or accessories are installed and operative at the time of the advertisement.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11615 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 403.05 to section 260.05 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 260.07. Returned Vehicles.

If a dealer or lessor-retailer advertises that a vehicle may be returned if the purchaser is not satisfied, the advertisement must clearly state the terms and conditions of the offer. In addition, the dealer or lessor-retailer must furnish the buyer with a written copy of the terms and conditions of return before obtaining the purchaser's signature to a purchase order or sales contract.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11613, 11614, 11705 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 403.07 to section 260.07 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 262.00. Dealer Price.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614, 11713 and 11713.1, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 404.00 to section 262.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Repealer of subsections (c) and (d) filed 3-19-97; operative 4-17-97 (Register 97, No. 12).
3. Change without regulatory effect repealing section filed 2-18-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 8).

§ 262.01. Manufacturer's or Distributor's Price.

If a manufacturer or distributor advertises the price of a vehicle or class of vehicles, the price quoted shall be the manufacturer's suggested base price.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614 and 11713, Vehicle Code; and 15 U.S.C.S. 1231, et. seq.

HISTORY

1. Change without regulatory effect renumbering and amending former section 404.01 to section 262.01 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment filed 3-19-97; operative 4-17-97 (Register 97, No. 12).

§ 262.03. Dealer Added Charges.

A dealer may not identify a separate charge or charges for services performed on vehicles prior to delivery to the extent the dealer is or will be reimbursed for such expenditures by another party. If a dealer does identify a separate charge or charges for delivery and preparation services performed over and above those delivery and preparation obligations specified by the franchiser and for which the dealer is to be reimbursed by the franchiser, then the services performed and the charges therefore shall be separately itemized. Such added charges must be included in the advertised price.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11713.1, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 404.03 to section 262.03 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 262.05. Financing, Down Payment, and Trade-In Allowance.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614, 11705 and 11713, Vehicle Code; and Section 2981, et. seq., Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 404.05 to section 262.05 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section heading and new subsections (d)-(h) filed 3-19-97; operative 4-17-97 (Register 97, No. 12).
3. Change without regulatory effect repealing section filed 2-18-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 8).

§ 262.06. Down Payment.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 404.06 to section 262.06 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

2. Repealer filed 3-19-97; operative 4-17-97 (Register 97, No. 12).

§ 262.07. Trade-In Allowances.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 404.07 to section 262.07 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Repealer filed 3-19-97; operative 4-17-97 (Register 97, No. 12).

§ 262.08. Identity of Dealer or Lessor-Retailer.

Advertisements by dealers or lessor-retailers shall identify the dealer or lessor-retailer either by the name under which the licensee does business or by such other name as will serve to readily identify the dealer or lessor-retailer both to the public and the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 404.08 to section 262.08 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 262.09. Qualifying Statements.

Qualifying statements used in connection with vehicle advertisements, including the qualifying statements required by this article, shall be large enough and displayed for a sufficient period of time to enable the average reader or viewer to comprehend such statements.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11614 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 404.09 to section 262.09 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 4.2. Vehicle Dealers

§ 268.04. Dealer Examination Requirements.

(a) All applicants for a vehicle dealer license subject to Vehicle Code Section 11704.5 shall be required to pass a written dealer examination provided and administered by the department with a minimum score of 70%.

(1) When a firm, corporation, association, limited liability company, or a partnership submits a dealer license application which is subject to Vehicle Code Section 11704.5, at least one person who is part of the ownership structure and who is required to submit a Personal History Statement, and who will have primary responsibility for managing the day to day dealership business which is reliant on the subject matter knowledge contained in the dealer examination shall be required to pass the dealer examination as described by Vehicle Code Section 11704.5(a) and this article.

(2) At least one person who has passed the dealer examination required by Vehicle Code Section 11704.5(a) and Section 268.04(a)(1) of these regulations must continuously be part of the ownership structure of all firms, corporations, associations, limited liability companies, or partnerships which are issued vehicle dealer licenses subject to Vehicle Code Section 11704.5.

(b) The dealer examination shall cover the subjects specified in Vehicle Code Section 11704.5(a), and the following subjects:

- (1) Warranties
 - (A) Lemon Law
 - (B) Service Agreements
- (2) Federal Buyers Guide Requirements
- (3) Stolen Vehicle Prevention
 - (A) Indicia Verification
- (4) Vehicle History Disclosure Requirements
- (5) Basic Dealer Licensing Requirements
 - (A) Forms
 - (B) Fees

(C) Bond Requirements

(D) License and Sign Posting Requirements

(E) License Renewal Requirements

(F) Automatic Cancellations per Section 11721, Vehicle Code

(6) DMV Enforcement Actions

(A) Administrative

(B) Criminal

(C) Civil

(c) All applicants shall be required to present a current California driver license (DL) or California identification card (ID) issued by the department as personal identification prior to being allowed to take the dealer examination.

(1) If the personal identifying information on the California DL or ID presented by the applicant does not match the personal identifying information contained on the applicant's dealer educational program completion certificate, the applicant will not be allowed to take the dealer examination.

(d) Any applicant who fails the examination administered by the department will not be eligible to retake the examination for at least one week.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 236, 386, 470 and 11704.5, Vehicle Code.

HISTORY

1. New section filed 3-31-98; operative 3-31-98 pursuant to Government Code section 11343.4(d) (Register 98, No. 14).
2. Amendment of subsection (a)(2), repealer of subsection (c), subsection relettering, and amendment of NOTE filed 5-14-2001; operative 6-13-2001 (Register 2001, No. 20).

§ 268.06. Dealer Educational Program Requirements.

(a) All applicants for a vehicle dealer license subject to Vehicle Code Section 11704.5 shall provide evidence to the department of having successfully completed an educational program as described by Vehicle Code Section 11704.5(b) and this article.

(1) When a firm, corporation, association, limited liability company, or a partnership submits a dealer license application which is subject to Vehicle Code Section 11704.5, at least one person who is part of the ownership structure and who is required to submit a Personal History Statement, and who will have primary responsibility for managing the day to day dealership business which is reliant on the subject matter knowledge contained in the dealer examination shall be required to provide evidence to the department of having successfully completed an educational program as described by Vehicle Code Section 11704.5(b) and this article.

(b) The educational program completed by dealer license applicants subject to Vehicle Code Section 11704.5 must be a program which is approved and certified by the department.

(c) The educational program completed by dealer license applicants subject to Vehicle Code Section 11704.5 shall adequately cover the subject areas specified in Vehicle Code Section 11704.5(a) and the additional subjects specified in section 268.04(b) of this article.

(d) The lesson plans for all educational programs provided under this section shall be approved by the department as complying with the program requirements described in this article and in Vehicle Code Section 11704.5. All lesson plans approved by the department shall also substantially comply with the department's Lesson Plan Guideline for Used Vehicle Dealer Education Programs, OL 2000 (New. 8/97), which the department hereby incorporates by reference.

(e) All dealer educational program providers shall submit their fully developed lesson plans to the department for approval prior to utilizing them in a program.

(1) All lesson plans submitted for approval shall include a complete table of contents, and the pages of the plan shall be consecutively numbered.

(2) All lesson plans submitted for approval shall include samples of all workbooks, videos, tests, final exams, and other teaching aids used in the program.

(3) All lesson plans submitted for approval shall include a time schedule that specifies the time allotted to cover each subject area, the time allotted for break periods, and the time allotted for administrative activities.

(f) All educational program providers shall be responsible for revising their approved lesson plans as necessary to ensure that all required subject areas presented reflect substantial ongoing changes in relevant statutes, regulations or other requirements.

(1) Any substantial change(s) to the lesson plan of an approved program must be authorized in writing by the department prior to presenting them in an approved program.

(g) All proposed program lesson plans and proposed changes to approved lesson plans submitted by a program provider to the department for approval shall receive a letter of approval or disapproval within 30 working days of receipt by the department of a proposed lesson plan or a proposed lesson plan change.

(1) The department shall provide a written receipt within 10 working days of receiving any proposed lesson plan and proposed change to an approved lesson plan submitted by a program provider for the department's approval.

(A) The receipt provided by the department shall inform the program provider that the proposed lesson plan or lesson plan change is complete and accepted for consideration or is deficient and specify what additional data or materials are necessary.

(2) All programs approved by the department shall receive a written certification containing a unique certification number issued by the department.

(3) An educational program approved by the department shall remain certified only so long as the program continues to meet all program requirements as described in this article and in Vehicle Code Section 11704.5.

(4) Whenever a program fails to meet all program requirements, the department shall notify the program provider in writing of all program deficiencies and shall include specific instructions on how the program can correct the identified deficiencies.

(A) The department will allow the program provider 20 working days from the date of the deficiency notice to implement the required changes in order to correct the identified program deficiencies.

(5) In the event a program provider fails to implement the required program corrections for all identified program deficiencies within the specified period, the department will decertify the program in writing which will specify the effective date of the decertification.

(6) Any program completion certificates issued for any period of instruction during which the issuing program was not certified by the department will not be accepted as evidence of program completion.

(h) All educational programs provided under this section shall contain a comprehensive final examination which tests for knowledge of all subjects which are required to be covered in the program.

(1) A successful passing score of 70% on the final program examination is required of all program participants prior to the issuance of a completion certificate by the program provider.

(i) All persons who wish to be admitted as students to a certified dealer educational program are required to present a current California DL or ID as personal identification.

(1) All certified program providers shall refuse to provide a program completion certificate to any person who has not presented a current California DL or ID which verifies his or her personal identity.

(j) Records of all classes given by a certified program provider shall be compiled and retained by the provider for not less than one (1) year and one (1) month from completion of the class.

(1) Records shall include complete student rosters, course dates and times, and all final examinations and scores.

(2) Records shall be made available to department inspectors and investigators for official purposes relating to inquiries of program sufficiency or program fraud.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 470 and 11704.5, Vehicle Code.

HISTORY

1. New section filed 3-31-98; operative 3-31-98 pursuant to Government Code section 11343.4(d) (Register 98, No. 14).

§ 268.08. Evidence of Dealer Educational Program Completion.

(a) Evidence of program completion shall consist of a completion certificate provided by a certified program provider which shall include the following:

(1) The start and completion date(s) the identified person attended the program.

(2) The total hours of instruction the identified person received in the program.

(3) Full printed name, date of birth, and the number of the California DL or ID of the person who completed the program.

(4) Program provider identifying information including:

(A) Printed name, telephone number, and business address of program provider.

(B) Course curriculum certification number as provided by the department.

(C) Printed name and signature of program instructor or provider.

(D) A unique sequential certificate identifier which includes alpha/numeric symbols.

(5) A statement certifying that the person named on the completion certificate has successfully completed the program.

(b) Completion certificates issued for completion of approved dealer education programs will be valid for submission with original dealer license applications for a period of only one year from the date of program completion.

(c) All dealer educational program providers shall submit a sample of their program completion certificates to the department for approval prior to utilizing them in a program.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11704.5, Vehicle Code.

HISTORY

1. New section filed 3-31-98; operative 3-31-98 pursuant to Government Code section 11343.4(d) (Register 98, No. 14).

§ 268.10. Dealer Surety Bond Requirements.

(a) Every applicant for issuance or renewal of a dealer license, other than a dealer who deals exclusively with motorcycles and/or all-terrain vehicles and a wholesale dealer selling less than 25 vehicles a year, shall submit the bond required by Vehicle Code section 11710 on a Dealer Surety Bond, form OL 25 (REV. 11/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) Every applicant for issuance or renewal of a license for a dealer who deals exclusively in motorcycles and/or all-terrain vehicles shall submit the bond required in Section 268.12 of Title 13, California Code of Regulations.

(c) Every applicant for issuance or renewal of a license for a dealer selling less than 25 vehicles a year on a wholesale basis only shall submit the bond required in Section 268.12 of Title 13, California Code of Regulations.

(d) The true, full name of the dealer, and any doing business as (DBA) names under which the licensed activity is conducted, shall be entered on the bond.

(e) The appointment of director as the agent for service of process required by Vehicle Code section 11710(d) shall be in the form required under subdivision (c) of Section 330.08 of Title 13, California Code of Regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 995.010, Code of Civil Procedure; and Sections 11710 and 11710.1, Vehicle Code.

HISTORY

1. New section filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7).

§ 268.12. Surety Bond Requirements for Motorcycle Dealers, Motorcycle Lessor-Retailers, All-Terrain Vehicle Dealers and Wholesale Only Dealers Who Sell Less Than 25 Vehicles Per Year.

(a) The bond required by Vehicle Code sections 11612 and 11710 for a dealer who will deal exclusively in motorcycles or all-terrain vehicles or who sells wholesale less than 25 vehicles a year shall be executed on a Surety Bond of Motorcycle Dealer, Motorcycle Lessor-Retailer, All-Terrain Vehicle Dealer, or Wholesale Only Dealer (Less Than 25 Vehicles Per Year), form OL 25B (REV. 12/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(1) For the purpose of determining whether a dealer sells less than 25 vehicles a year, a year shall be defined as the period beginning on the initial date of licensure and ending on the day before the renewal date.

(2) The name of the Principal on the surety bond shall include any and all "Doing Business As" (DBA) names used by the Principal to conduct business as authorized under the occupational license.

(3) The appointment of director as the agent for service of process required by Vehicle Code section 11710(d) shall be in the form required under subdivision (c) of Section 330.08 of Title 13, California Code of Regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 995.010, Code of Civil Procedure; and Sections 11612, 11710 and 11710.1, Vehicle Code.

HISTORY

1. New section filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7).

§ 270.00. Place of Business.

Before the department can issue any temporary permit or license or allow such license to remain in force, the applicant's principal place of business and each branch location must conform to Vehicle Code Sections 320 and 11709.

The office of the principal place of business and each branch location of the dealership must be established to the extent that its construction is not temporary, transitory or mobile in nature, except that a trailer coach office is acceptable providing it is not a part of the dealer's vehicle inventory not being offered for or subject to sale while being used as an office of the dealership, and otherwise meets the requirements of Vehicle Code Section 320.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320, 11709 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 406.00 to section 270.00 and designating article 4.2 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 270.02. Dealer Branch Location Definition.

Dealer Branch is any location, other than the principal place of business of the dealer, maintained for the sale or exchange of vehicles. A branch location must comply with the requirements of Section 320 and Section 11709 of the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320 and 11709, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 414.50 to section 270.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 270.04. Change of Location.

Any dealer who changes the site of either the principal or a branch location must comply with all provisions of Vehicle Code Sections 320 and 11709, before the application for change of location may be accepted.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320, 11709 and 11712, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 407.00 to section 270.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 270.06. Signs or Devices.

The signs or devices identifying the dealership at each business location as required pursuant to Vehicle Code Section 11709, shall be of a permanent nature, erected on the exterior of the office or on the display area, and be constructed or painted and maintained so as to withstand reasonable climatic effects and be readable as provided for in Section 11709. A temporary sign or device may suffice when a permanent sign is on order. Evidence of such order shall be submitted to the Department prior to issuance of a temporary permit or license.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11709, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 408.00 to section 270.06 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 270.08. Display Area.

(a) The display area of the principal place of business of each branch location and additional display areas as permitted by this section shall be of sufficient size to physically accommodate vehicles of a type for which the dealership is licensed to sell. The display area must be clearly for the exclusive use of the dealer for display purposes only. Additional display areas are permitted within a radius of 1,000 feet from the principal place of business and any licensed branch location without being subject to separate licensing. However, such display areas must also meet the signing requirement as identified in Vehicle Code Section 11709(a).

(b) The provisions of Vehicle Code Section 11709(b), which permits a dealer to display vehicles at a fair, exposition, or similar exhibit without securing a branch license extends to public shopping areas, public shopping centers, autoramas and other similar locations or events open to the public and intended to merely bring the dealer's identity and product to the public's attention, provided that:

(1) No sales are offered, attempted, solicited, negotiated or otherwise transacted from such locations or at such public event, including the acceptance of cash deposits, trade-in vehicles or any other considerations from persons for the purpose of inducing or binding a sale.

(2) Such locations are available to all dealers licensed in this state without discrimination as to type of manufacture, make, or year of vehicle displayed.

(3) Every dealer participating at such locations or events shall post a sign on the vehicle or vehicles or in close proximity thereto, printed in letters of not less than three (3) inches in height, which shall show the dealer's name, location and address of his established place of business and the following statement: "No sales permitted, or deposits accepted at this location."

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320, 11705 and 11709, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 409.00 to section 270.08 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 272.00. Business Records.

(a) Pertinent records of a licensed dealer which must be open to inspection pursuant to Vehicle Code Section 320 are those records maintained in the regular course of business insofar as those records are directly concerned with the purchase, sale, rental or lease of a vehicle.

(b) Unless otherwise specified by statute, all business records relating to vehicle transactions shall be retained by the dealership for a period of not less than three years.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 320, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 410.00 to section 272.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 272.02. Location of Business Records.

A vehicle dealer may, at his option, maintain the business records of the dealership at the office of the principal place of business; or if the dealer has a branch location(s), records peculiar to that branch may be

maintained either at such branch location or at the principal place of business. Upon approval of the department, the records may be maintained at a business location other than as required in this section, provided a written instrument is filed with the department describing such other location and granting the department authorization to inspect the records thereat.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 320, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 410.01 to section 272.02 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 272.04. Disclosure to Low Speed Vehicle Buyer.

(a) A “low speed vehicle” is defined as having a maximum speed of not more than 25 miles per hour which complies with Federal Motor Vehicle Safety Standards.

(b) A vehicle dealer, selling a low speed vehicle, shall provide a disclosure to be signed by the buyer at the time of purchase. The disclosure will include a statement that the vehicle:

- (1) Has a maximum speed of 25 miles per hour.
- (2) May be a hazard on the roadways if it impedes traffic.
- (3) May subject the driver to citations for impeding traffic.

(c) The vehicle dealer shall give a copy of the signed disclosure to the buyer and keep the original with the business records of vehicle transactions.

(d) Prior to the sale of a low speed vehicle, the dealer or manufacturer shall affix a permanent decal to the underside of the roof near the windshield on the driver side.

- (1) The decal shall be approximately 3 inches high by 5 inches wide.

(2) The decal shall contain the disclosure statement information specified in (b).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320, 1809, 11713 and 21252, Vehicle Code.

HISTORY

1. New section filed 11–30–98 as an emergency; operative 11–30–98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 3–30–99 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 99, No. 20).
3. New section filed 5–10–99; operative 5–10–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 20).
4. Change without regulatory effect amending NOTE filed 10–2–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 40).

Article 4.21. Vehicle Lessor–Retailers

§ 280.12. Lessor–Retailer Surety Bond Requirements.

(a) Every applicant for issuance or renewal of a lessor–retailer license other than a lessor–retailer who deals exclusively with motorcycles shall submit the bond required by Vehicle Code section 11612 on a Lessor–Retailer Surety Bond, form OL 25C (REV. 11/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) Every applicant for issuance or renewal of a license as a lessor–retailer who deals exclusively with motorcycles shall submit the surety bond required in Section 268.12 of Title 13, California Code of Regulations.

(c) The true, full name of the lessor–retailer, and any doing business as (DBA) names under which the licensed activity is conducted, shall be entered on the bond.

(d) The appointment of director as the agent for service of process required by Vehicle Code section 11710(d) shall be in the form required under subdivision (c) of Section 330.08 of Title 13, California Code of Regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 995.010, Code of Civil Procedure; and Sections 11612 and 11710, Vehicle Code.

HISTORY

1. New article 4.21 (section 280.12) and section filed 2–14–2006; operative 3–16–2006 (Register 2006, No. 7).

Article 4.22. Vehicle Manufacturers and Remanufacturers

§ 285.06. Remanufacturer Surety Bond Requirements.

(a) Every applicant for issuance or renewal of a remanufacturer license shall submit the bond required by Vehicle Code section 11710 on a Remanufacturer Surety Bond, form OL 25A (REV. 11/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) The true, full name of the remanufacturer, and any doing business as (DBA) names under which the licensed activity is conducted, shall be entered on the bond.

(c) The appointment of director as the agent for service of process required by Vehicle Code section 11710(d) shall be in the form required under subdivision (c) of Section 330.08 of Title 13, California Code of Regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 995.010, Code of Civil Procedure; and Section 11710, Vehicle Code.

HISTORY

1. Amendment of article heading and new section filed 2–14–2006; operative 3–16–2006 (Register 2006, No. 7).

§ 290.00. Place of Business.

The applicant for, or holder of a vehicle manufacturer’s license shall maintain a suitable site sufficient in size and furnishings to effect the manufacture, assembly, reconstruction, or reconfiguration in final form for subsequent delivery to the distributorships or to licensed vehicle dealers in this state, vehicles subject to registration by the department.

(a) If no manufacturing site is located in this state, the department may require such supporting documentary proof as it deems necessary to determine the applicant’s status as an actual manufacturer pursuant to Vehicle Code Section 11701, and the applicant’s compliance with Vehicle Code Section 320.

(b) If the mailing address of the licensee is not at the actual manufacturing site, such mailing address shall be reflected in the application, and thereafter remain current with the department.

(c) It is not necessary for a vehicle manufacturer to obtain licenses for branch manufacturing sites located outside of this state, provided the principal site is licensed with the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320, 11701 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 411.00 to section 290.00 and designating article 4.22 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 290.02. Pertinent Books and Records.

Pertinent books and records of a vehicle manufacturer as set forth in Vehicle Code Section 320 include, but are not limited to, invoices, certificates of origin, manufacturer’s suggested retail price lists, vehicle identification number and motor number locations and coding data, and any other record which relates to the identification and history of vehicles subject to registration in this state. The department may require that any pertinent record printed in any language other than the English language be accompanied by a version translated into the English language prior to acceptance by the department as a genuine record of the manufacturer.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320 and 11701, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 411.01 to section 290.02 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 4.23. Vehicle Verifiers

§ 292.06. Vehicle Verifier Surety Bond Requirements.

(a) Every applicant for issuance or renewal of a vehicle verifier permit shall submit the bond required by Vehicle Code section 11301 on a Vehicle Verifier Surety Bond, form OL 26 (REV. 11/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) The bond shall be conditioned that if the vehicle verifier not cause any loss by the public or the State arising out of the operation under the vehicle verifier permit, then this obligation is to be void; otherwise it is to remain in full force and effect.

(c) The true, full name of the vehicle verifier, and any doing business as (DBA) names under which the licensed activity is conducted, shall be entered on the bond.

NOTE: Authority cited: Sections 1651 and 11308, Vehicle Code. Reference: Section 995.010, Code of Civil Procedure; and Section 11301, Vehicle Code.

HISTORY

1. New article 4.23 (section 292.06) and section filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7).

Article 4.24. Vehicle Transporters

§ 295.00. Place of Business.

The principal place of business for an applicant for, or the holder of, a vehicle transporter's license shall be the location of record with the department.

(a) If the mailing address of the licensee is not at the actual principal place of business, such mailing address shall be reflected in the application along with the address of the principal place of business and thereafter remain current with the department.

(b) It is not necessary for a vehicle transporter to obtain licenses for branch business locations outside of this state, provided the principal place of business is licensed with the department.

(c) If the principal place of business is not located in this state, the department may require such supporting documentary proof as it deems necessary to determine the applicant's status as an actual transporter pursuant to Vehicle Code Section 320.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320, 11701 and 11713, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 412.00 to section 295.00 and designating article 4.24 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Exempted Under Vehicle Code Section 9873(e).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9873, Vehicle Code.

HISTORY

1. New section filed 4-5-71; effective thirtieth day thereafter (Register 71, No. 15).
2. Change without regulatory effect renumbering former section 301.00 to section 191.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 302.00. Proof Documents Re Lien Sale Vessels.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 9915, Vehicle Code.

HISTORY

1. New section filed 4-5-71; effective thirtieth day thereafter (Register 71, No. 15).

2. Change without regulatory effect renumbering former section 302.00 to section 192.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 4.26. Vehicle Dismantlers

§ 304.00. Place of Business.

Before the department can issue any temporary permit or license or allow such license to remain in force, the applicant's principal place of business and each branch location must conform to Vehicle Code Sections 320 and 11513.

(a) The office of the principal place of business and each branch location of the firm must be established to the extent that its construction is not temporary, transitory or mobile in nature, except that a trailer coach office is acceptable providing it is not a part of the dismantling inventory, and otherwise meets the requirements of Vehicle Code Section 320.

(b) Office in Private Residence. In considering any application for a vehicle dismantler's license wherein the established place of business is a part of any single or multiple-unit dwelling house, the department may require additional proof of the applicant's status as an actual dismantler pursuant to Vehicle Code Section 11514 in the form of confirmation from the local zoning authority in the city, county, or city and county, that the property is properly zoned for the conduct of such business.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320, 11513 and 11514, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 413.01 to section 304.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 304.02. Dismantler Branch Location Definition.

Dismantler Branch is any location, other than the principal place of business of the dismantler, maintained for the purpose(s) identified in Section 220 of the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 220 and 320, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 414.60 to section 304.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 304.04. Signs and Devices.

The signs or devices identifying the firm at each business location as required pursuant to Vehicle Code Section 11514 shall be of a permanent nature, erected on the exterior of the office or the dismantling area, and constructed or painted so as to withstand reasonable climatic effects. A temporary sign or device may suffice during the period of time required to obtain a permanent sign or device, providing the order for construction, purchase or painting has in fact been placed at time of submitting the application to the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11514, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 413.02 to section 304.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 304.06. Dismantling Area.

The dismantling area shall be in such proximity to the office of the dismantler to avoid confusion and uncertainty as to its relationship to the business.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320, 11501 and 11509, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 413.03 to section 304.06 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 304.08. Dismantler Report Forms.

Books and forms furnished licensed vehicle dismantlers by the department pursuant to Vehicle Code Section 11505 shall be known as dismantler's books of notice of acquisition and report of vehicle to be dismantled,

and shall be submitted pursuant to the provisions of Vehicle Code Section 11520.

(a) Dismantler's notice of acquisition shall be prepared in quadruplicate for disposition as follows:

(1) The original shall be submitted to the Department of Motor Vehicles, Division of Registration, P.O. Box 1319, Sacramento, CA 95806.

(2) The first carbon copy shall be submitted to the Department of Justice, Bureau of Identification, P.O. Box 13417, Sacramento, CA 95813.

(3) The second carbon copy shall be submitted to the appropriate local law enforcement agency, if required.

(4) The third carbon copy shall remain with the firm's business records.

(b) Dismantler's report of vehicle to be dismantled shall be prepared in triplicate for disposition as follows:

(1) The original and triplicate copy shall be submitted to the department, either at a local field office or to Department of Motor Vehicles, Division of Registration, P.O. Box 1319, Sacramento, CA 95806.

(2) The quadruplicate copy shall remain with the firm's business records.

(3) The duplicate copy is blank, and requires no disposition.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11505 and 11520, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 413.05 to section 304.08 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 304.10. Acquisition of Cleared Vehicles.

It shall not be necessary for a licensed vehicle dismantler to submit a notice of acquisition for, or to clear, any vehicle acquired from another person if such person has already notified, and cleared the vehicle with the department for dismantling provided a bill of sale has been executed to the dismantler which properly identifies such vehicle and evidence of clearance by the department such as a dismantling report number, temporary receipt number, or other proof of previous compliance with Vehicle Code Section 11520.

Any person other than a licensed dismantler who is engaged in the business of acquiring and disposing of vehicles in conjunction with metal scrap processing, shredding, salvage or other large-scale disposal operations which include vehicles acquired from licensed vehicle dismantler sources that have already cleared such vehicles for dismantling in compliance with Vehicle Code Section 11520 need not repeat clearance process if he is in possession of evidence attesting to proof of compliance pursuant to Vehicle Code Section 221(a)(4).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 221 and 11520, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 413.06 to section 304.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 304.12. Business Records.

Business records of a vehicle dismantler, which the department may inspect and copy pursuant to its authority under Vehicle Code Section 320, include but are not limited to departmental books and forms, inventory journals, documents prepared by a public entity for the ordering of towing, storing or disposal of vehicles, bills of sale, and all other documents normally executed or maintained in transactions relating to the acquisition and disposing of vehicles and parts or scrap therefrom in the conduct of the vehicle dismantling business.

(a) Business records shall be maintained for any part, component or system which has been temporarily removed from any vehicle acquired for dismantling and prior to clearance for dismantling, provided such part, component or system was removed for the sole purpose of safekeeping and the record is attached thereto which properly identifies the vehicle from which such part, component or system has been removed.

(b) Unless otherwise specified by statute, all business records relating to vehicle transactions shall be retained by the firm for a period of not less than three years.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 320 and 11520, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 413.07 to section 304.12 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 304.14. Location of Business Records.

A vehicle dismantler may, at his option, maintain the business records of the firm at the office of the principal place of business, or if the dismantler has a branch location(s), records peculiar to that branch may be maintained either at such branch location or at the principal place of business.

(a) Upon approval of the department, the records may be maintained at a business location other than as required in this section, provided a written instrument is filed with the department describing such other location and granting authorization to inspect the records thereat.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 320, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 413.08 to section 304.14 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 310.00. General Procedures When Fees Not Paid.

NOTE: Authority cited for Article 3.2: Section 1651, Vehicle Code. Reference: Section 9801, Vehicle Code.

HISTORY

1. New Article 3.2 (§§ 310.00 through 310.04) filed 8-4-71; effective thirtieth day thereafter (Register 71, No. 32).
2. Repealer filed 6-25-85; effective thirtieth day thereafter (Register 85, No. 26).

§ 310.01. Procedures When Fees Paid by Check Which Is Dishonored.

HISTORY

1. Repealer filed 6-25-85; effective thirtieth day thereafter (Register 85, No. 26).

§ 310.02. Procedures for Jeopardy Seizure.

HISTORY

1. Repealer filed 6-25-85; effective thirtieth day thereafter (Register 85, No. 26).

§ 310.03. Notice After Jeopardy Seizure.

HISTORY

1. Order of Repeal filed 6-3-85 by OAL pursuant to Government Code Section 11349.7; effective thirtieth day thereafter (Register 85, No. 26).

§ 310.04. Conduct of the Hearing.

NOTE: Authority cited: Section 1651, Vehicle Code; and Sections 11180, 11181 and 11182, Government Code. Reference: Section 9801, Vehicle Code.

HISTORY

1. Amendment of subsection (i) filed 10-4-77; effective thirtieth day thereafter (Register 77, No. 41).
2. Editorial correction (Register 81, No. 1).
3. Amendment filed 6-25-85; effective thirtieth day thereafter (Register 85, No. 26).
4. Editorial correction of NOTE filed 6-26-85 (Register 85, No. 26).
5. Change without regulatory effect renumbering former section 310.04 to section 212.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 4.3. Administrative Remedies

§ 314.00. Monetary Penalties.

(a) Dealer, Distributor, Manufacturer, Transporter, Salesperson. Payment of the following monetary penalties may be required of an occupational licensee pursuant to an agreement between the Director and the licensee entered into under the authority of Vehicle Code Section 11707:

(1) A minimum of \$15 and a maximum of \$300 for each violation of the following provisions of Vehicle Code Sections: 3064(a), 3065, 4000, 4161(a), 4456(a), 5202, 5204(a), 5350.3, 5604, 5901, 8802, 11705(a)(6), 11705(a)(7), 11705(a)(8), 11705(a)(11), 11705(a)(12), 11709, 11712.5, 11713(c), 11713(k), 11713.1(a), 11713.1(b), 11713.1(c), 11713.1(d), 11715(f), 38200(a); any other provision not set forth in this section which

establishes an administrative cause of action against an occupational licensee.

(2) A minimum of \$50 and a maximum of \$750 for each violation of the following provisions of Vehicle Code Sections: 20, 8803, 11705(a)(1), 11705(a)(2), 11705(a)(3), 11705(a)(10), 11705(a)(15), 11705.4, 11712, 11713(a), 11713(b), 11713(e), 11713(f), 11713(g), 11713(h), 11713(i), 11713(j), 11713(l), 11713.1(e), 11713.2, 11713.3, 11713.4, 11713.5(a), 11713.5(b), 11713.5(c), 11725, 11800, 11812, 11819, 11900, 24007(a).

(3) A minimum of \$100 and a maximum of \$1000 for each violation of the following provisions of Vehicle Code Sections: 4463, 5753, 11705(a)(4), 11705(a)(5), 11705(a)(9), 11705(a)(13), 11705(a)(14), 11705(a)(15), 11713(d), 11713(m), 11713(n), 11714(c).

(b) Dismantlers. Payment of the following monetary penalties may be required of a dismantler licensee pursuant to an agreement between the director and the licensee entered into under the authority of Vehicle Code Section 11509.1.

(1) A minimum of \$15 and a maximum of \$50 for each violation of the following provisions of Vehicle Code Sections: 4000, 4161(a), 5202, 5204, 5900(c), 8802, 11509(a)(3), 11509(a)(4), 11509(a)(7), 11509(a)(10), 11514(a), 11516, 11519, 11520(a); any other provision not set forth in this section which establishes an administrative cause of action against a dismantler licensee.

(2) A minimum of \$25 and a maximum of \$100 for each violation of the following provisions of Vehicle Code Sections: 20, 8803, 11509(a)(1), 11509(a)(2), 11509(a)(6), 11513, 11725.

(3) A minimum of \$50 and a maximum of \$150 for each violation of the following provisions of Vehicle Code Sections: 11509(a)(5), 11509(a)(11), 11509(a)(12).

NOTE: Authority cited: Sections 1651, 11509.1 and 11707, Vehicle Code. Reference Sections 11509.1 and 11707, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 420.00 to section 314.00 and designating article 4.3 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment filed 5-14-2001; operative 6-13-2001 (Register 2001, No. 20).

§ 316.00. Notices of Suspension.

If an occupational license is actually suspended as a consequence of fraud, intentional or deliberate illegal activity which results in actual loss or damage to a consumer, or other intentional or deliberate misrepresentation and if the disciplinary order also places the license on probation, the order may include as a term or condition of probation that departmental employees be allowed to post two notices of suspension in places conspicuous to the public on each licensed location, main or branch, of the licensee during the period of suspension. Said notices shall be 24 inches wide by 14 inches high and shall be in substantially the following form:

DEPARTMENT OF MOTOR VEHICLES
NOTICE OF SUSPENSION
THE DEALER'S LICENSE ISSUED FOR THESE
PREMISES HAS BEEN SUSPENDED FROM

THROUGH _____
BY ORDER OF THE DEPARTMENT OF
MOTOR VEHICLES FOR VIOLATION OF THE
VEHICLE DEALER'S LICENSING LAWS

Removal of this notice prior to termination of suspension or any representation to the effect that vehicle sales or purchases have been suspended for any reason other than by order of the Department shall be deemed a violation of the conditions of probation.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference Sections 11105, 11506, 11606 and 11718, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 421.00 to section 316.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.00. Vehicle Registration Records.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Division 3, Vehicle Code.

HISTORY

1. New article 3 (sections 320.00–320.13) filed 12–30–77 as an emergency; designated effective 1–1–78 (Register 77, No. 53).
2. Certificate of Compliance filed 3–22–78 (Register 78, No. 12).
3. Repealer filed 8–3–82; effective thirtieth day thereafter (Register 82, No. 32).
4. Amendment of Article 3.5, heading filed 4–24–91; operative 5–24–91 (Register 91, No. 25).

§ 320.01. Vessel Numbering and Registration Records.

HISTORY

1. Repealer filed 4–24–91; operative 5–24–91 (Register 91, No. 25).

HISTORY

1. Renumbering and amendment of former section 320.08 to section 320.38 and new section 320.08 filed 4–24–91; operative 5–24–91 (Register 91, No. 25). For prior history, see Register 79, No. 34.
2. Change without regulatory effect renumbering former section 320.08 to section 350.08 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.09. Withholding Information.

HISTORY

1. Repealer filed 4–24–91; operative 5–25–91 (Register 91, No. 25).

§ 320.10. Governmental Entity's Request for Information.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Section 1810, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Amendment filed 8–21–79; effective thirtieth day thereafter (Register 79, No. 34).
2. Repealer and new section filed 4–24–91; operative 5–25–91 (Register 91, No. 25).
3. Change without regulatory effect renumbering former section 320.10 to section 350.10 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.11. Retention of Request for Information.

NOTE: Authority cited: Section 1798.26, Civil Code. Reference: Section 1798.26, Civil Code; and Section 1810, Vehicle Code.

HISTORY

1. Amendment filed 8–21–79; effective thirtieth day thereafter (Register 79, No. 34).
2. Renumbering and amendment of former section 320.11 to section 320.48 filed 4–24–91; operative 5–24–91 (Register 91, No. 25).

§ 320.12. Priority for Processing Governmental Requests.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Order of repeal filed 6–3–85 by OAL pursuant to Government Code section 11349.7; effective thirtieth day thereafter (Register 85, No. 26).
2. New section filed 4–24–91; operative 5–25–91 (Register 91, No. 25).
3. Change without regulatory effect renumbering former section 320.12 to section 350.12 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.13. Preliminary Investigation.

HISTORY

1. Repealer filed 8–3–82; effective thirtieth day thereafter (Register 82, No. 32).

§ 320.14. Release of Information to Governmental Entity.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code; Reference: Section 1810, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 8–21–79; effective thirtieth day thereafter (Register 79, No. 34).
2. Repealer and new section filed 4–24–91; operative 5–24–91 (Register 91, No. 25).
3. Change without regulatory effect renumbering former section 320.14 to section 350.14 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.16. Information Required on a Nongovernmental Application for a Requester Code.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1808.47, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4–24–91; operative 5–24–91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.16 to section 350.16 filed 7–19–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.18. Additional Requirements for a Nongovernmental Application for a Requester Code.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.47, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4–24–91; operative 5–25–91 (Register 91, No. 25).

2. Change without regulatory effect renumbering former section 320.18 to section 350.18 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.20. Certifications Required with Nongovernmental Applications for Access to Residence Address Information.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1810, 1810.2, 1811, and 16053, Vehicle Code. Sections 1798.24 and 1798.26, Civil Code; and Cal Jur 3d 109.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.20 to section 350.20 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.22. Fees Required with an Application for a Nongovernmental Requester Code.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.22 to section 350.22 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.24. Bond Requirements with an Application for a Nongovernmental Requester Code.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1808.45, 1808.46, 1808.47, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. New section filed 4-24-91; operative 5-24-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.24 to section 350.24 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.26. Assignment of Commercial Requester Accounts, Requester Codes, and Personnel Identification Numbers to Nongovernmental Entities.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.45, 1808.46, 1808.47, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.26 to section 350.26 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.28. Nongovernmental Requester Code Holder's Request for Information.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.28 to section 350.28 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.30. Priority for Processing Nongovernmental Requests.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.30 to section 350.30 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.32. Release of Information to Commercial Requester Account Holder.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Section 1810, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.32 to section 350.32 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.34. Additional Security Requirements for On-Line Access.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.34 to section 350.34 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.36. Nonpreapproved Requests for Information.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Section 1798.26, Civil Code; Sections 1808.21, 1808.22, 1808.23, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Renumbering and amendment of former section 320.06 to section 320.36 filed 4-24-91; operative 5-25-91 (Register 91, No. 25). For prior history, see Register 79, No. 34.
2. Change without regulatory effect renumbering former section 320.36 to section 350.36 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.38. Identification of Nonpreapproved Requesters.

NOTE: Authority cited: Section 1798.26, Civil Code; Section 1651, Vehicle Code. Reference: Section 1798.26, Civil Code; Sections 1808.21, 1801.22, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Renumbering and amendment of former section 320.08 to section 320.38 filed 4-24-91; operative 5-24-91 (Register 91, No. 25). For prior history, see Register 79, No. 34.
2. Change without regulatory effect renumbering former section 320.38 to section 350.38 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.40. Release of Information to Nonpreapproved Requester.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.47, 1810, 1810.7, 1811, 1808.22 and 1808.23, Vehicle Code; Section 1798.26, Civil Code; Section 6255, Government Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.40 to section 350.40 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.42. Use of Information.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.45, 1808.46, 1808.47, 1810, 1810.7 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.42 to section 350.42 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.44. Cost of Information.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1811 and 1812, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.44 to section 350.44 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.46. Payment for Information.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4-24-91; operative 5-25-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.46 to section 350.46 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.48. Retention of Records.

NOTE: Authority cited: Section 1798.26, Civil Code; Sections 1651 and 1810, Vehicle Code. Reference: Section 1798.26, Civil Code; Sections 1808.46, 1810 and 1811, Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 320.11 to section 320.48 filed 4-24-91; operative 5-24-91 (Register 91, No. 25). For prior history, see Register 79, No. 34.
2. Change without regulatory effect renumbering former section 320.48 to section 350.48 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.50. Inspection of Records.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.46, 1810 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4-14-91; operative 5-24-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.50 to section 350.50 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.52. Refusal, Suspension or Revocation of Requester Codes.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. New section filed 4-14-91; operative 5-24-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.52 to section 350.52 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.53. Surrender of Records.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.2 and 1810.7, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. New section filed 4-24-91; operative 5-24-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.53 to section 350.53 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 320.54. Temporary Suspension of a Requester Code.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. New section filed 4-24-91; operative 5-24-91 (Register 91, No. 25).
2. Change without regulatory effect renumbering former section 320.54 to section 350.54 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 4.5. Registration Services**§ 330.00. Definitions.**

As used in this Article, the following definitions shall apply:

(a) Branch Office. Any business location where the books and records pertinent to the type of business are kept, other than the principal place of business, designated as a branch office by the holder of or an applicant for a registration service license.

(b) Client. Any person compensating a registration service for department work performed or to be performed.

(c) Mobile Office. A motor vehicle designated as the principal place of business or a branch office by the holder of or an applicant for a registration service license. A vehicle used solely to transport an employee or work materials to or from a work site is not a mobile office.

(d) Principal Place of Business. The business location where the books and records pertinent to the type of business are kept designated as the principal place of business by the holder of or applicant for a registration service license.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11401, 11405 and 11406, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.00 to section 330.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.02. Information Required on a Registration Service Application for an Original License.

(a) A complete original application for a registration service occupational license shall be submitted to any departmental Occupational Licensing Inspections Office with the fee required by Section 11409 of the Vehicle Code and any surcharge assessed by the department pursuant to Section 11350.6(n) of the Welfare and Institutions Code.

(b) The application shall be submitted on an Application for Original Occupational License for Registration Service (Part A), Form OL 601 (11/00), provided by the department. Another department-approved version of this form with a different revision date shall be acceptable if the content of the form is in substantial compliance with the requirements of this section. The application shall include the following information:

(1) The full business name under which the registration service will do business.

(2) When a corporation, the true full name of the corporation.

(3) Whether the business is a sole proprietorship, partnership or corporation.

(A) When a corporation, the corporation shall have been authorized by the California Secretary of State to transact business in California.

(4) The true full name and title of the individual owner or each partner (except limited partners) or each stockholder with 10% or more interest in the business, and each director or officer participating in the direction, control or management of the business. This information shall be completed on a Corporate Declaration, Form OL 107 (REV 4/02). If the stockholder disclosed is a corporation, each stockholder with 10% or more interest in the business must be disclosed.

(5) The address and business telephone number for the principal place of business.

(A) The address shall be a street address and shall not be a post office box.

(B) Licensees located outside California must designate a California location as the principal place of business.

(6) The name, address and telephone number for the property owner of the principal place of business.

(7) Whether the principal place of business:

(A) Is a mobile office.

(B) Is located in a residence.

(C) Meets all city and county zoning requirements.

(D) Maintains records electronically.

(8) The address and business telephone number for each branch office.

(A) The address shall be a street address and shall not be a post office box.

(9) The name, address and telephone number for the property owner of each branch office.

(10) Whether each branch office:

(A) Is a mobile office.

(B) Is located in a residence.

(C) Meets all city and county zoning requirements.

(D) Maintains records electronically.

(11) A list of all persons employed or otherwise engaged by a registration service to perform registration work which shall include:

(A) The true full name and residence address.

(B) The birth date, sex, hair color, eye color, height and weight.

(C) The driver license or identification card number and the issuing state.

(D) The date employed.

(E) The owner shall designate those employees authorized to sign a transaction form in lieu of the owner or management.

(F) A statement signed under penalty of perjury under the laws of the State of California that the list contains all persons employed and that the owner accepts full responsibility for the actions of all employees listed.

(12) A statement signed and dated by the individual owner, all partners or a corporate officer, which certifies under penalty of perjury under the laws of the State of California that all the statements made on the application and all attachments to the application are true and that the applicant agrees to notify the department in writing, pursuant to Article 4.5 in Title 13 of the California Code of Regulations, of any change in location, ownership or legal structure of the business.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11350.6, Welfare and Institutions Code. Reference: Sections 11400 and 11401, Vehicle Code; and Section 11350.6, Welfare and Institutions Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.02 to section 330.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (a), (b), (b)(11)(E) and NOTE filed 3-23-95; operative 4-24-95 (Register 95, No. 12).
3. Amendment of subsections (a)-(b), (b)(4) and (b)(11)(A)-(F) filed 7-18-2003; operative 8-17-2003 (Register 2003, No. 29).

§ 330.04. Additional Requirements for a Registration Service Application for an Original License.

(a) An Application for Occupational License (Part B) Personal History Questionnaire, Form OL 29 (9/94), provided by the department shall be completed and submitted by each person listed in Section 330.02(b)(4) with the application for an original license required by Section 330.02.

(1) Another department-approved version of this form with a different revision date shall be acceptable if the content of the form is in substantial compliance with the requirements of this section.

(b) The personal history questionnaire shall contain the following information:

- (1) The true full name of the applicant.
- (2) The residence address of the applicant.
- (3) The business and home telephone numbers of the applicant.
- (4) The physical description of the applicant including sex, color of hair, color of eyes, height, weight and birthdate.
- (5) Whether or not the applicant holds a valid California driver license.

(A) When the applicant is a holder of a valid California driver license the license number shall be provided.

(6) Any name or names the applicant has been known by or used other than the name provided in subsection (b)(1).

(7) The experience and employment record of the applicant for the past three years prior to the date the personal history questionnaire is signed and dated by the applicant.

(8) Whether or not the applicant has previously been or is currently licensed in California as a registration service; vehicle salesperson, representative, distributor, dealer, dismantler, manufacturer, remanufacturer, transporter, verifier, lessor-retailer; driving school owner, operator or instructor; traffic violator school owner, operator or instructor; or all-terrain vehicle safety training organization or instructor.

(A) When the applicant has previously been or is currently licensed as described in subsection (b)(8), each current or previous occupational license number issued to the applicant shall be provided.

(9) Whether or not the applicant has ever had a business or occupational license issued by the department or an application for such license refused, revoked, suspended, or subjected to other disciplinary action or was a partner, managerial employee, officer, director, or stockholder in a firm licensed by the department, and the license was revoked, suspended or subject to other disciplinary action.

(A) When the applicant answers yes to subsection (b)(9), the occupational license number, the type of license, the action and the date of the action taken by the department shall be provided.

(10) Whether or not the applicant has ever had a civil judgment rendered against him/her and whether or not the judgment was a result of activity of the applicant's firm licensed by the department.

(A) When the applicant answers that the judgment was a result of activity of the applicant's firm licensed by the department, the amount of the judgment and whether the judgment is paid or unpaid shall be provided.

(11) Whether the applicant was ever a partner, managerial employee, officer, director, or stockholder in a firm that had a civil judgment rendered against it and whether or not the judgment was a result of the activity of the firm licensed by the department.

(A) When the applicant indicates he/she was a partner, managerial employee, officer, director, or stockholder in a firm that had a civil judgment rendered against it and the judgment was a result of the activity of the firm licensed by the department, the amount of the judgment and whether the judgment is paid or unpaid shall be provided.

(12) Whether or not the applicant has ever declared bankruptcy or was a partner, managerial employee, officer, director, or stockholder in a firm that declared bankruptcy.

(A) When the applicant indicates he/she has declared bankruptcy or was a partner, managerial employee, officer, director, or stockholder in a firm that declared bankruptcy, the date the bankruptcy was filed and the name and location of the court of jurisdiction shall be provided.

(13) Whether or not the applicant has ever been convicted, placed on probation, or released from incarceration following conviction for any crime or offense, either felony or misdemeanor, excluding traffic offenses, within the last ten years.

(A) When the applicant indicates he/she was convicted, placed on probation, or released from incarceration following conviction for any crime or offense, either felony or misdemeanor, excluding traffic offenses, within the last ten years, each offense shall be listed with the conviction date, the court of jurisdiction and the disposition.

(14) A statement, signed and dated by the applicant which certifies under the penalty of perjury all the answers and the information contained in the personal history questionnaire are true and correct, and includes the city and state where the document was executed.

(15) The social security number of the applicant.

(c) The applicant shall submit with the personal history questionnaire a certified copy of the arresting agency report and a certified copy of the court documents for each conviction listed pursuant to subsection (b)(13)(A).

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11350.6, Welfare and Institutions Code. Reference: 42 United States Code 405(c)(2)(C); 42 United States Code 651, et seq.; Section 11401, Vehicle Code; and Section 11350.6, Welfare and Institutions Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.04 to section 330.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (a), new subsections (a)(1) and (b)(15), and amendment of NOTE filed 3-23-95; operative 4-24-95 (Register 95, No. 12).

§ 330.06. Fingerprints.

(a) Fingerprints shall be submitted by each person listed in Section 330.02(b)(4) to a Live Scan facility. A carbonized copy of the Request For Live Scan Service, Form DMV 8016 (NEW 11/99), shall be submitted with the application for an original license as required by Section 330.02.

(b) The Request for Live Scan Service application shall contain the following:

- (1) The typed or printed name of the person fingerprinted.
- (2) Any aliases used by the person fingerprinted.
- (3) The birth date of the person fingerprinted.
- (4) The birthplace of the person fingerprinted.

(5) The sex, height, weight, eye color and hair color of the person fingerprinted.

(6) The driver license or identification card number of the person fingerprinted and state of issue.

(7) The social security number of the person fingerprinted.

(8) The date the fingerprints are taken.

(9) The signature of the person taking the fingerprints.

(10) A statement that the Request for Live Scan Service, Form DMV 8016, is for the purpose of applying for a registration service license.

(11) The home address and telephone number of the person fingerprinted.

(c) Fingerprints are not required when the applicant is currently an occupational licensee of the department or the applicant is a prior occupational licensee of the department whose license has not lapsed more than three years from the date of expiration.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11401, Vehicle Code; and Section 17520(d), Family Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.06 to section 330.06 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section and NOTE filed 7-18-2003; operative 8-17-2003 (Register 2003, No. 29).

§ 330.08. Registration Service Surety Bond Requirements.

(a) Every applicant for issuance or renewal of a registration service license shall submit the bond required by Vehicle Code sections 11401 and 11402 on a Registration Service Surety Bond, form OL 605 (REV. 12/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) The name of the Principal on the surety bond shall include any and all "Doing Business As" (DBA) names used by the Principal to conduct business as authorized under the occupational license.

(c) The appointment of director as the agent for service of process as required by Vehicle Code section 11403 shall be executed on an Appointment of Director as Agent for Service of Process, form ADM 9050 (Rev. 9/2006), which is hereby incorporated by reference.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 1185 and 1189(a), Civil Code; Section 995.010, Code of Civil Procedure; and Sections 19, 11401, 11402 and 11403, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.08 to section 330.08 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section heading, section and NOTE filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7).
3. Amendment of subsection (c) and amendment of form ADM 9050 (incorporated by reference) filed 7-13-2007; operative 8-12-2007 (Register 2007, No. 28).

§ 330.10. Certification Required with an Application for an Original Registration Service License.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11403, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.10 to section 330.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Repealer filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7).

§ 330.12. Temporary Permit and License Issuance and Posting.

(a) A temporary permit may be issued to a registration service while the department is completing its investigation and determination of all facts relative to the licensing of a registration service when the department receives all the items specified in Sections 330.02 through 330.10, and after inspection and approval by the department of the principal place of business and any branch offices included in the original application.

(1) A temporary permit may be issued for each business location provided there is no apparent reason for refusal of the license.

(2) Each temporary permit shall be signed by a person described in Section 330.02(b)(4).

(3) Each business location receiving clients shall post the temporary permit in a location visible to the public.

(A) When business is conducted at other than the principal place of business or a branch location, any registration service employee shall provide upon request the original or a copy of the temporary permit.

(b) A registration service occupational license shall be issued to a registration service after the department reviews the application and the Department of Justice report, provided that the department determines all the licensing requirements of Chapter 2.5 of Division 5 of the Vehicle Code are met.

(1) A license for each business location shall be sent to the principal place of business.

(2) Each license shall be signed by a person described in Section 330.02(b)(4).

(3) Each business location receiving clients shall post the original license in a location visible to the public.

(A) When business is conducted at other than the principal place of business or a branch location, any registration service employee shall provide upon request the original or a copy of the license.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11400 and 11404, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.12 to section 330.12 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (a) and (a)(1) filed 10-2-96; operative 11-1-96 (Register 96, No. 40).

§ 330.14. Renewal of a Registration Service License.

(a) Every application for the renewal of a registration service license made by the licensee pursuant to the requirements of Section 11410(b) and (c) of the Vehicle Code shall be submitted to the department with the fee required by Section 11409 of the Vehicle Code and any surcharge assessed by the department pursuant to Section 11350.6(n) of the Welfare and Institutions Code.

(b) The renewal shall be submitted on a Registration Services License Renewal Billing Notice, Form OL 603 (2/92), or an Application for Renewal, Form OL 45 (9/94) provided by the department. Another department-approved version of either of these forms with a different revision date shall be acceptable if the content of the form is in substantial compliance with the requirements of this section. The renewal form shall include the following information:

(1) A designation as to whether the type of ownership structure is individual owner, partnership or corporation.

(2) The names and social security numbers of all owners, including individual owners, partners or corporate officers.

(3) A current business telephone number.

(4) A certification signed under the penalty of perjury by the individual owner, a partner or any corporate officer that the information is true and correct.

(c) When the application for the renewal of a registration service license is not postmarked or received at the department by midnight of the 30th day following the expiration date of the license, the licensee shall comply with all the original licensing requirements as specified in this Article.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11350.6, Welfare and Institutions Code. Reference: 42 United States Code 405(c)(2)(C); 42 United States Code 651, et seq.; Sections 11409 and 11410, Vehicle Code; and Section 11350.6, Welfare and Institutions Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.14 to section 330.14 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (a), (b), (b)(2) and NOTE filed 3-23-95; operative 4-24-95 (Register 95, No. 12).

§ 330.16. Change of Business or Corporate Name.

(a) Prior to changing the business or corporate name of a registration service, a request for change shall be submitted to the department for approval.

(b) The request shall be submitted on an Application for Changes to an Occupational License for Registration Service, Form OL 600 (8/91), provided by the department and shall include the following information:

- (1) When the business name is changing, the full prior business name.
- (2) The occupational license number.
- (3) When the corporate name is changing, the full prior corporate name.

(4) An indicator checked which discloses that the business or corporate name is being changed.

(5) The new business or corporate name.

(6) A statement, signed under penalty of perjury by the individual owner, any partner or a corporate officer, certifying that the information entered on the application is true and correct.

(c) The request shall be submitted with the following items:

- (1) The fee specified in Section 11409 of the Vehicle Code.
- (2) A copy of the meeting minutes authorizing the name change, when a corporate name is changing.

(3) A rider to the registration service's bond filed pursuant to Section 11402 of the Vehicle Code, reflecting the new business or corporate name.

(A) The rider shall be completed by the surety that issued the bond currently in effect.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11402 and 1409, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.16 to section 330.16 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.18. Addition of a Branch Office or Change of Address.

(a) Prior to adding a branch office or changing the location of the principal place of business or any branch office, a registration service shall submit a request to the department for approval.

(b) The request shall be submitted on an Application for Changes to an Occupational License for Registration Service, Form OL 600 (8/91), provided by the department and shall include the following information:

- (1) The full business name.
- (2) The occupational license number.
- (3) When a corporation, the full corporate name.
- (4) When a branch office is being added, the indicator checked which discloses that a branch is being added, the address and telephone number of the added branch and the name, address and telephone number of the property owner.

(5) When an address is being changed, an indicator checked which discloses whether the address change is for the principal place of business or a branch office, the new street address and telephone number, the prior street address and telephone number and the name, address and telephone number of the property owner.

(6) Whether the added branch or the new branch location of the principal place of business or branch office:

- (A) Is a mobile office.
- (B) Is located in a residence.
- (C) Meets all city and county zoning requirements.
- (D) Maintains records electronically.

(7) A statement, signed under penalty of perjury by the individual owner, any partner or a corporate officer, certifying that the information entered on the application is true and correct.

(c) The request shall be submitted with the fee required by Section 11409 of the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11409, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.18 to section

330.18 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.20. Employee Changes.

(a) A registration service shall notify the department not later than ten days after there is a deletion to the list of employees employed to perform registration work. When adding an employee the department shall be notified prior to the submission of any registration work by the employee. The notification shall be submitted to an Occupational Licensing Inspections Office with receipt acknowledged by a licensing inspector.

(b) The notification shall be submitted on the Registration Service Application for Employee Changes, Form OL 630 (NEW 3/26/03), and the Field Office Registration Service Employee Listing Form, OL 607A (NEW 3/26/03). The Registration Service Application for Employee Changes, Form OL 630 (NEW 3/26/03) provided by the department, shall include the following information:

- (1) The full firm name.
- (2) The occupational license number.
- (3) When a corporation, the true full name under which the firm does business.
- (4) The business address and telephone number.
- (5) The department offices to which the licensee has been assigned.
- (6) When adding an employee, the date added.
- (7) When deleting an employee, the date deleted.
- (8) The true full name and residence address for each employee added or deleted.
- (9) The driver license or identification card number and the issuing state for each employee added or deleted.
- (10) The birth date, sex, hair color, eye color, height and weight for each employee added or deleted.

(11) The owner shall designate if the employee added is authorized to sign a transaction form for the owner or management.

(12) A statement, signed under penalty of perjury under the laws of the State of California that the owner accepts full responsibility for the actions of all employees added and the employees added are employees of the business and certifying the information given is true and correct.

(c) The Field Office Registration Service Employee Listing, Form OL 607 A (NEW 3/26/2003), provided by the department, shall include the following:

- (1) The full firm name.
- (2) The occupational license number.
- (3) The business address and telephone number.
- (4) A new and complete listing of all employees authorized to submit registration work including:
 - (A) The true full name.
 - (B) Date of birth.
 - (C) Driver license or identification card number.
 - (D) State of issuance of driver license or identification card.
 - (E) Whether or not the employee listed is authorized to sign for the owner or management of the business.

(5) A statement, signed under penalty of perjury under the laws of the State of California, that the owner, partner, or officer of the corporation or limited liability corporation member accepts full responsibility for the actions of all employees listed as well as those employees given authority to sign for the owner or management and certifying the information is true and correct.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11401, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.20 to section 330.20 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment filed 7-18-2003; operative 8-17-2003 (Register 2003, No. 29).

§ 330.21. Change of Ownership.

(a) A change of registration service ownership occurs when any person designated as a licensee has changed, other than a corporate officer change as described in Section 330.22.

(1) The existing licensee of a registration service shall notify the department within 10 days prior to the effective date of a change of ownership.

(b) Any person holding a registration service license shall notify the department within 10 days prior to the effective date of a change of ownership.

(1) The notification shall be in writing and shall specify the effective date of the change of ownership.

(c) When a change of registration service ownership occurs, the documents and fees required by Section 11409 of the Vehicle Code and Sections 330.02, 330.04, 330.06, 330.08, and 330.10 shall be submitted to the department to apply for a new license.

(d) The provision of Sections 330.52(b) and 330.58(b), (c) and (d) for a registration service which voluntarily goes out of business shall also apply to a registration service when a change of ownership occurs.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11490, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.20 to section 330.21 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.22. Change in Corporate Officer Structure.

(a) A registration service shall notify the department of a change in the corporate structure not later than 10 days after the effective date of the change.

(b) The notification shall be made by submitting to the department a copy of the corporate minutes affixed with the corporate seal reflecting the change or an Application for Changes to an Occupational License for Registration Service, form OL 600 (8/91), provided by the department containing the following information:

(1) The name of the corporation.

(2) The occupational license number.

(3) The true full name and title of each controlling stockholder, officer or director of the corporation added or deleted with the date of the addition or deletion.

(4) A statement, signed under penalty of perjury by a corporate officer, certifying that the information entered on the application is true and correct.

(c) The notification shall be submitted with the following items:

(1) The fee required by Section 11409 of the Vehicle Code.

(2) A completed personal history questionnaire as specified in Section 330.04, for each controlling stockholder, officer or director added to the corporate structure.

(3) A completed fingerprint card as specified in Section 330.06, for each controlling stockholder, officer or director added to the corporate structure.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11401 and 11409, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.22 to section 330.22 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.24. Signs.

(a) Each registration service shall display a sign that includes the full name of the service as shown in departmental records at the principal place of business or any branch office receiving clients.

(b) Each registration service shall display a sign, pursuant to subsection (a), on the office door and the on the building directory, when there is such a directory, at the principal place of business or any branch office receiving clients which is located in a building housing more than one business.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11401, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.24 to section 330.24 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.26. Advertising.

(a) Each registration service shall provide in all media of advertising and telephone listings, the following information:

(1) The business name of a registration service as shown in department records and the address of the principal place of business or a branch office, or

(2) The business name of a registration service as shown in department records and the registration services' occupational license number issued by the department.

(b) No registration service advertisement or statement shall indicate in any way that a registration service can issue or guarantee the issuance of any department documents, or imply in any way that the registration service can influence the services of the department, affect the client's obligations to the state or obtain any preferential or advantageous treatment from the department.

(c) No registration service shall state or imply that the service can obtain reduced departmental fees.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 25 and 11405, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.26 to section 330.26 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

2. Repealer of subsection (c) and subsection relettering filed 3-23-95; operative 4-24-95 (Register 95, No. 12).

3. Repealer of subsection (c) and subsection relettering filed 10-2-96; operative 11-1-96 (Register 96, No. 40).

§ 330.28. Additional Services Provided.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 505.2 and 11400, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.28 to section 330.28 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

2. Repealer filed 10-29-97; operative 11-28-97 (Register 97, No. 44).

§ 330.30. Compensation Received by a Registration Service.

(a) A list of the costs for work performed by a registration service for each type of transaction shall be conspicuously posted in a place visible to the public at each business location receiving clients.

(1) When alternative methods are used to determine costs, the list of costs shall also contain a description of the alternative methods.

(b) When clients are not received at a business location, a copy of the list of costs shall be provided by the registration service to each client prior to accepting a transaction or any compensation.

(c) The list of the costs shall not include any fees due to the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: 11406, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.30 to section 330.30 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.32. Submitting Fees and Documents to the Department.

(a) The submission to a registration service by a client of fees due to the department does not constitute receipt of the fees by the department.

(b) Whenever a registration service receives any fees due to the department for a registration transaction, the registration service shall submit the fees with any documents available for the registration transaction to the department within seven departmental business days of the receipt of the fees.

(1) Notwithstanding subsection (b) above, no registration service shall delay submitting the fees with any documents available for the registration transaction to the department when such a delay would cause the fees to be subject to penalty by the department, except when specifically authorized by the client to delay submission, and provided that the authorized delay does not cause the submission to exceed seven departmental business days from the receipt of the fees.

(A) The registration service shall maintain in their records documentation of a client's authorization to delay submission of fees or documents.

(2) Fees and documents submitted by the service through the mail shall be considered received by the department by midnight of the postmark date.

(3) Fees and documents submitted in person during the business hours of the department shall be considered received the same day.

(4) Fees and documents left at a departmental office after the close of business and found upon start of business the next business day shall be considered received by the department by midnight of the previous business day.

(c) All transactions submitted to the department shall be submitted on the transaction authorization agreement form as described in Title 13, Section 330.42, California Code of Regulations, unless exempted as described in subsection (j), (k), (l), or (m) of Section 330.32.

(d) A registration service shall submit registration work only to an office the registration service has been assigned to by the department.

(e) Registration service employees shall present their state issued driver licenses and/or identification cards when requested by a department employee. The department employee shall verify, using the list provided by the registration service identified in Section 330.02, that the individual has been identified by the licensee as an employee of the registration service. A department office shall not process transactions submitted by an individual not specified by the licensee as an employee of the registration service or an individual who refuses to provide identification to a department employee as described in this section.

(f) A client check made payable directly to the department shall be submitted by the registration service to the department solely for the transaction(s) for which the check was written.

(g) Documents submitted with missing or incomplete information shall be returned to the registration service for completion.

(h) Except as provided under subdivision (c) of Vehicle Code Section 4466, a registration service shall not submit an application for substitute or duplicate license plates unless the transaction is processed for a dealer and contains a vehicle report of sale; or is submitted for a member of the International Registration Plan (IRP) or Permanent Fleet Registration (PFR).

(i) All transactions must be submitted on a transaction authorization agreement as described in Section 330.42, and completed and signed by the client and the owner or employee authorized to sign for the owner or management identified on the employee listing described in Section 330.02(b)(11)(E) and/or Section 330.20(b)(11). A registration service that is a participant in the Business Partner Automation Program and only submits registration transactions electronically to the department is excluded from this requirement. A registration service submitting a transaction for a vehicle registered in the International Registration Plan (IRP), Permanent Fleet Registration Program (PFR), or Permanent Trailer Identification Program, or a vehicle registered as special equipment is excluded from this requirement.

(j) An information request submitted on a Registration Information Request for Lien Sale, form INF 1126 (REV 1/99), is excluded from the requirements in subdivision (i) of this section.

(k) A request for authorization to conduct a lien sale submitted on an Application for Lien Sale Authorization and Lienholder's Certification, form REG 656 (REV 1/99), is excluded from the requirements in subdivision (i) of this section.

(l) A registration service who enters into a contractual agreement with a dealer or dismantler, vessel agent, or lessor-retailer using the Registration Transaction Authorization Agreement, Occupational Licensee/Vessel Agent, Form REG 600A (New 3/26/03), is excluded from the requirement identified in subdivision (i) of this section, provided the agreement is maintained in the records of the principle place of business and the transactions are submitted on the approved listing sheet as described in Title 13, Section 330.44, California Code of Regulations.

(m) Registration transaction of an identical transaction type submitted for an individual registered owner and/or transactions submitted for a fi-

ancial institution identified as the legal owner on the certificate of title of the vehicle may be submitted on the Transmittal of Registration Applications, Form FO 247 (REV 5/97), provided each transmittal is accompanied by a completed Transaction Authorization Agreement, Form REG 600 (New 3/26/2003).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 4466 and 11406, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.32 to section 330.32 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (b)(1), (b)(4), (c) and (d) and new subsections (e)-(m) filed 7-18-2003; operative 8-17-2003 (Register 2003, No. 29).
3. Change without regulatory effect amending subsection (h) and NOTE filed 2-8-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 6).

§ 330.34. Subcontracting and Responsibility.

(a) No person other than an owner or an employee of a registration service shall perform work on a registration service transaction.

(b) The registration service initially accepting the compensation paid by the client is responsible for all the work performed on each registration service transaction submitted to the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 505.2 and 11406, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.34 to section 330.34 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (a), repealer of subsection (b), subsection relettering, and repealer of subsection (d) filed 10-2-96; operative 11-1-96 (Register 96, No. 40).

§ 330.38. Withholding Documents or Operating Authority.

A registration service shall not claim ownership or withhold from any client anything issued to the client by the department through the efforts of the registration service.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11405, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.38 to section 330.38 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.40. Release of Information.

A registration service shall keep confidential pursuant to Sections 1808.21, 1808.45, 1808.46 and 1808.47 of the Vehicle Code any name and address information obtained from departmental documents or records.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11406, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.40 to section 330.40 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.42. Information for Clients.

(a) In addition to the requirements of Vehicle Code Section 11406, for every transaction a registration service shall complete a Registration Transaction Authorization Agreement, Form REG 600 (New 3/26/03), provided by the department.

(b) The authorization agreement shall include the following information:

(1) A statement that "THIS IS NOT AN OPERATING PERMIT" shall appear in capital letters.

(2) A unique preprinted number assigned by the department.

(3) The name and occupational license number of the registration service.

(4) The identity of each vehicle by the vehicle identification number, year, make, type, and license plate number.

(5) The type of registration transaction.

(6) The true full name and signature of the client.

(7) The residence address and daytime telephone number of the client.

(8) The driver license or identification card number and state of issue of the client.

(9) The signature of the registration service employee verifying the identity of the client.

(10) The estimated department fees collected.

(11) The service charge (fee), total DMV fees, and date collected by the registration service.

(12) The method of payment by the client.

(13) The printed name of the registration service employee who prepared the documents included in the transaction.

(14) The name, business address, business telephone number, and signature of the registration service owner or employee authorized to sign for the owner or management as described in Section 330.02(b)(11)(E) and 330.20(b)(9).

(15) The true full name and signature of the authorized registration service employee.

(16) A final statement of fees collected including: prior department fees collected, additional department fees collected, total department fees, department fees refunded, reason for refund (including dates for each), total service fee collected, and method of payment.

(c) The authorization agreement shall be used exclusively, in numerical sequence, by the registration service to whom it was issued. It shall not be transferred to another registration service.

(d) The agreement form shall be used by the registration service to record all transactions except those excluded by Title 13, Section 330.32, California Code of Regulations.

(e) The authorization agreement shall be prepared in triplicate for distribution as follows:

(1) The original shall be submitted with the registration documents to the assigned department office.

(2) The duplicate copy shall be provided to the client prior to submission of the original to the department.

(3) The triplicate copy shall remain with the firm's business records at the principal place of business.

(f) The registration service shall maintain a record in numerical order of each Registration Transaction Authorization Agreement, Form REG 600 (NEW 3/26/2003), issued, voided, or lost. For each agreement voided, the record shall indicate the date voided. For each agreement or group of agreements lost, the record shall indicate the date lost, and the series numbers of the agreement(s). The registration service shall notify the department in writing within 2 business days from the date of the discovery of the loss. A copy of the report of loss shall be retained with the record.

(g) Authorization agreements shall not be duplicated or reproduced for any purpose.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11406, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.42 to section 330.42 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Repealer and new subsection (a), repealer of subsection (b), subsection relettering, and amendment of newly designated subsections (a)(1), (b) and (c) filed 10-2-96; operative 11-1-96 (Register 96, No. 40).
3. Amendment filed 7-18-2003; operative 8-17-2003 (Register 2003, No. 29).

§ 330.44. Listing Sheet for Transmitting Registration Documents.

(a) Pursuant to Section 11406(b) of the Vehicle Code, the listing sheet approved by the department shall be the Transmittal of Registration Applications, Form FO 247 (REV 5/97) provided by the department.

(b) The listing sheet shall include the following information:

(1) The full business name of the principal place of business or the branch office of the dealer or dismantler for whom the transactions are submitted.

(2) The mailing address of the principal place of business or the branch office of the dealer or dismantler for whom the transactions are submitted.

(3) The occupational license number of the dealer or dismantler for whom the transactions are submitted.

(4) The occupational license number of the registration service.

(5) The printed name of the registration service representative submitting the transactions.

(6) The telephone number of the dealer or dismantler for whom the transactions are submitted.

(7) The telephone number of the registration service.

(8) Whether the department will prepare a refund check or a credit receipt for any overpayment.

(9) Whether, after processing by the department, the listing sheet and documents will be mailed to the address in subsection (b)(2) or will be picked up by the registration service.

(10) A list of all transactions submitted with the listing sheet which shall be grouped by new and used vehicles and shall include for each transaction:

(A) The vehicle identification number or the California license plate number.

(B) The last name followed by the first initial of each buyer.

(C) The dealer report of sale number or the dismantler acquisition number.

(D) Whether the transaction is for a new or used vehicle.

(E) The date of the sale.

(F) The amount of departmental fees collected by the dealer or registration service.

(G) The receipt number and the amount of the receipt when a credit receipt was issued by the department for fees previously submitted for a vehicle.

(H) The amount of cash or check submitted.

(I) The total amount of credit, cash or check submitted.

(J) The amount of the refund when a check is due.

(11) The signature of the registration service representative submitting the transactions.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11406 and 11407, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.44 to section 330.44 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (a) and NOTE filed 7-18-2003; operative 8-17-2003 (Register 2003, No. 29).

§ 330.46. Incomplete Transactions.

(a) Prior to returning any incomplete transaction to a client, a registration service shall send a written request to the client for any documents, compensation or departmental fees necessary to complete the transaction.

(1) Each registration service shall retain in their business records a copy of the written request with the date the request was sent to the client.

(2) The registration service shall allow the client a minimum of 45 days to respond from the date the request was sent.

(A) The registration service shall indicate on the request the date by which the client must respond.

(b) When the client fails to contact the registration service or to submit the documents, compensation or departmental fees requested pursuant to subsection (a) by the designated date, the registration service shall return the incomplete transaction, including all receipts for departmental fees paid, to the client.

(1) Each transaction shall be returned to the last known address of the client by registered mail no later than 60 days following the date the request was sent to the client.

(2) The registration service shall retain in their business records the date the transaction was mailed to the client.

(c) When the registered mail sent pursuant to subsection (b) is returned unclaimed to the registration service, the transaction shall be forwarded with the unclaimed envelope to the department's Registration Processing Unit, PO Box 942869, Sacramento, CA 94269-0001, within 10 days of the date the mail was returned unclaimed to the registration service.

(1) The incomplete transaction shall be forwarded with the registration service's name, address, and occupational license number, the reason(s) the transaction could not be completed by the registration service, and the date of any attempt to contact the client.

(2) The registration service shall retain in their business records the date the transaction was returned unclaimed to the registration service and the date the transaction was forwarded to the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11406.5, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.46 to section 330.46 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (a), (a)(2)-(b)(1) and NOTE filed 3-23-95; operative 4-24-95 (Register 95, No. 12).
3. Amendment of subsection (a)(1) filed 7-18-2003; operative 8-17-2003 (Register 2003, No. 29).

§ 330.48. Maintenance and Inspection of Business Records.

(a) A registration service shall maintain the business records required to be retained by Section 11406 of the Vehicle Code and Sections 330.32, 330.42 and 330.46 for four years from the date the transaction, any departmental fees, or any compensation was last received from the client, whichever is the latest date.

(b) A registration service shall maintain the business records required to be retained by Section 11406 of the Vehicle Code and Sections 330.32, 330.42 and 330.46 at the principal place of business, except when the service has branch locations, records peculiar to each branch shall be maintained at the appropriate branch location.

(c) Upon approval by the department, records retained pursuant to subsection (a) may be maintained at a business location other than as required in subsection (b), provided that:

(1) The records are over 12 months old from the date the transaction, any departmental fees, or any compensation was last received from the client, whichever is the latest date; and

(2) A written request is submitted to the department specifying the location where the business records shall be maintained and granting the department authorization to inspect the records at the specified location.

(d) All business records maintained pursuant to this section shall be available for inspection by departmental employees at any business location specified by the department upon one business day's notice by the department, except as provided in Section 330.50(c)(1).

(e) The business records shall be maintained or retrievable by the unique identifying number on each department approved transaction authorization agreement form except as specified in Title 13, Section 330.32(g) and provided the listing sheet as described in Title 13, Section 330.44, California Code of Regulations, is maintained.

(f) The registration service shall ensure business records are stored and secured in such a manner that the confidentiality of client information is maintained.

(g) Business records that are maintained by the approved listing sheet shall be kept in date order.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11406 and 11407, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.48 to section 330.48 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. New subsections (e)-(g) filed 7-18-2003; operative 8-17-2003 (Register 2003, No. 29).

§ 330.50. Electronic Maintenance of Records.

(a) When a registration service electronically maintains any of the records required to be retained by Section 11406 of the Vehicle Code and Sections 330.32, 330.42 and 330.46, it shall be indicated on the original application required by Section 330.02.

(b) When a registration service, subsequent to the submission of the original application to the department, initiates electronic maintenance for any of the records required to be retained by Section 11406 of the Ve-

hicle Code and Sections 330.32, 330.42 and 330.46, the registration service shall notify the department in writing not later than 10 days after beginning electronic maintenance.

(1) The notification shall include the address of the principal place of business or any branch office initiating electronic maintenance with the effective date of the maintenance.

(c) Any registration service electronically maintaining records required to be retained by Section 11406 of the Vehicle Code and Sections 330.32, 330.42 and 330.46, shall provide to the department at no charge a paper copy of the business records at any business location specified by the department.

(1) The paper copy shall be provided upon seven business days notice by the department.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11406 and 11407, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.50 to section 330.50 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.52. Registration Service Voluntarily Out of Business.

(a) When a registration service voluntarily goes out of business, the service shall notify the department's local Division of Investigations and Occupational Licensing office not later than the first departmental business day after the closing date.

(1) The notification shall include the date of the last day of business for the registration service.

(b) When a registration service voluntarily goes out of business, the registration service shall be responsible for completing all pending transactions prior to the closure of the business.

(1) When a registration service fails to complete any pending transactions, the service shall notify in writing not later than the third departmental business day after the closing date all clients whose transactions were not completed prior to closure of the business.

(A) The client notification shall include the date of the last day of business for the registration service, a statement that all transactions pending with the registration service are required to be delivered to the department's local Division of Investigations and Occupational Licensing office not later than the third departmental business day following the service's last day of business, and the address and phone number of the local office.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 505.2 and 11407, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.52 to section 330.52 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.54. Refusal to Issue, Suspension, Revocation or Cancellation of a License.

(a) In addition to the conditions specified in Sections 11405 and 11408 of the Vehicle Code, the department may suspend, revoke, or refuse to issue a license to act as a registration service for any of the following reasons:

(1) The registration service wrote a check to the department that was thereafter dishonored when presented for payment.

(2) The registration service violated any of the provisions contained in this Article.

(b) A registration service license may be canceled by the department when the license was issued through error.

NOTE: Authority cited: Sections 1651, Vehicle Code. Reference: Section 11405 and 11408, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.54 to section 330.54 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.56. Notices of Suspension.

(a) When a registration service license is suspended pursuant to Vehicle Code Sections 11405 and 11408 or Section 330.54, it may be a condition of suspension that departmental employees be allowed to post two

notices of suspension in places conspicuous to the public on each licensed location where clients are received.

(1) The notices shall remain posted until the termination of suspension.

(2) The notices shall contain the following information:

DEPARTMENT OF MOTOR VEHICLES
NOTICE OF SUSPENSION
THE REGISTRATION SERVICE LICENSE
ISSUED FOR THESE PREMISES
HAS BEEN SUSPENDED FROM
(date) THROUGH (date)
BY ORDER OF THE DEPARTMENT OF MOTOR VEHICLES
FOR VIOLATION OF THE REGISTRATION SERVICES
LICENSING LAWS

Removal of this notice prior to termination of suspension or any representation to the effect that registration services have been suspended for any reason other than by order of the department shall be deemed grounds for further action.

FOR FURTHER INFORMATION CALL
(telephone number of the local investigation office).

(b) In addition to posting the notices as specified in subsection (a) and in lieu of posting notices at those registration service locations not receiving clients, it may be a condition of suspension that the department publish a notice of suspension in any newspaper to be selected by the department.

(1) The published notices shall contain the following information:

NOTICE OF SUSPENSION

The registration service license issued for (name of business) located at (address of business) is suspended from (date) through (date) by order of the Department of Motor Vehicles for violation of the registration service licensing laws.

For further information call (telephone number of the appropriate district investigation office).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11408, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.56 to section 330.56 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (a) and (b) filed 10-2-96; operative 11-1-96 (Register 96, No. 40).

§ 330.58. Surrender of Records.

(a) When the license of a registration service is suspended or revoked pursuant to Sections 11405 or 11408 of the Vehicle Code or Section 330.54, all records retained pursuant to Section 11406 of the Vehicle Code and Sections 330.32, 330.42 and 330.46, any pending client transactions or fees, and all department issued licenses and supplies shall be surrendered to the department.

(1) These items shall be surrendered to the department's local Division of Investigations and Occupational Licensing office not later than the end of the day on which the suspension or revocation takes effect.

(b) When a registration service voluntarily goes out of business, all records retained pursuant to Section 11406 of the Vehicle Code and Sections 330.32, 330.42, and 330.46, any pending client transactions or fees, and all department issued licenses and supplies shall be surrendered to the department.

(1) These items shall be delivered to the department's local Division of Investigations and Occupational Licensing office not later than the end of the third business day following the last day of business for the service.

(c) The department shall provide a no fee copy of the surrendered records to the registration service not later than 30 days from the date of surrender, provided the registration service submits a written request to the department at the time of surrender.

(d) When any incomplete transactions which were returned to the client pursuant to Section 330.46(b) are returned unclaimed to a registration

service after the other records have been surrendered, the procedures in Section 330.46(c) and (c)(1) shall apply.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11405 and 11408, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 450.58 to section 330.58 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 330.60. Certificate of Convenience.

(a) The department may issue a certificate of convenience upon the death of an individual owner, or a partner, or all the corporate officers of a registration service which will allow the business of the registration service to continue until the estate is settled providing that a certified copy of the death certificate is filed with the department.

(b) The certificate of convenience shall be issued to the executor, executrix, administrator, administratrix, surviving spouse or other heir entitled to conduct the business of the deceased.

(c) When the estate is settled, any owner of the business shall comply with the original licensing requirements specified in this Article.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11401, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 450.60 to section 330.60 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 4.6. Driving Schools and Instructors

§ 340.00. Licenses.

(a) A license to own or operate a driving school shall not include the right to give driving instructions.

(b) A license to give driving instruction for driving schools will be limited to giving such instruction while in the employ of the driving school named in the application. The instructor's license must be readily available in the office for each school he may represent and surrendered to the department by the driving school when the instructor becomes inactive, transfers to another school or when the license is expired, canceled, suspended or revoked.

(c) An identification card will be issued with all driving instructor licenses which shall be in the possession of the licensee at all times while accompanying a student. When an instructor becomes inactive, transfers to another school, or the license is expired, cancelled, suspended or revoked, he/she shall immediately surrender to his/her employing driving school his/her instructor's identification card. The employing driving school is then responsible for surrendering the ID card to the department within 30 days after such event. If an instructor fails or refuses to surrender the ID card, the employing driving school may so notify the department, in writing, in lieu of satisfaction of the requirement that the school surrender the ID card itself.

(d) A licensed instructor may transfer from one driving school to another upon filing of the proper application with the department, payment of the required fee, and surrender of his/her instructor's identification card, as required in (c), above. Application for such transfer must be on file with the department on or before the effective date of the transfer.

(e) An instructor may be licensed to more than one school provided that a written statement from each employing school operator is submitted to the department acknowledging such employment.

(f) The license to own or operate a driving school shall be prominently displayed in the place of business of the driving school.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 1651, 11100, 11104, 11105 and 11105.5, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.00 to section 340.00 and amendment of article heading filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 340.10. Applications.

All applications for licenses under Chapter 1, Division 5 (commencing with Section 11100) of the Vehicle Code shall be made on forms fur-

nished by the department. All applications for original licenses shall be accompanied by two clear sets of fingerprints on standard fingerprint cards. All applications for renewal of instructor licenses shall be accompanied by a medical examination report at least every three years. Evidence of possession of a valid Medical Examiner's Certificate may be accepted in lieu of the medical examination report.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 1652, 11100, 11102, 11102.5, 11104, 11105, 11105.1 and 11105.5, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.10 to section 340.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 340.13. Driving School Owner or All-Terrain Vehicle Safety Training Organization Principal Surety Bond Requirements.

(a) Every applicant for issuance or renewal of a driving school owner or all-terrain vehicle safety training organization principal occupational license shall submit the bond required by Vehicle Code section 11102 on a Driving School Owner or All-Terrain Vehicle Safety Training Organization Principal Surety Bond, form OL 218 (REV. 11/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) The true, full name of the driving school owner or all-terrain vehicle safety training organization principal, and any doing business as (DBA) names under which the licensed activity is conducted, shall be entered on the bond.

(c) The appointment of director as the agent for service of process required by Vehicle Code section 11102(a)(5) shall be in the form required under subdivision (c) of Section 330.08 of Title 13, California Code of Regulations.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 995.010, Code of Civil Procedure; and Section 11102, Vehicle Code.

HISTORY

1. New section filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7).

§ 340.15. Insurance Requirements.

The certificate of insurance required by Vehicle Code Section 11103 shall be on a form prescribed by the department. A new insurance certificate must be on file with the department before the expiration of a prior one. An insurance certificate will not be required of those schools that offer classroom instruction only.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 1652 and 11103, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.15 to section 340.15 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 340.20. Place of Business.

(a) Each applicant for licensing as a driving school owner shall designate his/her place of business or branch location(s). Upon inspection and approval by the department, separate locations used by the school exclusively as classrooms will be granted an exemption from licensing as separate places of business.

(b) A driving school branch location is any location, other than the principal place of business, maintained to provide driving school services. A branch location must comply with the requirements of Sections 320 and 11102(a)(3) of the California Vehicle Code. Upon approval of the department, the records may be maintained at another business location, provided a written instrument is filed with the department describing such other location.

(c) A driving school's established place of business and branch location(s) shall have erected or posted thereon outdoor and/or indoor signs or devices providing information stating the school's name, address, and office hours. Every such sign erected or posted on an established place of business or branch location(s) shall have an area of not less than two square feet per side displayed unless size is restricted by building lease

agreement or local ordinance, and shall contain lettering of sufficient size to enable the sign or device to be read from a distance of at least 50 feet for an outdoor sign or 10 feet for an indoor sign.

(d) In the absence of the operator, the person left in charge of the office during the posted office hours shall be fully qualified and authorized to give pertinent information to the public concerning lessons and accounts and to give information to any representative of the department concerning the operation of the school.

(e) At least twenty-four hours notice must be given the department before any change in posted office hours.

(f) Each school shall file an application with the department accompanied by the required fees for any change of address of a driving school ten days before opening for business at any new location.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Sections 320, 1651, 11102, 11105.2 and 11113, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.20 to section 340.20 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 340.25. Driver Education Courses for Minors.

(a) Any driver education course to be conducted for minors by a licensed driving school must be specifically approved by the department prior to the commencement of the course.

(b) Approval for conducting driver education courses shall be contingent upon the school meeting and maintaining the following requirements:

1. All driver education instruction shall be conducted in a classroom approved by the department.
2. All classroom instruction shall be taught by a licensed instructor.
3. Lesson plans must be approved by the department.
4. Each student may receive a maximum of seven (7) hours of instruction per day.
5. The schedule of classes including dates and times shall be filed with the department before any course begins.
6. Provide a minimum of 16 sq. ft. of floor space per student.
7. Provide adequate seating and writing facilities such as desks and chairs or tables and chairs.
8. Provide adequate lighting.
9. Have available in good working condition at least one of the following: 1) video recorder, 2) motion picture projector, 3) slide projector, or, 4) film strip projector. The school must also have a chalk board or a magnetic board.
10. Use at least five (5) motion picture films, video tapes, film strips, or slide presentations or any combination thereof approved by the department. The total presentation(s) must provide at least 100 minutes of actual viewing time.
11. Use textbooks approved by the department and provide one book per student participating.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Section 11113, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.25 to section 340.25 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 340.27. Certificates of Completion for Minors.

(a) Each driving school shall be held accountable for any Certificate of Completion, forms OL 237, OL 238 and OL 239, issued to the school. Form OL 214 used for such accounting shall be furnished by the department. Each certificate issued shall be recorded in numerical sequence giving the number of the certificate, the full name of the student, and the date the certificate was issued. Whenever the school goes out of business all such records of certificates issued shall be surrendered to the department along with any unused certificates.

(b) Certificates of Completion shall not be issued for any minor who does not complete the training required by Section 12814.6(a)(4)(B) of the Vehicle Code. Upon request of a minor student withdrawing from a course of instruction prior to completion of such course, the school shall

issue the student a certified copy or transcript of his instructional record which shall show the amount and type of training given.

(c) Any driving school providing the required training course to students described in paragraph (b) of this section shall retain a copy or transcript of each student's record as evidence of the total hours of training he/she has received. A Certificate of Completion may then be issued by the driving school for each student completing the required course of instruction.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Sections 1652, 11108, 11113 and 12814.6, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.27 to section 340.27 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Change without regulatory effect amending subsections (b) and (c) and NOTE filed 2-25-99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 9).

§ 340.30. Equipment.

(a) Passenger Vehicles. A certificate stating that each training vehicle has been inspected and is in safe mechanical condition shall be submitted to the department by each driving school operator before a driving school license may be issued or renewed. Exception: Upon renewal, a new certificate may not be required if the vehicle(s) was inspected within 120 days of renewal and such certification is on file with the department. The inspection and certificate must be completed by a person licensed to repair automobiles by the Bureau of Automotive Repair or by an employee of a repair facility licensed by the Bureau of Automotive Repair. The certificate must bear the signature and business address of the person making the inspection. A separate certificate must be submitted for each vehicle. Forms for this purpose shall be furnished by the department. Vehicle inspection certificates will be required on all replacement or added vehicles before they may be used in driver training.

(b) Commercial Power Units—Tractors. A certificate (CHP form 407B Rev. 1-81) stating that each training vehicle has had a critical item truck inspection and is in safe mechanical condition shall be submitted to the department by each driving school operator before driving school license may be issued or renewed. Further, the inspection and certificate must be completed every ninety days by a member of the California Highway Patrol certified to perform critical item truck inspections. A separate certificate must be submitted for each vehicle. Critical item truck inspection certificates will be required on all replacement or added vehicles before they may be used in driving training.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Sections 11102 and 11109, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.30 to section 340.30 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 340.40. Advertising.

(a) The full official name of a driving school and the address of its established place of business or branch location(s) as shown in department records, or the school's occupational license number shall be used in all media of advertising and telephone anchor listings. Where a display advertisement appears in the yellow pages of the telephone directory, the address of the driving school's established place of business may be omitted from the display advertisement provided that,

- (1) the school's address is listed in the directory's anchor listing; and
- (2) the driving school's occupational license number is prominently displayed in the advertisement in lieu of the address.

(b) No driving school advertisement shall indicate in any way that a school can issue or guarantee the issuance of a driver's license or imply that the school can in any way influence the department in the issuance of a driver's license or imply that preferential or advantageous treatment from the department can be obtained.

(c) No licensed school shall advertise that it is approved by the department.

(d) The length of each lesson or course shall be clearly stated whenever the cost for such lessons or course is quoted or advertised.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11110, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.40 to section 340.40 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 340.45. Instruction.

(a) No licensee may conduct or permit any employee to conduct behind-the-wheel driving lessons in excess of two (2) hours per day for any person seeking to satisfy the requirements of Vehicle Code Section 12814.6. Advanced driver training of over two (2) hours per day may be given to any such person who has completed a minimum of six (6) hours of driver training except that no such previously unlicensed persons shall be given more than four (4) hours of behind-the-wheel training in any one day. Exceptions to this limitation may be granted under special circumstances with prior approval by the department.

(b) No licensee may conduct or permit any employee to conduct behind-the-wheel instruction upon a highway for any person who does not have in his immediate possession a valid instruction permit (Student License, DL Form 118) or driver license.

(c) No licensee may conduct or permit any employee to conduct behind-the-wheel instruction on a specific drive test route of any departmental office.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Sections 11113 and 12814.6, Vehicle Code; and Section 51220, Education Code.

HISTORY

1. Change without regulatory effect renumbering former section 400.45 to section 340.45 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Change without regulatory effect amending subsections (a) and (b) and NOTE filed 2-25-99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 9).

§ 342.00. Subject Matter of Driving Instructor Training Course.

The curriculum of any course of driving instructor training which will receive departmental approval must include the following subject matter.

Qualifications of a Professional Driving Instructor.

First Aid Relating to Vehicle Accidents.

Teaching Techniques for Training Drivers.

The Driving Privilege, Licensing and Controls.

Rules of the Road and Civil Liability Relating to Owning and Operating Motor Vehicles.

Motor Vehicles, Equipment and Maintenance.

Physical and Mental Capabilities of Drivers.

Physical Laws Affecting the Operation of Vehicles.

Student Orientation to Motor Vehicle Features and Controls.

Teaching Driving Skills.

Teaching Defensive Driving.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Sections 11102.5, 11104 and 11113, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.00 to section 342.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 342.02. Departmental Approval of Instructor Training Course.

All textbooks, visual aids, course curriculum and lesson plans used in instruction shall be approved by the department.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Section 11113, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.02 to section 342.02 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 342.03. Course Monitoring by Department.

Schools shall submit to the department their schedule of driving instructor training courses. Department personnel may monitor all courses offered at any time.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Sections 1651 and 11113, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.03 to section 342.03 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 342.04. Proof of Satisfactory Completion.

Each student who successfully completes a driving instructor training course shall be furnished with a certificate evidencing such successful completion bearing the date on which the course was completed and the type of training received.

NOTE: Authority cited: Sections 1651 and 11113, Vehicle Code. Reference: Sections 11104 and 11113, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.04 to section 342.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 342.05. Continuing Professional Education.

In lieu of a renewal examination every three-year period as provided in Sections 11105(b)(2) and 11105.1(b)(2) of the Vehicle Code, the department will accept evidence of completion within two (2) years of a college level course equivalent to two (2) semester units. The department will accept participation in appropriate courses and seminars as evidence of continuing professional education. To be acceptable, such participation must consist of a minimum of eighteen (18) hours within the preceding three (3) years.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11105 and 11105.1, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.05 to section 342.05 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

DELEGATED TESTING PILOT PROGRAM**§ 343.00. Delegated Testing Pilot Program.**

3. Certificate of Compliance as to 1-18-96 order, including amendment of subsections (a)(8), (b), (c), (c)(2) and (c)(3), transmitted to OAL 9-11-96 and filed 10-18-96 (Register 96, No. 42).
4. Editorial correction of subsections (a) and (b) (Register 96, No. 50).
5. Change without regulatory effect repealing section filed 3-5-2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 10).

STUDENT LICENSES

§ 344.10. Definition.

A student license permits the operation of a class C motor vehicle by the licensee under the conditions set forth in Section 344.14 and may be issued by a driving school authorized by the department.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Section 12660, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.10 to section 344.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.12. Driving School Authorizations.

(a) A driving school currently licensed by the department and not on probation with the department may apply to the department at its headquarters in Sacramento for authorization to issue student licenses.

(1) The application for authorization shall be submitted on the Application for Authorization to Issue Student Licenses, Form OL 804 (4/89), provided by the department and shall contain the following information:

(A) The driving school name, occupational license number and the address of the principal place of business.

(B) A list of the names, corresponding signatures and, when applicable, the occupational license number of all driving school employees designated to issue student licenses.

(C) A statement that the driving school possesses at least one device to test the distance vision of each applicant for a student license and a description of the device.

(D) A statement that at least one employee is trained to conduct a vision test using the device described in subdivision (a)(1)(C) in order to determine that the distance vision of each applicant for a student license meets the vision criteria stated in Section 344.20(a)(2)(A).

(E) The signature of the driving school owner or the driving school operator, the date of the signature, and a certification that the information contained in the application is true to the best of their knowledge.

(b) If the department approves the application for authorization, a letter of approval shall be sent to the driving school owner by the department containing an authorization statement and an acknowledgment of the persons designated in the application to issue student licenses. If the department disapproves the request for authorization, a notice stating any reason for the disapproval shall be sent to the driving school owner.

(c) A driving school authorized to issue student licenses shall maintain with the department a current listing of the names and the corresponding signatures of all driving school employees designated to issue student licenses.

(1) Whenever an authorized driving school makes any change to its list of employees designated to issue student licenses, the driving school shall complete Part B of the Application for Authorization to Issue Student Licenses, Form OL 804 (4/89), and forward the updated listing to the department at its headquarters in Sacramento within 5 working days of the change excluding Saturdays, Sundays and legal holidays. An employee shall not be authorized to issue student licenses pursuant to Section 344.24 until the updated listing is forwarded by the driving school to the department.

(2) The department shall return to the authorized driving school an acknowledgment of the receipt of the updated listing.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Section 12660, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 401.12 to section 344.12 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.14. Description of Limitations.

(a) A student license shall permit the limited operation of a class C motor vehicle by the licensee to such times as the licensee is receiving driver training instruction at the direction and under the supervision of a licensed instructor in the employ of the authorized driving school which issued the student license.

(1) The student license shall be maintained by the authorized driving school which issued the license except at such times as the student licensee is receiving driver training instruction. At such times, the student license shall be maintained in the immediate possession of the student licensee.

(b) A student license shall be valid for not more than one year from the date of issuance indicated on the student license.

(c) A student license shall not be transferable from one authorized driving school to another authorized driving school.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Section 12661, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.14 to section 344.14 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.16. Applications.

Any person 15 years of age or older may apply to an authorized driving school for a student license. Every applicant shall complete an application for a student license.

(a) The student license application shall be the Application for Student License Issued by Authorized Driving Schools, Form OL 801 (10/88), provided by the department to the authorized driving school and shall contain all of the following information:

(1) The applicant's true full name, birthdate, mailing address, residence address and telephone number.

(2) A brief physical description of the applicant.

(3) Whether the applicant, within the last three years, has experience, on one or more occasions, either a lapse of consciousness or an episode of marked confusion caused by any condition which may bring about recurrent lapses, or whether the applicant has any disease, disorder, or disability which affects ability to exercise reasonable and ordinary control in operating a motor vehicle upon a highway.

(4) Whether the applicant is rendered incapable of safely operating a motor vehicle because of alcoholism, excessive and chronic use of alcoholic beverages, or addiction to, or habitual use of, any drug.

(5) Whether the applicant has had his/her driving privilege or a driver license suspended or revoked within the last 7 years.

(6) Any other information necessary to enable the authorized driving school to determine whether the applicant is entitled to a student license.

[The next page is 28.7.]

(7) The applicant's certification that all information contained in the application is true to the best of their knowledge and a declaration that any false statement made on the application may result in the cancellation of any student license issued.

(8) The applicant's signature and the date of the signature.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Sections 12661 and 12805, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.16 to section 344.16 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of first paragraph and subsection (a)(5) filed 11-4-94; operative 12-5-94 (Register 94, No. 44).

§ 344.18. Verification of Name and Birthdate.

(a) Upon application for a student license the driving school shall require the applicant to produce identification to ensure the name stated in the application is the true name of the applicant, and the birthday stated in the application is the true birthdate of the applicant.

(1) Identification to establish the true name and the true birthdate of the applicant shall include one of the documents specified in Section 15.00 of Title 13 of the California Code of Regulations.

(b) The driving school employee verifying the true name and birthdate of the applicant for a student license shall record upon the student license application the type of document used for verification.

NOTE: Authority cited: Sections 1651, 12660, 12661 and 12801.5, Vehicle Code. Reference: Sections 12661, 12800, 12801.5 and 12805, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.18 to section 344.18 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (a)(1)(A) and (a)(1)(F) and repealer and new subsections (a)(1)(B)-(C), (a)(1)(G) and (a)(1)(J) filed 11-4-94; operative 12-5-94 (Register 94, No. 44).
3. Amendment of subsection (a)(1), repealer of subsections (a)(1)(A)-(K), and amendment of NOTE filed 3-6-97; operative 4-5-97 (Register 97, No. 10).

§ 344.20. Examinations.

(a) Upon application for a student license the authorized driving school shall require the following examinations of the applicant:

(1) A test of the applicant's knowledge and understanding of traffic signs and signals.

(A) The knowledge test shall be the Student License Knowledge Test, Form OL 802 (10/88), provided by the department and shall be administered by a licensed driving school instructor employed by the authorized driving school. The knowledge test shall provide to the instructor information concerning the applicant's knowledge of basic signs and signals and rules of the road. The knowledge test shall be administered to non-English speaking or illiterate applicants in such a manner as to provide to the instructor the applicant's knowledge of basic signs and signals and rules of the road.

(2) A test of the vision of the applicant.

(A) The vision test shall be administered by an employee of the authorized driving school trained to conduct a test of the distance vision of the applicant for a student license on the distance vision testing device in possession of the authorized driving school. The vision test shall determine if the applicant has distance vision of at least 20/40 in both eyes combined, with at least 20/40 in the better eye and no less than 20/67 in the weaker eye, with or without corrective lenses.

(3) A test of the hearing of the applicant.

(A) The hearing test shall be administered by an employee of the authorized driving school. The hearing test shall demonstrate to the employee the applicant's ability to hear ordinary conversation with or without the use of a hearing device.

(b) The results of each examination shall be noted on the student license application by the person administering the test.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Sections 12661 and 12805, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.20 to section 344.20 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.22. Grounds Requiring Refusal.

(a) An authorized driving school shall not issue a student license to any person:

(1) Who is not 15 years of age or older.

(2) Who is unable, as shown by examination, to understand traffic signs or signals, or who is unable to read and understand simple English used in highway traffic and directional signs.

(3) Who does not, as shown by examination, have distance vision of at least 20/40 in both eyes combined, with at least 20/40 in the better eye and no less than 20/67 in the weaker eye, with or without corrective lenses.

(4) Who does not, as shown by examination, have the ability to hear ordinary conversation, with or without the use of a hearing device.

(5) Who does not have the complete and unrestricted use of all limbs without the assistance of any device.

(6) Who is rendered incapable of safely operating a motor vehicle because of alcoholism, excessive and chronic use of alcoholic beverages, or addiction to, or habitual use of, any drug.

(7) Who has a disorder characterized by lapses of consciousness or who has experienced, within the last three years, either a lapse of consciousness or an episode of marked confusion caused by any condition which may bring about recurrent lapses, or who has any physical or mental disability, disease, or disorder which could affect the safe operation of a motor vehicle.

(8) Who has evidence of a condition which may affect the ability of the applicant to safely operate a motor vehicle.

(9) Who has had their driving privilege or a driver license suspended or revoked within the last 7 years.

(10) Who has failed to furnish the authorized driving school the information required in the student license application.

(11) Who is under 17 years and six months of age and does not provide proof of completion of driver education, or is not simultaneously enrolled in driver education and training.

(12) Who is under 18 years of age and does not provide a statement signed by the parents or guardian giving permission for issuance of the student license.

(b) Any student license applicant refused a student license for reasons described in subdivision (a)(3) through (9) shall be referred to the department by the authorized driving school employee refusing the student license. When an applicant is referred to the department the driving school shall forward the student license application completed by the applicant refused the student license to the department within 10 working days excluding Saturdays, Sundays and legal holidays of the date of application.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Sections 12661 and 12805, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.22 to section 344.22 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (a)(1) and new subsections (a)(11) and (a)(12) filed 11-4-94; operative 12-5-94 (Register 94, No. 44).

§ 344.24. Issuance, Content and Disposition.

(a) When the authorized driving school determines that the applicant is lawfully entitled to a student license, a designated employee whose name and signature appears in the listing required by Section 344.12(c) shall issue the Driving School Student License, Form OL 800 (10/88).

(1) The student license shall contain the following information:

(A) A unique preprinted number.

(B) A written description of the limitations of the student license in terms of duration and use as specified in Section 344.14.

(C) The issuance date and the expiration date of the student license.

(D) The licensee's full name, birthdate and residence address.

(E) The signature of the licensee.

(F) The name and occupational license number of the authorized driving school issuing the student license.

(G) The name and the signature of the authorized driving school employee issuing the student license.

(b) Upon issuing the student license the authorized driving school employee shall verbally advise the applicant of the limitations of the student license in terms of duration and use as specified in Section 344.14.

(c) The student license shall be prepared in quadruplicate for disposition as follows:

(1) The original shall be the Student License and shall remain in the possession of the authorized driving school issuing the license except as noted in Section 344.14(a)(1).

(2) The first copy shall be the Driving School Copy and shall remain with the business records of the authorized driving school.

(3) The second copy shall be the DMV Copy and shall be forwarded to the department at its headquarters in Sacramento within 10 working days excluding Saturdays, Sundays and legal holidays of the issuance date.

(4) The third copy shall be the Receipt for Applicant and shall be issued to the student licensee.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Section 12661, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 401.24 to section 344.24 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.26. Cancellations.

(a) A student license may be cancelled by the driving school that issued the license or by the department whenever, in the opinion of either, the safety of the student licensee or other persons requires the action. A student license may also be cancelled by the department or by the authorized driving school that issued the license when a license has been issued through error or when the student license applicant has provided false information on the application for a student license.

(b) When an authorized driving school cancels the student license, the reason for the cancellation, the date of the cancellation and the name of the authorized driving school employee cancelling the student license shall be recorded on the application for a student license. The date of the cancellation and the name of the authorized driving school employee cancelling the student license shall also be recorded on the original student license. Both documents shall be forwarded together to the department at its headquarters in Sacramento within 10 working days excluding Saturdays, Sundays and legal holidays of the date of cancellation.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Section 12661, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.26 to section 344.26 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.28. Fees and Purchasing.

(a) The department shall charge an authorized driving school a fee of two dollars (\$2) per student license. An authorized driving school shall not charge an applicant more than two dollars (\$2) for a student license.

(b) Student licenses may be purchased by authorized driving schools in selected department field offices in multiples of 25.

(c) Student licenses shall only be purchased by an authorized driving school owner, operator, or employee presenting the original or a copy of the letter of approval to issue student licenses sent to the driving school owner by the department as specified in Section 344.12(b).

(1) An authorized driving school employee who is not the owner or operator shall also present a statement of permission to purchase student licenses on the letterhead stationery of the authorized driving school. The statement of permission shall be signed by the driving school owner and dated within 30 days of the current date.

(d) Student licenses purchased by an authorized driving school from the department shall be used exclusively by the purchasing school and shall not be sold or transferred to another school or any other entity.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Sections 12660 and 12661, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 401.28 to section 344.28 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.30. Forms and Accountability.

(a) All driving schools authorized to issue student licenses shall be subject to the following provisions:

(1) Each authorized driving school shall account for any student license issued by the school on the Student License Issuance Log, Form OL 803 (4/89) provided by the department.

(A) Each student license issued shall be recorded on the log in numerical sequence listing the number of the student license, the full name of the licensee and the date the license was issued.

(B) Any voided student license shall be noted on the log in numerical sequence with the notation "void." The voided license including all copies and the receipt shall be forwarded to the department at its headquarters in Sacramento within 10 working days excluding Saturdays, Sundays, and legal holidays of the date the license was voided.

(C) Any lost or stolen student license shall be noted on the log in numerical sequence with the notation "lost" or "stolen." An authorized driving school shall forward a report to the department of any lost or stolen student license no later than the close of business of the next working day following the discovery of the loss or theft. The report shall contain the number of the lost or stolen student license and the reason the license is missing.

(b) Whenever an authorized driving school goes out of business all student license records and any unused student licenses shall be surrendered to the department.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Section 12661, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.30 to section 344.30 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.32. Records Maintenance and Confidentiality.

(a) Every owner of a driving school authorized to issue student licenses shall maintain at the driving school's principal place of business the following records:

(1) Every Application for Student License Issued by Authorized Driving Schools which does not result in a referral to the department as specified in Section 344.22(b).

(2) The Driving School copy of each Driving School Student License issued.

(3) Every Student License Issuance Log used to account for the student licenses issued, lost, stolen or voided.

(b) The records shall be available for inspection at the principal place of business within 10 working days of the issuance date of the student license excluding Saturdays, Sundays and legal holidays.

(c) The records shall be retained for a minimum of three years from the issuance date of the student license and shall be open to the inspection of the department during business hours and at all other reasonable times.

(d) All records of the authorized driving school relating to the physical or mental condition of any student license applicant or student licensee are for the confidential use of the authorized driving school maintaining the records or the department and are not open to public inspection.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Section 12661, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 401.32 to section 344.32 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 344.34. Notice and Hearing.

(a) Every driving school disapproved by the department to issue student licenses shall be entitled to a hearing upon demand in writing submitted to the department within 60 days after notice of disapproval.

(b) Every driving school authorized by the department to issue student licenses is entitled to a notice and hearing prior to removal from the student license program by the department.

(1) The department may, pending a hearing, temporarily remove the authorization of any driving school to issue student licenses for a period not to exceed 30 days if the director of the department finds that the action is required in the public interest.

(c) The notice and hearing shall be pursuant to and governed by Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

NOTE: Authority cited: Sections 12660 and 12661, Vehicle Code. Reference: Sections 12660 and 12661, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 401.34 to section 344.34 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 4.7. Schools for Traffic Violators

LICENSES AND APPROVALS REQUIRED

§ 345.02. Traffic Violator School Owner.

(a) A traffic violator school owner shall be licensed by the department before engaging and/or continuing to engage in any traffic violator school classroom instructional activities. To obtain an owner license an applicant shall:

- (1) Meet all of the requirements of Vehicle Code Section 11202.
- (2) Meet all of the application requirements pursuant to this section.

(b) A traffic violator school owner shall be licensed as a traffic violator school operator before performing any of the operator duties described in Section 345.04(d), except under the emergency provisions described in Section 345.05.

(c) A traffic violator school owner shall be licensed as a traffic violator school instructor before performing any of the classroom instructional services described in Section 345.06(d).

(d) Any individual, partnership, corporation, public school, or other public agency may apply to the department to be licensed as a traffic violator school by submitting a completed application to the department. A completed application shall be submitted in two parts. Part I shall be submitted to the headquarters office of the department with payment of a nonrefundable application fee of \$150 and shall contain the following:

(1) Form OL 760 (Rev 4/94), Application For Traffic Violator School (TVS) Owner License: Part I. The application form shall contain the following information:

(A) Information as to the type of entity making the application: corporation; partnership; sole proprietorship; public adult school, community college; or other public agency.

(B) The proposed business name(s) under which the school will do business, DBA (doing business as). The department shall not approve a name which exceeds 35 spaces; which is so similar to an existing school names so as to cause confusion to the public, courts or the department; which includes punctuation marks, symbols or letters which are not used in accordance with standard accepted practices of English; or which is configured in such a manner as to give an obvious unfair business advantage on a traffic violator school classroom listing. The department shall not approve more than two names for any traffic violator school. The de-

partment shall reserve the proposed name(s), as approved, for a period of one year from the application date.

(C) The proposed business address and telephone number, if known, at the time of application.

(D) Information specific to the type of business entity. If a corporation, the corporate name if different from the DBA name, the California corporation number and the name, driver license number and residence address of each principal officer, board member and any stockholders who are active in the management, direction or control of the corporation. If a partnership, the partnership name if different from the DBA name, and the name, driver license number and residence address of each general partner. If a sole proprietorship, the name, driver license number, residence address and residence telephone number of the sole owner. If a public school or other public educational institution, the name of the school district, the name of the school if different from the DBA name, and the name, driver license number and residence address of the administrator who will be in charge of the traffic violator school operation. If another public agency, the name of the public agency, if different from the DBA name, and the name and telephone number of the administrator for the public agency who will be in charge of the traffic violator school operation.

(E) The names and addresses of any other traffic violator, driving, or mature driver schools owned or operated by any individual, partnership, or corporation applying for ownership on the application.

(F) A statement by the applicant, signed under penalty of perjury, that all statements made in Part I of the application and all attachments to the application are true and correct.

(2) Form OL 29 (Rev 3/94), Application For Occupational License (Part B) Personal History Questionnaire, completed pursuant to Section 345.68 by each individual applying for ownership or as an administrator on the application. For partnerships, this requirement extends to all general partners. For corporations, this requirement extends to all principal officers, board members and stockholders active in the management, direction or control of the corporation. Also for corporations, form OL 754 (Rev 8/91), Certificate For All Individuals Listed On Corporate Structure, shall accompany the Personal History Questionnaire and shall contain: the corporation name; the business name (DBA) of the traffic violator school; information that the individual is a corporate officer, a board member, or principal stockholder; and the individual's signature and the date of signature.

(3) One fingerprint card, completed pursuant to Section 345.72, for each individual who completed a Personal History Questionnaire.

(4) Payment of a fingerprint processing fee, as described in Vehicle Code Section 1668(b), for each applicant.

(5) A lesson plan, pursuant to Sections 345.30 and 345.34, for approval by the department. Part I of the application shall not be considered complete until the submitted lesson plan has been approved by the department as specified in Section 345.34, Lesson Plan Requirements. If the department determines after evaluation that a proposed course curriculum does not meet department standards for approval, the applicant shall be notified of the reasons the course curriculum was not approved.

(A) The applicant may submit a revised course curriculum two times for further evaluation. If, after the second revision is evaluated, the curriculum is not approved, the entire application shall be disapproved.

(B) Any applicant whose application is disapproved as the result of disapproval of the curriculum may reapply at any time by filing a new original application and fee for owner license.

(e) The department shall notify the applicant when Part I of the application is complete and shall provide the forms required to complete Part II of the application. Part II of the application shall be submitted to any department field investigation district office and contain the following:

(1) Form OL 713 (Rev 3/92), Application for Traffic Violator School (TVS) Owner License: Part II, which shall contain the following information:

(A) Name of individual, partnership, corporation, public school, or public agency.

(B) School name (DBA) and telephone number.

(C) Business office address.

(D) Mailing address of school, if different from the business address.

A mailing address different from the school's primary business address will only be recognized and used by the department if certification from the post office that mail can not be delivered to the business address is submitted with the application.

(E) Office hours and days office will be open.

(F) The date by which the office will be operational.

(G) Whether a classroom will be operated at the business-office site and, if yes, the judicial district in which the classroom is located.

(H) If the business site is leased or rented, the property owner's name, address and telephone number and a copy of the lease or rental agreement.

(I) The name, address and telephone number of the bank where the business account is carried, the name(s) of persons authorized to draw funds or issue checks from the account and, if the account is not carried under the school's DBA name, the name(s) under which the account is carried.

(J) A statement, signed under penalty of perjury, certifying to the ownership structure of the business, signed by each individual named in Part I of the application, except that, for a corporation, it shall be signed and the corporate seal affixed by a corporate officer authorized to sign for the corporation.

(K) A certification statement by the applicant, signed under penalty of perjury, that all information provided in Part II of the application and all attachments to the application are true and correct.

(2) A surety bond or alternate security as specified in Sections 345.65 or 345.66, except as provided in Vehicle Code Section 11202(c), regarding public schools or other public agencies.

(3) Form OL751 (Rev 7/93), Application For Traffic Violator School (TVS) Operator License, completed pursuant to Section 345.04, or form OL 755 (Rev 9/06), Application for Change: TVS Operator License, completed pursuant to Section 345.22(b). An owner's license shall not be issued until the department determines that the applicant for operator meets the requirements for licensure.

(4) Form OL 712 (Rev 3/94), Traffic Violator School Branch Business Office/Classroom Application, pursuant to Section 345.15, for each proposed branch business office and each proposed classroom and payment of a \$70.00 nonrefundable fee for each branch business office and for each classroom which is located at a site other than that of the proposed principal business office or proposed branch business office.

(5) For any classroom which is located in a facility not owned by the applicant, a copy of the lease or rental agreement specific to the applicant school, but DBA, shall accompany the application.

(6) A completed application for at least one instructor filed in accordance with Section 345.06, 345.13, or 345.26(b), whichever is applicable, or at least one completed Certification/Deletion of Public School Instructor, OL 609 (Rev 6/93), pursuant to Section 345.29, if the school is operated by a public school. A owner's license shall not be issued until the department determines that at least one applicant for instructor meets the requirements for licensure or until the department determines that one instructor for a public school meets the requirements of Section 345.29.

(7) Form(s) OL 612 (Rev 8/92), Request For Court Approval Of Traffic Violator School (TVS) Name For Addition To TVS Classroom Location List or form(s) OL 611 (Rev 8/92), Request For Court Approval Of Substitute Traffic Violator School Name, for each judicial district in which the school will be holding classes. The school shall be listed on the TVS Classroom Location List only in those judicial districts for which the school name has been court approved. Each form, either OL 612 or OL 611, shall contain the following information:

(A) School name, license number (if known), judicial district, school owner's name, school business address, school daytime telephone number, the owner's signature and the date the owner signed the form.

(B) The court's approval for use of the school name in the judicial district and the name of the judicial district, the county in which the judicial

district is located, the court code for the judicial district, the signature of the judge/court administrator who formalizes the approval and the date the approval is signed.

(C) The OL 611 shall also contain the school name previously disapproved by the court.

(8) A Certificate of Appointment, Form OL 602 (Rev 4/91), completed pursuant to Section 345.67.

(f) Part II of the application shall not be considered complete until the primary business site and at least one classroom site have been approved by the department as specified in Section 345.74.

(g) Upon completion of Parts I and II of the application, the department may issue a temporary operating permit pursuant to Vehicle Code Section 11210, pending completion of the department's evaluation of the background and qualifications of the applicant, provided there is no apparent reason for refusal of the license.

(h) When the department determines that the applicant meets all qualifications for issuance of a license, it shall issue initial owner and operator licenses each valid for one year from the date the temporary operating permit was issued, if issued, or one year from the date of issuance, if no temporary operating permit was issued.

(i) If the department determines that the applicant is not qualified pursuant to any applicable statute or code, the department shall notify the applicant in writing that the license is refused. The notice of refusal shall include:

(1) The reason or basis for refusal.

(2) Information regarding the applicant's right to a hearing pursuant to Vehicle Code Section 11211(b).

(3) If a temporary permit has been issued, notification that the temporary permit is canceled, upon receipt of the notice.

(j) An original traffic violator school owner license shall be valid for a period of one year. A renewal license may be issued for a period of up to two years, as described in Section 345.16(a), unless canceled, suspended or revoked by the department.

NOTE: Authority cited: Sections 1651, 1665, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 626, 626.2, 626.4, 626.6, 626.8, 1668(b), 1671, 11200, 11202, 11202.5, 11204, 11206, 11208, 11210 and 11211, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

2. Amendment of subsection (e)(3) filed 3-7-2008; operative 4-6-2008 (Register 2008, No. 10).

§ 345.04. Traffic Violator School Operator.

(a) A traffic violator school operator shall meet the requirements of Vehicle Code Section 11202.5 and be licensed by the department before engaging in the administration or other business activities of a traffic violator school, except as provided in Vehicle Code Section 11202(d), relating to public schools. As used in Vehicle Code Section 11202.5(a)(4), the term "bona fide labor organization" means an association, corporation, partnership, federation, or other organization of any kind, or an agency or employee representation committee or plan:

(1) in which employees of an employer participate or have the right to participate;

(2) which is concerned with workplace grievances, labor disputes, wages, benefits, rates of pay, hours of employment, or conditions of work;

(3) which exists in whole or in part to accomplish any or all of such purposes through employee representation or collective bargaining; and

(4) which is, or is affiliated with, a local, state, or national organization or federation recognized by any local, state, or federal governmental agency to accomplish any or all of such purposes.

(b) A traffic violator school operator license authorizes the licensee to perform operator services only for the specific school named on the license.

(c) A traffic violator school operator may perform operator services for more than one school; however, the operator shall possess a valid license for each school and all of the affected schools shall be fully aware of the multiple school arrangement, as described in Section 345.11.

(d) A traffic violator school operator shall play a major role in the operation of the school. An operator's duties shall include, but not be limited to: hiring, training and performance appraisal of instructors; scheduling classes; ensuring that all classes conducted are consistent with the school's approved curriculum; maintenance of the school's business records; and general operations of the traffic violator school.

(e) A traffic violator school operator shall be licensed as a traffic violator school instructor before performing any of the classroom instructional services described in 345.06(d).

(f) Any individual who qualifies as an operator pursuant to Vehicle Code Section 11202.5 may apply to be licensed by the department as an operator by filing a completed application with the department at any field investigation district office.

(g) An original operator license shall be issued to expire in conjunction with the school owner's license. It shall be termed so that the expiration date of the operator license shall be the same date and month as the owner license and so that the expiration date shall not be more than 24 months from the date of application.

(h) A completed application shall contain:

(1) A nonrefundable application fee which is based on the number of months for which the license will be issued, as follows:

(A) If the license will be valid for 12 months, the application fee is \$100.00.

(B) If the license will be valid for 13 to 15 months, the application fee is \$112.50.

(C) If the license will be valid for 16 to 18 months, the application fee is \$125.00.

(D) If the license will be valid for 19 to 21 months, the application fee is \$137.50.

(E) If the license will be valid for 22 to 24 months, the application fee is \$150.00.

(F) If the operator application is part of an original owner's application, the fee shall be \$100.00. The expiration date shall be the same as the first expiration date of the owner's license.

(2) An Application for Traffic Violator School (TVS) Operator License, form OL 751 (Rev 7/93). This application shall contain the following information:

(A) The name, residence address, and daytime telephone number of the applicant.

(B) The employing school's name, address, telephone number and office hours.

(C) The name of the school owner.

(D) A statement, signed by the applicant under penalty of perjury, certifying to age and completion of teaching experience pursuant to Vehicle Code Section 11202.5(a)(3) and (4) and that all of the information contained on the application is true and correct.

(E) A statement, signed by the owner, certifying that the school intends to employ the applicant as school operator when the applicant is licensed.

(3) A Personal History Questionnaire completed by the applicant pursuant to Section 345.68.

(4) One set of fingerprints pursuant to Section 345.72 and payment of a fingerprint processing fee, as described in Vehicle Code Section 1668(b).

(5) Evidence from an investigation field office that the written examination was passed pursuant to Vehicle Code Section 11202.5(a)(2) within three attempts. However, for any application for an additional operator license the examination requirements shall be waived if the applicant has passed the examination within twenty-four (24) months of submission of the application.

(A) The operator examination shall be administered by the department at any field investigation district office of the department. The operator examination shall consist of 35 questions. A score of 30 or more correct answers shall be passing.

(B) Any applicant who fails to pass the written examination shall be required to wait at least one week before another examination is administered.

(C) An applicant shall be provided the opportunity to review the written examination taken after it has been corrected, but the review shall be in the presence of a department employee, and the applicant shall not copy or otherwise reproduce the examination form or any of the questions on the examination form in any manner.

(i) When the application is complete, the department shall issue a temporary permit valid for a maximum of 120 days, pending department evaluation of the applicant provided that:

(1) There is no apparent reason for the application to be refused or disapproved.

(2) The employing school is currently licensed. If the employing school has not yet been licensed, the operator's application shall not be considered complete until the owner's permit or license is issued and the operator's temporary permit or license shall not be issued until the owner's permit or license is issued.

(j) If the department determines that the applicant is not qualified pursuant to any applicable code or statute, the department shall notify the applicant in writing that the license shall be refused. The notice of refusal shall include:

(1) The reason or basis for the refusal to issue.

(2) Information regarding the applicant's right to a hearing upon demand, pursuant to Vehicle Code Section 11211(b).

(3) If a temporary permit has been issued, notification that the temporary permit is canceled, upon receipt of the notice.

(k) Following the final review of the application, a permanent license and identification card shall be issued to all applicants who meet the requirements for licensure. The operator license shall be maintained at the school business office; the identification card shall be used for identification purposes by the operator. A traffic violator school operator license, when issued, is valid for up to two years, as described in Section 345.04(g), unless suspended or revoked by the department.

NOTE: Authority cited: Sections 1651, 1665 and 11202(a)(2), Vehicle Code. Reference: Sections 626.6, 11200, 11202.5, 11204, 11206, 11208, 11210 and 11211, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).
2. Amendment of subsection (a) and new subsections (a)(1)-(4) filed 3-25-2002; operative 4-24-2002 (Register 2002, No. 13).

§ 345.05. Replacement of a School Operator.

A traffic violator school shall have only one operator licensed at any one time. If a traffic violator school's operator ceases to be licensed, or employment as the school operator is otherwise terminated, the school shall have thirty (30) days to comply with Vehicle Code Section 11202.5 by licensing a new operator. The department may authorize the owner to act as the school's operator for a period not to exceed 30 days. A traffic violator school shall change operators by:

(a) Notifying the headquarters office of the department in writing, within one business day following the occurrence of the vacancy, specifying the effective date of the vacancy.

(b) Surrendering the operator license of the former operator.

(c) Having a proposed new operator file an application, pursuant to Section 345.04, 345.11 or 345.22, and receive a temporary permit.

NOTE: Authority cited: Sections 1651 and 11202(a)(2), Vehicle Code. Reference: Sections 626.6, 11202.5 and 11208, Vehicle Code.

HISTORY

1. Repealer and new section filed 10-26-94; operative 11-25-94 (Register 94, No. 43). For prior history, see Register 93, No. 30.

§ 345.06. Traffic Violator School Instructor.

(a) A traffic violator school instructor shall meet the requirements of Vehicle Code Section 11206 and be licensed by the department before engaging in traffic violator school instruction, except as provided in Section 11206(c) of the Vehicle Code.

(b) A traffic violator school instructor license authorizes the licensee to perform instructional services only for the specific school named on the license.

(c) A traffic violator school instructor may perform instructional services for more than one school; however, all of the affected schools, in-

cluding public schools or agencies, shall be fully aware of each school employing the instructor and the instructor shall possess a valid license for each school, except as provided in Section 11206(c) of the Vehicle Code.

(d) In addition to instructional services, a traffic violator school instructor, including public school instructors, shall perform the following:

(1) Ensure that the classroom standards described in Section 345.38 are maintained at all times during the entire course.

(2) Post all signs required by the department (Section 345.39(g) and (i), and Section 11202(e) of the Vehicle Code) in each classroom prior to commencing instruction.

(3) Maintain evidence of licensure at all times while performing instructional services. Possession of the instructor identification card, described in Section 345.06(g), shall be sufficient to meet this requirement.

(4) Follow the school's departmental approved lesson plan at all times while conducting the class.

(e) Any individual who qualifies as an instructor pursuant to Vehicle Code Section 11206 may apply to be licensed by the department as an instructor by filing a completed application with the department at any designated field office of the department. A list of designated offices can be obtained from the headquarters office of the department. A completed application shall contain:

(1) A nonrefundable application fee of \$30 and a \$1 Family Support Program fee under California Family Code Section 17520 for a total of \$31.

(2) An Application for Instructor's License Traffic Violator School (TVS), form OL 710 (Rev. 9/06). This application shall contain the following information:

(A) The type of application, whether the application is for an Original, Additional or Reinstatement license.

(B) The true full name, mailing address and residence address of the applicant. If the applicant is requesting an additional license, the current Traffic Violator School instructor license number shall be provided.

(C) The employing school's name (DBA), address, and school license number.

(D) For Original and Reinstatement applications, a statement dated and signed under penalty of perjury under the laws of the State of California certifying that the person signing the form is the owner, operator, or designated representative of the Traffic Violator School pursuant to Title 13, Section 345.54 that will be employing the licensee named in the form, and that the licensee named in the form has been administered and successfully passed a written examination in accordance with Section 345.07 of Title 13 of the California Code of Regulations and Vehicle Code section 11206.

(E) A perjury statement pursuant to Civil Code of Procedure section 2015.5 dated and signed by the owner or operator and an indication of whether the signature is of the owner or operator.

(F) A perjury statement pursuant to Civil Code of Procedure section 2015.5 dated and signed by the applicant.

(3) A Personal History Questionnaire completed by the applicant pursuant to Section 345.68, of Title 13 of the California Code of Regulations.

(4) One fingerprint card completed by the applicant pursuant to Section 345.72 and payment of a fingerprint-processing fee, as described in Vehicle Code Section 1668(b), for each applicant.

(f) Applications must be completed in its entirety and properly signed pursuant to subdivision (e) of these regulations. Incomplete applications will not be processed and will be returned to the applicant within 10 business days with the reason why the application is incomplete.

(g) When the application is complete, the department shall issue a temporary permit pursuant to Vehicle Code Section 11210, pending final review of the application, provided that:

(1) There is no apparent reason for the application to be refused or disapproved.

(2) The employing school is currently licensed. If the employing school has not yet been licensed, the instructor's temporary permit or license shall be issued when the owner's permit or license is issued.

(h) Following the final review of the application, a license and an identification card shall be issued to all applicants who meet the requirements for licensure. An instructor license shall be maintained at the school business office and the identification card shall be in the possession of the instructor at all times while conducting classes. A traffic violator school instructor license, when issued, is valid for a period of three years from the date of issuance of the temporary permit or, if no permit is issued, from the date of issuance of the license, unless suspended or revoked by the department.

(i) If the department determines that the applicant is not qualified, pursuant to any applicable statute or code, the department shall notify the applicant in writing that the license is refused. The notice of refusal shall include:

(1) The reason or basis for the refusal.

(2) Information regarding the applicant's right to a hearing, pursuant to Vehicle Code Section 11211(b).

(3) If a temporary permit has been issued, notification that the temporary permit is canceled upon receipt of the notice.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code; and Section 17520, Family Code. Reference: Sections 626.4, 1652, 11200, 11206, 11206.5, 11207, 11208, 11210 and 11211, Vehicle Code; Section 17520, Family Code; and Section 2015.5, Code of Civil Procedure.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

2. Amendment of subsections (e)(1)-(2), new subsection (e)(2)(A), subsection relettering, amendment of newly designated subsections (e)(2)(B) and (e)(2)(E)-(G), new subsection (e)(2)(H), amendment of subsections (e)(3)-(4) and repealer of subsections (e)(5)-(e)(5)(C) filed 5-2-2006; operative 6-1-2006 (Register 2006, No. 18).

3. Amendment of subsection (e)(2), repealer of subsections (e)(2)(C)-(D), subsection relettering, amendment of newly designated subsections (e)(2)(E)-(F), repealer of subsections (f)-(h)(3), new subsections (f)-(i)(3) and amendment of NOTE filed 3-7-2008; operative 4-6-2008 (Register 2008, No. 10).

§ 345.07. Traffic Violator School Instructor Examination Requirements.

(a) The instructor examination shall be administered by the employing Traffic Violator School owner, operator or designated representative pursuant to Section 345.54 of these regulations.

(b) The instructor examination shall consist of 50 questions provided by the department. To pass the examination, the applicant must have 40 or more correct answers.

(c) An applicant who fails the examination shall be provided the opportunity to review the written examination, with the examiner, after it has been corrected. Another examination may be administered the same day or on another day.

(d) The Traffic Violator School owner, operator or designated representative shall retain the examination taken by the student for 3 years.

(e) The Traffic Violator School owner, operator or designated representative shall take steps to secure the examination questions and shall not allow the questions to be copied or otherwise reproduced in any manner except as required to administer the examination.

(f) The examination questions are for use solely by the Traffic Violator School for the administration of the instructor examination and shall not be distributed or shared with any other person.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 11206, Vehicle Code.

HISTORY

1. New section filed 5-2-2006; operative 6-1-2006 (Register 2006, No. 18).

§ 345.08. Traffic Violator School Business Office and Branch Business Office.

A traffic violator school business office, referred to as the primary business office if a school has one or more branch business offices, does not require separate licensure; however, issuance of a traffic violator school owner license is dependent upon the business office meeting the following requirements:

(a) The primary business office shall meet the requirements of Vehicle Code Sections 1671(a), 11202(a)(1) and 11202(e); Section 345.50 of these regulations; all other applicable provisions of the Vehicle Code;

and all other applicable federal, state and local laws, ordinances and rules.

(b) Each branch business office shall meet the same requirements as the primary business office, except that the school's business records, as described in Section 345.56, shall be maintained at the primary business office. Branch records shall be transferred to the primary business office no later than thirty (30) days following the creation of the records.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 320, 1671(a), 11202(a)(2), 11208(a)(2), 11212(b), 11213(b) and 11214, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.09. Traffic Violator School Classroom.

(a) A traffic violator classroom shall meet the minimum requirements of Section 345.38 and shall be approved by the department before being used for traffic violator school instruction.

(b) Approval for using a classroom shall be withdrawn if the minimum requirements of Section 345.38 are not maintained.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 626.2, 11202(a)(4) and 11219, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.10. Authorized Signatures.

NOTE: Authority cited: Sections 1651 and 11202(a)(3), Vehicle Code. Reference: Section 11213, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 101.10 to section 345.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

2. Renumbering of former section 345.10 to new section 345.54 filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

ADDITIONAL LICENSE APPLICATIONS

§ 345.11. Additional Operator License.

An operator shall be licensed separately for each school by which he/she is employed in the capacity of operator. To be licensed for an additional school, the operator shall meet all requirements for an original license pursuant to Section 345.04, except for submission of a fingerprint card. In addition to meeting the requirements for an original license pursuant to Section 345.04, the applicant shall submit:

(a) A letter of acknowledgment from each of the affected schools with the application. A letter of acknowledgment shall be signed by the owner and shall contain the following information:

- (1) The school name and license number.
- (2) The operator's name.
- (3) The name(s) of the other school(s) which will employ the operator.
- (4) A statement acknowledging that the operator will be licensed and employed as an operator for the school(s) listed.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219 Vehicle Code. Reference: Sections 11202.5 and 11208, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.13. Additional Instructor License.

An instructor shall be licensed separately for each school by which he is employed in the capacity of instructor, except as provided for in Section 11206(c) of the Vehicle Code. To be licensed for an additional school, the instructor shall meet all the requirements for an original license pursuant to Section 345.06, except for submission of a fingerprint card. In addition to meeting the requirements of Section 345.06, the applicant shall:

(a) Submit a letter of acknowledgment from each of the affected schools with the application. A letter of acknowledgment shall be signed by the owner, operator, administrator for a public school or agency, or other designated representative and shall contain:

- (1) The school name and license number.
- (2) The instructor's name.
- (3) The names of the other school(s) which will employ the instructor.

(4) A statement acknowledging that the instructor will be employed as an instructor for the school(s) listed.

(b) Pass a written examination pursuant to Section 345.06(e)(5). This requirement may be waived, provided that the applicant has passed the examination in the previous three years, or has submitted evidence of department approved continuing education pursuant to Section 345.24 in the previous three years.

NOTE: Authority cited: Sections 1651, 1665, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11206, 11207 and 11208, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.15. Additional Branch Offices and Classroom Locations.

(a) A traffic violator school owner may apply to the department at any field investigation district office to add branch business offices or classroom locations by submitting the following for each location:

(1) Traffic Violator School Branch Business Office/Classroom Application, form OL 712 (Rev 10/94), which shall contain the following information:

(A) Traffic violator school name, license number, address and business phone number.

(B) New classroom address or new branch business office and, if a new classroom, the telephone number to be shown on the department's classroom listing. The telephone number shall be operational at the time of application.

(C) Name of county or judicial district in which the new classroom or branch office is located and, if the judicial district is one in which the school does not now operate, the court's approval for use of the school name in the new judicial district, on form OL 612 (Rev 8/92), Request For Court Approval Of Traffic Violator School (TVS) Name For Addition to TVS Classroom Location List, or on form OL 611 (Rev 8/92), Request For Court Approval Of Substitute Traffic Violator School Name, as described in Section 345.02(e)(7).

(D) If location is rented or leased: the property owner's name, address and daytime telephone number; the type of facility; and a contact person's name at the facility and the contact person's daytime telephone number.

(E) The proposed date for starting classes.

(F) Self certification information for a new classroom regarding: exclusive use, lighting, seating and writing facilities, square footage, maximum occupancy, maximum seating capacity, accessibility to students of disability, accessibility of restrooms, accessibility of parking or public transportation, consumption or advertising of alcohol on the premises, and distance from a court.

(G) City and state in which the form is executed and date of execution.

(H) A statement signed under penalty of perjury by the owner, operator or authorized representative that the facility meets all safety regulations and requirements of state law and local ordinances.

(2) A copy of a lease or rental agreement.

(3) A nonrefundable application fee of \$70.

(b) The department shall notify the owner of the approval or disapproval of the application subsequent to the inspection of the location pursuant to Section 345.74.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 626.2, 11208 and 11213, Vehicle Code.

HISTORY

1. Repealer and new section filed 10-26-94; operative 11-25-94 (Register 94, No. 43). For prior history, see Register 93, No. 30.

LICENSE RENEWALS, DUPLICATES AND CHANGES

§ 345.16. Renewal of Owner License.

(a) An original traffic violator school owner license shall expire one year from the date of issuance.

(b) Branch business office and classroom licenses for each school expire at the same time as the owner license, regardless of the application dates for the branch and classrooms. These licenses shall be renewed in conjunction with renewal of the owner's license.

(c) An owner shall apply to the department at its headquarters office before the expiration date of the current license to renew the owner license by submitting the following:

(1) An Application for Renewal of Traffic Violator School (TVS) Owner License, form OL 701 (Rev 2/94). This application shall contain the following information:

(A) A designation as to whether the type of ownership structure is sole proprietor, partnership, corporation, public school or other public agency.

(B) The names, social security numbers, titles, and residence address of all owners, partners, principle corporate officers, board members, and stockholders active in the management, direction or control of the corporation and public school or public agency administrators.

(C) Whether any individual listed as an owner pursuant to Section 345.02 has been convicted of any crime, misdemeanor or felony, since the expiring license was issued by the department.

(D) A statement, signed under penalty of perjury by the owner or administrator if a public school or agency, certifying that the information on the application is true and correct.

(2) An Application for Renewal of Traffic Violator School (TVS) Branch/Classroom Locations, form OL 737 (Rev 2/94). This application shall contain the following:

(A) The traffic violator school's name and license number.

(B) The traffic violator school's business office address and telephone number.

(C) Whether classroom instruction is given at the business address.

(D) The street address and judicial district for each branch business office and for each classroom location to be renewed.

(E) A statement, signed under penalty of perjury, by the owner or the administrator if a public school or agency, certifying that the classroom/branch locations shown are true and correct.

(d) Renewal applications submitted on or after the expiration date of the owner's license shall not be accepted or processed. An owner whose license has expired shall comply with all original licensing requirements prior to being relicensed by the department.

NOTE: Authority cited: Sections 1651, 1665, 11202(a)(2) and 11219, Vehicle Code. Reference: 42 U.S.C. 405; Section 11350.6, Welfare and Institutions Code; and Sections 626.8, 11204 and 11209, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).
2. Amendment of subsection (a), repealer of subsections (a)(1)-(a)(2)(D) and amendment of NOTE filed 12-16-2005; operative 1-1-2006 pursuant to Government Code section 11343.4 (Register 2005, No. 50).
3. Change without regulatory effect amending subsections (c)(1) and (c)(2) and repealing subsections (c)(3)-(c)(3)(B) filed 6-29-2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 26).

§ 345.17. Duplicate Owner License.

To replace a lost, stolen, or mutilated owner license, or identification card, the owner shall submit to the department a nonrefundable fee of \$15 and an Application For Traffic Violator School Change of DBA, Additional DBA, Change of Business Address or Duplicate License, form OL 736 (Rev 2/94), completed to contain the following information:

(a) The owner's name.

(b) The school's current DBA name, TVS license number and business telephone number.

(c) The date the license or identification card was lost, stolen or mutilated.

(d) Whether the license or identification card was lost, stolen or mutilated.

(e) Whether the lost, stolen or mutilated document was the license, the identification card, or both.

(f) A statement, signed under penalty of perjury by the applicant, that the information on the application is true and correct.

NOTE: Authority cited: Sections 1651, 11202(a)(2), 11208(a)(4) and 11219, Vehicle Code. Reference: Sections 11208(a)(4), Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.18. Changes to Owner License.

(a) A traffic violator school may apply to change its business name (DBA) or add a DBA as follows:

(1) Submit, to the headquarters office of the department, a written request for name approval. A business name is subject to department approval pursuant to Section 345.02(d)(1)(B).

(2) If the proposed name is approved by the department, the department shall notify the school within ten (10) days following approval or disapproval of the proposed name. The department shall reserve the proposed name as approved for the school for a period of one year from the date of request for approval.

(3) After receipt of department approval of the proposed name, the traffic violator school shall submit, to the headquarters office of the department, the following:

(A) An Application For Traffic Violator School Change of DBA, Additional DBA or Change of Business Address, form OL 736 (Rev 2/94), which shall contain the owner's name(s), the proposed business name and judicial districts for which the name will be used, the telephone number of the school's primary business office, and the traffic violator school license number. The application shall also contain a statement, signed under penalty of perjury by the owner or administrator if a public school or agency certifying that the information contained on the application is true and correct.

(B) A rider to the traffic violator school's bond filed pursuant to Vehicle Code Section 11202(a)(3), reflecting the new or additional business name.

(C) A nonrefundable application fee of \$70, except that there shall be no fee to change a school business name for a licensed school if evidence is submitted with the application that the existing name was disapproved by a court pursuant to Vehicle Code Section 11205(d).

(D) Form(s) OL 612 (Rev 8/92) or form(s) OL 611 (Rev 8/92) pursuant to Section 345.02(e)(7).

(4) The school shall continue to do business under its current name until notified in writing by the department that the application has been approved and until the license reflecting the new name is received from the department.

(5) If a change of DBA is approved by the department, the revised license shall not be sent to the school unless the new TVS Classroom Location List reflecting the new DBA is sent to the courts. If the school is adding a DBA, the revised license will be sent to the school when the application is complete and approved.

(6) Within 30 days of receipt of the new owner license, the school operator and all licensed instructors employed by the school shall apply to the department to change the school name on their licenses to reflect the new school name, pursuant to Sections 345.22(a) and 345.26(a).

(7) Any operator or instructor who fails to make application in the new school name within the prescribed thirty (30) day period will be considered to be unlicensed and unable to perform operator or instructor duties until a new license is obtained.

(b) A traffic violator school may apply to change its primary business location as follows:

(1) Submit, to any field investigation district office of the department, a nonrefundable fee of \$70 and an Application For Traffic Violator School Change of DBA, Additional DBA or Change of Business Address, form OL 736 (Rev 2/94), which shall contain the following information:

(A) The owner's name(s).

(B) The school name.

(C) Telephone number of the school's primary business office.

(D) The traffic violator school's license number.

(E) The new street address of the business office.

(F) The new mailing address of the business office if different from the street address. A mailing address different from the school's primary business address shall only be recognized and used by the department if certification from the post office that mail can not be delivered to the business address is included with the application.

(G) Former business address.

(H) If the school does not own the property, the name and telephone number of the property owner.

(I) Whether classroom instruction will be offered at this location.

(J) The date that the location will be operationally complete and ready for inspection pursuant to Section 345.74.

(K) Copy of lease or rental agreement.

(L) A certification, signed under penalty of perjury, by the owner or other authorized individual, that the information contained on the application is true and correct to the best of his or her knowledge.

(2) The department shall notify the applicant in writing when the location is approved for use or disapproved pursuant to Section 345.74.

(c) A traffic violator school shall notify the department within 10 days of any change in corporate officer structure by submitting, to the headquarters office of the department, a \$70 nonrefundable application fee, a personal history questionnaire for each officer and/or director being added to the corporate structure pursuant to Section 345.68, one set of fingerprints for each officer and/or director being added to the corporate structure pursuant to Section 345.72, and payment of a fingerprint processing fee as described in Vehicle Code Section 1668(b), for each applicant, and either:

(1) A certified copy of the corporate minutes reflecting the change or

(2) A Certification of Corporate Officers and/or Directors of Lieu of Corporate Minutes, form OL 15 (Rev 5/94), which shall contain the following information:

(A) The name of the corporation's secretary, the name of the corporation and the state in which incorporated.

(B) A list of all officers and/or directors being deleted from the corporate structure.

(C) A list of all officers and/or directors being added to the corporate structure.

(D) A current list of the officer and/or directors in the corporate structure.

(E) The effective date of the change(s).

(F) The business telephone number.

(G) A certification that the information contained on the OL 15 is true and correct, signed and dated by the secretary for the corporation.

(d) A traffic violator school shall notify the department in writing at its headquarters of any other changes to the information contained on the Application for Traffic Violator School (TVS) Owner License or of any change of telephone numbers within 10 days of the change.

NOTE: Authority cited: Sections 1651, 1665, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11204, 11208 and 11213, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.20. Renewal of Operator License.

(a) The term of a renewal license shall be two (2) years and the renewal fee shall be \$100.00, unless the department notifies the operator at least sixty (60) days prior to renewal that the renewal license shall be issued for a term of less than two (2) years to align the expiration dates of the owner and operator licenses. The nonrefundable fee for renewal for any period less than two (2) years is as follows:

(1) \$50.00 if the license is termed to expire in 12 months.

(2) \$62.50 if the license is termed to expire 13 to 15 months.

(3) \$75.00 if the license is termed to expire 16 to 18 months.

(4) \$87.50 if the license is termed to expire 19 to 21 months.

(5) \$100.00 if the license is termed to expire 22 to 24 months.

(b) An operator shall renew the operator license by submitting, to any field investigations office of the department, appropriate fees and an Application for Renewal of Traffic Violator School Operator License, form OL 756 (Rev 2/94). This application shall contain the following information:

(1) The name, address, driver license number, social security number, and daytime telephone number of the applicant.

(2) The employing school's name and license number.

(3) Whether the applicant has been convicted, fined, or placed on probation for any crime, misdemeanor or felony, since issuance of the last license.

(4) A statement, signed under penalty of perjury by the applicant, certifying that the information contained on the application is true and correct.

(5) A statement, signed under penalty of perjury by the school owner, certifying that the applicant shall be employed by the school as operator.

(6) Evidence from an investigation filed office that the written examination was passed as required by Section 11202.5(a)(2) of the Vehicle Code, unless the operator has passed the written examination within the past 24 months.

(c) Renewal applications submitted on or after the expiration date of the operator license shall not be accepted or processed. An operator whose license has expired shall comply with all original licensing requirements as described in Section 345.04 prior to being relicensed by the department.

NOTE: Authority cited: Sections 1651, 1665, 11202(a)(2) and 11219, Vehicle Code. Reference: 42 U.S.C. 405; Section 11350.6, Welfare and Institutions Code; and Sections 626.6, 11202.5, 11204 and 11208, Vehicle Code.

HISTORY

1. Renumbering of former section 345.20 to section 345.38 and new section filed 10-26-94; operative 11-25-94 (Register 94, No. 43). For prior history, see Register 93, No. 30.

§ 345.21. Duplicate Operator License.

To replace a lost, stolen, or mutilated operator license, or identification card, the operator shall submit to the department a nonrefundable fee of \$15 and an Application For Change: TVS Operator License, form OL 755 (Rev 9/06), completed to contain the following information:

(a) The name, residence address, and daytime telephone number of the operator.

(b) The operator's driver license number.

(c) The operator's license number and expiration date of the license.

(d) The date the license or identification card was lost, stolen or mutilated.

(e) The license number of the traffic violator school for which the license was issued.

(f) Whether the license or identification card was lost, stolen or mutilated.

(g) Whether the lost, stolen or mutilated document was the license, the identification card, or both.

(h) A perjury statement pursuant to Civil Code of Procedure section 2015.5 dated and signed by the applicant.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11202.5 and 11208, Vehicle Code; and Section 2015.5, Code of Civil Procedure.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

2. Amendment of first paragraph, repealer and new subsection (h) and amendment of NOTE filed 3-7-2008; operative 4-6-2008 (Register 2008, No. 10).

§ 345.22. Changes to Operator License.

A request for change to an operator license shall be submitted to an investigation field office of the department, as follows:

(a) When a traffic violator school changes its name, or adds a DBA, or changes the school address, the school operator's license shall also be changed to reflect the new school name or address. To change the school name or address on an operator license, the operator shall submit the current operator license and an Application For Change: TVS Operator License, form OL 755 (Rev 9/06) along with a nonrefundable fee of \$15, except that there shall be no fee if the existing name was disapproved by a court pursuant to Section 11205(h) of the Vehicle Code. For a change of school name or address, the application shall contain the following information:

(1) The name, residence address and daytime telephone number of the operator.

(2) The operator's driver license number.

(3) The operator's license number and expiration date of the license.

(4) The new school name.

(5) The school's license number and current address.

(6) The former school name or address.

(7) A perjury statement pursuant to Civil Code of Procedure section 2015.5 dated and signed by the applicant.

(b) An operator may transfer an operator license to another school by submitting to the department:

(1) The current identification card.

(2) An Application For Change: TVS Operator License, form OL 755 (Rev 9/06), which shall contain the following information:

(A) The name, residence address, and telephone number of the operator.

(B) The operator's driver license number.

(C) The operator's license number and expiration date of the license.

(D) The name, license number, and address of the new school.

(E) The name and license number of the former school.

(F) A statement, signed by the owner of the new school, requesting the department to issue the operator a license for the new school.

(G) A perjury statement pursuant to Civil Code of Procedure section 2015.5 dated and signed by the applicant.

(3) A nonrefundable transfer fee based on the expiration date of the new license. The expiration date of a transferred operator license shall be changed to coincide with the new school's owner license expiration. In the event that this change would extend the expiration date of the existing operator license more than 12 months, or results in an expiration date more than 24 months from the issuance of the original or renewal license; the operator shall be required to renew the license in addition to the transfer. The transfer fee in such cases shall be \$15.00 plus a fee pursuant to Section 345.20 for renewal. The fee for transfer of an operator license shall be \$15.00 if the new license shall expire less than 30 days after the expiration date of the license being surrendered for transfer or if the new license shall expire before the license being surrendered. If the new license issued expires 30 days or more after the prior expiration date, the fee for transfer shall be \$15.00 plus a fee based on the number of months the term of the license is extended, as follows:

(A) If the new expiration date extends the term of the license for 30 days to 3 months, the additional fee shall be \$12.50.

(B) If the new expiration date extends the term of the license for 4 months to 6 months, the additional fee shall be \$25.00.

(C) If the new expiration date extends the term of the license for 7 months to 9 months, the additional fee shall be \$37.50.

(D) If the new expiration date extends the term of the license for 10 months to 12 months, the additional fee shall be \$50.00.

(c) If an operator changes his or her name, the department shall issue an operator license in the new name. The operator shall submit an Application For Change: TVS Operator License, form OL 755 (Rev 9/06), and a nonrefundable \$15 application fee to the department. The OL 755 shall contain the following information:

(1) The new name, residence address, and telephone number of the operator.

(2) The operator's driver license number.

(3) The operator's license number and expiration date of the license.

(4) The operator's former name.

(5) A perjury statement pursuant to Civil Code of Procedure section 2015.5 dated and signed by the applicant.

NOTE: Authority cited: Sections 1651, 1665, 11202(a)(2), and 11219, Vehicle Code; Reference: Sections 1652, 1665, 11202.5, 11208 and 11213, Vehicle Code; and Section 2015.5, Code of Civil Procedure.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

2. Amendment of section and NOTE filed 3-7-2008; operative 4-6-2008 (Register 2008, No. 10).

§ 345.23. Renewal of Instructor License.

(a) An instructor shall renew the instructor license by submitting a completed application to any specifically designated department field office before the expiration date of the current license. A list of designated

offices is available at the department's headquarters office. A completed application shall consist of:

(1) A nonrefundable \$30.00 application fee.

(2) An Application for Renewal of Traffic Violator School Instructor License, form OL 740 (Rev 2/94). This application shall contain the following information:

(A) The name, address, driver license number, driver license expiration date, social security number, and daytime telephone number of the applicant.

(B) The employing school's name and license number.

(C) Whether the applicant has been convicted, fined, or placed on probation for any crime, misdemeanor or felony, in the past three years.

(D) A statement, signed by the applicant under penalty of perjury, certifying that the information contained on the application is true and correct.

(E) A statement, signed by the school owner, operator or administrator under penalty of perjury, certifying that the applicant shall be employed by the school as an instructor.

(3) Evidence from a field office that a written examination was passed within three attempts pursuant to Vehicle Code Section 11206(a)(2), or evidence of continuing education pursuant to Section 345.24 or a statement that the applicant has passed a written examination within the past three years. Such statement shall be verified by the field office by calling the headquarters office of the department.

(b) Renewal applications submitted on or after the expiration date of the instructor license shall not be accepted or processed. An instructor whose license has expired shall comply with all original licensing requirements, as described in Section 345.06, prior to being licensed by the department.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: 42 U.S.C. 405; Section 11350.6, Welfare and Institutions Code; and Sections 11206, 11207 and 11208, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.24. Continuing Professional Education.

(a) In lieu of a renewal examination every three-year period as provided in Section 11207(c)(2) of the Vehicle Code, the department shall accept either evidence of completion of a college level course in traffic safety, equivalent to two (2) semester units, or evidence of participation in traffic safety seminars, consisting of a minimum of eighteen hours, within the preceding three (3) years, as evidence of continuing professional education.

(b) In order to qualify a college level course for substitution for the written examination, the applicant shall submit the following directly to the department at its headquarters office no later than 60 days prior to the license expiration date:

(1) A copy of the college transcript or training certificate showing completion of the course to be qualified.

(2) A synopsis of the content of the course.

(3) The department shall advise the applicant in writing of either acceptance or rejection of the course within 15 days of receipt of the required documentation. If approved, the applicant shall submit the approval letter with the completed renewal application to any designated field office in accordance with Section 345.23(a)(3).

(c) In order for a course provider to qualify a traffic safety course or seminar for continuing education credits, the provider shall submit a request for approval in writing to the department at its headquarters office a minimum of 60 days prior to conducting the course. The request shall include the following:

(1) A description of the subject matter of the traffic safety course or seminar, by segment or class.

(2) The actual dates and times of each traffic safety course or seminar, including the duration of each segment, break and lunch period. Traffic safety courses or seminars shall be approved for credit towards the required 18 hours at the rate of one hour of credit per hour of actual traffic

safety related instruction. No credit shall be allowed for instruction time spent on unrelated subject matter.

(3) The department will advise the provider in writing of the acceptance, partial acceptance or rejection of the course or seminar within 15 days of receipt of the required documentation.

(4) Upon completion of a qualifying course or seminar, a roster identifying the attendees shall be submitted to the department at its headquarters office by the course provider no later than the 10th day following the course completion date. The roster shall include a statement to be signed by the provider certifying under penalty of perjury that all attendees satisfactorily completed the designated number of hours of training.

(5) The provider of the training course shall also provide a document to each attendee which certifies that the individual completed an approved traffic safety related course which specifies the actual hours completed, the date(s) of the course, and names the specific segment(s) or class(es) completed. The applicant shall submit the completion certificate issued by the provider with the completed instructor renewal application to any designated field office in accordance with Section 345.23(a)(3).

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Section 11207(c)(2), Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 345.25 to new section 345.24 filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.25. Duplicate Instructor License.

To replace a lost, stolen, or mutilated instructor license or identification card, the instructor shall submit to the department a nonrefundable fee of \$15 and an Application For Change: TVS Instructor License, form OL 711 (Rev 6/93), completed to contain the following information:

- (a) The name, residence address, and telephone number of the instructor.
- (b) The instructor's driver license number and expiration date.
- (c) The instructor's license number and expiration date of the license.
- (d) The date the license or identification card was lost, stolen or mutilated.
- (e) The license number of the traffic violator school for which the license was issued.
- (f) Whether the license or identification card was lost, stolen or mutilated.
- (g) Whether the lost, stolen, or mutilated document was the wall license, identification card or both.
- (h) A statement, signed under penalty of perjury by the applicant, that the information on the application is true and correct.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11200, 11206, 11207 and 11208, Vehicle Code.

HISTORY

1. Renumbering of former section 345.25 to section 345.24 and new section filed 10-26-94; operative 11-25-94 (Register 94, No. 43). For prior history, see Register 93, No. 30.

§ 345.26. Changes to Instructor Licenses.

Any request for change to an instructor license shall be submitted to the headquarters office of the department as follows:

(a) When a traffic violator school changes its business name, or adds a DBA, the school's instructor licenses shall also be changed to reflect the new business name. To change the school name on an instructor license, the instructor shall submit to the department the current identification card, an Application For Change: TVS Instructor License, form OL 711 (Rev 6/93), and a nonrefundable fee of \$15, except that there shall be no fee if the existing name was disapproved by a court pursuant to Section 11205(h) of the Vehicle Code. For a change of school name, the application shall contain the following information:

- (1) The name, residence address and daytime telephone number of the instructor.
- (2) The instructor's driver license number and expiration date.
- (3) The instructor's license number and expiration date of the license.
- (4) The new school name.

(5) The school's license number and current address.

(6) The former school name.

(7) A statement, signed by the applicant under penalty of perjury, that the information on the application is true and correct.

(b) An instructor may transfer his instructor license to another school for the remainder of the license term by submitting to the department a nonrefundable application fee of \$15 along with the current identification card and an Application For Change: TVS Instructor License, form OL 711 (Rev 6/93), which contains the following:

(1) The name, residence address, and telephone number of the instructor.

(2) The instructor's driver license number and expiration date.

(3) The instructor's license number and expiration date of the license.

(4) The name, license number, and address of the new school.

(5) The name and license number of the former school.

(6) A statement, signed under penalty of perjury by the owner or other designated representative of the new school, requesting the department to issue the instructor a license for the new school.

(7) A statement, signed by the applicant under penalty of perjury, that the information on the application is correct.

(c) If an instructor changes his or her name, the department shall issue an instructor license in the new name. The instructor shall submit the current identification card, an Application For Change: TVS Instructor License, form OL 711 (Rev 6/93), and a nonrefundable \$15 application fee to the department. The OL 711 shall contain the following information:

(1) The new name, residence address, and telephone number of the instructor.

(2) The instructor's driver license number and expiration date.

(3) The instructor's license number and expiration date of the license.

(4) The instructor's former name.

(5) A statement, signed by the applicant under penalty of perjury, that the information on the application is true and correct.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11200, 11206, 11207 and 11208, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

PUBLIC SCHOOLS/PUBLIC AGENCIES

§ 345.27. Seasonal Closure of Public Schools.

A public school that offers traffic violator school classes shall not be required to comply with Section 345.40(b) regarding monthly submission of schedules, Section 340(e) regarding scheduling and offering a minimum of one class per location in a judicial district, or Section 345.50(a)(1) or (2) regarding minimum office hours, during the time that the entire public school is closed to the public provided that:

(a) the school offers classes only at the public school facility

(b) the school notifies the department of the closure 60 days in advance

(c) the school closure does not exceed two months in any twelve month period.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11213, 11215.5 and 11219, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.28. Change of Administrator—Public Schools/Agencies.

When the administrator of a public school, other public educational institution or other public agency traffic violator school program changes, the school/agency shall report the change to the headquarters office of the department within five (5) business days of the change. The school/agency shall be allowed thirty (30) days to select a new administrator and have that administrator file an Application For Traffic Violator (TVS) Administrator Change, form OL 757 (Rev 12/91); pay a nonrefundable fee of \$70.00; supply one set of the new administrator's fingerprints, pursuant to Section 345.72, and payment of a fingerprint processing fee, as described in Vehicle Code Section 1668(b); and submit a Personal History

Questionnaire, form OL 29 (Rev 3/94), pursuant to Section 345.68. The application shall contain the following information:

- (a) The name of the school/agency and the DBA name, if different from the school/agency name.
- (b) The business address and telephone number of the school/agency and the mailing address, if different from the business address.
- (c) The name of the new administrator.
- (d) The name of the former administrator.
- (e) The effective date of the administrator change.
- (f) The driver license number, the residence address and the business telephone number of the new administrator.
- (g) A statement, signed by the new administrator under penalty of perjury, that he/she is the administrator and that all information on the application is true and correct.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11204, 11208 and 11213, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.29. Certification and Deletion of Instructors.

(a) An instructor conducting classes for a public school or other public educational institution shall not be required to be licensed pursuant to Section 11206(c) of the Vehicle Code, provided that the department determines that the instructor has a valid teaching credential and sufficient background or training in traffic safety. The public school shall provide the department with the information necessary for this determination by submitting a Certification/Deletion of Public School Instructor, form OL 609 (Rev 6/93), for each instructor at least 15 days prior to the instructor conducting a traffic violator school course. The OL 609 shall be completed to include the following information:

- (1) The name of the public provider and the DBA name, if different from the name of the public school or other public educational institution.
- (2) The address of the public provider and its traffic violator school license number.
- (3) The name and residence address of the added instructor.
- (4) The instructor's driver license number and expiration date.
- (5) The effective date of employment.
- (6) Evidence that the instructor has a valid teaching credential. Evidence shall be a copy of the credential attached to form OL 609 (Rev 6/93).
- (7) Whether the instructor is employed at any other traffic violator school(s) and, if so, identification of the other school(s). A letter of acknowledgment from each of the affected schools shall be attached to the Certification/Deletion of Public School Instructor. A letter of acknowledgment shall be signed by the owner, operator, administrator if a public school or agency, or other designated representative and shall contain:
 - (A) The school name and license number.
 - (B) The instructor's name.
 - (C) The names of the other school(s) which will employ the instructor.
 - (D) A statement acknowledging that the instructor will be employed as an instructor for the school(s) listed.
- (8) A description of the traffic safety background of the instructor which indicates how and when the instructor obtained traffic safety experience.
- (9) A statement, signed under penalty of perjury by the instructor, that the information provided on or attached to the form is true and correct.
- (10) A statement, signed under penalty of perjury by the traffic violator school administrator, that the information provided on or attached to the form is true and correct.

(b) If the department determines, based upon the information submitted on or attached to the OL 609, that the instructor is not qualified to instruct traffic violator school courses pursuant to Vehicle Code Section 11206(c), the department shall notify the public provider of the disapproval within 10 days of receipt of the OL 609, specifying the reason(s) for the disapproval.

(c) Whenever an instructor for a traffic violator school operated by a public school or other public educational institution ceases to be a traffic school instructor, the public provider shall notify the headquarters office of the department within ten (10) days following cessation by submitting a Certification/Deletion of Public School Instructor, form OL 609 (Rev 6/93) completed to include the following information:

- (1) The name of the public provider and the DBA name, if different from the name of the public school or other public educational institution.
- (2) The address of the public provider and its traffic violator school license number.
- (3) The name of the deleted instructor and the instructor's driver license number.
- (4) The date the instructor ceased to instruct traffic school classes.
- (5) A statement, signed under penalty of perjury by the traffic violator school administrator, that the information provided on or attached to the form is true and correct.

(d) For any instructor conducting classes for a public school or other public education institution prior to the effective date of this section, the public school shall be required, not later than 90 days after the effective date, to submit an OL 609 to the department completed to include the information required by subdivision (a)(1) through (5) and (a)(9) and (10). No other verification shall be required.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Section 11206(c), Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

CURRICULUM AND LESSON PLANS

§ 345.30. Curriculum Content.

(a) A traffic violator school shall provide a minimum of 400 minutes of traffic safety related classroom education, exclusive of class registration, lunch, rest breaks, issuance of completion certificates and subjects not related to traffic safety. The following traffic safety subjects shall be included in each 400 minute course offered by a traffic violator school:

- (1) The common sense of driving.
- (2) Use and Maintenance of required safety equipment.
- (3) Defensive driving.
- (4) Established speed laws.
- (5) Proper lane use.
- (6) Backing up safely.
- (7) Interacting at intersections.
- (8) Passing.
- (9) Demands of city driving.
- (10) Demands of freeway driving.
- (11) Demands of driving on a open highway.
- (12) Hazardous conditions.
- (13) Alcohol and other drugs.
- (14) Driver Responsibility.
- (15) Traffic signs, signals and pavement markings.
- (16) Licensing control measures.

(b) For purposes of this section, subjects not related to traffic safety include, but are not limited to:

- (1) Courtroom procedures.
- (2) Beating traffic tickets.
- (3) Police jurisdictions.

(c) The 400 minute curriculum of a traffic violator school shall include the following:

(1) Visual aids including, but not limited to, slide presentations, video cassettes or movies, graphs, magnetic boards, charts, or pictorial representations shall at a minimum be used to visually demonstrate concepts presented for the subject areas described in subdivision (a)(3), (a)(5) to (8), (a)(12) and (a)(15). Audio visual aids (video cassettes or movies) shall comprise not more than 80 minutes of the 400 minute curriculum. All visual aids shall be applicable to the course purpose and subject area.

(2) Student participation. Participation includes, but is not limited to: questions and answers; pre- and post- knowledge tests; and group dis-

cussions. Student participation shall comprise not less than 40 minutes of the 400 minute curriculum. All student participation shall be applicable to the course purpose and subject area.

(3) A post-knowledge test to be administered at the end of the class. The test shall be designed to include questions related to at least ten of the subject areas in subdivision (a), and shall include at least one question on each of the following subjects: defensive driving, alcohol and drugs, and driver responsibility. The test shall be graded and each student's score will be recorded on the class roster or student enrollment card, unless the school retains the tests for three years from the date of the class. If the tests are retained, each test shall indicate the date of the class and the student's name and driver license number.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11202 and 11219, Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 345.30 to section 345.72 and new section filed 10-26-94; operative 11-25-94 (Register 94, No. 43). For prior history, see Register 93, No. 30.

§ 345.34. Lesson Plan Requirements.

(a) A lesson plan shall be submitted by each applicant for a traffic violator school license. The lesson plan shall meet the following requirements:

(1) The lesson plan shall contain a table of contents and the pages of the plan shall be consecutively numbered.

(2) Each line of the lesson plan shall be consecutively numbered on each standard 8 1/2" by 11" page, beginning with the number one on each page.

(3) The lesson plan shall cover all topics listed in Section 345.30 in sufficient detail to enable the department to evaluate the specific information to be presented and to determine the accuracy of the information to be presented.

(4) The lesson plan shall cover all subjects outlined in the department's Course Core Topics And Requirements For State Of California, Department of Motor Vehicles Approved Traffic Violator School 8-Hour Curriculum, form OL 613 (Rev 3/94).

(5) The lesson plan shall reflect where visual aids and student participation will be used to supplement lecture material. It shall explain the purpose of each visual aid and student participation activity and describe how the instructor will generate the intended student participation. It shall include a brief synopsis of the information presented in any movie or video presentation, sufficient to allow the department to determine what specific information is presented by the movie or video.

(6) The lesson plan shall include a time schedule. The schedule shall contain:

(A) The time allotted for lunch and rest break periods. A lunch break of at least 30 minutes shall be provided if the 400 minute course is conducted in one session. A rest break of at least 10 minutes shall be provided during any session conducted for a period of 200 minutes or more.

(B) The approximate time allotted for each audio visual aid to be used.

(C) The approximate time allotted for each major subject area.

(D) The approximate time allotted for each student participation activity.

(E) The approximate time allotted for completion, correction and discussion of any tests used and the method of correction to be used.

(7) If the course provides for an evaluation by the students, completion of the evaluation shall not exceed 5 minutes. A sample of the evaluation form shall be submitted with the lesson plan.

(8) Samples of any handout materials, workbooks, games or tests, including the post-knowledge test required pursuant to Section 345.30(c)(3), used during the course shall be submitted for approval, as part of the lesson plan.

(b) The department shall give written approval or disapproval within 30 days of receipt.

(c) In lieu of filing its own unique lesson plan, an applicant may meet the lesson plan requirement by submitting a letter of authorization from the owner of an approved traffic violator school lesson plan. The letter

of authorization shall be signed and dated by the owner of the previously approved lesson plan and shall specify that it authorizes use of the lesson plan by the applicant and identifies the applicant by name and DBA as they appear on the application. The department shall approve the use of a previously approved lesson plan only if the lesson plan has been evaluated and approved for use within the preceding 12 months.

(d) No traffic violator school which was licensed prior to the effective date of this section, and which license remains in good standing, is required to meet the provisions of this section, until the department has requested a revised lesson plan in accordance with Section 345.36(b).

(e) A traffic violator school shall not provide instructional services unless its lesson plan has been approved by the department.

§ 345.35. Completion Certificates.

NOTE: Authority cited: Sections 1651 and 11202(a)(3), Vehicle Code. Reference: Section 11208(c), Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 101.35 to section 345.35 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

2. Renumbering of former section 345.35 to section 345.44 filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.36. Lesson Plan Revisions.

(a) A traffic violator school owner is responsible for revising the approved lesson plan as necessary to ensure that approved topics reflect changes in laws or other information to be presented in the course. Any proposed changes or alterations to an approved lesson plan shall be submitted to the department for approval prior to the changes being made to the course.

(b) The department shall reevaluate approved lesson plans, as needed, to ensure that approved courses reflect current laws and other information and otherwise continue to meet department standards.

(1) The department shall notify any traffic violator school of any deficiencies in any lesson plan and require revisions to the plan.

(2) A traffic violator school which receives notification to revise its lesson plan shall submit a revised lesson plan to the department by the date indicated on the notice from the department.

(3) The failure of a traffic violator school to respond to any notification by the department regarding lesson plan deficiencies by the date indicated on the notice, by providing revisions responsive to the lesson plan deficiencies noted by the department, is cause for action pursuant to Vehicle Code Section 11215(b).

(c) A traffic violator school shall continue to use its previously approved lesson plan until receiving notification from the department that the revised lesson plan is approved. The school shall implement use of the revised lesson plan within 60 days of notification of approval.

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

CLASSROOM STANDARDS AND CONDUCT

§ 345.38. Classroom Standards.

Approval for conducting traffic violator education courses shall be contingent upon the traffic violator school meeting and maintaining the following classroom standards requirements:

(a) Classroom shall provide a minimum of 15 square feet of space per student if the facility has lecture/assembly type seating or 20 square feet of space per student if the facility has standard classroom seating with table or desks.

(b) Classroom shall provide seating and writing surfaces for all students. Writing surfaces shall be tables, desks, the equivalent, or portable writing surfaces. Portable writing surfaces shall be made of a rigid material at least a 1/8 inch thick and shall measure at least 8 1/2 by 11 inches.

(c) Classrooms attendance shall be limited to a maximum of forty (40) students.

(d) Classrooms shall provide an educational atmosphere which is conducive to learning. To be conducive to learning, the classroom atmosphere shall be influenced as follows: appropriately cooled and heated to overcome normal summer and winter outside temperatures; appropriately lit for reading; and be free from interruptions including but not limited to noise, school business activities, foot traffic and machinery.

(e) Classrooms shall not be located in bars, restaurant lounges or other rooms which serve alcohol, allow alcohol consumption or advertise or promote alcohol or its consumption, nor shall student access to the classroom facility be through bars.

(f) Classrooms shall comply with all applicable local ordinances, including but not limited to health and safety ordinances.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Section 11202, Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 345.20 to new section 345.38 filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.39. Conducting Classes.

Approval for conducting traffic violator education courses shall be contingent upon the traffic violator school conducting classes as follows:

(a) Only one school shall conduct class in any specific classroom at one time.

(b) The school shall ensure that students understand the language in which the course is presented by talking with students during registration.

(c) The instructor shall have the school's approved lesson plan in his/her possession for the duration of the class and shall follow that lesson plan.

(d) The instructor shall have a current Vehicle Code in her/her possession for the duration of the class.

(e) The instructor shall have evidence of licensure, which is specific to the school offering the class, in his/her possession, except as exempted by Vehicle Code Section 11206. The identification card issued by the department in accordance with Section 345.06(g) shall be used to meet this requirement, unless a permanent license has not yet been issued.

(f) The instructor shall ensure that the exterior of the classroom is clearly marked with the school name, as a guide to students. In a hotel or convention center type facility, a notice on the facility's bulletin board or room locator shall be sufficient.

(g) The instructor shall identify himself/herself by name to the class, state the full name of the school and post both names in the classroom.

(h) The instructor shall not admit any student to the class if the student arrives more than 15 minutes after commencement of instruction. This provision shall apply to students returning late from lunch or rest breaks. An instructor may admit a student to class who is late less than 15 minutes, provided that the instructor provides the student with a make-up session, which covers the actual class instruction missed by being late, during the lunch break or after normal class hours.

(i) The instructor shall ensure that a sign is posted in each classroom for the duration of the class which reads: "No Alcoholic Beverage To Be Consumed Or Possessed By Students During School Hours". Owners, operators and instructors shall strictly enforce this requirement and shall not permit any person to participate in any class who is under the influence of alcohol, has any alcoholic beverage on his or her person or who consumes any alcoholic beverage in the classroom.

(j) A traffic violator course shall not be combined with any other driver education or driver improvement course.

(k) Topics discussed by an instructor or during student participation or audio visual aids shall not include topics which are not of a traffic safety nature, including but not limited to: offering advice on how to beat traffic tickets, courtroom procedures and police jurisdictions.

(l) No instructor shall knowingly give false or misleading information to any student.

(m) The instructor shall conduct himself/herself in a professional and courteous manner at all times when students are present.

(n) At the start of any class, the instructor shall explain the affect of attendance on the students' driving records pursuant to Vehicle Code Section 1808.7, including the information that not all courts allow participation in traffic violator school program as part of the adjudication of a traffic violation.

(o) The instructor shall validate the student information provided on the roster sheet or enrollment card, pursuant to Section 345.56(a), with the student's actual driver license.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11202, 11219 and 1808.7, Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 345.45 to section 345.38 filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

2. New subsection (o) filed 8-16-2005 as an emergency; operative 9-20-2005 (Register 2005, No. 33). A Certificate of Compliance must be transmitted to OAL by 1-18-2006 or emergency language will be repealed by operation of law on the following day.

3. Certificate of Compliance as to 8-16-2005 order transmitted to OAL 1-18-2006 and filed 2-22-2006 (Register 2006, No. 8).

§ 345.40. Class Schedules.

Approval for conducting traffic violator education courses shall be contingent upon the school meeting and maintaining the following scheduling requirements:

(a) A schedule of all classes shall be filed with the department a minimum of 15 days prior to any class being conducted by any new school or at any new classroom location being used by any school.

(b) A schedule of all classes shall be filed with the department a minimum of 15 days prior to the beginning of each calendar month after a school begins operation.

(c) Schools shall use the Official School And Class Location(s) Schedule, form OL 854 (Rev 7/93), when submitting schedules to the department. The form shall contain:

(1) The DBA name of the school, the TVS license number, and the date the form is prepared.

(2) The signature of the owner, operator, administrator if a public school or agency, or designated representative.

(3) The business address and telephone number of the school.

(4) The address of each classroom location to be used.

(5) The scheduled dates and hours for each classroom to be used during the scheduled period.

(6) Identification of the instructional language to be used for each scheduled class.

(d) Any school that fails to submit schedules pursuant to this section shall have its name removed from all judicial district on the next TVS Classroom Location List published by the department pursuant to Section 11205(a) of the Vehicle Code. If the school fails to submit schedules a second time within any 12 month period, the school's name shall be removed from all judicial districts on the next two TVS Classroom Location Lists published by the department pursuant to Section 11205(a) of the Vehicle Code.

(e) A school shall schedule and offer to conduct classes in a minimum of one approved classroom location in each city listed on the TVS Classroom Location List at least once every other month.

(1) For the purposes of this section "schedule and offer to conduct" means that a school shall schedule a class pursuant to the scheduling requirements of this section, shall offer to enroll prospective students in the class, and does not cancel the class except in accordance with the provisions of subdivision (b) or (c) of Section 345.41. If a school cancels a class pursuant to subdivision (a) of Section 345.41, the school did not "offer to conduct" for the purposes of this section.

(2) If the department determines, upon investigation, that a school is not scheduling and offering to conduct classes in a city pursuant to subdivision (e), that city location shall be removed from the next TVS Classroom Location list published by the department pursuant to Section 11205(a) of the Vehicle Code.

(3) If a school has 5 city locations removed from the TVS Classroom Location List within any 12 month period, the school's name shall be removed from all judicial districts on the next TVS Classroom Location

List published by the department pursuant to Section 11205(a) of the Vehicle Code.

(f) A school shall not offer to register a student for a class, nor conduct a class, that has not been included and submitted to the department on the Official School And Class Location(s) Schedule, Form OL 854.

(g) The department may waive the requirements of subdivision (a), (b), or (e) of this section for a traffic violator school if a school is unable to schedule or conduct classes due to a normal disaster such as, fire, flood, or earthquake, or a civil disturbance.

(1) As soon as circumstances allow, the school shall notify the department that it is unable to schedule or conduct classes, and shall specify whether the entire school operation is disrupted or which specific classroom locations/judicial districts are affected.

(2) The department shall determine whether to waive the requirements, and the duration of the waiver, based on the specific circumstances, and shall notify the school(s) of the decision immediately.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11213 and 11219, Vehicle Code.

HISTORY

1. Change without regulatory effect renumbering former section 101.40 to section 345.40 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Renumbering of former section 345.40 to new section 345.47 filed 10-26-94; operative 11-25-94 (Register 94, No. 43).
3. New section filed 1-5-95; operative 2-6-95 (Register 95, No. 1).

§ 345.41. Class Cancellations.

(a) Should a school cancel any scheduled class, the school shall notify the department in writing. The department shall receive such notification no later than 5:00 P.M. on the fifth business day preceeding the scheduled class date. The school shall notify affected students a minimum of 4 days prior to the scheduled class.

(b) If emergency circumstances prevent timely, written notice to the department of class cancellation, the school shall call the department no later than 72 hours prior to the scheduled date and start time. If emergency circumstances prevent notice to the department of class cancellation within 72 hours of the scheduled date and start time, the school shall call the department on the first work day following the decision to cancel the class and explain the circumstances causing the cancellation. The school shall also supply confirmation of the circumstances in writing.

(c) Traffic violator schools shall conduct classes at scheduled locations in cases of low enrollment, unless enrollment consists of less than six students. If less than six students enroll, the class may be canceled, provided that the school notifies all registered students by phone and the department of the cancellation a minimum of 24 hours prior to the scheduled start of the class. Leaving a message on an answering machine at the phone number provided by the student shall constitute notification for this purpose. If the school is unable to contact a student by phone on the first attempt, the school shall attempt a phone contact at least 2 subsequent times, and shall note the date and time of the attempts. If the school has only a mailing address for a student, the school shall send a written notification to the student. When notifying the students of the cancellation, whether by mail or phone, the school shall offer to provide the registered students with an alternate class, at a charge to the student not to exceed the cost of the department completion certificate and the cost of any other certificate required by the court. The school shall maintain a class roster or set of student enrollment cards for each class canceled for low enrollment, which shall indicate the date each student was notified by mail, or the date and time each student was notified by phone, or if the school was unable to notify the student by phone, the date and times of attempted notification.

(d) Whenever a class is canceled pursuant to section (a) or (b) the school shall refer affected students to the department's published Classroom Location List or other court approved list for selection of another school, except that a school may offer an alternate date, time, or location to a student registered in a class canceled pursuant to subdivision (a) or (b), provided that the alternate class is provided to the student at a charge not to exceed the cost of the department completion certificate and

the cost of any other certificate required by the court. Under no circumstances are the affected students to be referred to any other school. If these conditions cannot be met by the traffic violator school, the scheduled class shall be conducted as scheduled.

(e) If a school cancels a class for any reason, the school shall post a notice of cancellation at the classroom location for 1/2 hour prior to and one hour after the start of the scheduled class, unless all registered students and the department were either contacted by phone or mailed a notice of cancellation at least 4 days in advance of the class being canceled.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11213, 11215(c), 11215.5(d) and 11219, Vehicle Code.

HISTORY

1. New section filed 1-5-95; operative 2-6-95 (Register 95, No. 1).
2. Amendment of subsection (d) filed 3-25-2002; operative 4-24-2002 (Register 2002, No. 13).

§ 345.42. Quarterly Reporting of Classes Conducted.

(a) Traffic violator schools shall report the number of classes conducted and the number of students instructed for each classroom location.

(b) Reports shall be for each preceding calendar quarter or portion of the calendar quarter, if the classroom was not licensed for the full quarter.

(c) Reports shall be made on form OL 850 (Rev 10/94), Traffic Violator School Reporting Form, and shall contain the following information:

- (1) The months and year covered by the report.
- (2) The complete school name.
- (3) The school's license number and judicial district in which the classroom is located.
- (4) The classroom address.
- (5) The business address where school records are stored.
- (6) The business telephone number.
- (7) The number of students who completed the course at the location.
- (8) The number of classes scheduled and the number of classes actually conducted at the location.
- (9) The signature of the school owner, operator or authorized representative.

(d) Completed forms are to be received in the department's headquarters office on or before the thirtieth calendar day of the month following the quarter in which classes were conducted.

NOTE: Authority cited: Sections 1651, 11202(a)(2), 11213(d) and 11219, Vehicle Code. Reference: Section 11213, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

COMPLETION CERTIFICATES

§ 345.44. Purchases of Completion Certificates.

(a) Forms OL 730 (Rev 7/93), Completion Certificates, purchased by a traffic violator school from the department shall be used exclusively by the purchasing school for issuance to students who have satisfactorily completed the course of instruction offered at the school, and shall not be sold or transferred to another school or any other entity.

(b) The fee charged by the department shall be \$1.50 per completion certificate.

(c) Completion certificates shall be purchased in books of fifty (50) by a traffic violator school in designated field offices of the department. A list of designated offices can be obtained by contacting the headquarters office of the department.

(d) Completion certificates may be purchased by: a school owner; an administrator of a public school or other public agency; a school operator; or by a designated representative pursuant to Section 345.54.

(1) The school owner, administrator or operator shall present a picture identification card and the identification card provided by the department.

(2) An employee who is not the owner, administrator, or operator shall present a picture identification card and either a copy of the OL 227, Authorized Signatures, pursuant to Section 345.54 or a written statement of permission to purchase completion certificates on the letterhead stationery of the school. The statement of permission shall contain the original signature of the school owner, administrator or operator and be dated

within 10 days of the current date and shall be surrendered to the department at the time of purchase. Such authorization shall identify the specific number of certificates to be purchased.

(e) Receipts issued by the department for the purchase of completion certificates shall be maintained as a business record.

(f) The department shall refund amounts paid by a school owner for completion certificates only for unused certificates on hand when the owner ceases to do business and for certificates which were damaged during the manufacturing and/or shipping process. The original and first copy of the certificate shall be attached to an application for refund. The second copy of the certificate shall be retained by the school in numerical sequence in the original book. The application for refund shall be completed to include: the name and address of the owner (claimant), the amount of refund claimed, the date and field office location where the fees were paid, a list of the numbers for the certificates attached for refund, the reason for the refund request, and a statement, signed under penalty of perjury by the claimant, that the information contained in the request is true and correct.

NOTE: Authority cited: Sections 1651 and 11202(a)(2) and 11219, Vehicle Code. Reference: Section 11208 and 11212, Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 345.35 to section 345.44 filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.45. Issuance, Content and Disposition of Completion Certificates.

(a) When a traffic violator school determines that a student referred by a court has satisfactorily completed the course, the school shall issue the student a completion certificate, form OL 730 (Rev 2/2005), which shall contain the following information:

- (1) A unique preprinted number assigned by the department.
- (2) Name, address, birth date and driver license number of the student.
- (3) The date of course completion and the city and date the certificate was issued.
- (4) The name, additional DBA's, primary business address, city and license number of the traffic violator school issuing the completion certificate.
- (5) Length of the course completed.
- (6) The total course fee.
- (7) The name of the court which ordered the student to attend traffic violator school and the case or docket number of the violation.
- (8) The license number of the instructor. If the instructor has a temporary license, the number of the school followed by a slash (/) and a "T" shall be noted in lieu of the instructor license number; if the instructor is credentialed, the number of the school followed by a slash (/) and a "C" shall be noted in lieu of the instructor license number.

(9) A statement certifying under penalty of perjury that the information contained on the certificate is true and correct, signed by the student and the course instructor. The certificate shall be signed only after the student has satisfactorily completed the course. The student shall sign the certification statement prior to departure from the class.

(b) The completion certificate shall be prepared in triplicate for disposition as follows:

- (1) The original shall be the court's copy and shall be issued to the student upon successful completion of the course. It shall be the student's responsibility to submit the completion certificate to the court which ordered the student to attend traffic violator school.
- (2) The first copy shall be the student's copy of the certificate and shall constitute a receipt for the student provided that the certificate is issued the same day the fee is paid.
- (3) The second copy shall be the traffic violator school's copy and shall remain with the business records of the school.
- (c) Completion certificates shall not be duplicated or reproduced for any purpose.
- (d) Except as specified in country or court contracts which are exempt under Vehicle Code Section 42005(f), no school shall mail or otherwise

deliver any completion certificate to the court of jurisdiction for any student.

(e) When a student does not satisfactorily complete the course the same day that payment is made for the course or the student has elected to attend the course, the traffic violator school shall issue the student a separate and distinct receipt for payment. The receipt shall contain the following information:

- (1) Amount paid by the student and date of payment. This amount shall be the total cost to the student for the course, including any fee charged for the certificate.
- (2) Name and driver license number of the student.
- (3) Name, primary business address, and license number of the school.

(f) A certificate of completion, form OL 730 (Rev. 2/2005), shall not be issued to any person who elects to attend a traffic violator school or any person who holds a class A, class B, or commercial class C driver license.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11208, 11212, 11219 and 11219.5, Vehicle Code.

HISTORY

1. Renumbering of former section 345.45 to section 345.38 and new section filed 10-26-94; operative 11-25-94 (Register 94, No. 43). For prior history, see Register 93, No. 30.
2. Amendment of subsections (a), (a)(3)-(4) and (d)-(e) and new subsection (f) filed 8-16-2005 as an emergency; operative 9-20-2005 (Register 2005, No. 33). A Certificate of Compliance must be transmitted to OAL by 1-18-2006 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8-16-2005 order transmitted to OAL 1-18-2006 and filed 2-22-2006 (Register 2006, No. 8).

§ 345.46. Duplicate Completion Certificate.

(a) A duplicate completion certificate form shall be issued only by the traffic violator school that issued the original certificate.

- (1) The traffic violator school may charge a fee for the duplicate certificate, not to exceed \$3.00 in addition to the actual cost of the certificate to the school.
- (2) The school shall verify from the school's records that the student completed the course. The number of the original certificate issued shall be marked on the top of the duplicate certificate.

(3) A duplicate certificate shall be marked "duplicate" in large letters across the face of the certificate and both copies.

(4) The disposition of the duplicate certificate and copies shall be as described for an original certificate in Section 345.45(b).

(b) A duplicate completion certificate may be signed by the school owner, operator, administrator if a public school or agency, or any designated employee authorized pursuant to Section 345.54.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11208, 11212 and 11219, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.47. Lost or Stolen Completion Certificates.

The traffic violator school owner, operator, or administrator, if a public school or agency, shall report any lost or stolen completion certificates to the department not later than close of business of the day following discovery of the loss or theft. The traffic violator school owner, operator or administrator shall complete a Report of Lost/Stolen TVS Completion Certificates, OL 855 New 5/94, and in addition to retaining a copy in the school's business records, forward the report to the department within thirty (30) days of the discovery of the loss or theft. The report shall be completed to contain the following information:

- (a) The school DBA and license number.
- (b) The school's business address.
- (c) The date of the discovery of the lost or stolen certificates.
- (d) The date of loss (if known).
- (e) The number of certificates lost or stolen.
- (f) The series numbers of the certificates.
- (g) A description of the incident and/or the discovery of loss.
- (h) A certification statement by the owner, operator, or administrator, signed under penalty of perjury, that all information provided is true and correct.

TVS CLASSROOM LOCATION LIST

§ 345.49. TVS Classroom Location List Publication.

The department shall publish the TVS Classroom Location List twice annually. The list shall be revised for distribution to each municipal and justice court by the first day in January and the first day in July. In order for a school to add a location or change any information contained on the list, all requirements for the addition or change shall be completed and received by the department no later April 1 for the list published in July, and no later than October 3 for the list published in January. Any addition or change completed or received after date specified shall be retained for inclusion in the next scheduled publication.

NOTE: Authority cited: Sections 1651 and 11202(a)(2), Vehicle Code. Reference: Section 11205, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

OFFICE PRACTICES AND ADVERTISING

§ 345.50. Office Practices.

(a) Each traffic violator school shall post its approved name and its office hours at its primary business office and any branch business office and shall be open to the public during the posted hours. The person in charge of the office during the posted hours shall be knowledgeable concerning the operation of the school, shall be authorized to give information to the public concerning classes and fees charged by the school and shall be able to provide detailed information to any representative or contractor of the department or a court concerning the operation and business records of the school.

(1) At a minimum, each office shall maintain the same office hours as the day courts in the county, except in counties with populations of less than 400,000.

(2) In counties with populations of less than 400,000, each office shall be open a minimum of two hours per week, during the day court hours, provided that:

(A) The school does not schedule or offer classes in any county with a population of 400,000 or more.

(B) The school utilizes an answering machine or service for the office number during department business hours and responds to all calls from the public within two business days of the call.

(C) The school notifies the department in writing at least ten days before any acceptable change is made in posted office hours.

(3) Any school which offers classes in counties with populations of 400,000 or more is required to maintain the office hours described in subdivision (1) for the county(ies) in which classes are offered.

(b) If the office is located in a free standing building, a storefront or a residence, the school name shall be posted on the front of the building. If the office is located in a multi-business building, the school name shall be posted in an area common to all of the businesses and on, adjacent to or over the entry door to the school office. Any sign shall contain lettering of sufficient size to be clearly legible from a distance of fifty (50) feet for an outdoor sign and ten (10) feet for an indoor sign. The department may make exceptions to sign requirements to accommodate unique circumstances.

(c) Each school shall maintain a telephone at its primary business office and at any branch business office(s). The following conditions shall be met by each school:

(1) The telephone shall be answered with the approved school name.

(2) Separate telephone numbers. No two or more traffic violator schools shall share the same telephone number. The telephone number used by a school shall not be shared with any other business, unless approved by the department.

(3) All telephone numbers published in the department's list of schools pursuant to Vehicle Code Section 11205(c) shall be operational and answered during the posted office hours.

(4) If an automated phone system or an answering service is used for scheduling classes and the service or system is unable to answer questions regarding the school, a referral number shall be provided to the caller. The referral number shall be operational and answered during the posted office hours and shall be answered by a person with the knowledge described in subdivision (a).

(5) If the traffic violator school is unable to accommodate any prospective student, the prospective student shall be referred back to the department's published TVS Classroom Location List or other court approved list to select another school. No traffic violator school shall refer a student to any specific listing or school.

(6) Answering machines shall be utilized only during non-business hours.

(7) No school may use California 900/976 numbers or any for-profit telephone lines.

(8) If an answering service is used to answer the telephone numbers published in the department's Classroom Location List, or, if the school's telephone number is regionalized to prohibit calls from outside of a defined calling area, the school shall provide one direct number which is operational and answered during the posted office hours for use by the department for contacting the school.

(9) Any traffic violator school representative who discusses enrollment with any potential student shall provide the following information to the prospective student:

(A) The total fee for the course, including any charge for the completion certificate and whether that charge is included in the total class fee or is in addition to the class fee.

(B) What form(s) of payment are acceptable.

(C) Any fees charged for canceling or rescheduling a class.

(10) Any traffic school representative who enrolls students in scheduled classes shall obtain sufficient information to notify the students of class cancellations pursuant to Section 345.41. If a student can not be contacted by phone, the representative shall obtain a mailing address for the student.

(d) Each school shall post licenses as follows:

(1) Owner licenses shall be posted in the primary business office and in a location conspicuous to the public.

(2) Operator licenses shall be posted in the primary business office and in a location conspicuous to the public, except for public school providers in accordance with Vehicle Code 11202.

(3) Photocopies of the owner and operator licenses shall be similarly posted at each branch business office.

(e) Each school shall maintain on file in the primary business office the current license of each instructor, including a copy of the temporary permit if no permanent license has been issued.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 320, 1671, 11202 and 11215(a), Vehicle Code.

HISTORY

1. Renumbering of former section 345.50 to section 345.47 and new section filed 10-26-94; operative 11-25-94 (Register 94, No. 43). For prior history, see Register 93, No. 30.

§ 345.52. Solicitation and Advertisement.

(a) No licensee or any employee or agent of the licensee shall advertise, discuss or otherwise promote traffic school enrollment in any office of the department or in any court or within 500 feet of any court. The out-

side perimeter of the property on which any court resides is the beginning point for calculating the straight-line 500 foot distance.

(b) The full name of a traffic violator school, the address of the principal business office as shown in department records and the school's licence number shall be used in all media of advertising, including telephone listings, except for the department's TVS Classroom Location List.

(c) No traffic violator school shall advertise that it is approved by the department. However, the school may refer to the fact that it is licensed by the department.

(d) A traffic violator school name shall be considered a form of advertising. A traffic violator school shall conduct its business pursuant to any claims, actual or implied, that are included in its name.

(e) The department's published TVS Classroom Location List shall not be altered in any manner. Alteration includes stamping a school name on the list.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11202 and 11215, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.54. Authorized Signatures.

(a) All required notification forms sent to the department shall be signed by a school owner, operator, administrator, or designated representative. All signatures shall be as previously provided to the department on license applications or an OL 227 (New 2/94), Authorized Signatures.

(b) One or more designated representative(s) may be identified by a school owner, operator or administrator by submitting an OL 227 (New 2/94), Authorized Signatures, to the department's headquarters office, signed by an owner, operator or administrator which states the designated representative's name(s), and which contains the signature(s) and full printed name(s) of the designated representative(s).

(c) Designation of an authorized representative shall be withdrawn upon receipt by the department's headquarters office of an OL 227 (New 2/94), Authorized Signatures, from the school owner, operator or administrator, which no longer includes the representative's name and signature.

NOTE: Authority cited: Sections 1651 and 11202(a)(2), Vehicle Code. Reference: Section 11213, Vehicle Code.

HISTORY

1. Renumbering and amendment of former section 345.10 to new section 345.54 filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.56. Business Records.

(a) Each traffic violator school shall maintain records of every traffic violator school class conducted pursuant to Vehicle Code Section 11212 for a minimum of three years. A roster sheet or set of student enrollment cards shall be completed for each class conducted. The roster may be maintained electronically and shall contain the following:

- (1) The information required in Vehicle Code Section 11212.
- (2) The telephone number of each student, unless the student does not have a telephone, and the post knowledge test score of each student.
- (3) The driver license class of each student.

(4) The citation number of a student referred pursuant to Vehicle Code Section 42005 or an indication that the student elected to take the course.

(b) Each traffic violator school owner shall maintain records of each completion certificate purchased and issued for a minimum of three years.

(1) The school shall maintain all receipts for purchase of certificates from the department.

(2) The school copy of each completion certificate issued shall be maintained in numerical order.

(3) Any voided completion certificate shall be marked void on the original and both copies. The original and both copies of a voided certificate shall be maintained in numerical order.

(4) The school shall maintain a copy of every request for refund for fees paid for completion certificates.

(5) The school shall maintain a copy of every report of stolen or lost certificate(s).

(c) The school shall maintain a copy of each quarterly report on classroom location activity for a minimum of three years.

(d) The school shall maintain a copy of each receipt issued pursuant to Section 345.45(e) for a minimum of three years, unless a notation that a receipt was issued, including the date of payment and the amount paid, is made on the class roster sheet or student enrollment card.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11212, 11219.5, 15210 and 42005, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).
2. Amendment of subsection (a), new subsections (a)(1)-(4) and amendment of NOTE filed 8-16-2005 as an emergency; operative 9-20-2005 (Register 2005, No. 33). A Certificate of Compliance must be transmitted to OAL by 1-18-2006 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8-16-2005 order transmitted to OAL 1-18-2006 and filed 2-22-2006 (Register 2006, No. 8).

§ 345.58. Verification of Employment.

The owner, operator, administrator of a public school or agency, or designated representative of a school shall verify the period(s) of employment and actual hours of classroom instruction for any instructor occurring within the 36 months prior to the date of the request, if requested by the instructor or the department, within 30 days of such request.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11213(d), Vehicle Code. Reference: Section 11202.5(a)(4), Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.60. Providing Department Address to Students.

Upon receipt of an oral or written request from any potential student or student, a traffic violator school shall provide the complete mailing address and telephone number of the department's headquarters office.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11213(d), Vehicle Code. Reference: Section 11219, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

BONDS, DEPOSITS AND BACKGROUND CHECKS

§ 345.65. Traffic Violator School Owner Surety Bond Requirements.

(a) Every applicant for issuance or renewal of a traffic violator school owner occupational license shall submit the bond required by Vehicle Code section 11202 on a Traffic Violator School (TVS) Owner Surety Bond, form OL 704 (REV. 11/2004), which is hereby incorporated by reference. The bond shall be subject to chapter 2 (commencing with Section 995.010), title 14, of part 2 of the Code of Civil Procedure.

(b) The true, full name of the traffic violator school owner principal, and any doing business as (DBA) names under which the licensed activity is conducted, shall be entered on the bond.

(c) The appointment of director as the agent for service of process required by Vehicle Code section 11202(a)(6) shall be in the form required under subdivision (c) of Section 330.08 of Title 13, California Code of Regulations.

NOTE: Authority cited: Sections 1651 and 11202(a)(2), Vehicle Code. Reference: Section 995.010, Code of Civil Procedure; and Section 11202, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).
2. Amendment of section heading, section and NOTE filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7).

§ 345.66. Deposit in Lieu of Bond.

(a) A traffic violator school owner who chooses to deposit \$2,000 cash in lieu of a surety bond shall complete the following forms for submission to the department:

- (1) Form OL 723 (New 6/93), Cash Bond. This form shall contain:
 - (A) The name of the applicant, including the DBA name.
 - (B) The applicant's principal business address.
 - (C) The cash sum.

- (D) The receipt number issued by the department.
- (E) The signature date and county in which signed.
- (F) The typed name of the applicant.
- (G) The signature of the applicant or authorized representative.
- (H) The typed name and title of the signer.

(2) Form OL 65 (Rev 11/86), Notice of Acknowledgment. This form shall contain:

- (A) The typed name of the applicant(s).
- (B) A check in the first election box which refers to a cash deposit.
- (C) A signed and dated acknowledgment which includes typed name(s) of the signer(s).

(b) A traffic violator school owner who chooses to assign to the department a certificate of deposit or a passbook savings account in the amount of \$2,000 in lieu of a surety bond shall complete the following forms for submission to the department:

(1) Form OL 64 (Rev 11/86), Assignment of Insured Account. This form shall contain:

- (A) The name and address of the assignor, including the DBA name.
- (B) The name and address of the financial institution which holds the account.
- (C) The amount of the account, which cannot be less than \$2,000, unless multiple accounts are being assigned.
- (D) The account number.
- (E) The date on which the assignor signs the agreement and the name of the community in which it is signed.
- (F) The typed name of the applicant, signature of the applicant or person authorized to sign for the applicant, and the typed name and title of the signer.

(G) Endorsement by the financial institution which holds the account, including: the dollar amount available under the assignment, the date the endorsement is signed and the city in which signed, the typed name of the financial institution, the signature of an officer of the institution and the title of the signer.

(2) Form OL 65 (Rev 11/86), Notice of Acknowledgment, as described in subdivision (a)(2), with a check in the second or third election box on the form, depending on whether the assignment involves a certificate of deposit or a passbook account.

(c) Any deposit made in lieu of a surety bond shall be held by the department for a period of three years following the date the licensee has ceased to do business or has ceased to be licensed, whichever is greater, pursuant to Vehicle Code Section 11203, or three years following the replacement of the deposit by a valid surety bond as described in Section 345.65.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Section 11203, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.67. Certification Required With Application for Traffic Violator School Owner.

NOTE: Authority cited: Sections 1651 and 11220(a)(2), Vehicle Code. Reference: Section 11202, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).
2. Repealer filed 2-14-2006; operative 3-16-2006 (Register 2006, No. 7).

§ 345.68. Background Investigation Required.

(a) The department shall investigate the background of each applicant for a traffic violator school owner, operator or instructor license pursuant to Chapter 1.5, Division 5 (commencing with Section 11200), to ensure that each applicant is fit to properly perform the duties of the occupation to be licensed. No permanent license shall be issued pending completion of this investigation; however, the department may issue a temporary permit pursuant to Vehicle Code Section 11210.

(b) Each applicant shall be required to complete an Application For Occupational Licensing (Part B) Personal History Questionnaire, form OL 29 (Rev 3/94), provided by the department. Owner applications shall include a Questionnaire completed by:

- (1) The sole owner or
- (2) All general partners or
- (3) For a corporate owner all principle corporate officers; all parties to a trust agreement; all corporate board members; and any stockholders who are active in the management, direction or control of the corporation or

- (4) The public administrator and
- (5) Any other parties who are active in the management, direction or control of the business activities of the school.

(c) The Personal History Questionnaire shall contain the following information:

- (1) The true full name of the applicant.
- (2) The residence address of the applicant.
- (3) The business and home telephone numbers of the applicant.
- (4) The social security number of the applicant.
- (5) The physical description of the applicant including sex, color of hair, color of eyes, height, weight and birthdate.
- (6) Whether or not the applicant holds a valid California driver license. When the applicant is a holder of a valid California driver license, the license number shall be provided.

(7) Any name or names the applicant has been known by or used other than the name provided in subdivision (c)(1).

(8) The experience and employment record of the applicant for the past three years prior to the date the personal history questionnaire is signed and dated by the applicant.

(9) For instructors only, whether the applicant has attended and or completed high school or college, the name and address of any high school or college attended, and the date studies were completed.

(10) Whether or not the applicant has previously been or is currently licensed in California as a registration service; vehicle salesperson, representative, distributor, dealer, dismantler, manufacturer, remanufacturer, transporter, verifier, lessor-retailer; driving school owner, operator or instructor; traffic violator school owner, operator or instructor; or all-terrain vehicle safety training organization or instructor. When the applicant has previously been or is currently licensed as described in subdivision (c)(10), each current or previous occupational license number issued to the applicant shall be provided.

(11) Whether or not the applicant has ever had a business or occupational license issued by the department or an application for such license refused, revoked, suspended, or subjected to other disciplinary action or was a partner, managerial employee, officer, director, or stockholder in a firm licensed by the department, and the license was revoked, suspended or subject to other disciplinary action. When the applicant answers yes to subdivision (c)(11), the occupational license number, the type of license, the action and the date of the action taken by the department shall be provided.

(12) Whether or not the applicant has ever had a civil judgment rendered against him/her and whether or not the judgment was a result of activity of the applicant's firm licensed by the department. When the applicant answers that the judgment was a result of activity of the applicant's firm licensed by the department, the amount of the judgment and whether the judgment is paid or unpaid shall be provided.

(13) Whether the applicant was ever a partner, managerial employee, officer, director, or stockholder in a firm that had a civil judgment rendered against it and whether or not the judgment was a result of the activity of the firm licensed by the department. When the applicant indicates he/she was a partner, managerial employee, officer, director, or stockholder in a firm that had a civil judgment rendered against it and the judgment was a result of the activity of the firm licensed by the department, the amount of the judgment and whether the judgment is paid or unpaid shall be provided.

(14) Whether or not the applicant has ever declared bankruptcy or was a partner, managerial employee, officer, director, or stockholder in a firm that declared bankruptcy. When the applicant indicates he/she has declared bankruptcy or was a partner, managerial employee, officer, director, or stockholder in a firm that declared bankruptcy, the date the bank-

ruptcy was filed and the name and location of the court of jurisdiction shall be provided.

(15) Whether or not the applicant has ever been convicted, placed on probation, or released from incarceration following conviction for any crime or offense, either felony or misdemeanor, including traffic offenses, within the last ten years. When the applicant indicates he/she was convicted, placed on probation, or released from incarceration following conviction for any crime or offense, either felony or misdemeanor, including traffic offenses, within the last ten years, each offense shall be listed with the conviction date, the court of jurisdiction and the disposition.

(16) A statement signed and dated by the applicant which certifies under the penalty of perjury all the answers and the information contained in the personal history questionnaire are true and correct, and includes the city and state where the document was executed.

(17) A statement signed by the owner, operator or administrator of the traffic violator school acknowledging the information provided on the personal history questionnaire.

(d) The applicant shall submit with the personal history questionnaire a certified copy of the arresting agency report and a certified copy of the court documents for each conviction listed pursuant to subdivision (c)(15).

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219. Reference: 42 U.S.C. 405; Section 11350.6, Welfare and Institutions Code; and Sections 11202, 11202.5, 11206, 11211, 11215 and 11215.5, Vehicle Code.

HISTORY

1. New section filed 10-26-94; operative 11-25-94 (Register 94, No. 43).

§ 345.72. Fingerprinting of Applicants.

(a) All original applications for licenses under Chapter 1.5, Division 5, (commencing with Section 11200) of the Vehicle Code shall be accompanied by one set of fingerprints from each applicant on a standard fingerprint card and payment of a fingerprint processing fee, as described in Vehicle Code Section 1668(b), for each applicant. If the applicant is a partnership or corporation, the application shall be accompanied by a set of fingerprints from each partner, principle corporate officer, board member and any stockholder who is active in the management, direction or control of the corporation. The completed fingerprint card shall contain the following:

- (1) The typed or printed name of the person fingerprinted.
- (2) Any aliases used by the person fingerprinted.
- (3) The birthdate of the person fingerprinted.
- (4) The birthplace of the person fingerprinted.
- (5) The sex, height, weight, eye color and hair color of the person fingerprinted.
- (6) The fingerprint of each finger and thumb on each hand, unless missing or bandaged. When a finger or hand is missing or bandaged, it shall be stated on the card.
- (7) The signature of the person fingerprinted.
- (8) The date the fingerprints are taken.
- (9) The signature of the person taking the fingerprints.
- (10) A statement that the fingerprint card is for the purpose of applying for a traffic violator school license.
- (11) The residence address of the person fingerprinted.

(b) A fingerprint card is not required when the applicant is currently an occupational licensee of the department or the applicant is a prior occupational licensee of the department whose license has not lapsed more than three years from the date of expiration.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11202(a)(1), 11202.5 and 11206(a), Vehicle Code.

HISTORY

INSPECTIONS BY DEPARTMENT

§ 345.74. Inspection and Approval of Sites.

(a) Before authorizing the use of a primary business location, a branch business office or a classroom location, the department shall inspect the

location as needed to determine that the location meets or exceeds the following minimum qualifications.

(1) A business office location, whether the primary location or a branch location, shall comply with the provisions of Vehicle Code Sections 1671(a), 11202(a)(1) and 11202(e) and all applicable provisions of this code.

(2) A classroom location shall meet the requirements outlined in Section 345.38.

(b) No business office, branch business office or classroom shall be inspected by the department until it is operationally ready for business. If the location is not operationally ready for business at the time the application for the location is filed, the date that the location shall be operationally ready for business shall be indicated on the application.

(c) No business office, branch business office or classroom shall be used by a school until its use has been approved by the department.

(1) The department has the authority to approve a classroom without prior inspection based upon the self-certification information contained on the Traffic Violator School Branch Business Office/Classroom Application, form OL 712 (Rev 10/94).

(2) If the department approves the classroom without prior inspection, the department shall inspect the classroom at or before the next monitoring visit, pursuant to Vehicle Code Section 11214.

(d) The department shall notify the applicant in writing when the location is approved for use.

(e) If the location does not comply with department standards, the department shall notify the applicant in writing, within seven (7) days following the inspection citing the specific reasons the location does not comply.

(1) The department shall, upon written request from the applicant, reinspect a proposed location to determine if the deficiencies have been corrected.

(2) The department shall disapprove any site which has been inspected twice and does not pass inspection. A new application and payment of appropriate fees shall accompany any request for further consideration of the site.

(f) The department may reinspect any licensed location as needed to determine that the location continues to meet licensing requirements pursuant to this section.

(1) If the department determines that a location no longer meets approval standards, the department shall notify the school in writing that the location has been disapproved, the specific reasons for disapproval, and the date by which the school shall cease using the location.

(2) The department shall, upon written request from the applicant, reinspect such a disapproved location once to determine if the deficiencies have been corrected.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 1671(a) and 11202, Vehicle Code.

HISTORY

2. Repealer filed 8-29-96; operative 9-28-96 (Register 96, No. 35).

§ 345.78. Traffic Violator School Attendance.

(a) An owner, operator, administrator or instructor of a traffic violator school may not attend any class offered by the school for which he/she is licensed, in lieu of adjudication of any personal traffic citation.

(b) In order to determine compliance with Vehicle Code Section 42005, each traffic violator school shall verify the driver license class and a copy of the citation of each student prior to the student attending the course. The following persons may not attend a traffic violator school in lieu of adjudicating a traffic offense:

(1) Any person holding a class A, class B, or commercial class C driver license.

(2) Any person regardless of driver license class that committed a traffic offense that occurred in a commercial motor vehicle, as defined in subdivision (b) of Vehicle Code Section 15210.

(c) Any person described in subdivision (b) that complies with Vehicle Code Section 11200(b), may elect to attend a traffic violator school.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 11200, 11202, 15210 and 42005, Vehicle Code.

HISTORY

2. Amendment of section heading, section and NOTE filed 8-16-2005 as an emergency; operative 9-20-2005 (Register 2005, No. 33). A Certificate of Compliance must be transmitted to OAL by 1-18-2006 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 8-16-2005 order transmitted to OAL 1-18-2006 and filed 2-22-2006 (Register 2006, No. 8).

§ 345.86. Refusal to Issue, Suspension, Revocation or Cancellation of a License.

(a) In addition to the conditions specified in Sections 11215, 11215.5, 11215.7 and 11216 of the Vehicle Code, the department may refuse to issue, suspend, or revoke a license for a traffic violator school for any of the following reasons:

(1) The traffic violator school wrote a check to the department that was thereafter dishonored when presented for payment.

(2) The traffic violator school violated any of the provisions contained in this Article.

(b) In addition to the conditions specified in Sections 11215, 11215.5, and 11215.7 of the Vehicle Code, the department may refuse to issue, suspend, or revoke a license for a traffic violator school operator for any of the following reasons:

(1) The traffic violator school operator wrote a check to the department that was thereafter dishonored when presented for payment.

(2) The traffic violator school operator violated any of the provisions contained in this Article.

(c) In addition to the conditions specified in Sections 11215, 11215.5, and 11215.7 of the Vehicle Code, the department may refuse to issue, suspend, or revoke a license for a traffic violator school instructor for any of the following reasons:

(1) The traffic violator school instructor wrote a check to the department that was thereafter dishonored when presented for payment.

(2) The traffic violator school instructor violated any of the provisions contained in this Article.

(d) A traffic violator school owner, operator or instructor license may be canceled by the department when the license was issued through error.

NOTE: Authority cited: Sections 1651 and 11202(a)(2), Vehicle Code. Reference: Sections 11204, 11207, 11211, 11215 and 11215.7 and 11216, Vehicle Code.

HISTORY

§ 345.88. Monetary Penalties.

Payment of the following monetary penalties may be required of a traffic violator school owner, operator or instructor pursuant to a stipulated settlement agreement between the Director and the licensee entered into under the authority of Vehicle Code Section 11218:

(a) The monetary penalty shall not exceed one thousand dollars (\$1,000) for a traffic violator school owner or five hundred (\$500) for a traffic violator school operator or instructor, per violation.

(b) A minimum penalty of \$15 and a maximum penalty of \$500 shall be assessed for each violation of the following provisions of law: Vehicle Code Sections 1671, 11202(e), 11202.5, 11206, 11213(c), and 11219.5.

(c) A minimum of \$100 and a maximum of \$1000 for each violation of the following provisions of law: Vehicle Code Sections 20, 11200, 11202(a), 11212, 11213(a), 11213(b), 11213(d), 11215, and 11215.5 and 11215.7.

CESSATION OF BUSINESS

§ 345.90. Voluntary or Involuntary Cessation of Business.

Whenever a school ceases to do business for any period, either voluntarily or involuntarily:

(a) The department may cancel or suspend use of the school's published telephone number(s).

(b) The school shall surrender all owner, operator and instructor licenses applicable to the school and all unused completion certificates.

(c) The school shall provide the department with a telephone number and address of the owner or, if a corporation or partnership, a principal or partner, to enable the department to inquire as to specific records which the ex-licensee shall maintain for three (3) years following cessation of business. The ex-licensee shall notify the department within ten (10) days of any change in either the telephone number or address.

(d) No other traffic violator school shall buy or otherwise obtain the telephone number of a school which ceases to do business, except when a traffic violator school is sold in its entirety.

NOTE: Authority cited: Sections 1651, 11202(a)(2) and 11219, Vehicle Code. Reference: Sections 8803, 11208(d), 11212, 11213, 11217.5 and 11219, Vehicle Code.

Article 5. Requesting Information from the Department

§ 350.02. Definitions.

As used in this article the following definitions shall apply:

(a) Agent. As authorized by the department, a person or entity who is authorized by its preapproved requester to access, receive, or use departmental record information on behalf of its preapproved requester.

(b) Business Use. Use for any approved governmental or commercial purpose. This includes both nonprofit and charitable purposes.

(c) Casual Requester. Any person who is requesting information from the department's files and is not a preapproved requester.

(d) Commercial Requester Account. An account opened to assure timely billing and payment due the department for the sale of information and identified by a unique number.

(e) Commercial Requester Account Agreement. An agreement entered into between the department and a nongovernmental entity applying for preapproved status to request information from the files of the department. The signing of the agreement by both the nongovernmental entity and a representative of the department constitutes the basis to establish a Commercial Requester Account and becomes part of the Commercial Requester Account Application required in section 350.16.

[The next page is 28.11.]

(f) **Direct Requester.** A requester code holder who makes information requests directly to the department, and is billed directly by the department through a Commercial Requester Account.

(g) **End User.** Any requester code holder for whose use information is requested from the department's records. An end user may be either the person requesting the information or another person on whose behalf the information is requested.

(h) **Governmental Entity.** The United States Government or any subdivision, department, court or agency thereof; the state or any subdivision, department, court or agency thereof, including special districts, school districts, the Board of Regents of the University of California; and any city, county, city and county or any agency or subdivision thereof.

(i) **Indirect Requester.** A requester code holder making requests for department information from another requester code holder.

(j) **Mailing Address.** An address, reported separately from the residence address, reported to the department as the address where mail is to be delivered to the addressee. A mailing address is mandatory only when mail cannot be delivered to the reporting individual's residence address. Otherwise a mailing address is optional.

(k) **On-Line Access.** Direct access to the department's electronic data base through computerized equipment and communications lines furnished and maintained at no cost to the department.

(l) **Person.** A natural person, governmental entity, partnership, corporation, association, or the fictitious name under which one of the aforementioned does business.

(m) **Personal Identification Number.** A unique configuration of numbers and letters assigned by the department to requester code holders for use in conjunction with a requester code whenever the department in its sole discretion wishes to validate the identity of a direct requester when information is requested by telephone or in person. Personal identification numbers may be changed at the request of the person to whom issued or at the sole discretion of the department.

(n) **Preapproved Requester.** Any person issued a requester code pursuant to sections 350.08 or 350.26.

(o) **Public.** All natural persons, partnerships, corporations or associations. The public does not include governmental entities, preapproved requesters, natural persons requesting information concerning themselves or their spouses or minor children, and partnerships, corporations or associations requesting information concerning vehicles registered to the partnership, corporation or association.

(p) **Requester Code.** A unique configuration of numbers or letters and numbers assigned by the department to identify a requester.

(q) **Residence Address.** A residence address is the address reported to the department by an individual as the place where that individual resides.

(r) **Special Permit.** A signed agreement between the department and a Commercial Requester Account holder authorized on-line access to the department's electronic data base.

(s) **Vehicle Dealer's Agent.** A person certified by a vehicle dealer, licensed to do business in California, as its agent for the purpose of obtaining information directly from the department as a preapproved requester, pursuant to section 1808.23, subdivision (b), of the Vehicle Code.

(t) **Vehicle Manufacturer's Agent.** A person certified by a vehicle manufacturer, licensed to do business in California, as its agent for the purpose of obtaining information directly from the department, either as a preapproved requester or a nonpreapproved requester, pursuant to section 1808.23(a) of the Vehicle Code.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 470, 1808.21, 1808.22, 1808.23, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798, Civil Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.02 to section 350.02 and amending and repositioning article 5 heading filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (a), new subsection (c), subsection relettering, repealer of subsection (j) and amendment of subsections (p) and (s) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.03. Address Elements.

(a) The following elements of information constitute an address in the records of the department:

- (1) The street name and number, the route and box number, or the post office box number.
- (2) The city name.
- (3) The state name.
- (4) The county name or county code.
- (5) The five digit zip code.
- (6) The plus-four digit zip code.

(b) All elements of a residence address in the department's records shall be confidential and shall not be released to a requester except as follows:

- (1) As provided for in Vehicle Code sections 1808.21, 1808.22, or 1808.23, or

(2) When the requester certifies and the department determines that residence information is needed in order to comply with a state or federal statute, regulation, or rule of court that requires or permits the department to release residence information from the department's records.

(c) The release of any elements of a mailing address in the department records to a nonpreapproved requester shall be restricted to those requests meeting the requirements of section 350.36(a)(6).

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.03 to section 350.03 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (b)(1)-(2) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.04. Information Access.

Information may be obtained from the department's records in one or more of the following ways:

- (a) Directly from the department using an approved requester code.
- (b) Indirectly from the holder of a Commercial Requester Account who is authorized by the department to sell department information to an end user. The request must include both the requester code issued to the direct requester and the requester code issued to the end user.

(c) Directly from the department using the procedures established for a casual requester pursuant to section 350.36.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.04 to section 350.04 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (c) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.06. Governmental Entity's Application for a Requester Code.

A governmental entity's application for a requester code shall be submitted to the department's Information Services Branch in Sacramento on the Governmental Requester Account Application, Form INF 1130 (12/90), provided by the department and shall include the following:

- (a) The type of governmental entity.
- (b) The name of the governmental entity.
- (c) The business and the mailing address of the governmental entity.
- (d) The telephone number of the governmental entity.
- (e) Any existing requester code(s) used by the governmental entity to obtain information from the department.
- (f) The primary function of the governmental entity and the purpose for requesting department information.
- (g) Whether the governmental entity uses exempt license plates as defined in section 4155 of the Vehicle Code.
- (h) Whether the governmental entity is a law enforcement agency.
- (i) Whether the governmental entity's investigators or agents are classified as "peace officers" as described in section 830 of the Penal Code.

(j) The procedures established to protect the confidentiality of information received from the department as required by Vehicle Code section 1808.47.

(k) The name and title of the person responsible for compliance with the statutes and regulations pertaining to access and use of information from department records and a description of the person's position within the governmental entity.

(l) The name, title and telephone number of the person to be contacted by the department to resolve problems.

(m) A sworn statement signed and dated by the person described in subdivision (k) as to the truth of the contents of the application; the penalties for false representation and misuses of the information; and, the city, county and state where the document is executed.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.47, 1810, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.06 to section 350.06 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of first paragraph filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.08. Assignment of Requester Codes, and Personal Identification Numbers to Governmental Entities.

Any governmental entity whose application is approved shall be issued a requester code, and a personal identification number.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1810 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.08 to section 350.08 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.10. Governmental Entity's Request for Information.

A governmental entity's request for information, including an on-line access request, must include the requester code issued to the governmental entity. If the request is made by telephone or in person the personal identification number issued to the governmental entity may also be required. The request must also include one or more of the following identifying points of the record from which information is requested:

(a) For vehicle registration information the identifying points of the record may be the license plate number, vehicle identification number, owner's full name, owner's full name and address, or any combination thereof.

(b) For vessel registration information the identifying points of the record may be vessel registration number, hull number, owner's full name, owner's full name and address, or any combination thereof.

(c) For driver's license or identification card information, the identifying points of the record shall be at least one of the full name, driver's license number, or identification card number.

(d) For financial responsibility information the identifying points of the record may be the date, time and location of accident; full name of either driver involved; driver's license number of either driver; license plate number of a vehicle involved; the financial responsibility number assigned by the department; or any combination thereof.

(e) For occupational licensing information the identifying points of the record may be the full name of the licensee, the name under which the licensee does business, the occupational license number, or any combination thereof.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Section 1810, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.10 to section 350.10 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.12. Priority for Processing Governmental Requests.

Governmental requests for information shall be processed in accordance with the following priorities:

- (a) Departmental processing.
- (b) Law Enforcement request processing.
- (c) Court request processing.
- (d) Other governmental request processing.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.12 to section 350.12 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.14. Release of Information to Governmental Entity.

Information shall be released to a governmental entity as soon as the information request is processed and without notice to the person to whom the information relates.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code; Reference: Section 1810, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.14 to section 350.14 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.16. Information Required on a Nongovernmental Application for a Requester Code.

(a) A nongovernmental original and a renewal application for a requester code shall be submitted to the department's Information Services Branch in Sacramento on the Commercial Requester Account Application, Form INF 1106 (REV. 10/2000), and shall include the following:

- (1) The nongovernmental entity's business/organization name.
- (2) The nongovernmental entity's telephone number.
- (3) The business and the mailing address of the nongovernmental entity.

(4) The name, addresses and telephone numbers of the branch locations of the nongovernmental entity that will be receiving information from the department's records.

(5) Any existing requester code(s) issued by the department and used for the nongovernmental entity's business.

(6) Whether the nongovernmental entity will purchase departmental information through a departmental preapproved requester.

(7) Where the nongovernmental entity wants purchased information mailed.

(8) If the nongovernmental entity is required to be licensed by the State of California or if the applicant is a member of the California State Bar list the business license number, the agency issuing the license, the type of license, and the date the license expires. Also, if applicable, list the federal employer identification number, the corporation number, and the state that issued the number.

(9) A description of the business or organization.

(10) The purpose(s) for requesting information.

(11) The medium of inquiry and delivery the nongovernmental entity requests.

(12) Whether the nongovernmental entity will request information from the registration file; the driver's license file; the financial responsibility file; the occupational licensing file; or any combination thereof; and, whether the nongovernmental entity will request mailing address and/or residence address information.

(13) If residence address information will be requested, the specific reasons such information will be requested, and the regulation, federal or state statute, identified by code name and section number, or rule of court that requires the department to release the residence address information.

(14) If mailing address information will be requested, the specific reasons such information will be requested.

(15) Whether or not the nongovernmental entity will resell information to another preapproved requester.

(16) A description of the nongovernmental entity's automated system design to be used for on-line access and record reproduction when the application is for on-line access.

(17) If the applicant is requesting access to residence address or mailing address information, a copy of the procedures established to protect the confidentiality of the information received from the department as required by Vehicle Code section 1808.47. The security procedures shall address at least the extent to which access to the requester code, personal identification number, and information received from department records is restricted.

(18) The name and title of the person signing the agreement described in section 350.18 who is responsible for compliance with the statutes and regulations pertaining to the access and use of information from department records, and a description of the person's position within the nongovernmental entity.

(19) The name, title and telephone number of the person to be contacted by the department to resolve problems.

(20) A sworn statement signed and dated by the person described in subdivision (18) as to the truth of the contents of the application; the penalties for false representation and misuse of information; and, the city, county and state where the document is executed.

(b) A nongovernmental entity shall notify the department's Information Services Branch in Sacramento in writing within ten (10) working days of any permanent termination of the need for information, or any change of the information required in subdivision (a).

(c) A nongovernmental entity may have its authorization for access to residential information deleted by making either a written or verbal request to that effect to the department. The request will be honored upon receipt.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1808.47, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.16 to section 350.16 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.18. Additional Requirements for a Nongovernmental Application for a Requester Code.

(a) A Commercial Requester Account Agreement, Form INF 1108 (2/91), provided by the department shall be completed and submitted with the application required in section 350.16.

(b) In addition to provisions contained in this article or in existing statute, the agreement includes the following provisions:

(1) The agreement is subject to any restrictions, limitations, or provisions enacted by the California State Legislature which may affect the provisions or terms set forth in the agreement.

(2) The agreement is not assignable by the preapproved requester, either in whole or in part, without the prior written consent of the department.

(3) The preapproved requester shall not sell or transfer ownership of a vehicle or vessel if the information received from the files of the department indicates a Department of Justice stop ("DOJ STOP"). The preapproved requester shall notify the local police regarding the vehicle or vessel whenever the location of the vehicle or vessel is known to the preapproved requester.

(4) If the preapproved requester receives residence address or mailing address information from the files of the department, the requester may release the address information to an agent, other than an employee of the requester acting on that requester's behalf, if the requester has on file at the business address listed on the application for a requester code a Security Statement, Form INF 1110 (12/90) provided by the department and signed by the agent.

(5) The requester agree to defend, indemnify and hold harmless the department and its officers, agents and employees from any and all claims, actions, damages or losses which may be brought or alleged against the

department, its officers, agents or employees by reason of the negligent, improper, or unauthorized use or dissemination by the requester or its officers, agents, or employees, of information furnished to the requester by the department or by reason of inaccurate information furnished to the requester by the department unless the requester can show that the department was originally furnished accurate information from the reporting source.

(c) The agreement shall be dated and signed by the person described in section 350.16(a)(25); and, shall include the city, county, and state where the document is executed.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.47, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.18 to section 350.18 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.20. Certifications Required with Nongovernmental Applications for Access to Residence Address Information.

(a) If the applicant for a requester code is an agent and is requesting access to residence addresses, an Information Services Certification of Agency, Form INF 1184 (2/91), provided by the department, shall be submitted with the application and shall include the following:

(1) The name, address, telephone number, and the dealer or manufacturer license number of the vehicle dealer or vehicle manufacturer certifying the agent.

(2) The name, address, telephone number, and driver's license number of the agent being certified.

(3) A certification by the vehicle dealer or vehicle manufacturer which authorizes the applicant to act as an agent for the purpose of obtaining information from the department pursuant to section 1808.23 of the Vehicle Code.

(4) A signed statement, certified under the penalty of perjury, by the vehicle dealer or vehicle manufacturer in which the dealer of manufacturer agrees to:

(A) Hold the department harmless from any monetary loss to the department by reason of the use of information obtained from the department by the agent; and

(B) Pay to the department, its officers, and any other person(s) all civil damages occasioned to the department or such persons by reason of the acts or omissions by the agent in obtaining information from the Department by means of false or misleading representations, or in selling, giving, or otherwise furnishing any information obtained from the Department records to any third party not specifically authorized and approved by the Department.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.25, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1810, 1810.2, 1811, and 16053, Vehicle Code. Sections 1798.24 and 1798.26, Civil Code; and Cal Jur 3d 109.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.20 to section 350.20 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Repealer of subsections (a) and (b), subsection relettering, and amendment of newly designated subsection (a) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.22. Fees Required with an Application for a Nongovernmental Requester Code.

(a) A filing fee of two hundred and fifty dollars (\$250) shall accompany an original application and each biennial renewal application for a requester account when the applicant is requesting and is authorized by law to receive confidential residence address information. Applicants not authorized to receive, or not requesting, confidential residence address information shall submit a filing fee of fifty (\$50) with the original application and with each biennial renewal application.

(b) If the application is for an on-line access special permit, a filing fee of two hundred and fifty dollars (\$250) shall accompany an original application and each biennial renewal application.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.22 to section 350.22 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Editorial correction of subsection (a) (Register 95, No. 43).
3. Amendment filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.24. Bond Requirements for a Commercial Requester Account with Access to Confidential Address Information.

(a) The bond required by Vehicle Code section 1810.2(c) shall be executed by an admitted surety insurer, on a Commercial Requester Account Bond, form INF 1132 (REV. 9/2004), which is hereby incorporated by reference and subject to chapter 2 (commencing with section 995.010), title 14, of part 2 of the Code of Civil Procedure. The bond shall be conditioned that the applicant shall:

(1) Pay to the State monies due for application fees and department costs related to the release or access of information from DMV records to the Principal; and

(2) Pay for any loss or damage to the State, the department, its officers, and employees arising from the use of the requester account including:

(A) Obtaining information from the department by means of false or misleading representations,

(B) Using information obtained from the department for any purpose different from the purpose specified in the Principal's application for a Commercial Requester Account, and

(C) Selling, giving, or otherwise furnishing any information obtained from department records to any third party not specifically authorized and approved by the department.

(b) The bond requirement of this section shall be the only financial security required of an on-line access permit holder pursuant to Vehicle Code section 1810.7(d).

(c) The commercial requester account holder shall not access confidential address information pursuant to Vehicle Code section 1810.2 when the bond falls below fifty thousand dollars (\$50,000) or after the effective date of revocation or cancellation by the surety pursuant to section 996.310 of the Code of Civil Procedure without the filing of an adequate replacement bond. The commercial requester account holder may access confidential address information when the liability on the bond is at fifty thousand dollars (\$50,000) or an adequate replacement bond has been filed with the department.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1808.45, 1808.46, 1808.47, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.24 to section 350.24 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (a) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).
3. Amendment of section heading, section and NOTE filed 7-27-2005; operative 8-26-2005 (Register 2005, No. 30).

§ 350.26. Assignment of Commercial Requester Accounts, Requester Codes, and Personnel Identification Numbers to Nongovernmental Entities.

(a) Any nongovernmental entity submitting an application which is approved shall be issued a Commercial Requester Account number, one or more requester codes, and a personal identification number. Requester codes shall be assigned which permit access to information in accordance with the approved application.

(b) Requester codes shall be issued for a period of two years from the date of application approval and may be renewed upon each biennial application for additional periods of two years each.

(c) Any nongovernmental entity submitting an application which is disapproved shall not be issued the numbers and codes described in sub-

division (a), and shall be notified in writing by the department of such disapproval and the reasons therefor.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.45, 1808.46, 1808.47, 1810, 1810.2, 1810.7 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Change without regulatory effect renumbering former section 320.26 to section 350.26 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.28. Nongovernmental Requester Code Holder's Request for Information.

(a) A nongovernmental requester code holder's request, including an on-line access request, for information must include a requester code issued to the requester and, if acting on behalf of another, a requester code issued to the end user of the information. If the request is made by telephone or in person, the personal identification number of the requester code holder making the request may be required. The request must also include one or more of the following points of identification of the record:

(1) For vehicle registration information the points of identification include the license plate number, or the vehicle identification number or the owner's name and full address. If the request is made in conjunction with a vehicle lien sale the points of identification shall include the vehicle identification number, make, and year model of the vehicle being sold.

(2) For vessel registration information the points of identification include the vessel registration number or hull number.

(3) For driver's license or identification card information the points of identification include either the full name and date of birth, or the full name and driver's license or identification card number.

(4) For financial responsibility information the points of identification include the date, time and location of accident; the full name of either driver involved; the driver's license number of either driver; the license plate number of a vehicle involved; the financial responsibility number assigned by the department; or any combination thereof.

(5) For occupational licensing information the points of identification include the full name of the licensee, the name under which the licensee does business, or the occupational license number.

(b) If the end user of information that includes a residence address is a financial institution, the financial institution must determine before submitting the request, either that it has obtained a written waiver of the right to confidentiality of residence address signed by the individual about whom the information is requested, or that such individual is presently obligated to the financial institution under an agreement that was executed prior to July 1, 1990.

(c) If the end user of information that includes a residence address is an insurance company, the insurance company must determine before submitting the request, that it obtained a written waiver of the right to confidentiality of residence address signed by the individual about whom the information is requested; that such individual is presently insured under a policy, and that a named insured under that policy signed such a written waiver; or that such individual was involved in an accident with a person who is insured by the end user.

(d) If the end user of information that includes a residence address is an attorney, the attorney must determine before submitting the request, that the request is pursuant to section 1808.22(c) of the Vehicle Code.

(e) If the end user of the information that includes a residence address is a vehicle manufacturer or a vehicle manufacturer's agent, the manufacturer or the agent must determine before submitting the request, that the request is pursuant to section 1808.23(a) of the Vehicle Code.

(f) If the end user of the information that includes a residence address is a vehicle dealer or a vehicle dealer's agent, the dealer or the agent must determine before submitting the request, that the request is pursuant to section 1808.23(b) of the Vehicle Code.

(g) If the end user of the information that includes a residence address is requesting the information as permitted under subdivision (h) of section 1798.24 of the Civil Code, the requester must determine before sub-

mitting the request, that no persons will be contacted by mail or otherwise at the address included with the information.

(h) If the end user of information that includes a residence address is not requesting the residence address information pursuant to section 1808.22 or 1808.23 of the Vehicle Code, the end user must cite a federal or state statute, regulation, or rule of court that specifically requires the department to release the residence address information from its records.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.28 to section 350.28 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (b), (c) and (h) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.30. Priority for Processing Nongovernmental Requests.

Nongovernmental requests for information shall be processed in accordance with the following priority:

- (a) Departmental processing.
- (b) Governmental request processing.
- (c) Nongovernmental request processing.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.30 to section 350.30 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.32. Release of Information to Commercial Requester Account Holder.

(a) Information may be released to a Commercial Requester Account holder as soon as the information request is processed and without notice to the person to whom the information relates.

(b) Residence address information shall be deleted from copies of non-electronically stored records before such copies may be released to any person not authorized access to residence address information. Copies of nonelectronically stored records shall not be released to those entities defined as the public pursuant to section 350.02(o).

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Section 1810, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.32 to section 350.32 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.34. Additional Security Requirements for On-Line Access.

On-line access special permit holders shall be responsible for security of the system and the information received as follows:

(a) When access to address information is authorized, terminal or modems shall not be left unattended unless secured by a locking device or placed in a locked room.

(b) Video terminals, printers, or other forms of information duplication shall be placed so that address information may not be viewed by the public.

(c) Access to codes and operational manuals shall be restricted to persons authorized access to department information, and who have signed an Employee Security Statement, Form INF 1128 (3/97), provided by the department.

(d) Each person authorized on-line access by a special permit holder shall sign an Employee Security Statement, Form INF 1128 (3/97) for his or her employer. The statement shall be retained by the employer for a period of two (2) years. A new statement shall be signed annually.

(e) The special permit holder shall maintain at the business address listed on its application a current list of the names of persons authorized

access to department information. The list shall be initialed and dated by each authorized employee.

(f) The special permit holder shall notify the department's Office of Information Services in Sacramento, in writing, by the end of the next business day following the termination of authority of any person to access department information. The special permit holder shall maintain a list of the names of persons whose authority to access information was terminated and the reason for the termination. Names shall not be purged from the list for a period of at least two (2) years from the date of termination. The list shall be available for inspection by the department at the business address listed on the permit holder's application, during normal business hours, on one business day's notice from the department.

(g) If the special permit holder suspects any misuse of the system or department information by any person, the suspicion shall be reported to the department's Office of Information Services by telephone immediately, and in writing within three (3) days.

(h) The special permit holder shall be responsible for administering the terms and conditions of the permit agreement and department regulations in this article, and for the orientation, training, and supervision of persons authorized on-line access pursuant to the permit.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.7 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.34 to section 350.34 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsections (c) and (d) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.36. Casual Requests for Information.

(a) A casual requester may submit a request for information in person or by mail at any office of the department. The request shall be made in writing and shall include the following information:

- (1) The name of the requester.
- (2) The residence or business address and telephone number of the requester.
- (3) The reason the information is requested.
- (4) The intended use of the information requested.
- (5) If residence address information is requested, the specific reasons such information is being requested, and the regulation, federal or state statute, identified by code name and section number, or rule of court that requires the department to release the residence address information.

(6) If mailing address information is requested, the reason such information is being requested. Acceptable reasons are for use in connection with assessment of driver risk or ownership of vehicles or vessels.

(b) Whether submitted by mail or in person, a casual requester's request for information must include the following points of identification of the record requested.

(1) For vehicle registration information the points of identification may be the license plate number or vehicle identification number; or the owner's name and full address. If the request is made in conjunction with a vehicle lien sale the points of identification shall include the vehicle identification number, make, and year model of the vehicle being sold.

(2) For vessel registration information the points of identification may be the vessel registration number or hull number.

(3) For driver's license or identification card information the points of identification may be either the full name and date of birth or the full name and driver's license number or the full name and identification card number.

(4) For financial responsibility information the points of identification may be the date, time and location of accident; the full name of either driver involved; the driver's license number of either driver; the license plate number of a vehicle involved; the financial responsibility number assigned by the department; or any combination thereof.

(5) For occupational licensing information the points of identification may be the full name of the licensee; the name under which the licensee

does business, the occupational license number, or any combination thereof.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Section 1798.26, Civil Code; Sections 1808.21, 1808.22, 1808.23, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.36 to section 350.36 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section heading and subsections (a) and (a)(5), repealer of subsection (a)(5)(A) and amendment of subsection (b) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.38. Identification of Casual Requesters.

(a) No request for information made in person by a casual requester shall be processed until the requester's true identity is established to the satisfaction of the department. Acceptable evidence of identification shall be:

- (1) A valid California driver's license.
- (2) A valid California identification card.
- (3) A valid foreign state driver's license.
- (4) Any other identification cards issued by a governmental agency.
- (5) A valid California State Bar membership card.

(b) No request for information submitted by mail by a casual requester shall be processed until the requester's true identity is established to the satisfaction of the department. Acceptable evidence of identification shall be:

- (1) The number of the requester's valid California driver's license.
- (2) The number of the requester's valid California identification card.
- (3) The number of the requester's valid foreign state driver's license.
- (4) The number and identity of the requester's valid identification document issued by a governmental entity.

(5) The number of the requester's valid California State Bar membership card.

NOTE: Authority cited: Section 1798.26, Civil Code; Section 1651, Vehicle Code. Reference: Section 1798.26, Civil Code; Sections 1808.21, 1801.22, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Change without regulatory effect renumbering former section 320.38 to section 350.38 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section heading and subsections (a) and (b) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.40. Release of Information to Casual Requester.

(a) Information may be released to a casual requester either in person or by mail and as soon as the information request is processed if the requester is properly identified and is acting in the course of employment for a governmental entity.

(b) Information may be released to a casual requester either in person or by mail and as soon as the information request is processed if the requester is properly identified and has satisfied the department that the information is required without delay to comply with a regulation, rule of court or federal or state statute, and the applicant has furnished the information required by section 350.36(a)(5).

(c) Information may be released to a casual requester who is requesting information pursuant to section 1808.22(a), 1808.22(b), 1808.22(c), 1808.23(a), 1808.23(b), or 1808.23(c), either in person or by mail, and as soon as the information request is processed provided that the applicant has furnished the department with the information required or by the specific subdivision which permits the request.

(d) Information may be released to a casual requester either in person or by mail and as soon as the information request is processed if the requester is properly identified and has satisfied the department that the information is from applicant's own record or from the record of a spouse or minor child when the department's record reflects the same residence address for the subject of record and the requester.

(e) Except as provided in subdivisions (a), (b), (c), and (d) information shall be released by mail to a casual requester, but not until ten (10) working days from the date the request is received at the department's Information Services Branch. Whether or not release of the information is delayed, the department shall furnish the person to whom the information relates with the name of the person making the request and the identity of the information requested. The address of the person requesting the information shall not be disclosed to the person to whom the information relates.

(f) If, during the ten (10) day period referred to in subdivision (e), the department's Office of Information Services receives a written objection to the release of the information from the person to whom the information relates, the department may further delay the release of the information for as long as is necessary to evaluate the objection. If the department determines that the public interest in withholding the information outweighs the public interest in releasing the information, then the information shall not be released. If the information is not released, both the requester and the person to whom the information relates shall be notified, in writing, about the decision to withhold the information. If the department determines that the public interest in releasing the information outweighs the public interest in withholding the information, the information shall be released but only after the person making the objection is notified that the department intends to release the information.

(g) Whether the request for information is received by mail or in person, the information approved for release to a casual requester may be mailed to the requester at the address furnished by the requester.

(h) Residence address information shall be deleted from copies of nonelectronically stored records before such copies may be released to any person other than a governmental entity. Copies of nonelectronically stored records shall not be released to those entities defined as the public pursuant to section 350.02(o).

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.47, 1810, 1810.7, 1811, 1808.22 and 1808.23, Vehicle Code; Section 1798.26, Civil Code; Section 6255, Government Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.40 to section 350.40 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section heading and subsections (a)-(e) and (g) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.42. Use of Information.

Any use of the information for a purpose other than the use stated in the approved application for a requester code or in the approved information request is prohibited.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.45, 1808.46, 1808.47, 1810, 1810.7 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Change without regulatory effect renumbering former section 320.42 to section 350.42 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 350.44. Cost of Information.

(a) Information shall be furnished to a governmental entity without charge.

(b) Nongovernmental Commercial Requester Account holders shall be charged for information according to the following schedule:

- (1) Two dollars (\$2) for each record requested electronically.
- (2) Five dollars (\$5) for each record requested in writing or by telephone.
- (3) Twenty dollars (\$20) for each copy of a nonelectronically stored record.
- (4) One hundred dollars (\$100) per thousand records for a bulk request for all records which meet a specified criteria not related to a specific person or vehicle.

(c) Casual requesters shall be charged for information according to the following schedule:

- (1) Five dollars (\$5) for each computer printout.
- (2) Twenty dollars (\$20) for each copy of a nonelectronically stored record.
- (3) One hundred dollars (\$100) per thousand records for a bulk request for all records which meet a specified criteria not related to a specific person or vehicle.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1811 and 1812, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.44 to section 350.44 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (c) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).
3. Amendment of section and NOTE filed 4-29-2002 as an emergency; operative 4-29-2002 (Register 2002, No. 18). A Certificate of Compliance must be transmitted to OAL by 8-27-2002 or emergency language will be repealed by operation of law on the following day.
4. A court order issued 7-3-2002 invalidated application of the amendment of 4-29-2002 to commercial requesters for electronic access to drivers' license information (*Personal Insurance Federation of California et al. v. California Department of Motor Vehicles*, Sacramento County Superior Court, Case No. 02CS00702).
5. Certificate of Compliance as to 4-29-2002 order transmitted to OAL 8-12-2002; withdrawn by Department of Motor Vehicles 9-23-2002. Reinstatement of section and NOTE as they existed prior to 4-29-2002 emergency amendment by operation of law 9-24-2002 (Register 2002, No. 39).

§ 350.46. Payment for Information.

(a) Nongovernmental Commercial Requester Account holders shall be billed monthly, in arrears, for information requested by the Commercial Requester Account holder and processed by the department. The bill shall be payable, in full, upon receipt. If any amount remains unpaid sixty (60) days after the invoice date, the Commercial Requester Account holder's requester codes shall be revoked unless the Commercial Requester Account holder disputes the amount of the bill, in writing, within thirty (30) days of the invoice/date. If the amount of the bill is disputed, the Commercial Requester Account holder's requester codes shall not be revoked until thirty (30) days after the department confirms the amount of any disputed bill and rebills the Commercial Requester Account holder.

(b) Casual requesters shall pay in cash, money order, or check at the time the request for information is submitted to the department.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering former section 320.46 to section 350.46 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (b) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.48. Retention of Records.

(a) The department shall retain a record of each request for information from a casual requester for a period of ninety (90) days from the date the request is received, and from a preapproved requester for a period of two (2) years from the date the request is received. The record retained may indicate whether the request was granted, in whole or in part, and may identify the information released, if any.

(b) Each requester code holder authorized to resell information to another requester shall maintain a monthly record of each request for information for a period of five (5) years from the date of the request, showing the date of the request, the type of information requested (vehicle or vessel registration, drivers license, financial responsibility, or occupational licensing), the identity of the end user including indirect requesters, and identify the proposed use of information as approved by the department, in that order.

(c) Each requester code holder who is requesting or receiving confidential information, but who is not reselling the confidential information, shall maintain a monthly record of each request for information for a period

of two (2) years from the date of the request, showing the date of the request, the requester code of the person making the request to the department, the type of information requested (vehicle or vessel registration, drivers license, financial responsibility, or occupational licensing), points of identification used for the request (e.g., license number and date of birth), and the purpose of the request, in that order.

NOTE: Authority cited: Section 1798.26, Civil Code; Sections 1651 and 1810, Vehicle Code. Reference: Section 1798.26, Civil Code; Sections 1808.46, 1810 and 1811, Vehicle Code; and Driver's Privacy Protection Act (18 U.S.C., Section 2721).

HISTORY

1. Change without regulatory effect renumbering former section 320.48 to section 350.48 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of section and NOTE filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.50. Inspection of Records.

(a) Each requester code holder shall keep the records retained pursuant to sections 350.48 and 350.18(b)(4) at the business address listed on the requester code holder's application for a requester code.

(b) The place of business shall be open to an electronic or manual audit of the records required to be retained during normal business hours, immediately upon request from the department or the department's representative.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.46, 1810 and 1811, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.50 to section 350.50 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (b) filed 6-13-2001; operative 7-13-2001 (Register 2001, No. 24).

§ 350.52. Refusal, Suspension or Revocation of Requester Codes.

(a) The department may suspend or revoke a requester code or an on-line access special permit, may refuse to issue a requester code or on-line access special permit, or may refuse to approve access to confidential address information, after notice and opportunity to be heard, for any of the following reasons:

(1) The application is incomplete.

(2) The applicant requests access to residence address information when not authorized such access pursuant to statute, regulation, or rule of court.

(3) Based on the applicant's stated purpose for requesting information, the department determines that the public interest in withholding the information outweighs the public interest in releasing the information.

(4) The information on the application for a requester code is incorrect, false, misleading, or identifies an intended misuse of the information requested.

(5) The applicant, or a representative of the applicant, was previously the holder or a managerial employee of the holder of a requester code revoked for cause and never reissued by the department, or suspended for cause and the terms of the suspension are not fulfilled. For the purposes of this subdivision, a representative means a proprietor, limited or general partner, a managerial employee, or a director or officer active in the management, direction, or control of the business of the requester code holder. A managerial employee is any person who exercises managerial control over the business of a requester code holder.

(6) The holder, or any employee of the holder, used information received from the department for a purpose other than the purpose stated in the holder's application for a requester code.

(7) The bond required pursuant to section 350.24 is canceled and a replacement bond is not filed with the department prior to the cancellation.

(8) The holder submitted a check, draft, or money order to the department, that was thereafter dishonored when presented for payment.

(9) The holder sold or otherwise delivered information obtained from the department to a person other than the requester code holder for whom

the information was obtained except as provided for in section 350.18(b)(6).

(10) The holder failed to pay for information received from the department.

(11) The holder or any representative of the holder represented to any person that the holder or such representative as an officer, agent or employee of the department.

(12) The holder published any false or misleading advertising related to the purchase of information from the department.

(13) The holder used the DMV logogram in any advertising or other materials used in the business of the holder. If the holder uses the DMV logogram in any advertising, the advertising shall neither state nor infer that there is any official connection between DMV and the advertiser or that DMV has sanctioned or approved of either the advertisement or the advertiser's services.

(14) The holder violated any of the provisions contained in this article.

(b) The notice and hearing provided for in this section shall be conducted pursuant to chapter 5 (commencing with section 11500) of part 1 of division 3 of title 2 of the Government Code.

(c) This section shall remain in effect only until October 1, 2000, and as of that date is repealed.

(d) From October 1, 1998 through September 30, 2000, provisions of this section shall apply only to requester codes issued or renewed on or before October 1, 1998.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.23, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.52 to section 350.52 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. New subsections (c) and (d) filed 8-31-98; operative 9-30-98 (Register 98, No. 36).

§ 350.53. Surrender of Records.

(a) Upon termination of a requester account agreement, the holder shall surrender to the department all records retained pursuant to sections 350.48 and 350.18(b)(4). The records shall be delivered to the department's Office of Information Services in Sacramento not later than the end of the third departmental business day following the date of termination of the agreement.

(b) Whenever notification is made pursuant to section 350.16(b) of any permanent determination of the need for information, all records retained pursuant to sections 350.18(b)(4) and 350.48 shall be delivered with the notification to the department's Office of Information Services in Sacramento.

(c) The department shall provide a no fee copy of the surrendered records to the account holder not later than 60 days from the date of surrender, provided that the account holder requests a copy, in writing, at the time of surrender.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1810, 1810.2 and 1810.7, Vehicle Code; and Section 1798.26, Civil Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 320.53 to section 350.53 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. Amendment of subsection (a) filed 8-31-98; operative 9-30-98 (Register 98, No. 36).

§ 350.54. Temporary Suspension of a Requester Code.

(a) The department may, pending a hearing, temporality suspend the requester code issued to any person, for a period not to exceed thirty (30) days, if the director finds that such action is required in the public interest. In any such case the director shall give the requester code holder an opportunity to appear before the director, either in person or by telephone to argue informally against the temporary suspension. If the director sustains the temporary suspension, the hearing shall be held and the decision rendered within thirty (30) days of the date of the temporary suspension.

(b) This section shall remain in effect only until October 1, 2000, and as of that date is repealed.

(c) From October 1, 1998 through September 30, 2000, provisions of this section shall apply only to requester codes issued or renewed on or before October 1, 1998.

NOTE: Authority cited: Sections 1651 and 1810, Vehicle Code; and Section 1798.26, Civil Code. Reference: Sections 1808.21, 1808.22, 1808.45, 1808.46, 1808.47, 1810, 1810.2 and 1811, Vehicle Code; Section 1798.26, Civil Code; and Section 1, Ch. 1213, Stats. 1989.

HISTORY

1. Change without regulatory effect renumbering former section 320.54 to section 350.54 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).
2. New subsection (a) designator and new subsections (b) and (c) filed 8-31-98; operative 9-30-98 (Register 98, No. 36).

§ 400.00. Licenses.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 1651, 11100, 11104, 11105 and 11105.5, Vehicle Code.

HISTORY

1. Renumbering of section 400.05 to section 400.00 and amendment filed 10-4-77; effective thirtieth day thereafter (Register 77, No. 41). For former section 400, see Register 68, No. 26.
2. Amendment filed 1-18-83; effective thirtieth day thereafter (Register 83, No. 4).
3. Change without regulatory effect renumbering former section 400.00 to section 340.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

§ 400.10. Applications.

HISTORY

1. New section filed 11-9-77; effective thirtieth day thereafter (Register 77, No. 46).
2. Amendment filed 9-13-85; effective thirtieth day thereafter (Register 85, No. 37).
3. Change without regulatory effect renumbering former section 421.00 to section 316.00 filed 7-19-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 30).

Article 6. Administration**§ 422.01. Administrative Fees for Returned Checks.**

(a) The department shall assess an administrative fee of thirty dollars (\$30) for each check submitted to the department as payment of any fee or obligation if that check is returned as dishonored from the financial institution from which the check is drawn.

(b) The administrative fee shall be added to the fee or other obligation for which the check was submitted, and that fee or obligation shall not be considered paid until the entire amount is paid.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 6157, Government Code; and Sections 9558 and 34672, Vehicle Code.

HISTORY

1. New section filed 12-6-93; operative 1-5-94 (Register 93, No. 50).
2. Amendment of subsections (a)-(b) and repealer of subsections (c)-(d) filed 9-5-96; operative 10-5-96 (Register 96, No. 36).
3. Amendment of subsection (a) and amendment of NOTE filed 7-25-2002; operative 8-24-2002 (Register 2002, No. 30).

§ 423.00. Fee Adjustment.

(a) Vehicle Code section 1678 requires the department on January 1, 2005, and every January 1 thereafter, to adjust specified fees by increasing each fee in an amount equal to the increase in the California Consumer Price Index for the prior year, as calculated by the Department of Finance with amounts equal to or greater than fifty cents (\$0.50) rounded to the next highest whole dollar.

(1) Effective January 1, 2005, the following fees authorized under the following statutes shall be changed to:

(A) Sixteen dollars (\$16) for fees authorized under Vehicle Code sections 4604(b), 5014(f), 5036, 6700.25(e), 9102.5(a), 9102.5(c), 9252(a), 9254, 9258, 9261(a), 9261(b), 9261(c), 9261(d), 9265(a), 9265(b), 9702, 11515, 11515.2, 38121(b), 38232, 38255(a), 38255(b), 38255(c), 38260, and 38265(a); Code of Civil Procedure sections 488.385(b) and (c); and Revenue and Taxation Code section 10902(c).

(B) Twenty dollars (\$20) for fees authorized under Vehicle Code section 14901.

(C) Twenty-one dollars (\$21) for fees authorized under Vehicle Code section 14902(a).

(D) Twenty-five dollars (\$25) for noncommercial driver license fees authorized under Vehicle Code sections 12814.5(d), 14900(a), and 14900.1(a).

(E) Thirty-five dollars (\$35) for fees authorized for commercial driver license renewal or noncommercial firefighter driver license renewal under Vehicle Code section 12814.5(d).

(2) Effective January 1, 2006, the following fees authorized under the following statutes shall be changed to:

(A) Ten dollars (\$10) for fees authorized under Vehicle Code section 9250.8(a) and (b).

(B) Thirteen dollars (\$13) for fees authorized under Vehicle Code section 9250.13(a)(1) and (2).

(C) Twenty-six dollars (\$26) for noncommercial driver license fees authorized under Vehicle Code sections 12814.5(d), 14900(a) and 14900.1(a).

(D) Thirty-six dollars (\$36) for fees authorized for commercial driver license renewal or noncommercial firefighter driver license renewal under Vehicle Code section 12814.5(d).

(3) Effective January 1, 2007, the following fees authorized under the following statutes shall be changed to:

(A) Six dollars (\$6) for fees authorized under Vehicle Code sections 14900(b) and 14900.1(b).

(B) Seven dollars (\$7) for fees authorized under Vehicle Code section 9250.13(a)(1) and 14902(c).

(C) Fourteen dollars (\$14) for fees authorized under Vehicle Code section 9250.13(a)(1) and (2) for Commercial Vehicle Registration Act (CVRA) vehicles only.

(D) Seventeen dollars (\$17) for fees authorized under Vehicle Code sections 4604(b), 5014(f), 5036, 6700.25(e), 9102.5(a), 9102.5(c), 9252(a), 9254, 9258, 9261(a), 9216(b), 9261(c), 9261(d), 9265(a), 9265(b), 9702, 11515, 11515.2, 38121(b), 38232, 38255(a), 38255(b), 38255(c), 38260, and 38265(a); Code of Civil Procedure sections 488.385(b) and (c); Revenue and Taxation Code section 10902(c).

(E) Twenty-one dollars (\$21) for fees authorized under Vehicle Code section 14901.

(F) Twenty-two dollars (\$22) for fees authorized under Vehicle Code section 14902(a).

(G) Twenty-seven dollars (\$27) for noncommercial driver license fees authorized under Vehicle Code sections 12814.5(d), 14900(a) and 14900.1(a).

(H) Thirty-eight dollars (\$38) for fees authorized for commercial driver license renewal or noncommercial firefighter driver license renewal under Vehicle Code section 12814.5(d).

(4) Effective January 1, 2008, the following fees authorized under the following statutes shall be changed to:

(A) Twenty-two dollars (\$22) for fees authorized under Vehicle Code section 14901.

(B) Twenty-three dollars (\$23) for fees authorized under Vehicle Code section 14902(a).

(C) Twenty-eight dollars (\$28) for noncommercial driver license fees authorized under Vehicle Code sections 12814.5(d), 14900(a) and 14900.1(a).

(D) Thirty-nine dollars (\$39) for fees authorized for commercial driver license renewal or noncommercial firefighter driver license renewal under Vehicle Code section 12814.5(d).

NOTE: Authority cited: Sections 1651 and 1678, Vehicle Code. Reference: Sections 1678, 4604, 5014, 5036, 6700.25, 9102.5, 9250.8, 9250.13, 9252, 9254, 9258, 9261, 9265, 9702, 11515, 11515.2, 12814.5, 14900, 14900.1, 14901, 14902, 38121, 38232, 38255, 38260 and 38265, Vehicle Code; Section 488.385, Code of Civil Procedure; and Section 10902, Revenue and Taxation Code.

HISTORY

1. New section filed 12-9-2004; operative 1-1-2005 pursuant to Vehicle Code section 1678 (Register 2004, No. 50).
2. Editorial correction providing correct placement for section (Register 2005, No. 1).
3. New subsections (a)(2)-(a)(2)(D) and amendment of NOTE filed 8-11-2005; operative 9-10-2005 (Register 2005, No. 32).
4. Change without regulatory effect amending subsections (a)(2)(A)-(B) filed 4-4-2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 14).
5. New subsections (a)(3)-(a)(3)(H) filed 10-27-2006; operative 1-1-2007 (Register 2006, No. 43).
6. New subsections (a)(4)-(a)(4)(D) filed 11-8-2007; operative 1-1-2008 (Register 2007, No. 45).

§ 425.01. Administrative Fee for Vehicle Code Book.

(a) The department shall assess an administrative fee of nine dollars (\$9) for each Vehicle Code book as payment of the entire cost of publishing the code.

(b) The purchaser of the Vehicle Code book will be responsible for any actual shipping costs, which shall be added to the administrative fee for the cost of publishing the code, and that fee or obligation shall not be considered paid until the entire amount is paid.

HISTORY

1. New article 6 and section filed 9-23-93; operative 10-25-93 (Register 93, No. 39).

§ 431.00. Fee for Recording Notice of Delinquent Toll Evasion Violation.

Pursuant to Section 4773 of the Vehicle Code, the department shall assess on the processing agency a fee of \$3.00 for each notice of delinquent toll evasion violation filed with the department according to Section 40267 of the Vehicle Code.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Section 4773, Vehicle Code.

HISTORY

1. New section filed 5-24-99; operative 6-23-99 (Register 99, No. 22).

Article 6.1. Administrative Adjudication

§ 440.00. Administrative Adjudication Proceedings.

In all administrative adjudication proceedings conducted by or on behalf of the Department of Motor Vehicles, the following provisions shall control:

- (a) Alternative dispute resolution proceedings, to include mediation and arbitration, shall not be used.
- (b) The hearing officer, administrative law judge or other presiding officer shall not be subject to peremptory challenge.
- (c) Declaratory decisions shall not be issued.
- (d) No order for monetary sanctions or the payment of expenses, including attorney's fees, incurred by another party, shall be effective until the order is adopted or entered by the Director of Motor Vehicles or his or her designee.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 11420.10, et seq., 11425.40(d), 11455.10, et seq. and 11465.20(b), Government Code.

HISTORY

1. New article 6.1 (sections 440.00-440.04) and section filed 6-27-97; operative 6-27-97 (Register 97, No. 26). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act (specifically, from Articles 5 and 6 of Chapter 3.5, Division 3, Title 2, Government Code) and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998, unless earlier terminated or replaced by, or readopted as, permanent following the procedures of the Administrative Procedure Act.
2. Permanent section transmitted to OAL 8-20-98 pursuant to Government Code section 11400.21 and filed 10-1-98; operative 10-1-98 (Register 98, No. 40). Government Code section 11400.21 exempts this regulation from OAL review for Necessity.

§ 440.02. Occupational License Definition.

For purposes of administrative adjudication proceedings and disciplinary actions an occupational license includes the following:

- (a) A business license issued by the department to any of the following categories: Dealer, lessor-retailer, dismantler, manufacturer, remanufacturer, distributor, driving school, traffic violator school, registration service, all-terrain vehicle safety training organization, or transporter.
- (b) An individual license issued by the department to any of the following individuals: salesperson, driving school operator or instructor; traffic violator school administrator, operator, or instructor; vehicle verifier, all-terrain vehicle safety instructor, or a representative.

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: Sections 11100, 11200, 11300, 11400, 11500, 11600, 11700, 11800 and 11900, Vehicle Code; and Section 11400.20, Government Code.

HISTORY

1. New section filed 6-27-97; operative 6-27-97 (Register 97, No. 26). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act (specifically, from Articles 5 and 6 of Chapter 3.5, Division 3, Title 2, Government Code) and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998, unless earlier terminated or replaced by, or readopted as, permanent following the procedures of the Administrative Procedure Act.

2. Permanent section transmitted to OAL 8-20-98 pursuant to Government Code section 11400.21 and filed 10-1-98; operative 10-1-98 (Register 98, No. 40). Government Code section 11400.21 exempts this regulation from OAL review for Necessity.

§ 440.04. Occupational Licensing and Disciplinary Guidelines.

In reaching a decision on a licensing or disciplinary action under Division 5 of the Vehicle Code and the Administrative Procedure Act (Government Code section 11400, et seq.), the Director of Motor Vehicles or his or her designee shall consider the guidelines entitled "Occupational Licensing and Disciplinary Guidelines" (Rev. 11/2007), which are hereby incorporated by reference, and any and all other sanctions provided by relevant statutes and regulations. Deviation from these guidelines and orders, including standard terms of probation, is appropriate where the Director or his or her designee, in his or her sole discretion, determines that the facts of the particular case warrant such a deviation, for example, the presence of mitigating factors, the age of the case, and evidentiary problems.

NOTE: Authority cited: Section 1651, Vehicle Code; and Section 11400.20, Government Code. Reference: Sections 11340.5 and 11425.50(e), Government Code; and Sections 11100 through 11909, Vehicle Code.

HISTORY

1. New section filed 6-27-97; operative 6-27-97 (Register 97, No. 26). This interim regulation is exempt from most of the procedural requirements of the Administrative Procedure Act (specifically, from Articles 5 and 6 of Chapter 3.5, Division 3, Title 2, Government Code) and from review by the Office of Administrative Law pursuant to Government Code sections 11400.20 and 11400.21 and will expire on December 31, 1998, unless earlier terminated or replaced by, or readopted as, permanent following the procedures of the Administrative Procedure Act.
2. Permanent section transmitted to OAL 8-20-98 pursuant to Government Code section 11400.21 and filed 10-1-98; operative 10-1-98 (Register 98, No. 40). Government Code section 11400.21 exempts this regulation from OAL review for Necessity.
3. Amendment filed 7-15-2008; operative 8-14-2008 (Register 2008, No. 29).

Article 7. Federal Citizenship and Alien Status Requirements for Benefit Eligibility

§ 450.00. Benefits Subject to Federal Eligibility Requirements.

The department has determined that Occupational Licenses, Motor Carrier Permits, Commercial Driver Licenses, Non-Commercial Fire-fighter Driver License, School Bus Certificates, School Pupil Activity Bus Certificates, Youth Bus Certificates, General Public Paratransit Vehicle Certificates, Vehicle for Developmentally Disabled Persons Certificates, Ambulance Certificates, California Tow Truck Driver Clearances, Hazardous Agricultural Materials/Wastes Transportation Verifications, Verification of Transit Training Documents, and Farm Labor Certificates are the benefits provided by the department which are subject to the eligibility requirements imposed by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Pub. L. No. 104-193 (PRWORA)) (8 U.S.C. § 1621 et seq.). These licenses, permits, clearances, verifications, and certificates will hereafter be referred to as PRWORA benefit(s).

NOTE: Authority cited: Section 1651, Vehicle Code. Reference: 8 U.S.C. Sections 1621, 1641, and 1642; U.S.C. Section 2000d et seq., and Divisions 5, 6 and 14.85, Vehicle Code.

HISTORY

1. New article 7 (sections 450.00-450.06) and section filed 8-20-98; operative 9-19-98 (Register 98, No. 34). For prior history, see Register 93, No. 30.

§ 450.02. Limitations on PRWORA Benefits.

(a) All eligibility requirements contained herein shall be applied without regard to the race, creed, color, gender, religion, or national origin of the individual applying for PRWORA benefits.

(b) Pursuant to Section 411 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, (8 U.S.C. § 1621), and notwithstanding any other provision of this division, aliens who are not qualified aliens, nonimmigrant aliens under the Immigration and Nationality Act (INA) (8 U.S.C. § 1101 et seq.), or aliens paroled into the United

States under Section 212(d)(5) of the INA (8 U.S.C. § 1182(d)(5)), for less than one year, are not eligible to receive an original or renewal PRWORA benefit, as set forth in the California Vehicle Code.

(c) A qualified alien is an alien who, at the time he or she applies for, receives, or attempts to receive a PRWORA benefit, is, under Section 431(b) and (c) of the PRWORA (8 U.S.C. § 1641(b) and (c)), any of the following:

(1) An alien lawfully admitted for permanent residence under the INA (8 U.S.C. § 1101 et seq.).

(2) An alien who is granted asylum under Section 208 of the INA (8 U.S.C. § 1158).

(3) A refugee who is admitted to the United States under Section 207 of the INA (8 U.S.C. § 1157).

(4) An alien who is paroled into the United States under Section 212(d)(5) of the INA (8 U.S.C. § 1182(d)(5)) for a period of at least one year.

(5) An alien whose deportation is being withheld under Section 243(h) of the INA (8 U.S.C. § 1253(h)) (as in effect immediately before the effective date of Section 307 of division C of Public Law 104–208) or Section 241(b)(3) of such Act (8 U.S.C. § 1251 (b)(3)) (as amended by Section 305 (a) of division C of Public Law 104–208).

(6) An alien who is granted conditional entry pursuant to Section 203(a)(7) of the INA as in effect prior to April 1, 1980. (8 U.S.C. § 1153(a)(7)) (See editorial note under 8 U.S.C. § 1101, “Effective Date of 1980 Amendment.”)

(7) An alien who is a Cuban or Haitian entrant (as defined in Section 501(e) of the Refugee Education Assistance Act of 1980 (8 U.S.C. § 1522 note)).

(8) An alien who meets all of the conditions of subparagraphs (A), (B), (C), and (D) below:

(A) The alien has been battered or subjected to extreme cruelty in the United States by a spouse or a parent, or by a member of the spouse’s or parent’s family residing in the same household as the alien, and the spouse or parent of the alien consented to, or acquiesced in, such battery or cruelty. For purposes of this subsection, the term “battered or subjected to extreme cruelty” includes, but is not limited to being the victim of any act or threatened act of violence including any forceful detention, which results or threatens to result in physical or mental injury. Rape, molestation, incest (if the victim is a minor), or forced prostitution shall be considered acts of violence.

(B) There is a substantial connection between such battery or cruelty and the need for the PRWORA benefit to be provided in the opinion of the department. For purposes of this subsection, the following circumstances demonstrate a substantial connection between the battery or cruelty and the need for the PRWORA benefit to be provided:

(i) The PRWORA benefit is needed to enable the alien to become self-sufficient following separation from the abuser.

(ii) The PRWORA benefit is needed to enable the alien to escape the abuser and/or the community in which the abuser lives, or to ensure the safety of the alien from the abuser.

(iii) The PRWORA benefit is needed due to a loss of financial support resulting from the alien’s separation from the abuser.

(iv) The PRWORA benefit is needed because the battery or cruelty, separation from the abuser, or work absences or lower job performance resulting from the battery or extreme cruelty or from legal proceedings relating thereto (including resulting child support, child custody, and divorce actions) cause the alien to lose his or her job or to earn less or to require the alien to leave his or her job for safety reasons.

(v) The PRWORA benefit is needed because the alien requires medical attention or mental health counseling, or has become disabled, as a result of the battery or extreme cruelty.

(vi) The PRWORA benefit is needed because the loss of a dwelling or source of income or fear of the abuser following separation from the abuser jeopardizes the alien’s ability to care for his or her children (e.g., inability to house, feed, or clothe children or to put children into a day care for fear of being found by the abuser).

(vii) The PRWORA benefit is needed to alleviate nutritional risk or need resulting from the abuse or following separation from the abuser.

(viii) The PRWORA benefit is needed to provide medical care during a pregnancy resulting from the abuser’s sexual assault or abuse of, or relationship with, the alien and/or to care for any resulting children.

(ix) Where medical coverage and/or health care services are needed to replace medical coverage or health care services the alien had when living with the abuser.

(C) The alien has been approved or has a petition pending which sets forth a prima facie case for:

(i) status as a spouse or child of a United States citizen pursuant to clause (ii), (iii), or (iv) of Section 204(a)(1)(A) of the INA (8 U.S.C. § 1154(a)(1)(A)(ii), (iii) or (iv)),

(ii) classification pursuant to clause (ii) or (iii) of Section 204(a)(1)(B) of the INA (8 U.S.C. § 1154(a)(1)(B)(ii) or (iii)),

(iii) cancellation of removal under 8 U.S.C. § 1229b as in effect prior to April 1, 1997,

(iv) status as a spouse or child of a United States citizen pursuant to clause (i) of Section 204(a)(1)(A) of the INA (8 U.S.C. § 1154(a)(1)(A)(i)) or classification pursuant to clause (i) of Section 204(a)(1)(B) of the INA (8 U.S.C. § 1154(a)(1)(B)(i)), or

(v) cancellation of removal pursuant to section 240A (b)(2) of the INA (8 U.S.C. § 1229b(b)(2)).

(D) For the period for which the PRWORA benefit is sought, the individual responsible for the battery or cruelty does not reside in the same household or family eligibility unit as the individual subjected to the battery or cruelty.

(9) An alien who meets all of the conditions of subparagraphs (A), (B), (C), (D) and (E) below:

(A) The alien has a child who has been battered or subjected to extreme cruelty in the United States by a spouse or a parent of the alien (without the active participation of the alien in the battery or cruelty), or by a member of the spouse’s or parent’s family residing in the same household as the alien, and the spouse or parent consented to or acquiesced to such battery or cruelty. For purposes of this subsection, the term “battered or subjected to extreme cruelty” includes, but is not limited to being the victim of any act or threatened act of violence including any forceful detention, which results or threatens to result in physical or mental injury. Rape, molestation, incest (if the victim is a minor), or forced prostitution shall be considered acts of violence.

(B) The alien did not actively participate in such battery or cruelty.

(C) There is a substantial connection between such battery or cruelty and the need for the PRWORA benefit to be provided in the opinion of the department. For purposes of this subsection, the following circumstances demonstrate a substantial connection between the battery or cruelty and the need for the PRWORA benefit to be provided:

(i) The PRWORA benefit is needed to enable the alien’s child to become self-sufficient following separation from the abuser.

(ii) The PRWORA benefit is needed to enable the alien’s child to escape the abuser and/or the community in which the abuser lives, or to ensure the safety of the alien’s child from the abuser.

(iii) The PRWORA benefit is needed due to a loss of financial support resulting from the alien’s child’s separation from the abuser.

(iv) The PRWORA benefit is needed because the battery or cruelty, separation from the abuser, or work absences or lower job performance resulting from the battery or extreme cruelty or from legal proceedings relating thereto (including resulting child support, child custody, and divorce actions) cause the alien’s child to lose his or her job or to earn less or to require the alien’s child to leave his or her job for safety reasons.

(v) The PRWORA benefit is needed because the alien’s child requires medical attention or mental health counseling, or has become disabled, as a result of the battery or extreme cruelty.

(vi) The PRWORA benefit is needed because the loss of a dwelling or source of income or fear of the abuser following separation from the abuser jeopardizes the alien’s child’s ability to care for his or her children

(e.g., inability to house, feed, or clothe children or to put children into a day care for fear of being found by the abuser).

(vii) The PRWORA benefit is needed to alleviate nutritional risk or need resulting from the abuse or following separation from the abuser.

(viii) The PRWORA benefit is needed to provide medical care during a pregnancy resulting from the abuser's sexual assault or abuse of, or relationship with, the alien's child and/or to care for any resulting children.

(ix) Where medical coverage and/or health care services are needed to replace medical coverage or health care services the alien's child had when living with the abuser.

(D) The alien meets the requirements of subsection (c)(8)(C) above.

(E) For the period for which the PRWORA benefit is sought, the individual responsible for the battery or cruelty does not reside in the same household or family eligibility unit as the individual subjected to the battery or cruelty.

(10) An alien child who meets all of the conditions of subparagraphs (A), (B), and (C) below:

(A) The alien child resides in the same household as a parent who has been battered or subjected to extreme cruelty in the United States by that parent's spouse or by a member of the spouse's family residing in the same household as the parent and the spouse consented or acquiesced to such battery or cruelty. For purposes of this subsection, the term "battered or subjected to extreme cruelty" includes, but is not limited to being the victim of any act or threatened act of violence including any forceful detention, which results or threatens to result in physical or mental injury. Rape, molestation, incest (if the victim is a minor), or forced prostitution shall be considered acts of violence.

(B) There is a substantial connection between such battery or cruelty and the need for the PRWORA benefit to be provided in the opinion of the department. For purposes of this subsection, the following circumstances demonstrate a substantial connection between the battery or cruelty and the need for the PRWORA benefit to be provided:

(i) The PRWORA benefit is needed to enable the alien child's parent to become self-sufficient following separation from the abuser.

(ii) The PRWORA benefit is needed to enable the alien child's parent to escape the abuser and/or the community in which the abuser lives, or to ensure the safety of the alien child's parent from the abuser.

(iii) The PRWORA benefit is needed due to a loss of financial support resulting from the alien child's parent's separation from the abuser.

(iv) The PRWORA benefit is needed because the battery or cruelty, separation from the abuser, or work absences or lower job performance resulting from the battery or extreme cruelty or from legal proceedings relating thereto (including resulting child support, child custody, and divorce actions) cause the alien child's parent to lose his or her job or to earn less or to require the alien child's parent to leave his or her job for safety reasons.

(v) The PRWORA benefit is needed because the alien child's parent requires medical attention or mental health counseling, or has become disabled, as a result of the battery or extreme cruelty.

(vi) The PRWORA benefit is needed because the loss of a dwelling or source of income or fear of the abuser following separation from the abuser jeopardizes the alien child's parent's ability to care for his or her children (e.g., inability to house, feed, or clothe children or to put children into a day care for fear of being found by the abuser).

(vii) The PRWORA benefit is needed to alleviate nutritional risk or need resulting from the abuse or following separation from the abuser.

(viii) The PRWORA benefit is needed to provide medical care during a pregnancy resulting from the abuser's sexual assault or abuse of, or relationship with, the alien child's parent and/or to care for any resulting children.

(ix) Where medical coverage and/or health care services are needed to replace medical coverage or health care services the alien child's parent had when living with the abuser.

(C) The alien child meets the requirements of subsection (c) (8) (C) above.

(d) For purposes of this section, "nonimmigrant" is defined the same as in Section 101(a)(15) of the INA (8 U.S.C. § 1101(a)(15)).

(e) For purposes of establishing eligibility for a PRWORA benefit, pursuant to the California Vehicle Code, all of the following must be met:

(1) The applicant must declare himself or herself to be a citizen of the United States, or a qualified alien under subsection (c), a nonimmigrant alien under subsection (d), or an alien paroled into the United States for a period of at least one year under Section 212(d)(5) of the INA (8 U.S.C. § 1182(d)(5)).

(A) The applicant shall declare his or her eligibility status through use of a benefit eligibility statement given under penalty of perjury on a department issued application form appropriate to the PRWORA benefit being sought.

(B) The appropriate application form issued by the department must be one of the following: the Driver License Application, DL-44 (Rev. 3/98) or DL-44S (Rev. 3/98); the California Special Driver Certificate, DL-45 (Rev. 3/98); the California Tow Truck Driver Clearance, DL-64 (Rev. 3/98); the Hazardous Agricultural Materials/Waste Transportation Verification of Training, DL-267 (Rev. 3/98); the Driver License Renewal Notices, DL-1 RN (Rev. 4/98), DL-1 RNCH (Rev. 4/98), DL-1 RNF (Rev. 4/98), DL-1 RNFS (Rev. 4/98), DL-1 RNFH (Rev. 4/98), DL-1 RNFSH (Rev. 4/98), DL-1 RNBECH (Rev. 4/98), DL-1 RNBECHFF (Rev. 4/98), DL-1 RNBEF (Rev. 4/98), DL-1 RNBEFS (Rev. 4/98), DL-1 RNBEFH (Rev. 4/98), DL-1 RNBEFSH (Rev. 4/98), DL-1 RNBEFFF (Rev. 4/98), DL-1 RNBEFFFS (Rev. 4/98); the Driver License Renewal Notices (Congratulatory) DL-73 (Rev. 4/98), DL-73S (Rev. 4/98), DL-73BE (Rev. 4/98), DL-73BES (Rev. 4/98), DL-6 BEC (Rev. 4/98), DL-6 BEF (Rev. 4/98), DL6 BEFS (Rev. 4/98); the Driver License Renewal Notices (Mag Strip Conversion) DL-73M (Rev. 4/98), DL-73MC (Rev. 4/98), DL-73MS (Rev. 4/98), DL-73MF (Rev. 4/98), DL-73MFS (Rev. 4/98), DL-73BEMC (Rev. 4/98), DL-73BEMF (Rev. 4/98), DL-73BEMFS (Rev. 4/98), and the Driver License Renewal by Mail Notices DL-6C (Rev. 4/98), DL-6F (Rev. 4/98), DL-6FS (Rev. 4/98); the Application for Occupational License OL-16 (Rev. 3/98), and OL-29 (Rev. 3/98); the Application for Renewal of an Occupational License OL-45 (Rev. 3/98), the Applications for Renewal OL-603 (Rev. 3/98), for a Vehicle Dealer License, Lessor-Retailer, Manufacturer, Re-Manufacturer, Distributor, Transporter, Dismantler, Driving School, and Registration Service; the Applications for Renewal OL-44 (Rev. 3/98), for a Vehicle Verifier Permit, Driving School Instructor, Driving School Operator, Independent Instructor, Manufacturer Representative, and Distributor Representative; and the Application for Motor Carrier of Property Permit DMV 706 MCP (Rev. 4/98) which are hereby incorporated by reference.

(2) If the applicant is a U.S. citizen he or she must present valid U.S. citizenship documents, or if the applicant is an alien he or she must present documents of a type acceptable to the Immigration and Naturalization Service (INS) which serve as reasonable evidence of the applicant's declared alien status. The specific documents which the department will accept for proof of eligibility under PRWORA can be found in the department issued document entitled Driver and Occupational Licensing Eligibility Documents, FFDL-20 (New. 3/98), which is hereby incorporated by reference.

(3) Where authorized by the INS, the documentation presented by an alien as reasonable evidence of the alien's declared immigration status will be submitted to the INS for verification through the Systematic Alien Verification for Entitlements (SAVE) system procedures as follows:

(A) Unless the primary SAVE system is unavailable for use, the primary SAVE system verification must be used to access the biographical/immigration status computer record contained in the Alien Status Verification Index (ASVI) maintained by the INS. Subject to subparagraph (B), this procedure must be used to verify the status of all aliens who claim to be qualified aliens and who present an INS issued document that contains an alien registration or alien admission number.

(B) In any of the following cases, the secondary SAVE system verification procedure must be used to forward copies of original INS documents evidencing an alien's status as a qualified alien, as a nonimmigrant alien under the INA, or as an alien paroled into the United States under Section 212(d)(5) of the INA (8 U.S.C. § 1182(d)(5)), for less than one year:

- (i) The primary SAVE system is unavailable for verification.
- (ii) A primary check of the ASVI instructs the department to "institute secondary verification."
- (iii) The document presented indicates immigration status but does not include an alien registration or alien admission number.
- (iv) The ASVI record includes the alien registration or admission number on the document presented by the alien but does not match other information contained in the document.
- (v) The document is suspected to be counterfeit or to have been altered.
- (vi) The document includes an alien registration number in the A60 000 000 (not yet issued) or A80 000 000 (illegal border crossing) series.
- (vii) The document is a fee receipt from INS for replacement of a lost, stolen, or unreadable INS document.
- (viii) The document is one of the following: an INS Form I-181b notification letter issued in connection with an INS Form I-181 Memorandum of Creation of Record of Permanent Residence, an Arrival-Departure Record (INS Form I-94) or a foreign passport stamped "PROCESSED FOR I-551, TEMPORARY EVIDENCE OF LAWFUL PERMANENT RESIDENCE" that INS issued more than one year before the date of application for a PRWORA benefit.

(4) Where verification through the SAVE system is not available, if the documents presented do not on their face reasonably appear to be genuine or to relate to the individual presenting them, the government entity that originally issued the document should be contacted for verification. With regard to naturalized citizens and derivative citizens presenting certificates of citizenship and aliens, the INS is the appropriate government entity to contact for verification. The department will request verification by the INS by filing INS Form G-845 with copies of the pertinent documents provided by the applicant with the local INS office. If the applicant has lost his or her original INS documents, or presents expired INS documents or is unable to present any documentation evidencing his or her immigration status, the applicant should be referred to the local INS office to obtain documentation.

(5) If the INS advises that the applicant has citizenship status or immigration status which makes him or her a qualified alien under PRWORA, the INS verification should be accepted. If the INS advises that it cannot verify that the applicant has citizenship status, or an immigration status that makes him or her a qualified alien, the PRWORA benefit should be denied and the applicant notified pursuant to the department's regular procedures of his or her rights to appeal the denial of the PRWORA benefit.

(6) Provided that the alien has completed and signed a PRWORA eligibility statement under penalty of perjury on the appropriate application form and provided documents of a type acceptable to the INS which serve as reasonable evidence of the applicant's declared status, eligibility for a PRWORA benefit shall not be delayed, denied, reduced or terminated while the status of the alien is verified.

(f) Pursuant to Section 434 of the PRWORA (8 U.S.C. § 1644), where the department reasonably believes that an alien is unlawfully in the State based on the failure of the alien to provide reasonable evidence of the alien's declared status, after an opportunity to do so, said alien should be reported to the Immigration and Naturalization Service.

HISTORY

1. New section filed 8-20-98; operative 9-19-98 (Register 98, No. 34). For prior history, see Register 93, No. 30.

§ 450.04. Terms of Issuance and Restrictions.

(a) The department may issue a temporary PRWORA benefit provided there is no other cause for refusal pending verification of documents submitted as proof of eligibility, or to allow applicants sufficient time to provide such documents when they have completed and signed a PRWORA eligibility statement. The temporary PRWORA benefit is valid for up to 120 days and the department may extend the temporary PRWORA benefit, if the applicant provides evidence that he/she is in the process of obtaining proof of eligibility.

(b) The department may refuse to accept an application for a PRWORA benefit, if the applicant has not provided one of the documents required by Section 450.02 to establish proof of PRWORA eligibility.

HISTORY

1. New section filed 8-20-98; operative 9-19-98 (Register 98, No. 34). For prior history, see Register 93, No. 30.

§ 450.06. Appeals Hearings.

(a) The department shall provide for an appeal hearing from the denial of a Commercial Driver License, Non-Commercial Firefighter Driver License, School Bus Certificates, School Pupil Activity Bus Certificates, Youth Bus Certificates, General Public Paratransit Vehicle Certificates, Vehicle for Developmentally Disabled Persons Certificate, Ambulance Certificate, California Tow Truck Driver Clearance, Hazardous Agricultural Materials/Wastes Transportation Verification, Verification of Transit Training Document, or a Farm Labor Certificate. The hearing shall be held in accordance with Article 3 (commencing with Section 13800 or 14100) of Chapter 3 of Division 6 of the Vehicle Code.

(b) The department shall provide for an appeal hearing from the denial of an occupational license or motor carrier permit. The hearing shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) The only issue at the hearings shall be whether the department has acted properly in refusing to issue a temporary or permanent PRWORA benefit based on a failure to provide the documentation establishing PRWORA eligibility as required by Section 450.02.

Chapter 2. New Motor Vehicle Board

Article 1. Administration

§ 550. Definitions.

For the purposes of these rules:

- (a) "Board" means the New Motor Vehicle Board.
- (b) "Department" means the Department of Motor Vehicles of the State of California.
- (c) "Director" means the director of the department.
- (d) "Executive Director" means the chief executive officer of the board.
- (e) Unless otherwise designated, the words "respondent," "appellant" or "party" mean the real party in interest.
- (f) "Party" includes the petitioner, respondent, department, appellant or director.
- (g) "Petitioner" means any person, including a board member seeking consideration by the board under subsection (c) of section 3050 of the Vehicle Code of a matter involving a person applying for or holding a license as a new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch or representative.
- (h) "Respondent" means any licensed new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch or representative as defined in sections 426, 672, 389, 296, 297 and 512, respectively, of the Vehicle Code.
- (i) "Manufacturer" means any new motor vehicle manufacturer or manufacturer branch required to be licensed pursuant to Article 1 (commencing with section 11700) of Chapter 4 of Division 5 of the Vehicle Code.
- (j) "Distributor" means any new motor vehicle distributor or distributor branch required to be licensed pursuant to Article 1 (commencing with section 11700) of Chapter 4 of Division 5 of the Vehicle Code.
- (k) "Protestant" means any licensed new motor vehicle dealer as defined in section 426 of the Vehicle Code.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3050–3058, Vehicle Code; and Section 472(b), Business and Professions Code.

HISTORY

1. New subchapter 2 (sections 550 through 590, not consecutive), filed 1–17–69 as procedural and organizational; effective upon filing (Register 69, No. 3).
2. Amendment filed 7–19–74; effective thirtieth day thereafter (Register 74, No. 29).
3. Amendment of subsections (g) and (h) and NOTE filed 10–16–89; operative 11–15–89 (Register 89, No. 44).
4. Amendment filed 12–21–90; operative 12–21–90 (Register 91, No. 7).
5. Change without regulatory effect amending subsection (h) and NOTE filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).
6. Change without regulatory effect amending subsection (d) filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
7. Amendment of subsections (i)–(j) and new subsection (k) filed 11–8–2005; operative 12–8–2005 (Register 2005, No. 45).

§ 550.10. Application of Subchapter.

Application of this subchapter is subject to the limitations as set forth in section 3051 of the Vehicle Code.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3051, Vehicle Code.

HISTORY

1. New section filed 12–21–90; operative 12–21–90 (Register 91, No. 7).

§ 550.20. Use of Certified Mail in Lieu of Registered Mail.

Any notice or other communication required by Chapter 6 of Division 2 of the Vehicle Code to be mailed by registered mail shall be deemed to be in compliance with the requirements of said Chapter if mailed by certified mail.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 29, 3052, 3057, 3058 and 3066–3068, Vehicle Code.

HISTORY

1. New section filed 5–18–2006; operative 6–17–2006 (Register 2006, No. 20).

§ 551. Authority.

The powers and duties of this board are set forth in Chapter 6 (commencing at Section 3000) of Division 2 of the Vehicle Code. Persons having matters to be considered by the board, or appeals to the board from actions or decisions of the Department of Motor Vehicles should refer to said Vehicle Code provisions under which these rules are adopted to govern procedural matters of the board. Reference is also made to the General Provisions of the Vehicle Code (commencing at Section 1), and Division 1 thereof (commencing at Section 100), and to the provisions of Chapter 5, Division 3, Title 2 of the Government Code (commencing with Section 11500 thereof).

HISTORY

1. Amendment filed 7–19–74; effective thirtieth day thereafter (Register 74, No. 29).

§ 551.1. Challenge.

An administrative law judge or board member shall voluntarily disqualify himself or herself and withdraw from any hearing or deliberation in which he or she cannot accord a fair and impartial hearing or consideration. Any party may request the disqualification of any administrative law judge or board member by filing an affidavit, prior to the taking of evidence at a hearing, stating with particularity the grounds upon which it is claimed that a fair and impartial hearing cannot be accorded. Where the request concerns a board member, the issue shall be determined by the other members of the board. Where the request concerns the administrative law judge, the issue shall be determined by the board if the board itself hears the case with the administrative law judge, otherwise the issue shall be determined by the administrative law judge.

NOTE: Authority cited: Section 3050, Vehicle Code. Reference: Section 11723, Vehicle Code.

HISTORY

1. New section filed 1–28–76 as an emergency; effective upon filing (Register 76, No. 5).
2. Certificate of Compliance filed 5–28–76 (Register 76, No. 22).
3. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
4. Change without regulatory effect amending section filed 5–31–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 551.2. Subpoenas.

(a) Upon the request of any party, the executive director may, and at the direction of the board the executive director shall, issue a subpoena for the attendance of any person before the board, for the attendance and testimony of a deponent, or a subpoena duces tecum for the production of papers, records, and books by a witness or a deponent.

(b) The issuance of a subpoena for the attendance and testimony of a witness or for a subpoena duces tecum for the production of papers, records, and books for hearing shall be governed by the requirements set forth in Chapter 2 (commencing with Section 1985) of Title 3 of Part 4 of the Code of Civil Procedure, excepting the provisions of subsection (c) of Section 1985, of that code. A copy of an affidavit shall be served with a subpoena duces tecum for hearing containing the information required by Code of Civil Procedure Section 1985(b).

(c) The issuance of a subpoena for the attendance and testimony of a non-party deponent or for a subpoena duces tecum for the production of papers, records, and books for deposition of a non-party shall be governed by the requirements set forth in Article 3 (commencing with Section 2016.010) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure, excepting the provisions of Section 2020.210, subdivisions (a) and (b) of that code. A subpoena duces tecum issued to a non-party deponent need not be accompanied by an affidavit or declaration showing good cause for the production of the business records designated in it.

(d) Following service of the subpoena upon the witness or deponent, the original subpoena and an executed proof of service shall be filed with the Board.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050.1(a), Vehicle Code.

HISTORY

1. Renumbering of former Section 579 to Section 551.2 filed 10–16–89; operative 11–15–89 (Register 89, No. 44). For prior history, see Register 79, No. 28.
2. Amendment filed 10–9–98; operative 11–8–98 (Register 98, No. 41).
3. Change without regulatory effect amending subsection (a) filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
4. Change without regulatory effect amending subsection (c) filed 8–24–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 551.5. Depositions.

NOTE: Authority cited: Section 3050, Vehicle Code. Reference: Section 11723, Vehicle Code.

HISTORY

1. New section filed 1–28–76 as an emergency; effective upon filing (Register 76, No. 5).
2. Repealed by operation of Section 11422.1(c), Government Code (Register 76, No. 22).

§ 551.6. Testimony by Deposition.

On verified petitions of any party, the board may order that the testimony of any material witness residing within or without the state be taken by deposition in the manner prescribed by law for depositions in civil actions. Petition shall set forth the nature of the pending proceedings; the name and address of the witness whose testimony is desired; the showing of the materiality of his or her testimony; a showing that the witness shall be unable or cannot be compelled to attend; and shall request an order requiring the witness to appear and testify before an officer named in the petition for that purpose. Where the witness resides outside the state and where the board has ordered the taking of his or her testimony by deposition, the board shall obtain an order of court to that effect by filing a petition therefor in the Superior Court in Sacramento County. The proceedings thereon shall be in accordance with the provisions of Section 11189 of the Government Code.

NOTE: Authority cited: Section 3050, Vehicle Code. Reference: Section 11723, Vehicle Code.

HISTORY

1. New section filed 1–28–76 as an emergency; effective upon filing (Register 76, No. 5).
2. Certificate of Compliance filed 5–28–76 (Register 76, No. 22).
3. Change without regulatory effect amending section filed 5–31–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 551.7. Reporting of Proceedings.

The board may, at its discretion, assign the cost of reporting any proceedings before the board, including, but not limited to, transcript fees, reporter's per diem costs, exhibits, pleadings, and reproduction of board files as follows:

- (a) Allocated entirely to one of the parties; or apportioned among the various parties at the discretion of the board; or
- (b) Assumed by the board, in whole or in part.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(a), Vehicle Code.

HISTORY

1. New section filed 3–6–79 as an emergency; effective upon filing (Register 79, No. 10).
2. Certificate of Compliance transmitted to OAH 7–3–79 and filed 7–10–79 (Register 79, No. 28).
3. Change without regulatory effect amending HISTORY 2. filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

§ 551.8. Dismissals of Petitions, Appeals, and Protests.

(a) The board may, at its discretion, dismiss a petition for good cause shown. Good cause may include, but shall not be limited to, failure by the petitioner to comply with any of the following sections of Article 2: 554, 555, 556.

(b) The board may, at its discretion, dismiss an appeal from decisions of the department for good cause shown. Good cause may include, but

shall not be limited to, failure by the appellant to comply with any of the following sections of Article 3: 566, 567, 568, 569, 570, 571(a), 571(b), 571(d), 572(a), 572(b), 572(c), 573(a), 573(d).

(c) The board may, at its discretion, dismiss a protest for good cause shown. Good cause may include, but shall not be limited to, failure by the protestant to comply with any of the following sections of Article 5: 583, 585, 586, 589.

(d) The board may, at its discretion, dismiss a petition, an appeal or a protest, if additional information requested by the board is not supplied within the time specified by the board.

(e) An order of dismissal of a petition, an appeal or a protest shall be a final order pursuant to Vehicle Code sections 3057 or 3067, and no reconsideration or rehearing shall be permitted.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3050(a), 3050(c), 3050(d) and 3066, Vehicle Code; *Automotive Management Group Inc. [Santa Cruz Mitsubishi] v. New Motor Vehicle Board: Real Party in Interest, Mitsubishi Motor Sales of America, Inc.* (1993) 20 Cal.App.4th 1002; 24 Cal.Rptr.2d 904; *Duarte & Witting, Inc. v. New Motor Vehicle Board, Defendant and Respondent; DaimlerChrysler Motors Corp., Real Party in Interest and Respondent* (2002), 104 Cal.App.4th 626; 128 Cal.Rptr.2d 501.

HISTORY

1. New section filed 3–6–79 as an emergency; effective upon filing (Register 79, No. 10).
2. Certificate of Compliance transmitted to OAH 7–3–79 and filed 7–10–79 (Register 79, No. 28).
3. Amendment of subsections (a) and (b) filed 7–10–79 as an emergency; effective upon filing. Certificate of Compliance included (Register 79, No. 28).
4. Editorial correction (Register 79, No. 38).
5. Amendment of section heading, section and NOTE filed 8–21–2003; operative 9–20–2003 (Register 2003, No. 34).

§ 551.10. Costs for Changes in Venue.

A party to a proceeding before the board may request a change in venue. The board or an administrative law judge designated by the board or its executive director may assess board costs to the requesting party if the requesting party cancels the proceedings at the new location without good cause or sufficient notice to the board to allow the board to avoid costs incurred in changing the venue.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3015 and 3050(a), Vehicle Code.

HISTORY

1. New section filed 8–21–2003; operative 9–20–2003 (Register 2003, No. 34). For prior history, see Register 92, No. 52.

§ 551.11. Settlement Conference: Separation of Powers.

(a) The administrative law judge at the settlement conference shall not preside at the hearing on the merits or in any proceeding relating to motions for temporary relief or interim orders unless otherwise stipulated by the parties. Nothing in this regulation shall affect or limit the provisions of Vehicle Code § 3050.4.

(b) The parties shall file a written settlement conference statement that contains a detailed statement of facts, a statement of issues, and a good faith settlement proposal. The settlement conference statement and the original proof of service shall be received by the Board and copies served on opposing party or parties no later than five business days before the settlement conference.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3050 and 3050.4, Vehicle Code.

HISTORY

1. New section filed 8–10–98; operative 9–9–98 (Register 98, No. 33).
2. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
3. Amendment of section heading, redesignation of existing section as subsection (a) and new subsection (b) filed 11–8–2005; operative 12–8–2005 (Register 2005, No. 45).
4. Amendment of section heading and subsection (b) filed 5–18–2006; operative 6–17–2006 (Register 2006, No. 20).

§ 551.12. Notice of Assignment of Administrative Law Judges; Peremptory Challenges.

(a) The assigned administrative law judge in a protest or petition proceeding will be noted on the order of time and place of hearing. If there

is a subsequent assignment, an amended order or notice will be issued identifying the new administrative law judge.

(b) In any proceeding other than those relating to applications for temporary relief or interim orders, each party is entitled to a peremptory challenge of one administrative law judge, based solely upon satisfying all of the following requirements:

(1) The peremptory challenge shall be filed with the Board no later than either 20 days from the date of the order of time and place of hearing or 20 days prior to the date scheduled for commencement of the hearing, whichever is earlier.

(2) The peremptory challenge shall be made by the party, the party's attorney, or authorized representative appearing in any proceeding by written declaration consistent with the requirement of subsection (e), below; and

(3) Notice of a peremptory challenge shall be served on opposing parties.

(c) If a party obtains the removal of the assigned administrative law judge, either by way of peremptory challenge, or for cause under Section 551.1, any other party shall have the right to a peremptory challenge of the subsequently assigned administrative law judge provided that the party complies with subparagraphs (b)(2)–(3), above. This latter peremptory challenge shall be filed with the Board no later than either 20 days from the date of the notice or order identifying the subsequent administrative law judge or 10 days prior to the date scheduled for the hearing, whichever is earlier.

(d) No peremptory challenge shall be considered or granted if it is not made within the time limits set forth above.

(e) Any declaration filed pursuant to this regulation shall be in substantially the following form:

I, _____ (name) _____, declare: That I am a party (or attorney or authorized representative for a party) in the pending matter. That the administrative law judge assigned to the hearing is prejudiced against the party (or his or her attorney or authorized representative of record) or the interest of the party (or his or her attorney or authorized representative) so that the declarant cannot or believes that he or she cannot have a fair and impartial hearing before the administrative law judge.

This declaration is made under penalty of perjury under the laws of the state of California and is signed _____ (date) _____ at _____ (city and state) _____.

(f) Unless required for the convenience of the board or good cause is shown, a continuance of the hearing shall not be granted by reason of a peremptory challenge. If a continuance is granted, the matter shall be continued to the first convenient day for the board and shall be reassigned or transferred for hearing as promptly as possible. Nothing in this regulation shall affect or limit the provisions of Vehicle Code § 3066(a).

(g) Nothing in this regulation shall affect or limit the provisions of a challenge for cause under Article 1, section 551.1.

NOTE: Authority cited: Sections 3050(a) and 3066, Vehicle Code. Reference: Section 3050(a), Vehicle Code; and Section 11425.40, Government Code.

HISTORY

1. New section filed 9–23–98; operative 10–23–98 (Register 98, No. 39).
2. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
3. Amendment of first paragraph and subsections (e) and (h) filed 11–8–2005; operative 12–8–2005 (Register 2005, No. 45).
4. Amendment of section heading, section and NOTE filed 5–18–2006; operative 6–17–2006 (Register 2006, No. 20).

§ 551.13. Intervention; Grant of Motion; Conditions.

Any person, including a board member, concerned with the activities or practices of any person applying for or holding a license as a new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative, may file a motion with the executive director of the board (or designee) requesting that the movant be allowed to intervene in a pending proceeding. The motion to intervene may be granted subject to the following:

(a) The motion shall be submitted in writing, with copies served on all parties named in the pending proceeding.

(b) The motion shall be filed as early as practicable in advance of the hearing.

(c) The motion shall state facts demonstrating that the applicant's legal rights, duties, privileges, or immunities will be substantially affected by the proceeding.

(d) The board, its executive director, or an administrative law judge designated by the board or its executive director, shall determine that the interests of justice and the orderly and prompt conduct of the proceeding will not be impaired by allowing the intervention.

(e) The board, its executive director, or an administrative law judge designated by the board or its executive director, may impose conditions on the intervenor's participation in the proceeding, either at the time that intervention is granted or at a subsequent time. Such conditions shall be at the sole discretion of the board, its executive director, or an administrative law judge designated by the board or its executive director, based on the knowledge and judgment at that time, so as to promote the interests of justice. Conditions include, but are not limited to, the following:

- (1) Limiting the intervenor's participation to designated issues;
- (2) Limiting or excluding the intervenor's participation in discovery and cross-examination; and
- (3) Limiting or excluding the intervenor's participation in settlement negotiations.

(f) The board, its executive director, or an administrative law judge designated by the board or its executive director, shall issue an order granting or denying the motion for intervention as early as practicable in advance of the hearing, specifying any conditions, and briefly stating the reasons for the order. The board, its executive director, or an administrative law judge designated by the board or its executive director, may modify the order at any time by giving notice to all parties, stating the reasons for the modification. The determination of the board, its executive director, or an administrative law judge designated by the board or its executive director, in granting or denying the motion for intervention, or the determination modifying the order previously issued, is not subject to administrative or judicial review.

The board, its executive director, or an administrative law judge designated by the board or its executive director, may, in his or her discretion, allow the filing of amicus curiae briefs.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(a), Vehicle Code; and Section 11440.50, Government Code.

HISTORY

1. New section filed 6–3–99; operative 7–3–99 (Register 99, No. 23).
2. Change without regulatory effect amending first paragraph and subsections (d)–(f) filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 551.14. Request for Informal Mediation.

(a) Prior to initiating a petition pursuant to section 3050(c) of the Vehicle Code, either party may request that the board mediate any honest difference of opinion or viewpoint existing between any member of the public and any new motor vehicle dealer, manufacturer branch, distributor, distributor branch, or representative.

(b) Participation in informal mediation is voluntary, informal, and nonadversarial.

(c) The request for informal mediation shall set forth the nature of the matter which the board is requested to mediate. The request for informal mediation shall comply substantially with the following requirements:

(1) Include the name, mailing address and telephone number of the person requesting informal mediation; the name, mailing address and telephone number of his or her attorney or authorized agent if any, and the name and address of the licensee or applicant for license whose activities or practices are in question.

(2) Insofar as is known to the person requesting informal mediation, include the names, residence addresses and business addresses of persons and the dates, places and specific actions or practices involved in the matter.

(3) Describe the relief or disposition of the matter which the person requesting informal mediation would consider acceptable.

(d) A copy of the request for informal mediation shall be served on the licensee or applicant for license whose activities or practices are in question and proof of service (in compliance with Sections 1013(a) and 2115.5, Code of Civil Procedure) thereof shall accompany the request for informal mediation filed with the executive director of the board.

(e) The form of the request for informal mediation shall substantially conform with the provisions of Article 6 hereof.

(f) Article 1, section 553.40 shall apply to all requests for informal mediation.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. New section filed 2-4-2003; operative 3-6-2003 (Register 2003, No. 6).
2. Change without regulatory effect amending subsection (d) filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 551.15. Request for Discovery; Informal Mediation.

For purposes of discovery, the board or its executive director, or an administrative law judge designated by the board or its executive director may, if deemed appropriate and proper under the circumstances, authorize the parties to engage in such discovery procedures as are provided for in civil actions in Article 3 (commencing with Section 2016.010) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure, excepting the provisions of Chapter 13, Sections 2030.010 through 2030.410 of that code.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. New section filed 2-4-2003; operative 3-6-2003 (Register 2003, No. 6).
2. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
3. Change without regulatory effect amending section filed 8-24-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 551.16. Informal Mediation Process.

(a) Upon receipt of the request for informal mediation, the Board staff will initiate a conference call with the parties to ascertain whether the licensee or applicant for license whose activities or practices are in question is agreeable to participating in informal mediation.

(b) If the licensee or applicant for license whose activities or practices are in question is not agreeable to participating in informal mediation, either party may request that this matter be converted to a petition proceeding pursuant to Article 1, section 551.17.

(c) If the licensee or applicant for license whose activities or practices are in question is agreeable to participating in informal mediation, a mutually agreeable date for informal mediation will be calendared.

(1) Upon order of the board, and at least five business days prior to participating in informal mediation, the parties shall file and serve a pre-mediation statement which includes a detailed statement of facts, statement of issues, and a realistic proposal for resolving the dispute.

(2) The board, its executive director, or an administrative law judge designated by the board or its executive director, shall preside over the informal mediation.

(3) Evidence set forth in declarations of expert or percipient witnesses made under penalty or perjury may be considered by the board, its executive director, or an administrative law judge designated by the board or its executive director, in his or her discretion.

(4) At any time during informal mediation, either party may request that this matter be converted to a petition proceeding pursuant to Article 1, section 551.17.

(5) All communications, negotiations, or settlement discussions by and between participants in the course of informal mediation shall remain confidential.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. New section filed 2-4-2003; operative 3-6-2003 (Register 2003, No. 6).

2. Change without regulatory effect amending subsections (c)(2)-(3) filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 551.17. Conversion of Informal Mediation to Petition; Confidentiality.

(a) The board or its executive director, upon the request of either party, or upon its own motion, may convert an informal mediation to a petition under section 3050(c) of the Vehicle Code. The respondent shall be an applicant for or holder of a license as a new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative.

(b) Within 10 days of approval to convert the proceeding, the petitioner shall file and serve a petition with the board which substantially complies with Article 2, section 555 *et seq.*

(c) Upon receipt of the petition, a copy shall be transmitted by the executive director of the board to each member of the board for consideration in accordance with Section 557 hereof.

(d) If the filing fee was paid by both parties in the informal mediation proceeding, no additional filing fee is required for conversion to a petition.

(e) In accordance with Section 558 hereof, the respondent shall file with the executive director of the board a written answer to the petition.

(f) Chapter 6 (commencing with Section 3000) of Division 2 of the Vehicle Code, and Chapter 2 (commencing with Section 550) of Division 1 of Title 13 of the California Code of Regulations shall apply.

(g) Notwithstanding any other provision of law, a communication made in informal mediation is protected to the following extent:

(1) Anything said, any admission made, and any document prepared in the course of, or pursuant to, informal mediation is a confidential communication, and a party to the informal mediation has a privilege to refuse to disclose and to prevent another from disclosing the communication, whether in an adjudicative proceeding, civil action, or other proceeding. This subsection does not limit the admissibility of evidence if all parties to the proceeding consent.

(2) No reference to the informal mediation proceedings, the evidence produced, or any other aspect of the informal mediation may be made in an adjudicative proceeding or civil action, whether as affirmative evidence, by way of impeachment, or for any other purpose.

(3) No informal mediation administrative law judge is competent to testify in a subsequent administrative or civil proceeding as to any statement, conduct, decision, or order occurring at, or in conjunction with, the informal mediation.

(4) Evidence otherwise admissible outside of informal mediation is not inadmissible or protected from disclosure solely by reason of its introduction or use in informal mediation.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code; and Sections 11420.30 and 11470.50, Government Code.

HISTORY

1. New section filed 2-4-2003; operative 3-6-2003 (Register 2003, No. 6).
2. Change without regulatory effect amending subsection (a) filed 2-6-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 6).
3. Change without regulatory effect amending subsections (a), (c), (e) and (g)(3) filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 552. Records.

(a) Place of Keeping. The records of the board shall be maintained at its principal office at Sacramento in the custody of the executive director. The executive director may certify to any of the board's official acts and may certify copies of all official documents and orders of the board.

(b) Sale of Copies of Records. The executive director shall sell copies of all or any part of the records of the board at a charge sufficient to pay at least the cost of the copies.

(c) Preparation of Certified Copies Without Charge. The board for good cause shown may direct the executive director to certify copies without charge.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(a), Vehicle Code.

HISTORY

1. Amendment of subsections (b) and (c) filed 3–6–79 as an emergency; effective upon filing (Register 79, No. 10).
2. Certificate of Compliance transmitted to OAH 7–3–79 and filed 7–10–79 (Register 79, No. 28).
3. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 553. Annual Board Fee.

(a) Pursuant to section 11723 of the Vehicle Code, every applicant for a license as a new motor vehicle dealer or dealer branch, and every applicant for renewal of a license as a new motor vehicle dealer or dealer branch, shall pay to the department for each issuance or renewal of such license, the sum of \$225.00, per year of licensure, in addition to all other fees now required by the Vehicle Code.

For the purposes of this section, a dealer or dealer branch which is enfranchised to sell both new motorcycles and new motor vehicles other than motorcycles shall be subject to a licensing fee for sales of motorcycles and a licensing fee for sales of motor vehicles other than motorcycles.

(b) Pursuant to section 3016 of the Vehicle Code, every new motor vehicle manufacturer and distributor shall pay to the Board an annual fee of \$.338 per new motor vehicle distributed by the manufacturer or distributor which was sold, leased, or otherwise distributed in California to a consumer of such new motor vehicles during the preceding calendar year, provided, however, that the fee to be paid by each manufacturer or distributor shall not be less than \$225.00.

The board may waive fees for a new motor vehicle manufacturer or distributor licensed in California, based on a determination that the manufacturer or distributor either does not sell vehicles in California or does not have an independent dealer or dealer branch in California.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 11723 and 3016, Vehicle Code; and Section 472.5(b), Business and Professions Code.

HISTORY

1. Amendment filed 10–14–76 as an emergency; effective upon filing (Register 76, No. 42). For prior history, see Register 76, No. 1.
2. Certificate of Compliance filed 12–15–76 (Register 76, No. 51).
3. Amendment filed 3–6–79 as an emergency; effective upon filing (Register 79, No. 10).
4. Certificate of Compliance transmitted to OAL 7–3–79 and filed 7–10–79 (Register 79, No. 28).
5. Amendment filed 2–4–82; effective upon filing pursuant to Government Code section 11346.2(d) (Register 82, No. 6).
6. Amendment filed 11–4–82; designated effective 11–5–82 pursuant to Government Code section 11346.2(d) (Register 82, No. 45).
7. Amendment filed 6–17–85; effective upon filing pursuant to Government Code section 11346.2(d) (Register 85, No. 25).
8. Amendment filed 12–21–90; operative 12–21–90 (Register 91, No. 7).
9. Amendment filed 12–19–91; operative 12–19–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 11).
10. Change without regulatory effect amending NOTE filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).
11. Amendment filed 7–22–93 as an emergency; operative 7–22–93 (Register 93, No. 30). A Certificate of Compliance must be transmitted to OAL 11–18–93 or emergency language will be repealed by operation of law on the following day.
12. Certificate of Compliance as to 7–22–93 order transmitted to OAL 8–10–93 and filed 9–14–93 (Register 93, No. 38).
13. Editorial correction of printing error in HISTORY 12 (Register 93, No. 39).
14. Amendment filed 7–1–94; operative 7–1–94 (Register 94, No. 26).
15. Amendment filed 12–8–99; operative 1–7–2000 (Register 99, No. 50).
16. Amendment filed 9–27–2000; operative 12–31–2000 (Register 2000, No. 39).
17. Amendment filed 10–30–2001; operative 12–31–2001 (Register 2001, No. 44).
18. Amendment of subsection (b) filed 8–21–2003; operative 9–20–2003 (Register 2003, No. 34).
19. Amendment of subsection (a) filed 3–23–2006; operative 4–22–2006 (Register 2006, No. 12).

§ 553.1. Filing Fees.

NOTE: Authority cited: Section 3016, 3050(a) and 3050.5, Vehicle Code. Reference: Section 3060 and 3062, Vehicle Code.

HISTORY

1. New section filed 4–9–85; effective thirtieth day thereafter (Register 85, No. 15).
2. Renumbering former section 553.1 to section 553.40 filed 12–21–90; operative 12–21–90 (Register 91, No. 7).

§ 553.10. Statement of Number of Vehicles Distributed.

(a) All manufacturers and distributors of new vehicles (as defined in section 430 of the Vehicle Code) are required to file a written statement with the Board on or before May 1 of each calendar year. The statement shall include:

(1) The number of new motor vehicles distributed by the manufacturer or distributor which were sold, leased, or otherwise distributed in California to a consumer of such new motor vehicles during the preceding calendar year;

(2) The name and business address of other manufacturers and distributors who are required to submit a statement reporting the distribution of the same new motor vehicles;

(3) The name and business address of the person or persons authorized to receive notices on behalf of the manufacturer or distributor.

(b) If the information required by subdivision (a) is not received by the Board within the applicable time period or it is determined by the Board that the information that is received is substantially inaccurate as compared to the registration information derived from the records of the Department of Motor Vehicles, it shall be presumed that the number of new motor vehicles sold, leased, or otherwise distributed in this state by or on behalf of the non-reporting entity during the preceding calendar year is equal to the total number of new registrations during the period in question of all vehicles manufactured or distributed by the non-reporting entity as derived from the records of the Department of Motor Vehicles.

NOTE: Authority cited: Section 3050(a) and 3016, Vehicle Code. Reference: Section 472.5(b) and (c)(2), Business and Professions Code.

HISTORY

1. New section filed 12–21–90; operative 12–21–90 (Register 91, No. 7).
2. Change without regulatory effect amending NOTE filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

§ 553.20. Determination of Annual Board Fee.

Upon receipt of the information required by section 553.10(a), or as determined by section 553.10(b), the Board shall calculate the Annual Board Fee to be paid by each manufacturer, and distributor by multiplying the annual fee per vehicle (as set forth in section 553(b)) by the number of new motor vehicles distributed by the manufacturer or distributor in the preceding calendar year. The Board shall thereafter send a written notice by certified mail, return receipt requested, to each manufacturer and distributor stating the number of new motor vehicles distributed by the manufacturer or distributor and the amount of the fee to be paid.

Payment of the fee shall be made to the New Motor Vehicle Board no later than thirty (30) days after the date of receipt of the notice.

NOTE: Authority cited: Section 3050(a) and 3016, Vehicle Code. Reference: Section 472.5(b), (c)(1) and (c)(2), Business and Professions Code.

HISTORY

1. New section filed 12–21–90; operative 12–21–90 (Register 91, No. 7).
2. Change without regulatory effect amending NOTE filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

§ 553.40. Filing Fees.

A party filing a request for informal mediation, petition, appeal, or protest pursuant to the provisions of this subchapter shall simultaneously deliver to the board a filing fee of \$200, which is to be in the form of a check or money order payable directly to the board, or a credit card payment. The initial pleading filed in response to such request for informal mediation, petition, appeal, or protest shall also be accompanied by a \$200 filing fee. The board, in the discretion of the executive director, may refuse to accept for filing any pleading subject to this section that is not accompanied by the requisite fee. The executive director may, upon showing of good cause, waive any such fee.

NOTE: Authority cited: Section 3016, 3050(a) and 3050.5, Vehicle Code; and Section 6163, Government Code. Reference: Sections 3060 and 3062, Vehicle Code.

HISTORY

1. Renumbering former section 553.1 to section 553.40 filed 12–21–90; operative 12–21–90 (Register 91, No. 7). For prior history, see Register 85, No. 15.
2. Change without regulatory effect amending NOTE filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

3. Amendment filed 2-4-2003; operative 3-6-2003 (Register 2003, No. 6).
4. Amendment of section and NOTE filed 8-21-2003; operative 9-20-2003 (Register 2003, No. 34).
5. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

Article 1.5. Administration of Fee Collection for Certification Account

§ 553.50. Obligation to Comply.

(a) All manufacturers, manufacturer branches, distributors and distributor branches of new motor vehicles (as defined in Business and Professions Code Section 472(a)) are required to file a written statement with the New Motor Vehicle Board on or before May 1 of each calendar year. The statement shall include:

(1) The number of new motor vehicles distributed by the manufacturer or distributor which were sold, leased, or otherwise distributed in California to a consumer of such new motor vehicles during the preceding calendar year;

(2) The name and business address of other manufacturers and distributors who are required to submit a statement reporting the distribution of the same new motor vehicles; and

(3) The business address and name of the person or persons authorized to receive notices on behalf of the manufacturer or distributor.

(b) Payment of the fees pursuant to Business and Professions Code Section 472.5 shall be the responsibility of the manufacturer or distributor which authorizes a retail seller, including a dealer, franchisee, or lessor (as those terms are defined in the Vehicle Code), to sell, lease, or otherwise distribute the new motor vehicles.

NOTE: Authority cited: Section 472.5(f), Business and Professions Code. Reference: Sections 472.5(b) and (f), Business and Professions Code; and Sections 285, 331.1 and 372, Vehicle Code.

HISTORY

1. New section filed 8-26-88; operative 8-26-88 (Register 88, No. 36).
2. Change without regulatory effect amending subsections (a) and (b) and NOTE filed 12-24-92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

§ 553.60. Presumption of Liability.

If the information required by Section 553.50 is not received by the Board within the applicable time period or it is determined by the Board that the information that is received is substantially inaccurate as compared to the registration information derived from the records of the Department of Motor Vehicles, it shall be presumed that the number of new motor vehicles sold, leased, or otherwise distributed in this state by or on behalf of the non-reporting entity during the preceding calendar year is equal to the total number of new registrations during the period in question of all vehicles manufactured or distributed by the non-reporting entity as derived from the records of the Department of Motor Vehicles.

NOTE: Authority cited: Section 472.5(f), Business and Professions Code. Reference: Section 472.5(c), Business and Professions Code.

HISTORY

1. New section filed 8-26-88; operative 8-26-88 (Register 88, No. 36).
2. Change without regulatory effect amending NOTE filed 12-24-92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

§ 553.70. Payment of Fees.

The New Motor Vehicle Board shall determine the fee to be assessed per vehicle by dividing the dollar amount necessary to fully fund the certification program for the Arbitration Certification Program by the number of new motor vehicles sold, leased, or otherwise distributed in California during the preceding calendar year. For calendar year 2006, the fee shall be \$.497 per vehicle.

Upon receipt of the information required by Section 553.50(a), or as determined by section 553.60, the New Motor Vehicle Board shall send a written notice by certified mail, return receipt requested, to manufacturers and distributors subject to the fee assessment stating the number of new motor vehicles distributed by the manufacturer or distributor and the amount of the fee to be paid.

Payment of the fee shall be made to the New Motor Vehicle Board no later than thirty (30) days after the date of receipt of the notice.

NOTE: Authority cited: Section 472.5(f), Business and Professions Code. Reference: Sections 472.5(b), (c) and (e), Business and Professions Code.

HISTORY

1. New section filed 8-26-88; operative 8-26-88 (Register 88, No. 36).
2. Change without regulatory effect amending first paragraph filed 9-15-89 pursuant to section 100, title 1, California Code of Regulations; operative 10-15-89 (Register 89, No. 40).
3. Change without regulatory effect amending section filed 8-17-90 pursuant to section 100, title 1, California Code of Regulations (Register 90, No. 41).
4. Editorial correction of printing error restoring first paragraph (Register 91, No. 30).
5. Change without regulatory effect amending section filed 9-6-91, pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 52).
6. Change without regulatory effect amending first paragraph and NOTE filed 12-24-92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).
7. Change without regulatory effect amending section filed 2-25-93 pursuant to section 100, title 1, California Code of Regulations (Register 93, No. 9).
8. Change without regulatory effect amending section filed 10-18-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 43).
9. Change without regulatory effect amending section filed 1-26-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 4).
10. Change without regulatory effect amending first paragraph of section filed 2-8-96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 6).
11. Change without regulatory effect amending first paragraph of section filed 2-7-97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 6).
12. Change without regulatory effect amending first paragraph of section filed 4-29-98 pursuant to section 100, title 1, California Code of Regulations (Register 98, No. 18).
13. Change without regulatory effect amending first paragraph of section filed 3-18-99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 12).
14. Change without regulatory effect amending first paragraph filed 3-6-2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 10).
15. Change without regulatory effect amending first paragraph filed 1-25-2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 4).
16. Change without regulatory effect amending first paragraph filed 1-30-2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 5).
17. Change without regulatory effect amending first paragraph filed 3-6-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 10).

20. Change without regulatory effect amending first paragraph filed 1-18-2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 3).
21. Editorial correction of HISTORY 2 (Register 2006, No. 50).
22. Change without regulatory effect amending first paragraph filed 12-13-2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 50).
23. Change without regulatory effect amending first paragraph filed 12-10-2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 50).

§ 553.71. Delinquency of Payment.

If the fee is not paid within the time period specified in Section 553.70 such fee is delinquent. If the fee is not paid within thirty (30) days after it becomes delinquent, a penalty of ten (10) percent of the amount delinquent shall be added thereto.

NOTE: Authority cited: Section 472.5(f), Business and Professions Code. Reference: Sections 472.5(b), (c) and (d), Business and Professions Code.

HISTORY

1. New section filed 8-26-88; operative 8-26-88 (Register 88, No. 36).
2. Change without regulatory effect amending NOTE filed 12-24-92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

§ 553.72. Transmittal of Fees by Mail.

No penalty shall be imposed for delinquent payment of any fee required to be paid under this article in the event any instrument for effective payment of such fee is placed in the United States mail or in any postal box maintained by the United States Postal Service with sufficient identification, in an envelope with postage thereon prepaid and addressed to the New Motor Vehicle Board, 1507 21st Street, Suite 330,

Sacramento, California, 95814 prior to the date the fee becomes delinquent.

NOTE: Authority cited: Section 472.5(f), Business and Professions Code. Reference: Sections 472.5(b) and (d), Business and Professions Code.

HISTORY

1. New section filed 8–26–88; operative 8–26–88 (Register 88, No. 36).
2. Change without regulatory effect amending NOTE filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

§ 553.75. Noncompliance.

The New Motor Vehicle Board may consider any failure of a manufacturer or distributor to comply with any provisions of this Chapter to be good cause to exercise its authority pursuant to Vehicle Code Section 3050(c).

NOTE: Authority cited: Section 472.5(f), Business and Professions Code; and Section 3050, Vehicle Code. Reference: Sections 472.5(b) and (f), Business and Professions Code; and Section 3050(c), Vehicle Code.

HISTORY

1. New section filed 8–26–88; operative 8–26–88 (Register 88, No. 36).
2. Change without regulatory effect amending NOTE filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

Article 2. Filing of Petition

§ 554. Petitioners.

Any person, including a board member, concerned with the activities or practices of any person applying for or holding a license as a new mo-

tor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative, may file a written petition with the board requesting that the board consider such matter and take an action thereon.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. Amendment filed 7–19–74; effective thirtieth day thereafter (Register 74, No. 29).
2. Amendment and new NOTE filed 10–16–89; operative 11–15–89 (Register 89, No. 44).

§ 555. Contents.

The petition shall set forth in clear and concise language the nature of the matter which the petitioner wishes the board to consider. The petition shall comply substantially with the following requirements:

(a) Include the name, mailing address and telephone number of the petitioner; the name, mailing address and telephone number of his or her attorney or authorized agent if any, and the name and address of the licensee or applicant for license (hereinafter referred to as “respondent”) whose activities or practices are in question. All correspondence with petitioner and notices to petitioner shall be addressed to petitioner’s said address, if he or she appears in person, or to the address of his or her attorney or agent, if he or she is represented by an attorney or agent. Petitioner shall promptly give the executive director and respondent written notice by mail of all subsequent changes of address or telephone number.

[The next page is 35.]

(b) Insofar as is known to petitioner, include the names, residence addresses and business addresses of persons and the dates, places and specific actions or practices involved in the matter.

(c) If the actions or practices described in the petition are believed to be in violation of law, a concise recitation of applicable law and citation to the applicable statutes or other authorities.

(d) If the petitioner desires that the board mediate, arbitrate or resolve a difference between the petitioner and respondent, recite that fact and describe the relief or disposition of the matter which petitioner would consider acceptable.

(e) The petitioner may submit, as exhibits to the petition, photographic, documentary or similar physical evidence relevant to the matter referred to in the petition, in which event an appropriate description of the exhibits shall be set forth in the petition sufficient to identify them and to explain their relevancy.

(f) The petitioner shall set forth in the petition an estimate of the number of days required to complete the hearing.

(g) The petitioner shall set forth in the petition a request for a prehearing conference if one is desired.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. New subsections (f) and (g) filed 3-6-79 as an emergency; effective upon filing (Register 79, No. 10).
2. Certificate of Compliance transmitted to OAH 7-3-79 and filed 7-10-79 (Register 79, No. 28).
3. Amendment of subsection (d) and NOTE filed 10-16-89; operative 11-15-89 (Register 89, No. 44).
4. Change without regulatory effect amending subsection (a) filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
5. Change without regulatory effect amending subsection (a) filed 5-31-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 555.1. Service of Petition upon Respondent(s).

A copy of the petition shall be served upon the respondent(s) and proof of service (in compliance with Sections 1013(a) and 2015.5, Code of Civil Procedure) thereof shall accompany the petition filed with the executive director of the board.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. New section filed 10-16-89; operative 11-15-89 (Register 89 No. 44).
2. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 556. Form and Filing of Petition.

The form of the petition shall conform with the provisions of Article 6 hereof. The petition shall be filed with the executive director of the board.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. Amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
2. Amendment and new NOTE filed 10-16-89; operative 11-15-89 (Register 89, No. 44).
3. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 557. Notice to Respondent: First Consideration.

(a) Upon the filing of a petition with the board, a copy of the petition shall be transmitted by the executive director of the board to each member of the board for consideration. Unless, within 10 days of receipt of a copy of the petition, any member of the board notifies the executive director of an objection, the executive director shall set the matter for a hearing before an administrative law judge designated by the board.

(b) If any member of the board gives notice of objection within 10 days of receipt of a copy of a petition, the petition shall be first considered by the board at its next meeting to determine what action shall be taken in regards to the petition. Upon receipt by the executive director of a notice of objection, the executive director shall notify the parties named in the

petition that there has been an objection and that the matter will be considered by the board at its next meeting. The parties shall also be given a minimum of 10 days prior notice of the time, date, and location of the board meeting at which the petition will be considered.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. Amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
2. Repealer and new section filed 10-16-89; operative 11-15-89 (Register 89, No. 44).
3. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 558. Answer-Time of Filing; Form and Content.

(a) The respondent shall file with the executive director of the board a written answer to the petition, in the form prescribed by Article 6 hereof. The answer shall be filed within 30 days of the date of service of the petition on the respondent.

(b) The answer shall be responsive to the allegations of the petition and shall set forth in clear and concise language the factual contentions of the respondent with respect to the matter referred to in the petition.

(c) The respondent may submit, as exhibits to the answer, photographic, documentary or similar physical evidence relevant to the matter in support of the answer with an appropriate description thereof in the answer sufficient to identify them and to explain their relevancy.

(d) The respondent shall set forth in the answer its mailing address and telephone number and the name, mailing address and telephone number of its attorney or authorized agent, if any. All correspondence with respondent and notices to respondent shall thereafter be addressed to said address, if it appears in person, or to the address of its attorney or agent, if it is represented by an attorney or agent. Respondent shall promptly give the executive director and petitioner written notice by mail of all subsequent changes of address or telephone number.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. Amendment of subsection (a) filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
2. Amendment of subsection (a), repealer of subsection (c), relettering of former subsections (d) and (e) to subsections (c) and (d), and new NOTE filed 10-16-89; operative 11-15-89 (Register 89, No. 44).
3. Change without regulatory effect amending subsections (a) and (d) filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
4. Change without regulatory effect amending subsection (d) filed 5-31-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 559. Shortening Time.

HISTORY

1. Repealer filed 10-16-89; operative 11-15-89 (Register 89, No. 44).

§ 560. Extension of Time and Continuances.

(a) In the event a party desires additional time for the performance of any act, or a continuation of any proceeding contemplated by these rules, the party shall either make application in writing to the board for such extension or continuance, stating the reason therefor and the additional time requested, or the date to which the continuance is requested, or shall obtain from the other party a written stipulation for the extension or continuance which shall also set forth the reasons therefor and the time requested. The application or stipulation shall be filed with the executive director at least two days prior to the expiration of the period of time in question or the date fixed for the proceeding sought to be continued. If good cause appears therefor, the executive director shall grant the extension or continuance and shall forthwith give notice thereof to the parties by mail; if the extension or continuance is denied, the executive director shall give notice thereof to the parties by mail.

(b) The party applying for an extension or continuance shall serve a copy of the application upon the opposing party, personally or by mail, and shall file with the application an affidavit or certificate of personal

service or of mailing of the copy to the opposing party evidencing such service. If the other party wishes to oppose the application, it shall communicate such opposition to the executive director, either orally or in writing, stating its reasons for opposition. The executive director shall consider the reasons stated in opposition in determining whether the application should be granted or denied.

HISTORY

1. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
2. Change without regulatory effect amending subsection (b) filed 5–31–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 561. Additional Evidence and Argument in Support of Petition.

(a) A party wishing to present to the board evidence and/or arguments in addition to that submitted in accordance with Section 555 hereof may, prior to the first consideration of the petition by the board, advise the executive director in writing of its desire to do so by filing with the board not later than ten days before the date set for the first consideration of the petition a request to present such additional evidence and/or arguments.

(b) The request to present additional evidence and/or argument filed pursuant to Section 561(a) hereof shall contain, as applicable:

- (1) The names and addresses of witnesses together with a brief statement summarizing their expected testimony;
- (2) Copies or reproduction of all documentary or physical evidence, in addition to that already furnished pursuant to Section 555(e) hereof;
- (3) A summary of the subject or subjects expected to be covered by argument;
- (4) A statement of the reason or reasons why it is desirable for the board to grant the request.

(c) The board may grant a request filed pursuant to Section 561(a) hereof if it determines that its first consideration of the petition would be assisted by such evidence and more argument.

(d) Upon the filing of the request pursuant to Section 561(a) hereof, the board shall, prior to proceeding with the first consideration of the matter, decide whether to grant the request. If the request is granted, the board shall:

- (1) Set a time and place for the hearing where the oral or documentary or physical evidence may be heard and presented. Hearings set pursuant to this provision shall be conducted in accordance with Sections 589, 590 and 592 hereof;
- (2) Set the time and place where the argument shall be heard by the board.

(e) The Board shall in no event proceed with the first consideration of a petition unless it has reviewed the additional evidence and/or argument submitted pursuant to the provisions of Section 561(d) hereof.

NOTE: Authority cited: Section 3050, Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. Amendment filed 7–8–77; effective thirtieth day thereafter (Register 77, No. 28).
2. Change without regulatory effect amending subsection (a) filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
3. Change without regulatory effect amending subsection (a) filed 5–31–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 562. Action by the Board.

After considering the matter, the board may do any one or any combination of the following:

(a) Prior to taking final action, direct the executive director to request the petitioner or the respondent, or both, to augment the record, or to appear to offer evidence or oral argument, or both, or to file briefs, in which event the executive director shall give written notice by mail to the parties of the action by the board, the time within which such augmented pleadings or such briefs are to be submitted or the time and place of further hearing.

(b) Prior to taking final action, direct the department to conduct an investigation and submit a written report within thirty days with or without notice thereof to the parties.

(c) Undertake to mediate, arbitrate, or otherwise resolve any honest difference of opinion or viewpoint existing between the petitioner and respondent.

(d) Direct that the department exercise any and all authority or power that it may have with respect to the issuance, renewal, refusal to renew, suspension or revocation of the license and certificate of the respondent as such license and certificate are required under Chapter 4, Division 5 of the Vehicle Code.

(e) Order the petition dismissed, with or without prejudice to the filing of another petition with respect to the same matter, upon such terms or conditions as it may deem just.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. Amendment of subsections (a) and (c) and new NOTE filed 10–16–89; operative 11–15–89 (Register 89, No. 44).
2. Change without regulatory effect amending subsection (a) filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 563. Voluntary Dismissal.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(a), Vehicle Code.

HISTORY

1. Repealer filed 3–6–79 as an emergency; effective upon filing (Register 79, No. 10).
2. Certificate of Compliance transmitted to OAH 7–3–79 and filed 7–10–79 (Register 79, No. 28).

§ 564. Decision.

The decision shall be in writing. Copies of the decision shall be served on the parties personally or sent to them by certified or registered mail. The decision shall be final upon its delivery or mailing and no reconsideration or rehearing shall be permitted.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(c), Vehicle Code.

HISTORY

1. Amendment filed 12–19–91; operative 12–19–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 11).

§ 565. Request for Extension of Time; Temporary Ownership or Operation of a Dealership by a Manufacturer, Branch, or Distributor.

(a) After a showing of good cause by a manufacturer, branch, or distributor that it needs additional time to own and operate a dealership within the relevant market area of an independent dealer of the same line—make in preparation for sale to a successor independent franchisee, the board may extend the time period beyond one year.

(b) When a manufacturer, branch, or distributor seeks to request an extension of time, it shall first give notice in writing of that intention to the board and to each franchisee operating a dealership of the same line—make within the relevant market area.

(c) The written notice shall contain, on the first page thereof in at least 12–point bold type and circumscribed by a line to segregate it from the rest of the text, the following statement:

“NOTICE TO DEALER: If you oppose this request, you may send a letter to the NEW MOTOR VEHICLE BOARD in Sacramento and have your opposition considered by the board. You must file your opposition with the board within 20 days of your receipt of this notice.”

(d) When a request for extension of time has been received, the board shall notify each franchisee of the same line—make within the relevant market area, as provided by the manufacturer pursuant to subsection (g)(1) below, that a timely request has been received, that the franchisee has the opportunity to send a letter to the board opposing the request and have that opposition considered by the board at its next scheduled meeting, and that the status quo will be maintained until the board acts upon the request for extension.

(e) In determining whether good cause has been shown for granting the request for an extension of time, the board shall take into consideration the existing circumstances, including, but not limited to, all of the following:

(1) The written request of the manufacturer, branch, or distributor;

(2) Written responses in opposition to the request received from any franchisee operating a dealership of the same line—make within the relevant market area; and,

(3) Comments of other interested parties.

(f) Upon the filing of a timely request for an extension of time, a copy of the request for extension shall be transmitted by the executive director of the board to each member of the board for consideration.

(g) The written request for an extension of time shall be accompanied by all of the following:

(1) A list of all franchisees operating a dealership of the same line—make within the relevant market area.

(2) A statement of facts detailing the specific need for the extension of time.

(3) The requested expiration date of the extension.

(4) A chronology of the actions both taken and planned by the manufacturer, branch, or distributor to prepare for the sale of the franchise to a successor independent franchisee.

(5) A statement to the effect that the information required in subsections (g)(2)–(4) above has been provided to each franchisee operating a dealership of the same line—make within the relevant market area.

(6) A statement that the requesting party does or does not agree that the dealer members of the board may participate in the consideration of the request.

(h) The executive director shall grant the extension unless, within 30 days from receipt of the request for extension, any member of the board notifies the executive director of an objection or the board receives a written response in opposition to the request from any franchisee operating a dealership of the same line—make in the relevant market area.

(i) If any member of the board gives notice of objection within 30 days of receipt of a copy of the request for extension, or if the board receives a timely written opposition to the request from any franchisee operating a dealership of the same line—make within the relevant market area, this matter shall be considered by the board at its next scheduled meeting.

(j) Upon receipt by the executive director of a notice of objection and/or a written opposition from any franchisee operating a dealership of the same line—make within the relevant market area, the executive director shall notify the manufacturer, branch, or distributor that there has been an objection and/or opposition, that the matter will be considered by the board at its next scheduled meeting, and that the status quo will be maintained until the board acts upon the request for extension. The manufacturer, branch, or distributor, and opposing franchisee(s), if any, operating a dealership of the same line—make within the relevant market area shall be given a minimum of 10 days' prior notice of the time, date, and location of the board meeting at which the request for extension will be considered.

(k) Notwithstanding subsections (h), (i) and (j) above, a member of the board who is a new motor vehicle dealer may not participate in, hear, comment, advise other members upon, or decide any matter involving a request subject to this subsection, unless the requesting party to the proceeding has had full disclosure and agrees to such participation by the dealer board member.

(l) On or before 60 days prior to the expiration of the one year period, the manufacturer, branch, or distributor may request an extension of time for good cause shown which shall be in writing. Requests received with less than 60 days' prior notice will not be considered by the board and shall be deemed denied.

(m) Within 20 days of receiving the notice, any franchisee required to be given notice may file an opposition to the request for an extension of time.

HISTORY

1. New section filed 4–4–2002; operative 5–4–2002 (Register 2002, No. 14).
2. Change without regulatory effect amending subsections (h) and (j)–(l) filed 6–3–2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 23).
3. Change without regulatory effect amending subsections (f), (h) and (j) filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

Article 3. Appeals from Decisions of the Department

§ 566. Time of Filing Notice of Appeal.

Notice of appeal shall be filed with the executive director of the board on or before:

(a) Forty days after delivery or registered mailing to appellant the decision appealed from, if its effective date is thirty days following service upon the appellant; or

(b) Ten days after the effective date of the decision appealed from, if such date is prior to the expiration of the 30-day period; or

(c) Ten days after the expiration of any stay of execution of the entire decision granted by the department.

HISTORY

1. Amendment filed 3–20–73; effective thirtieth day thereafter (Register 73, No. 12).
2. Change without regulatory effect amending first paragraph filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 567. Form.

Notice of appeal shall be in writing and signed by appellant or appellant's attorney. It shall conform with the provisions of Article 6 hereof.

HISTORY

1. Amendment filed 3–20–73; effective thirtieth day thereafter (Register 73, No. 12).
2. Amendment filed 7–19–74; effective thirtieth day thereafter (Register 74, No. 29).

§ 568. Contents of Notice of Appeal.

Notice of appeal shall set forth in concise language the following:

(a) That appellant is an applicant for, or a holder of, a license as a new car dealer, manufacturer, manufacturer branch, distributor, distributor branch or representative, as defined in Sections 426, 672, 389, 296, 297 and 512 Vehicle Code, respectively.

(b) Those portions of Sections 3054 or 3055 Vehicle Code providing basis for appeal.

(c) That appellant has applied to the Office of Administrative Hearings for the complete administrative record or those portions that appellant desires to file with the board and has advanced costs of preparation thereof; or, in lieu thereof, that the case is being submitted on an agreed statement.

(d) If the appeal is based in whole or in part on Section 3054(e), Vehicle Code, a statement that appellant desires to produce before the board relevant evidence which in the exercise of reasonable diligence could not have been produced or which was improperly excluded at the hearing.

(e) That appellant either does or does not desire to appear before the board.

HISTORY

1. Amendment filed 3–20–73; effective thirtieth day thereafter (Register 73, No. 12).
2. Amendment filed 7–19–74; effective thirtieth day thereafter (Register 74, No. 29).
3. Change without regulatory effect amending subsection (b) filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).

§ 569. Affidavit in Support of Appeal Based on Section 3054(e), Vehicle Code.

Where the notice of appeal contains the statement required by Section 568(d), the notice of appeal shall be supported by an affidavit of the ap-

pellant setting forth the matters in either (a) or (b) of this section, or both, as appropriate:

(a) A statement that there is evidence which was not available at the administrative hearing through the exercise of reasonable diligence; the substance of the evidence; the relevance of the evidence to a disputed issue; and a full explanation of why the evidence was not produced at the administrative hearing.

(b) A statement that there is evidence which was rejected at the administrative hearing; the substance of the evidence; the relevance of the evidence to a disputed issue; and a statement of the evidence establishing that the proffered evidence was, in fact, presented at the administrative hearing and was rejected despite a duly made offer of proof.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).

§ 570. Service of Notice upon Department.

(a) A copy of the notice of appeal and all supporting affidavits shall be served upon the department and proof of service shall accompany the notice filed with the executive director of the board.

HISTORY

1. Renumbering from Section 569 and amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
2. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 571. Filing with Board the Administrative Record.

(a) Upon receipt from the Office of Administrative Hearings, appellant shall forward forthwith to the executive director the original and three copies of the complete administrative record which shall consist of the reporter's transcript and all the pleadings and exhibits received at the administrative hearing. In lieu thereof, appellant may forward those parts of the administrative record which appellant deems necessary to support its appeal. If the case is being submitted on an agreed statement, only the accusation and director's decision need be forwarded.

(b) If appellant files a partial administrative record, it shall serve, prior to or at the time of filing such partial record, written notice on the department of those portions of the record that appellant will file with the board and proof of service of such notice shall be filed with the executive director.

(c) The department may file any additional portions of the administrative record that it deems necessary to make an adequate presentation of its case. Such filing shall consist of the original and three copies and shall be no later than ten (10) days after notification by appellant of those portions of the record that appellant is filing unless, for good cause shown, the executive director grants additional time. Prior to or at the time the department files additional portions of the administrative record with the board, notice shall be served by the department on appellant of such additional portions and proof of service of such notice shall be filed with the executive director.

(d) If the complete administrative record has not been filed, the board may order additional portions of such record to be filed at any time during the pendency of the appeal. The board may order prior payment of the cost of providing the additional administrative record so ordered to be filed.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Renumbering from Section 570 and amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
3. Change without regulatory effect amending subsections (a)-(c) filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 572. Agreed Statement.

(a) An appeal may be presented on a record consisting in whole or in part of an agreed statement. Within thirty days after receiving the admin-

istrative record, the appellant shall file with the executive director of the board the original and nine copies of such statement signed by the parties.

(b) The statement shall show the nature of the controversy, identify the questions of law, and set forth only those facts alleged and proved, or sought to be proved, as are necessary to a determination of the questions on appeal.

(c) Ten copies of any such exhibits admitted at the administrative hearing as the parties may desire shall accompany the statement.

(d) For good cause shown, the executive director may grant a continuance of not more than fifteen days for the filing of an agreed statement. Application for a continuance shall be in writing and shall be filed with the executive director at least ten days prior to the date the agreed statement was to be filed. No continuance otherwise requested shall be granted except in extreme emergencies such as serious accident or death. NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(a), Vehicle Code.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Renumbering from Section 571 and amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
3. Amendment of subsection (d) filed 3-6-79 as an emergency; effective upon filing (Register 79, No. 10).
4. Certificate of Compliance transmitted to OAH 7-3-79 and filed 7-10-79 (Register 79, No. 28).
5. Change without regulatory effect amending subsections (a) and (d) filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 573. Briefs.

(a) Upon receiving the administrative record or agreed statement of facts from appellant, the executive director shall inform the parties in writing of the date by which their briefs must be filed with the board. The parties shall comply with the briefing schedule as established by the executive director.

(b) For good cause shown, the executive director may grant continuances for the filing of briefs making adequate allowance for the 60-day time limitation prescribed in Vehicle Code Section 3056. Application for a continuance shall be in writing and shall be filed with the executive director at least ten days prior to the date the brief was to be filed. No continuance shall be granted except in extreme emergencies such as serious accident or death.

(c) Any party to the appeal desiring to file a brief must submit the original and nine copies for such filing. A copy shall be served upon the opposing party and proof of service thereof shall accompany the original filed with the executive director.

(d) The board may require the parties to file anytime during the pendency of the appeal briefs on matters determined by the board.

(e) A brief of amicus curiae may be filed on permission of the board and subject to conditions prescribed by the board. To obtain permission, the applicant shall file with the executive director a signed request specifying the points to be argued in the brief and containing a statement that the applicant is familiar with the questions involved in the case and the scope of their presentation and believes there is a necessity for additional arguments on the points specified.

(f) If the application for filing amicus curiae briefs is granted, the original and nine copies shall be filed with the executive director. A copy shall be served on the appellant and the department and proof of service thereof shall accompany the original filed with the executive director.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(a), Vehicle Code.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Renumbering from Section 572 and amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29). For history of former Section 573, see Register 73, No. 12.
3. Amendment of subsections (a) and (b) filed 3-6-79 as an emergency; effective upon filing (Register 79, No. 10).
4. Certificate of Compliance transmitted to OAH 7-3-79 and filed 7-10-79 (Register 79, No. 28).

5. Amendment of subsection (a) filed 7-10-79 as an emergency; effective upon filing. Certificate of Compliance included (Register 79, No. 28).
6. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 574. Notice of Hearing.

At least 20 days prior to the hearing date, the executive director shall serve notice of date, time and place of hearing upon the department, the appellant, the members of the board and any other party making a written request for such notice.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
3. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 575. Continuances.

For good cause shown, the executive director may continue the date fixed for the hearing. Applications for continuance shall be in writing and shall be filed with the executive director at least ten days prior to the hearing. No continuance otherwise requested shall be granted except in extreme emergencies such as serious accident or death.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
3. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 576. Conduct of Hearing.

Unless otherwise ordered by the board, counsel for each party shall be allowed 20 minutes for oral argument. Not more than one counsel for a party may be heard except that different counsel for appellant may make opening and closing arguments.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).

§ 577. Costs of Appeal.

Each party shall bear its own costs on appeal; costs for preparation of the administrative record and copies thereof shall be borne by the party ordering the same, or if ordered by the board pursuant to Section 571, shall be borne by appellant or the board as determined by the board.

All proceedings before the board predicated on or pursuant to Section 568(d), except deliberations in executive session, shall be reported and transcribed by a certified shorthand reporter arranged for by the executive director. Costs for reporting and for preparation of the original transcript shall be borne by the appellant.

HISTORY

1. New section filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
3. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

Article 4. Hearings on Petitions and Appeals

§ 578. Reporting of Proceedings.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Repealer filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).

§ 579. Subpoenas.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050.1(a), Vehicle Code.

HISTORY

1. Renumbering of Section 579 to Section 551.2 filed 10-16-89; operative 11-15-89 (Register 89, No. 44).

§ 580. Procedure at Hearings.

(a) Evidence. The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. Evidence that is irrelevant or unduly repetitious shall be excluded.

(b) Official Notice. Before or after submission of a matter for decision, official notice may be taken by the board of any generally accepted technical or scientific matter within the board's special area of competence or of such facts as may be judicially noticed by the courts of this state.

(c) Examination of Witnesses. Oral evidence shall be taken only on oath or affirmation. Each party shall have the right to call and examine witnesses; to introduce exhibits, to cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which party called him or her to testify; to rebut the evidence against him; and to call and examine an adverse party or adverse witness as if under cross-examination without being bound by his or her testimony. Board members and, at the direction of the chairman of the board presiding at the hearing or of any member of the board, representatives of the staff of the board, may participate as appropriate, using their knowledge and experience for the primary purpose of developing a full, fair and accurate record. Questioning of witnesses will be controlled by the board and will generally be permitted only by the attorneys or agents of parties so represented, or by the parties who appear on their own behalf, members of the board and its staff. The board may in its discretion, during the examination of a witness, exclude from the hearing, any or all other witnesses in the same matter.

HISTORY

1. Amendment filed 3-20-73; effective thirtieth day thereafter (Register 73, No. 12).
2. Change without regulatory effect amending subsection (c) filed 5-31-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 581. Deliberations of the Board.

When matters are finally submitted to the board for decision, the board shall take the same under submission and shall conduct its deliberations in executive session. The deliberations of the board shall be in private and shall not be reported.

HISTORY

1. Amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).

§ 582. Failure to Appear.

Any party who fails to appear at a hearing will not be entitled to a further opportunity to be heard unless good cause for such failure is shown to the board within five days thereafter. The lack of such showing of good cause may, in the discretion of the board, be interpreted as an abandonment of interest by such party in the subject matter of the proceeding.

HISTORY

1. Amendment filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).

Article 5. Protests

§ 583. Form.

A protest shall be in writing and shall be signed by a franchisee or its attorney. It shall conform with the provisions of Article 6 hereof.

NOTE: Authority cited: Section 3050, Vehicle Code. Reference: Sections 3050 (b), (c) and (d), Vehicle Code.

HISTORY

1. New Article 5 (Sections 583-592) filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).

2. Amendment filed 4-12-77 as an emergency; effective upon filing (Register 77, No. 16).
3. Reinstatement of section as it existed prior to emergency amendment filed 4-12-77 by operation of Section 11422.1(b), Government Code (Register 78, No. 32).
4. Change without regulatory effect amending section filed 5-31-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 584. Service of Protest upon Franchisor.

A copy of the protest shall be served upon the franchisor and proof of service (in compliance with Sections 1013(a) and 2015.5, Code of Civil Procedure) thereof shall accompany the protest filed with the executive director of the board.

HISTORY

1. Amendment filed 4-12-77 as an emergency; effective upon filing (Register 77, No. 16). For prior history, see Register 76, No. 22.
2. Reinstatement of section as it existed prior to emergency amendment filed 4-12-77 by operation of Section 11422.1(b), Government Code (Register 78, No. 32).
3. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 585. Time of Filing and Content of Protests Pursuant to Sections 3060, 3062, 3070, and 3072, Vehicle Code.

(a) The protest shall be considered received on the date of receipt by the executive director of the board or on the date of certified or registered mailing.

(b) The protest shall be responsive to the specific grounds as set forth in the notice and shall set forth in clear and concise language the factual contentions of the franchisee with respect to the matter referred to in the notice.

(c) The franchisee may submit, as exhibits to the protest, photographic, documentary or similar physical evidence relevant to the matter in support of the protest with an appropriate description thereof in the protest sufficient to identify them and to explain their relevancy.

(d) The franchisee shall set forth in the protest its mailing address and telephone number and the name, mailing address and telephone number of its attorney or authorized agent, if any. All correspondence with franchisee and notices to franchisee shall thereafter be addressed to said address, if it represents itself, or to the address of its attorney or agent, if it is represented by an attorney or agent.

(e) Franchisee shall indicate either that it does or does not desire to appear before the board.

(f) The franchisee shall set forth in the protest an estimate of the number of days required to complete the hearing.

(g) The franchisee shall set forth in the protest a request for a prehearing conference if one is desired.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3060, 3062, 3070 and 3072, Vehicle Code.

HISTORY

1. Amendment filed 1-28-76 as an emergency; effective upon filing (Register 76, No. 5).
2. Certificate of Compliance filed 5-28-76 (Register 76, No. 22).
3. Amendment filed 4-12-77 as an emergency; effective upon filing (Register 77, No. 16).
4. Reinstatement of section as it existed prior to emergency amendment filed 4-12-77 by operation of section 11422.1(b), Government Code (Register 78, No. 32).
5. New subsections (i) and (j) filed 3-6-79 as an emergency effective upon filing (Register 79, No. 10).
6. Certificate of Compliance transmitted to OAL 7-3-79 and filed 7-10-79 (Register 79, No. 28).
7. Amendment filed 4-9-85; effective thirtieth day thereafter (Register 85, No. 15).
8. Amendment of subsection (a) filed 10-21-94; operative 10-21-94 pursuant to Government Code section 11346.2(d) (Register 94, No. 42).
9. Change without regulatory effect amending section heading, subsection (a) and NOTE filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
10. Change without regulatory effect amending subsections (d)-(e) filed 5-31-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 585.1. Time of Filing and Content of Notice of Appearance.

The respondent shall file a notice of appearance with the board within 15 days of receipt of the protest. Failure to file a timely notice of appearance shall result in the proceedings being suspended until such time as a notice of appearance is filed. The notice shall contain language indicating whether the party desires to appear at the hearing for purposes of submitting evidence and oral argument and whether the respondent contends the protest was submitted in a timely manner.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050(a), Vehicle Code.

HISTORY

1. New section filed 8-6-98; operative 9-5-98 (Register 98, No. 32).

§ 586. Filing of Protest, Schedules of Compensation for Preparation and Delivery Obligations, Warranty Reimbursement Schedules or Formulas, and Franchisor Incentive Program Reimbursement Pursuant to Sections 3064, 3065, 3065.1, 3074, 3075, and 3076 V.C.

(a) Protests filed with the board under any of these sections of the Vehicle Code shall be filed as follows:

(1) The protest shall set forth in clear and concise language the factual contentions of the franchisee with respect to the protest.

(2) The franchisee may submit, as exhibits to the protest, photographic, documentary or similar physical evidence relevant to the matter in support of the protest with an appropriate description thereof in the protest sufficient to identify them and to explain their relevancy.

(3) The franchisee shall set forth in the protest its mailing address and telephone number and the name, mailing address and telephone number of its attorney or authorized agent, if any. All correspondence with franchisee and notices to franchisee shall thereafter be addressed to said address, if it represents itself, or to the address of its attorney or agency, if it is represented by an attorney or agent.

(4) Franchisee shall indicate either that it does or does not desire to appear before the board.

(b) Schedule of compensation for preparation and delivery obligation and warranty reimbursement schedule or formula shall be filed by the franchisor with the board no later than 30 days after date license is issued or within 30 days after date of renewal of license if no schedule or formula has previously been filed with the board.

(c) The franchisor shall file with the board any addition, deletion, change or modification to the schedule of compensation or reimbursement schedule or formula on file with the board on or before the date such addition, deletion, change or modification becomes effective.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3050(a) and (d), 3064, 3065, 3065.1, 3074, 3075, and 3076, Vehicle Code.

HISTORY

1. Amendment of section heading and subsection (a) and new NOTE filed 9-29-99; operative 10-29-99 (Register 99, No. 40).
2. Change without regulatory effect amending section heading and NOTE filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
3. Change without regulatory effect amending subsections (a)(3)-(4) filed 5-31-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 587. Stipulation of Fact.

(a) A hearing initiated by the filing of a protest with the board pursuant to Sections 3060, 3062, 3064, 3065, 3065.1, 3070, 3072, 3074, 3075, and 3076 may be held based in whole or in part on a stipulation of fact. Within 45 days after filing a protest, the franchisee shall file with the executive director of the board the original and 10 copies of such statement signed by the parties.

(b) The statement shall show the nature of the controversy, identify the questions of law, if any, and set forth only those facts alleged or sought to be proved, as are necessary to a determination of the issues raised by the protest.

(c) For good cause shown, the executive director may grant a continuance for the filing of a stipulation of fact of not more than fifteen days.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3050(a) and (d), 3060, 3062, 3064, 3065, 3065.1, 3070, 3072, 3074, 3075 and 3076, Vehicle Code.

HISTORY

1. Amendment of subsection (a) and new NOTE filed 9–29–99; operative 10–29–99 (Register 99, No. 40).
2. Change without regulatory effect amending subsections (a) and (c) and NOTE filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 588. Deliberations of the Board.

When matters are finally submitted to the board for decision, or the board receives a proposed decision of an administrative law judge, the board shall take the same under submission and shall conduct its deliberations in executive session. The deliberations of the board shall be in private and shall not be reported.

HISTORY

1. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 589. Failure to Appear.

Any party who fails to appear at a hearing will not be entitled to a further opportunity to be heard unless good cause for such failure is shown to the board or to the administrative law judge within five days thereafter. The lack of such showing of good cause may, in the discretion of the board or the administrative law judge, be interpreted as an abandonment of interest by such party in the subject matter of the proceeding.

HISTORY

1. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 590. Hearings by Board or by Administrative Law Judge.

All hearings on protests filed pursuant to Sections 3060, 3062, 3064, 3065, 3065.1, 3070, 3072, 3074, 3075, or 3076 may be considered by the entire board or may, at its discretion, be conducted by an administrative law judge designated by the board who shall either be a member of the board, an administrative law judge on the staff of the Office of Administrative Hearings, or any person specifically designated by the board.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3050(a) and (d), 3060, 3062, 3064, 3065, 3065.1, 3066, 3070, 3072, 3074, 3075 and 3076, Vehicle Code.

HISTORY

1. Amendment filed 9–23–76 as an emergency; effective upon filing (Register 76, No. 39).
2. Certificate of Compliance filed 12–15–76 (Register 76, No. 51).
3. Amendment of section and new NOTE filed 9–29–99; operative 10–29–99 (Register 99, No. 40).
4. Change without regulatory effect amending section heading, section and NOTE filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
5. Amendment filed 3–24–2006; operative 4–23–2006 (Register 2006, No. 12).

§ 591. Notice of Hearing.

The board shall, by an order, fix the time and place of hearing. The hearing shall be within 60 days of the date of such order. A copy of the order giving notice of the time and place of hearing shall be sent by registered mail to the franchiser, the protesting franchisee and to all individuals and groups which have requested such notice.

§ 592. Continuances.

Within the time limitation fixed by Section 3066(a), the board, or the administrative law judge, for good cause shown, may continue the date fixed for the hearing. Application for continuance shall be in writing and filed with the executive director at least 10 days prior to the date of hearing. No continuances otherwise requested shall be granted except in extreme emergencies such as serious accident or death.

HISTORY

1. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

Article 6. Form of Filings and Notices

§ 593. Papers Defined—Approved Forms.

The word “papers” means all documents, except exhibits or copies of documents, which are offered for filing to the executive director in any proceeding before the board; provided, however, that it does not include any printed forms approved by the board. Approved forms shall be furnished by the executive director to the public on request, and, unless it is impracticable to do so, the parties to proceedings before the board shall use approved forms.

HISTORY

1. Renumbering from section 585 filed 7–19–74; effective thirtieth day thereafter (Register 74, No. 29).
2. Amendment of article heading filed 10–21–94; operative 10–21–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 42).
3. Change without regulatory effect amending section filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 593.1. Notices.

All written notices pursuant to Vehicle Code section 3062 or 3072 shall be textually segregated in a separate paragraph such that the language informing the recipient of the intention of the franchisor to establish or relocate a dealership is not intermingled with or obscured by the surrounding text.

NOTE: Authority cited: Sections 3062 and 3072, Vehicle Code. Reference: Section 3014, Vehicle Code.

HISTORY

1. New section filed 10–21–94; operative 10–21–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 42).
2. Change without regulatory effect amending section and NOTE filed 12–31–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

§ 593.2. Briefs.

Any brief filed with the board in support or opposition to any application, motion, memorandum of points and authorities or other position paper, shall include copies of any court decision cited within that brief which decision is not taken from an official reporter.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3050, Vehicle Code.

HISTORY

1. New section filed 8–10–98; operative 9–9–98 (Register 98, No. 33).

§ 593.3. Failure to File or to Timely File Statutorily Required Notices, Schedules, or Formulas.

Failure to file or to timely file the statutorily required notices, schedules, or formulas required by the Vehicle Code may result in the board ordering the department to exercise any and all authority or power that the department may have with respect to the issuance, renewal, refusal to renew, suspension, or revocation of the license of any new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative as that license is required under Chapter 4 (commencing with Section 11700) of Division 5.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3060, 3062, 3064, 3065 and 11713.3, Vehicle Code; and Section 1795.92, Civil Code.

HISTORY

1. New section filed 3–8–2002; operative 4–7–2002 (Register 2002, No. 10).

§ 594. Size of Paper, Pagination, Etc.

All papers shall be typewritten or printed on opaque, unglazed, white paper, not less than twenty pound weight, standard quality letter size (8 1/2 x 11 inches in size). Only one side of the paper shall be used and the margins shall be not less than 1 inch on the left hand side of the page and 1/2 inch on the top, bottom and right hand sides of the page. Headings shall be either capitalized or underscored, or both, and all quotations shall be indented. The type shall be not smaller than 12 points. The lines on each page shall be double spaced. Line numbers shall be placed at the left margin and separated from the text of the paper by a vertical column of space at least one-fifth inch wide or a single or double vertical line. The line number either shall be placed on the same line as a line of type or shall

be evenly spaced vertically on the page. Line numbers shall be consecutively numbered beginning with the number 1 on each page. There shall be at least three line numbers for every vertical inch on the page. The pages shall be numbered consecutively at the center of the page at the bottom. All papers shall consist entirely of original pages without riders and shall be firmly bound together at the top. Exhibits may be fastened to pages of the specified sizes and, when prepared by a machine copying process, shall be equal to typewritten material in legibility and permanency of image.

NOTE: Authority cited: Sections 3050(a), Vehicle Code. Reference: Sections 3050(c) and 3051, Vehicle Code.

HISTORY

1. Renumbering from Section 586 filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
2. Amendment of section and new NOTE filed 9-5-2000; operative 10-5-2000 (Register 2000, No. 36).

§ 595. Format of First Page.

The first page of all papers shall be in the following form: Commencing in the upper left hand corner and to the left of the center of the page, the name, office address (or if none, the residence address), mailing address (if different from the office or residence address), electronic-mail (e-mail) address, if available, and the telephone number of the attorney or agent for the party in whose behalf the paper is presented, or of the party if he or she is appearing in person. If the party is represented by an attorney, provide the state bar number of the attorney beside the name of the attorney. Below the name, address and telephone number, and centered on the page, the title of the board. Below the title of the board, in the space to the left of the center of the page, the title of the proceeding, e.g., John Doe, petitioner (or protestant, or appellant) vs. Richard Roe (or Department of Motor Vehicles), respondent, as the case may be. To the right of and opposite the title, the number of the proceeding, which shall be assigned consecutively by the executive director in the order of filing in petition and appeal proceedings. Numbers in protest proceedings shall be assigned consecutively by the executive director following receipt of a notice of appearance from the respondent and upon payment of all filing fees as required by section 553.40 of Title 13 of the California Code of Regulations. No number shall be assigned to more than one proceeding. Immediately below the number of the proceeding, the nature of the paper, e.g., "Request for Informal Mediation," "Petition," "Protest," "Answer," "Appeal," "Request for Hearing," "Petitioner's Opening Brief," etc. The first allegation of the petition shall state the name and address of the respondent and whether the respondent is the holder of or an applicant for an occupational license of the type issued by the Department of Motor Vehicles such that the respondent is subject to the jurisdiction of the board.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Sections 3050(c) and 3051, Vehicle Code.

HISTORY

1. Renumbering from Section 587 filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
2. Amendment and new NOTE filed 10-16-89; operative 11-15-89 (Register 89, No. 44).
3. Amendment filed 9-15-98; operative 10-15-98 (Register 98, No. 38).
4. Amendment filed 9-19-2000; operative 10-19-2000 (Register 2000, No. 38).
5. Amendment filed 2-4-2003; operative 3-6-2003 (Register 2003, No. 6).
6. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).
7. Change without regulatory effect amending section filed 5-31-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 596. Conformance of Copies.

All copies shall conform to the original filed.

HISTORY

1. Renumbering from Section 588 filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).

§ 597. Last Page.

Every paper shall be dated and signed. At the end of each paper, the date shall appear on the left of the center of the page. Petitions, answers

and appeals shall be subscribed by the party and by his or her attorney or agent, if he or she is represented. All other papers shall be subscribed by the party's attorney or agent, if he or she is represented, or by the party, if he or she appears in person. The signature shall appear at the end of the paper on the right hand side.

HISTORY

1. Renumbering from Section 589 filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
2. Change without regulatory effect amending section filed 5-31-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 22).

§ 598. Acceptance of Filing.

(a) A document which purports to be a protest pursuant to Vehicle Code section 3060, 3062, 3070, or 3072, which is received at the offices of the Board shall not be filed until the executive director has reviewed it for compliance with the Board's enabling statutes and Title 13, Subchapter 2 of the California Code of Regulations. If the executive director deems the document to comply, said document shall be filed. The executive director may reject any document that does not comply with the Board's enabling statutes and Title 13, Subchapter 2 of the California Code of Regulations.

(b) A protest accepted for filing by the executive director shall be recorded as filed as of the date it was received at the Board's offices or the date of certified or registered mailing.

(c) The executive director may, for good cause shown, accept for filing any papers that do not comply with the Board's enabling statutes and Title 13, Subchapter 2 of the California Code of Regulations. Good cause issues and challenges to the executive director's compliance determinations may be resolved by law and motion proceedings before an administrative law judge.

NOTE: Authority cited: Section 3050(a), Vehicle Code. Reference: Section 3014, Vehicle Code.

HISTORY

1. Renumbering from section 590 filed 7-19-74; effective thirtieth day thereafter (Register 74, No. 29).
2. Amendment and new NOTE filed 12-12-94; operative 12-12-94 pursuant to Government Code section 11346.2(d) (Register 94, No. 50).
3. Change without regulatory effect amending section filed 12-31-2003 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 1).

Article 7. New Motor Vehicle Board—Conflict of Interest Code

NOTE: It having been found, pursuant to Government Code Section 11344(a), that the printing of the regulations constituting the Conflict of Interest Code is impractical and these regulations being of limited and particular application, these regulations are not published in full in the California Code of Regulations. The regulations are available to the public for review or purchase at cost at the following locations:

NEW MOTOR VEHICLE BOARD
1507 - 21ST STREET, SUITE 330
SACRAMENTO, CALIFORNIA 95814

FAIR POLITICAL PRACTICES COMMISSION
428 J STREET, SUITE 620
SACRAMENTO, CALIFORNIA 95812-0807

ARCHIVES
SECRETARY OF STATE
1020 O STREET
SACRAMENTO, CALIFORNIA 95814

The Conflict of Interest Code is designated as Article 7 of Chapter 2 of Division 1 of Title 13 of the California Code of Regulations, and consists of sections numbered and titled as follows:

Article 7. New Motor Vehicle Board—Conflict of Interest Code

Section 599. General Provisions
Appendix A

NOTE: Authority cited: Sections 87300 and 87304, Government Code. Reference: Section 87300, et seq., Government Code.

HISTORY

1. New article 7 (sections 599–606) filed 4–13–78; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 9–8–77 (Register 78, No. 15).
2. Renumbering from sections 599–606 to sections 599–599.7 filed 8–11–78 as procedural and organizational; effective upon filing (Register 78, No. 32).
3. Repealer of article 7 (sections 599–599.7) and new article 7 (section 599 and Appendix) filed 2–26–81; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 12–1–80 (Register 81, No. 9).
4. Amendment of agency address filed 4–9–85; effective thirtieth day thereafter (Register 85, No. 15).
5. Change without regulatory effect amending NOTE filed 12–24–92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 52).
6. Amendment of general provisions, section and Appendix A filed 1–18–2002; operative 2–17–2002. Approved by Fair Political Practices Commission 11–30–2001 (Register 2002, No. 3).

Division 2. Department of the California Highway Patrol

Chapter 1. Licensed Stations and Muffler Installers

Article 1. Licensed Muffler Certification Stations

§ 600. Scope.

NOTE: Authority cited: Sections 2402 and 27150.2, Vehicle Code. Reference: Sections 2500–2504, 2540–2549, and 27150.2, Vehicle Code.

HISTORY

1. New Article 1 (Sections 600–608) filed 11–25–75; designated effective 1–1–77 (Register 75, No. 48). For prior history, see Register 72, No. 8.
2. Amendment of Subchapter title filed 3–27–78; designated effective 5–1–78 (Register 78, No. 13).
3. Order of Repeal filed 8–26–82 by OAL pursuant to Government Code Section 11349.7(j) (Register 82, No. 35).

§ 601. Definitions.

The following definitions shall apply when used in this article:

(a) **Licensed Muffler Certification Station.** A “licensed muffler certification station” is an automotive repair facility that meets all requirements of this article and is licensed and equipped to inspect, repair, replace, and certify vehicular exhaust systems.

(b) **Exhaust System.** An “exhaust system” consists of all pipes, converters, and chambers through which the exhaust gas flows from the engine exhaust ports to the end of the tailpipe.

NOTE: Authority cited: Section 27150.2, Vehicle Code. Reference: Sections 2500–2504 and 27150.2, Vehicle Code.

HISTORY

1. Amendment filed 6–16–77; designated effective 7–15–77 (Register 77, No. 25).
2. Amendment of subsection (b) filed 6–28–82; effective thirtieth day thereafter (Register 82, No. 27).

§ 602. General Requirements.

The following general requirements shall apply to licensed muffler certification stations:

(a) **Performance Standards.** Muffler certification stations shall maintain reputable business standards in the performance of work, and the premises shall be maintained in a clean and orderly condition.

(b) **Measurement Areas.** Sound level measurements for exhaust system noise certification shall be made only in areas meeting the requirements of this article.

(c) **Personnel.** The station owner or at least one full-time employee shall be knowledgeable of all regulations applicable to the licensing of muffler certification stations, exhaust noise certification limits, and exhaust system certification. If a station certifies exhaust systems by testing, the owner or employee shall be proficient in the calibration, use, and maintenance of noise measuring instruments. The licensee shall be accountable for the actions of his employees in installing and certifying exhaust systems and parts and shall be responsible for ensuring that untrained employees are not permitted to sign muffler certifications or clear enforcement documents. Trained personnel shall be capable of demonstrating their proficiency to departmental representatives whenever the station is inspected.

(d) **Fleet Owner Station.** Any station operated solely for servicing a licensee’s fleet of 10 or more motor vehicles shall certify the exhaust systems or clear enforcement documents only on the fleet vehicles owned or operated by the licensee.

§ 603. Licensing Procedures.

Muffler certification station licenses shall be issued in accordance with the following procedures:

(a) **Application for Initial or Renewed Station Licenses.** Persons, firms, or agencies shall submit requests for muffler certification station licenses on application forms furnished by the department. Licenses shall be issued only for stations meeting the requirements of this article, and station facilities may be inspected by a representative of the department.

(b) **License Fees.** Each initial, renewal, or duplicate license application shall be accompanied by the appropriate fee as follows:

- (1) Initial license, change of ownership, change of station class: \$10
- (2) Renewal license at same location: \$5
- (3) Duplicate of lost, destroyed, or mutilated license: \$2
- (4) Replacement license issued because of change of name or change in address due to street renumbering: no fee

(c) **Duplicate License.** In the event of loss, destruction, or mutilation of a muffler certification station license, application may be made for a duplicate license. If the original is found after a duplicate has been issued, the original license shall be surrendered to the department.

(d) **Replacement License.** In the event of change of name not involving change of ownership or address (other than that due to street renumbering), the license shall be returned to the department with application for a replacement license.

(e) **License Term.** A muffler certification station license shall expire one year after the date of issue shown on the license.

§ 604. Displays, Maintenance of Equipment, and Records.

Muffler certification stations shall comply with the following provisions governing display of documents, maintenance of equipment, and recordkeeping:

(a) **Display of Station License.** The license of a muffler certification station shall be prominently displayed under glazing material in the customer area of the station.

(b) **Display of Station Sign.** Each muffler certification station, except a fleet owner station that certifies only its own vehicles, shall display a muffler station sign meeting the specifications in Section 606 of this title. The sign shall be displayed where it is clearly visible from outside the station.

(c) **Posting of Prices.** Each muffler certification station, except a fleet owner station that certifies only its own vehicles, shall post conspicuously in the customer area the prices for issuing exhaust certifications and for clearing enforcement documents.

(d) **Care of Equipment.** All adjusting, servicing, and testing equipment shall be maintained in good condition, and instruments and equipment requiring calibration shall be kept in calibration or adjustment in accordance with the instructions and recommendations of the manufacturer.

HISTORY

1. Repealer of subsection (e) filed 6–16–77; designated effective 7–15–77 (Register 77, No. 25).

§ 605. Issuance, Cancellation, or Surrender of License.

The issuance, cancellation, or surrender of any license for a muffler certification station is subject to the following provisions:

(a) **Denial, Suspension, or Revocation of License.** The department may refuse to issue a license to any applicant or may suspend or revoke any license issued to a muffler certification station in accordance with Vehicle Code Sections 2540 through 2549.

(b) **Surrender of License.** A muffler certification station that no longer has trained personnel in its employ shall immediately cease to operate as a licensed station, shall remove or cover the muffler certification station sign, and unless it employs trained personnel within 60 days, shall surrender the station license to the department.

(c) **Return of Forms.** When a station license is surrendered, suspended, or revoked, all forms, bulletins, and supplies issued by the department shall be returned to the department, and the muffler certification station sign shall be removed from display.

§ 606. Muffler Certification Station Signs.

Signs for muffler certification stations, other than fleet owner stations certifying only their own vehicles, shall meet the following specifications:

(a) Dimensions. Signs shall have the dimensions shown in Figure 1.

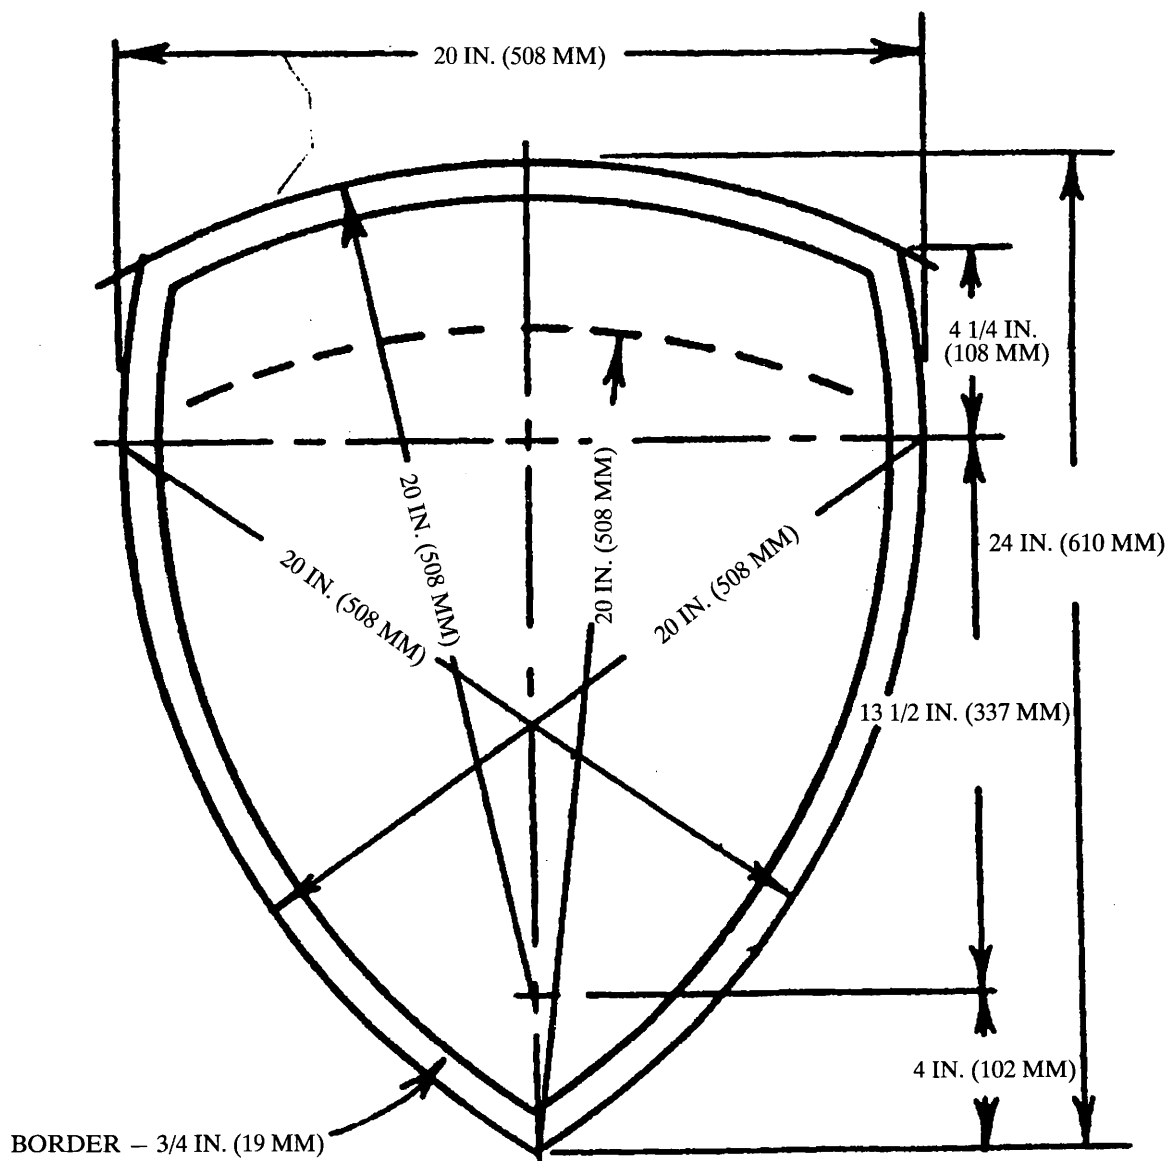

Figure 1. Dimensions for Signs for Muffler Certification Stations

(b) Color. Signs shall be bordered and lettered in light chrome yellow. The background shall be royal blue.

(c) Lettering. Lettering on the signs shall have the dimensions shown in Figure 2.

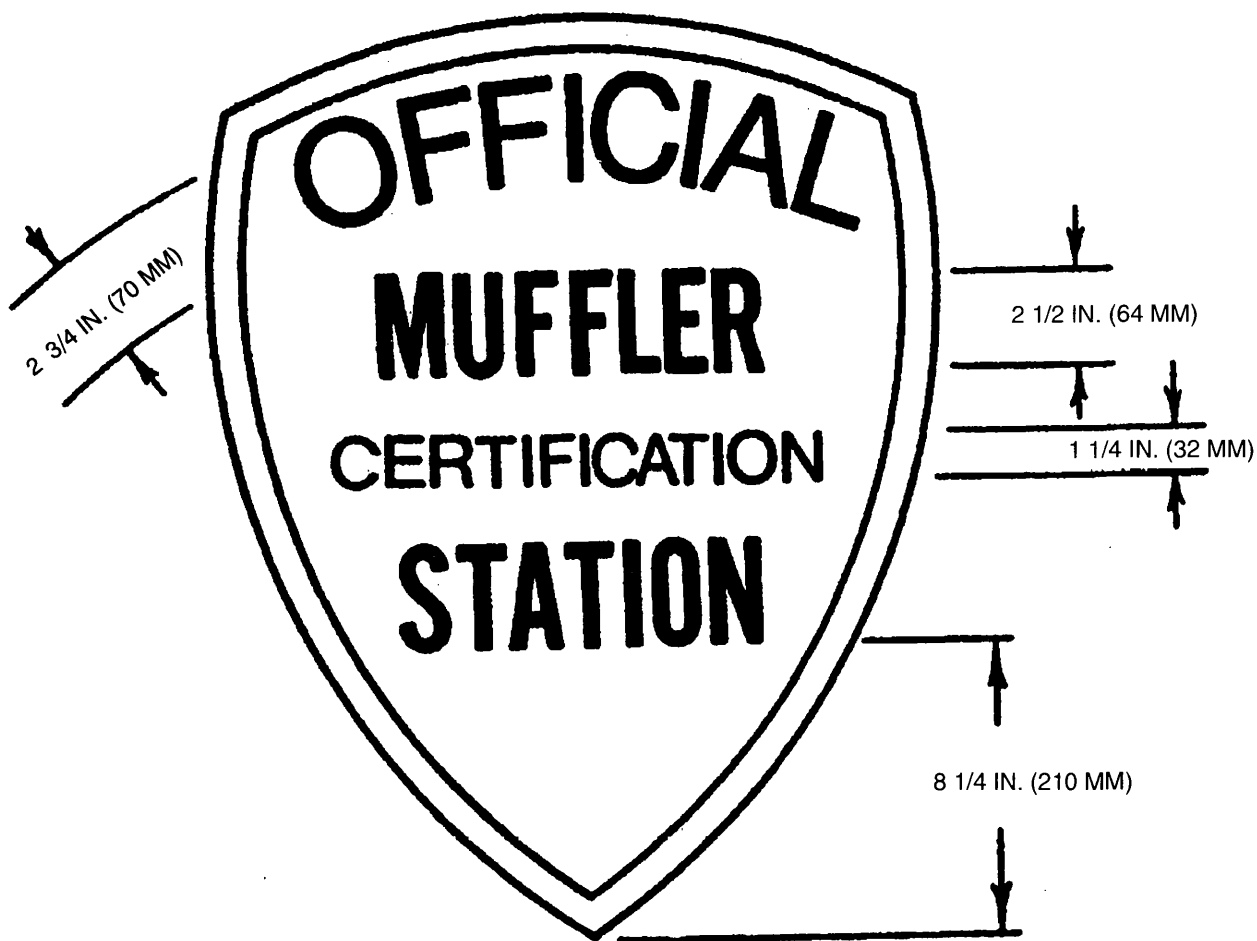

Figure 2. Dimensions for Sign Letters

§ 607. Classes of Muffler Certification Stations.

Muffler certification stations shall be licensed only for the vehicle category specified on the application in accordance with the classes following. Stations shall be licensed to certify systems on the basis of certified parts. A station may, in addition, be licensed to certify on the basis of sound level readings made by the station.

(a) Passenger Car Stations. Passenger car stations shall certify exhaust systems for all motor vehicles, other than motorcycles and motordriven cycles, with a gross vehicle weight rating of less than 6,000 lb (2,722 kg).

(b) Motorcycle Stations. Motorcycle stations shall certify exhaust systems for all motorcycles and motor-driven cycles (when exhaust system regulations are established for these vehicles).

(c) Truck Stations. Truck stations shall certify exhaust systems for all motor vehicles with a gross vehicle weight rating of 6,000 lb (2,722 kg) or more (when exhaust system regulations are established for these vehicles).

§ 608. Station Operation.

The operation of licensed muffler certification stations shall be subject to the following provisions:

(a) Tools and Instruments. Each station, in accordance with its classification, shall be equipped with the tools to test, inspect, and replace the exhaust system parts on vehicles regularly serviced by it. Stations that issue certificates on the basis of sound level readings shall be equipped with the sound measurement instrumentation specified in Section 1032 of this title. Stations not so equipped shall issue certificates only for systems or parts certified by the manufacturer of the system and installed by

the station.

(b) Maintenance of Publications. Each station shall maintain readily accessible and current copies of the following publications:

(1) Muffler certification publications furnished by the department to licensed stations.

(2) Instrument manufacturer's instruction manual and calibration procedure, if the station uses a sound level meter.

(3) Publications, documents, or other means of assuring that an installer can identify the exhaust system part to be installed and determine the make and model of vehicle or engine for which the part is certified. Such publications may include manufacturers' catalogs, certification documents from manufacturers, or other means which meet this requirement.

(c) Purchase of Exhaust System Certificates. Licensed stations shall purchase exhaust system certificates only from the department in books of 50 at a cost of \$.25 per certificate and shall not sell or otherwise transfer unused certificates.

(d) Inspection of Exhaust System. A licensed muffler station, before issuing an exhaust certificate, shall inspect the installed system to determine that it is assembled from parts certified for the particular make and model of vehicle. If the parts cannot be identified, or if uncertified parts are on the vehicle, a station licensed to use a sound level meter shall make sound level tests to determine compliance with the exhaust noise limit for the vehicle. When the original engine has been replaced by a different size engine, the certificate may be issued if the exhaust system is certified for use on any one of the vehicle models in which the engine was originally installed, or if the exhaust system complies with the sound level test limit.

(e) Issuance of Exhaust System Certificates. Licensed stations shall, upon request of the vehicle owner or operator, issue an exhaust system certificate when the exhaust system complies with the pertinent requirements of this title and is not significantly louder than the original muffler for that make and model of vehicle. An exhaust system shall be considered significantly louder than the original when it is obvious to a person with normal hearing that the system produces noise that stands out above that of most vehicles of the same make and model operated on the highway.

(1) The certificate shall be signed by the owner or employee who performed or supervised the work and who is knowledgeable of the exhaust system certification laws and regulations and proficient in determining compliance.

(2) The certificate shall show the manufacturer's or supplier's name and the part number of the components for which the certificate is issued.

(f) Clearance of Enforcement Document. After exhaust system defects stated in an enforcement document are corrected and the system is brought into compliance with the exhaust system laws and regulations, either the person specified in preceding subsection (e) or a peace officer may sign the document and certify that the exhaust system complies.

(1) Documents cleared by licensed stations shall contain the signature of the owner or employee who performed or supervised the work, the station's license number, and the date of correction, with all such entries made in ink.

(2) Failure of the owner or operator of the vehicle to authorize additional suggested repairs shall not be cause for the station to defer certification of correction of the specific defects listed on the enforcement document.

HISTORY

1. Amendment filed 6-16-77; designated effective 7-15-77 (Register 77, No. 25).

Article 2. Exhaust System Sale and Installation

§ 610. Scope.

NOTE: Authority cited: Sections 2402 and 27150.2, Vehicle Code. Reference: Sections 2500-2504, 27150.1, 27150.2 and 27150.5, Vehicle Code.

HISTORY

1. New Article 2 (Sections 610-613) filed 3-27-78; designated effective 5-1-78 (Register 78, No. 13).

2. Order of Repeal filed 8-26-82 by OAL pursuant to Government Code Section 11349.7(j) (Register 82, No. 35).

§ 611. Requirements for Certified Systems.

Persons engaged in a business that involves the selling of motor vehicle exhaust systems or parts shall sell, offer for sale, or install only certified systems or parts on the following year model vehicles after the specified operative dates:

(a) Passenger Cars and Light Trucks. Systems and parts for motor vehicles (other than motorcycles and motor-driven cycles) of less than 6,000 lb (2,722 kg) gross vehicle weight rating shall comply on and after the following dates:

Year Model	Operative Date
1973 and newer	January 1, 1977
1970 and newer	July 1, 1977
1968 and newer	January 1, 1978
1967 and older	January 1, 1979

(b) Motorcycles. (This subsection is reserved until exhaust system regulations are adopted for motorcycles.)

(c) Heavy Trucks. (This subsection is reserved until exhaust system regulations are adopted for trucks with a gross vehicle weight rating of (6,000 lb [2,722 kg] or more.)

§ 612. Sale.

No person engaged in a business that involves the selling of exhaust systems or parts shall sell or offer for sale an exhaust system or part that has not been certified by the exhaust system manufacturer or supplier in

accordance with Article 11 of this title, beginning with Section 1050. This provision applies only to such systems or parts to be used on vehicles specified in Section 611.

(a) Identification Markings. All sound-modifying exhaust system parts, such as mufflers, resonators, chambered pipes, flare tips, and taper tips, sold or offered for sale after the operative dates in Section 611 shall be marked as required in Section 1054 of this title.

(b) Parts Not Required to Be Marked or Certified. Catalytic converters, manifolds, and nonchambered exhaust, tail pipes and tail pipe extensions that do not increase the noise may be sold or installed by any person without being marked or separately certified.

§ 613. Installation.

Except as provided in the following subsections (a) and (b), no person engaged in a business that involves the selling of motor vehicle exhaust systems or parts shall sell or install on a vehicle specified in Section 611 an exhaust system or part that has not been certified for that make and model vehicle under Article 11 of this title, beginning with Section 1050. The installer shall ensure that the total exhaust noise is not significantly louder than that emitted by the exhaust system originally installed by the manufacturer on the vehicle. An exhaust system shall be considered significantly louder than the original when it is obvious to a person with normal hearing that the system produces noise that stands out above that of most vehicles of the same make and model operated on the highway.

(a) Installation on Vehicles for Which System Is Not Certified. A licensed muffler certification station having sound measuring equipment may install a certified system or part on a vehicle required to have a certified replacement system even though that system or part has not been certified for the particular make and model vehicle by the manufacturer, supplier, or seller. Such installation may be made only when the licensed station measures the sound level of the exhaust system and issues a certificate in accordance with the licensed station requirements in Article 1 of this title, beginning with Section 600.

(b) Installation on Vehicles Not Requiring Certified Replacement Systems. Any person may sell or install any certified systems or parts or uncertified systems or parts on vehicles not required by Section 611 of this title to have certified systems. Such installations shall include an adequate muffler, as required by Vehicle Code Section 27150, and shall not be a modification that increases the exhaust noise emitted by the vehicle as prohibited by Vehicle Code Section 27151.

Article 3. Fleet Owner Inspection and Maintenance Stations

§ 615. Scope.

This article shall apply to licenses enabling fleet owners to:

(a) Operate inspection and maintenance stations to certify their vehicles in compliance with applicable provisions of:

(1) This title

(2) The Vehicle Code

(3) U.S. Department of Transportation regulations if the vehicles are engaged in interstate commerce.

(b) Display official stickers on their vehicles as evidence of certification.

NOTE: Authority cited: Sections 2402, 2402.5, 2525.2, 2525.8, 2807, 2807.1, 2807.2, 2808, 31401, 31540, 34501, 34501.5, 34508, Vehicle Code and Section 39831, Education Code. Reference: Sections 2501, 2525, 2525.2, 2525.4, 2525.6, 2525.8, 2525.12, 2807, 2807.1, 2807.2, 2808, 31401, 31403, 31540, 34501, 34501.5, 34508, Vehicle Code and Section 39831, Education Code.

HISTORY

1. New Article 3 (Sections 615-619.1) filed 8-14-78; designated effective 9-18-78 (Register 78, No. 33).

§ 615.1. Definitions.

The following definitions shall apply for the purposes of this article:

(a) Fleet Owner. "Fleet owner" is a person who owns three or more vehicles of any type specified in Section 34500 of the Vehicle Code, who

is engaged in the transportation of persons or property, and who has his vehicles registered in California.

(b) Vehicle. A "vehicle" is one of a fleet of vehicles registered in California by a fleet owner.

(c) Fleet Owner Inspection and Maintenance Station. A "fleet owner inspection and maintenance station" is a facility located in California, operated by a fleet owner and licensed by the department to certify, in accordance with following subsection (d), that the vehicles inspected and maintained on its premises comply with all applicable requirements.

(d) Sticker. A "sticker" is a distinctive label issued by the department to fleet owners, who may affix it to a station-inspected vehicle to attest that the vehicle is regularly maintained in compliance with all applicable laws and regulations.

(e) Superintendent of Maintenance. A "superintendent of maintenance" is a regularly employed station supervisor of experience and demonstrated ability who is responsible for the inspection and maintenance of a fleet owner's vehicles. In his absence, the next ranking employee, if a journeyman truck mechanic, may assume the duties and responsibilities assigned by this article to the regular superintendent.

(f) Journeyman Truck Mechanic. A "journeyman truck mechanic" is an automotive mechanic who has completed an apprenticeship program approved by the Administration of Apprenticeship, Division of Apprenticeship Standards, California Department of Industrial Relations, or can attest to having equivalent work experience.

NOTE: Authority cited: Sections 2525.2 and 2525.8, Vehicle Code. Reference: Sections 2525-2525.12, Vehicle Code.

HISTORY

1. Amendment of subsection (c) filed 11-24-80; designated effective 1-1-81 (Register 80, No. 48).

§ 616. Qualifications for License.

Each fleet owner inspection and maintenance station shall be equipped to inspect, service, and repair vehicles and related components and equipment as required by laws and regulations related to the safe operation of such vehicles.

(a) Code Publications. Each station shall maintain readily accessible to the superintendent of maintenance at least one current copy of the California Vehicle Code; Chapter 2, Title 13, California Administrative Code; and if the fleet is engaged in interstate transportation, Title 49, Chapter 3, Parts 390 through 397 of the Code of Federal Regulations.

(b) Handbooks and Bulletins. Each station shall maintain in current status and available to the superintendent of maintenance all appropriate publications issued by the department and by manufacturers, including handbooks, bulletins, manuals, and instructions related to safe condition of vehicles, vehicle components, and auxiliary equipment.

(c) Personnel. At least one full-time journeyman truck mechanic, as defined in Section 615.1(f) of this title, shall be regularly employed in each station.

(d) Inspection and Maintenance Program. Systematic inspection and maintenance of vehicles, and records of such inspection and maintenance, shall comply with the provisions of applicable parts of Sections 1232 and 1234 of this title and, if vehicles are engaged in interstate transportation, the requirements of the United States Department of Transportation.

§ 617. Procedures for Licensing.

Fleet owner inspection and maintenance station licenses shall be issued in accordance with the following procedures:

(a) Qualified Applicant. Station licenses shall be issued only to a fleet owner, as defined in Section 615.1 of this title, and a separate license is required for each station.

(b) Application Forms and Fee. Fleet owners shall request station licenses on application forms furnished by the department. Each application shall be accompanied by the appropriate fee. Licenses must be renewed annually.

(c) Initial License or Change of Ownership—\$10 Fee. Licenses will be issued only for stations that meet all the qualifications prescribed in this article. "Change of ownership" means any change in legal ownership of the licensed business, including addition or deletion of a partner, trans-

fer of ownership between members of a family, or disposal of one business in favor of a similar business at a different location.

(d) Renewal of License—\$5 Fee. Application for annual renewal shall be made in accordance with the provisions of Sections 2501 and 2502 of the Vehicle Code.

(e) Duplicate License—\$2 Fee. If a station license is lost, destroyed, or mutilated, application may be made for a duplicate.

(f) Replacement License—No Charge. In the event of a change of address, the license shall be returned to the department with an application for a replacement. "Change of address" means any relocation of a licensed business not involving a change of ownership, and any change in the mailing address, including street renumbering.

NOTE: Authority cited: Section 2525.2, Vehicle Code. Reference: Sections 2525-2525.12, Vehicle Code.

HISTORY

1. Amendment of subsection (a) filed 11-24-80; designated effective 1-1-81 (Register 80, No. 48).

§ 618. Issuance, Cancellation, or Surrender of License.

The issuance, cancellation, or surrender of a fleet inspection and maintenance station license is subject to the following provisions:

(a) Denial, Suspension, or Revocation. The department may refuse to issue a station license to an applicant or may suspend or revoke a license in accordance with the provisions of Sections 2540 through 2548 of the Vehicle Code.

(b) Surrender of License. A station license shall be surrendered under the following conditions:

(1) A station that does not have a journeyman truck mechanic in its employ shall immediately cease to operate as an official station, and unless it employs a journeyman truck mechanic within 60 days, shall surrender the official station license to the department.

(2) Surrender of a license shall not deprive the department of jurisdiction from carrying out investigative or disciplinary proceedings against the licensee or rendering a decision suspending or revoking such license.

(c) Return of Forms. All forms, stickers, and supplies issued by the department shall be returned to the department when the official station license is surrendered, suspended, or revoked, or is allowed to expire. The purchase price of the stickers is not refundable.

NOTE: Authority cited: Section 2525.2, Vehicle Code. Reference: Sections 2525-2525.12 and 2540-2548, Vehicle Code.

HISTORY

1. Amendment of subsection (b) filed 11-24-80; designated effective 1-1-81 (Register 80, No. 48).

§ 619. Station Operation.

Operation of a fleet inspection and maintenance station shall be subject to the following requirements:

(a) Geographic Location. A fleet owner is required to obtain a separate license for each station he operates.

(b) Display of Station License. An official station license shall be placed under glass or other transparent cover prominently displayed in the station.

(c) Care of equipment. All adjusting, servicing, and testing equipment necessary to the safe operation of a vehicle shall be maintained in good condition and shall be kept in calibration or adjustment in accordance with manufacturer's instructions and recommendations.

(d) Clearance of Enforcement Documents. The superintendent of maintenance shall ensure that vehicle equipment and component defects indicated on an enforcement document are corrected, and shall certify on the document that the fleet owner's vehicle is clear of such violations. Certification shall include date of correction, station license number, and authorized signature.

(e) Vehicle Inspection Stickers. The acquisition and use of stickers by fleet owners shall be in accordance with the following:

(1) Stickers shall be purchased from the Department of the California Highway Patrol, Accounting Section, either by mail addressed to Post Office Box 942898, Sacramento, CA 94298-0001, or in person at 2555 First Avenue, Sacramento. Stickers cost 25 cents each. Payment in full is required at the time of purchase, and no portion is refundable.

(2) A licensed station shall not use, sell, transfer, or otherwise dispose of stickers except as permitted by this article, and reasonable security shall be instituted to prevent theft or misuse of stickers.

(3) At the direction of the superintendent of maintenance, stickers may be affixed only to vehicles belonging to the fleet of the owner and complying with all applicable equipment provisions of the California Vehicle Code; the California Code of Regulations; and if engaged in interstate transportation, Title 49, chapter 1, parts 390 through 397, Code of Federal Regulations.

(4) The month and year of affixing a sticker to a vehicle shall be shown by removing more than half of that month and year on the sticker. (See Figure 1.) A sticker is valid for one year following the earliest month and year deleted from the sticker.

Figure 1

(5) Stickers shall be affixed to vehicles only if brakes, components, and other mechanical equipment related to safe operation are in good working order.

(6) On motor vehicles, stickers shall be displayed in a 7-inch square in the right lower corner of the windshield farthest removed from the driver or on the right door as near as practical to the leading edge of the door immediately below the window.

(7) On trailing units (dollies excepted), stickers shall be applied on the right side near the front, where they will be plainly visible and protected from scuffing.

(8) On dollies, stickers shall be applied to the right side and center of the drawbar or other comparable location.

(9) On subsequent inspection of a vehicle the superseded sticker shall be removed or shall be covered by the new sticker.

(10) Each fleet station shall maintain a current register showing in sequential order the serial number of each sticker issued to it, month and year of affixing the sticker to a vehicle, and make, type, and license number of the vehicle.

(f) Disposal of Invalidated Inspection Stickers. Disposal of vehicle inspection stickers, which for any reason are no longer valid or current shall be subject to the following provisions:

(1) A sticker shall be removed from or otherwise obliterated on any vehicle that no longer constitutes a part of the fleet inspected and maintained at an official station.

(2) Unused stickers that are no longer current shall be destroyed and deleted from the sticker register; and the date and method of destruction shall be noted in the register.

NOTE: Authority cited: Sections 2525.2 and 2525.8, Vehicle Code. Reference: Sections 2525–2525.12, Vehicle Code.

HISTORY

1. Change without regulatory effect of subsection (e)(1) (Register 86, No. 48).
2. Change without regulatory effect of subsection (e)(3) filed 2–8–88; operative 3–9–88 (Register 88, No. 7).
3. Change without regulatory effect of Figure 1 pursuant to section 100, Title 1, California Code of Regulations filed 5–2–90; operative 5–2–90 (Register 90, No. 23).
4. Editorial correction of printing error (Register 91, No. 17).
5. Editorial correction of printing error (Register 91, No. 25).

§ 619.1. Inspection by Department.

Fleet owners shall permit authorized representatives of the department reasonable opportunity to enter their vehicle inspection and maintenance stations to inspect facilities, vehicles, and pertinent records and to determine compliance with these regulations.

NOTE: Authority cited: Section 2525.2, Vehicle Code. Reference: Sections 2525–2525.12, Vehicle Code.

HISTORY

1. Amendment filed 11–24–80; designated effective 1–1–81 (Register 80, No. 48).

Chapter 2. Lighting Equipment

Article 1. Lighting Equipment Subject to Regulation

§ 620. Scope of Subchapter.

This subchapter applies to vehicle lighting equipment defined in Vehicle Code Section 375 and subject to requirements established by the department under Vehicle Code Section 26103.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 21201, 21201.5, 24006, 24012, 24411, 24603, 24607, 25102.5, 25106, 25252.5, 26103, and 26104, Vehicle Code.

HISTORY

1. Repealer of former Subchapter 2 (Sections 620–828) and new Subchapter 2 (Sections 620–818) filed 5–29–80; designated effective 7–1–80 (Register 80, No. 22). For prior history, see Registers 67, No. 49; 68, Nos. 24 and 26; 69, Nos. 3, 16, 19, 27; 70, No. 27; 71, No. 12; 71, No. 49; 72, Nos. 15, 25, 33; 73, Nos. 22 and 47; 75, No. 42; 76, Nos. 42 and 48; 77, No. 8; and 78, No. 16.

§ 621. Federally Regulated Equipment.

Lighting equipment for which the department is authorized to establish requirements and for which there is a mandatory Federal Motor Vehicle Safety Standard (FMVSS) or Federal Consumer Product Safety Commission Regulation (CPSC) shall comply with the requirements in that standard or regulation. This provision applies not only to federally required original equipment devices and their replacements but also to additional devices of the same type that are not required by those standards but are regulated by the Vehicle Code. Such equipment shall be exempt from the requirements of this subchapter except for Section 625 of this Article and all of Articles 6 and 7. This provision applies to the following items:

Type of Equipment	CPSC No.	FMVSS No.
Bicycle reflectors, reflectorized pedals and reflectorized tires	Part 1512	—
Clearance lamps		108
Emergency reflex reflectors		125
Hazard warning flashers		108
Hazard warning switches		108
Headlamps		108
License plate lamps		108
Reflex reflectors		108
School bus warning lamp systems		108
Semiautomatic headlamp beam switching devices		108
Sidemarkers lamps		108
Stop lamps		108
Taillamps		108
Turn signal flashers		108
Turn signal lamps		108

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 21201, 21201.5, 24006, 24012, 24411, 24603, 24607, 25102.5, 25106, 25252.5, 26103, and 26104, Vehicle Code.

HISTORY

1. Amendment of first paragraph filed 2–8–2008; operative 3–9–2008 (Register 2008, No. 6).

§ 622. Equipment for Which There Is No Federal Regulation.

Lighting equipment for which the department is authorized to establish requirements and for which there is no federal standard or regulation shall comply with the requirements in this subchapter. This provision applies to the following equipment:

<i>Type of Equipment</i>	<i>Article</i>
Cornering lamps	10
Deceleration signal systems	11
Driving lamps	9
Fog lamps	9
Fog taillamps	12
Passing lamps	9
Reflex reflectors on front of vehicle	14
Replacement lenses	15
Reserve lighting and outage indicating systems	16
Running lamps	17
School bus sidelamps	18
School bus strobe lamp	23
Side turn signal lamps	19
Supplemental stop and turn signal lamps	19
Warning lamp flashers	21
Warning lamps	22

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006, 24012, 24411, 24603, 24607, 25102.5, 25106, 25257.7, 26103 and 26104, Vehicle Code.

HISTORY

1. Amendment filed 6–7–85; effective thirtieth day thereafter (Register 85, No. 23).
2. Amendment filed 3–8–91; operative 4–7–91 (Register 91, No. 15).

§ 623. Definitions.

The following definitions shall apply whenever the terms are used in this subchapter:

- (a) An “aftermarket lighting device” is an item that is sold or offered for sale for use on any vehicle and includes devices of which some of the production is original equipment on specific models.
- (b) “CHP” or “department” means the Department of the California Highway Patrol.
- (c) An “original equipment lighting device” is an item that is factory installed on new vehicles and includes identical devices sold or offered for sale solely as replacements for the originals.
- (d) A “sealed optical unit” is a lighting unit with the lens and reflector assembly permanently sealed to prevent the entrance of gas and moisture into the unit.
- (e) A “semisealed optical unit” is a lighting unit with a replaceable bulb and with the lens permanently sealed to the reflector.

NOTE: Authority and reference cited: Section 26103, Vehicle Code.

§ 624. Referenced Publications.

- (a) Consumer Product Safety Commission regulations for bicycle reflex reflectors, reflectorized pedals, and reflectorized tires may be obtained at the following address: Consumer Product Safety Commission, Washington, D.C. 20207.
 - (b) A complete set of the Federal Motor Vehicle Safety Standards may be purchased at the following address: U.S. Government Printing Office, Washington, D.C. 20402.
- Individual Federal Motor Vehicle Safety Standards may be obtained at the following address: National Highway Traffic Safety Administration, General Services Division, Room 5111C, Nassif Building, Washington, D.C. 20591.

- (c) The Society of Automotive Engineers Handbook, Supplement 34, “Lighting Equipment and Photometric Tests,” may be purchased at the following address: Society of Automotive Engineers, Inc., 400 Commonwealth Avenue, Warrendale, PA 15096.

NOTE: Authority and reference cited: Section 26103, Vehicle Code.

§ 625. Test Data.

Test data referred to in Vehicle Code Section 26104 for equipment subject to regulations established by the department under Vehicle Code Section 26103 shall include the following information:

- (a) The date of the test report.
- (b) The date tests were conducted.
- (c) The standard or regulation with which the device complies.
- (d) A description of the device.
- (e) The type of material used for each major component.
- (f) Data for plastic material used in optical parts.
- (g) Where reflex sheeting is used, the sheeting manufacturer’s designation for the particular material used in the device.
- (h) The bulb socket dimensions or a statement that the socket meets maximum and minimum bulb support gage requirements.
- (i) Trade number and quantity of bulbs used.
- (j) The voltage and current at which laboratory standard bulbs were operated to obtain rated mean spherical candlepower.
- (k) A list of the marks of identification, including size, location, and method of marking.
- (l) Photographs or halftone prints of the assembled and disassembled device.

(m) The actual results obtained for each test or measurement required by this title or by applicable sections of Federal Motor Vehicle Safety Standards, Federal Consumer Product Safety Commission regulations, and their referenced specifications. Words such as “complies,” “passed,” “less than,” or “more than” are not acceptable where minimum or maximum requirements are specified in measurable units, except for detailed dimensional checks of sealed lighting units and housings for such units checked by go–no–go gages.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

Article 2. Identification Markings

§ 630. Permanent Markings.

Each lens and housing shall be permanently and legibly marked with the manufacturer’s or vendor’s name, initials or lettered trademark, the model designation, and other specified markings. Lens markings need not be the same as housing markings. Markings shall be imprinted on a permanently attached nameplate, die–stamped, or molded in the locations specified in this title. In lieu of other methods of marking, gaseous discharge bulbs, flashers, and the backs of sealed optical units may be marked with indelible ink.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006 and 26103, Vehicle Code.

§ 631. Size of Markings.

Required markings and at least one letter of a lettered trademark shall be not less than 3.0 mm (0.12 in.) in height. Raised molded markings not less than 2.0 mm (0.08 in.) in height may be used on lenses with an area of less than 13 cm² (2 in.²) or on housings with a projected area less than 25 cm² (4 in.²). Indelible ink markings not less than 2.0 mm (0.08 in.) in height may be used on bulbs with a base diameter of less than 10.0 mm (0.40 in.).

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006 and 26103, Vehicle Code.

§ 632. Model Designation Markings.

All devices shall be marked with a model designation which differentiates one model from another unless they are identical except for right– and left–hand mounting, housing finish or material, number and type of bulbs or functions, or number of wiring connections to a switch. Warning lamps of the lightbar type, which are of the same design and construction

except for number and type of warning lamp or siren functions, may have the same model number provided they also have a permanently marked serial number either unique to each unit or coded to indicate the particular functions.

§ 633. Lens Markings.

Markings on the exterior lenses of lamps and reflex reflective devices and photoelectric detectors and on exterior filters or transparent covers shall be visible from the outside when the device is installed. When removal of the lens from the housing would destroy the device, either the housing or the lens may be marked if the markings differ from those previously used on any similar device.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006 and 26103, Vehicle Code.

§ 634. Sealed Optical Unit Markings.

Sealed and semisealed optical units shall be marked on the lens with the manufacturer's name, initials, or lettered trademark and model number. Such units for driving lamps, fog lamps, and passing lamps may have the model number marked on the lens, or indelibly inked or permanently molded on the back of the unit. The model designation of a sealed warning lamp optical unit not covered by a lens or filter shall be indelibly imprinted or molded on the lens so as to be visible and legible when the device is installed.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006 and 26103, Vehicle Code.

§ 635. Aftermarket Housing Markings.

Markings on the housing of an aftermarket lamp or reflective device shall be externally marked on the shell or other fixed part of the housing or shall be readily visible through the lens. Required markings may be placed on the door, grommet, bezel, or ornamental ring provided such part is so shaped or indexed to preclude its being installed on a housing of a different make or model. When removal of the lens from the housing would destroy the device, the housing is not required to be marked if the lens markings differ from those on any previously manufactured lens. External housing markings are not required on lamps which are packaged for sale in a disassembled condition and are marked so that the housing markings are visible when the lamp is installed on a vehicle and the lens is removed. Housings of separate control or power supply units (such as for reserve lighting and outage indicators or gaseous discharge warning lamps) shall be marked so as to be visible when the unit is installed on a vehicle.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006 and 26103, Vehicle Code.

§ 636. Original Equipment Housing Markings.

Markings on the housing of an original equipment lamp or reflex reflective device which is factory installed on a specific motor vehicle model shall be visible when the lens is disassembled from the housing or the device is disassembled from the vehicle. Markings on original equipment housings or mounting rings for a sealed optical unit shall be visible when the unit and ornamental trim are removed. When removal of the lens from the housing would destroy the device, the housing is not required to be marked. Housings of separate control or power supply units (such as for reserve lighting and outage indicators or gaseous discharge warning lamps) shall be marked so as to be visible when the unit is installed on a vehicle.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006 and 26103, Vehicle Code.

§ 637. Orientation Markings.

Aftermarket lamps and reflex reflectors shall be marked with the word "top" on both the exterior and interior of the housing to designate the proper mounting position, except as noted in the following subsections. The markings on the interior of the housing shall be die-stamped or molded and shall be located so as to be visible when the lens is removed.

(a) Rotated Devices. "Top" is not required on a device which meets the test requirements when it is rotated about its axis 90 and 180 deg.

(b) Housing. "Top" is not required on the housing if the lens is indexed in the housing in only one position and the word "top" is die-stamped or molded on the lens so as to be visible when the device is installed. "Top" is not required on the exterior of the housing when the interior is so marked and the lens must be removed to install the lamp on a vehicle.

(c) Sealed or Semisealed Optical Unit. "Top" is not required on the housing for any sealed or semisealed optical unit if the lens markings on the unit are right side up when the unit is in its design mounting position.

(d) Interior and Exterior. "Top" is not required on the interior of the housing if the exterior "top" marking is visible when the device is installed, nor on the exterior of the housing if the interior "top" marking is visible through the lens when the device is installed.

(e) Location. "Top" is not required at the top of the device if the word is inscribed elsewhere with an arrow pointing from "top" to the proper mounting position.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006, 24012, and 26103, Vehicle Code.

Article 3. Construction Requirements

§ 640. Lamp Construction.

Gaskets shall be constructed of durable material which will retain its shape and resiliency. Electrical wiring shall be protected from abrasion and sharp edges.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 641. Optic Indexing.

Lenses, interior reflectors, removable sockets, double-filament bulbs, and sealed and semisealed optical units shall be indexed into adjacent components to prevent rotation and misinstallation. Housings for sealed and semisealed optical units designed for mounting in either of two positions rotated 180 deg apart (such as fog lamps above or below a bumper) shall be indexed so the optical units are in their design position when the housing is mounted in either of the two positions. Indexing is not required for lenses that are symmetrical about the H-V axis.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 642. Bulbs.

Sealed optical units and bulbs shall meet the requirements appropriate to the type of unit or bulb in SAE J573g, December 1976; SAE J571d, June 1976; SAE J572a, January 1972; or SAE J760a, December 1974. Sealed optical units, semisealed optical units, and bulbs of a type not listed in these SAE editions may be used provided replacements are readily available to the user.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 643. Bulb Sockets.

Sockets for bulbs designed to comply with SAE J573g, December 1976, shall comply with SAE J567c, December 1970. Any auxiliary means employed for bulb retention and positioning in a tension socket must be of resilient construction.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 644. Translucent Housings.

Lamps with translucent housings shall not emit to the exterior of the vehicle more than 7.75 mcd/cm² (50 mcd/in.²) of any color other than that emitted through the lens. Where the lighted section is large enough to fill a circle of at least 6.45 cm² (1.00 in.²) the limit applies to the brightest location that completely fills this size circle.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 645. White Light to Rear.

White light which is emitted to the rear of a vehicle from the lens of any lamp other than a backup lamp shall not exceed 7.75 mcd/cm² (50 mcd/in.²) measured as described in Section 644.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 646. Lens Rotation and Displacement.

Movement of a sealed optical unit in its housing shall not exceed ± 5 deg rotation, measured about the axis of the unit from a vertical line passing through the top of the unit. Lamps with lenses that are not located in a firmly fixed position in the housing shall comply with the photometric requirements with the lens in any position to which it can be shifted.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 647. Plastic Materials.

Plastic materials shall meet the following requirements:

(a) Optical Parts. Plastic materials for optical parts of devices shall comply with SAE J576d, June 1976. Samples shall be tested either in the thickness specified in SAE J576d or in the minimum, maximum, and one intermediate thickness of the material as specified by the materials manufacturer.

(b) Dark Filters. Transparent material used for darkening the unlighted appearance of lamps shall meet the luminous transmittance and trichromatic coefficient requirements before and after the outdoor exposure test when used in conjunction with a colored filter that in combination meets the color requirements of SAE J578d, September 1978, before the exposure test.

(c) Substitution of Materials. When one of several distinctive types of plastic materials, such as polymethyl methacrylate, is acceptable under one manufacturer's designation, another material of the same type may be substituted under a different manufacturer's designation without a retest of the device in which it is used. Plastic materials of different types, such as butyrate and polymethyl methacrylate, shall not be substituted for one another unless the device containing such substitution is retested to meet the warpage and photometric test requirements.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 648. Housing for Optical Units.

Housing for sealed and semisealed optical units shall have mounting surfaces and retaining rings meeting the following requirements:

(a) Seating Areas. Seating areas on mounting rings or their equivalent shall be free of any burrs or projections that might cause unit breakage or improper seating for a distance of at least 32 mm (1.25 in.) on each side of the center of the locating notch.

(b) Retaining rings or similar devices for holding a unit in a housing shall provide rigid retention of a unit of minimum design flange thickness.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 4. Photometric Requirements

§ 650. Terminology.

The letters "H" and "V" shown in photometric tables designate the horizontal and vertical planes through the photometer axis and the center of the light source of a lamp or the center of a reflex reflector. The letters "L," "R," "U," and "D" (left, right, up, and down) designate the position of the photometer as viewed from a lamp or the position of the light source as viewed from a reflector.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 651. Test Distance.

The photometer shall be at a distance of 30.5 m (100 ft) from the center of the light source or the face of the reflex reflector unless a referenced standard specifies otherwise.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 652. Color Correction of Photometer.

Photometric tests shall be conducted with equipment corrected to the standard special luminous efficiency curve and calibrated for the color of the light being measured.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 653. Bulb Operating Conditions.

Bulbs with a mean spherical candela rating shall be operated at mean spherical candela for photometric tests. Bulbs and sealed units rated in watts shall be operated at design voltage for the photometric tests. Lamps designed for use in both 6-V and 12-V systems shall be tested with 12-V bulbs. Lamps designed for 24-V systems shall be tested with 24-V bulbs.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 12-17-81; effective thirtieth day thereafter (Register 81, No. 51.)

§ 654. Out-of-Focus Tests.

Tests of nonsealed or semisealed units for driving and passing lamps shall be made in each of four out-of-focus filament positions. Where conventional bulbs with two-pin bayonet bases are used, photometric tests shall be made with the light source 1.52 mm (0.060 in.) above, below, ahead, and behind the design position. If prefocused or halogen H1, H2, H3, or H4 bulbs are used, the limiting positions at which tests are made shall be 0.51 mm (0.020 in.) above, below, ahead and behind the design position. The lamp may be reaimed for each out-of-focus position of the light source. The minimum requirements for the out-of-focus positions shall be 80% of those specified for the design position; the maximum requirements shall be the same as for the design position.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 6-12-95; operative 7-12-95 (Register 95, No. 24).

§ 655. Candela Requirements.

Candela or candela-second requirements between test points in any photometric table in this subchapter shall be the lower of the specified minimums for the two closest adjacent test points on a horizontal or vertical line.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 656. Color Requirements.

In this title, "yellow" has the same meaning as "amber" in the Vehicle Code. The color of light emitted by lamps and reflectors governed by this subchapter shall meet SAE J578d, September 1978. The color shall be the average overall color emitted by lamps operated at design voltage, regardless of light source, and by reflex reflectors illuminated by a tungsten-filament source operated at a color temperature of 2856 K. Where the color for a type of device is not mentioned in this subchapter, the color shall be either white, yellow, white to yellow, red, or blue as specified in the Vehicle Code for that type of device. Where blue is specified, it shall be within the limits for signal blue in Section 2.5.2 of SAE J578d. Colors specified for pilot indicators need not be within these limits.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 657. Mounting of Devices for Photometric Tests.

Original equipment devices with nonadjustable housings shall be mounted for the photometric test at the same angles at which they are mounted on the vehicle. Aftermarket devices with nonadjustable housings shall be mounted with the base on a horizontal or vertical surface, whichever is appropriate, unless different mounting instructions are included with each device offered for sale.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 5. Mechanical Test Requirements

§ 660. Applicability.

Devices shall comply with the following mechanical tests where so specified for a particular type of device.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 661. Aiming Adjustment Test.

Housings for sealed and semisealed optical units, and complete assemblies for roadlighting equipment, such as driving, fog, and passing lamps, shall comply with the following aiming adjustment requirements:

(a) Adjustment Range. The range of adjustment from the specified aim for the lamp shall be at least ± 4 deg in both the vertical and horizontal directions. Fog lamps designed as original equipment for a specific vehicle model need have the specified range of adjustment in the vertical direction only.

(b) Aiming Deviation. The vertical aim of lamps with independent vertical and horizontal aiming adjustment shall not deviate more than a total of 10 cm (4.0 in.) at a distance of 7.6 m (25 ft) from the lens, when the horizontal aim is adjusted through an angle of ± 4 deg from the correct aim specified in this title. The same requirement shall apply to deviation of horizontal aim when the vertical aim is adjusted. Original equipment fog lamps with only a vertical aim adjustment shall not exceed the specified horizontal deviation when the vertical aim is adjusted through the required angle. This requirement does not apply to ball-and-socket or equivalent adjusting means.

(c) Self-Locking Device. Self-locking devices which hold aiming screws in position shall operate satisfactorily for 10 adjustments on each screw over a thread length of 3.0 mm (0.12 in.) inward to outward from the correct aim. This requirement does not apply to ball-and-socket or equivalent adjusting means.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment of subsections (a) and (b) filed 12-17-81; effective thirtieth day thereafter (Register 81, No. 51).

§ 662. Corrosion Test.

The device shall show no evidence of corrosion that would affect the proper functioning of the device when tested in accordance with Section 4.4 of SAE J575g, September 1977.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 663. Dust Test.

The device shall have no visible inside dust that results in more than a 10% reduction in maximum intensity with the outer surface cleaned as compared to the intensity after both the outer and inner surfaces are cleaned after the device is tested in accordance with Section 4.3 of SAE J575g, September 1977.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 664. Lens Recession Test.

The lamp body or housing, including the aiming mechanism, when subjected to an inward force of 222 N (50 lb) directed parallel to the lamp axis and symmetrically about the center of the lens, shall meet the following requirements:

(a) Permanent Recession. The lens or sealed unit shall not permanently recede by more than 2.5 mm (0.10 in.).

(b) Permanent Aim Deviation. The aim of the lamp shall not permanently deviate by more than 32 mm (1.25 in.) at a distance of 7.6 m (25 ft).

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 665. Moisture Test.

The device shall not accumulate more than 2 cm^3 of moisture when tested in accordance with Section 4.2 of SAE J575g, September 1977.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 666. Vibration Test.

The device, when tested in accordance with Section 4.1 of SAE J575g, September 1977, shall show no rotation, displacement, cracking, or rupture of parts which would result in failure of the photometric test or any other test in this article pertaining to the device, nor shall there be any cracking or rupture of parts affecting the mounting of the device. Failure of internal components of any bulb or sealed unit used in the device shall not constitute a failure unless caused by striking parts of the housing. The device shall be mounted on a stand that represents the method and position used for mounting on a vehicle. Instead of the Section 4.1 of SAE J575g, September 1977 test, devices may be tested in accordance with Section 4.1 of SAE J575f, April 1975.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 12-17-81; effective thirtieth day thereafter (Register 81, No. 51).

§ 667. Warpage Test.

Lighting equipment with plastic lenses, reflectors or housings shall be subjected to warpage tests on separate samples as follows:

(a) Devices with a light source shall be mounted in normal operating position and operated at rated voltage in a circulating air cabinet for 1 h at $49 \pm 2.8 \text{ C}$ ($120 \pm 5 \text{ F}$). Each device shall be operated during the test in the same manner as it will be operated in service. A cornering lap function shall be cycled 3 min on and 12 min off throughout the test.

(b) Reflex reflectors without a light source shall be mounted in normal position in a circulating air cabinet for 2 h at $74 + 0, - 2.8^\circ \text{ C}$ ($165 + 0, - 5^\circ \text{ F}$).

(c) At the conclusion of each test, there shall be no evidence of lens, reflector, or housing warpage that would affect the proper functioning of the device.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, and 26103, Vehicle Code.

§ 670. Scope.

This article applies to the aim of lighting equipment for which the aim is not specified in the Vehicle Code.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 671. General Lighting Equipment.

Lighting equipment other than that specified in the following sections of this article shall be aimed so the center of the beam produced by the major filament is parallel to the road and projects directly to the front, side, or rear, depending on mounting location. Adjustable warning lamps in movable spotlight type housings shall be aimed in the direction selected by the vehicle driver to provide adequate warning to other traffic.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 672. Aimable Roadlighting Devices.

Roadlighting devices with aiming adjustment features shall, when equipped with aiming pads and aimed mechanically, be set at 0-0 with a mechanical aimer meeting SAE J602c, December 1974. Roadlighting devices visually aimed, shall be aimed as specified in the following sections of this article on a vertical aiming screen at a distance of 7.6 m (25 ft) from the front of the lens surface or with an optical aimer meeting SAE J600a, March 1965, with the aiming line on the screen adjusted to the level of the surface upon which the vehicle stands. The lamps shall be aimed with only the driver in the vehicle, except that lamps on vehicles which normally carry a load should be aimed with the vehicle so loaded. Enforcement agencies that inspect vehicles may establish aiming tolerances to allow for variations in inspection procedures and in vehicle loading.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 2103, Vehicle Code.

§ 673. Cornering Lamps.

Cornering lamps with means for adjusting the aim shall be aimed horizontally so the center of the high intensity portion of the beam is within 40 to 50 deg from the longitudinal axis of the vehicle toward the front. The vertical aim shall be with the center of the high intensity zone 25 to 35 cm (10 to 14 in.) below the level of the lamp center. Cornering lamps without aiming mechanisms shall be mounted in a fixed position on the vehicle in accordance with the manufacturer's instructions.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 674. Driving Lamps.

Driving lamps shall be aimed with the center of the high intensity zone on a vertical line straight ahead of the lamp center and 5 cm (2 in.) below the level of the lamp center.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 675. Fog Lamps.

Fog lamps shall be aimed with the center of the high intensity zone on a vertical line straight ahead of the lamp center and with the top edge of the beam 10 cm (4 in.) below the level of the lamp center.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 676. Headlamps, Single Filament.

Single-filament upper beam sealed beam headlamp units shall be aimed with the center of the high intensity zone on a vertical line straight ahead of the lamp center and 5 cm (2 in.) below the level of the lamp center.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 677. Headlamps, Double Filament.

Double-filament sealed beam headlamp units shall be aimed on low beam with the left edge of the high intensity zone on a vertical line straight ahead of the lamp center and with the top edge of the high intensity zone at the level of the lamp center.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 678. Motorcycle Headlamps.

Motorcycle headlamps shall be aimed on the upper beam as specified for single-filament units in Section 676, with the vehicle upright and the wheels facing straight ahead. As an alternative, motorcycle headlamps with a well-defined lower beam may be aimed on the lower beam as specified for double-filament units in Section 677, with the vehicle upright and the front wheel facing straight ahead.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 679. Motor-Driven Cycle Headlamps.

Motor-driven cycle headlamps shall be aimed with the vehicle upright and the front wheels facing straight ahead in accordance with the following requirements:

(a) Multiple Beam Headlamps. Multiple beam headlamps shall be aimed as specified for motorcycle headlamps.

(b) Single Beam Headlamps. Single beam headlamps shall be aimed with the center of the high intensity zone on a vertical line straight ahead of the lamp center and with the top edge of the high intensity zone at the level of the lamp center.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 680. Passing Lamps.

Passing lamps shall be aimed with the top edge of the high intensity zone at the level of the lamp center and with the left edge of the high intensity zone 13 cm (5 in.) to the left of a vertical line straight ahead of the lamp center.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 681. School Bus Sidelamps.

School bus sidelamps shall be aimed so the center of the high intensity portion of the beam is straight to the side of the bus and at the same height as the lamp center.

NOTE: Authority cited: Sections 25102.5 and 26103, Vehicle Code. Reference: Sections 24012, 25102.5, and 26103, Vehicle Code.

HISTORY

1. Editorial correction of NOTE (Register 81, No. 44).

§ 682. School Bus Warning Lamps.

School bus warning lamps shall be aimed to comply with the following requirements:

(a) Visual Aim. When aimed visually by means of an aiming screen or optical aiming machine, the lamps shall have the center of the high intensity zone on a vertical line straight ahead of the lamp center and on a horizontal line not higher than the level of the lamp center nor lower than 10 cm (4 in.) below this level.

(b) Mechanical Aim. When aimed with a mechanical aiming machine, warning lamps with three mechanical aiming pads on the lenses shall be between 0 and 4 down on the up and down scale and at 0 on the left and right scale of the aimer.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 7. Mounting Requirements**§ 685. Installation and Maintenance.**

Lighting equipment shall be securely mounted on a rigid part of the vehicle to prevent noticeable vibration of the beam and shall be maintained with the proper aim when the vehicle is stationary and in motion. No lighting device, unless otherwise permitted, shall be mounted so any portion of the vehicle, load, or vehicle equipment interferes with the distribution of light or decreases its intensity within the photometric test angles unless an additional device is installed so the combination of the two meets these requirements. Mounting heights shall be measured from the center of the lamp or reflector to the level surface upon which the vehicle stands when it is without load.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 686. Mounting of Aftermarket Devices.

Aftermarket lamps, with orientation markings such as "top" shall be mounted in accordance with the markings. Sealed and semisealed optical units shall be installed with the lettering on the lens face right side up. Front and rear reflex reflectors shall be securely mounted on a rigid part of the vehicle with the plane of the lens perpendicular to the roadway and parallel to the rear axle. Side reflex reflectors shall be mounted with the lens face perpendicular to the roadway and parallel to the rear wheels. Aftermarket devices with nonadjustable housings shall be mounted with the base on a horizontal or vertical surface, whichever is appropriate, unless different mounting instructions are included with such devices when offered for sale.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 687. Mounting of Original Equipment Devices.

Original equipment lamps and reflex reflectors designed for a particular make of vehicle and installed on another vehicle shall be mounted at the same angle as on the vehicle for which they were designed. They need not be mounted at the same height or lateral spacing as on the original vehicle but must comply with the appropriate height and location limitations in this title and the Vehicle Code.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 688. Clearance and Sidemarker Lamps.

(a) Mounting. Clearance lamps, sidemarker lamps, and combination clearance and sidemarker lamps shall be mounted as specified in FMVSS 108, except for combination clearance and sidemarker lamps on pole or pipe dollies or logging dollies which shall be mounted as required by Vehicle Code Section 25100.

(b) Exceptions. On vehicles manufactured prior to July 1, 1980, clearance lamps need not be visible at the inboard angles, and clearance and sidemarker lamps need not comply with the mounting height requirements in FMVSS 108.

(c) Specialized Lamps. Specialized combination lamps designed to be mounted with the base at angles other than 0 deg, 45 deg, or 90 deg from the longitudinal axis of the vehicle shall be installed in accordance with the manufacturer's instructions.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 689. Cornering Lamps.

Cornering lamps shall be mounted on the front of the vehicle near the side or on the side near the front and not lower than 30 cm (12 in.) nor higher than 76 cm (30 in.).

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 690. Deceleration Lamps.

Deceleration lamps shall be mounted on the rear of the vehicle on or adjacent to the centerline of the vehicle at a height not lower than 38 cm (15 in.).

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 690.5. Driving Lamps.

Driving lamps shall be connected to the upper beam headlamp circuit so the beam changing switch will turn the lamps off when the headlamps are switched to low beam. A separate switch shall be provided to disconnect driving lamps when not in use.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 691. Fog Lamps.

Foglamps shall be mounted so the inner edge of the lens retaining ring is no closer than 10 cm (4 in.), or as specified by FMVSS 108 in effect at the time of vehicle manufacture, to the optical center of the front turn signal lamp.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 24403 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 6-18-92; operative 7-20-92 (Register 92, No. 25).
2. Amendment filed 2-8-2008; operative 3-9-2008 (Register 2008, No. 6).

§ 692. Headlamps.

Headlamps shall be mounted as specified in FMVSS 108 and as follows:

(a) Spacing. Headlamp units installed after November 15, 1975, shall not be closer to the centerline of the vehicle than 30 cm (12 in.) measured from the center of the lens, except on motorcycles and motorized bicycles.

(b) Covers. No grille, transparent lens cover, or any other obstruction shall be in front of the headlamp lens on vehicles manufactured and first registered in California after January 1, 1968, except for headlamp concealment devices meeting FMVSS 112 that automatically move out of the way when the headlamps are turned on. Transparent lens covers are permitted in front of the headlamps of motorcycles originally equipped with such transparent covers, if the covers do not affect compliance of the headlamps with FMVSS 108.

(c) Aiming Obstructions. Headlamps on vehicles other than motorcycles shall be mounted so the plane of the aiming pads is not more than 24 cm (9.5 in.) behind the front of the vehicle for 146-mm (5 3/4-in.) headlamps and not more than 26 cm (10.2 in.) for all other headlamps in the area necessary for horizontal aiming with mechanical aiming machines. This requirement may be complied with by use of movable hood or grille components that can be opened without tools or removal of any part of the vehicle. This subsection does not apply to headlamps on authorized emergency vehicles operated by law enforcement agencies.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment of subsection (b) filed 10-15-91; operative 11-14-91 (Register 92, No. 6).

§ 693. Passing Lamps.

Passing lamps shall be mounted so the inner edge of the lens retaining ring is no closer than 10 cm (4 in.), or as specified by FMVSS 108 in effect at the time of vehicle manufacture, to the optical center of the front turn signal lamp. The lamps shall be connected to either or both the upper and lower headlamp beam circuits. A separate switch shall be provided to disconnect passing lamps not in use.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 2-8-2008; operative 3-9-2008 (Register 2008, No. 6).

§ 694. Running Lamps.

Running lamps shall be mounted with one lamp at each side on the front not lower than 38 cm (15 in.) nor higher than 107 cm (42 in.). Running lamps shall be connected to turn off automatically when the headlamps are turned on. A separate switch shall be provided to turn off the running lamps any time their use is not desired during daytime.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 695. School Bus Sidelamps.

School bus sidelamps shall be installed as follows:

(a) Location. Two lamps shall be installed on each side, one toward the front and one toward the rear, with the front sidelamp as near as practicable to the front wheel. A third lamp may be installed near the center on buses 9.1 m (30 ft) or more in length.

(b) Spacing. Lamps on each side shall be as far apart as practicable and no closer together than 183 cm (72 in.).

(c) Height. All lamps on one side shall be at the same level, not lower than 61 cm (24 in.) nor higher than 107 cm (42 in.).

(d) Width. The lamps shall be installed so as not to exceed a total vehicle width of 2.44 m (96 in.). Installations that cause buses less than 2.03 m (80 in.) wide to equal or exceed 2.03 m (80 in.) will make necessary the installation of clearance and sidemarker lamps.

(e) Pilot Indicator. The system shall have an amber pilot indicator that is visible to the bus driver in his normal driving position and that is lighted when the sidelamps are lighted.

NOTE: Authority cited: Sections 25102.5 and 26103, Vehicle Code. Reference: Sections 24012, 25102.5, and 26103, Vehicle Code.

§ 695.5. School Bus Strobe Lamp.

School bus strobe lamps shall be installed as follows:

(a) Location. The lamp shall be installed on the rooftop at or behind the center of the roof and equidistant from each side.

(b) Height. The top of the light-generating element inside the lamp shall not extend above the rooftop more than 1/20th of its horizontal distance from the rear of the bus. For the purpose of this section, the rear of the bus is defined as the vertical plane in contact with the rear most portion of the body. If a bus is equipped with roof mounted school bus signs or other vertical obstructions, the light-generating element may extend above the level of the signs or obstructions not to exceed 1/20th of its distance from the rear of the bus. In no case shall strobe lamps be mounted so as to exceed the maximum height limits specified in Vehicle Code Section 35250.

(c) Mounting. The vertical axis of the lamp shall be installed perpendicular to the surface of the road.

(d) Switch and Pilot Indicator. The lamp shall be activated by a manual switch labeled with the word "strobeltamp," "strobe lamp," "strobe light," "strobe," or some other readily understood term which clearly and unambiguously identified the strobe light function and distinguishes it from other warning lamps and devices with which the vehicle is equipped, and independent of all other switches. In addition, the system shall have a nonglaring amber or white pilot indicator that is clearly visible to the driver and that is lighted whenever the strobe lamp is lighted.

NOTE: Authority cited: Sections 25257.7 and 26103, Vehicle Code. Reference: Sections 24012, 25257.7 and 26103, Vehicle Code.

HISTORY

1. New section filed 3-8-91; operative 4-7-91 (Register 91, No. 15).
2. Editorial correction of NOTE (Register 91, No. 31).
3. Amendment of subsection (b) filed 9-16-94; operative 10-17-94 (Register 94, No. 37).
4. Amendment of subsection (d) filed 12-5-2000; operative 1-4-2001 (Register 2000, No. 49).

§ 696. School Bus Warning Lamps.

(a) Number of Lamps and Required Locations. Four warning lamps are required on each school bus. Two alternately flashing lamps shall be rigidly mounted on the front, one at each side, at the same height above the top of the windshield; and two alternately flashing lamps shall be rigidly mounted on the rear, one at each side, at the same height, with the bottom edge of each lens not lower than the top line of the side window openings. A panel shall be installed to serve as a background for warning lamps that extend above the top of a school bus.

(b) Operating Switches. School bus warning lamp switches operated manually by the driver shall be located within easy reach of the driver's position.

(c) Pilot Indicator. A bright visible flashing signal not less than 12.7 mm (0.5 in.) in diameter shall be included in the circuit to give a clear and unmistakable indication to the driver when the warning signals are turned on. The indicator shall not be obscured from the driver's view by any part of the vehicle.

(d) Spacing and Visibility. Front and rear warning lamps shall be spaced as far apart laterally as is practicable, and in no case shall the distance between lamps be less than 100 cm (39 in.). Visibility of front and rear warning lamps shall be unobstructed by any part of the vehicle from 5 deg above to 10 deg below horizontal and from 30 deg to the right to 30 deg to the left of the center line of the lamps.

(e) Warning Lamp Installation Dates. Warning lamps installed on school buses after 1965 shall be red Class C warning lamps. Those installed before 1966 and meeting requirements in effect at time of installation may continue to be used on the school buses on which they were installed.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 25257 and 26103, Vehicle Code.

HISTORY

1. Repealer of subsection (f) filed 4-2-81; effective thirtieth day thereafter (Register 81, No. 14).
2. Amendment of subsection (b) and NOTE filed 9-6-95; operative 10-6-95 (Register 95, No. 36).

§ 697. Side-Mounted Turn Signal Lamps.

Side-mounted turn signal lamps permitted by Section 24953(b) of the Vehicle Code and defined by Section 791 of this title shall be mounted on either or both sides of the vehicle not lower than 50 cm (20 in.) nor higher than 183 cm (72 in.) with the lens facing the side and projecting beyond the body of the vehicle.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 24953 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 4-5-83; effective thirtieth day thereafter (Register 83, No. 15).

§ 698. Supplemental Signal Lamps.

(a) Supplemental combination stop and turn signal lamps permitted by Section 24603(g) of the Vehicle Code and supplemental rear turn signal lamps permitted by Section 24953(c) of the Vehicle Code and defined by Section 791 of this title shall be mounted near either or both sides of the vehicle facing the rear.

(b) Supplemental stop lamps shall be mounted near the side of the vehicle or on or near the vertical centerline of the vehicle.

(c) When more than one lamp is mounted on the rear of the vehicle, the lamps shall be at the same height and equally spaced from the vertical centerline of the vehicle.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 24603, 24953 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 4-5-83; effective thirtieth day thereafter (Register 83, No. 15).

§ 699. Turn Signal Lamps.

Turn signal lamps shall be mounted and operated as follows:

(a) Motor Vehicles. Turn signal systems on motor vehicles shall consist of at least two single-faced or double-faced turn signal lamps on or near the front and at least two single-faced turn signal lamps on the rear. Double-faced turn signal lamps shall be mounted ahead of the center of the steering wheel or the center of the outside rearview mirror, whichever is rearmost. A truck-tractor or a truck chassis without body or load may be equipped with one double-faced turn signal lamp on each side in lieu of the four separate lamps otherwise required on a motor vehicle. Front and rear turn signal lamps on motorcycles shall be at least 23 cm (9 in.) apart, except that front turn signals on motorcycles manufactured after January 1, 1973, shall be at least 40 cm (16 in.) apart. Turn signal lamps on other vehicles shall be spaced as far apart as practical. The optical axis of the front turn signal lamp shall be at least 10 cm (4 in.), or as specified by FMVSS 108 in effect at the time of vehicle manufacture, from the inside diameter of the retaining ring of the lower beam headlamp unit, fog lamp unit or passing lamp unit. Additional turn signal lamps may be mounted closer than the 10 cm (4 in.) dimension provided the primary lamps equal or exceed that distance. Original equipment turn signals that emit two and one-half times the minimum candela requirements may be closer.

(b) Towed Vehicles. The rearmost vehicle in a combination of vehicles shall be equipped with at least two single-faced turn signal lamps on the rear. The signal system on a combination of vehicles towed by a motor vehicle equipped with double-faced front turn signal lamps may be connected so only the double-faced turn signal lamps on the towing vehicle and the signal lamps on the rear of the rearmost vehicle are operative. Towed vehicles not required to be equipped with turn signals by Vehicle Code Section 24951(b) shall be equipped with rear turn signal lamps when turn signal lamps are required or used in lieu of hand and arm signals under Vehicle Code Section 22110. Such lamps are not required on the following vehicles when the rear signal lamps on the preceding vehicle in the combination can be seen by a following driver from straight to the rear of the lamp to 45 deg outboard:

Vehicles with a gross weight of less than 2722 kg (6,000 lb)
 Special mobile equipment
 Pole and pipe dollies
 Logging dollies
 Auxiliary dollies

(c) Operation. Turn signal lamps visible to approaching or following drivers shall flash in unison, except that a turn signal consisting of two or more units mounted horizontally may flash in sequence from inboard to outboard. The lamps may be either extinguished simultaneously or lighted simultaneously. Turn signal lamps shall flash at a rate of 60 to 120 flashes per minute.

(d) Pilot Indicator. An effective visual signal operating at the same rate as the turn signal flasher shall be incorporated in the circuit to give clear and unmistakable indication to the driver that the turn signal lamps are turned on. Failure of one or more turn signals to operate shall be indicated by a steady-on, steady-off, or significant change in the flashing rate of the illuminated indicator, except on combinations of vehicles using a variable load flasher.

(e) Visibility. Lamps shall be mounted so the signal light from at least one lamp on each side is visible from directly to the front or rear within a 45-deg outboard angle on its side of the vehicle. Within these angles, no part of the vehicle or load shall obstruct the lamp from the view of another driver. On combinations of vehicles, rear turn signal lamps on other than the rearmost vehicle shall be mounted so that at least one lamp at each side is not obstructed by any towed vehicle within angles of 10 to 45 deg on its side of the vehicle.

(f) Mounting Height. Required turn signal lamps shall be mounted at a height not less than 38 cm (15 in.) nor higher than 2.1 m (83 in.). A turn signal function may be combined in the high mounted stoplamps permitted on tow trucks by Vehicle Code Section 24603.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment of subsection (a) filed 2–8–2008; operative 3–9–2008 (Register 2008, No. 6).

§ 700. Warning Lamps.

Required front warning lamps other than school bus warning lamps, shall be mounted so the entire projected area of the lens is visible from all eye heights of drivers of other vehicles at angles within 45 deg left to 45 deg right of the front of the vehicle. If the light within these required angles is blocked by the vehicle or any substantial object on it, an additional warning lamp shall be displayed within the obstructed angle. Warning lamps may be mounted at any height.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 8. Advance Stoplamp Switches

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 24603 and 26103, Vehicle Code.

HISTORY

1. Repealer of Article 8 (Sections 705–707) filed 6–7–85; effective thirtieth day thereafter (Register 85, No. 23). For prior history, see Register 84, No. 2.

Article 9. Auxiliary Driving, Fog, and Passing Lamps

§ 710. Scope.

This article applies to driving lamps, fog lamps, and passing lamps permitted by Vehicle Code Sections 24402 and 24403.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

§ 711. Mechanical Test Requirements.

Auxiliary lamps shall meet the following mechanical test requirements:

- (a) Housings for Sealed or Semisealed Optical Units. Housings for sealed or semisealed optical units shall comply with the following tests described in Article 5 of this subchapter when an optical unit of the type for which the housing is designed is installed in the device:

- Aiming adjustment
- Corrosion
- Lens recession
- Vibration
- Warpage (when plastic housings are used)

- (b) Complete Assemblies. Assemblies consisting of a housing with a nonsealed unit or separable bulb, lens, or reflector shall comply with the following tests described in Article 5 of this subchapter:

- Aiming adjustment
- Corrosion
- Dust
- Lens recession
- Moisture
- Vibration
- Warpage (when plastic lenses or housings are used)

- (c) Sealed or Semisealed Optical Units. Sealed or semisealed optical units shall comply with the following tests described in Article 5 of this subchapter:

- Corrosion (when metal reflector backs or replaceable bulbs are used)
- Vibration (when filament shields or replaceable bulbs are used)
- Warpage (when plastic lenses or reflectors are used)

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 712. Photometric Test Requirements.

Photometric tests shall be made with the filament in the design position. For unsealed and semisealed driving and passing lamps, tests shall also be made in the out-of-focus positions listed in Section 654 of this title. The luminous intensity of a single lamp tested as specified in Article

4 of this subchapter shall be as follows with a reaim tolerance of 0.25 deg allowed at any test point:

- (a) Driving Lamps. Driving lamps shall meet the photometric requirements in Table I when the lamps are aimed as specified in Article 6 of this subchapter.

TABLE I. PHOTOMETRIC REQUIREMENTS FOR DRIVING LAMPS

Test point coordinates		Cd	
Vertical	Horizontal	Max	Min
3U	3L–3R	5,000	—
2U	3L–3R	8,000	—
1U	3L–3R	25,000	—
H	V	50,000	20,000
H	3L–3R	—	10,000
1D	6L–6R	—	3,700
2D	6L–6R	—	2,000

- (b) Fog Lamps. Fog lamps shall meet the photometric requirements in SAE J583d, July 1977, SAE J583, JUN93, or SAE J583, APR2001.

- (c) Passing Lamps. Passing lamps shall meet the photometric requirements in SAE J582a, January 1973.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment of first paragraph and subsection (b) filed 6–12–95; operative 7–12–95 (Register 95, No. 24).
2. Amendment of subsection (b) filed 7–16–2004; operative 8–15–2004 (Register 2004, No. 29).

§ 713. Beam Aimability Requirements.

Driving, fog, and passing lamps shall be centered on a goniometer, operated at design voltage, and aimed in a dark room on a perpendicular screen 7.5 m (25 ft) from the lamp. The goniometer shall be adjusted until the observer considers the visual aim on the screen to be correct in accordance with Sections 674, 675, or 680 of this title. Each of three experienced observers shall aim the lamp at least three times and each observer's goniometer settings shall be individually averaged. The deviation of each observer's averaged reading from that of any other observer shall not be more than 0.2 deg in the vertical direction and 0.4 deg in the horizontal direction.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 10. Cornering Lamps

§ 720. Scope.

This article applies to cornering lamps permitted by Vehicle Code Section 25107.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103, and 26104, Vehicle Code.

§ 721. Mechanical Test Requirements.

Cornering lamps shall meet the following mechanical test requirements in Article 5 of this subchapter:

- Corrosion
- Dust
- Moisture
- Vibration
- Warpage (for plastic lenses and housings)

None of the above tests are required on all-glass sealed optical units, and the dust and moisture tests are not required on housings for all-glass units.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 722. Photometric Test Requirements.

Cornering lamps shall meet the photometric requirements in SAE J852b, February 1965, when tested as specified in Article 4 of this subchapter.

NOTE: Authority cited: Section 26103 Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 11. Deceleration Signal Lamp Systems

§ 730. Scope.

This article applies to deceleration signal lamp systems permitted by Vehicle Code Section 25251.5.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

§ 731. Operating Requirements.

Deceleration signal systems shall meet the following operating re-

quirements:

(a) Function. The system shall operate so as to indicate a component of deceleration of the vehicle on which it is installed by varying the flashing rate of a yellow lamp when the service brakes are applied.

(b) Reduced Nighttime Brightness. The system shall incorporate an automatic means for reducing the intensity of the lamp during darkness. The system shall cause the voltage to the deceleration lamps to decrease to $5.0\text{ V} \pm 10\%$ at 0 g deceleration during darkness. The specified voltage shall be reached when the illumination on the sensor is not more than 53.8 lm/m^2 (5 lm/ft^2) nor less than 5.4 lm/m^2 (0.5 lm/ft^2).

[The next page is 51.]

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 732. Deceleration Performance.

The output voltage, duty cycle, and flash rate of the control unit at a temperature of $24 \pm 5.5^\circ\text{C}$ ($75 \pm 10^\circ\text{F}$), when 12.8 V dc is applied to the input terminal, shall be as shown in Table I when the control sensor is placed on a tilt table and slightly vibrated as the table is slowly rotated through the angles representing the specified vehicle deceleration rates.

TABLE I. TEST REQUIREMENTS FOR DECELERATION LAMPS

Deceleration (g)	Output (V)	Peak relative brightness	Flash Rate (Hz)	On Time (%)
0.0	7.0	1.0	1.0	50
0.1	—	1.0	1.5	48
0.2	—	1.0	2.3	46
0.3	—	1.2	3.4	44
0.4	—	1.4	5.0	42
0.5	—	1.7	7.6	40

(a) Deceleration. The deceleration at which the unit switches from a lower to a higher flash rate shall be within ± 0.05 g of the rate specified in Table I. If the unit operates at more steps than the required minimum, the additional values for each column shall lie on the smooth curve connecting the indicated values within the specified tolerances. The values specified in Table II apply to ramp-type inertial sensors for which the downward angles correspond to the deceleration and a tolerance of 3.0 deg applies to the tilt angle.

TABLE II. TEST REQUIREMENTS FOR DECELERATION SENSOR

Deceleration (g)	Forward tilt angle	Degrees Dip correction	Corrected tilt angle
0.0	0.0	0.0	0.0
0.1	5.7	0.8	6.5
0.2	11.3	1.6	12.9
0.3	16.7	2.4	19.1
0.4	21.8	3.2	25.0
0.5	26.6	4.0	30.6

(b) Output Voltage. The rms output voltage during the on portion of the flash cycle at the 1 Hz flash rate shall be within $\pm 5\%$ of the specified value, measured at the lamp bulbs with daytime illumination on the automatic darkness sensor.

(c) Relative Brightness. With the brightness of the lamp or its bulbs taken as 1.0 when measured with the rms output voltage specified for 0 g deceleration, the relative brightness of the lamp or bulbs at the other decelerations shall be within $\pm 25\%$ of the specified values after the fifth flash.

(d) Flash Rate and Percent on Time. The flash rate shall be within $\pm 15\%$ of the specified value. The percent on time shall be within $\pm 10\%$ of the specified value.

(e) Correction for Front End Dip. Control sensors for vehicles with substantial front end dip upon braking, such as passenger vehicles and pickup trucks, shall have linear dip correction varying from 4 deg at 0.5 g or more deceleration to 0 deg at 0 g.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 733. Mechanical Test Requirements.

Deceleration lamps shall comply with the following mechanical tests in Article 5 of this subchapter:

Corrosion
Dust
Moisture
Vibration

Warpage (at a flashing rate of 1 Hz when a plastic lens or housing is used)

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 734. Temperature Test Requirements.

The control system shall meet the following requirements at both 11 V and 15 V:

(a) Low Temperature Test. The control system shall be placed in its normal operating position in a circulating air cabinet at $-32 \pm 3^\circ\text{C}$ ($-25 \pm 5^\circ\text{F}$) for 2 h. At the end of that period and while still at that temperature, the unit shall meet the requirements in Table I at 0 g and 0.3 g.

(b) High Temperature Test. The control system shall be placed in its normal operating position in a circulating air cabinet at $74 \pm 0, -2.8^\circ\text{C}$ ($165 \pm 0, -5^\circ\text{F}$) for 2 h. At the end of that period and while still at that temperature, the unit shall meet the requirements in Table I at 0 g and 0.3 g.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 735. Durability Test.

The control system shall be operated continuously at a supply voltage of 12.8 V dc for 200 h with no failure (except bulb replacement), after which it shall meet the requirements in Table I at 0 g and 0.3 g.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 736. Photometric Test Requirements.

The luminous intensity of a deceleration lamp with the bulbs operated at mean spherical candela and tested as specified in Article 4 of this subchapter shall meet the photometric requirements in Table III after the sample has been mechanically tested in the order shown in Section 733.

TABLE III. PHOTOMETRIC REQUIREMENTS FOR DECELERATION SIGNAL LAMPS

Test point coordinates	Cd	
	Max	Min
Vertical		
10U	10L V 10R	70 200 70
5U	20L 10L 5L V 5R 10R 20R	40 200 600 800 600 200 40
H	20L 10L 5L V 5R 10R 20R	40 200 800 1,300 800 200 40
5D	20L 10L 5L V 5R 10R 20R	40 200 600 800 600 200 40
10D	10L V 10R	70 200 70

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 12. Fog Taillamps

§ 740. Scope.

This article applies to fog taillamps permitted by Vehicle Code Section 24602.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

§ 741. General Requirements.

Fog taillamps shall not be optically combined with any lighting function other than a tail lamp or reflex reflector. The projected luminous lens area in the H-V direction shall not exceed 140 cm² (21.7 in.²).

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 742. Mechanical Test Requirements.

Fog taillamps shall meet the following mechanical test requirements in Article 5 of this subchapter:

Corrosion
Dust
Moisture
Vibration
Warpage (for plastic lenses or housings).

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 743. Photometric Test Requirements.

The luminous intensity of a rear fog tail lamp tested as specified in Article 4 of this subchapter shall be as shown in Table I.

TABLE I. PHOTOMETRIC REQUIREMENTS FOR FOG TAILLAMPS

	Test point coordinates		Cd Min
	Vertical	Horizontal	
10U & 10D		10L	10
		V	25
		10R	10

		10L	40
		5L	80
		V	80
		5R	80
		10R	40
		20R	15

NOTE: The maximum candlepower shall not exceed 300 cd over any area larger than that generated by an 0.25 deg radius.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment of Table I filed 12-17-81; effective thirtieth day thereafter (Register 81, No. 51).

Article 13. Headlamp Flashing Systems

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 25252.5, 26103 and 26104, Vehicle Code.

HISTORY

1. Repealer of Article 13 (Sections 720 and 751) filed 6-7-85; effective thirtieth day thereafter (Register 85, No. 23). For prior history, see Register 80, No. 22.

Article 14. Reflex Reflectors on Front of Vehicles**§ 760. Scope.**

This article applies to reflex reflectors permitted on the front of vehicles by Vehicle Code Section 24609 and not governed by FMVSS 108.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

§ 761. Definitions.

(a) "Area reflectorizing material," referred to in Vehicle Code Section 25500, is nonrigid retroreflecting sheeting or tape that may be affixed to a vehicle by means of an adhesive backing.

(b) A "reflector" or "reflex reflector" is a rigid device that returns light from various angles of incidence in a direction close to that at which it

is incident and which may be affixed to a vehicle by adhesive or mechanical means.

NOTE: Authority and reference cited: Section 26103, Vehicle Code.

§ 762. Test Requirements.

Front reflex reflectors shall meet the reflex reflector requirements of FMVSS 108, except that white reflectors shall meet the photometric requirements in SAE J594e, March 1970.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 12-17-81; effective thirtieth day thereafter (Register 81, No. 51).

Article 15. Replacement Lenses**§ 765. Scope.**

This article applies to replacement lenses for lighting equipment subject to requirements established by the department, including replacement lenses manufactured solely for installation by private individuals on lighting equipment regulated by FMVSS 108.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

§ 766. Definition.

A "replacement lens" is a lens manufactured by a firm other than the manufacturer of the original lens for a lighting device.

NOTE: Authority and reference cited: Section 26103, Vehicle Code.

§ 767. Mechanical Test Requirements.

Replacement lenses, when installed in the appropriate housings, shall meet the following mechanical test requirements in Article 5 of this subchapter:

Dust
Moisture
Vibration
Warpage (for plastic lenses of devices not governed by FMVSS 108)

If lenses are supplied with gaskets, seals, or miscellaneous parts, lamps shall be assembled and tested with those parts. If lenses are not supplied with additional parts, the tests shall be conducted with the type used with the original housing model.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 768. Photometric Test Requirements.

Replacement lenses shall be tested in a sample lamp housing of the latest model for which they were designed and shall meet the photometric requirements for each function performed that were in effect at the time the latest lamp was last manufactured.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 769. Installation Instructions.

Instructions listing the original lamps or year and model of the vehicles on which replacement lenses are designed to be installed shall be included with the lens, printed on the box containing the lens, or listed in a readily available catalog at the place the lens is sold or offered for sale.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24006, 24012 and 26103, Vehicle Code.

Article 16. Reserve Lighting and Outage Indicating Systems**§ 770. Scope.**

This article applies to reserve lighting and outage indicating systems on vehicles for regulating the light sources of lamps. Lamp monitoring systems which do not compensate for failure of the required lighting equipment are not within the scope of this regulation.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

§ 771. Definition.

A "reserve lighting and outage indicating system" is a system that indicates partial or total failure of the lighting equipment on a vehicle and automatically compensates for such failure by energizing inactive lamp filaments to substitute for the required function until repairs can be made.

NOTE: Authority and reference cited: Section 26103, Vehicle Code.

§ 772. General Requirements.

(a) Operating Unit. The operating unit may consist of individual circuits to operate only the headlamps or only the taillamps. If the operating unit combines both circuits, it shall have independent headlamp and rear lamp circuits so that failure in one circuit will not affect the other circuit.

(b) Outage Indicators. Outage shall be indicated by two separate lamps, one each for the headlamp and the rear lighting circuits. Required visual indicators may be supplemented by audible indicators. Each required indicator shall consist of a lamp with an illuminated area not less than that of a circle with a 4.8-mm (0.19-in.) diameter, and each indicator shall give a clear and unmistakable signal to the driver as follows:

(1) Headlamp Circuits. One white lamp shall indicate outage in the upper or the lower beam headlamp circuit, whichever is in use.

(2) Rear Lamp Circuits. One red lamp shall indicate outage in the tail-lamp circuit or failure of the stoplamp fuse or switch. For multicompart-ment or multiple rear lamps, only the outboard sections or lamps need an outage indicator.

(c) Wiring Connectors. The device shall have wiring connectors to make all necessary electrical connections between the device and the vehicle lighting system by plug-in means at existing plug-in terminal junctions. For vehicles not equipped with plug-in terminal junctions, a plug-in terminal shall be installed to make all necessary connections to the vehicle lighting system.

(d) Fail-Safe Operation. Failure of the device shall not result in failure of the normal lighting system.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 773. Operating Requirements.

(a) Normal Operation. When headlamps are operating normally, the headlamp outage indicator shall operate at not less than 10% nor more than 20% of the normal voltage used to indicate an outage. When taillamps are operating normally, the rear lamp outage indicator shall operate only when the foot brake is applied.

(b) Circuit Failure. When lamps are turned on, the outage system shall respond to circuit failure by continuing the normal display of any un-failed lamp, energizing the appropriate inactive lamp filaments, and indicating the failure to the driver. A "headlamp circuit failure" exists when one-half or more of the upper or lower beam filaments have failed. A "taillamp circuit failure" exists when one-half or more of the taillamp filaments have failed. A "stoplamp circuit failure" exists when the stop-lamp switch or fuse fails.

(c) Headlamp Outage. Failure in the lower beam headlamp as defined in preceding subsection (b) shall cause the outage system to activate the upper beam circuit at a decreased voltage. Failure in the upper beam headlamp shall cause the outage system to activate the lower beam circuit at a decreased voltage. Such failure in lower or upper headlamp beam shall be indicated by the continuous steady-on or flashing of the head-lamp circuit outage indicator.

(d) Taillamp Outage. Failure of the taillamp circuit shall cause the out-age system to activate the stoplamp circuit at a decreased voltage. Such failure shall be indicated by the continuous steady-on or flashing of the rear lighting outage indicator at not more than one-third of its normal brilliancy.

(e) Stoplamp Outage. Normal activation of the stoplamp circuit shall operate the rear lighting indicator at normal brilliancy during application of the service brake. Failure of the stoplamp filament, switch, or fuse shall cause loss of this indication.

(f) Alternate Circuit. Reserve lamps in the alternate circuit shall be capable of automatically performing the design function as well as compensating for the outage.

(g) Operating Unit Voltage Drop. Voltage drops across headlamp and rear lamp sections of the operating unit shall not exceed the following

values for each normally operating function when the lamps are operated at design voltage:

0.40 V for two lamps

0.45 V for three lamps

0.50 V for four lamps

0.60 V for six lamps or more

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 774. Voltage Requirements for Alternate Circuits.

When the alternate circuit lamps are connected and the design voltage is applied to the input terminals of the device, voltages at output terminals shall be as follows:

(a) Headlamps—Lower Beam Outage Compensated by Upper Beam. Voltage to the upper beam filaments as reserve lower beam headlamps when one-half or more of the lower beam filaments fail shall be not more than 50% nor less than 40% of the design voltage of the upper beam filament.

(b) Headlamps—Upper Beam Outage Compensated by Lower Beam. Voltage to the lower beam filaments as reserve upper beam headlamps when one-half or more of the upper beam filaments fail shall be not less than 75% of the design voltage of the lower beam filament.

(c) Taillamps—Outage Compensated by Stoplamps. Voltage to the stoplamp filaments as reserve taillamps shall be not more than 50% nor less than 40% of the design voltage of the stoplamp filament.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 775. Vibration Test Requirements.

Sensing and control units shall meet the following vibration test requirements under 5 g constant acceleration:

(a) The device shall be mounted in design position and vibrated for 30 min in each of three directions: vertical, horizontal and normal to the vehicle, and horizontal and parallel to the vehicle axis.

(b) The vibration frequency shall be varied from 30 to 200 to 30 Hz over a period of approximately 1 min.

(c) The device shall be operated with all lamps at design voltage during the vibration test.

(d) At the conclusion of the test, the system shall meet all the requirements of Sections 773 and 774.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 776. Temperature Test Requirements.

Sensing and control units shall be mounted in their normal operating positions in a circulating air cabinet for 1 h at an ambient temperature of 74 ± 0 , -2.8°C (165 ± 0 , -5°F). After the temperature conditioning, the system shall meet all the requirements of Sections 773 and 774 over a temperature range of -34 to $+38^\circ\text{C}$ (-30 to $+100^\circ\text{F}$).

NOTE: Authority cited: Section 26103 Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 777. Installation Requirements.

Reserve lighting and outage indicating systems shall meet the following installation requirements:

(a) Outage Indicator Location. Outage indicator lamps shall be mounted where they are clearly visible to the driver.

(b) Connection to Vehicle Lighting System. After market installation and connection of the device to the vehicle lighting system shall be as follows:

(1) Headlamp Section. The headlamp section shall be connected into the headlamp upper and lower beam circuits at the beam changing switch.

(2) Rear Lighting Section. The taillamp element of the rear lighting section shall be series-connected in the taillamp circuit between the switch and the lamps, and the stoplamp element shall be series-connected in the stoplamp circuit immediately following the stoplamp switch.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 17. Running Lamps

§ 780. Scope.

This article applies to running lamps permitted by Vehicle Code Section 25100.

Running lamps may meet either the requirements of this article or Federal Motor Vehicle Safety Standard 108 effective February 10, 1993.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24102, 26103 and 26104, Vehicle Code.

HISTORY

1. Change without regulatory effect amending section filed 9-9-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 37).

§ 781. Minimum Size.

Running lamps shall have an effective projected luminous area of at least 78 cm² (12 in.²).

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 782. Mechanical Test Requirements.

Running lamps shall meet the following mechanical test requirements:

(a) Housings for Sealed and Semisealed Optical Units. Housings for sealed or semisealed optical units shall comply with the following tests described in Article 5 of this subchapter:

Corrosion

Vibration

Warpage (when plastic housings are used)

(b) Complete Assemblies. Assemblies consisting of a housing with a nonsealed unit or separable bulb, lens, or reflector shall comply with the following tests described in Article 5 of this subchapter:

Corrosion

Dust

Moisture

Vibration

Warpage (when plastic lenses or housings are used)

(c) Sealed or Semisealed Optical Units. Sealed or semisealed optical units shall comply with the following tests described in Article 5 of this subchapter:

Corrosion (when metal reflector backs or replaceable bulbs are used)

Vibration (when filament shields or replaceable bulbs are used)

Warpage (when plastic lenses or reflectors are used)

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 783. Photometric Test Requirements.

The luminous intensity of a running lamp tested as specified in Article 4 of this subchapter, and with a reaim tolerance of 0.25 deg allowed at any test point, shall be as shown in Table I.

TABLE I. PHOTOMETRIC REQUIREMENTS FOR RUNNING LAMPS

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 18. School Bus Sidelamps

§ 785. Scope.

This article applies to lamps permitted on the sides of school buses by Vehicle Code Section 25102.5.

NOTE: Authority cited: Sections 25102.5 and 26103, Vehicle Code. Reference: Sections 24012, 25102.5, 26103 and 26104, Vehicle Code.

§ 786. General Requirements.

School bus sidelamps shall be any of the following types of devices meeting their respective requirements in FMVSS 108 or this title. Housings shall meet the requirements for headlamp, driving lamp, or passing lamp housings, and optical units shall be of the following types:

(a) Single- or double-filament sealed beam headlamp unit with the words "Sealed Beam" molded on the face of the lens. Double-filament units shall have both beams burning.

(b) Sealed driving lamp unit

(c) Sealed passing lamp unit

NOTE: Authority cited: Sections 25102.5, and 26103, Vehicle Code. Reference: Sections 24012, 25102.5 and 26103, Vehicle Code.

Article 19. Side-Mounted and Supplemental Signal Lamps

§ 790. Scope.

This article applies to supplemental turn signal lamps, supplemental stop lamps, and side-mounted turn signal lamps governed by Vehicle Code Sections 24603 and 24953.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

HISTORY

1. Amendment filed 4-5-83; effective thirtieth day thereafter (Register 83, No. 15).

§ 791. Definitions.

(a) Side-Mounted Turn Signal Lamp. A "side-mounted turn signal lamp" is a lighting device designed to be used in addition to the required turn signals to give a flashing signal on the side toward which the driver intends to turn or move.

(b) Supplemental Stoplamp. A "supplemental stoplamp" is a lamp that operates simultaneously with and in addition to the required stoplamp.

(c) Supplemental Rear Turn Signal Lamp. A “supplemental rear turn signal lamp” is a lamp that operates simultaneously with, on the same side as, and in addition to a required rear turn signal lamp.

NOTE: Authority and reference cited: Section 26103, Vehicle Code.

HISTORY

1. Amendment filed 4–5–83; effective thirtieth day thereafter (Register 83, No. 15).
2. Amendment filed 1–8–2001; operative 2–7–2001 (Register 2001, No. 2).

§ 792. General Requirements.

(a) Combination Lamp Requirements. Side mounted and supplemental turn signal lamps may be combined with sidemarker lamps if the requirements for each lamp are met.

(b) Use of Alternative Lamp Requirements. Notwithstanding Section 794 of this title, lamps meeting the requirements for stop or turn signal lamps may be used as supplemental stop lamps or supplemental turn signal lamps.

(c) Simultaneous Flash Requirements. If side-mounted turn signal lamps flash when the hazard warning switch is activated, all such lamps shall flash simultaneously with the rear turn signal lamps. On vehicles equipped with sequential turn signal lamps, side-mounted turn signal lamps shall flash simultaneously with the front turn signal lamps.

(d) Grandfathered Lighting Requirements. Side-mounted turn signal lamps installed before January 1, 1967, may be yellow turn signal lamps or yellow combination clearance and sidemarker lamps.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 24603, 24953 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 4–5–83; effective thirtieth day thereafter (Register 83, No. 15.)
2. Repealer and new subsection (a), repealer of subsection (c) and subsection relettering filed 6–23–92; operative 7–23–92 (Register 92, No. 26).
3. Amendment filed 1–8–2001; operative 2–7–2001 (Register 2001, No. 2).

§ 793. Mechanical Test Requirements.

Side-mounted turn signal lamps and supplemental stop or turn signal lamps shall meet the following mechanical test requirements in Article 5 of this chapter:

- (a) Corrosion
- (b) Dust
- (c) Moisture
- (d) Vibration
- (e) Warpage (for plastic lenses and housings).

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

HISTORY

1. Amendment filed 1–8–2001; operative 2–7–2001 (Register 2001, No. 2).

§ 794. Photometric Test Requirements.

Side-mounted turn signal lamps and supplemental stop or turn signal lamps shall meet the following photometric requirements when tested as specified in Article 4 of this chapter:

(a) Standards for Side-Mounted Turn Signal Lamps. Side-mounted turn signal lamps shall meet one or more of the following standards, as appropriate for the vehicle on which they are to be installed:

- (1) SAE J914b, July 1978, Table 1 for vehicles 80 inches (2.03 m) or more in width, regardless of length; or
- (2) SAE J914b, July 1978, Table 2 for vehicles narrower than 80 inches (2.03 m) in width, regardless of length; or
- (3) SAE J914 NOV87, Table 1; or
- (4) SAE J914 JAN95, Table 1; or
- (5) SAE J914 JUL2003, Table 1; or
- (6) SAE J2039 JUN94, Table 1; or
- (7) SAE J2039 MAY2001, Table 1.

(b) Standards for Supplemental Stop or Turn Signal Lamps: Supplemental stop or turn signal lamps shall meet the following standard: SAE J186a, September 1977, Table 1.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

HISTORY

1. Amendment filed 4–5–83; effective thirtieth day thereafter (Register 83, No. 15).
2. Repealer and new subsection (a) and amendment of NOTE filed 10–23–95; operative 11–22–95 (Register 95, No. 43).
3. Amendment filed 1–8–2001; operative 2–7–2001 (Register 2001, No. 2).
4. New subsection (a)(5), subsection renumbering, amendment of newly designated subsection (a)(6) and new subsection (a)(7) filed 8–7–2007; operative 9–6–2007 (Register 2007, No. 32).

Article 20. Traffic Signal Priority Devices

NOTE: Authority and reference cited: Section 25352, Vehicle Code.

HISTORY

1. Repealer of Article 20 (Sections 795–797) filed 12–17–81; effective thirtieth day thereafter (Register 81, No. 51).

Article 21. Warning Lamp Flashers

§ 800. Scope.

This article applies to flashers for warning lamps on emergency vehicles and special hazard vehicles.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

§ 801. Performance and Durability Requirements.

Warning lamp flashers shall be designed to conform to SAE J1054, January 1977, except that the sum of the percent current on times of Section 5.3 shall not apply to nonalternating flashers. The tests shall be made at the ampere load specified by the flasher manufacturer for the advertised quantity and type of bulbs and other loads for the device.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 802. Thermally Operated Flashers.

Thermally operated flashers shall be tested for compliance with the performance and durability requirements using the procedures in SAE J1104, January 1977, on a sample of the size specified in J1104 obtained at random.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 803. Nonthermally Operated Flashers.

Nonthermally operated flashers shall be tested for compliance with the performance and durability requirements using two random flashers for the performance test requirements and two other random flashers for the durability test. Should two failures for performance or two failures for durability tests occur, the flashers shall be considered as not meeting the requirements. Should one failure occur for performance test or one failure occur for durability test, an additional 2 flashers for the performance or for the durability test shall be selected at random and subjected to the corresponding tests. If no further failures of the additional flashers occur, the flasher shall be considered to be in compliance with the requirements.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 804. Variable Load Flashers.

Variable load flashers shall comply with starting time, flash rate, and percent of current on time requirements both with the minimum and maximum design loads connected and shall comply with voltage drop and durability requirements with only the maximum design load connected.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

Article 22. Warning Lamps

§ 810. Scope.

This article applies to warning lamps for emergency vehicles and special hazard vehicles governed by Vehicle Code Sections 25252 through 25282.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103 and 26104, Vehicle Code.

HISTORY

1. Amendment filed 11-25-2002; operative 12-25-2002 (Register 2002, No. 48).

§ 811. Definitions.

(a) **Warning Lamp** — A “warning lamp” is a lamp designed for use on authorized emergency vehicles and prescribed types of special hazard vehicles to indicate the existence of a traffic hazard or to signal other drivers to stop or yield the right of way.

(b) **Warning Lamp Assembly** — A “warning lamp assembly” is a device that consists of a housing with one or more light sources and any lenses, reflectors and any other components or devices necessary to provide the required level of performance.

(c) **Warning Lamp Housing** — A “warning lamp housing” is a device that holds a warning lamp unit or the light source(s), lens(es), reflector(s) and other components of a warning lamp assembly.

(d) **Warning Lamp Unit** — A “warning lamp unit” is a sealed or semi-sealed optical unit designed to meet the dimensional specifications of SAE J571d, June 1976, SAE J572a, January 1972, or SAE J760a, December 1974, and which meets the color and photometric requirements.

(e) **Flashing Lamp** — A “flashing lamp” is a lamp in which the emitted light in a particular direction alternates between on and off either electrically by controlling the current or mechanically by a revolving, oscillating, or other mechanism, or by other means such that the light output in a given direction is discernibly and regularly interrupted or intermittent at the required periodic rate.

(f) **Steady-burning Lamp** — A “steady burning lamp” is a lamp in which the emitted light in any direction is uninterrupted.

(g) **Light Source** — A “light source” is an individual incandescent bulb, light emitting diode, are discharge bulb or other device that produces visible light whenever appropriate electrical energy is supplied to it.

(h) **Light Pulse** — A single, visually continuous emission of optical energy. High frequency modulation is permitted (reprinted with permission from SAE J595 [January 2005] © 2005 SAE International).

(i) **Flash** — A flash is a light pulse, or a train of light pulses, where a dark interval of at least 160ms separates the light pulse or the last pulse of the train of light pulses from the next pulse or the first pulse of the next train of light pulses. To be considered a train of light pulses, each pulse in the train must begin within 100ms after the end of the preceding light pulse. Dark interval luminous intensity shall not exceed two percent of the maximum luminous intensity of a flash (reprinted with permission from SAE J595 [January 2005] © 2005 SAE International).

(j) **On-time** — Summation of the light pulse(s) within a flash.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Section 26103, Vehicle Code.

HISTORY

1. Amendment filed 11-25-2002; operative 12-25-2002 (Register 2002, No. 48).

2. New subsections (h)–(j) filed 10-17-2007; operative 11-16-2007 (Register 2007, No. 42).

§ 812. Classification of Warning Lamps.

Five classes of warning lamps are established as follows:

Class A: High intensity, concentrated-beam lamp

Class B: Moderate intensity, wide-beam lamp

Class C: High intensity, wide-beam lamp

Class D: Motorcycle front warning lamp

Class E: Revolving, oscillating, or gaseous discharge lamp

NOTE: Authority and reference cited: Section 26103, Vehicle Code.

§ 813. General Requirements.

(a) **Flash Rate.** Flashing warning lamps, other than gaseous discharge lamps, shall operate at a rate of 60 to 120 flashes per minute, with a 40 to 60 percent on-time under all operating conditions. The time between the end of one flash and the beginning of the following flash for a gaseous discharge lamp shall not exceed 0.85 seconds, which corresponds to a minimum of 70 flashes per minute. Flashes having a light output less than

the required minimum shall not be counted in reporting flash rate. Light pulses having a light output less than the required minimum shall not be included in the on-time.

(b) **Voltage.** Warning lamps manufactured for more than one voltage shall comply with all requirements of this title when tested at each voltage. Warning lamps designed to operate on a rated voltage of 12 volts shall be tested at 12.8 volts. Warning lamps designed to operate on a rated voltage of 24 volts shall be tested at 25.6 volts. Warning lamps designed to operate on a rated voltage of other than 12 or 24 volts shall be tested at a voltage equivalent to the voltage provided by the vehicle storage battery charged to 100% capacity with no current drain.

(c) **Exterior Lens Surface.** The outside surface of the illuminated section of the lens shall be smooth with no ribs, ridges, or indentations other than marks of identification, screw holes, and aiming pads.

(d) **Double-Faced Lamps.** Steady burning double-faced lamps shall have opaque dividers to minimize exterior light shining through the lamp.

(e) **Multiple Light Source Lamps.** Lamps with two or more individual light sources shall have all light sources operating together when the lamp is steady burning or flashing.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment filed 11-25-2002; operative 12-25-2002 (Register 2002, No. 48).

2. Amendment of subsection (a) filed 10-17-2007; operative 11-16-2007 (Register 2007, No. 42).

§ 814. Mechanical Test Requirements.

Warning lamps shall comply with the following mechanical tests described in Article 5 of this subchapter:

Corrosion

Dust

Lens recession

Vibration

Warpage (when plastic lenses or housings are used)

None of the above tests are required on all-glass sealed warning lamp units, and the dust and moisture tests are not required on housings for all-glass units.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 815. Temperature and Durability Test Requirements.

Flashing warning lamps shall meet the following additional requirements, with all tests conducted on the same sample in the order shown:

(a) **High Temperature Test.** The sample shall be mounted in normal operating position in a circulating air cabinet for 6 hours at 49 ± 3 degrees C (120 ± 5 degrees F). The device shall be off during the first hour and shall operate continuously for the next 5 hours with the required voltage applied at the device terminals.

(b) **Low Temperature Test.** The sample shall be mounted in normal operating position in a circulating air cabinet for 6 hours at -32 ± 3 degrees C (-25 ± 5 degrees F). The device shall be turned on at the end of the sixth hour and operated for 3 minutes with the required test voltage applied at the device terminals before measuring the flash rate.

(c) **Durability Test.** The sample shall be operated continuously for 200 hours at room temperature in cycles consisting of 50 minutes on and 10 minutes off at the required test voltage.

(d) **Required Performance.** The device shall operate satisfactorily during the tests specified in preceding subdivisions (a), (b), and (c) with no evidence of malfunction. The flash rate shall remain within the required rate for the type of lamp except that the flash rate for lamps used in the low temperature test shall not be less than 50 flashes per minute. The voltage at the terminals of the warning lamp assembly shall be not more than 0.50 volt below the input terminal voltage of 12.8 volts for 12 volt units and not more than 1.0 volt below the required input terminal voltage for lamps intended to operate at 24 volts or more with the device operating. Measurements for the low temperature test shall be made 3 minutes after the beginning of the last hour of operation and at the end of the test. Measurements for the high temperature test shall be made at the end of the

test. Measurements for the durability test shall be made at 100 hours and at the end of the test.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

HISTORY

1. Amendment of subsections (b) and (d) filed 12-17-81; effective thirtieth day thereafter (Register 81, No. 51).
2. Amendment filed 11-25-2002; operative 12-25-2002 (Register 2002, No. 48).

§ 816. Color Requirements.

Warning lamps shall meet the following limits in SAE J578d, September 1978. The color shall be that of the emitted light, not that of the material used for the lens or filter.

(a) Class A and D Warning Lamps: Red

(b) Class B, C, and E Warning Lamps: Red, yellow, or blue.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

§ 817. Photometric Test Requirements.

The luminous intensity of warning lamps tested as specified in Article 4 of this subchapter, with a reaim tolerance of ± 0.5 degree vertical and ± 1.0 degree horizontal allowed at each test point, shall be as follows:

(a) Steady-burning Warning Lamps. Steady-burning warning lamps, and flashing warning lamps which alternate between on and off by electrically controlling the current supplied to the lamp, shall meet the requirements in Table I. The photometric output of flashing lamps shall be reported only while the lamp is on. Warning lamp units shall be aimed for this test so the maximum intensity is on the H-V axis. Warning lamp assemblies shall be mounted for this test in accordance with Section 657.

TABLE I. MINIMUM CANDELA FOR STEADY-BURNING WARNING LAMPS AND FLASHING WARNING LAMPS WHICH ALTERNATE BETWEEN ON AND OFF BY ELECTRICALLY CONTROLLING THE CURRENT

	V		15	50	125	25	40	100	20	12
	5R		15	20	50	10	40	100	20	5

NOTE: Maximum anywhere in yellow shall not exceed 4,000 cd over any area larger than that generated by a radius rotated 0.25 deg.

(b) Revolving Warning Lamps. Revolving warning lamps shall meet the requirements in either Table II or Table IV with the required test voltage applied to the input terminals of the complete assembly. A revolving lamp that is designed to project a signal throughout a 360 degree horizontal angle shall be tested with the lamp assembly turned about its vertical axis to the location where the maximum candela reading from the optical unit is reduced the most by any variations in density or shape of the transparent cover or by obstructions in the lamp assembly. A revolving warning lamp that does not project light through a 360 degree horizontal angle shall comply photometrically about those axes straight to the front, sides, and rear of a vehicle to which the lamp is designed to provide a warning signal. As the lamp rotates, the full projected area of the reflector of each

light unit shall be visible along the beam axis as the center of the beam moves from 20 degrees left to 20 degrees right of the device axis.

TABLE II. MINIMUM CANDELA FOR REVOLVING WARNING LAMPS

	10R	1,200	3,000	600
	20R	500	1,250	250
2.5D	V	3,000	7,500	1,500
5D	V	500	1,250	250
7.5D	V	50	130	25

(d) Gaseous Discharge Warning Lamps. Gaseous discharge warning lamps shall meet the requirements in Table IV with the required test voltage applied to the input terminals of the complete assembly. Lamps producing 360 degree light output shall be rotated in the photometric test to the point where the lowest H-V reading is recorded, at which location the lamp shall meet the flash energy requirements. The candela-seconds shall be reported as the average for ten consecutive flashes.

(e) Alternative Technologies. Nothing in this standard shall be construed to prohibit the use of any appropriate technology for light sources provided the appropriate photometric and other requirements for the type of lamp are met. Steady-burning warning lamps, and flashing lamps which alternate between on and off by interrupting the electrical current to the lamp, shall meet the photometric requirements of Class A, B, C or D as shown in Table I. Warning lamps which approximate or simulate the appearance of revolving warning lamps shall meet the photometric requirements of Table II. Warning lamps which approximate or simulate the appearance of oscillating warning lamps shall meet the photometric requirements of Table III.

(f) Removal from Service. Any warning lamp assembly which noticeably fails to function properly shall be removed from service. Warning lamp assemblies which utilize multiple light sources shall be removed from service if any individual light source fails to function properly.

HISTORY

1. Amendment filed 11-25-2002; operative 12-25-2002 (Register 2002, No. 48).

§ 818. Type of Warning Lamps Used on Emergency Vehicles and Special Hazard Vehicles.

Warning lamps on emergency vehicles and special hazard vehicles shall be of the following types:

(a) Required Red Warning Lamps on Authorized Emergency Vehicles. The steady burning red warning lamp required to be visible to the front of an authorized emergency vehicle by Vehicle Code Section 25252 shall be a Class A, B or C warning lamp. Motorcycles may instead be equipped with two Class D warning lamps in the front, one of which may flash.

(b) Permitted Additional Red Warning Lamps on Authorized Emergency Vehicles. The additional steady burning or flashing red warning lamp permitted by Vehicle Code Section 25252 shall be a Class A, B, C, or E warning lamp.

(c) Permitted Yellow Warning Lamps on Authorized Emergency Vehicles. The additional flashing yellow warning lamp permitted on authorized emergency vehicles by Vehicle Code Section 25259 shall be a Class B, C, or E warning lamp. Two yellow motorcycle turn signal lamps may be used as warning lamps on the rear of motorcycles.

(d) Permitted Blue Warning Lamps on Police Vehicles. The additional flashing or steady burning blue warning lamp permitted by Vehicle Code Section 25258(b) shall be Class B, C, or E.

(e) Required Yellow Warning Lamps on Tow Cars. The flashing yellow warning lamp required on tow cars by Vehicle Code Section 25253 shall be a Class B, C, or E warning lamp. The flashing yellow warning lamp permitted to be displayed to the rear of a tow car while towing a vehicle and moving at a speed slower than the normal flow of traffic may be a 360-degree revolving or gaseous discharge lamp. In such case, the front and side areas of the lens or transparent cover that extends back to 45 degrees to each side of the straight-to-the-rear axis of the lamp shall be covered with opaque material reaching to the top of the lighted area. A revolving lamp may instead be equipped with a device that turns each light source off during the forward three-fourths of its rotation.

(f) Permitted Yellow Warning Lamps on Special Hazard Vehicles. The flashing yellow warning lamps permitted on special hazard vehicles by Article 7 of Division 12 of the Vehicle Code beginning with Section 25252, shall be a Class B, C, or E warning lamp, depending on whether the lamp is permitted to be displayed only to the front and rear or to the front, sides, and rear.

(g) Warning Lamps for Undercover Cars. The required steady-burning forward-facing warning lamps on authorized emergency vehicles with special plates permitted by Vehicle Code Section 5001 shall be a class A, B, or C. This warning lamp may also be a fixed or handheld red spotlight with a filament of at least 30 watts, and producing at least 3,000 candela in red at the brightest point in the beam. Such a lamp need not meet any of the other requirements of this article except for color. Additional steady-burning or flashing warning lamps shall be class A, B, C, or E. These warning lamps may be displayed through transparent or translucent material provided the light, of proper color, is plainly visible and understandable in bright sunlight and during darkness, under normal atmospheric conditions, to a distance of 800 feet from the vehicle. These lights shall not transfigure, disrupt or mask any other required lighting device.

HISTORY

1. Amendment of subsections (e) and (g) filed 11-25-2002; operative 12-25-2002 (Register 2002, No. 48).

Article 23. School Bus Strobe Lamps

§ 819. Scope.

This article applies to white strobe lamps permitted on school buses by Vehicle Code section 25257.7.

NOTE: Authority cited: Sections 25257.7 and 26103, Vehicle Code. Reference: Sections 24012, 25257.7 and 26103, Vehicle Code.

HISTORY

1. New section filed 3–8–91; operative 4–7–91 (Register 91, No. 15).
2. Editorial correction of NOTE (Register 91, No. 31).

§ 820. School Bus Strobe Lamp.

School bus strobe lamps shall meet the requirements in SAE J1318, April 1986 for a 360 degree white gaseous discharge warning lamp with minimum photometric values equal to the requirements of a SAE class 2 lamp.

NOTE: Authority cited: Sections 25257.7, and 26103, Vehicle Code. Reference: Sections 24012, 25257.7 and 26103, Vehicle Code.

HISTORY

Article 2. Compressed and Liquefied Gas Fuel Systems

§ 930. Scope.

This article applies to liquefied petroleum gas and compressed or liquefied natural gas systems approved by the Air Resources Board for propulsion of motor vehicles with a gross vehicle weight rating of 6,000 pounds or less manufactured after January 1, 1966, and all vehicles regardless of gross vehicle weight rating manufactured after January 1, 1969. This article does not apply to any motor vehicle with a diesel engine that has been converted to the use of gaseous fuel before January 1, 1973.

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. New article 2 (§§ 930 through 936) filed 6-13-72; designated effective 7-15-72 (Register 72, No. 25). For history of former article 2, see Register 69, No. 45.)
2. Repealer and new article 2 (sections 930 through 936) filed 5-14-76; designated effective 7-1-76 (Register 76, No. 20).
3. Amendment filed 9-22-81; effective thirtieth day thereafter (Register 81, No. 39).
4. Amendment filed 1-25-94; operative 2-24-94 (Register 94, No. 4).
5. Change without regulatory effect amending section filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).

§ 931. Definitions.

The following definitions shall apply wherever the terms are used in this article:

(a) Allowable Working Pressure. "Allowable working pressure" means the pounds per square inch for which the container was constructed, or if conditions have changed, the maximum pressure at specified temperatures permitted at the most recent inspection by a certified inspector.

(b) Alteration. "Alteration" means any change in the construction, design, or installation of a container that affects the strength or safety of the system.

(c) ASME Code. "ASME Code" means the American Society of Mechanical Engineers Boiler and Pressure Vessel Code: Section VIII, Division 1, and Section IX of the 1971 and later editions.

(d) ASTM. "ASTM" means the American Society for Testing and Materials.

(e) Certified Inspector. "Certified inspector" means any person who holds a certificate issued by the Division of Industrial Safety of the California Department of Industrial Relations certifying that he is qualified to inspect unfired pressure vessels.

(f) CFR. "CFR" means Code of Federal Regulations.

(g) CGA. "CGA" means the Compressed Gas Association.

(h) DOT. "DOT" means the U. S. Department of Transportation.

(i) Fuel Supply Container. "Fuel supply container" means a tank or cylinder installed on a vehicle to supply fuel for the propulsion system of the vehicle.

(j) ICC. "ICC" means the Interstate Commerce Commission (now functionally superseded by DOT in matters relating to safety).

(k) Supply Line. "Supply line" means the piping, tubing, or hose, including all related fittings, through which vapor or liquid passes between the first shut-off valve at the container and the final stage regulator or vaporizer.

(l) NFPA. "NFPA" means the National Fire Protection Association.

(m) UL. "UL" means the Underwriters' Laboratories, Inc.

(n) Vaporizer. "Vaporizer" means a device that converts liquefied natural gas and liquefied petroleum gas to the gaseous state by means of heat.

NOTE: Authority and reference cited: Section 2402.6, Vehicle Code.

HISTORY

1. History: Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).

§ 932. Reference Publications.

Regulatory, statutory, and informational publications may be obtained at the addresses indicated.

(a) ASME Code. The American Society of Mechanical Engineers construction codes for boilers and pressure vessels may be obtained from:

UNITED ENGINEERING CENTER
345 EAST 47TH STREET
NEW YORK, NY 10017

(b) ASTM Standards. The American Society for Testing and Materials Standards may be purchased from:

AMERICAN SOCIETY FOR TESTING AND MATERIALS
1916 RACE STREET
PHILADELPHIA, PA 19103

(c) Bureau of Explosives. Information on approval of safety devices by the Bureau of Explosives may be obtained from:

BUREAU OF EXPLOSIVES
ASSOCIATION OF AMERICAN RAILROADS
50 F STREET, N.W.
WASHINGTON, D.C. 20001

(d) California Code of Regulations. The California Code of Regulations, Titles 8 and 13 may be purchased from:

BARCLAYS OFFICIAL CODE OF REGULATIONS
P.O. BOX 2006
SAN FRANCISCO, CA 94126

HISTORY

1. Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).
2. Change without regulatory effect of subsection (d) filed 2-8-88; operative 3-9-88 (Register 88, No. 7).
3. Change without regulatory effect amending subsection (d) filed 9-24-91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 52).
4. Amendment of subsections (c), (d) and (e) and new subsection (h) filed 1-25-94; operative 2-24-94 (Register 94, No. 4).
5. Amendment of subsections (d) and (g)-(h) filed 8-21-2007; operative 9-20-2007 (Register 2007, No. 34).

§ 933. Liquefied Petroleum Gas.

(a) NFPA Standard. This section incorporates by reference the National Fire Protection Association Standard 58 (NFPA 58), 1998 edition.

(1) All liquefied petroleum gas (LPG) fuel systems installed on or after January 1, 2000 shall comply with NFPA 58, 1998 edition, in addition to requirements of subsection (b) of this section.

(2) Grandfather Clause. LPG fuel systems installed before January 1, 2000, shall comply with NFPA 58, 1998 edition, including the additional requirements listed in subsection (b), or with Sections 933.1 and 936 of this title.

(b) Additional Requirements. All LPG fuel systems complying with the NFPA 58, 1998 edition, shall also comply with the following:

(1) Wherever the word "should" appears in NFPA 58, 1998 edition, it shall be understood to set forth mandatory requirements.

(2) Fuel tanks shall be oriented and mounted in accordance with the tank manufacturer's recommendations and in a location designated by the vehicle manufacturer, in the location normally utilized for liquid (gasoline or diesel) fuel containers for that make and model of vehicle, or as determined by a qualified engineer. Fuel tanks shall not be mounted above any driver or passenger compartment.

(3) NFPA 58, 1998 edition, specifies that certain systems and components shall be approved by the authority having jurisdiction. The Department of California Highway Patrol has jurisdiction over these regulations but does not approve individual systems or components. Users and installers are responsible for use of proper components and for their proper installation as specified in NFPA 58, 1998 edition.

(4) The California Highway Patrol has no authority over LPG storage or dispensing facilities, nor over LPG fuel systems used in conjunction with auxiliary equipment.

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. Amendment of subsections (a) and (b) filed 12-29-81; effective thirtieth day thereafter (Register 82, No. 1).
2. Renumbering of former section 933 to new section 933.1 and new section 933 filed 8-9-99; operative 9-8-99 (Register 99, No. 33).

§ 933.1. Grandfathered Liquefied Petroleum Gas Requirements.

Fuel systems using liquefied petroleum gas (LPG) installed before January 1, 2000, shall comply with Section 933 above, or shall meet the following requirements in addition to those in Section 936 of this title:

(a) Fuel Supply Container. Each LPG fuel supply container shall be constructed, inspected, and permanently marked in accordance with the appropriate DOT regulation or ASME code. Containers constructed to the DOT regulations shall have a minimum service pressure of 240 psi. Containers constructed to the ASME code shall have a minimum working pressure of 250 psi. Every container shall be equipped with an outage valve or fixed liquid level gage to indicate when the container is 79.8% full. A float gage does not meet the requirements for an outage valve or a fixed liquid level gage. Outage valves on containers installed on school buses shall be tamper-resistant or contained within a locked compartment.

(b) Two or More Containers. When two or more containers are used, a backflow check valve shall be installed in each fuel line to prevent pass-

ing of fuel between tanks during filling operations. A hydrostatic relief valve with a pressure setting not lower than 350 psi nor higher than 500 psi shall be installed between the backflow check valves and the gaseous fuel cutoff valve to the carburetor.

(c) Identification Markings. Each LPG fuel supply container shall be permanently marked as follows:

(1) Markings on containers constructed to the ASTM Code shall include:

- (A) Official ASME Code U symbol
- (B) Manufacturer's name, initials, or trademark
- (C) Maximum allowable working pressure (___ psi at ___ F)
- (D) Serial number
- (E) Year built
- (F) The words "FOR LPGAS ONLY" in letters not less than 1 in. high and visible after installation (Decals or stencils are acceptable.)

(2) Permanent markings on containers constructed to DOT regulations shall include:

- (A) The letters DOT or ICC with the appropriate specification and service pressure
- (B) Serial number
- (C) Year tested
- (D) Manufacturer's name, initials, or trademark, as registered with DOT

(E) The words "FOR LPGAS ONLY" or "FOR LPG ONLY" in letters not less than 1 in. high and visible after installation (Decals or stencils are acceptable.)

(3) All container inlets and outlets, except those for relief valves and gaging devices, shall be marked to designate whether they communicate with vapor or liquid space.

(d) Valves. Valves shall be of a type that has been tested and listed by UL or by other nationally recognized testing laboratories as meeting the UL requirements for LPG. All valves shall be securely mounted and shielded or installed in a protected location to prevent damage from vibration and unsecured objects.

(1) Safety Relief Valves. One or more spring-loaded internal safety relief valves shall be installed directly in each fuel container in communication with the vapor space. The markings showing "set to discharge pressure" shall be visible after the valves are installed in the container. Safety relief valves for DOT fuel supply containers shall be approved by the Bureau of Explosives, and the valve setting shall be as required by the Bureau. The safety relief valve setting for ASME containers shall not be less than 100% or more than 110% of the maximum allowable service pressure of the container.

(A) Safety relief valves for ASME fuel containers shall be so constructed as to discharge at not less than the following rates before the pressure is in excess of 120% of the maximum allowable working pressure of the container:

<i>Tank surface area (sq ft)</i>	<i>Air flow rate (cfm)</i>
20 or less	626
25	751
30	872
35	990
40	1,100
45	1,220
50	1,330
55	1,430
60	1,540
65	1,640
70	1,750
75	1,850
80	1,950
85	2,050
90	2,150
95	2,240
100	2,340
110	2,530

115	2,630
120	2,720
125	2,810
130	2,900
135	2,990
140	3,080
145	3,170
150	3,260
155	3,350
160	3,440
165	3,530
170	3,620
175	3,700
180	3,790
185	3,880
190	3,960
195	4,050
200	4,130

(B) Permanent markings on safety relief valves in ASME containers shall include:

1. Manufacturer's name, initials, or trademark
2. Manufacturer's design or type numbers
3. Discharge pressure (___ psi)
4. Discharge capacity (cfm air at 60 F and 14.7 psia)
5. ASME or UL symbol

(C) Permanent markings on safety relief valves in DOT containers shall include:

1. Manufacturer's name, initials, or trademark
2. Catalog number
3. Discharge pressure (___ psi)
4. Discharge capacity (cfm air at 60 F and 14.7 psia).

(2) Excess Flow Valve. An internal excess flow valve, designed to close when maximum volume escapes through the smallest connection in the supply line system, shall be installed in every fuel supply container outlet except relief valve or gaging device outlets. The excess flow valve shall have a bypass not to exceed a No. 60 drill size opening to allow equalization of pressure.

(3) Check Valve. Inlet connections in the fuel supply container shall be fitted with either an internal and external check valve, or an internal check valve with an adjacent or remote manual shut-off valve. The inlet of the filling system shall be capped, except when filling, to withstand the maximum service pressure of the container. All containers installed after January 1, 1973, shall be equipped for remote filling exterior to the vehicle compartment with an internal and external check valve installed in the container.

(4) Vapor Equalizing Valve. A vapor equalizing valve may be installed in the fuel supply container. The valve shall be capped, except when filling, to withstand the maximum pressure of the container.

(5) Shut-off Valve. A manually operated shut-off valve shall be installed directly into the fuel supply container outlet connection serving the supply line and shall be marked with the words "SHUT-OFF VALVE." (Decals or stencils are acceptable.)

(e) Gage. All LPG containers shall be equipped with a liquid volume gage, which shall be designed and installed as follows:

(1) The gaging device shall be of a type that has been listed by UL or by other nationally recognized testing laboratories as meeting the UL requirements for LPG.

(2) The gage shall be securely mounted and shielded or installed in a protected location to prevent damage from excessive vibration and unsecured objects.

(3) A gage that requires bleeding of the product shall be bled to outside of the vehicle compartment and shall be equipped with a bleeder valve. A restricting orifice not larger than No. 54 drill size shall be inside the fuel supply container.

(f) Pressure Reducing Regulator. An automatic pressure reducing regulator or a regulating vaporizer designed to withstand a service pressure of at least 250 psi shall be installed between the LPG fuel supply container and the carburetor. All regulators and vaporizers shall be of a type that has been tested and listed by UL or other nationally recognized testing laboratories as meeting the UL requirements for LPG. The regulator or

vaporizer shall be installed so that its weight is not placed on, or supported alone by, the attached tubing or flexible lines.

(g) Vents. Every compartment in which an LPG container is installed shall be vented to the atmosphere unless all piping and connectors are exterior to the compartment. The vent or vents shall be installed at the lowest practicable point of the compartment and shall have an open area totaling not less than 3 square inches.

(h) LPG Hose for High Pressure Liquid or Vapor Use. Hose and hose assemblies shall have a working pressure of not less than 350 psi and a burst pressure of not less than 1750 psi. Hose shall be reinforced with corrosion-resistant wire braid and shall be of a type that has been tested and listed by UL or by other nationally recognized testing laboratories as meeting the UL requirements for LPG. Hose shall have the following permanent identification markings in letters and numerals at least 1/8 in. in height at intervals of 24 in. or less:

- (1) Manufacturer's name, initials, or trademark
- (2) LPG or LP GAS
- (3) Working pressure

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. Renumbering of former section 933 to new section 933.1, including amendment of section heading, first paragraph and subsection (g), filed 8-9-99; operative 9-8-99 (Register 99, No. 33).

§ 934. Compressed Natural Gas.

Fuel systems using compressed natural gas (CNG) shall meet the following requirements in addition to those in Section 936 of this title:

(a) Fuel Supply Container. Each CNG fuel supply container shall be constructed and inspected in accordance with DOT regulations and shall have a rated service pressure of not less than 2250 psi at 70° F. It shall not be filled beyond the working pressure stamped on the tank and marked near the filler connection, corrected for the ambient temperature at time of filling as prescribed by DOT.

(b) Identification Markings. Each CNG fuel supply container shall have the following identification markings:

- (1) The letters DOT with the appropriate specification and working pressure
- (2) Serial number
- (3) Year tested
- (4) Manufacturer's name, initials, or trademark
- (5) The words "FOR CNG ONLY" in letters at least 1 in. high and visible after installation. (Decals or stencils are acceptable.)

(c) Shut-off Valve. A manually operated shut-off valve shall be in direct communication with the container and shall be marked with the words "SHUT-OFF VALVE." (Decals or stencils are acceptable.) No valve shall be used for CNG unless it has been certified for that purpose by the manufacturer. The shut-off valve shall be securely mounted and shielded or installed in a protected location to prevent damage from vibration and unsecured objects.

(d) Pressure Relief Devices. One or more pressure relief devices shall be installed in the fuel supply container in communication with the fuel and vented to the outside of the vehicle compartment. Relief devices shall be approved as to type, size, quantity, and location by the Bureau of Explosives or meet the DOT Hazardous Materials Regulations in 49 CFR 173.34 and shall have the following permanent identification markings:

- (1) Manufacturer's name, initials, or trademark
- (2) Flow capacity (___ cfm)
- (3) Yield temperature rating (___ F)

(e) Gages. Gages used in CNG systems shall be designed and installed as follows:

(1) Gaging devices shall be designed for the most severe pressure and temperature conditions to which the devices may be subjected with a pressure safety factor of not less than four.

(2) Gages shall be securely mounted and shielded or installed in a protected location to prevent damage from vibration and unsecured objects.

(f) Pressure Reducing Regulators. An automatic pressure reducing regulator or regulators shall be installed in CNG systems to reduce con-

tainer pressure to a value consistent with the working pressure required by the carburetor. Means shall be provided to prevent malfunction due to refrigeration effects. Regulators shall be installed so that their weight is not placed on, or supported alone by, the attaching line or lines. Regulators shall be designed to a container's maximum working pressure and temperature with a pressure safety factor of not less than four.

(g) Vents. Every compartment in which a CNG container is installed shall be vented to the atmosphere, unless all piping and connections are exterior to the compartment or vapor sealed and vented to the atmosphere. The vent or vents shall be installed at the highest practicable point of the compartment and shall have an open area totaling not less than 3 sq in.

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).
2. Amendment of subsection (d) filed 1-25-94; operative 2-24-94 (Register 94, No. 4).
3. Editorial correction of printing error in NOTE (Register 94, No. 4).

§ 934.1. Compressed Natural Gas—NFPA Standard.

Fuel Systems using compressed natural gas (CNG) and installed after April 1, 1994, shall comply with the National Fire Protection Association (NFPA) Standard 52 (NFPA 52) "Compressed Natural Gas Vehicular Fuel Systems Code," or NFPA 52 "Vehicular Fuel Systems Code," in effect at the time of installation. Compressed natural gas fuel systems installed before April 1, 1994, shall comply with either that standard or with Sections 934 and 936 of this title. Additionally, whenever the word "should" appears in NFPA 52, it shall be understood to set forth mandatory requirements.

(a) Approval—NFPA 52 specifies that certain systems and components shall be approved as being acceptable to the authority having jurisdiction. The Department of California Highway Patrol has jurisdiction over these regulations but does not approve individual systems or components. Users and installers are responsible for use of proper components and for their proper installation as specified in the NFPA Standard.

(b) Exceptions—The Department of California Highway Patrol has no authority over CNG storage, dispensing or compression facilities addressed in the NFPA standard.

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. New section filed 1-25-94; operative 2-24-94 (Register 94, No. 4).
2. Amendment filed 8-21-2007; operative 9-20-2007 (Register 2007, No. 34).

§ 935. Liquefied Natural Gas.

(a) NFPA and SAE Standards. This section incorporates by reference the National Fire Protection Association (NFPA) Standard 57, 1996 edition, and the Society of Automotive Engineers (SAE) Standard J2343 Jan 1997.

(1) All liquefied natural gas (LNG) fuel systems installed after January 1, 2000, shall comply with one of the identified standards noted above, in addition to requirements of subsection (b) of this section.

(2) Grandfather Clause. LNG fuel systems installed before January 1, 2000, shall comply with either one of the identified standards noted above, including the additional requirements listed in subsection (b), or with Sections 935.1 and 936 of this title.

(b) Additional Requirements. All LNG fuel systems complying with the NFPA Standard 57, 1996 edition, or the SAE Standard J2343 Jan 1997, shall also comply with the following:

(1) Wherever the word "should" appears in either the NFPA Standard 57, 1996 edition, or the SAE Standard J2343 Jan 1997, it shall be understood to set forth mandatory requirements.

(2) Every motor vehicle equipped with an LNG fuel system shall be equipped with a methane gas detection system which shall warn of the presence of methane in the engine compartment, driver's compartment and any passenger compartments. At a minimum, the methane gas detection system shall provide a warning before the methane gas concentration

reaches the Lower Explosive Limit. Such warning shall be plainly audible and visible to the driver before entering the driver's compartment and while seated in the normal driving position. The gas detection system shall function continuously at all times, whether or not the engine is operating, when the vehicle is operated or parked on public roadways or other areas open to the public.

(3) The LNG container shall meet the drop test requirements of SAE J2343 Jan 97 or equivalent.

(4) Fuel tanks shall be oriented and mounted in accordance with the tank manufacturer's recommendations and in a location designated by the vehicle manufacturer, in the location normally utilized for liquid (gasoline or diesel) fuel containers for that make and model of vehicle, or as determined by a qualified engineer. Fuel tanks shall not be mounted above any driver or passenger compartment, unless a spill pan is installed between the fuel tanks and the compartment, with a liquid capacity equal to at least the capacity of the largest single fuel tank of a multiple tank installation consisting of three or more fuel tanks, but not less than one-quarter the fuel capacity of the containers located above the compartment and capable of preventing liquid from entering the interior or dripping into any window, door or emergency exit way. Spill pans shall be designed in such a manner that rain water is not retained. The spill pan drain shall not be directed into any confined space, the engine compartment, muffler area, battery box or other hazardous location.

(5) Every motor vehicle equipped with an LNG fuel system shall bear a label located at or near the fueling connection that shall include:

- (A) identification of the vehicle as an LNG-fueled vehicle, and
- (B) the maximum allowable working pressure of the vehicle fuel container.

(6) The NFPA Standard specifies that certain systems and components shall be approved by the authority having jurisdiction. The Department of California Highway Patrol has jurisdiction over these regulations but does not approve individual systems or components. Users and installers are responsible for use of proper components and for their proper installation as specified in the NFPA Standard.

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).
2. Renumbering of former section 935 to section 935.1 and new section 935 filed 12-29-99; operative 12-29-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 53).

§ 935.1. Grandfathered Liquefied Natural Gas Requirements.

Fuel systems using liquefied natural gas (LNG) installed before January 1, 2000, and not in compliance with Section 935 above, shall meet the following requirements in addition to those in Section 936 of this title:

(a) Fuel Supply Container. Each LNG fuel supply container shall be constructed and inspected in accordance with 49 CFR 178.57 specification 4L for welded insulated cylinders, including the general requirements contained in 49 CFR 178.35 with the exception of Sections 178.35(e) and 178.35(f). Each LNG container shall meet the following additional requirements:

(1) The unrelieved fuel pressure inside the container shall not exceed 100 psi within a total 72-hour period consisting of 48 hours at 60 degrees F, 12 hours at 70 degrees F, and 12 hours at 90 degrees F ambient temperatures when the container has been filled with LNG conditioned at one atmosphere.

(2) The container shall be equipped with a liquid level gauging device and a dip tube to prevent filling beyond 90% by volume at atmospheric pressure.

(3) Each completed container, including its supporting structure and valves, enclosures, and lines normally attached thereto, shall have structural integrity to withstand damage from deceleration and acceleration forces resulting from 30 mph front-end and rear-end collision of the type of vehicle in which the container is installed. A test or other means shall demonstrate that the container and its openings do not rupture in such collisions.

(4) Fuel Supply Container Markings. Each LNG fuel supply container shall have the following permanent identification markings:

(A) The letters CHP followed by numbers indicating the service pressure

(B) Serial number

(C) Manufacturer's name, initials, or trademark as registered with the Department of California Highway Patrol

(D) Inspector's mark

(E) Date tested

(F) The words "FOR LNG ONLY" in letters not less than 1 in. high and visible after installation. (Decals or stencils are acceptable.)

(G) All inlets and outlets except relief valves and gauging devices shall be marked to designate whether they communicate with vapor or liquid space.

(b) Valves. Valves shall be certified for LNG use by the manufacturer or certified for cryogenic service at temperatures down to and including -320 degrees F. All valves shall be securely mounted and shall be shielded or installed in a protected location to prevent damage from vibration and unsecured objects.

(1) Safety Relief Valves. Each container shall be equipped with one or more safety relief valves. The safety relief valve shall be installed in a line that communicates with the vapor space of the container. A safety relief valve shall be installed between two shut-off valves in a supply line to prevent a buildup of pressure between the valves in the off position. The discharge pressure of safety relief valves shall not exceed 125% of the service pressure of the container. Relief valves shall have sufficient capacity to meet the requirements of either the Bureau of Explosives for approval of safety relief valves or NFPA 59(A) Appendix A and be capable of preventing explosion of the normally charged cylinder when it is placed in a fire. Relief valves shall have the following permanent identification markings:

(A) Manufacturer's name, initials, or trademark

(B) Catalog number

(C) Discharge pressure (___ psi)

(D) Discharge capacity (___ cfm air at 60 degrees F and 14.7 psia).

(2) Shut-off Valves. One manually operated shut-off valve shall be secured directly to the tank vapor outlet with no intervening fitting other than the relief valve and shall be marked with the words "VAPOR SHUT-OFF VALVE." Another manually operated shut-off valve shall be secured directly to the tank liquid outlet and shall be marked with the words "LIQUID SHUT-OFF VALVE." (Decals or stencils are acceptable.) Normally closed automatic shut-off valves that are held open by electrical current may be used in lieu of manual shut-off valves at either the tank vapor port or tank liquid port, or both. An automatic shut-off valve shall be wired so it shuts off when the ignition switch is in the off and accessory positions and when engine vacuum is not present.

(3) Control Valve. A positive shut-off control valve shall be installed in the fuel supply lines as close to the containers as possible, automatically closing off and preventing the flow of fuel to the carburetor when the ignition switch is off or in the accessory position.

(c) Gauges. Gauges used in LNG systems shall be designed and installed as follows:

(1) Gauging devices shall be designed for the most severe pressure and temperature conditions to which the devices may be subjected with a pressure safety factor of not less than four.

(2) All gauges shall be securely mounted and shall be shielded or installed in a protected location to prevent damage from vibration and unse-

cured objects.

(3) Gauging devices that require bleeding of the product shall be bled to the outside of the vehicle compartment.

(d) Pressure Reducing Regulators. LNG systems shall be equipped with one- or two-stage pressure reducing regulators that reduce the pressure to the level certified and approved by the California Air Resources Board. The regulators shall be installed so that their weight is not placed on, or supported alone by, the attaching tubing or flexible lines.

(e) Vents. Every compartment in which an LNG container is installed shall be vented to the atmosphere unless all piping and connectors are exterior to the compartment. The vent or vents shall be installed at the highest practicable point of the compartment and shall have an open area totaling not less than 3 square inches.

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. Renumbering of former section 935 to section 935.1, including amendment of section heading, section and NOTE, filed 12-29-99; operative 12-29-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 53).

§ 936. Installation.

The installation of liquefied petroleum gas, compressed natural gas, or liquefied natural gas fuel systems on motor vehicles equipped with gaseous fuel systems certified or approved by the State Air Resources Board shall be in accordance with the following requirements:

(a) Driver, Passenger, and Luggage Compartments. Fuel supply containers on buses shall not be located in or above the passenger compartment. Fuel supply containers on vehicles other than buses shall be installed and fitted so that no gas from fueling and gaging operations or from relief valves can be released inside the driver, passenger, or luggage compartments.

(b) Fuel Supply Containers. Fuel supply containers shall meet all appropriate requirements of the ASME code, the DOT regulations, or the regulations contained in this article and shall be marked in accordance with Sections 933, 934, and 935 of this article. Cargo containers mounted on a motor vehicle, but not on a trailer or semitrailer, may be used to supply fuel for the propulsion of the vehicle when the container meets the cargo container requirements of Unfired Pressure Vessel Safety Orders, Division of Industrial Safety, Title 8, California Code of Regulations. Fuel supply containers other than cargo containers shall comply with the following requirements:

(1) Each container and container cradle shall be mounted in protected locations to minimize damage from collision.

(2) To prevent damage from road hazards, slippage, loosening, or rotation, each container or cradle shall be secured to the vehicle body, bed, or frame by either of the following means:

(A) By attaching bolts not less than 7/16 in. in diameter that meet SAE Standard J429 for Grade 5 threaded fasteners in the 1965 or later edition of the SAE Handbook and self-locking nuts to at least four securement points and, where bolts pierce body metal but not the frame, by reinforcing both sides of each securement point with metal plates at least 1/8 in. thick and 7 sq. in. in area; or

(B) By using other means capable of withstanding in any direction a static force of eight times the weight of the fully loaded container.

(3) Each container in a cradle shall be secured to its cradle by means capable of withstanding in any direction a static force of eight times the weight of the fully loaded container.

[The next page is 63.]

(4) No portion of the container or container valves in communication with the liquid or vapor shall be located behind the rear frame crossmember of the vehicle.

(5) The weight of the container shall not in any way be supported by outlets, valves, manifold, or other fuel connections.

(6) No part of the container shall be field welded. Only saddle plates, brackets, or other nonpressure parts that were provided and installed by the manufacturer of the container may be field welded.

(7) No container shall be repaired until the contemplated repair has been authorized by a certified inspector. DOT containers shall be repaired under DOT regulations and control. The replacement of valves, fittings, and accessories intended for the same purpose is not considered a repair.

(8) Containers located less than 8 in. from the engine or exhaust system shall be shielded against direct heat.

(c) **Visibility of Required Markings.** Markings of set-to-discharge pressure for safety relief devices and working pressure of fuel supply containers required by Sections 933, 934, and 935 of this article shall be visible either directly or by use of a mirror after installation. All remote filling inlets shall be visibly marked with the lowest working pressure of any fuel supply container in the system.

(d) **Discharge Lines and Outlets.** All safety devices that may discharge to the atmosphere shall be vented to the outside of the vehicle, and all discharge lines and outlets shall be installed as follows:

(1) Lines shall be constructed of metal other than aluminum and shall be of a size and so located and maintained as not to restrict the maximum gas flow of the safety device. Flexible metallic lines shall be used when necessary.

(2) The discharge line of a container installed inside a compartment shall extend to the outside of the compartment.

(3) Lines shall be located as far from the exhaust outlet as is practicable and shall direct escaping gas upward within 45 deg. of the vertical. Escaping gas shall not impinge upon fuel supply containers and shall not be directed into wheel wells, at other vehicles in traffic, or at engine air intake inlets.

(4) The discharge line from the safety relief valve on all buses shall be located at the rear of the vehicle, directed upward, and extended to the top of the vehicle roof.

(5) Outlets shall be protected by caps, covers, or other means to keep water or dirt from collecting in the lines. Protective devices shall not restrict the flow of gas.

(6) Each line and its connectors shall withstand the pressure caused by the discharge of vapor or liquid from a safety device in fully open position.

(7) CNG containers may be vented to the outside of the vehicle with a flexible bag. Such bag shall be constructed of material that is nonflammable or self-extinguishing. The bag and attachments shall be capable of withstanding an internal pressure produced by a flow rate of 300 cfm with a safety factor of not less than four. The bag shall be shielded or installed in a protected location to prevent damage from unsecured objects and abrasion.

(e) **Manifolds.** Manifolds connected to fuel containers shall be supported to minimize vibration and shall be installed in a protected location or shielded to prevent damage from unsecured objects.

(1) A manual shut-off valve shall be installed in the outlet of the manifold and marked with the words "MANUAL SHUT-OFF VALVE." (Decals or stencils are acceptable.)

(2) A normally closed automatic shut-off valve that is held open by electrical current may be used in lieu of a manual shut-off valve and shall be marked with the words "AUTOMATIC SHUT-OFF VALVE." The automatic shut-off valve shall be wired so it shuts off when the ignition switch is in the off or accessory positions and when engine vacuum is not present.

(f) **Pipes, Tubing, Hose, and Fittings.** All pipes, tubing, hoses, and fittings shall meet the following requirements:

(1) All materials and assemblies shall be designed for the widest pressure and temperature ranges to which they may be subjected with a pressure safety factor of at least four.

(2) All material, including gasket and packing material, shall be compatible with the fuel used in the system and its service conditions. Aluminum pipe, tubing, or fittings shall not be used between the container and first-stage regulator. Copper tubing, when used, shall be seamless and conform to ASTM B88 types K or L.

(3) A pipe thread sealant impervious to the action of the fuel used in the system shall be applied to all male pipe threads prior to assembly. Only tin-silver (95% tin, 5% silver) or silver braze alloy is permitted on sweat type joints or fittings.

(g) **Supply Lines.** Supply lines passing through a panel shall be protected by grommets or similar devices, which shall snugly fit both the supply lines and the holes in the panel. Supply lines shall have a minimum clearance of 8 in. from the engine exhaust system unless they are shielded from exhaust heat. Supply lines shall be supported at least every 24 in. and shall be prevented from sagging. Damaged lines shall be replaced, not repaired.

(h) **Automatic Fuel Supply Shut Off.** An automatic fuel supply shut-off valve shall be installed in a protected location adjacent to the manual shut-off valve on all buses and shall be activated by engine vacuum or oil pressure.

(i) **Gaseous Fuel Cutoff.** Means shall be provided in the system to prevent the flow of gaseous fuel to the carburetor when the ignition is in the off or accessory position, or from the carburetor when engine vacuum is not present.

(j) **Liquid Fuel Cut Off.** Dual fuel systems using liquid and gaseous fuel shall have an automatic shut-off valve installed in the liquid fuel line to the carburetor.

(k) **Bypass Relief Device.** A bypass relief device shall be installed in the fuel pump or between the fuel pump and the automatic shut-off valve in the liquid fuel line to the carburetor on vehicles equipped with dual fuel systems for the use of gasoline and gaseous fuel. The relief device need not be installed on fuel pumps containing a bypass relief device as original equipment.

(l) **Engine Exhaust Outlet.** The engine exhaust system shall extend to the outer edge of the vehicle body or bed on passenger cars, station wagons, house cars, pickup trucks with campers, buses, and delivery vans.

(m) **Electrical Equipment.** Radio transmitters, radio receivers, electric motors, or other electrical equipment (except vehicle lamps and wiring) shall not be mounted in a compartment with fuel supply containers unless one of the following conditions is met:

(1) All piping and all connectors and valves on the fuel supply containers are exterior to and sealed from the compartment containing electrical equipment, or

(2) All piping, connectors, and valves within the compartment are contained in a vapor-tight enclosure and vented to the atmosphere exterior of the vehicle, or

(3) The electrical equipment is contained in a vapor-tight enclosure that is vented to the atmosphere exterior of the vehicle, or

(4) The electrical equipment is approved for use in Class I, Division II, "Hazardous Locations," in accordance with Article E501, Title 24, California Code of Regulations.

(n) **Road Clearance.** The fuel system, including the fuel supply container, shall be installed with as much road clearance as practicable. The lowest part of any component in the system, including protective guards, shall not be lower than the lowest edge of the vehicle differential housing under maximum spring deflection, except that on cargo carrying vehicles with a gross vehicle weight rating of 6,000 lbs. or more, the lowest component may be at the lowest part of the vehicle body.

(o) **Vehicle Weight Distribution.** The total weight of the vehicle with the fuel containers filled to capacity shall not exceed the manufacturer's load rating for any axle, wheel, or tire.

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. Amendment of subsection (a) filed 8-15-77; designated effective 9-15-77 (Register 77, No. 34).
2. Amendment of subsection (a) filed 12-28-81; effective thirtieth day thereafter (Register 82, No. 1).
3. Amendment of subsection (b)(2)(A) filed 12-29-81; effective thirtieth day thereafter (Register 82, No. 1).
4. Change without regulatory effect of subsections (b) and (m)(4) filed 2-8-88; operative 3-9-88 (Register 88, No. 7).
5. Amendment of first paragraph filed 1-25-94; operative 2-24-94 (Register 94, No. 4).
6. Editorial correction of printing error in NOTE (Register 94, No. 4).

§ 937. Exemptions.

The Commissioner may grant exemptions from any of the requirements of this article except those requirements governed by the California Air Resources Board when, in his judgement, the request appears reasonable or the results intended by these regulations can be accomplished by alternate methods of compliance. However, no exemption will be granted if, in the opinion of the Commissioner, the exemption would compromise the safety requirements of these regulations. In addition, any exemption granted by the Commissioner is nontransferable and may be rescinded at any time for cause. The California Highway Patrol shall within 90 days of receiving a request for exemption, respond in writing informing the requesting party whether the exemption has been denied or granted. The reason(s) for denial of the request will be included in the written response and the California Highway Patrol's decision is final. No exemptions will be given for motor vehicles manufactured after the effective date of Federal Motor Vehicle Safety Standards addressing gaseous fuel systems.

(1) Application for Exemption. An application for exemption shall be made in writing to the Commissioner, and it shall include the following data:

Reason for requesting an exemption.

Alternate method(s) of compliance.

Make, model and identification number of the vehicle for which the exemption is being requested.

The application shall be mailed to:

CALIFORNIA HIGHWAY PATROL
ENFORCEMENT SERVICES DIVISION
POST OFFICE BOX 942898
SACRAMENTO, CA 94298-0001

(2) Copy of exemption. A copy of any exemption shall be carried in the vehicle(s) for which it was issued at all times, and shall be presented for inspection upon demand by any authorized representative of the Department.

NOTE: Authority cited: Section 2402.6, Vehicle Code. Reference: Section 2402.6, Vehicle Code.

HISTORY

1. New section filed 8-19-94; operative 9-19-94 (Register 94, No. 33).

Article 3. Insigne for Licensed Physicians

§ 970. Design of Physicians' Insigne.

The official insignie developed by the California Medical Association is approved for use as provided in Section 21058 of the Vehicle Code.

NOTE: Authority and reference cited: Section 21058, Vehicle Code.

HISTORY

1. Repealer of former Article 3 (Section 970) and new Article 3 (Sections 970-971) filed 5-30-80; designated effective 7-1-80 (Register 80, No. 22). For prior history, see Register 66, No. 13.
2. Amendment filed 1-12-2006; operative 2-11-2006 (Register 2006, No. 2).

§ 971. Mounting Requirements.

The insignie shall be displayed on the rear of the vehicle and shall be attached at the top of the license plate, or as close thereto as practicable. The size and type of mounting brackets are optional.

NOTE: Authority and reference cited: Section 21058, Vehicle Code.

Article 4. Federally Regulated Equipment

§ 980. Scope.

This article applies to the following federally regulated equipment required by the Vehicle Code to meet requirements established by the department.

- (a) Seat belts.
- (b) Safety helmets.
- (c) Safety glazing materials.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012, 26103, 26104, 26704, 27302, 27305, 27314 and 27802, Vehicle Code.

HISTORY

1. Repealer of former Article 4 (Sections 980-981) and new Article 4 (Sections 980-984) filed 5-30-80; designated effective 7-1-80 (Register 80, No. 22).

§ 981. Test Data.

Test data referred to in Vehicle Code Section 26104 for equipment specified in this article shall include the following information:

- (a) Date of test report.
- (b) Date tests were conducted.
- (c) Standard to which the device was tested.
- (d) Description of the device.
- (e) Type of material used for each major component.
- (f) List of the marks of identification, including size, location, and method of marking.
- (g) One photograph or halftone print of the assembled and disassembled device.

(h) Actual results obtained for each test or measurement required by applicable sections of the Federal Motor Vehicle Safety Standard and referenced specifications. Words such as "complies," "passed," "less than," or "more than" are not acceptable where minimum or maximum requirements are specified in measurable units, except for dimensions checked by go-no-go gages.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

§ 982. Safety Helmet Requirements.

Motorcycle and motorized bicycle safety helmets governed by Vehicle Code Section 27802 shall meet Federal Motor Vehicle Safety Standard No. 218.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103, 26104 and 27802, Vehicle Code.

§ 983. Safety Belt Requirements.

Safety belts governed by Vehicle Code Sections 27302, 27304, 27305 and 27314 shall meet Federal Motor Vehicle Safety Standard No. 209.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103, 26104, 27302, 27305 and 27314, Vehicle Code.

§ 984. Safety Glazing Material.

Safety glazing material governed by Vehicle Code Sections 26701, 26703 and 26704 shall meet and be installed as specified in Federal Motor Vehicle Safety Standard No. 205. Each piece of glazing material shall be permanently marked with the identification described in FMVSS 205 and American National Standard Z26.1-1966 so as to be visible and legible when installed in a vehicle or camper.

Article 4.5. Traffic Signal Priority Device

NOTE: Authority cited for Article 4.5: Sections 2402 and 25352, Vehicle Code. Reference: Section 25352, Vehicle Code.

HISTORY

1. New Article 4.5 (Sections 985-988) filed 6-22-78; designated effective 7-31-78 (Register 78, No. 25).
2. Repealer of Article 4.5 (Sections 985-988) filed 5-30-80; designated effective 7-1-80 (Register 80, No. 22).

Article 5. Seat Belt Assemblies

NOTE: Authority cited for Article 5: Section 2402, Vehicle Code. Reference: Sections 2402.5, 27302, 27304, 27305, and 27314, Vehicle Code.

HISTORY

1. Repeal of Article 5 (Sections 990–997) and new Article 5 (Sections 990–992) filed 10–31–67 as an emergency; designated effective 11–1–67 (Register 67, No. 44). For prior history, see Registers 63, No. 10, 64, No. 5 and 66, Nos. 24 and 36.
2. Certificate of Compliance filed 1–9–68 (Register 68, No. 2).
3. Repealer of Article 5 (§ § 990 through 992) and new Article 5 (§ § 990 through 997) filed 5–25–70; designated effective 1–1–71 (Register 70, No. 22).
4. Repealer of Article 5 (Sections 990–997) filed 5–30–80; designated effective 7–1–80 (Register 80, No. 22). For prior history see Register 72, No. 15 and 71, No. 20.

Article 6. Safety Helmets

NOTE: Authority cited: Section 2402, Vehicle Code. Reference: Sections 2402.5 and 27802, Vehicle Code.

HISTORY

1. Repealer and new Article 6 (Sections 1000 through 1004) filed 4–17–74; designated effective 6–1–74 (Register 74, No. 16). For prior history, see Register 72, No. 12.
2. Repealer of Article 6 (Sections 1000–1004) filed 5–30–80; designated effective 7–1–80 (Register 80, No. 22).

Article 7. Safety Glazing Material

NOTE: Authority cited: Section 2402, Vehicle Code. Reference: Sections 2402.5, 26106 and 26704, Vehicle Code.

HISTORY

1. Repealer and new Article 7 (§ § 1011 through 1018) filed 7–23–70; designated effective 9–1–70 (Register 70, No. 30). For prior history, see Register 64, No. 26.
2. Repealer of Article 7 (Sections 1010–1018) filed 1–30–80; designated effective 7–1–80 (Register 80, No. 22).

Article 8. Sirens

§ 1020. Scope.

This article applies to sirens for use on authorized emergency vehicles in accordance with Vehicle Code Section 27002.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103, 26104, and 27002, Vehicle Code.

HISTORY

1. Repealer of Article 8 (Sections 1020–1029) and new Article 8 (Sections 1020–1029) filed 12–1–77; designated effective 1–1–78 (Register 77, No. 49). For prior history, see Registers 65, No. 17, 67, No. 22, 69, No. 15, 75, No. 22, 75, No. 45 and 76, No. 3.
2. Repealer of Article 8 (Sections 1020–1029) and new Article 8 (Sections 1020–1029) filed 5–22–80; designated effective 7–1–80 (Register 80, No. 21).

§ 1021. Definitions.

(a) A “siren” is an audible warning device that produces the readily recognizable warning sound identified with emergency vehicles. An audible device, such as a vehicle theft alarm, that produces a sound with one or more of the following characteristics is not a siren:

- (1) an unvarying sound.
 - (2) a varying sound that cycles at a rate faster than 400 cycles per minute.
 - (3) a discontinuous sound that repeats at rates lower than 90 cycles per minute or higher than 400 cycles per minute.
 - (4) a sound frequency (and any second harmonics) lower than 100 Hz or higher than 5,000 Hz.
- (b) An “authorized emergency vehicle siren” is a device that meets the requirements of this article.
- (c) An “electromechanical siren” consists of a stator and rotor driven by an electric motor.
- (d) An “electronic siren” consists of an oscillator, amplifier, and speaker.

[The next page is 65.]

(e) A “mechanical siren” consists of a stator and rotor driven by a mechanical connection to a moving part of the vehicle or engine.

(f) “Manual” means a siren control that allows the operator to produce a wailing sound by alternately applying and releasing a momentary contact switch.

(g) “Wail” is a siren sound producing a slow, continuous automatic cycling of increasing and decreasing frequencies and sound levels.

(h) “Yelp” is a siren sound producing a rapid, continuous automatic cycling of increasing and decreasing frequencies and sound levels.

(i) “Hi-Lo” means a nonsiren sound alternating between a fixed high and a fixed low frequency.

(j) “ANS” means a standard adopted by the American National Standards Institute, Inc., 1430 Broadway, New York, NY 10018.

(k) “SAE” means a standard or recommended practice of the Society of Automotive Engineers, 400 Commonwealth Drive, Warrendale, PA 15096.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103, 26104 and 27002, Vehicle Code.

§ 1022. Test Data.

Test data referred to in Vehicle Code Section 26104 for equipment subject to requirements established by the department under Vehicle Code Section 26103 shall include the following information:

(a) Date of the test report.

(b) Date tests were conducted and the location of the anechoic test chamber.

(c) Name and address of the testing agency, and names of technical personnel conducting the test.

(d) Descriptions of the siren, including photographs or half tone prints of the assembled and disassembled device.

(e) List of the marks of identification on the siren or amplifier, control head, speaker and driver, including size, location, method of marking, and method of securing any nameplate.

(f) Number of speakers and wattage rating of each speaker.

(g) Make and model of test equipment:

- (1) Sound level meter
- (2) Calibrator
- (3) Frequency analyzer
- (4) Graphic recorder
- (5) Voltmeter
- (6) Wattmeter
- (7) Power supply

(h) Actual results obtained for each siren test required by this article.

(1) Sound level measurements at each required test point of each siren mode.

(2) Maximum sound level in either the 1000 or 2000 Hz octave bands of each siren mode.

(3) Maximum wattage delivered to the speaker in each mode.

(4) Cycling rate of wail and yelp sound.

(i) Graphic recordings of each siren mode showing the sound level output at and between required test points and the octave band containing the maximum sound output.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

HISTORY

1. Editorial correction of NOTE (Register 81, No. 44).

§ 1023. Identification Markings.

Sirens and components shall be marked as follows:

(a) Siren Markings. Each siren shall be permanently marked with the manufacturer's or vendor's name, initials, or lettered trademark and a model designation in letters and numerals at least 3 mm (0.12 in.) in height.

(b) Component Markings. Each major component of an electronic siren, including the speaker, speaker driver, amplifier, and control panel (if separate from the amplifier), and each mechanical and electromechanical siren shall contain the required markings.

(c) Driver Markings. Speaker drivers for electronic sirens shall be marked to include the rms wattage in addition to the markings required in preceding subsection (a).

(d) Control Markings. Electronic siren controls shall be marked to indicate each siren function by the words “Manual,” “Wail,” and “Yelp” spelled out or abbreviated. Markings for other nonpermitted functions, such as “Hi-Lo,” may remain on the control panel provided the function is made inoperable on sirens manufactured after January 1, 1978.

(e) Permanence of Markings. Required identification markings shall be molded, etched, embossed, stamped, engraved, or printed with epoxy paint or screening ink on the device or on a metal label of substantial thickness permanently affixed to the device by welding or metal fasteners. Speaker driver markings may be of indelible ink or nonepoxy paint when protected by coverings or they may be stamped on a metal plate attached by a screw.

(f) Visibility of Markings. Required siren markings, except those on the speaker driver and on speakers mounted within warning lamp housings, shall be clearly visible when the siren is installed on a vehicle. Amplifier markings may be on the front, top, sides, or bottom of the case provided they are in a location where they are legible to a person inspecting the component without using mirrors or removing the component when it is installed in a vehicle. The markings on devices in vehicles licensed under Section 5001 of the Vehicle Code need not be visible in the installed position.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

HISTORY

1. Editorial correction of NOTE (Register 81, No. 44).

§ 1024. Instrumentation for Testing.

Equipment used to test sirens shall meet the following requirements:

(a) Sound Measuring System. The sound measuring system shall meet the requirements of SAE J184a, June 1978.

(b) Octave Band Analyzer. The octave band analyzer shall meet the requirements of ANS S1.11-1966.

(c) Turntable. The turntable shall have a diameter of at least 300 mm (12 in.) and shall operate at a constant speed.

(d) Test Fixture. The fixture used for electromechanical and electronic siren tests shall be a rigid tripod 1.20 m \pm 50 mm (4 ft \pm 2 in.) in height, constructed of 13-mm (0.5-in.) tubular material, mounted on a turntable, and fitted with a 300-mm (12-in.) square platform.

(e) Wattmeter. The wattmeter for measuring amplifier output shall be a Weston Model 310 Form 3, or equal, with a frequency range from dc to 1600 Hz, field ratings of 10 A and 62.5 V, a scale range of 250 W, and 1% accuracy.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

HISTORY

1. Editorial correction of NOTE (Register 81, No. 44).

§ 1025. Testing Sites.

Sites for laboratory or field tests of sirens shall comply with the following requirements:

(a) Laboratory Tests. A laboratory test site shall consist of an anechoic chamber that meets the requirements of ANS S1.13-1971.

(b) Open Field Tests. An open field test site for mechanical siren testing shall consist of a flat paved area at least 15 m (49 ft) in diameter and free of large vertical sound-reflecting surfaces within 15 m (49 ft) of the microphone and siren except for the test vehicle.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

HISTORY

1. Editorial correction of NOTE (Register 81, No. 44).

§ 1026. Microphone and Personnel Stations.

Sound level meter microphones and technicians shall be stationed as follows:

(a) Microphone Location. The microphone used for testing an electromechanical or electronic siren shall be located 3.00 m \pm 6 mm (9.8 ft

± 0.24 in.) from the edge of the siren horn or projector, in line with the siren axis, and at the same height as the siren. The microphone used for testing a mechanical siren shall be located 1.20 m ± 50 mm (4 ft ± 2 in.) above the test surface and 3.00 m ± 6 mm (9.8 ft ± 0.24 in.) from the nearest part of the siren.

(b) **Microphone Orientation.** The microphone shall be oriented in relation to the sound source in accordance with the instrument manufacturer's instructions. If the instruction manual does not include adequate information, a specific recommendation shall be obtained from the manufacturer.

(c) **Personnel Location.** During laboratory tests, technicians and observers shall remain outside the anechoic chamber. During field tests, persons other than the operator of the vehicle shall be positioned no closer than 3 m (9.8 ft) from the microphone or the siren.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

HISTORY

1. Editorial correction of NOTE (Register 81, No. 44).

§ 1027. Siren Test Procedures.

(a) **Mounting of Test Sample.** Mechanical sirens shall be mounted on a vehicle for open field testing. Electromechanical sirens and electronic siren speaker assemblies shall be mounted on a test fixture secured to a turntable in an anechoic chamber as follows:

(1) **Height Above Turntable.** The height, measured from the lower edge of the siren stator housing of electromechanical sirens or from the lower edge of the speaker bell of electronic sirens to the face of the turntable, shall be 1.2 m ± 76 mm (4 ft ± 3 in.).

(2) **Distance from Surface of Test Area.** Sirens shall be located as far from the walls of the anechoic chamber as practicable.

(b) **Power Supply.** The electrical power supply for testing electromechanical and electronic sirens shall be as follows:

(1) **Electromechanical Sirens.** The power supply for the electromechanical siren under test shall be a battery of the correct rated voltage with a cold cranking performance rating at -18° C (0° F) of from 550 A to 620 A and a rated minimum reserve capacity at 26.7° C (80° F) of 140 min. The battery shall be at full charge and in good condition at the start of the test.

(2) **Electronic Sirens.** The power supply for electronic sirens shall be a well-filtered, voltage-regulated power source meeting at least the requirements of SAE J823c, January 1975. The voltage measured at the power supply output terminals with the siren operating shall be as follows:

<i>Rated voltage</i>	<i>Test voltage for sound level</i>	<i>Test voltage for wattage</i>
6	6.5	7.2
12	13.6	15.0

(c) **Sound Level Meter Operation.** The sound level meter shall be operated in accordance with the instrument manufacturer's instructions and as follows:

(1) **Sound Level Meter Setting.** The sound level meter shall be set for the A-weighted network and fast response.

(2) **Octave Band Analyzer.** The octave band analyzer shall be operated to determine the octave band containing the maximum sound output in each siren mode.

(3) **Calibration Check.** An external calibration check shall be made before and after each period of use and at intervals not exceeding 2 h when the sound measuring instrument is used for a period longer than 2 h.

(4) **Ambient Sound.** Measurements shall be made only when the A-weighted ambient sound level, including wind effects and all other sound sources, is at least 10 dB(A) lower than the sound level of the siren.

(d) **Siren Operation.** The mounted siren shall be operated to determine the sound level output under each function at the established test points as follows:

(1) Electromechanical and electronic siren speakers shall be rotated from at least 50 deg left to 50 deg right of the center of the siren axis at a constant speed during the siren operation.

(2) Mechanical sirens shall be tested when mounted on a stationary vehicle and operated at speeds equivalent to a road speed of 30 to 80 km/h (19 to 50 mph) to determine maximum noise output straight ahead of the vehicle (the vehicle may be mounted on rollers). The speed at which maximum sound level occurs shall be continued while the microphone is moved from 50 deg left to 50 deg right of the center of the vehicle axis. NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

HISTORY

1. Editorial correction of NOTE (Register 81, No. 44).

§ 1028. Performance Requirements.

(a) **Siren Functions.** Electronic sirens shall have a wail function and may also have manual and yelp functions. No other function is permitted on sirens sold after January 1, 1982, except for voice communication. Sirens shall meet the following requirements in addition to the sound levels specified in Table I:

(1) **Wail.** The wail function shall have an automatic undulating pitch rate of not less than 10 nor more than 30 oscillations per minute. The sound level shall not drop more than 10 dB(A) below the required values in Table I during the lowest portion of any cycle.

(2) **Manual.** Electronic sirens manufactured after January 1, 1982, which include a manual function shall use the vehicle horn ring or any other manual momentary contact switch to allow the vehicle operator to switch between the wail and yelp functions, to momentarily override the descending sound pattern of the automatic cycle when the control is set at "wail," or to produce a manually-cycled wail when the control is set at "manual."

(3) **Yelp.** The yelp function shall have an automatic undulating pitch rate of not less than 150 nor more than 250 oscillations per minute, except for sirens sold prior to July 1, 1980.

(b) **Sound Level Output.** Two classes of sirens, A and B, are established based on the A-weighted sound level output measured at the angles specified in Table I. The sound level measurements of electronic sirens shall be started immediately after the siren has been operated for one minute. A deviation of 1 dB(A) below the specified value shall be allowed at any three of the eleven test points.

Table I. Minimum A-Weighted Sound Level at 3.0 m (9.8 ft)

<i>Rotation deg left and right from axis</i>	<i>Sound Level, dB(A) Class A</i>	<i>Class B</i>
0	120	115
10	119	114
20	118	113
30	117	112
40	115	110
50	113	108

(c) **Siren Classification.** The A or B overall classification of a siren shall be the class of the lowest performing function incorporated in the siren. The reported sound level for each test point under manual operation shall be the steady-state level reached during continuous activation. The reported sound level for the wail and yelp functions at each test point shall be the average of the levels reached by five consecutive major peaks.

(d) **Frequency Requirements.** The maximum sound level in the axis of the siren shall occur in either the 1000- or the 2000-Hz octave bands for all functions.

(e) **Electronic Siren Wattage.** The wattage drawn by speakers of electronic sirens shall not exceed the following requirements when tested at the voltages specified in Section 1027(b) of this article. The voltage leads of the wattmeter shall be connected to the speaker terminals on the amplifier, and readings shall be taken in the order of manual, wail, and yelp.

(1) At the voltage specified for the sound level tests, the measured wattage after 1 min and before 3 min of operation shall not exceed the rating of the driver.

(2) At the voltage specified for wattage tests, the wattage shall not exceed 105% of the rating of the driver when measured after 10 min of operation.

(3) The wattage recorded for wail and yelp shall be the mathematical average of the high and low readings of five continuous cycles as the signal varies.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 26103 and 26104, Vehicle Code.

HISTORY

1. Editorial correction of NOTE (Register 81, No. 44).

§ 1029. Installation Requirements.

Sirens and speakers installed on authorized emergency vehicles shall be mounted as follows:

(a) Electromechanical and Mechanical Sirens. Class A electromechanical and mechanical sirens shall be mounted outside, between the grille and radiator, or under the hood. Class B electromechanical and mechanical sirens shall be mounted outside or between the grille and the radiator. Mechanical motorcycle sirens that do not operate when the vehicle is stationary shall not be installed on motorcycles manufactured after January 1, 1981.

(b) Electronic Sirens. Class A and B electronic sirens installed after January 1, 1976, shall be mounted outside or with the horn opening facing forward ahead of the radiator with a relatively open path for the sound to project forward. The horn axis shall be parallel to the road and vehicle centerline.

(c) Dual Speakers. Dual speakers for electronic sirens shall be connected in phase and mounted so that the speaker axis is parallel to the vehicle centerline or angled outward not more than 10 degrees to the sides.

(d) Speakers in Lightbars. Electronic siren speakers may be mounted facing forward behind a speaker grille in a lightbar.

(e) Transfer. A siren, except a motorcycle mechanical siren, meeting the requirements established by the department at the time it was first installed on an authorized emergency vehicle may be transferred between authorized emergency vehicles by the owner or sold by the owner for use on other authorized emergency vehicles.

NOTE: Authority cited: Section 26103, Vehicle Code. Reference: Sections 24012 and 26103, Vehicle Code.

Article 9. Exhaust System Noise Measurement

§ 1030. Scope.

NOTE: Authority cited: Sections 2402 and 27150.2, Vehicle Code. Reference: Sections 2500–2504, 2540–2549, and 27150.2, Vehicle Code.

HISTORY

1. New Article 9 (Sections 1030–1036) filed 11–25–75; designated effective 1–1–77 (Register 75, No. 48). For history of former Article 9, see Register 74, No. 14.
2. Order of Repeal filed 8–26–82 by OAL pursuant to Government Code Section 11349.7(j) (Register 82, No. 35).

§ 1031. Definitions.

The following definitions shall apply wherever the terms are used in this article:

(a) Exhaust System. An “exhaust system” consists of all pipes, converters, and chambers through which the exhaust gas flows from the engine exhaust manifold outlet flange to the end of the tailpipe.

(b) Maximum RPM. “Maximum rpm” for 1972 and later year model vehicles is the highest governed engine speed or, if ungoverned, the rpm at maximum engine net horsepower as determined by the engine manufacturer in accordance with SAE Standard J245 in the 1971, or any later, edition of the SAE Handbook. For earlier year models, “maximum rpm” is the highest governed engine speed or, if ungoverned, the rpm at maxi-

mum engine net or gross horsepower as specified by the vehicle manufacturer.

(c) Approved Laboratory. An “approved laboratory” has facilities and equipment for testing sound measuring equipment to American National Standards Institute Standard S1.4–1971.

NOTE: Authority cited: Section 27150.2, Vehicle Code. Reference: Sections 2500–2504, 2540–2549, and 27150.2, Vehicle Code.

HISTORY

1. Amendment of subsection (b) filed 8–20–81; effective thirtieth day thereafter (Register 81, No. 34).
2. Amendment filed 6–28–82; effective thirtieth day thereafter (Register 82, No. 27).

§ 1032. Instrumentation.

Equipment used in making exhaust system sound level measurements shall meet the following requirements:

(a) Sound Level Meter. A sound level meter complying with ANS S1.4–1971, issued by the American National Standards Institute, Inc., 1430 Broadway, New York, NY 10018, shall be used to measure the exhaust noise. Type 1 or S1A sound level meters shall be used for exhaust system manufacturers’ certifications. Type 1, S1A, 2, or S2A sound level meters shall be used by licensed muffler stations and enforcement personnel.

(b) Tachometer. A tachometer shall be used to determine the rpm ranges specified in Section 1036(c) of this title.

(1) Characteristics. Tachometers shall have the following characteristics:

(A) Accuracy of ± 100 rpm over a range of 2,200 to 5,000 rpm.

(B) A scale of at least 3 in. (76 mm) graduated in increments of not more than 100 rpm, or a digital readout, and a full-scale reading of at least 6,000 rpm.

(C) Capability for operation on all common 6- and 12-V ignition systems, and direct reading on 1-, 2-, 4-, 6-, and 8-cylinder engines with 2- or 4-stroke cycles. Separate instruments may be used to cover the required range of engine types.

(D) Solid-state circuitry with radio frequency suppression.

(E) Attachment to the engine by direct connection to coil, distributor, or tachometer terminal, or by clamping an inductive pickup with shielded cable over one spark plug wire.

(F) Operative ambient temperature range of 32° to 122° F (0 to 50° C), storage temperature range of 0° to 160° F (–17.8° to 71.1° C), and ambient relative humidity range of 10 to 90%.

(G) Capability for calibration checks and adjustments. If an external calibrator is used, it must be provided with the instrument or be readily available in the station.

(2) Instructions. Instructions for proper use and for maintaining correct calibration shall be provided by the instrument manufacturer.

(c) Calibrator. An acoustic calibrator of the coupler type, accurate to within ± 0.5 dB, shall be available for calibration of sound level meters.

(d) Windscreen. An open-cell, foam windscreen recommended by the manufacturer of the sound level meter shall be used to protect the microphone.

NOTE: Authority cited: Section 27150.2, Vehicle Code. Reference: Sections 2500–2504, 2540–2549, and 27150.2, Vehicle Code.

HISTORY

1. Amendment filed 6–16–77; designated effective 7–15–77 (Register 77, No. 25).
2. Amendment of subsection (a) filed 8–20–81; effective thirtieth day thereafter (Register 81, No. 34).

§ 1033. Instrument Calibration.

The sound measuring set, consisting of the sound level meter, microphone, calibrator, and any cables, shall be submitted to the instrument manufacturer’s designated calibration and repair facility or an approved laboratory for calibration, adjustment, and repair at least once every two years. The tachometer shall be maintained in calibration in accordance with the tachometer manufacturer’s calibration instructions. Exhaust system manufacturers may repair and calibrate their own instruments when the calibration standards are traceable to the National Bureau of

Standards in the United States or the national standards body in the country in which the laboratory is located.

HISTORY

1. Amendment filed 6-16-77; designated effective 7-15-77 (Register 77, No. 25).

§ 1034. Training and Positioning of Personnel.

Personnel shall be trained and positioned during noise tests as follows:

(a) Training. Persons testing exhaust systems shall have received training in the calibration, use, and maintenance of noise measuring instruments and shall be knowledgeable of the stationary test procedures published by the department. Trained personnel shall be capable of demonstrating their proficiency to departmental representatives.

(b) Positioning. The positioning of sound measurement technicians and bystanders shall be as follows:

(1) Technician Location. The technician making readings of the meter shall be positioned in relation to the microphone in accordance with the instrument manufacturer's instructions. The technician shall not be between the microphone and the axis of the exhaust outlet.

(2) Bystander Location. During sound measurements, bystanders shall not be within 10 ft (3.0 m) of the microphone or the vehicle being measured, except for one witness or trainee positioned behind the technician in line with the technician and the microphone. This requirement does not apply to persons in the vehicle.

HISTORY

1. Amendment of subsection (a) filed 6-16-77; designated effective 7-15-77 (Register 77, No. 25).

§ 1035. Meter Operation.

A sound level meter shall be used according to the instrument manufacturer's instructions and as follows:

(a) Microphone Orientation. The microphone shall be oriented in relation to the source of the sound as specified by the microphone manufacturer. Where the instruction manual does not include adequate information, specific orientation recommendations shall be obtained from the manufacturer.

(b) Meter Setting. The sound level meter shall be set for the A-weighted network and slow response.

(c) Calibration Check. An external calibration check shall be made before and after each period of use and at intervals not exceeding 2 h during continued use.

(d) Ambient Sound. Measurements shall be made only when the A-weighted ambient sound level, including noise from wind and all sources other than the vehicle being measured, is at least 10 dB lower than the sound level of the vehicle.

(e) Temperature and Humidity. Measurements shall not be made when the temperature is lower than 0° F (-18° C) or higher than 122° F (50° C) or the relative humidity is lower than 10% or higher than 95%. Calibration checks shall be made frequently enough to stabilize the readings under the particular weather conditions.

§ 1036. Passenger Cars and Light Trucks and Buses.

Exhaust systems for motor vehicles, other than motorcycles, with a manufacturer's gross vehicle weight rating of less than 6,000 lb (2,722 kg) shall comply with the specified noise limits when tested in accordance with the following specifications:

(a) Measuring Site. The vehicle under test shall be positioned either on outdoor pavement or on a shop floor (but not over a hoist or pit) in a location where the exhaust outlets are near an open shop door. No sound-re-

flecting surface other than the pavement and the vehicle being measured shall be within 10 ft (3.0 m) of any part of the vehicle.

(b) Microphone Location. The microphone for the sound level meter shall be at the same height as the center of the exhaust outlet. The microphone shall be no closer to the pavement than 8 in. (203 mm) when the exhaust outlet is lower than this height (Figure 1). The microphone shall be positioned with its longitudinal axis parallel to the ground, 20 ± 1 in. (508 ± 24 mm) from the nearest edge of the exhaust outlet, and 45 ± 10 deg from the axis of the outlet (Figure 2). For exhaust outlets located under the vehicle body, the microphone shall be located at the specified angle and at least 8 in. (203 mm) from the nearest part of the vehicle. For exhaust outlets that make an angle of 45 deg or less with the longitudinal axis of the vehicle, the microphone shall be outboard of the exhaust axis. For exhaust outlet angles of more than 45 deg, the microphone shall be on the side of the exhaust axis to the rear of the vehicle (Figure 3).

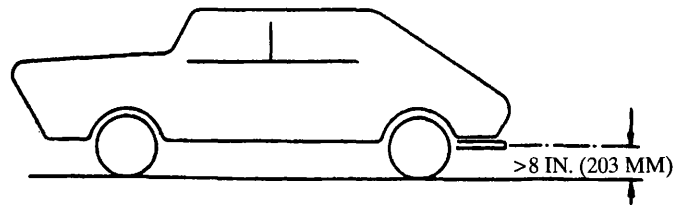

Figure 1. Microphone Height

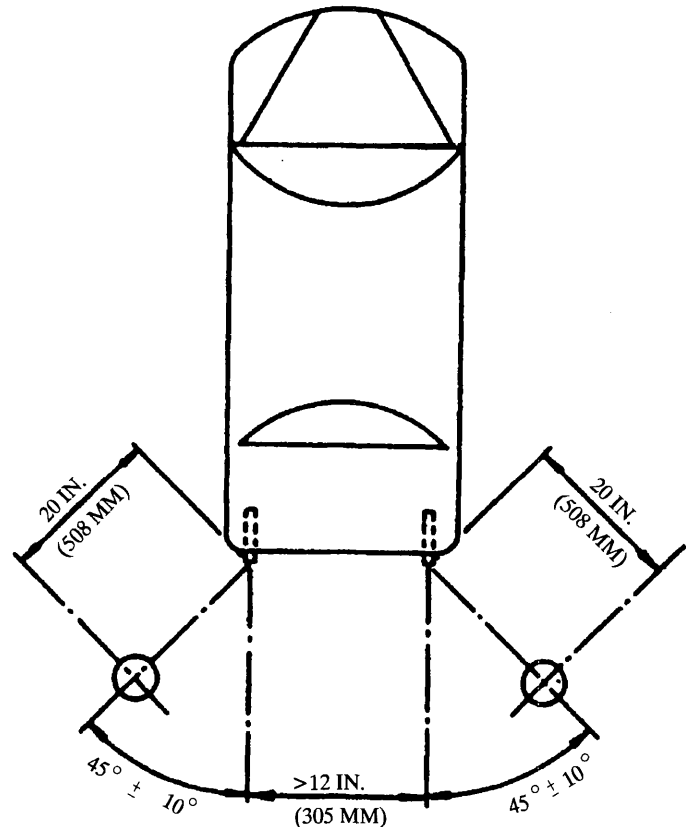

Figure 2. Placement of Microphone, Usual Exhaust Location

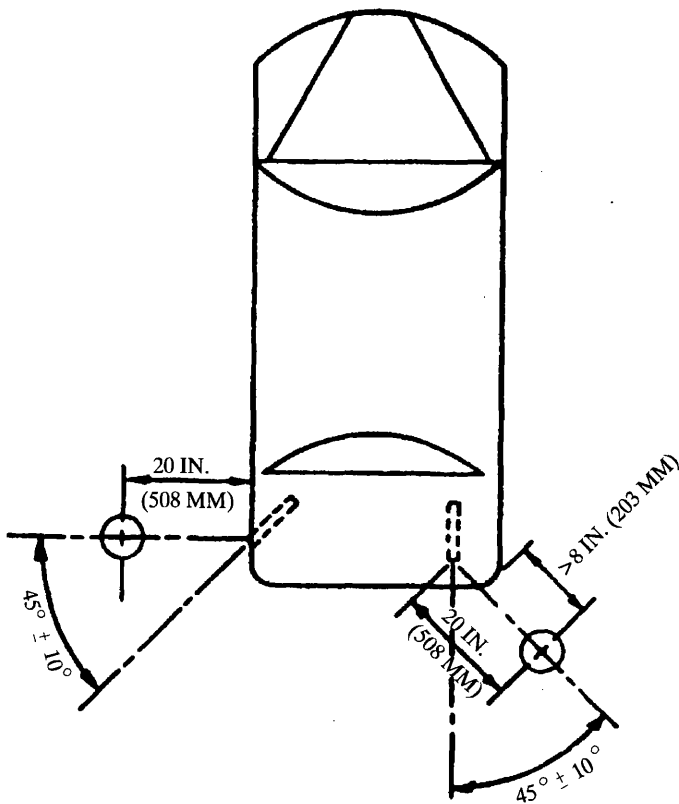

Figure 3. Placement of Microphone, Exhaust Under Body

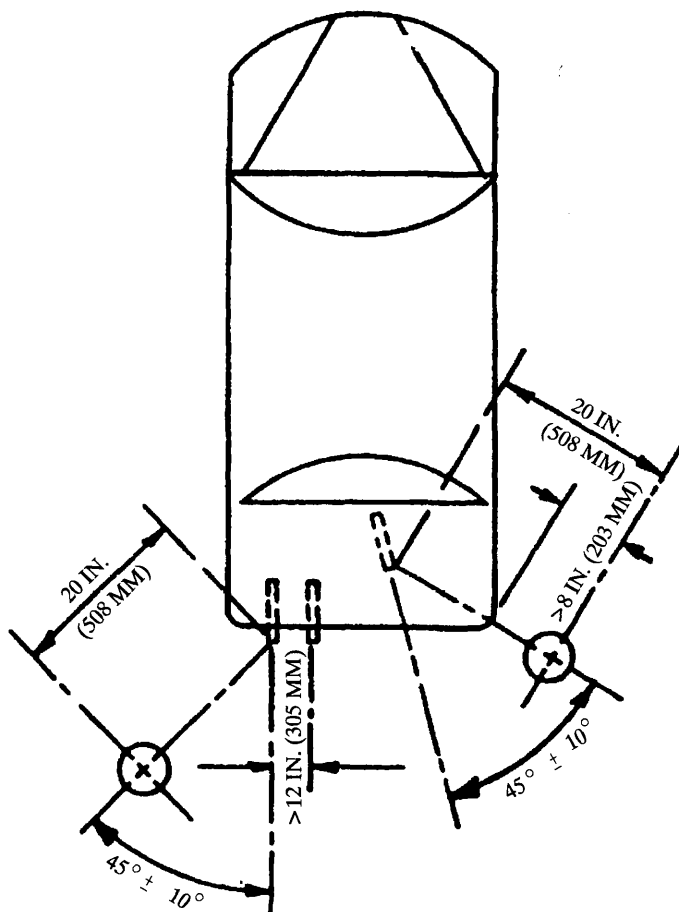

Figure 4. Placement of Microphone, Exhausts Close Together

(c) Engine Operation. The engine shall be at normal running temperature with the transmission in neutral. Sound level measurements conducted for certification by exhaust system manufacturers shall be made at an average steady-state engine speed of three-quarters of maximum rpm. Sound level measurements conducted by licensed muffler certification stations shall be made at an average steady-state engine speed of 3,000 rpm for vehicles manufactured before 1972 for which the station does not have maximum rpm data.

(d) Exhaust Sound Level Measurement. The recorded exhaust system sound level of a stationary vehicle shall be the highest reading obtained during the test, disregarding unrelated peaks due to extraneous ambient noise. When there is more than one exhaust outlet, the reported sound level shall be for the loudest outlet. When there are two or more exhaust outlets separated by less than 12 in. (305 mm), measurements shall be made on the outlet closest to the side or rear of the vehicle (Figure 4). The sound level for motor vehicles with manufacturers' gross vehicle ratings of less than 6,000 lb (2,722 kg), except motorcycles, shall not exceed the following limit:

(1) Sound Level Limit. The exhaust noise shall not exceed 95 dB(A).

(2) Exception. The exhaust noise of vehicles manufactured after 1967 may exceed 95 dB(A) if the replacement parts are no louder than the original equipment or "factory duplicate" system and the total sound level of the vehicle when tested in accordance with Sections 1040 through 1049 of this title complies with the limits in Vehicle Code Section 27205 for the year of manufacture of that vehicle.

Article 10. Vehicle Sound Measurement

§ 1040. Scope.

NOTE: Authority cited: Sections 23130, 23130.5, 27200, 27207 and 38370, Vehicle Code. Reference: Sections 23130, 23130.5, 27200-27207 and 38370, Vehicle Code.

HISTORY

1. Repealer of Article 10 (Sections 1040-1049) and new Article 10 (Sections 1040-1047) filed 3-26-79; designated effective 5-1-79 (Register 79, No. 13). For prior history, see Registers 76, No. 5; 73, No. 48; 73, No. 38; 73, No. 35; 71, No. 50; 68, No. 2.
2. Order of Repeal filed 8-26-82 by OAL pursuant to Government Code Section 11349.7(j) (Register 82, No. 35).

§ 1041. Definitions.

(a) "Exhaust system" means all pipes, converters, and chambers through which the exhaust gas flows from the engine exhaust manifold outlet flange to the end of the tailpipe.

(b) "Microphone line" means an unmarked reference line running parallel to the vehicle path and passing through the microphone.

(c) "Microphone target point" means the unmarked location on the center of the lane of travel that is the closest to the microphone.

NOTE: Authority cited: Sections 23130, 23130.5, 27200, 27207 and 38370, Vehicle Code. Reference: Sections 23130, 23130.5, 27200-27207 and 38370, Vehicle Code.

HISTORY

1. Amendment filed 6-28-82; effective thirtieth day thereafter (Register 82, No. 27).
2. Amendment filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).

§ 1042. Training and Positioning of Personnel.

(a) Training—Persons selected to measure vehicle sound levels shall have received training in the techniques of sound measurement and the operation of sound measuring instruments.

(b) Technician Positioning—The technician making direct readings of the meter shall be positioned in relation to the microphone in accordance with the instrument manufacturer's instructions. Where the instruction manual is vague or does not include adequate information, a specific recommendation shall be obtained from the manufacturer. The technician shall be no closer to the microphone than 1 m (3.3 ft) for new-vehicle tests and 0.6 m (2 ft) for highway and stationary tests.

(c) Bystander Positioning—During sound measurements, bystanders shall be no closer to the microphone or the vehicle being measured than

the distance between the microphone and the microphone target point, except for a witness or trainee, who may be positioned behind the technician on a line with the technician and the microphone.

NOTE: Authority cited: Sections 23130, 23130.5, 27200, 27207 and 38370, Vehicle Code. Reference: Sections 23130, 23130.5, 27200–27207 and 38370, Vehicle Code.

HISTORY

1. Amendment of subsection (c) filed 11–20–84; effective thirtieth day thereafter (Register 84, No. 47).

§ 1043. Instrumentation Requirements.

(a) **Sound Level Meter.** Sound level meters used for measurements of vehicles in use shall meet the requirements for Types 1, 2, S1A, or S2A in the American National Standard Specification for Sound Level Meters S1.4–1971 or 1983, the requirements for Type 1, 2, 1A, or 2A in the International Electrotechnical Commission Publication 651, “Sound Level Meters,” or the requirements in the International Electrotechnical Commission Publication 179, “Precision Sound Level Meters.” Sound level meters used for new-vehicle measurements shall meet the Type 1 or S1A requirements of the American National Standard Specification for Sound Level Meters, S1.4–1971 or 1983. As an alternative to making direct measurements using a sound level meter, a microphone or sound level meter may be used with a magnetic tape recorder and/or a graphic level recorder or other indicating instrument provided the system meets the requirements of SAE J184a, July 1978.

(b) **Sound Level Calibrator.**—An acoustic sound level calibrator of the microphone coupler type shall be used to calibrate the entire sound level measurement system. The calibrator shall be calibrated at least annually.

(c) **Tachometer.**—An engine speed tachometer with an accuracy of $\pm 2\%$ of the meter reading shall be used to determine when maximum rpm is attained in new-vehicle tests.

(d) **Anemometer.**—An anemometer with an accuracy of $\pm 10\%$ of the reading for wind speeds of 19.3 to 33.2 km/h (12 to 20 mph) shall be used to measure the wind speed at the measurement site at times when there is wind.

(e) **Windscreen.**—A properly installed microphone windscreen recommended by the manufacturer of the sound level meter may be used.

NOTE: Authority cited: Sections 23130, 23130.5, 27200, 27207 and 38370, Vehicle Code. Reference: Sections 23130, 23130.5, 27200–27207 and 38370, Vehicle Code.

HISTORY

1. Amendment of subsection (a) filed 7–1–83; effective thirtieth day thereafter (Register 83, No. 27).
2. Amendment of subsection (a) filed 11–20–84; effective thirtieth day thereafter (Register 84, No. 47).

§ 1044. Sound Level Meter Operation.

The sound level meter shall be operated in accordance with the instrument manufacturer’s instructions and as follows:

(a) **Microphone Orientation.**—The microphone shall be oriented in relation to the source of the sound in accordance with the instrument manufacturer’s instructions. If the instruction manual does not include adequate information, a specific recommendation shall be obtained from the manufacturer.

(b) **Meter Setting.**—The meter shall be set for the A-weighting network and fast response.

(c) **Calibration Check.**—The sound level measuring system shall be calibrated with an external acoustic calibrator before and after each test sequence and at intervals of 5 to 15 min. at the beginning of each test sequence until it has been established that the system has not drifted more than 0.3 dB(A) from its previous calibration level. Subsequent calibration intervals shall not exceed 1 h for sound level measurements of vehicles operated on the highway.

(d) **Meter Reading.**—The recorded reading shall be the highest sound level obtained as the vehicle passes by, disregarding unrelated peaks due to extraneous ambient noises.

(e) **Ambient Sound.**—Measurements shall be made only when the A-weighted ambient sound level, including wind effects and all sources other

than the vehicle being measured, is at least 10 dB(A) lower than the sound level of the vehicle.

(f) **Wind.**—Sound level measurements shall be made only when the wind velocity is 19.3 km/h (12 mph) or lower with gusts not exceeding 33.2 km/h (20 mph).

(g) **Precipitation.**—Except for snowmobiles in Section 1046, measurements shall not be made during precipitation, or when the road surface is wet or covered with snow or ice.

NOTE: Authority cited: Sections 23130, 23130.5, 27200, 27207 and 38370, Vehicle Code. Reference: Sections 23130, 23130.5, 27200–27207 and 38370, Vehicle Code.

HISTORY

1. Amendment of subsection (g) filed 11–20–84; effective thirtieth day thereafter (Register 84, No. 47).

§ 1045. Measurement Procedures for Vehicles in Use.

Noise from vehicles in use shall be measured as follows:

(a) **Microphone Location.** The sound level measuring microphone shall be in one of the following locations:

(1) **Primary Location.** The microphone shall be located at a height not less than 0.6 m (2 ft), not more than 1.8 m (6 ft) above the plane of the roadway surface, and not less than 1.1 m (3.5 ft) above the surface upon which the microphone stands. The preferred microphone height on a flat surface is 1.2 m (4 ft).

(2) **Secondary Location.** The microphone may be mounted on a boom affixed to the exterior of a passenger vehicle or the sound level meter with microphone attached may be held by a person sitting astride an open motorcycle.

(A) When the microphone boom is used, the microphone shall be located $0.41 \text{ m} \pm 7.6 \text{ cm}$ (16 in. ± 3 in.) above the highest point of the vehicle within an area bounded by the windshield, the tops of left and right front windows, and the rear of the driver’s seat. The vehicle upon which the microphone is mounted shall be positioned so that its longitudinal axis is perpendicular to the center of the lane of travel. The height of the microphone above the plane of the roadway surface shall not exceed 2.4 m (8 ft). A correction factor of -2dB(A) shall be applied to the recorded sound level.

(B) When the sound level meter with microphone attached is held by a person sitting astride an open motorcycle, the motorcycle shall be positioned parallel to the center of the lane of travel. The microphone shall be pointed toward the traffic and project beyond the windshield if the motorcycle is so equipped. The microphone shall be within the height requirements specified in preceding subsection (a)(1). A correction factor of -1dB(A) shall be applied to the recorded sound level.

(b) **Distance from Microphone to Target Point.** The horizontal distance from the microphone to the microphone target point shall normally be 15.2 m (50 ft) but may range from 7.9 m (26 ft) to 30.2 m (99 ft) if the following correction factors are used:

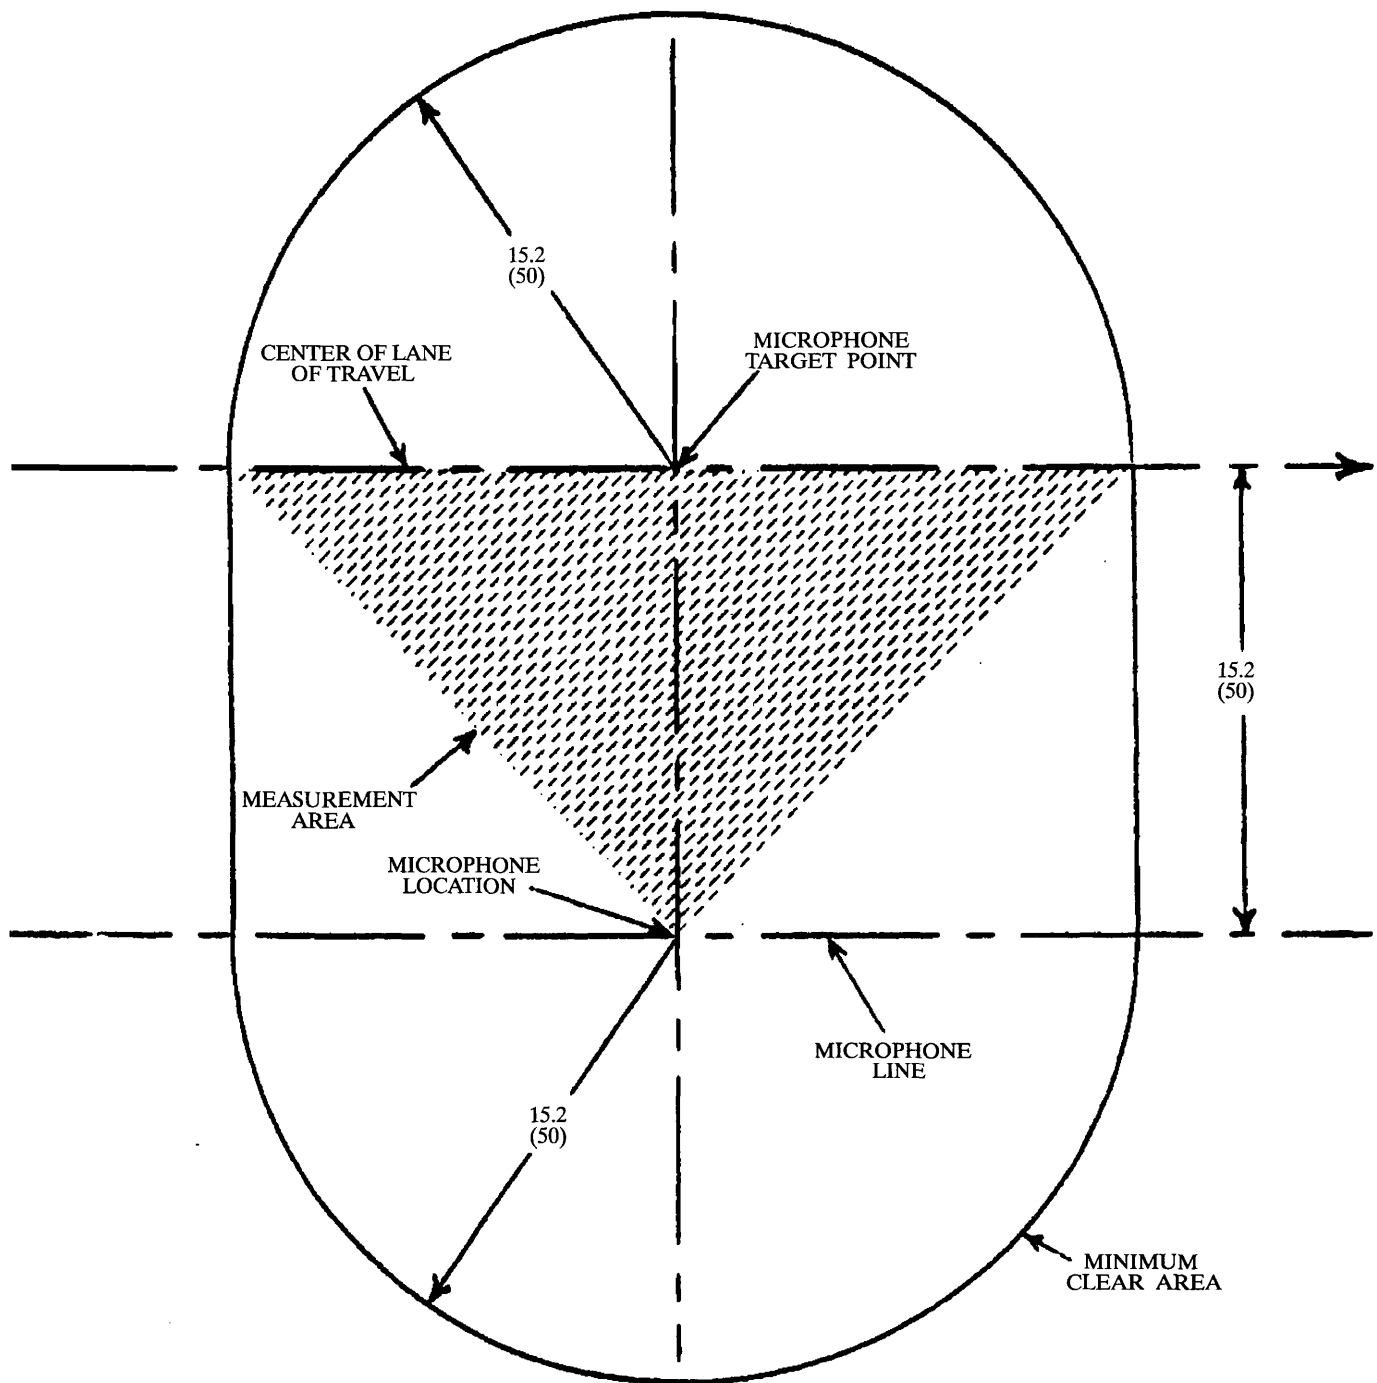

<i>Distance from microphone to center of lane of travel</i>	<i>Sound level correction factor, dB(A)*</i>
7.9–8.8 m (26–29 ft) n	–6
8.8–9.8 m (29–32 ft)	–5
9.8–10.7 m (32–35 ft)	–4
10.7–11.9 m (35–39 ft)	–3
11.9–13.1 m (39–43 ft)	–2
13.1–14.6 m (43–48 ft)	–1
14.6–17.7 m (48–58 ft)	0
17.7–21.3 m (58–70 ft)	+1
21.3–25.3 m (70–83 ft)	+2
25.3–30.2 m (83–99 ft) **	+3

* If the distance from microphone to center of lane of travel falls on the midpoint between distance ranges given in the table, the larger correction factor shall be used.

** These distances are not applicable to measurements of heavy trucks with a gross vehicle weight rating (GVWR) of over 4,537 kg (10,000 lb) operated by motor carriers engaged in interstate commerce and governed by the Federal Bureau of Motor Carrier Safety regulations.

(c) **Measuring Sites.** Sites for measuring sound from vehicles in use shall meet the following requirements:

(1) Standard Sites. As shown in Figure 1, standard measuring sites shall have the microphone 15.2 m (50 ft) from the lane of travel, be free of sound-reflecting surfaces within a 15.2 m (50 ft) radius of the microphone and of the microphone target point, and be approximately level.

(Dimensions are in meters, followed by feet)

Figure 1. Standard Highway Measurement Site

(2) Modified Sites. Modified measuring sites shall meet the specifications shown in Figure 1, except the dimensions may range from 7.9 to 30.2 m (26 to 99 ft). The radii of the minimum clear area shall be the distance between the microphone and the microphone target point. Sound level readings taken at such sites shall be corrected as provided in preced-

ing subsection (b). The site shall be free of large sound-reflecting objects, with the following exceptions:

- (A) The following objects may be anywhere within the site:
1. Small cylindrical objects such as fire hydrants or utility poles.
 2. Rural mailboxes.

3. Traffic railings of any type of construction except solid concrete barriers.

4. Curbs having a vertical height of not more than 0.3 m (1 ft).

5. Small bushes, shrubs, hedges, or trees.

(B) The following objects may be within the measuring site but outside the triangular measuring area:

1. Any vertical surface (such as a billboard) regardless of size with a lower edge more than 4.6 m (15 ft) above the roadway surface.

2. Any uniformly smooth, sloping surface rising away from the highway with a slope less than 45 deg above horizontal.

3. Any surface rising away from the highway that is 45 deg or more and not more than 90 deg above horizontal if all points on the surface are more than 4.6 m (15 ft) above the roadway.

4. Any object on the side of the vehicle path opposite the microphone with a width measured parallel to the vehicle path not exceeding 1.0 m (3.1 ft) regardless of height, and not slanting toward the roadway. If objects exceeding 1.0 m (3.1 ft) in width (such as parked vehicles) are on the side of the vehicle path opposite the microphone, a correction factor of -2 dB(A) shall be applied to the recorded sound level.

(d) Moving Vehicles. Noise from vehicles in use shall be measured as the vehicle passes through the measuring site. Measurements shall be made under the conditions under which the vehicle is operating, regardless of vehicle load, grade, acceleration, or deceleration.

(1) The traveled lane of the roadway within the measuring site shall be dry and paved with relatively smooth concrete or asphalt.

(2) The traveled lane shall be free of holes or other defects that would cause a vehicle to emit irregular tire, body, or chassis impact noise and shall be free of significant areas of loose material such as sand or gravel.

(3) The microphone target point shall not be within 61 m (200 ft) of a tunnel or underpass through which the vehicle travels.

(4) The sound level must rise at least 6 dB(A) to the maximum level and fall at least 6 dB(A) below the maximum level as the vehicle passes to ensure that noise from other vehicles does not interfere with the sound of the vehicle being measured.

(e) Stationary Heavy Motor Vehicles. Noise measurements of stationary in-use motor vehicles with a gross vehicle weight rating of more than 4,537 kg (10,000 lb) and equipped with an engine speed governor shall be made in accordance with the following procedures:

(1) Vehicle Location: The vehicle shall be parked on a measuring site meeting the requirements of preceding subsection (c). The centerline of the vehicle shall be on the center of the lane of travel as shown in Figure 1. The vehicle shall be positioned so the exhaust system outlet is within 1.0 m (3.3 ft) of the microphone target point measured along the center of the lane of travel.

(2) Auxiliary Equipment. Auxiliary equipment used only when the vehicle is stationary or operating at a speed of 8 km/h (5 mph) or less shall be turned off. Such equipment includes but is not limited to cranes, asphalt spreaders, ditch diggers, slurry pumps, auxiliary air compressors, welders, and trash compactors.

(3) Engine Cooling Fans. If the engine cooling fan automatically disengages or reduces speed in response to reduced engine cooling loads, the engine shall be run at high idle, or any other speed the operator may choose, for sufficient time but not more than 10 min to permit the fan to operate at reduced speed during the noise test.

(4) Engine Operation. With the transmission in neutral and the clutch engaged, the engine shall be rapidly accelerated from idle to its maximum governed speed with wide open throttle. After the engine speed has stabilized, the engine shall be returned to idle. This procedure shall be repeated until the maximum sound level readings are within 2 dB(A) of each other, disregarding unrelated peaks due to extraneous ambient sound.

(5) Sound Level Measurement. The recorded sound level for the stationary vehicle shall be the numerical average of the highest 2 or more readings within 2 dB(A) of each other. This level shall not exceed 88 dB(A) on a measurement site with concrete, asphalt, packed dirt, gravel

or similar reflective material for more than one-half the distance between the microphone and the microphone target point. The level shall not exceed 86 dB(A) on a measuring site with grass, other ground cover, or similar absorptive material for more than one-half the distance from the microphone target point.

NOTE: Authority and reference cited: Sections 23130, 23130.5 and 27207, Vehicle Code.

HISTORY

1. Repealer and new section filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).

2. Amendment of subsection (a) filed 11-20-84; effective thirtieth day thereafter (Register 84, No. 47).

§ 1046. Measurement Procedures for New Motor Vehicles.

(a) Heavy Trucks. New motor vehicles with a manufacturer's GVWR of more than 4,537 kg (10,000 lb) subject to 40 CFR, Part 205, shall be tested in accordance with procedures established in that regulation.

(b) Other Heavy Vehicles. New motor vehicles with a manufacturer's GVWR of more than 4,537 kg (10,000 lb) that are not subject to 40 CFR, Part 205, except transit buses equipped with automatic transmissions, shall be tested in accordance with SAE J366b, July 1978, excluding the Appendix. Transit buses with a manufacturer's gross vehicle weight rating of more than 4,537 kg (10,000 lb) equipped with automatic transmissions shall be tested according to SAE J366b except for Section 4.1 of that standard which shall be replaced with the following procedure.

(1) Face the vehicle in the direction opposite that to be used for the noise test, position the reference point (Section 3.7) at the mid-point of the end zone within 0.3 m (1.0 ft), place the gear selector in the position normally used for driving, and locate the starting point for the noise test as follows:

(A) Accelerate the vehicle as rapidly as possible by establishing and maintaining wide open throttle until the first transmission shift occurs.

(B) Mark as the designated starting point, the location along the test path where the vehicle reference point is passing when the shift occurs.

(2) Perform the noise test by reversing the vehicle direction, positioning the vehicle so it is at rest with the vehicle reference point at the designated starting point, and operating the vehicle as follows:

(A) Accelerate the vehicle as rapidly as possible by establishing wide open throttle.

(B) Continue acceleration until the entire vehicle has vacated the end zone, recording only runs in which the first transmission shift occurs in the end zone.

(c) Light Vehicles. New motor vehicles with a manufacturer's GVWR of 4,537 kg (10,000 lb) or less shall be tested in accordance with either of the following methods, at the manufacturer's option: SAE J986, November 1981 or SAE J1470, March 1992, except that the provisions of Section 6.5 shall not apply.

(d) Motorcycles. New motorcycles subject to 40 CFR, Part 205, shall be tested in accordance with procedures established in that regulation. Other new motorcycles shall be tested in accordance with SAE J331a, July 1978.

(e) Snowmobiles. New snowmobiles shall be tested in accordance with SAE J192, April 1980, excluding the sound level tolerances in Section 6.4.

NOTE: Authority cited: Sections 27200 and 38370, Vehicle Code. Reference: Sections 27200-27207 and 38370, Vehicle Code.

HISTORY

1. Amendment filed 8-24-79; designated effective 10-1-79 (Register 79, No. 34).

2. Editorial correction of subsections (c)(1) and (d)(1) (Register 79, No. 38).

3. Repealer and new section filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).

4. Amendment of subsection (b) filed 11-20-84; effective thirtieth day thereafter (Register 84, No. 47).

5. Amendment of subsection (c) filed 7-20-93; operative 8-19-93 (Register 93, No. 30).

§ 1047. Vehicle Sound Level.

The measured sound level of a vehicle shall be reported as follows:

(a) Vehicles on the Highway—The A-weighted sound level reading of a vehicle in use on the highway shall be the highest reading observed as the vehicle or vehicle combination passes through the measuring site.

(b) Stationary Heavy Vehicles—The reported A-weighted sound level of heavy vehicles measured when they are stationary shall be the numerical average of the two highest levels that are within 2 dB(A) of each other.

(c) New Motor Vehicles—The sound level reading for new motor vehicles shall be obtained as follows:

(1) Preliminary Runs—Sufficient preliminary runs shall be made to enable the test driver to become familiar with the operation of the vehicle and to stabilize engine operating conditions.

(2) Test Runs—At least four test runs shall be made for each side of the vehicle. When the exhaust outlet is more than 5.1 m (200 in.) from the front of a vehicle with a gross vehicle weight rating of more than 4,537 kg (10,000 lb), at least two runs shall be made for each side of the vehicle using both the primary and secondary vehicle reference points. At least two additional runs shall be made from the reference point that gives the highest readings.

(3) Reported Sound Level—The reported A-weighted sound level for each side of the vehicle shall be the average of the two highest readings on that side which are within 2 dB(A) of each other. The sound level reported for the vehicle shall be the sound level of the louder side.

NOTE: Authority cited: Sections 23130, 23130.5, 27200, and 38370, Vehicle Code. Reference: Sections 23130, 23103.5, 27200–27207, and 38370, Vehicle Code.

HISTORY

1. Amendment of subsection (c)(2) filed 11–20–84; effective thirtieth day thereafter (Register 84, No. 47).

NOTE: Editorial correction in Register 79, No. 17 to delete Section 1049, which was repealed as part of Article 10 in filing of 3–26–79 (designated effective 5–1–79).

Article 11. Exhaust System Certification

§ 1050. Intent.

This article and Sections 600 through 608 and 1030 through 1038 of this title are intended to comply with Vehicle Code Section 27150.2. After the study required by Vehicle Code Section 27150.3, an additional study of passenger vehicles, and review of arguments and data submitted by manufacturers and installers, the department has determined that a simple noise test, as provided in Sections 1030 through 1038, is a practical way to control the sale and installation of exhaust systems and parts that may exceed noise limits set by Vehicle Code Sections 23130 and 23130.5. The department has provided exemptions where compliance with these regulations would result in undue hardship.

When an original exhaust system produces noise substantially under the limits in Section 1036 of this title, manufacturers, sellers, and installers must use caution to ensure that installing a certified exhaust system or part does not significantly increase the noise in violation of Vehicle Code Section 27151. Increasing the noise would defeat the purpose of new vehicle limits in California statutes and regulations.

Compliance with the provisions of this article does not exempt any person from complying with other sections of the Vehicle Code except as provided by Vehicle Code Section 27150.7, nor from complying with any other provisions of law including but not limited to Section 17500 of the Business and Professions Code and Section 3369 of the Civil Code. NOTE: Authority cited: Sections 2402 and 27150.2, Vehicle Code. Reference: Sections 2500–2504, 2540–2549, and 27150.2, Vehicle Code.

HISTORY

1. New Article 11 (Sections 1050–1054) filed 11–25–75; designated effective 1–1–77 (Register 75, No. 48). For history of former Article 11, see Register 74, No. 48.

§ 1051. Scope.

This article shall apply to the certification of replacement exhaust systems and parts offered for sale or installed on the following motor vehicles:

(a) Passenger Cars. Systems and parts for motor vehicles, other than motorcycles and motor-driven cycles, of less than 6,000 lb (2,722 kg) gross vehicle weight rating shall comply on and after the following dates:

<i>Year model</i>	<i>Operative date</i>
1973 and later	January 1, 1977
1970, 1971, and 1972	July 1, 1977
1968 and 1969	January 1, 1978
1967 and earlier	January 1, 1979

(b) Motorcycles. (This subsection is reserved until exhaust system regulations are established for motorcycles.)

(c) Trucks. (This subsection is reserved until exhaust system regulations are established for trucks.)

§ 1052. Certification Procedures.

Manufacturers of replacement exhaust systems or parts shall certify compliance with these regulations, including the appropriate exhaust system noise limits specified in Section 1036(d) of this title. Exhaust system manufacturers, suppliers, and sellers shall certify in each catalog or similar listing they issue that the exhaust system or parts listed for sale in California comply with the exhaust system certification regulations. The catalogs or listings shall specify the vehicle models and engine size and type for which the items are certified.

If the exhaust system manufacturer, supplier, or seller has no catalog or similar listing, or if the part becomes available after printing of the listing, the certification may be printed or otherwise labeled on the part or on the container in which the part is sold, or the certification may be placed in the container. Such individual certifications shall specify the vehicle models for which the part is certified.

The certification may be on a form attached to the catalog or listing, identifying the particular listing to which it refers and specifying the systems or parts that are not certified. Noncertified systems may be shown, but they must be clearly represented as not being legal for use on highways in California.

(a) Exhaust System. A complete exhaust system shall be certified as an assembly.

(b) Exhaust System Parts. Mufflers, resonators, chambered pipes, flare tips, taper tips, and other sound-modifying parts shall be certified for use in at least one system when tested with the remaining parts of the vehicle manufacturer's original equipment or an exhaust manufacturer's certified replacement system. Catalytic converters, manifolds, and smooth exhaust and tail pipes are not required to be certified separately.

(c) Special Systems. Special exhaust systems designed for engines modified for high performance or other characteristics that affect exhaust noise shall be certified for at least one engine modification for which it is designed by the manufacturer of the special exhaust system.

(d) Partially Exempt Systems. The catalog or other listing that certifies exhaust systems or parts permitted to produce more than 95 dB(A) under Section 1036(d)(2) of this title shall indicate by words or symbols that the noise is more than 95 dB(A), but no louder than that from the original equipment or factory duplicate system.

NOTE: Authority and reference cited: Section 27150.2, Vehicle Code.

HISTORY

1. Amendment filed 5–30–80; designated effective 7–1–80 (Register 80, No. 22). For prior history, see Register 77, No. 25.

§ 1053. Retraction of Certification.

The exhaust system or parts manufacturer's, supplier's, or seller's certification may be retracted by the department under the following conditions:

(a) Request for Data. Whenever the department has reason to believe that under ordinary conditions of use any certified exhaust system, or parts thereof, does not comply with these regulations, the department may request the manufacturer, supplier, or seller to submit test reports or

data demonstrating compliance. The department shall make such a request by certified mail.

If test reports or data are not received by the department within 30 days of the date of request, the department shall consider that such exhaust systems or components do not comply with the regulations. If a manufacturer, supplier, or seller submits a written request setting forth good reason for an extension, the department may grant additional time for response.

(b) Notice of Accusation. After review of the data requested or after departmental tests, the department may give notice of accusation to a manufacturer, supplier, or seller that the department intends to require the manufacturer to retract the certification on the basis that his product fails to comply with the regulations adopted pursuant to Vehicle Code Section 27150.2 or significantly increases the exhaust noise in violation of Vehicle Code Section 27151. The notice of accusation shall set forth those areas in which the exhaust system or components fail to comply.

(c) Notice of Defense. The manufacturer, supplier, or seller receiving such a notice may voluntarily retract the certification or, within 15 days of service of the accusation, may file a notice of defense.

(d) Request for Hearing.

If the notice of defense contains a request for a hearing, the department shall determine the hearing date and shall deliver or mail a notice of hearing to the responding party at least 10 days prior to such hearing.

(e) Notice to Interested Parties. It is desirable that all interested parties are made aware of the proceedings in order to represent their interests. The manufacturer, supplier, or seller who requests the hearing shall provide a copy of the notice of hearing to each person or firm who was furnished a certified catalog or other listing for use in the normal conduct of his business. Included with the notice of hearing shall be a summary of the defense filed by the one requesting the hearing.

(f) Conduct of Hearing. Hearings pursuant to this section shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

HISTORY

1. Amendment of subsection (b) filed 6-16-77; designated effective 7-15-77 (Register 77, No. 25).

§ 1054. Identification Markings.

Each noise-modifying part of an exhaust system, such as a muffler, resonator, chambered pipe, extractor, taper tip, or flare tip, shall be permanently marked by molding, stamping, indenting, or etching. Markings are not required on clamps, hangers, fasteners, or on smooth-sided tubing used for connecting sound-modifying parts or extending tailpipes.

(a) Required Markings. Required markings shall be as follows:

(1) The name, initials, or lettered trademark of the manufacturer, supplier, or seller of the exhaust system or part; or a coded numbering or lettering system that shall be different from those of other manufacturers, suppliers, or sellers. The method of deciphering coded markings shall be furnished to the department.

(2) A model number or letter designation, which may differ from the catalog number and shall differ for each type or construction of muffler, resonator, or other noise-modifying part.

(b) Size of Markings. Required markings shall be not less than 0.15 in. (3.8 mm) in height.

(c) Location of Markings. Required identification markings shall be located where they are legible to an installer either directly or with an extension mirror, except for markings on a muffler inlet or outlet or other location that might be covered by a clamp. Markings on parts installed under the vehicle body need to be legible only when the vehicle is on a hoist.

(d) Exemption from Permanent Markings. Certified replacement exhaust systems and parts manufactured prior to the pertinent operative dates shown in Section 1051(a) of this title may have the required markings on paper or other labels on the part or on its container in lieu of being permanently marked on the part.

HISTORY

1. Amendment filed 6-16-77; designated effective 7-15-77 (Register 77, No. 25).

Article 12. Brake Equipment

§ 1060. Scope of Regulations.

NOTE: Authority cited: Section 2402, Vehicle Code. Reference: Sections 26502, 26503 and 26504, Vehicle Code.

HISTORY

1. New Article 12 (§§ 1060 through 1065) filed 7-15-69; designated effective 8-15-69 (Register 69, No. 29).
2. Repealer of Section 1060 filed 5-19-83 by OAL pursuant to Government Code Section 11349.7(j); effective thirtieth day thereafter (Register 83, No. 21).

§ 1061. Air Governor Adjustment.

Air compressor governors shall be adjusted to operate as follows:

(a) Cut-in Pressure. Cut-in pressure shall not be less than 85 psi for full air brake systems on any motor vehicle and not less than 65 psi for air-assisted hydraulic brakes on motor vehicles with a gross vehicle weight rating of not more than 25,000 pounds.

(b) Cutout Pressure. Cutout pressure shall not be more than 130 pounds per square inch unless the maximum air delivered to the brake system reservoir is regulated to provide between 100 and 130 pounds per square inch, in which case the cutout pressure shall be adjusted to not more than 150 pounds per square inch.

NOTE: Authority and reference cited: Section 26504, Vehicle Code.

HISTORY

1. Amendment filed 1-30-80; designated effective 3-1-80 (Register 80, No. 5).

§ 1062. Safety Valve Adjustment.

Airbrake safety valves shall be adjusted to operate as follows:

(a) Normal Discharge Pressure. Safety valves in airbrake systems with an air governor cutout pressure of not more than 130 pounds per square inch shall open and shall relieve the pressure so that it will not exceed 150 pounds per square inch under any condition.

(b) Above Normal Discharge Pressure. Safety valves in airbrake systems with an air governor cutout pressure of 130 to 150 pounds per square inch, as provided in Section 1061(b) of this article, shall open and shall relieve the pressure so that it will not exceed 170 pounds per square inch under any condition. In no case shall the safety valve be set to open at more than the maximum allowable working pressure of the airbrake reservoirs.

NOTE: Authority and reference cited: Section 26503, Vehicle Code.

HISTORY

1. Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).

§ 1063. Load-Controlled Air Pressure Reducing System.

(a) Systems that automatically reduce air pressure at brake actuators during brake application in proportion to the axle load shall operate as follows:

(1) When the single or tandem-axle load on the roadway is 85 percent or more of the maximum legal load or rated gross weight of the axle, whichever is lower, the device or system shall not reduce the full service brake air pressure at the brake chambers to less than that required by Vehicle Code Section 26502 unless the vehicle meets the requirements of Federal Motor Vehicle Safety Standard 121 (49 CFR 571.121) in effect at time of manufacture.

(2) The system shall incorporate a feature to override the automatic control, at the driver's discretion, to allow at least 90 percent of the air supply pressure at the foot valve to be applied to the brake actuators upon full brake application, except on axles designed to carry not more than 50 percent of the maximum legal load or gross weight rating of the axle and used in tandem with a maximum legal load carrying axle on the same vehicle.

(b) Systems that automatically reduce the application air pressure at brake actuators on truck tractors depending upon whether the semitrailer

is connected or disconnected shall operate so the truck tractor meets the brake requirements of Federal Motor Vehicle Safety Standard 121.

NOTE: Authority and reference cited: Section 26502, Vehicle Code.

HISTORY

1. Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).
2. Amendment filed 8-31-83; effective thirtieth day thereafter (Register 83, No. 36).
3. Amendment of subsection (a)(1) filed 3-10-86; effective thirtieth day thereafter (Register 86, No. 11).

§ 1064. Wheel-Controlled Air Pressure Reducing System.

Brake systems that automatically reduce air pressure at the brake actuator to maintain wheel rotation during brake application shall allow at least 90 percent of the air supply pressure at the foot valve to be applied to the brake actuator upon full brake application when the wheel rotates at a rate corresponding to the speed of the vehicle.

NOTE: Authority and reference cited: Section 26502, Vehicle Code.

HISTORY

1. Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).
2. Amendment filed 8-31-83; effective thirtieth day thereafter (Register 83, No. 36).

§ 1065. Pressure Controlled Reducing System.

Brake systems that automatically apply a lower air pressure to certain axles in comparison to other axles on the vehicle or combination of vehicles to obtain balanced braking between axles shall apply equal pressure to all brake actuators when the manual brake control application pressure is 60 psi or more.

NOTE: Authority and reference cited: Section 26502, Vehicle Code.

HISTORY

1. Renumbering and amendment of former Section 1065 to Section 1066 and new Section 1065 filed 8-31-83; effective thirtieth day thereafter (Register 83, No. 36).

§ 1066. General Requirements for Load, Wheel, and Pressure Controlled Air Pressure Reducing Systems.

All devices or systems for automatically reducing the air pressure delivered to brake actuators on any vehicle or combination of vehicles shall meet the following general requirements:

(a) Stopping Distance. The device or system shall not increase the stopping distance under any condition of load beyond that attained by the same type of vehicle or combination of vehicles when not equipped with the device or system.

(b) Brake-Release Time. The device or system shall not increase the brake-release time over that which would have been attained if the device had not been installed in the system.

(c) Fail-Safe Operation. Any single failure in any part of the device or its control system shall not increase the stopping distance beyond the statutory limits.

(d) Deceleration. The device or system shall permit deceleration at maximum braking capability without causing the vehicle to swerve from a 3.66 m (12 ft) wide lane that is dry, smooth, hard-surfaced, free from loose material, and has a grade not exceeding plus or minus 1 percent.

NOTE: Authority and reference cited: Section 26502, Vehicle Code.

HISTORY

1. Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).
2. Renumbering and amendment of former Section 1065 to Section 1066 filed 8-31-83; effective thirtieth day thereafter (Register 83, No. 36).

Article 13. Tire Chains

HISTORY

1. Repealer of Article 13 (Sections 1070-1076) and new Article 1 (Sections 1070-1077) filed 6-18-80; designated effective 8-1-80 (Register 80, No. 25). For prior history, see Registers 77, No. 27; 76, No. 21; 74, No. 52; 74, No. 40; and 74, No. 27.
2. Repealer of Section 1070 filed 11-10-83; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 83, No. 46).

3. Repealer of Article 13 (Sections 1071-1078) filed 1-30-85; effective thirtieth day thereafter (Register 85, No. 5).

Article 14. Tires and Rims

§ 1080. Scope.

This article shall apply to all tires and rims sold for use, or used on vehicles.

NOTE: Authority and reference cited: Sections 27455, 27465, 27500, 34501, 34501.5, and 34508, Vehicle Code.

HISTORY

1. New section filed 6-30-99; operative 7-30-99 (Register 99, No. 27). For prior history, see Register 84, No. 35.

§ 1081. Definitions.

(a) "CRSC" is the California Retreading Standards Committee.

(b) "FMVSS" is a Federal Motor Vehicle Safety Standard. These standards are located in Title 49, Code of Federal Regulations, Part 571. (e.g., FMVSS No. 109 is in Section 571.109, and FMVSS No. 119 is in Section 571.119.)

(c) "Groove" is the space between adjacent tread ribs, lugs, or other tread configurations that are separated by at least 5/64 inch (2 mm).

(d) "Major groove" is any tread circumferential depression or circumferential series of depressions that has tread wear indicators or had the greatest equal depth when the tire was new.

(e) "Multipurpose passenger vehicle" is a motor vehicle designed for carrying not more than 10 persons, including the driver, and constructed either on a truck chassis or with special features for occasional off-highway operation.

(f) "Passenger car" is a motor vehicle designed for carrying not more than 10 persons, including the driver. The term excludes multipurpose passenger vehicles and all housecars, motortrucks, truck tractors, motorcycles, and motor-driven cycles, as defined in the Vehicle Code.

(g) "Regroovable tire" is a tire manufactured with sufficient material for renewal of the original tread pattern or generation of a new tread pattern without exposing the cord.

(h) "Regrooved tire" is a tire on which the tread or retread pattern has been renewed or a new tread has been produced by cutting new grooves.

(i) "Tread pattern" is the nonskid design on the tread of the tire.

(j) "Tread wear indicator" is the raised section in a groove that enables a person inspecting a tire to determine visually whether the tire has worn to a tread depth of 2/32 inch (1.6 mm), except 1/32 inch (0.8 mm) in the case of motorcycle tires.

NOTE: Authority and reference cited: Section 27500, Vehicle Code.

HISTORY

1. Amendment filed 12-20-76; designated effective 2-1-77 (Register 76, No. 52).
2. Amendment filed 1-18-82; effective thirtieth day thereafter (Register 82, No. 4).
3. Amendment of subsections (b), (c) and (j) filed 6-30-99; operative 7-30-99 (Register 99, No. 27).

§ 1082. New Tire Requirements.

Tires sold for use or used on vehicles shall meet the following requirements:

(a) Tires for passenger cars. Tires for passenger cars shall meet the requirements of FMVSS 109.

(b) Tires for vehicles other than passenger cars shall meet the requirements of FMVSS 119.

(c) regroovable Tires for Commercial Vehicles. Regroovable commercial vehicle tires shall meet the requirements of Title 49, Code of Federal Regulations, Part 569, and be marked at the time of manufacture with the word "regroovable" on both sidewalls.

NOTE: Authority and reference cited: Section 27500, Vehicle Code.

HISTORY

1. Amendment of subsections (a) and (b) filed 12-20-76; designated effective 2-1-77 (Register 76, No. 52).
2. Repealer of Section 1082 and renumbering and amendment of Section 1083 to Section 1082 filed 1-18-82; effective thirtieth day thereafter (Register 82, No. 4).

§ 1083. New Tire Marking.

New tires shall have all of the markings required by FMVSS Nos. 109 and 119, and Part 574, Title 49, Code of Federal Regulations. Markings such as "blem" or "no adjust" added after manufacture shall be placed near the serial number without damaging or exposing the cord or defacing the serial number.

NOTE: Authority and reference cited: Section 27500, Vehicle Code.

HISTORY

1. Renumbering of Section 1084 to Section 1083 filed 1-18-82; effective thirtieth day thereafter (Register 82, No. 4).

§ 1084. Identification Markings on Radial Tire Inner Tubes.

In lieu of the red valve stem as provided in Vehicle Code Section 27455, the valve stem of a radial tire inner tube may have the word "RADIAL" molded or stamped in letters at least 3.0 mm (0.12 in.) in height on the valve stem or on a sleeve or ferrule permanently affixed to the valve stem. The marking shall be visible when the tube and tire are mounted on a rim.

NOTE: Authority and reference cited: Section 27455, Vehicle Code.

HISTORY

1. Renumbering and amendment of Section 1085 to Section 1084 filed 1-18-82; effective thirtieth day thereafter (Register 82, No. 4).

§ 1085. Tire and Rim Size and Capacity.

(a) Passenger Cars. Tires manufactured after January 1, 1968, and used on passenger cars manufactured after 1948 shall be of the sizes listed in one of the publications referenced in FMVSS No. 109 or in a publication of the tire manufacturer which is provided to the public.

(b) Matching of Passenger Car Tires and Rims. Tires for all passenger cars manufactured after 1948, of sizes listed in one of the publications referenced in FMVSS No. 109 or in a publication of the tire manufacturer which is provided to the public, shall be installed and used only on the appropriate rims specified for the particular tire size by the tire manufacturer or by organizations listed in FMVSS No. 109.

(c) Matching of Tires and Rims on Other Vehicles. Tires installed on vehicles other than passenger cars shall be mounted only on rims specified for the particular tire size by the tire manufacturer or by organizations listed in FMVSS No. 119.

(d) Tire Load Limits. Loads on tires shall comply with the following requirements:

(1) Passenger car tires used on passenger cars or station wagons shall not be loaded above the maximum load rating marked on the tire, or, if unmarked, the maximum load rating specified in one of the publications referenced in FMVSS No. 109 or in a publication furnished to the public by the tire manufacturer. Passenger car tires used on other vehicles shall not be loaded beyond the foregoing maximum divided by 1.1.

(2) Tires for trucks, buses, trailers, motorcycles, or any vehicles other than passenger cars shall not be loaded above the maximum load rating marked on the tire, or if unmarked, the maximum load rating specified by the organizations listed in FMVSS No. 119 or the tire manufacturer's recommendations for the tire size, ply rating, and service speed.

(3) Tires covered by FMVSS No. 119 may carry increased loads at speeds of 54 mph (87 km/h) or less in accordance with tables published by the organizations listed in that standard, provided that either:

(A) The speed of the vehicle is mechanically restricted to no more than the rated speed for the load carried by the tire, or

(B) The vehicle, or combination of vehicles carries, on the rear of the last vehicle, a sign showing the maximum speed for the tire load (Figure 1 Speed Restriction Sign). The sign shall be located so that a following driver can read it with ease.

(C) The background of the Speed Restriction Sign shall be yellow, extending at least 1 inch (26 mm) beyond the words. The letter on the sign shall be at least 4 inches (100 mm) high, with a stroke 1/2 inch (13 mm) wide. All words may be on one line.

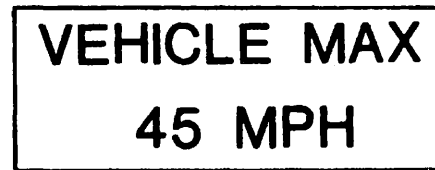

Figure 1. Speed Restriction Sign

(4) Tire loading restrictions for manufactured homes. Tires used for the transportation of manufactured homes (i.e., tires marked or labeled 7-14.5MH or 8-14.5MH) may be loaded up to 18 percent over the load rating marked on the sidewall of the tire or, in the absence of such a marking, 18 percent over the load rating specified in any of the publications of any of the organizations listed in FMVSS No. 119, pursuant to 49 CFR 393.75(g). Manufactured homes which are labeled on or after November 16, 1998, shall comply with 24 CFR 3282.7(r), April 1, 1998. Manufactured homes transported on tires overloaded by 9 percent or more must not be operated at speeds exceeding 50 mph (80 km/h).

(5) Vehicles that do not have a mechanically restricted speed or the reduced speed sign, or do have the sign but do not comply with the reduced speed shown on the sign, shall not carry increased tire loads.

(e) LT Tires. Tires identified with the letters "LT" in the size markings (such as 7.00-15LT or LT 235/75R15) shall be used only on vehicles other than passenger cars and motorcycles.

(f) MH Tires. Tires identified with the letters "MH" after the size (such as 8-14.5MH) are designed for mobilehomes and shall not be used on other vehicles unless marked with the letters "DOT" in accordance with FMVSS 119.

(g) ML Tires. Tires identified with the letters "ML" after the size (such as 10.00-22ML) are designed for intermittent on/off road service such as mining and logging operations and shall not be used on vehicles traveling more than 55 miles (89 km) in any 1 1/2-hr period or at a speed of more than 55 mph (89 km/h). Certain sizes of ML tires marked with a 50-mph speed limit shall not exceed 50 mph (80 km/h) or 50 miles (80 km) in any 1 1/2-hour period.

(h) MS Tires. Tires permanently marked on one sidewall with the words "MUD AND SNOW" or any contraction using the letters "M" and "S" and designated by the tire manufacturer as being designed to provide additional traction in mud and snow in accordance with the definition of the Rubber Manufacturers Association may be used in lieu of tire chains where chain control signs permit snow tires.

(i) NHS Tires. Tires identified with the letters "NHS" after the size (such as 7.00-15NHS) are not designed for highway service and shall be used only on vehicles such as short haul mining, earthmoving and logging service at speeds not exceeding 40 mph (64 km/h) and shovels, front end loaders, dozers, and fork lifts at speeds not exceeding 10 mph (16 km/h). Tires identified as "NHS" may be used on cotton trailers (defined as implements of husbandry in Vehicle Code Section 36005) when such trailers are operated at not more than the speed limit labeled on the tire sidewall or, if not labeled, not more than 40 mph (64 km/h).

(j) SL Tires. Tires identified with the letters "SL" after the size (such as 9.00-16SL) are designed for limited service and shall be used only on agricultural and industrial equipment operated at not more than 20 mph (32 km/h).

(k) ST and Other Trailer Tires. Tires identified with the letters "ST" (such as 7.00-13ST) or with the words "TRAILER" or "TRAILER SERVICE" after the size shall not be used on motor vehicles.

(l) T Tires. Tires identified with the letter "T" after the size (such as 3.75-19T) shall be used only on motorcycles or sidecars.

(m) Tires for Buses. Tires marked as follows are designed for buses and shall be used only as stated: "INTER-CITY" and "THRUWAY" may be used in any service at normal highway speeds. "INTRA-CITY" may be used only in slow speed start-stop service with maximum speed not exceeding 35 mph (56 km/h). "CITY-SUBURBAN" may be used

only at speeds not exceeding 55 mph (89 km/h) for not more than one hour of continuous operation.

NOTE: Authority and reference cited: Sections 27500, 31401, 34501, 34501.5, and 34508, Vehicle Code.

HISTORY

1. Amendment of subsection (e) filed 8-9-78; designated effective 9-15-78 (Register 78, No. 32). For former history, see Registers 76, No. 10; 76, No. 21; 76, No. 52; 77, No. 37; and 77, No. 52.
2. Renumbering and amendment of section 1086 to section 1085 filed 1-18-82; effective thirtieth day thereafter (Register 82, No. 4).
3. Amendment of subsections (c)(1) and (2) filed 10-19-83; effective thirtieth day thereafter (Register 83, No. 43).
4. Amendment filed 8-31-84; effective thirtieth day thereafter (Register 84, No. 35).
5. Change without regulatory effect amending subsection (d)(4) filed 4-12-91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 18).
6. Amendment filed 6-30-99; operative 7-30-99 (Register 99, No. 27).

§ 1086. Regrooved Tire Design and Construction.

Regrooved tires shall be designed and constructed as follows:

(a) Design. No tire shall be regrooved unless it is designed to permit a renewed or newly generated tread pattern and is marked "regroovable" at the time of manufacture or it has a retread designed to be regrooved and is marked "regroovable" when retreaded.

(b) Construction. Regrooved tires shall be constructed with at least a 3/32-in. (2.4-mm) layer of tread material between the cord structure and the new grooves, which shall be not less than 3/16 in. (4.8 mm) nor more than 5/16 in. (7.9 mm) wide. Regrooved tires shall not show evidence of ply, tread, or sidewall separation; sidewall wear that exposes the fabric; or tread or groove cracks extending to the fabric.

NOTE: Authority cited: Section 27500, Vehicle Code. Reference: Section 27461, Vehicle Code.

HISTORY

1. Renumbering of Section 1087 to Section 1086 filed 1-18-82; effective thirtieth day thereafter (Register 82, No. 4).

§ 1087. Tire Condition and Use.

(a) Defects. Tires shall not be used with boot or blowout patches or with any of the following defects:

- (1) Unrepaired fabric breaks
- (2) Exposed or damaged cord
- (3) Bumps, bulges, or knots due to internal separation or damage
- (4) Cuts that measure more than 1 in. (25 mm) and expose body cord
- (5) Cracks in valve stem rubber

(b) Regrooved Tires. Regrooved tires shall not be used on school buses or any vehicle other than a commercial vehicle. Such tires used on commercial vehicles shall be of a type manufactured and designed for regrooving. Regrooved tires, regardless of size, shall not be used on the front wheels of buses, and regrooved tires which have a load carrying capacity equal to or greater than that of 8.25-20 8 ply-rating tires shall not be used on the front wheels of any other motor vehicle listed in Vehicle Code Section 34500.

(c) Recapped Tires. Tires recapped or retreaded for highway use shall have a tread pattern that complies with Section 27465 of the Vehicle Code and with this section. Recapped or retreaded tires shall not be used on front wheels of a bus or farm labor vehicle. Such tires shall not be used on the front wheels of truck tractors or motortrucks listed in Vehicle Code Section 34500 unless the tires are in compliance with the following requirements:

(1) Tires shall have been retreaded or recapped not more than 2 times and shall contain no casing repair other than that required by a nail puncture.

(2) Tires shall conform to either the labeling and other requirements of the 1972 CRSC Retreading Specifications and Standards or to the Industry Standards For Tire Retreading & Repairing revised September 1, 1995. Tires retreaded on or after November 1, 1997, shall conform to the Industry Standards For Tire Retreading & Repairing revised September 1, 1995.

(3) A new-tire manufacturer who is assigned an identification number by the U.S. Department of Transportation (DOT) may certify adherence to standards equal to or better than CRSC standards (only until November 1, 1997), or the Industry Standards For Retreading & Repairing revised September 1, 1995 for retreaded tires produced in his/her company-owned and -operated retreading facilities. Such certification shall comply with marking or labeling requirements of CRSC (only until November 1, 1997), or the Industry Standards For Tire Retreading & Repairing revised September 1, 1995, except that the certification mark branded into the tire may be of original design. A certification mark of original design shall show the name or trademark and assigned DOT registration number of the manufacturer and designate which of his/her retreading facilities produced the tire.

(4) Successive Retreads. When a retreaded tire bearing the markings specified in preceding subsections is retreaded a second time, the prescribed label shall be cancelled by a diagonal line or other distinctive mark through the label.

(d) Tires on Dual Wheels. The outside diameters of tires used on dual wheels shall be so matched that on a level roadway each tire will contact the surface at all times.

NOTE: Authority cited: Sections 27500, 31401, 34501, 34501.5 and 34508, Vehicle Code. Reference: Sections 27500, 27501, 31401, 34501, 34501.5 and 34508, Vehicle Code.

HISTORY

1. Amendment of subsection (a)(1) filed 12-20-76; designated effective 2-1-77 (Register 76, No. 52).
2. Amendment of subsection (c) filed 9-7-77 as an emergency; effective upon filing (Register 77, No. 37).
3. Certificate of Compliance filed 12-23-77 (Register 77, No. 52).
4. Renumbering of section 1088 to section 1087 filed 1-18-82; effective thirtieth day thereafter (Register 82, No. 4).
5. Amendment filed 6-28-82; effective thirtieth day thereafter (Register 82, No. 27).
6. Amendment filed 10-19-83; effective thirtieth day thereafter (Register 83, No. 43).
7. Amendment filed 10-30-86; effective thirtieth day thereafter (Register 86, No. 44).
8. Amendment of subsection (b) filed 9-21-94; operative 9-21-94 pursuant to Government Code section 11346.2(d) (Register 94, No. 38).
9. Amendment of subsections (c)(2) and (c)(3) filed 7-10-97; operative 8-9-97 (Register 97, No. 28).

Article 15. Wheelchair Lifts

§ 1090. Scope.

Wheelchair lifts produced after April 1, 1980, but produced before April 1, 2005, or installed before July 1, 2005, for use in any bus except a school bus, shall comply with the requirements of this article, or with those contained in the Federal Motor Vehicle Safety Standards (49 CFR 571).

Wheelchair lifts produced on or after April 1, 2005, or installed on or after July 1, 2005, for all vehicles, whether the vehicle was manufactured before or after that date, shall comply with the provisions contained in the Federal Motor Vehicle Safety Standards (49 CFR 571).

NOTE: Authority cited: Sections 2402, 31401 and 34501, Vehicle Code. Reference: Sections 24011, 31401, 34501 and 34501.1, Vehicle Code.

HISTORY

1. New Article 15, (Sections 1090-1095) filed 7-13-79; effective thirtieth day thereafter (Register 79, No. 28).
2. Amendment filed 2-1-80; designated effective 3-9-80 (Register 80, No. 5).
3. Amendment of section and NOTE filed 7-19-2004; operative 8-18-2004 (Register 2004, No. 30).
4. Amendment filed 10-22-2007; operative 11-21-2007 (Register 2007, No. 43).

§ 1091. Definitions.

The following definitions shall apply wherever the terms are used in this article:

(a) Bus—A "bus" is the type of vehicle defined in Vehicle Code Section 233.

(b) Deploy—To "deploy" means to operate a wheelchair lift from the stowed position to the position where it is ready to be used.

(c) **Lift Platform**—A “lift platform” is the part of a wheelchair lift upon which the wheelchair rests.

(d) **Stow**—To “stow” means to operate a wheelchair lift to the position in which it is kept while the vehicle is in motion.

(e) **Wheelchair Lift**—A “wheelchair lift” is a device designed to raise and lower persons in wheelchairs.

NOTE: Authority and reference cited: Sections 31401 and 34501, Vehicle Code.

§ 1092. Mechanical Requirements.

Wheelchair lifts shall comply with the following mechanical requirements:

(a) **Design Load.** The design load of the lift shall be at least 270 kg (595 lb). Working parts, such as cables, pulleys, and shafts, which can be expected to wear and upon which the lift depends for support of the load, shall be designed with a safety factor of at least six. Nonworking parts, such as platform, frame, and attachment hardware which would not be expected to wear, shall be designed with a safety factor of at least three.

(b) **Controls.** Each control for deploying, lowering, raising, and stowing the lift, and moving the barrier shall be of a momentary contact type requiring continuous manual pressure by the operator and shall not allow unintentional improper lift sequencing when the platform is occupied. The controls shall be designed to be interlocked with the bus brakes and with the accelerator or transmission so the bus cannot move when the lift is not stowed and so the lift cannot deploy without engaging the interlock. As an alternative, on buses equipped with hydraulic brakes, an interlock system which complies with the Americans With Disabilities Act (ADA) requirements in Title 49, Code of Federal Regulations, Section 38.23(b)(2), as published October 1, 1995, will be deemed to comply with the interlock requirements of this section subject to the following conditions:

(1) The bus must be equipped with an electrical warning device, clearly audible or visible from the driver's seating position, which is activated at all times when the lift is not stowed and the ignition switch is in the “on” or “run” position.

(2) If a transmission interlock is utilized instead of a brake interlock, the transmission must be interlocked in the “Park” position.

(3) A door interlock will satisfy the requirement only if the door is also interlocked with the vehicle's brakes or transmission in a manner that meets the performance criteria set forth in (b), above.

(c) **Manual Operation.** The lift assembly shall incorporate a manual method of deploying, lowering to ground level with a wheelchair occupant and raising and stowing the empty lift if the power fails.

(d) **Power or Equipment Failure.** Platforms stowed in a vertical position shall have a provision to prevent their deploying any faster than twice the maximum rate specified in following subsection (i), in the event of a failure of power, chain, cable, or hydraulic hose. Deployed platforms shall have a provision to prevent their falling, when loaded, any faster than twice their maximum rate in the event of the same type of failure. Failure, while the bus is in motion, of any part of the system powering the wheelchair lift shall not reduce the effectiveness of the braking, steering, or electrical systems of the bus.

(e) **Platform Barriers.** The lift platform shall be equipped with barriers to prevent any of the wheels of the wheelchair from rolling off the platform. The loading edge of the platform shall have a movable barrier that is not shorter than 92% of the length of that edge of the platform and that, when in its normal raised position, is at least 8 cm (3.1 in.) above the surface of the platform. The movable barrier in its raised position shall withstand a total force of at least 1340 Newton (N) (300 lb) parallel to the platform surface in the unloading direction with the top edge remaining above 8 cm (3.1 in.). The force shall be applied at a height of 7 cm (2.8 in.) above the top surface of the platform with 670 N (150 lb) at each of two points 30 cm (11.8 in.) on each side of the center of the barrier. Other sides of the lift platform shall have fixed or movable barriers at least 25 mm (1.0 in.) high unless other parts of the lift or the body of the bus prevent any of the wheels of the wheelchair from rolling off the platform.

(f) **Barrier Operation.** The barrier on the outboard side of the lift platform shall automatically lower or open when the platform meets the roadway or sidewalk and shall automatically raise or close when the platform is moved upward. As an alternative, the barrier may be raised, lowered, opened or closed by the lift operator. The barrier, when controlled automatically, shall be in its fully raised or closed position at all times when the bottom edge of the platform is more than 8 cm (3.1 in.) above the roadway or sidewalk. Unless lift controls are designed to be operated by a person standing at ground level adjacent to the lift, barriers shall be interlocked so the lift cannot be raised until the barrier has been raised.

(g) **Platform Surface.** The platform surface on which the wheelchair rolls shall be free of any protrusions over 6 mm (0.24 in.) high and shall be slip resistant.

(h) **Platform Deflection.** The lift platform at all operating heights shall not deflect more than 3 degrees in any direction between its unloaded position and its position when uniformly loaded with 170 kg (375 lb). Entrance ramps to the lift platform shall be excluded from this measurement.

(i) **Platform Movement.** No part of the lift platform shall move at a rate exceeding 30 cm/sec (11.8 in./sec) during deployment, lowering, lifting or stowing. This subsection shall not apply to a manually deployed platform.

(j) **Boarding Direction.** The lift platform shall permit wheelchairs to board both by rolling forward and by rolling backward.

(k) **Protective Covering.** Any readily accessible parts of a wheelchair lift that could injure passengers or operators or catch or damage clothing or other objects when the lift is in any position shall be covered with a guard.

(l) **Fasteners.** All fasteners shall withstand vehicle and lift vibrations without loosening.

NOTE: Authority cited: Sections 31401 and 34501, Vehicle Code. Reference: Sections 31401 and 34501, Vehicle Code.

HISTORY

1. Amendment of subsections (f) and (i) filed 11-13-81; effective thirtieth day thereafter (Register 81, No. 46).
2. Change without regulatory effect amending subsection (e) filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).
3. Amendment of subsection (b), new subsections (b)(1)-(3), and amendment of subsection (k) filed 2-21-96; operative 3-22-96 (Register 96, No. 8).
4. Amendment filed 3-15-99; operative 4-14-99 (Register 99, No. 12).

§ 1093. Durability Requirements.

Wheelchair lifts shall meet the following requirements when attached to a fixture that simulates a bus installation and when supplied by electric, hydraulic, air, or other power of an output equal to that normally available on the bus. Only one representative production unit of each model is required to be tested for certification with all tests conducted on the same unit in the following order without any repairs or maintenance during the test other than permitted in subsection (h).

(a) **Vertical Cycling**—The lift platform shall be operated up and then down through its maximum vertical operating range for 15,600 cycles with a load of 270 kg (595 lb) for the first 600 cycles and 170 kg (375 lb) or the remaining cycles. The ambient temperature for the first half of the cycles in each of these tests shall be at least +43 deg C (+110 deg F). The test may be continuous or separated into groups of not less than 10 cycles with nonoperating periods of not more than 1 min between each cycle in the group. The platform shall raise and lower smoothly throughout the test with vertical and horizontal accelerations not exceeding 3.0 m/s² (0.3g) as measured during the first 5 cycles and last 5 cycles.

(b) **Deployment Cycling**—The lift platform shall be deployed and stowed for 10,000 cycles. The ambient temperature for the first half of the cycles shall be at least +43 deg C (+110 deg F). The test may be continuous or separated into groups and may have nonoperating periods between cycles as specified in preceding subsection (a).

(c) **Low Temperature Operation**—After 5 h of exposure to a temperature not higher than -7 deg C (+20 deg F), the wheelchair lift shall be op-

erated through 10 unloaded cycles of deploying, lowering, raising, and stowing at the exposure temperature. Each cycle shall be separated by at least a 30 min cooling period at a temperature not higher than -7°C ($+20^{\circ}\text{F}$).

(d) *Self-Damage*—The controls shall be held in operating position for 5 s after the unloaded lift meets resistance to its travel under each control position with any limit switches deactivated. The test shall be performed twice at each position of deploy, stow, full up at floor level and full down at ground level.

(e) *Proof Load*—With the lift stationary at its raised position, the platform shall be loaded with 410 kg (900 lb) uniformly distributed around the center of the platform within an area not exceeding a 60 x 60 cm (24 x 24 in.) square.

(f) *Power and Equipment Failure*—A failure of power, chain, cable, or hydraulic hose that allows the lift to deploy or the platform to lower shall be simulated. The wheelchair lift shall comply with preceding Section 1092(d) during this test.

(g) *Visual Inspection*—At the conclusion of the tests described in subsections (a) through (e), with all loads removed, the parts of the wheelchair lift shall show no condition of fracture, permanent deformation, extreme wear, perceptible impairment, or other deterioration that would be hazardous to the occupant operator.

(h) *Maintenance*—During the durability tests, the inspection, lubrication, maintenance, and replacement of parts (other than bulbs and fuses) may be performed only as specified in the owner's manual for the lift and at intervals no more frequent than specified in the manual. Maintenance specified for certain time intervals shall be performed during the vertical cycling and deployment cycling tests at a number of cycles that is in the same proportion to the total cycles as the maintenance period is to 36 months.

NOTE: Authority and reference cited: Sections 31401 and 34501, Vehicle Code.

[The next page is 79.]

§ 1094. Certification.

Wheelchair lift manufacturers shall certify compliance of individual models with this article as follows based upon tests conducted at their own or other laboratories:

(a) **Certification Label**—The certification information shall be permanently imprinted on a part of each lift or on a label or metal plate permanently attached to the lift. The certification shall be located so as to be visible when the lift is installed in the vehicle in accordance with the lift manufacturer's instructions.

(b) **Lettering**—Lettering shall be at least 3.0 mm (0.12 in.) high.

(c) **Required Data**—The certification shall contain the manufacturer's name and address, model number, serial number, month and year of manufacture, and the statement: "This wheelchair lift conforms to the California Code of Regulations requirements in effect on the date of manufacture."

NOTE: Authority and reference cited: Sections 31401 and 34501, Vehicle Code.

HISTORY

1. Change without regulatory effect of subsection (c) filed 2-8-88; operative 3-9-88 (Register 88, No. 7).

§ 1095. Installation.

Wheelchair lifts shall be manufactured to be capable of being installed in accordance with the following requirements:

(a) **Control Location**—The controls for deploying, lowering, raising and stowing the lift and moving the barrier shall be capable of being installed at a location, either interior or exterior, where the bus driver or lift attendant has a full view of the lift platform, its entrance and exit, and the wheelchair passenger, directly or with partial assistance of mirrors. Lifts entirely to the rear of the driver's seat shall not be operable from the driver's seat but shall have an override control at the driver's position that can be set to prevent the lift from being operated by the other controls (except for emergency manual operation after power failure).

(b) **Width and Depth of Lift Assembly**—The lift shall be designed so that it is capable of being installed with no part of the assembly when stowed extending laterally beyond the normal side contour of the bus nor vertically below the lowest part of the rim of the wheel closest to the lift.

(c) **Gaps**—Gaps in the platform in areas over which a wheelchair can roll shall not be greater than 15 mm (0.60 in.) horizontally or greater than 6 mm (0.24 in.) vertically.

(d) **Accessibility**—All items requiring inspection or maintenance shall be readily accessible. Covers and access doors are permitted.

(e) **Instructions**—The lift manufacturer shall supply the user with detailed instructions for installing the lifts and recommended inspection and maintenance schedules and procedures. The manufacturer shall supply operating instructions with each lift sold so the instructions may be carried in the bus.

NOTE: Authority and reference cited: Sections 31401 and 34501, Vehicle Code.

Chapter 5. Special Vehicles**Article 1. Ambulances****§ 1100. Scope.**

This article shall apply to all publicly and privately owned ambulances used for emergency service except as specifically exempted by provisions of these regulations.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2416, 2501-2512, 2541, and 2542, Vehicle Code.

HISTORY

1. Repealer of article 1 (sections 1100-1109) and new article 1 (sections 1100-1109) filed 8-17-77; designated effective 10-1-77 (Register 77, No. 34). For prior history of article 1, see Registers 73, No. 24, 74, No. 21 and 75, No. 13.
2. Repealer of article 1 (sections 1100-1109) and new article 1 (sections 1100-1109) filed 11-24-80; designated effective 1-1-81 (Register 80, No. 48). For prior history, see Registers 77, No. 47 and 78, No. 6.
3. Editorial correction adding article heading (Register 91, No. 18).

§ 1100.2. Definitions.

Unless otherwise specified, the following definitions shall apply for the purposes of this article:

(a) **Ambulance**. A vehicle specially constructed, modified or equipped, and used for the purpose of transporting sick, injured, convalescent, infirm, or otherwise incapacitated persons.

(b) **Ambulance Driver Certificate**. A California Ambulance Driver Certificate or a California Special Driver Certificate valid for driving an ambulance.

(c) **Ambulance Service**. The private or public organization or individual providing an ambulance for use in emergency service.

(d) **Department**. Department of the California Highway Patrol.

(e) **Emergency Call**. A request for an ambulance to transport or assist persons in apparent sudden need of medical attention; or, in a medical emergency, as determined by a physician, to transport blood, any therapeutic device, accessory to such device, or tissue or organ for transplant.

(f) **Emergency Service**. The functions performed in response to an emergency call. Emergency service also includes transportation of a patient, regardless of a presumption of death of the patient, or transportation of a body for the purpose of making an anatomical gift, as provided in Section 12811, Vehicle Code, and the Uniform Anatomical Gift Act, Health and Safety Code.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 165, 2416, 2501, 2511 and 2512, Vehicle Code.

§ 1100.3. General Requirements.

No ambulance shall respond to an emergency call or transport patients unless staffed by both a certificated driver and a qualified attendant, maintained in good mechanical repair and sanitary condition, and equipped as required by this article and the Vehicle Code.

(a) **Driver Certificate Exemption**.

In addition to the exemptions stated in Vehicle Code section 12527(f), ambulance driver certificates are not required for persons driving ambulances, based out-of-state, into California to provide only interstate emergency service, if the drivers are appropriately licensed or certified by the state of origin. However, if the department has reason to believe an out-of-state driver would be denied an ambulance driver certificate if based in California, that driver may be prohibited from driving in this state unless he/she obtains an ambulance driver certificate.

(b) **Medical Training Prerequisite**.

Ambulances shall not respond to emergency calls or transport patients unless the attendant—or the driver, if the service has been exempted from the requirement to have an attendant—possesses a certificate or license evidencing compliance with the emergency medical training and educational standards for ambulance personnel established by the State Emergency Medical Service Authority in title 22 of this code. This requirement shall not apply during a "state of war emergency," duly proclaimed "state of emergency," or "local emergency," as defined in Government Code section 8558, when it is necessary to fully utilize all available ambulances in an area and it is not possible to have such ambulances operated or attended by persons with the qualifications required by this section.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504 and 2512, Vehicle Code; Section 1760.5, Health and Safety Code.

HISTORY

1. Amendment filed 10-27-82; effective thirtieth day thereafter (Register 82, No. 44).
2. Change without regulatory effect amending subsection (a) filed 1-22-91 (Register 91, No. 10).

§ 1100.4. Ambulance Identification.

The name of the public entity that operates an emergency ambulance service or the name under which the ambulance licensee is doing business or providing service shall be displayed on both sides and the rear of each emergency ambulance. The display of the name shall be in letters in sharp contrast to the background and shall be of such size, shape, and color as to be readily legible during daylight hours from a distance of 50 feet. All ambulances operated under a single license shall display the same identification.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

HISTORY

1. Amendment filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 1100.5. Ambulance Location Report.

Entities providing emergency ambulance service shall notify the local office of the department whenever the usual location of an emergency ambulance is changed, an ambulance is acquired, or an ambulance is removed from service.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

§ 1100.6. Periodic Ambulance and Records Inspection.

Ambulances used for emergency service, personnel records and call records may be inspected periodically by the department to ensure compliance with requirements of the Vehicle Code and this title. Ambulances and records shall be made available for such inspection upon notice by a representative of the department.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

§ 1100.7. Record of Calls.

Every ambulance service shall maintain a current record of each emergency call either at the service address or the location where the responding ambulance is based. The record shall be retained for not less than three years and shall contain the following information:

- (a) Date and time of emergency call, location where service is needed, and identity of person receiving the call for ambulance service.
- (b) Identity of person or, when applicable, the name of the agency requesting an ambulance.
- (c) Identification of each ambulance and personnel dispatched, and record of siren and red light use.
- (d) Explanation of any failure to dispatch an ambulance as requested.
- (e) Time of dispatch and times of arrival and departure from the scene of emergency.
- (f) Destination of patient and time of arrival at destination.
- (g) Name or other identification of patient (if name is unavailable) or description of item requiring emergency transportation.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

§ 1100.8. Personnel Records.

Every ambulance service shall maintain a personnel file for each driver and attendant either at the address of the service or the location where the employee is based. Each personnel file shall contain the following information:

- (a) Effective date of employment.
- (b) Facsimiles of driver license, ambulance driver certificate, and current medical examination certificate of each driver.
- (c) Facsimile of the current certificate or license evidencing compliance with emergency medical training and educational standards for ambulance personnel established by the State Emergency Medical Service Authority.
- (d) Summary of work experience for the five years preceding the effective date of present employment.
- (e) An affidavit by each ambulance attendant and/or driver declaring, under penalty of perjury, that he/she is not subject to the applicable attendant or driver prohibitions contained in sections 1101(b) of this title or Vehicle Code section 13372.
- (f) Evidence of satisfactory completion of other driver and attendant training required by this article and the Vehicle Code.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2510, 2512 and 2542, Vehicle Code.

HISTORY

1. Amendment of subsection (c) filed 10–27–82; effective thirtieth day thereafter (Register 82, No. 44).
2. Change without regulatory effect amending subsections (d)–(f) filed 1–22–91 (Register 91, No. 10).

§ 1101. Ambulance Attendant.

The attendant on an ambulance transporting any person in apparent need of medical attention shall occupy the patient compartment and shall meet the requirements of this section.

(a) Qualifications. The attendant shall be at least 18 years of age and shall possess a certificate or license evidencing compliance with the emergency medical training and educational standards for ambulance personnel established by the State Emergency Medical Service Authority.

(b) Prohibitions. No person shall act at any time in the capacity of an ambulance attendant when such person:

(1) Is required under Section 290 of the Penal Code to register as a sex offender for any offense involving force, duress, threat, or intimidation.

(2) Habitually or excessively uses or is addicted to narcotics or dangerous drugs, or has been convicted during the preceding seven years of any offense relating to the use, sale, possession, or transportation of narcotics or addictive or dangerous drugs.

(3) Habitually and excessively uses intoxicating beverages.

(4) Has been convicted during the preceding seven years of any offense punishable as a felony and involving force, violence, threat, or intimidation, or has been convicted of theft in either degree during that period. Persons on parole or probation for such offenses or crimes involving force, violence, threat, or intimidation shall not act as ambulance attendants until the parole or probation is ended.

(5) Has committed any act involving moral turpitude, including fraud or intentional dishonesty for personal gain, within the preceding seven years.

(6) Has demonstrated irrational behavior or incurred a physical disability to the extent that a reasonable and prudent person would have reasonable cause to believe that his/her ability to perform the duties normally expected of an attendant may be impaired.

(c) Exceptions. Criminal prohibitions of this section notwithstanding, any person who holds a valid ambulance driver certificate issued by the Department of Motor Vehicles may serve as an ambulance attendant provided he/she meets the qualifications and possesses a certificate or license evidencing compliance with the emergency medical training and educational standards for ambulance personnel established by the State Emergency Medical Service Authority. Employment as an attendant may be authorized at the discretion of the Department of the California Highway Patrol when only medical and health standards related to driving abilities or a poor driving record precludes issuance of the driver certificate.

2. Change without regulatory effect repealing section filed 1–22–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 10).

§ 1102.6. Disciplinary Periods.

NOTE: Authority and reference cited: Section 2512, Vehicle Code.

HISTORY

1. Change without regulatory effect repealing section filed 1–22–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 10).

§ 1102.8. Meaning of Conviction.

NOTE: Authority and reference cited: Section 2512, Vehicle Code.

HISTORY

1. Change without regulatory effect repealing section filed 1–22–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 10).

§ 1103. Ambulance Safety Equipment.

All safety equipment carried or installed shall be maintained in good working order and shall include but not be limited to:

- (a) A siren and steady burning red warning lamp that meet requirements established by the department.
- (b) Seat belts or equivalent restraints, for the driver and any front seat passenger.
- (c) A fire extinguisher of the dry chemical or carbon dioxide type with a minimum 4–B:C rating maintained as prescribed by the State Fire Marshal. The use of vaporizing liquid extinguishers is prohibited.
- (d) A portable, battery-operated light.
- (e) A spare wheel with inflated tire of appropriate load rating.
- (f) A jack and tools for wheel changes.
- (g) Map covering the areas in which the ambulance provides services.
- (h) Patient compartment door latches operable from inside and outside the vehicle on all emergency ambulances manufactured and first registered after January 1, 1980.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

§ 1103.2. Ambulance Emergency Care Equipment and Supplies.

Any equipment or supplies carried for use in providing emergency medical care must be maintained in clean condition and good working order.

(a) Essential equipment and supplies to be carried shall include as a minimum:

- (1) An ambulance cot and collapsible stretcher; or two stretchers, one of which is collapsible.
- (2) Straps to secure the patient to the stretcher or ambulance cot, and means of securing the stretcher or ambulance cot in the vehicle.
- (3) Ankle and wrist restraints. Soft ties are acceptable.
- (4) Sheets, pillow cases, blankets, and towels for each stretcher or ambulance cot, and two pillows for each ambulance.
- (5) Three oropharyngeal airways, one each of a size for adults, children and infants.
- (6) At least four pneumatic or rigid splints capable of splinting all extremities.
- (7) A resuscitator that meets the requirements of Vehicle Code Section 2418.5. A hand operated bag–valve–mask unit with clear masks of adult, child, and infant sizes capable of use with oxygen will meet this requirement.
- (8) Oxygen (USP), regulator, and means for administering oxygen, including adequate tubing and semiopen, valveless, transparent masks in adult, child, and infant sizes. Oxygen may be administered by resuscitator, bag mask unit, or inhalator. (Portability required.) Oxygen supply must be sufficient to provide a patient with not less than 10 liters per minute for 20 minutes.

(9) Clean bandages and bandaging supplies:

Twelve sterile bandage compresses or equivalent

Four 3– by 3–in. sterile gauze pads

Six 2–, 3–, 4–, or 6 –in. roller bandages

Two rolls of 1–, 2– or 3–in. adhesive tape

Bandage shears

Two 10– by 30–in. or larger universal dressings

(10) An emesis basin, or disposable bags and covered waste container.

(11) Portable suction equipment. Squeeze syringes alone are not sufficient.

(12) Two sandbags, loosely filled, or equivalent material to restrict movement.

(13) Two spinal immobilization devices, one at least 30–in. in length and the other at least 60–in. in length with straps for adequately securing patients to the devices. Combination short–long boards are acceptable.

(14) Half–ring traction splint for lower extremity with limb support slings, padded ankle hitch traction strap, and heel rest or an equivalent device.

(15) Blood pressure manometer, cuff, and stethoscope.

(16) Sterile obstetrical supplies including as a minimum: gloves, umbilical cord tape or clamps, dressings, towels, bulb syringe, and clean plastic bags.

(17) A gallon or more of potable water or two liters, saline solution in covered, secured plastic container.

(18) One bedpan or fracture pan.

(19) One urinal.

(b) Exception. Ambulances while in use for infant transportation or when staffed and equipped for use in conjunction with newborn intensive care nursery services as specified in Title 22 of this code, need not concurrently carry items of emergency care equipment or supplies that would interfere with the specialized care and transportation of an infant in an incubator or isolette.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

HISTORY

1. Amendment of subsection filed 12–14–87; operative 1–13–88 (Register 88, No. 14).

§ 1104. Dispatching Responsibilities.

Ambulance owners, drivers, dispatchers, and other persons directing the dispatch or operation of ambulances shall comply with the following requirements:

(a) Delays. Every person who dispatches an ambulance shall do so promptly or inform the person requesting such service of any delay, with the reasons therefor, and obtain the consent of the requestor before dispatching an ambulance under any circumstances that could delay it.

(b) Restrictions on Directing Use of Red Light and Siren. No person shall direct or request the use of the siren and red warning light (Code 3 operation) unless such person has reasonable cause to believe that speed in providing emergency ambulance service is essential to save a life, prevent undue suffering, or to reduce or prevent disability.

(c) Restrictions on Dispatch of Ambulances. The dispatch of an emergency ambulance where ambulance transportation is readily available from two or more ambulance services shall be in accordance with the following provisions:

(1) An ambulance service receiving an emergency call from a private person requesting an ambulance at the scene of a motor vehicle accident shall notify the appropriate law enforcement or other public agency dispatch center of the call. An ambulance shall be dispatched only upon instructions from that agency.

(2) When the dispatch of an ambulance is normally coordinated by a single public agency, an ambulance service receiving an emergency call from a private person requesting an ambulance at the scene of a motor vehicle accident shall notify the appropriate public agency dispatch center of the call. An ambulance shall be dispatched only upon instructions from the agency.

(3) No public or private ambulance service shall cause or permit any ambulance to be dispatched on the basis of information obtained by monitoring a radio frequency assigned to a law enforcement or other public agency except by specific request of, or prior arrangement with, the coordinating agency responsible for dispatching emergency ambulances.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

§ 1105. Ambulance Driver's Responsibilities.

(a) Delays. Every driver of an ambulance dispatched for emergency service shall respond promptly or inform the dispatcher of his/her inability to respond.

(b) Speed Restriction. In no event shall an ambulance driver exceed a speed of 15 miles per hour while disobeying any official traffic control

stop sign or stop signal. This subsection shall not apply to publicly owned and operated dual purpose law enforcement vehicles during law enforcement work.

(c) **Destination Restriction.** In the absence of decisive factors to the contrary, an ambulance driver shall transport emergency patients to the most accessible emergency medical facility equipped, staffed, and prepared to administer care appropriate to the needs of the patients.

(d) **Siren and Red Warning Light Use Restrictions.** Ambulance drivers shall not use the siren and red warning light (Code 3 operation) when traffic is congested to a degree that increased ambulance speed and right-of-way cannot be gained thereby. Siren and red warning lights shall be used with due regard for safe roadway operation of ambulances and shall not be used except under the following circumstances.

(1) When responding to an emergency call or when engaged in emergency services as defined in this article, and

(2) When speed in transporting the patient to an emergency medical care facility appears essential to prevent loss of life, undue suffering, or to reduce or prevent disability.

(e) **Driver Conditions.** No person shall drive or be directed to drive an ambulance when his/her ability to operate the ambulance safely is adversely affected by fatigue, illness, or any other cause nor when the vehicle is unsafe to operate.

(f) **Vehicle Condition.** Every driver shall inspect the ambulance prior to operation to determine that it is in safe condition, equipped as required, and that all vehicle equipment and installed medical equipment is in good working order.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

§ 1106. Owner's Responsibilities.

Every owner, operator, manager, or supervisor of an ambulance service shall comply with all the provisions of this article and Vehicle Code section 13373 and shall have the following supplementary responsibilities:

(a) **Driver Proficiency.**

Each driver shall be required to demonstrate that he/she is capable of safely operating the type of ambulance to which assigned before driving such vehicle on a highway unsupervised or in emergency service.

(b) **Staffing Qualifications.**

No person shall be permitted to drive an ambulance or act as the required attendant unless he/she meets all applicable provisions of this article. Any employee who does not meet the requirements of, or is not thoroughly familiar with the provisions of this article and Vehicle Code sections 21055, 21056, 21806, 21807 and 23103, shall be prohibited from driving an ambulance in emergency service.

(c) **Unlawful Operation.**

No owner shall knowingly require or permit the operation of any ambulance that is not in safe operating condition or not equipped and maintained as required by any law or this subchapter; or knowingly require or permit any driver to drive in violation of any law or regulation.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

HISTORY

1. Change without regulatory effect amending first paragraph and subsection (d) filed 1-22-91 (Register 91, No. 10).

§ 1106.2. Financial Responsibility.

No owner shall use any ambulance, or permit any ambulance to be used, to transport passengers for hire without maintaining ability to respond in damages as required by Vehicle Code Section 16500.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2504, 2512 and 2542, Vehicle Code.

§ 1107. Ambulance Service Licensing Requirements.

Owners other than public agencies shall not permit their ambulances to respond to emergency calls unless they have obtained from the department a license to operate an emergency ambulance service. A license will be issued only to persons or entities operating 1 or more ambulances designed and operated exclusively as ambulances of which at least 1 is available 24 hours daily to provide emergency transportation.

(a) **EXCEPTIONS.** Exceptions to ambulance licensing requirements are as follows:

(1) License and vehicle identification certificate requirements shall not apply to publicly owned and operated ambulances, or vehicles operated as ambulances at the request of local authorities during any "state of war emergency," duly proclaimed "state of emergency," or "local emergency," as defined in Government Code Section 8558.

(2) License requirements shall not prevent peace officers from arranging for the transportation of any person in need of emergency medical care when a licensed ambulance is not available and such transportation is immediately required.

(3) An ambulance service that provides service only for special events or industrial employees and does not respond to calls from the general public is exempt from 24-hour availability as a licensing prerequisite.

(b) **License Applications.**

(1) Ambulance license applications shall contain such information as the department may deem necessary to determine whether any owner, partner, officer, or director shall be disqualified for any of the reasons set forth in Vehicle Code Sections 2541 and 2542. Information may include the business name, owner's name, address, fingerprints, birth date, social security number, driver license number, and personal history.

(2) Every license application shall be signed and verified by the owner applicant or an authorized representative.

(3) Every license application shall be accompanied by a list of ambulances to be operated under the license with each ambulance identified by year make/model, vehicle identification number, and license plate number.

(4) Every application for an initial license shall also be accompanied by:

(A) A fee of \$200.

(B) An inspection report on a form furnished by the department for each ambulance certifying satisfactory completion of a vehicle inspection performed not more than 30 days prior to the application date. The vehicle inspection shall be performed and the report signed by a representative of the department.

(C) An official brake adjustment certificate for each ambulance issued not more than 45 days prior to the application date. Submission of the certificate may be waived by the department when no licensed brake adjusting station is located within 30 miles provided the licensee certifies the brake system meets requirements of the Vehicle Code. The certificate will be waived if the ambulance qualifies under Section 430 of the Vehicle Code as a new vehicle.

(D) One acceptable fingerprint card for each applicant owner, partner, officer, director and controlling shareholder. The fingerprint card requirement may be waived upon application to the department from a corporation where the requirement would be burdensome because there exists a large number of officers, directors, or controlling shareholders.

(5) Every application for a renewal license shall also be accompanied by:

(A) A fee of \$150.

(B) One acceptable fingerprint card for each applicant owner, partner, officer, director and controlling shareholder added since last licensed.

(c) **License Cancellation and Replacement.** An ambulance license may be cancelled without prejudice when it has been issued through error or voluntarily surrendered. Any person who has voluntarily surrendered his license may immediately apply for a replacement license for the unexpired term without fee.

(1) Any licensee who changes the name of the business or service from that on the license shall surrender the license to the department for cancellation within 10 days thereafter and may apply for a replacement license.

(2) Surrender and cancellation will be permitted at any time at the request of the licensee.

(d) **Posting of Service Fees.** The licensee shall establish and maintain a schedule of fees covering usual service charges. The schedule shall be prominently posted in the business office.

(e) **Direct Telephone Service.** 24-hour availability for service includes but is not limited to 24-hour maintenance of direct telephone service

whereby both public agencies and the general public can request and obtain prompt emergency ambulance service.

NOTE: Authority cited: Sections 2402 and 2512, Vehicle Code. Reference: Sections 2501, 2502, 2503, 2504, 2512 and 2542, Vehicle Code.

HISTORY

1. Amendment of subsections (a)(1), (b)(2) and new subsection (b)(3) filed 10-27-82; effective thirtieth day thereafter (Register 82, No. 44).
2. Amendment filed 11-17-83; effective thirtieth day thereafter (Register 83, No. 47).
3. Amendment of subsection (b) filed 3-4-85; designated effective 4-1-85 pursuant to Government Code Section 11346.2(d) (Register 85, No. 10).
4. Amendment of subsection (b)(4)(C) filed 12-14-87; operative 1-13-88 (Register 88, No. 14).
5. Change without regulatory effect amending first paragraph and subsections (a)(1), (a)(3), (b)(3), (b)(4)(D), (b)(5)(B) and (e) filed 12-21-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 51).
6. Repealer of subsection (b)(4)(D) and subsection relettering, and repealer of subsection (b)(5)(B) and subsection relettering filed 7-31-96; operative 8-30-96 (Register 96, No. 31).

§ 1107.2. Ambulance Identification Certificate.

(a) Requirements. No privately owned or operated emergency ambulance shall be operated in emergency service or be used to transport a patient unless it carries a valid ambulance identification certificate or temporary operating authority issued for that ambulance. An identification certificate is issued by the department as evidence that the operator has obtained a license to operate an emergency ambulance service and that the ambulance identified thereon has been inspected and determined to be in compliance with requirements of the Vehicle Code and this title.

(b) Issuance. An ambulance identification certificate will be issued in conjunction with the initial license, and renewals thereof, for each ambulance to be operated under that license. An identification certificate will be issued for an additional ambulance acquired during the license year by a licensee provided a request is accompanied by the items listed in Section 1107(b)(4)(B) and (C). The vehicle must be inspected and the inspection report signed by a representative of the department.

(c) Validity. An ambulance identification certificate shall remain valid during the term of the license under which the certificate was issued, provided the licensee retains the license and possession and control of the vehicle and the ambulance meets all applicable requirements.

(d) Surrender. An ambulance identification certificate shall be surrendered to the department under any of the following conditions:

- (1) Change in ownership of the vehicle.
- (2) Transfer of possession or control of the ambulance.
- (3) Surrender or expiration of the license.

(4) Noncompliance with equipment requirements of statutes, or regulations. (The certificate may be returned when the vehicle is again in compliance.)

(5) Failure to submit an inspection report as required.

(e) Temporary Transfer of Emergency Ambulance. Provisions of preceding subsection (a) notwithstanding, a privately owned emergency ambulance for which an identification certificate has been issued and which is temporarily transferred to another licensee may be operated for not more than 30 days without a new identification certificate if all other requirements for equipment, identification, and operation are met. Before operating the ambulance, the new licensee shall obtain temporary operating authorization from the local office of the department. When an ambulance is transferred between licensees, the original licensee shall surrender the identification certificate to the department. The certificate may be returned to the original licensee upon repossession of the vehicle and submission of a signed inspection report for that ambulance. A brake certificate is not required in conjunction with a temporary transfer.

NOTE: Authority cited: Sections 2402 and 2512, Vehicle Code. Reference: Sections 2504, 2510, 2512 and 2542, Vehicle Code.

HISTORY

1. Amendment filed 10-27-82; effective thirtieth day thereafter (Register 82, No. 44).

2. Amendment of subsection (a) filed 11-17-83; effective thirtieth day thereafter (Register 83, No. 47).
3. Change without regulatory effect amending section heading and section filed 12-21-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 51).
4. Amendment of subsections (b) and (e) filed 7-31-96; operative 8-30-96 (Register 96, No. 31).

§ 1107.4. Temporary Operating Authorization.

A privately owned or operated ambulance inspected and approved by a member of the department may be temporarily operated by a licensee or applicant prior to receipt of the license and/or the ambulance identification certificate when authorized by the local California Highway Patrol Area Commander. Such authorization shall be carried in the vehicle. A temporary substitute for the identification certificate and the license, the authorization is valid for a period of up to 30 days. It shall be invalid when replaced by an ambulance identification certificate and/or license or when the license is denied.

NOTE: Authority cited: Sections 2402 and 2512, Vehicle Code. Reference: Sections 2504, 2510, 2512 and 2542, Vehicle Code.

HISTORY

1. Amendment filed 11-17-83; effective thirtieth day thereafter (Register 83, No. 47).
2. Change without regulatory effect amending section filed 12-21-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 51).

§ 1108. Exemption from Requirements.

(a) Discretionary Exemption. The department may, upon a showing of good cause, grant exemptions to requirements specified in this article. The department may require concurrence by the County Health Officer or the county emergency medical care committee where the ambulance service is provided, and may impose such conditions as deemed necessary.

(b) Mandatory Exemption. Exemptions mandated by Vehicle Code Section 2512 will be granted subject to the following conditions:

(1) Requests. Requests for exemptions by a county board of supervisors shall include the ambulance service name, the specific exemption requested, the findings of the county emergency medical care committee pertaining to the exemption, and a statement from the county board of supervisors that the exemption is necessary for public health and safety.

(2) Limitations. Each exemption shall be limited to a specific ambulance service and shall be applicable to ambulance operation only within the county of the board requesting the exemption.

(3) Exemption Renewal. Renewal requests should indicate that the conditions creating the need for exemptions have been reviewed and that the continued exemption is necessary for public health and safety.

(c) Exemption Expiration. Exemptions shall be valid for a period of not more than two years, unless rescinded earlier for cause. Exemptions are not transferable and shall expire upon change of ownership of the ambulance service.

(d) Termination. Exemptions may be terminated for cause, upon request of the county board of supervisors, or when the need for exemptions no longer exists.

NOTE: Authority and reference cited: Section 2512, Vehicle Code.

§ 1109. Grounds for Suspension or Revocation of License.

Grounds for disciplinary action enumerated in Vehicle Code Section 2542 include but are not limited to:

- (a) Violation of any provision of this article.
- (b) Unlawful use of sirens or warning lamps.
- (c) Frequent failure to respond or an evidenced lack of ability or intention to provide 24-hour service.
- (d) Failure to exercise reasonable care in handling patients or a demonstrated lack of competence in caring for patients or using required equipment.
- (e) Fraudulent billing practices or charging for services not provided and/or not necessary.

NOTE: Authority cited: Section 2512, Vehicle Code. Reference: Sections 2512 and 2542, Vehicle Code.

Article 2. Armored Cars

§ 1110. Scope of Regulations.

This article shall apply to licenses and vehicle inspections required prior to the operation of privately owned armored cars, in accordance with Chapter 2.5 of Division 2 of the Vehicle Code. Armored cars owned and operated by a public agency are exempt from the provisions of this article.

NOTE: Authority cited: Section 2402, Vehicle Code. Reference: Section 2501, 2510 and 21713, Vehicle Code.

HISTORY

1. Repealer and new Article 2 (§§ 1110 through 1113) filed 12-3-68 as an emergency; designated effective 1-1-69 (Register 68, No. 46). For prior history, see Register 63, No. 14.
2. Certificate of Compliance—Section 11422.1, Gov. Code, filed 3-21-69 (Register 69, No. 12).
3. Repealer of Article 2 (§§ 1110-1113) and new Article 2 (§§ 1110-1113) filed 8-14-73; designated effective 9-20-73 (Register 73, No. 33).
4. Repealer of Article 2 (Sections 1110-1113) and new Article 2 (§§ 1110-1113) filed 10-4-77; designated effective 12-1-77 (Register 77, No. 41).

§ 1111. General Requirements.

General requirements for issuance or renewal of an armored car license are as follows:

(a) Eligibility for License. A license to operate privately owned armored cars may be issued only to:

- (1) Persons or firms regularly hired to transport money or other valuables that require special security
- (2) Financial institutions
- (3) Armored car dealers or manufacturers
- (4) Collectors of vehicles of historic value or special interest and originally designed, manufactured, or equipped as armored cars
- (5) Other persons or entities that can show legitimate need.

(b) License Applications. An armored car license application shall require such information as the department deems necessary to determine whether any applicant shall be disqualified on grounds set forth in Vehicle Code Sections 2541 and 2542.

(1) Information may include the business name, owner-applicant's name, address, fingerprints, birth date, social security number, driver license number, and personal history.

(2) Every license application shall be signed and verified by the owner-applicant or an authorized representative thereof.

(3) Each application for an initial or renewal license shall be accompanied by:

(A) A list of armored cars to be operated under the license with each vehicle identified by year model, make, vehicle identification number, and license plate number.

(B) One acceptable fingerprint card for each applicant owner, partner, officer, director and controlling shareholder. The fingerprint cards are not required with license renewal applications except for persons added since last licensed. The fingerprint card requirement may be waived upon application to the department from a corporation where the requirement would be burdensome because there exists a large number of officers, directors, or controlling shareholders.

(c) License Cancellation and Replacement. An armored car license may be canceled without prejudice when it has been issued in error or voluntarily surrendered, or has expired. Any person after surrendering a license voluntarily may immediately apply for a replacement license for the unexpired term without fee.

(1) Any licensee changing the name or address from that on the license shall surrender the license to the department for cancellation within 10

days thereafter, and may apply for a replacement license. Effective January 1, 1983, a change of address shall be reported within 10 days, but surrender of the license is not required.

(2) Surrender and cancellation will be permitted at any time at the request of the licensee.

(3) Any license expired over 30 days is no longer renewable and shall be canceled.

NOTE: Authority cited: Section 2501, Vehicle Code. Reference: Sections 2501, 2503, 2510, 2541 and 21713, Vehicle Code.

HISTORY

1. Amendment of subsection (a)(5) filed 6-17-82; effective thirtieth day thereafter (Register 82, No. 25).
2. Amendment of subsection (b) and (c)(1) filed 9-8-82; effective thirtieth day thereafter (Register 82, No. 37).

§ 1112. Armored Car Inspection and Identification Card.

Each armored car shall be inspected by a member of the department in conjunction with the initial issuance of the license or identification card. An identification card is issued for each armored car as evidence that the owner has obtained a license to operate an armored car and that the vehicle identified thereon has been inspected and determined to be in compliance with Vehicle Code requirements. The identification card shall be carried in the vehicle for which it is issued.

(a) Issuance and Retention. An armored car identification card will be issued initially in conjunction with the issuance of a license or upon request from a licensee for authority to operate an additional armored car, provided a satisfactory inspection report is submitted for each vehicle. Retention of the armored car identification card(s) is contingent upon continued compliance with licensing and equipment requirements.

(b) Expiration. An armored car identification card shall remain valid during the term of the license under which the card was issued, including renewals thereof, as long as the licensee retains the license and possession and control of the vehicle and the armored car meets all requirements.

(c) Surrender. An armored car identification card shall be surrendered to the department under any of the following conditions:

- (1) Change in ownership of the vehicle
- (2) Transfer of possession or control of the vehicle
- (3) Surrender or expiration of the license
- (4) Noncompliance with equipment requirements of statutes or regulations. (The card may be returned when the vehicle is again in compliance.)

(d) Registration and License Plates. A licensee shall notify the department of the license plate number of each armored car and any subsequent change in registration.

NOTE: Authority cited: Section 2501, Vehicle Code. Reference: Sections 2501, 2510, and 21713, Vehicle Code.

HISTORY

1. Amendment filed 9-25-81; effective thirtieth day thereafter (Register 81, No. 39).
2. Repealer of subsections (d) and (f) and relettering and amendment of subsection (e) to (d) filed 9-8-82; effective thirtieth day thereafter (Register 82, No. 37).

§ 1113. Temporary Operating Authorization.

An armored car inspected and approved by a member of the department may be operated temporarily by a licensee or applicant prior to receipt of the license and/or the armored car identification card when authorized by the local California Highway Patrol Area commander. Such authorization shall be carried in the vehicle. Temporary authorization shall be invalid when replaced by an armored car identification card and/or license or when the license is denied.

NOTE: Authority cited: Section 2501, Vehicle Code. Reference: Sections 2501, 2510 and 21713, Vehicle Code.

HISTORY

1. Repealer and new section filed 9-8-82; effective thirtieth day thereafter (Register 82, No. 37).

Article 3. Authorized Emergency Vehicles—Permits

§ 1120. Scope of Regulations.

The provisions of this article shall apply to authorized emergency vehicles operated under permits issued by the department pursuant to Vehicle Code Section 2416.

NOTE: Authority cited: Section 2416, Vehicle Code. Reference: Sections 2416 and 2417, Vehicle Code.

HISTORY

1. Repealer of Article 3 (Sections 1120–1124) and new Article 3 (Sections 1120–1124) filed 12–10–68 as an emergency; designated effective 1–1–69 (Register 68, No. 47). For former sections, see Registers 63, No. 14 and 65, No. 2.
2. Certificate of Compliance—Section 11422.1, Gov. Code, filed 3–21–69 (Register 69, No. 12).
3. Repealer of Article 3 (Sections 1120–1124) and new Article 3 (Sections 1120–1124) filed 6–11–80; effective thirtieth day thereafter (Register 80, No. 24). For prior history, see Registers 75, No. 13, and 73, No. 13.
4. Editorial correction of NOTE (Register 81, No. 44).

§ 1121. Permit Issuance and Retention.

Issuance and retention of authorized emergency vehicle permits shall be subject to the following conditions.

(a) Application. A separate application for each vehicle shall be made on forms prescribed by the department.

(b) Brake Adjustment Certificate. An official brake adjustment certificate shall be submitted with each application for a permit and shall be dated not more than 45 days prior to the application date. Submission of the certificate may be waived by the department when a licensed brake adjusting station is not located within 30 miles and provided the applicant certifies that the brake system meets requirements of the Vehicle Code.

(c) Photographs. Two vehicle photographs, not less than 3 x 4 inches and taken close enough so that the vehicle fills the picture, shall be submitted, one showing the front and left side view and the other the rear and right side view. An application for reissuance of a permit need not be accompanied by new photographs, provided no changes have been made in the vehicle appearance.

(d) Vehicle Inspection Report. Each application shall include a certified departmental inspection report showing satisfactory completion of a compliance inspection performed not more than 30 days prior to the application. For an initial permit, the vehicle inspection shall be performed and the report certified by a representative of the department. For a renewal permit, the report may be certified by the permittee. Upon notice by the department, the vehicle shall be made available for an inspection by a representative of the department to verify compliance with equipment requirements.

(e) Eligibility Verification. Information may be required as needed to verify the applicant's eligibility for the permit.

(f) Permit Retention in Vehicle. The permit shall be carried in the vehicle for which it is issued.

(g) Permit Surrender and Cancellation. The permit remains the property of the department, is not transferable, and shall be surrendered to the department for cancellation upon:

- (1) Change of ownership or possession of the vehicle,
- (2) Loss of eligibility, when either the permittee or vehicle fails to meet established prerequisites,
- (3) Expiration, suspension, or revocation of the permit,
- (4) Discovery that the permit was issued through error or fraud.

(h) Permit Expiration and Reissuance. A permit for an authorized emergency vehicle shall expire not more than two years from the date of issuance or upon loss of eligibility. Expiration dates may be varied by the department as deemed necessary to facilitate scheduling of vehicle in-

spection. An application for reissuance may be submitted within the 30 days prior to expiration.

(i) Corrections or Changes. Corrections or any change of name, not involving a change of ownership, or a change of address or relocation of the permittee or vehicle shall be reported to the department within 10 days thereafter. Surrender of the permit for replacement to reflect such changes or other corrections may be required at the discretion of the department.

NOTE: Authority and reference cited: Section 2416, Vehicle Code.

HISTORY

1. Amendment of subsections (b) and (d) filed 9–8–82; effective thirtieth day thereafter (Register 82, No. 37).

§ 1122. Special Requirements.

The vehicle for which a permit is issued may be operated as an authorized emergency vehicle only when specially equipped and maintained as follows:

- (a) Special Devices. Each vehicle shall be equipped with:
 - (1) A siren and at least one steady burning red warning lamp that meet requirements established by the department;
 - (2) Seat belts, or equivalent passive restraints, for each seat utilized by personnel when such vehicles are being operated.
- (b) Maintenance. The body, mechanical parts of the vehicle, and all required equipment shall be maintained in serviceable condition at all times.

NOTE: Authority and reference cited: Section 2416, Vehicle Code.

§ 1123. Prohibitions.

Permitted authorized emergency vehicles shall not be operated displaying the red warning lamp and/or sounding a siren ("Code 3 operation") unless:

- (a) Operated by the person or entity to whom the permit is issued, and
- (b) There is reasonable cause to believe that an emergency exists or to apprehend a suspected violator of the law, and
- (c) The vehicle is equipped and maintained as required by the Vehicle Code and regulations adopted herein.

NOTE: Authority and reference cited: Section 2416, Vehicle Code.

HISTORY

1. Editorial Correction of NOTE (Register 81, No. 44).

§ 1124. Permit Denial, Suspension, or Revocation.

Grounds for denial, suspension, or revocation include but are not limited to the following:

- (a) Denial.
 - (1) The permit shall be denied unless the vehicle, proposed usage, and the applicant qualify as specified in Vehicle Code Section 2416 and this article.
 - (2) The permit may be denied if the applicant has had a permit suspended or revoked or has committed any act which, if committed by any permittee, would be grounds for the suspension or revocation of a permit.
- (b) Suspension or Revocation. The permit may be suspended or revoked upon a determination by the department that:
 - (1) The vehicle was operated as an emergency vehicle without reasonable cause.
 - (2) The vehicle is not equipped or maintained as required by the Vehicle Code or by regulations adopted thereunder.
 - (3) The vehicle or permittee no longer meets the prerequisites for the permit.
 - (4) The vehicle was operated in violation of any other provisions of law.

NOTE: Authority cited: Section 2416, Vehicle Code. Reference: Sections 2416 and 2417, Vehicle Code

HISTORY

1. Editorial Correction of NOTE (Register 81, No. 44).

Article 4. School Bus Contractor's License

§ 1130. License Issuance and Retention.

Issuance and retention of a school bus contractor's license shall be subject to the following conditions.

(a) Application. A separate application for each contractor shall be made on form "APPLICATION FOR SCHOOL BUS CONTRACTOR'S LICENSE", CHP 296 (REV 01-00) which is incorporated herein by reference. The form is furnished by the Department.

(b) Temporary License. Contractors who have paid the license fee may use either of the following as a temporary license for not more than 30 days:

(1) A copy of the contractor's completed application for a license and a copy of the check or money order indicating payment of fee.

(2) A telegraphic money order receipt, or copy thereof, made payable to the California Highway Patrol, indicating payment of fee for the contractor's license.

(c) License Surrender and Cancellation. The license remains the property of the Department, is not transferable, and shall be surrendered to the Department for cancellation upon:

(1) Change of ownership of the contractor's business,

(2) Expiration or suspension of the license,

(3) Discovery that the license was issued through error or fraud.

(d) License expiration or reissuance. A license for a school bus contractor shall expire not more than one year from date of issuance. An application for reissuance may be submitted within 60 days prior to expiration.

(e) Corrections or Changes. Corrections or any change of name not involving a change of ownership, or any change of address or relocation of the license shall be reported to the Department within 10 days thereafter. Surrender of the license for replacement to reflect name changes or other corrections may be required at the direction of the Department.

HISTORY

1. New Article 5 (Sections 1140 and 1141) filed 2-2-66; designated effective 3-4-66 (Register 66, No. 4).

§ 1141. Color Requirements.

Each motor vehicle shall have a distinctive exterior finish, exclusive of wheels and trim, as follows:

(a) Vehicles Except Motorcycles.

Vehicles, except motorcycles, shall be painted:

(1) Entirely white; or

(2) White, except that an area not less than and including the front door panels shall be black; or

(3) Black, except that an area not less than and including the front door panels shall be white; or

(4) Any other color, with any color front door panels.

(5) The indicia or name of governmental entity operating the vehicle shall be displayed in sharp contrast to the background on the front door panels and shall be of such size, shape, and color as to be readily legible during daylight hours from a distance of 50 feet.

(b) Stripes. Painted stripes, if used, shall be no wider than 6 inches.

(c) Motorcycles. Each motorcycle shall have one of the following finishes:

(1) Entirely white; or

(2) The sides of the tank and fenders shall be white or the fenders may be entirely white or entirely black; the remaining portions of the motorcycle, which normally receive a painted or enameled finish, shall be black, white, or a combination of black and white, except that these surfaces may have a sharply contrasting accent color overlaying the predominant black and/or white background; or

(3) Any other color.

(4) The indicia or name of governmental entity operating the motorcycle shall be displayed in sharp contrast to the background on the sides of the fairing or tank and shall be of such size, shape, and color as to be readily recognizable during daylight hours from a distance of 50 feet.

NOTE: Authority cited: Section 2402, Vehicle Code. Reference: Section 40800, Vehicle Code.

HISTORY

1. Amendment filed 4-8-77; designated effective 5-9-77 (Register 77, No. 15).
2. Editorial correction adding NOTE filed 4-28-83 (Register 83, No. 18).
3. Amendment of subsections (b) and (c)(2) filed 8-31-93; operative 10-1-93 (Register 93, No. 36).
4. Amendment of first paragraph and subsection (a)(4), new subsection (a)(5), amendment of subsection (c)(2) and new subsections (c)(3)-(4) filed 6-2-2008; operative 7-2-2008 (Register 2008, No. 23).

Chapter 6. Hazardous Materials

Article 1. Explosives Routes and Stopping Places

§ 1150. Applicability.

This article shall apply to the transportation of explosives subject to Division 14 (commencing with Section 31600) of the Vehicle Code.

NOTE: Authority cited: Section 31616, Vehicle Code. Reference: Sections 31601 and 31616, Vehicle Code.

HISTORY

1. Repealer and new section filed 10–28–92; operative 10–28–92 (Register 92, No. 44). For prior history, see Register 84, No. 16.
2. Amendment of NOTE filed 10–17–94; operative 11–16–94 (Register 94, No. 42).
3. Editorial correction of HISTORY (Register 94, No. 42).

§ 1150.1. Designation of Routes and Stopping Places.

(a) The highways, safe stopping places, and inspection stops to be used for transportation of commodities listed in Section 1150 are set forth in Sections 1151.1 through 1153.12 (Maps 1 through 17A). Safe parking places are listed in Section 1154.

(b) Definitions.

(1) Safe Stopping Place. “Safe stopping place” means any place where a driver may stop for food, fuel, or other reason, provided the vehicle is attended at all times.

(2) Attended Vehicle. A vehicle is “attended” when the driver or person in charge of it is awake and occupies any part of it except the sleeper berth; or is within 100 ft. of the vehicle and has an unobstructed view of it.

(3) Safe Parking Place. “Safe parking place” means any off-highway location or terminal where the driver may park and leave a vehicle unattended.

(4) Inspection Stop. “Inspection stop” means any location specially designated as such in this article or any safe parking place or safe stopping place where vehicle inspections required by Section 31607 of the Vehicle Code may be performed.

(5) Required Inspection Stop. “Required inspection stop” means any place designated as such or any other place where vehicle inspection is mandatory.

NOTE: Authority cited: Section 31616, Vehicle Code. Reference: Sections 31602, 31614 and 31616, Vehicle Code.

HISTORY

1. Repealer and new section filed 10–28–92; operative 10–28–92 (Register 92, No. 44). For prior history, see Register 88, No. 26.
2. Amendment of NOTE filed 10–17–94; operative 11–16–94 (Register 94, No. 42).
3. Editorial correction of HISTORY (Register 94, No. 42).

§ 1150.2. Routes Traveled and Stopping.

(a) Routes. No person shall drive or permit the driving of any vehicle transporting commodities listed in Section 1150 upon any highway not designated by this article. For pickup and delivery not over designated routes, the route selected must be the shortest-distance route from the pickup location to the nearest designated route entry location, and the shortest-distance route to the delivery location from the nearest designated route exit location.

(b) Access to Inspection Stops and Safe Stopping Places. If highway access is not provided, a highway other than one designated herein may be used to permit a vehicle or vehicle combination to proceed to and from an inspection stop or safe stopping place, provided the most direct route is used avoiding, to the extent practicable, places where crowds are assembled, streetcar tracks, tunnels, viaducts, and dangerous crossings.

(c) Stopping. No person shall stop a vehicle or vehicle combination transporting commodities listed in Section 1150 at any place not designated as a safe stopping place, safe parking place, improved public rest area as described in (d) of this section or inspection stop, except to comply with orders of a peace officer or an official traffic control device or unless the vehicle or vehicle combination is disabled.

(d) Public Rest Areas. An improved public rest area contiguous to a highway is deemed part of the highway for the purpose of this article.

NOTE: Authority cited: Section 31616, Vehicle Code. Reference: Sections 31602, 31614 and 31616, Vehicle Code.

HISTORY

1. Repealer and new section filed 10–28–92; operative 10–28–92 (Register 92, No. 44). For prior history, see Register 84, No. 16.
2. Amendment of subsections (c) and (d) and NOTE filed 10–17–94; operative 11–16–94 (Register 94, No. 42).
3. Editorial correction of HISTORY (Register 94, No. 42).
4. Amendment of subsection (a) filed 12–10–96; operative 12–10–96 pursuant to Vehicle Code section 31616 (Register 96, No. 50).

§ 1150.3. En Route Inspections.

Inspection of tires and brakes required by Section 31607(c) of the Vehicle Code shall be performed at the following locations:

(a) En Route Inspection Stops. Inspection shall be performed at an inspection stop at least every four hours or 150 miles traveled, whichever occurs first, or as close thereto as is practicable, depending upon the proximity of such inspection stops.

(b) Top-of-Grade Inspection Stops. Regardless of elapsed time or miles traveled, vehicles shall be inspected at the top of and prior to descending any grade upon which the Department of Transportation has declared a speed limit for trucks of less than 55 miles per hour as provided by Section 22407 of the Vehicle Code. Such inspection shall be made off the roadway.

(c) Required Inspection Stops. Regardless of elapsed time or miles traveled, vehicles shall be inspected at any location designated herein as a required inspection stop.

NOTE: Authority cited: Section 31616, Vehicle Code. Reference: Sections 31602, 31607, 31608, 31614 and 31616, Vehicle Code.

HISTORY

1. Repealer and new section filed 10–28–92; operative 10–28–92 (Register 92, No. 44). For prior history, see Register 74, No. 14.
2. Amendment of NOTE filed 10–17–94; operative 11–16–94 (Register 94, No. 42).
3. Editorial correction of HISTORY (Register 94, No. 42).

§ 1150.4. Detours.

Detours established on highways designated in this article may be used for transportation of commodities listed in Section 1150 pending subsequent revision of this article or designation of emergency routes as provided by Section 31617 of the Vehicle Code.

NOTE: Authority cited: Section 31616, Vehicle Code. Reference: Sections 31602 and 31616, Vehicle Code.

HISTORY

1. Repealer and new section filed 10–28–92; operative 10–28–92 (Register 92, No. 44). For prior history, see Register 84, No. 16.
2. Amendment of NOTE filed 10–17–94; operative 11–16–94 (Register 94, No. 42).
3. Editorial correction of HISTORY (Register 94, No. 42).

§ 1150.5. Services and Products.

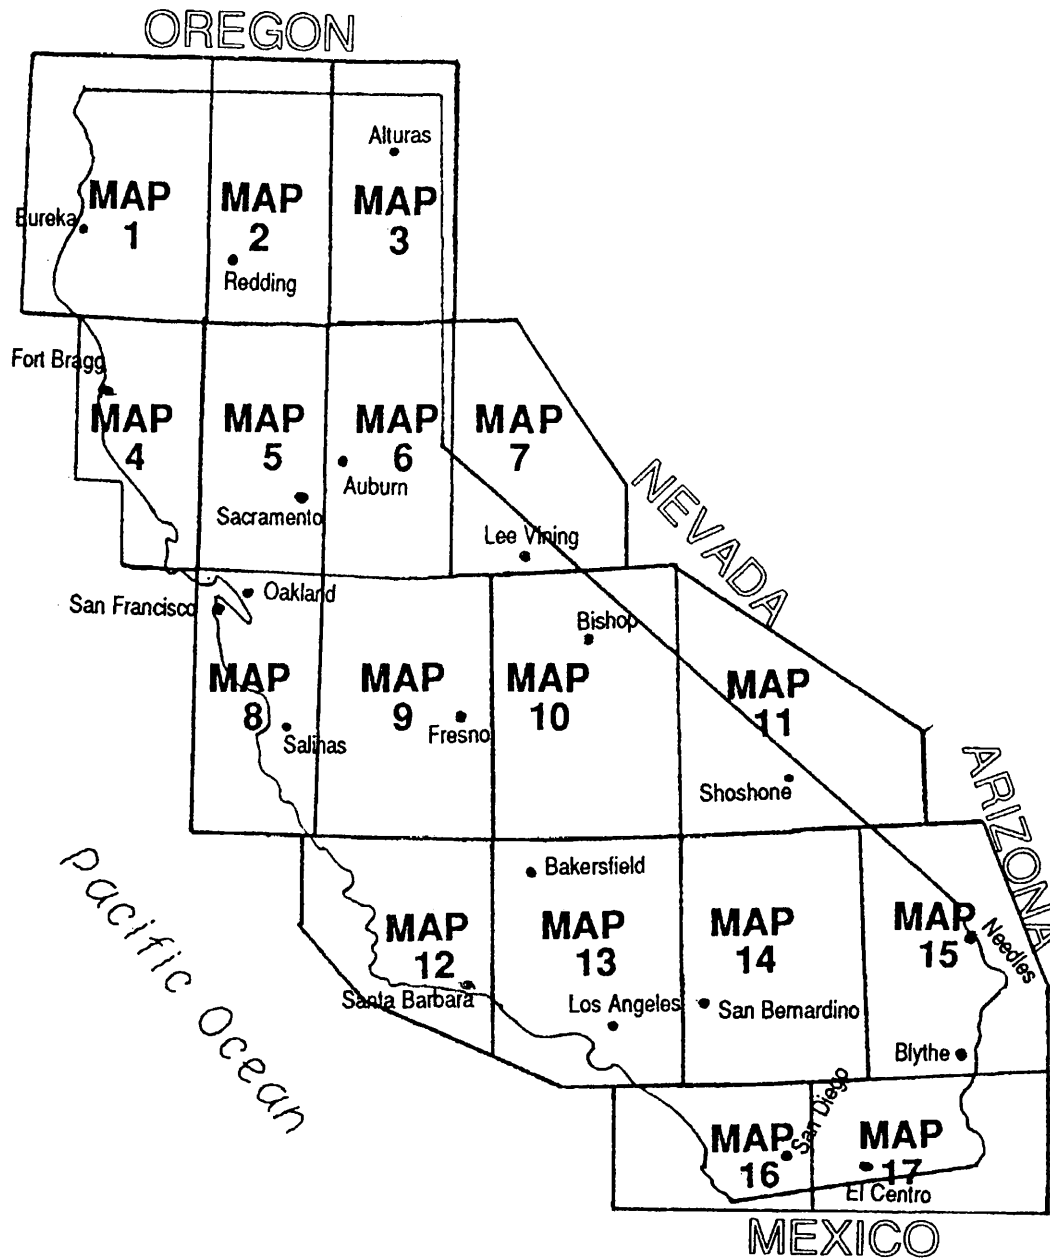

Services available at safe stopping places are indicated for purposes of convenience, but no recommendation of any product, service, or location is intended or should be inferred.

NOTE: Authority cited: Section 31616, Vehicle Code. Reference: Sections 31602 and 31616, Vehicle Code.

HISTORY

1. Repealer and new section filed 10–28–92; operative 10–28–92 (Register 92, No. 44).
2. Amendment of NOTE filed 10–17–94; operative 11–16–94 (Register 94, No. 42).

§ 1151. Map Index.

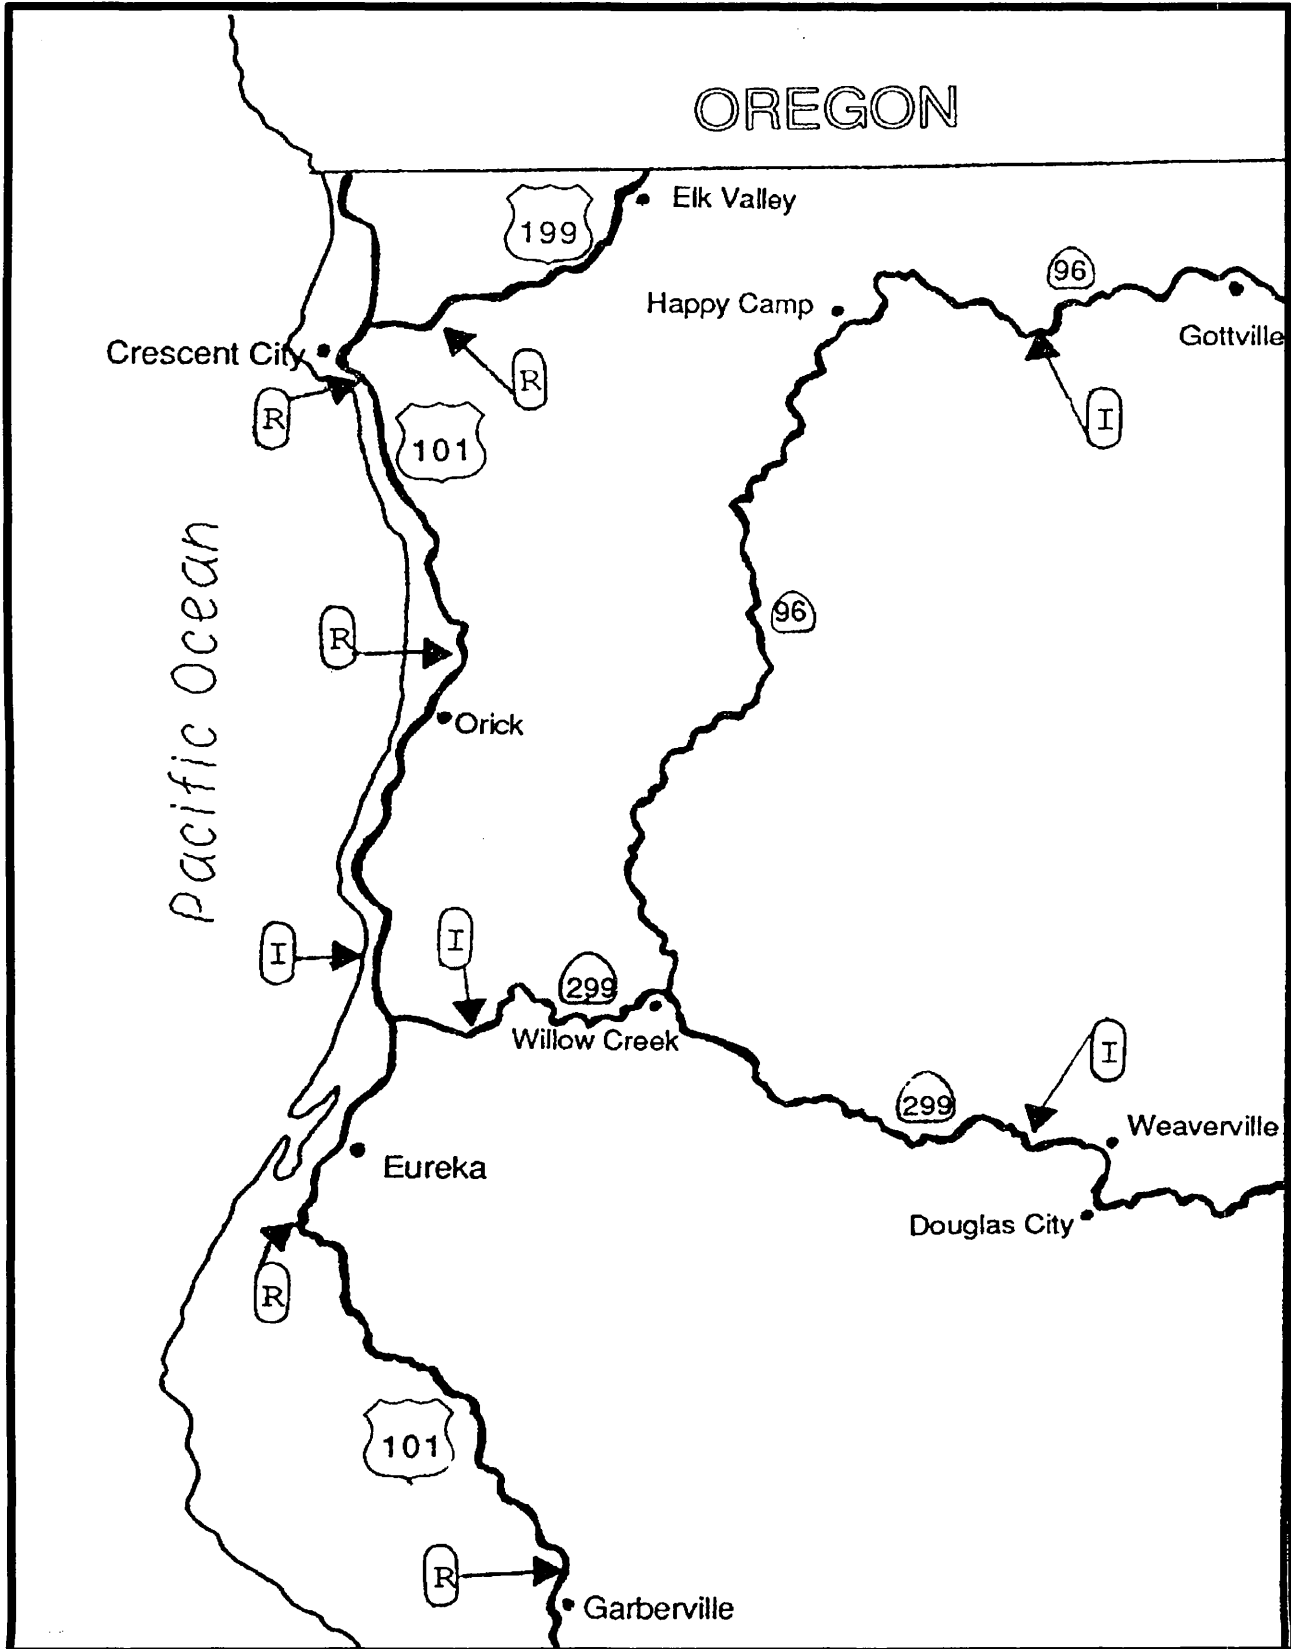

NOTE: Authority cited: Section 31616, Vehicle Code. Reference: Sections 31601, 31602, 31611, 31614 and 31616, Vehicle Code.

HISTORY

1. Repealer and new section filed 10-28-92; operative 10-28-92 (Register 92, No. 44). For prior history, see Register 88, No. 26.
2. Amendment of NOTE filed 10-17-94; operative 11-16-94 (Register 94, No. 42).
3. Editorial correction of HISTORY (Register 94, No. 42).

§ 1151.1. Routes and Stops—Map 1.

(a) Map 1.

R = REQUIRED INSPECTION STOP

SEE MAP 4

I = INSPECTION STOP

(b) Safe Stopping Places and Inspection Stops—Map 1.

(1) U.S. HIGHWAY 101.

(A) REQUIRED INSPECTION STOP (southbound vehicles): 9.7 miles south of Crescent City. West shoulder, immediately to the north of

the following signs: "Down Grade – Trucks Use Low Gears" and "Trucks 30 MPH."

(B) REQUIRED INSPECTION STOP (northbound vehicles): 20.5 miles north of Humboldt County line at marker DN-101-20.62. East shoulder. Marked by flashing lights and sign: "Brake Check Area."

(C) REQUIRED INSPECTION STOP (southbound vehicles): 52.2 miles south of Eureka at marker HUM-101-23.1, State of California scale pit.

(D) REQUIRED INSPECTION STOP (northbound vehicles): 8.3 miles north of Garberville at marker HUM-101-19.4, State of California scale pit.

(E) * INSPECTION STOP (southbound vehicles): State of California platform scales. (Little River) at Marker 101-HUM-120.8.

(F) Orick: A&P Truck Service, 120635 Highway 101, at Marker 101-HUM-120.8. 24 hour towing service, call (707) 488-6885.

(2) U.S. HIGHWAY 199.

(A) REQUIRED INSPECTION STOP (westbound vehicles): At west end of Collier Tunnel. Park on wide shoulder, west of rest area turnoff.

(3) STATE HIGHWAY 96.

(A) INSPECTION STOP: Milepost 71.31 at convergence of highway and Scott River. Known locally as "Steelhead," but not sign posted as such. No services.

(4) STATE HIGHWAY 299.

(A) * INSPECTION STOP (westbound vehicles): State of California platform scales, 31.5 miles west of Willow Creek.

(B) INSPECTION STOP: Oregon Mountain Summit, west of Weaverville at Milepost TRI-299-48.47.

* May be used as a "Safe Parking Place" when driver is given specific instructions by a member of the California Highway Patrol.

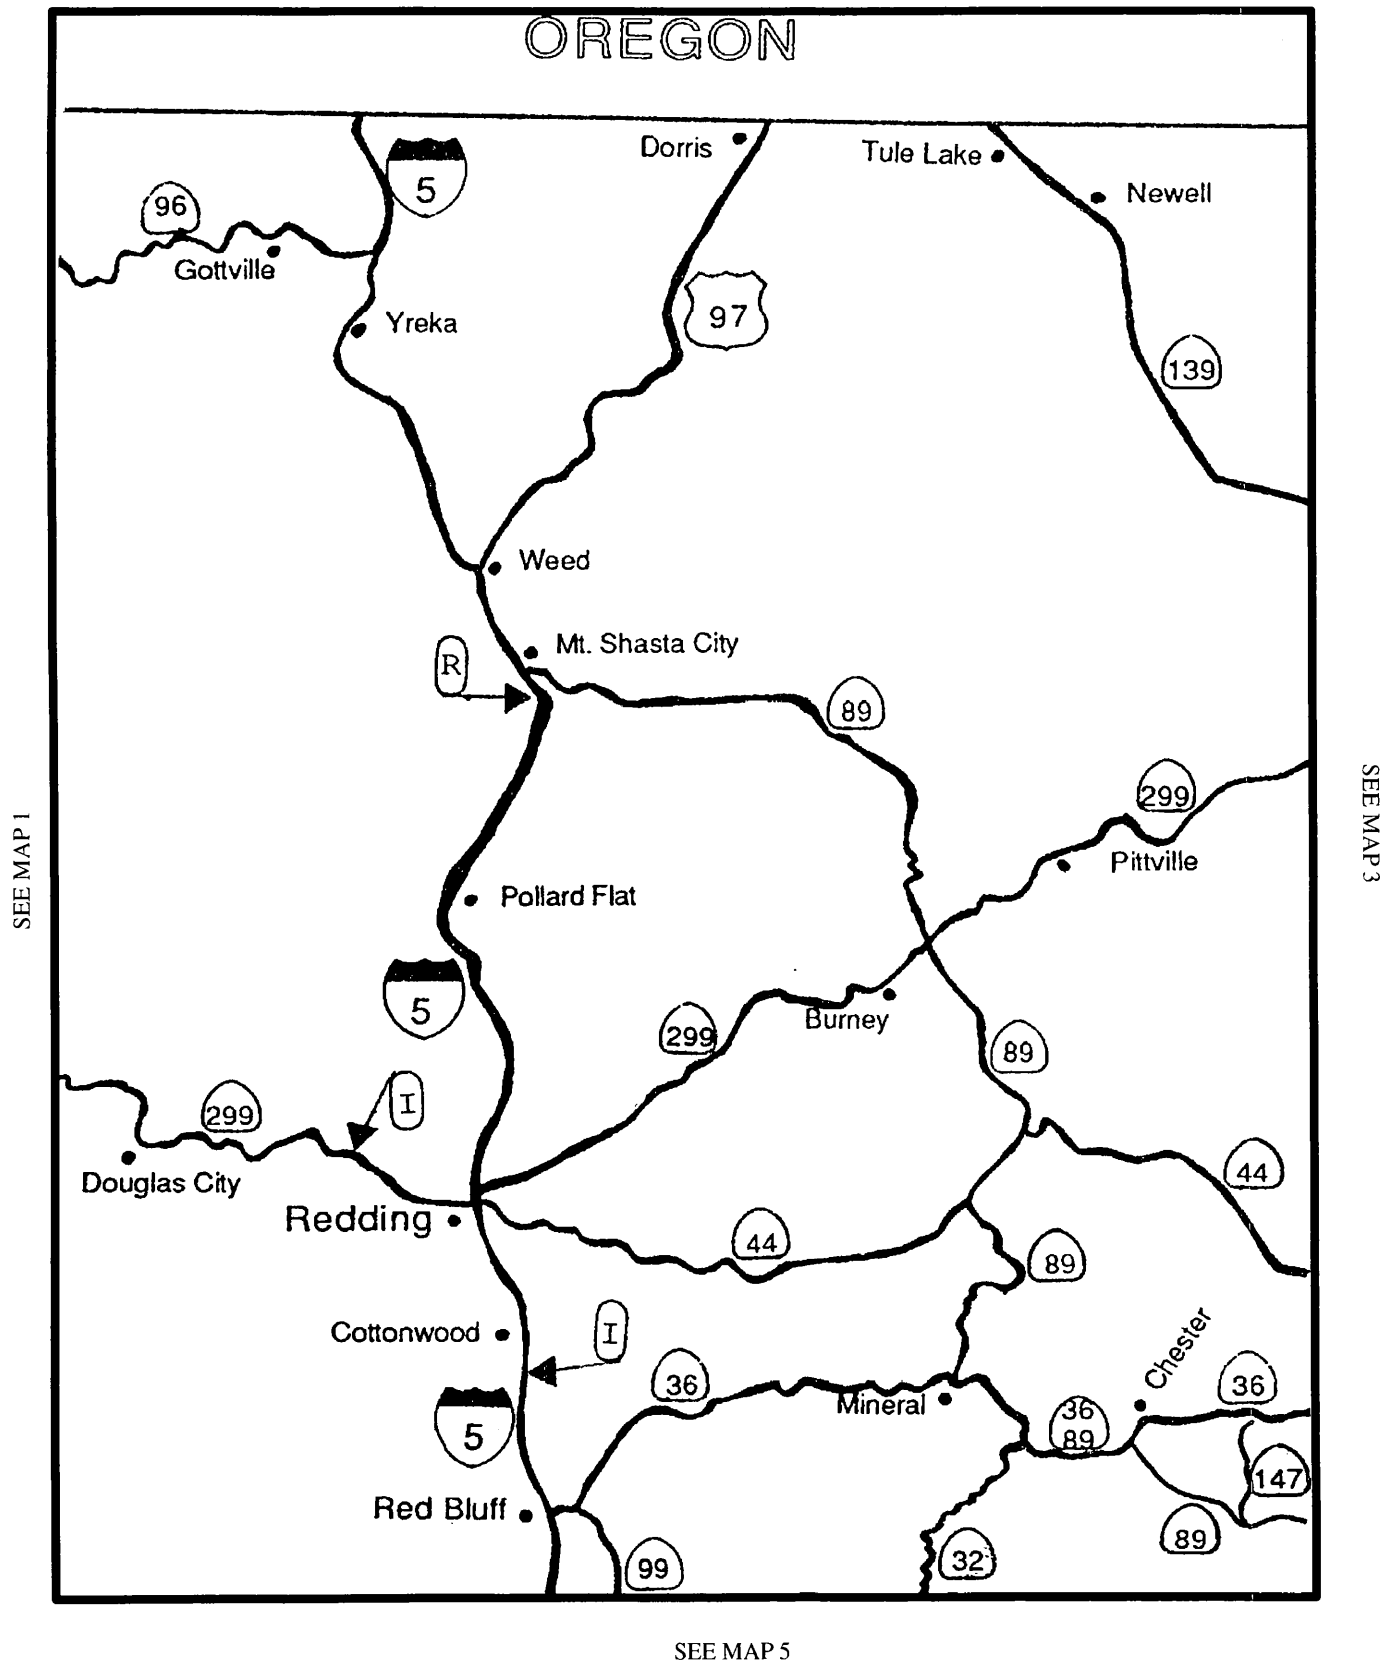

NOTE: Authority cited: Section 31616, Vehicle Code. Reference: Sections 31601, 31602, 31611, 31614 and 31616, Vehicle Code.

HISTORY

1. Repealer and new section filed 10-28-92; operative 10-28-92 (Register 92, No. 44). For prior history, see Register 90, No. 7.
2. Amendment of subsections (b)(1)(B), (E), (F) and (G) filed 10-17-94; operative 11-16-94 (Register 94, No. 42).
3. Editorial correction of HISTORY (Register 94, No. 42).
4. Amendment of subsections (b)(1)(E)-(F) and repealer of subsection (b)(1)(G) filed 12-23-2004; operative 1-22-2005 (Register 2004, No. 52).

§ 1151.2. Routes and Stops—Map 2.

(a) Map 2.

R = REQUIRED INSPECTION STOP

I = INSPECTION STOP

(b) Safe Stopping Places and Inspection Stops—Map 2.
(1) INTERSTATE HIGHWAY 5.

(A) *REQUIRED INSPECTION STOP (southbound vehicles): Mt. Shasta Vehicle Inspection Facility.

(B) *REQUIRED INSPECTION STOP (northbound vehicles): Cottonwood Inspection Facility, 2.5 miles south of Cottonwood. No Services. Scales closed when signs display "Scales Closed, Do Not Enter."

(C) *REQUIRED INSPECTION STOP (southbound vehicles): Cottonwood Platform Scales, 2 miles south of Cottonwood. No Services.

(D) Redding: Redding Truck Stop, 2731 South Market Street. Food, gasoline, diesel, propane, CFN Cardlock: 0700–2100 (Monday–Friday), 0700–1700 (Saturday), Closed Sunday.

(E) Pollard Flat: Pollard Flat USA, 24235 Eagles Roost Road, 33 miles north of Redding. Food, gasoline, diesel: 24 hours.

(2) STATE HIGHWAY 299.

(A) *INSPECTION STOP (eastbound vehicles): State of California platform scales, 6 miles west of Shasta. No services.

(c) Restrictions—Redding. Travel into or through Redding, except through traffic on I–5, shall be in accordance with the following:

(1) North and southbound traffic going west on SR–299 exit at the Central Redding–Eureka (SR–299) exit, proceed west on SR–299 to Pine Street, then north on Pine Street to Eureka Way, then west on Eureka Way

(SR–299).

§ 1157.14. Routes and Stops—Map 5.

(a) Map 5.

(R) = REQUIRED INSPECTION STOP

(I) = INSPECTION STOP

(b) Safe Stopping Places and Inspection Stops—5.

(1) INTERSTATE HIGHWAY 15.

(A) Barstow: Rip Griffin Truck Travel Center, 2930 Lenwood Road at I-15. Food, fuel, repairs: 24 hours.

(B) Victorville: Outpost Service Station, I-15 at US-395. Food, fuel, wash rack, minor repairs: 24 hours.

(C) Victorville: Joe's Cafe, I-15 at Stoddard Wells Road. Food: 0630-1500.

(2) INTERSTATE HIGHWAY 40.

(A) REQUIRED INSPECTION STOP (westbound): State of California agricultural inspection station, Needles, 5 miles west of the Arizona State Line.

(B) Ludlow: Ludlow Cafe, I-40 at Crucero Road. Food, fuel, tire repairs: 24 hours.

(3) US HIGHWAY 95.

(A) Vidal Junction: Vidal Junction Cafe and Texaco Station, US-95 at SR-62. Food, fuel: 0800-1600.

(4) US HIGHWAY 395.

(A) Leliter: Brady's Mini-Mart, 0.5 mile north of SR-14 and US-395 junction. Food at mini-mart, gasoline, minor repairs: 1000-2200.

(B) Coso Junction: Coso Junction Ranch Store, US-395 at Coso Road, 30 miles south of Lone Pine. Food, gasoline: 24 hours.

(C) Pearsonville: Pearson's Cafe & Towing, 5 miles north of SR-14. Food, gasoline, repairs: 0600-1800.

(5) STATE ROUTE 14.

(A) Mojave: Giant Truck Stop of Mojave, 1600 Sierra Highway, 0.5 mile south of SR-14 and SR-58 junction. Fuel, minor repairs: 24 hours.

(6) STATE ROUTE 58.

(A) INSPECTION STOP: (westbound): State of California rest area, 7 miles west of the San Bernardino-Kern County Line.

(7) STATE ROUTE 138.

(A) Fairmont: Juniper Market, 18348 West Avenue D at West 170th just south of SR-138. Propane, food, telephone, restroom: 0800-1800.

Article 2.7. Routes for the Through Transportation of Highway Route Controlled Quantity Shipments of Radioactive Materials

§ 1158. Applicability.

(a) This article designates the through routes to be used for the transportation of highway route controlled quantity shipments of radioactive materials subject to Section 33000 of the Vehicle Code.

(b) This article shall apply to the transportation of *highway route controlled quantity shipments* of radioactive materials as defined in Title 49, Code of Federal Regulations, Section 173.403.

NOTE: Authority cited: Section 33000, Vehicle Code. Reference: Section 33000, Vehicle Code.

HISTORY

1. New article 2.7 and section filed 9–19–94; operative 10–19–94 (Register 94, No. 38).
2. Amendment of subsection (b) filed 8–20–97; operative 9–19–97 (Register 97, No. 34).

§ 1158.1. Designation of Routes.

The highways to be used for transportation of commodities listed in Section 1158 are set forth in Section 1159.

NOTE: Authority cited: Section 33000, Vehicle Code. Reference: Section 33000, Vehicle Code.

HISTORY

1. New section filed 9–19–94; operative 10–19–94 (Register 94, No. 38).

§ 1158.2. Routes Travelled and Stopping.

No person shall drive or permit the driving of any vehicle transporting commodities listed in Section 1158 upon any highway not designated by this article. Deviation from the routes may occur only for the following: necessary pickup and delivery, in route inspections as required by Federal law, necessary rest, fuel or motor vehicle repair stops, or as directed in an emergency by fire or police officials having jurisdiction of the roadway in use.

NOTE: Authority cited: Section 33000, Vehicle Code. Reference: Section 33000, Vehicle Code.

HISTORY

1. New section filed 9–19–94; operative 10–19–94 (Register 94, No. 38).

§ 1158.3. Carrier, Driver, Training and Reporting Requirements.

Carriers and drivers shall comply with the requirements of Title 49 Code of Federal Regulations, Section 397.101.

NOTE: Authority cited: Section 33000, Vehicle Code. Reference: Section 33000, Vehicle Code; and Title 49 Code of Federal Regulations, Section 397.101.

HISTORY

1. New section filed 9–19–94; operative 10–19–94 (Register 94, No. 38).
2. Repealer and new section filed 8–20–97; operative 9–19–97 (Register 97, No. 34).

§ 1159. Routes.

- (a) Narrative listing of routes.

(1) Interstate Highway 5: From the State of Oregon border to Interstate Highway 210 and from Interstate Highway 605 to Interstate Highway 805 and from the border of Mexico to Interstate Highway 805.

(2) Interstate Highway 8: From the State of Arizona border to Interstate Highway 805.

(3) Interstate Highway 10: From the State of Arizona border to Interstate Highway 605.

(4) Interstate Highway 15: From the State of Nevada border to Interstate Highway 8.

(5) Interstate Highway 40: From the State of Arizona border to Interstate Highway 15.

(6) Interstate Highway 80: From the State of Nevada border to Interstate Highway 580 in the City of Oakland.

(7) Interstate Highway 205: From Interstate Highway 5 to Interstate Highway 580.

(8) Interstate Highway 210: From Interstate Highway 5 to Interstate Highway 10.

(9) Interstate Highway 238: From Interstate Highway 580 to Interstate Highway 880.

(10) Interstate Highway 280: From Interstate Highway 680 to Interstate Highway 380.

(11) Interstate Highway 580: From Interstate Highway 5 to Interstate Highway 680.

(12) Interstate Highway 605: From Interstate Highway 210 to Interstate Highway 5.

(13) Interstate Highway 680: From Interstate Highway 80 to Interstate Highway 280.

(14) Interstate Highway 805: From Interstate Highway 5 (north of the City of San Diego) to Interstate Highway 5 (south of the City of San Diego).

(15) Interstate Highway 880: From Interstate Highway 980 to Interstate Highway 238.

(16) Interstate Highway 980: From Interstate Highway 580 to Interstate Highway 880.

[The next page is 128.11.]

A black and white map of California showing major interstate highways and their route numbers. The map includes labels for major cities: REDDING, SACRAMENTO, STOCKTON, SAN FRANCISCO, BAKERSFIELD, LOS ANGELES, SAN BERNARDINO, and SAN DIEGO. It also shows LAKE TAHOE. The map is divided into sections by dashed lines, likely representing different planning regions. Major highways shown include I-5, I-80, I-880, I-580, I-680, I-205, I-580, I-5, I-10, I-15, I-40, I-8, I-210, and I-605.

Register 99, No. 41; 10-8-99

Article 3. General Hazardous Materials Regulations

§ 1160. Application.

This article shall apply to the transportation of hazardous materials in vehicles listed in Vehicle Code Section 34500 and in any other vehicle for which the display of placards is required pursuant to Vehicle Code Section 27903 as prescribed in Vehicle Code Section 31309.

NOTE: Authority cited: Sections 2402.7 and 34501, Vehicle Code. Reference: Sections 2402.7, 31309, 34501 and 34510, Vehicle Code.

HISTORY

1. Repealer of Article 1.5 (Sections 1160–1167, not consecutive) and new Article 1.5 (Sections 1160–1167, not consecutive) filed 2–18–77 as an emergency; effective upon filing. Certificate of Compliance included (Register 77, No. 8). For prior history, see Registers 73, No. 43 and 76, No. 9.
2. Renumbering of Article 1.5 (Sections 1160–1167, not consecutive) to Article 3 (Sections 1160–1167, not consecutive) filed 7–8–81; effective thirtieth day thereafter (Register 81, No. 28). For history of former Article 3, see Register 78, No. 33.
3. Amendment filed 6–22–83; effective thirtieth day thereafter (Register 83, No. 26).
4. Amendment of Article 3 heading, designation and amendment of subsection (a), new subsections (b)–(d) and amendment of NOTE filed 3–6–95; operative 4–5–95 (Register 95, No. 10).
5. Repealer of subsection designations and former subsections (b), (c) and (d) filed 8–14–96; operative 9–13–96 (Register 96, No. 33).

§ 1160.1. Exceptions and Special Applications.

(a) Application to Shippers. Shippers are subject to all provisions of this article except Sections 1160.4(g), 1162.1, 1166 and 1167, and are subject to Section 1164 only when loading or directing the loading of any vehicle.

(b) Application to Non-commercial Transportation. Except for subsection (d), the exceptions contained in this section shall only apply to the transportation of hazardous materials by carriers when not directly subject to federal jurisdiction pursuant to 49 CFR Part 171 (i.e., transporting hazardous materials in intrastate, interstate or foreign commerce [transported for a fee or used for commercial purposes]).

(c) Alternative Exceptions for Non-commercial Carriers. Private carriers transporting hazardous materials for non-commercial purposes (i.e., transporting hazardous materials for personal use or by a federal, state or local government agency) may utilize the exceptions contained in subsections (e) through (m) of this section or the exceptions contained in either 49 CFR 173.6 or 49 CFR 173.8(c), but not both the exceptions in subdivisions (e) through (m) and the referenced 49 CFR exceptions at one time on the same vehicle or combination of vehicles.

(d) Liquefied Petroleum Gas. Except as provided in Sections 1160.4(g), 1160.5, 1161, 1161.3, 1161.6, 1161.7, 1162, 1163(d), 1166, and 1167, this article shall not apply to the transportation of liquefied petroleum gas in cargo tanks subject to regulations of the Division of Occupational Safety and Health, Department of Industrial Relations contained in Title 8, California Code of Regulations, Chapter 4, Subchapter 1 (Unfired Pressure Vessel Safety Orders), but it shall apply to liquefied petroleum gas transported in cylinders and portable tanks.

(e) Incidentally Transported Materials. This article shall not apply to the transportation of the following:

- (1) Batteries in vehicle or auxiliary equipment ignition or lighting systems.
- (2) Flammable compressed gases or flammable and/or combustible liquids used exclusively in vehicle or auxiliary equipment fuel, heating, refrigeration, or cooking systems.
- (3) Batteries, compressed air in cylinders or tanks not exceeding 200 psi, inflated tires or less than 10 gallons of flammable liquid fuels on tow trucks or similar roadside service or repair vehicles or otherwise transported in private (not for-hire) carriage. Containers used to transport flammable liquids under this subsection shall not exceed 5 gallons capac-

ity each, and shall be constructed and maintained in conformance with a nationally recognized fuel storage and dispensing standard for the fuel being transported (e.g., U.S. Department of Transportation (DOT), United Nations (UN), National Fire Protection Association (NFPA), American National Standards Institute (ANSI), American Society for Testing and Materials (ASTM), Underwriter Laboratories (UL), Factory Mutual (FM), or U.S. Department of Defense (military) specifications (U.S. Mil. Spec.).

(4) Highway fuses, and liquid-burning emergency flares and/or red electric lanterns that conform to 49 CFR 393.95(f)(1), being transported expressly for highway warning purposes or as authorized for use pursuant to Vehicle Code Section 25301, unless otherwise prohibited by this Division or the Vehicle Code. This exception does not apply to broken fuses or fuses with missing protective caps.

(5) Fire extinguishers being transported expressly for in-transit emergency fire suppression purposes.

(6) Flammable or combustible distillate fuels transported in a single compartmentalized or noncompartmentalized metal cargo tank of 450 liters (119 gallons) or less total volumetric capacity, or both flammable and combustible distillate fuels transported in a single compartmentalized metal cargo tank of 450 liters (119 gallons) or less total volumetric capacity, by a private carrier and used to service other vehicles or equipment. The tank shall be in compliance with 49 CFR 173.24(b), and the tank, its components, and attached equipment must be secured to the vehicle and protected from damage or leakage of the lading should the vehicle overturn.

(f) Consumer Commodity Exception. The outside packaging and marking exception contained in 49 CFR 173.156 for hazardous materials authorized to be renamed “Consumer commodity” and reclassified ORM-D is extended to transportation by a private carrier from either a distribution center or retail outlet, or subsequent transportation for incidental use.

(g) Shipping Paper Exception. Section 1161, pertaining to shipping papers, shall not apply to a private carrier transporting any one of the following:

(1) Not more than 227 kilograms (500 pounds) aggregate gross weight (including the packaging) of hazardous materials other than:

- (A) Any materials listed in 49 CFR 172.504(a), Table I, or
- (B) Any materials for which an INFECTIOUS SUBSTANCE, KEEP AWAY FROM FOOD, ORGANIC PEROXIDE, SPONTANEOUSLY COMBUSTIBLE, POISON or RADIOACTIVE label is required, or
- (C) Any materials which require a Uniform Hazardous Waste Manifest pursuant to Section 25160 of the Health and Safety Code.

(2) Anhydrous ammonia in a single cargo tank of not more than 4,524 liters (1,200 gallons) capacity transported not more than 30 miles from the filling point or in a trailer-mounted cargo tank in compliance with Section 1163(f)(1) of this article.

(3) Not more than 1 cylinder each of argon, oxygen, carbon dioxide, acetylene, helium, or nitrogen if the gross weight is less than 454 kilograms (1,001 pounds), provided containers and labeling comply with Sections 1161.2 and 1163 of this article.

(h) Storage Tanks. Storage tanks used only for off-highway storage and dispensing of flammable and/or combustible distillate fuels and which contain only residue are excepted from specified provisions of this article as indicated below, when transported in accordance with the following:

(1) Except for subsection (d), Section 1163 shall not apply to portable or stationary above ground storage tanks when in conformance with 49 CFR 173.24(b).

(2) Except for Section 1163(d), this article shall not apply to underground storage tanks when prepared for shipment in accordance with American Petroleum Institute Recommended Practice 1604, Second Edition, December 1987. (This publication may be obtained from the American Petroleum Institute, 1220 L Street, Northwest, Washington D.C. 20005.)

[The next page is 129.]

(3) For purposes of this subsection, "residue" means the material remaining after the tank has been unloaded to the maximum extent practicable via the normal discharge opening. In no event shall the tank contain more than 454 liters (120 gallons) of any liquid.

(4) Storage tanks shall not be transported on the same vehicle with any other hazardous materials.

(i) Traffic Paint Applicator. Traffic paint applicator systems containing flammable paint are excepted from the provisions of Section 1163, except subsection (d), when in conformance with 49 CFR 173.24(b).

(j) Mobile Meter Calibration Units. Mobile meter calibration units containing flammable distillate fuel residue or liquefied petroleum gas residue are excepted from the provisions of Section 1163, except subsection (d), when in conformance with 49 CFR 173.24(b) and emptied to the maximum extent practicable via the normal discharge opening.

(k) Self Contained Breathing Apparatus. Compressed air breathing apparatus transported solely for in-transit emergencies or for the safety of persons conducting loading or unloading operations are not subject to this article, except Sections 1161.2, 1161.3 and 1163, when the compressed gas cylinders are mounted or otherwise secured to the vehicle during transit to prevent sliding, falling, tipping, rolling, or damage to the valving should the vehicle overturn.

(l) Breathing Air Recharge Units. Air cylinders or tanks operating under a Division of Occupational Safety and Health, Department of Industrial Relations operating permit and used to fill/recharge breathing air cylinders are not subject to Section 1163, except subsection (d), when in conformance with 49 CFR 173.24(b).

(m) Emergency Response Information. Section 1161.6 shall only apply to hazardous materials shipments for which the display of placards is required and/or for which an INFECTIOUS SUBSTANCE, KEEP AWAY FROM FOOD, ORGANIC PEROXIDE, SPONTANEOUSLY COMBUSTIBLE, POISON or RADIOACTIVE label is required pursuant to this article; and to shipments that would have otherwise been required to be placarded and/or labeled, notwithstanding compliance with an applicable U.S. Department of Transportation placarding and/or labeling exemption issued pursuant to 49 CFR Part 107, Subpart B.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Amendment filed 12-21-77 as an emergency; designated effective 1-1-78. Certificate of Compliance included (Register 77, No. 52).
2. New subsections (h) and (i) filed 1-20-78 as an emergency; effective upon filing (Register 78, No. 3).
3. Certificate of Compliance filed 3-21-78 (Register 78, No. 12).
4. Amendment of subsections (b), (c) and (d) filed 11-27-79; designated effective 1-1-80 (Register 79, No. 48).
5. Amendment filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
6. Amendment of subsection (e) filed 11-5-81; effective thirtieth day thereafter (Register 81, No. 45).
7. Amendment of subsections (b), (d)(2) and (3) and (f)(1) filed 2-22-82; effective thirtieth day thereafter (Register 82, No. 9).
8. Amendment of subsections (a)-(c) filed 7-27-82; effective thirtieth day thereafter (Register 82, No. 31).
9. Amendment filed 6-22-83; effective thirtieth day thereafter (Register 83, No. 26).
10. Amendment filed 9-7-84; effective thirtieth day thereafter (Register 84, No. 36).
11. Editorial correction of subsection (d) (Register 84, No. 46).
12. Amendment filed 7-20-87; operative 8-19-87 (Register 87, No. 30).
13. Amendment of subsection (c)(2) and new subsections (g)-(i) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
14. New subsection (j) filed 9-27-90; operative 10-27-90 (Register 90, No. 45).
15. Editorial correction of printing errors in subsections (e)(3) and (i) (Register 92, No. 12).
16. Amendment filed 3-6-95; operative 4-5-95 (Register 95, No. 10).
17. New subsection (k) filed 7-31-95; operative 8-30-95 (Register 95, No. 31).
18. Amendment of subsections (b) and (c)(3), repealer of subsection (e)(1)(C) and subsection relettering filed 8-14-96; operative 9-13-96 (Register 96, No. 33).
19. New subsections (b) and (c), subsection relettering, amendment of newly designated subsections (d)(3), and (i)-(m) and repealer of newly designated sub-

section (l) filed 10-26-98 as an emergency; operative 11-25-98 (Register 98, No. 44).

20. Amendment of subsections (b), (e)(4)-(5), (f), (g)(1) and (m) filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1160.2. U.S. Department of Transportation Regulations.

(a) Incorporation by Reference. This article incorporates by reference portions of 49 CFR Part 107, Parts 171 through 180, and Part 393 to the extent specified in this article. Unless otherwise specified, all references to 49 CFR in this article are those regulations published on October 1, 1999.

(b) Federal Preeminence. Provisions of the Hazardous Materials Transportation Act recodified into Title 49 U.S. Code (49 U.S.C.) Section 5125, preempt any requirements of any state or political subdivision thereof inconsistent with the act or federal Hazardous Material Regulations relating to hazardous materials transported in commerce. The U.S. Department of Transportation (DOT), Research and Special Programs Administration (RSPA) may except any material from being classed as hazardous, or change any classification or transportation requirement in accordance with authority granted that agency, and such action shall govern the application of this article. In lieu of compliance with the provisions of this article, hazardous materials shipment preparation and transportation in compliance with a later promulgated RSPA requirement, exemption or exception than that adopted by reference in this article is permitted. This includes compliance with a later promulgated requirement prior to its effective date during any period of time where earlier compliance is authorized in the applicable final rulemaking.

(c) Limited Applications. 49 CFR Parts 174 and 179 shall apply only as referenced in 49 CFR Parts 173, 177, and 178.

(d) Motor Carrier Safety Requirements. Provisions of 49 CFR Part 393 applies as incorporated in cargo tank specifications referenced in 49 CFR Part 178, but 49 CFR Parts 390 through 397 shall not otherwise apply to transportation subject to this article.

HISTORY

1. Amendment filed 12-21-77 as an emergency; designated effective 1-1-78. Certificate of Compliance included (Register 77, No. 52).
2. Amendment filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
3. Amendment filed 9-7-84; effective thirtieth day thereafter (Register 84, No. 36).
4. Amendment filed 7-20-87; operative 8-19-87 (Register 87, No. 30).
5. Amendment of subsection (a) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
6. Amendment of subsection (a) filed 9-27-90; operative 10-27-90 (Register 90, No. 45).

7. Amendment of subsections (a)–(b) and (d)–(e) filed 3–6–95; operative 4–5–95 (Register 95, No. 10).
8. Amendment of subsections (a) and (b) filed 8–14–96; operative 9–13–96 (Register 96, No. 33).
9. Amendment of subsection (a) filed 8–20–97; operative 9–19–97 (Register 97, No. 34).
10. Amendment of subsections (a), (b) and (e) filed 10–26–98 as an emergency; operative 11–25–98 (Register 98, No. 44).
11. Editorial correction of last paragraph (Register 98, No. 49).
12. Amendment filed 10–5–99; operative 11–4–99 (Register 99, No. 41).
13. Amendment of subsection (a) 11–8–2000; operative 12–8–2000 (Register 2000, No. 45).

§ 1160.3. Definitions.

(a) The meanings of terms contained in this article and not defined in this article are the same as those contained in 49 CFR 171.8.

(b) “Carrier” means any person who transports hazardous materials subject to this article.

(c) “Department” means Department of the California Highway Patrol.

(d) “Hazardous material” means a substance or material, which has been determined by the Secretary of Transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated. The term includes hazardous substances, hazardous wastes, marine pollutants, and elevated temperature materials as defined in 49 CFR 171.8, materials designated as hazardous under the provisions of 49 CFR Sections 172.101 and 172.102, and materials that meet the defining criteria for hazard classes and divisions in 49 CFR Part 173.

(e) “Private carrier” means any carrier who transports cargo for use in his/her occupation or for other purpose without reward or compensation.

(f) “Shipper” means any person who prepares or offers hazardous materials for transportation. A shipper who also transports its own material is both a shipper and a carrier.

NOTE: Authority cited: Sections 2402.7 and 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Amendment filed 12–21–77 as an emergency; designated effective 1–1–78. Certificate of Compliance included (Register 77, No. 52).
2. Amendment of subsection (j) filed 7–8–81; effective thirtieth day thereafter (Register 81, No. 28).
3. Amendment filed 6–22–83; effective thirtieth day thereafter (Register 83, No. 26).
4. Amendment of subsections (f) and (k) filed 7–20–87; operative 8–19–87 (Register 87, No. 30).
5. Amendment filed 3–6–95; operative 4–5–95 (Register 95, No. 10).
6. Amendment of subsection (e) and NOTE filed 10–5–99; operative 11–4–99 (Register 99, No. 41).
7. Repealer of subsection (d), subsection relettering and new subsection (e) filed 11–8–2000; operative 12–8–2000 (Register 2000, No. 45).

§ 1160.4. General Provisions.

(a) Applicability. Shippers shall not offer and carriers shall not transport any shipment of a hazardous material not prepared for transportation in accordance with this Article.

(b) References to Statutes and Regulations. Any reference to provisions of these regulations or to statutes shall apply to all amendments and additions made to such regulatory or statutory provisions.

(c) Alternate Method of Compliance. Upon a finding that an alternate method of compliance provides protection to the public equal to or exceeding that afforded by compliance with provisions of this article, the department may authorize use of such alternate method subject to the following:

(1) Any alternate method of compliance shall be permitted only after application has been made to and written authorization obtained from the department.

(2) Written authorization shall be carried in each transporting vehicle or combination.

(3) No authorization for an alternate method of compliance shall be accorded any highway carrier subject to federal jurisdiction, nor shall such

authorization apply to the preparation of hazardous materials for interstate transportation.

(4) No authorization for an alternate method of compliance shall be granted when a special permit or exemption has been issued by the U.S. Department of Transportation, Associate Administrator for Hazardous Materials Safety authorizing the requested alternate method.

(d) Special Permits and Exemptions. Compliance with requirements of special permits and exemptions issued by the U.S. Department of Transportation, Associate Administrator for Hazardous Materials Safety in accordance with 49 CFR Part 107, shall be deemed in compliance with equivalent provisions of this article.

(e) Inspection by Department. Carriers and shippers shall afford duly authorized employees of the department reasonable opportunity to enter terminals and other locations to determine compliance with the provisions of this article.

(f) Unsafe Transportation Prohibited. Authorized employees of the department shall declare and mark any vehicle out-of-service when the condition, securement, preparation of lading, filling, closures, or protective devices on cylinders and tanks would be hazardous to life and property during transportation.

(1) No carrier shall require or permit any person to operate nor shall any person operate any vehicle marked out-of-service until all necessary corrections have been completed.

(2) No person shall remove any out-of-service notice from any vehicle prior to the completion of all corrections required by the notice.

(g) Hazardous Materials Transportation License.

(1) Fees. The fee for a new license is one hundred dollars (\$100) and the fee for a renewal license is seventy-five dollars (\$75).

(2) Original License. The original valid license shall be kept at the licensee’s place of business as indicated on the license and presented to any duly authorized employee of the Department upon request.

(3) Copy in each vehicle. A legible copy shall be carried in any vehicle or combination of vehicles transporting hazardous materials and shall be presented to any traffic officer upon request.

(4) Temporary License. Carriers who have paid the license fee, may use either of the following as a temporary license for not more than 60 days when carried in the vehicle:

(A) A copy of the carrier’s completed application for license to transport hazardous materials and a copy of the check or money order indicating payment of fee.

(B) A telegraphic money order receipt, or copy thereof, made payable to the California Highway Patrol, indicating payment of fee for license to transport hazardous materials.

(5) Exceptions. Federal, State, county, city, and city and county agencies, and other political subdivisions of the State including, but not limited to, school, irrigation, and fire protection districts are exempt from the licensing requirements of Vehicle Code Section 32000.5.

Internet Access. The California Highway Patrol form CHP 361M (Rev. 01–00), Application for Hazardous Materials Transportation License, instructions for completing the application and related documents are available on the Internet at <http://www.chp.ca.gov/html/forms.html>.

NOTE: Authority cited: Sections 32002 and 34501, Vehicle Code. Reference: Sections 2502, 32000.5, 32001 and 34501, Vehicle Code.

HISTORY

1. Amendment of subsection (e) filed 12–21–77 as an emergency; designated effective 1–1–78. Certificate of Compliance included (Register 77, No. 52).
2. Amendment of subsection (e) filed 1–20–78 as an emergency; effective upon filing (Register 78, No. 3).
3. Editorial correction to previous history note and designation of subsections (Register 78, No. 12).
4. Certificate of Compliance filed 3–21–78 (Register 78, No. 12).
5. New subsection (g) filed 2–22–82; effective thirtieth day thereafter (Register 82, No. 9).
6. Amendment filed 6–22–83; effective thirtieth day thereafter (Register 83, No. 26).
7. Repealer of subsection (g)(5) filed 9–7–84; effective thirtieth day thereafter (Register 84, No. 36).
8. Amendment of subsections (g)(3) and (g)(4) filed 7–20–87; operative 8–19–87 (Register 87, No. 30).

9. Amendment of subsection (a) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
10. Amendment of subsection (g)(3) filed 3-10-92; operative 4-9-92 (Register 92, No. 12).
11. Amendment of subsections (c)(4), (d)(1) and (f), and repealer of subsections (d)(2)-(3) filed 3-6-95; operative 4-5-95 (Register 95, No. 10).
12. Amendment of subsections (a) and (d) filed 10-5-99; operative 11-4-99 (Register 99, No. 41).
13. Amendment of subsections (g)(1)-(g)(4), new subsection (g)(5) and new last paragraph filed 11-8-2000; operative 12-8-2000 (Register 2000, No. 45).

§ 1160.5. Hazard Classification and Shipping Names.

Hazardous materials shall be classified and described (proper shipping name) in accordance with 49 CFR Parts 172 and 173.

NOTE: Authority and reference cited: Sections 2402.7 and 34501, Vehicle Code.

HISTORY

1. New section filed 9-7-84; effective thirtieth day thereafter (Register 84, No. 36).
2. Amendment filed 7-20-87; operative 8-19-87 (Register 87, No. 30).

§ 1161. Shipping Papers.

(a) Applicability. Shippers and carriers shall comply with the shipping paper requirements contained in 49 CFR Part 172, Subpart C and 49 CFR 177.817.

(b) Retention – Shippers and carriers subject to federal jurisdiction. Shippers and carriers of hazardous materials transported in commerce shall comply with the one year shipping paper retention requirements contained in 49 U.S.C. Section 5110 and shall make them available for inspection by any duly authorized employee of the department.

(c) Retention – Shippers and carriers not subject to federal jurisdiction. Shippers and carriers not subject to federal jurisdiction shall retain copies of shipping papers for at least six months and shall make them available for inspection by any duly authorized employee of the department.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Amendment filed 12-21-77 as an emergency; designated effective 1-1-78. Certificate of Compliance included (Register 77, No. 52).
2. Amendment of subsection (e) filed 1-20-78 as an emergency; effective upon filing (Register 78, No. 3).
3. Certificate of Compliance filed 3-21-78 (Register 78, No. 12).
4. Amendment of subsections (a), (d)(1) and (d)(3) filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
5. Amendment filed 2-22-82; effective thirtieth day thereafter (Register 82, No. 9).
6. Amendment of subsection (a) filed 9-7-84; effective thirtieth day thereafter (Register 84, No. 36).
7. Amendment of subsection (b) filed 7-20-87; operative 8-19-87 (Register 87, No. 30).
8. Repealer of subsections (a)-(e), new subsection (a) and relettering of subsection (f) to subsection (b) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
9. Amendment of section and NOTE filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1161.1. Shipping Certification.

(a) Shipper Certificate Required. Shippers shall not offer and initial carriers (other than private carriers) shall not accept for transportation hazardous materials in any form other than bulk shipments in cargo tanks furnished by the carrier, unless the shipper provides a signed certificate prepared in conformance with 49 CFR 172.204.

(b) Retention. Certificates need not be carried with the material en-route, however, copies of shipper certificates shall be retained for at least six months and shall be subject to inspection by any authorized employee of the department.

NOTE: Authority and reference cited: Section 34501, Vehicle Code.

HISTORY

1. Amendment filed 12-21-77 as an emergency; designated effective 1-1-78. Certificate of Compliance included (Register 77, No. 52).
2. Amendment filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
3. Amendment filed 2-22-82; effective thirtieth day thereafter (Register 82, No. 9).

4. Amendment of subsections (a) and (b) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
5. Repealer of subsections (b) and (d) and subsection relettering filed 3-6-95; operative 4-5-95 (Register 95, No. 10).

§ 1161.2. Hazard Labels.

(a) Applicability. Shippers and carriers shall comply with the labeling requirements contained in 49 CFR Part 172, Subpart E (commencing with Section 172.400).

(b) As specified in 49 CFR 172.401(b), no labels shall be used when they may be confused by reason of shape, size, or color with the hazard labels prescribed by this section unless authorized by 49 CFR 172.401(c).

(c) As specified in 49 CFR 172.401(a), hazard labels prescribed by this section shall not be affixed to packagings which do not contain hazardous materials or when the label does not represent the hazard of the hazardous material in the package, unless authorized by 49 CFR 172.401(c).

(d) All labels and decals on packages shall be replaced before they become illegible.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Amendment of subsection (c) filed 7-20-87; operative 8-19-87 (Register 87, No. 30).
2. Repealer of subsections (a)-(c), new subsection (a), relettering and amendment of subsection (d) to subsection (b) and relettering of subsections (e) and (f) to subsections (c) and (d) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
3. Amendment of subsections (a)-(d) and new subsection (e) filed 3-6-95; operative 4-5-95 (Register 95, No. 10).
4. Amendment of subsection (d) and repealer of subsection (e) filed 8-20-97; operative 9-19-97 (Register 97, No. 34).
5. Amendment of subsection (a) and NOTE filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1161.3. Marking.

(a) Applicability. Shippers and carriers shall comply with the marking requirements contained in 49 CFR Part 172, Subpart D (commencing with Section 172.300), and 49 CFR 177.823.

(b) Hazardous materials proper shipping names and identification numbers shall not be marked on packagings when prohibited by 49 CFR 172.303.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Designation and amendment of subsection (a) and new subsection (b) and NOTE filed 3-6-95; operative 4-5-95 (Register 95, No. 10).
2. Amendment of subsection (a) filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1161.6. Emergency Response Information.

Shippers and carriers shall comply with the applicable emergency response information requirements contained in 49 CFR Part 172, Subpart G (commencing with Section 172.600).

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. New section filed 7-31-95; operative 8-30-95 (Register 95, No. 31).
2. Amendment of section filed 8-14-96; operative 9-13-96 (Register 96, No. 33).
3. Amendment filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1161.7. Hazardous Materials Training.

(a) Applicability. Carriers and shippers who are directly subject to federal jurisdiction pursuant to 49 CFR 171.1 are subject to the following:

(1) Shippers and carriers shall comply with the hazmat employee training requirements contained in 49 CFR Part 172, Subpart H (commencing with Section 172.700).

(2) Shippers shall also comply with the training provisions contained in 49 CFR 173.1.

(3) Carriers shall also comply with the training provisions contained in 49 CFR Sections 177.800 and 177.816.

(b) Shippers and carriers not directly subject to federal jurisdiction shall thoroughly instruct each of their officers, agents, and employees

having any responsibility for preparing hazardous materials for transportation, or for transporting hazardous materials as to applicable requirements of Article 3 governing the performance of those individuals' responsibilities.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. New section filed 11-30-88; operative 12-30-88 (Register 88, No. 51). Text was modified and moved to Section 1161.7. Repealer filed 3-6-95; operative 4-5-95 (Register 95, No. 10).
2. Amendment of subsection (a) filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1162. Placards.

(a) Applicability. Shippers and carriers shall comply with the placarding requirements contained in 49 CFR Part 172, Subpart F (commencing with Section 172.500) and 49 CFR 177.823.

(b) Exclusions. This section does not apply to the transportation of small quantities of explosives as provided by Vehicle Code Section 27903.

(c) Placards shall not be affixed to a packaging, freight container, motor vehicle, etc. when prohibited by 49 CFR 172.502(a).

(d) Placards may be affixed even when not required by this section when displayed in accordance with 49 CFR 172.502(c).

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Amendment of subsection (g) filed 8-5-77 as an emergency; effective upon filing (Register 77, No. 32).
2. Certificate of Compliance filed 10-21-77 (Register 77, No. 43).
3. Amendment of subsection (g) filed 12-21-77 as an emergency; designated effective 1-1-78. Certificate of Compliance included (Register 77, No. 52).
4. New subsection (h) filed 1-20-78 as an emergency; effective upon filing (Register 78, No. 3).
5. Certificate of Compliance filed 3-21-78 (Register 78, No. 12).
6. Repealer of subsection (h) filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
7. Amendment filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
8. Amendment of subsections (a)-(c) and new subsection (d) filed 3-6-95; operative 4-5-95 (Register 95, No. 10).
9. Amendment of subsection (a) and NOTE filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1162.1. Vehicle Safety Equipment.

(a) Fire Extinguishers.

(1) Every three-axle motor truck or combination of vehicles shall be equipped with one fire extinguisher with at least a 4B:C rating, except as provided in (2) or (3).

(2) Every motor vehicle shall be equipped with one fire extinguisher rated at least 10B:C if the motor vehicle, or any vehicle in a combination of which it is a part, transports cargo requiring placards (Section 1162). Two fire extinguishers with a combined rating of 10B:C may be used, provided the rating of neither unit is less than 4B:C.

(3) Every tank vehicle or combination of tank vehicles used to transport flammable or combustible liquids shall be equipped with at least one fire extinguisher having a rating of not less than 20B:C. A fire extinguisher rated 12B:C and in service prior to July 1, 1970, may continue in use if it is in good working order. Fire extinguishers required by this subsection shall be serviced annually in accordance with Title 19, California Code of Regulations Chapter 1, Subchapter 3, commencing with Section 550.

(4) Each fire extinguisher shall have been rated and labeled by one of the following test labs approved by the State Fire Marshal to test and label portable fire extinguishers for sale in California.

(A) Underwriter's Laboratories, Northbrook, Illinois. All sizes and classifications.

(B) Factory Mutual Research Corporation, Norwood, Massachusetts. Sizes 10B:C, 1A 10B:C, 2A 40B:C, 3A 40B:C, and 4A 80B:C fire extinguishers filled with Halon 1211 or Halon 1301.

(5) Fire extinguishers using any carbon tetrachloride, chlorobromomethane, or methyl bromide as extinguishing agents shall not be carried for use in or about any vehicle.

(6) Each fire extinguisher shall be securely mounted on a motor vehicle or trailer in a conspicuous place or in a clearly marked compartment and readily accessible.

(7) Fire extinguishers shall be maintained in efficient operating condition and shall be equipped with means for determining if they are fully charged.

(b) Emergency Warning Devices.

(1) Every vehicle or combination of vehicles transporting Division 1.1, 1.2 or 1.3 explosives shall carry 3 red emergency reflectors.

(2) Liquid burning flares, fusees, oil lanterns, or any signal produced by a flame shall not be carried on any vehicle or vehicle combination transporting Division 1.1, 1.2 or 1.3 (explosives) hazardous materials; or any cargo tank vehicle or in any other vehicle operated in combination with a cargo tank vehicle and used for the transportation of Division 2.1 (flammable gas), Class 3 (flammable liquid) or combustible liquid materials whether loaded or empty.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Amendment of subsection (a)(3) filed 11-5-81; effective thirtieth day thereafter (Register 81, No. 45).
2. Amendment filed 6-22-83; effective thirtieth day thereafter (Register 83, No. 26).
3. Amendment of subsection (a)(3) filed 5-4-84; effective thirtieth day thereafter (Register 84, No. 18).
4. Amendment of subsection (a) filed 10-28-86; effective thirtieth day thereafter (Register 86, No. 44).
5. Change without regulatory effect of subsection (a) (3) filed 2-8-88; operative 3-9-88 (Register 88, No. 7).
6. Editorial correction of subsection (a)(4) (Register 95, No. 28).
7. Repealer and new subsection (b)(2) and amendment of NOTE filed 6-17-96; operative 7-17-96 (Register 96, No. 25).
8. Amendment filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1163. Shipment Preparation.

Shipment preparation of hazardous materials shall be governed by the following:

(a) Shipment Preparation and Transportation. Shipments shall be prepared for transportation and transported in accordance with provisions of 49 CFR Part 173.

(b) Authorized Packages-General. Only packagings authorized for shipment of specific commodities by 49 CFR Parts 172 and 173, shall be used, except when otherwise authorized by Sections 1160.1, 1160.4(c) or (d), or 1163(c) or (f) of this article.

(c) Previously Authorized State Fire Marshal Cargo Tanks. Cargo tanks that were authorized by Title 19, California Code of Regulations, (19 CCR), Section 1609.1 on April 1, 1984, which were manufactured and placed into service prior to April 1, 1984, may continue to be used by intrastate carriers, who are not directly subject to federal jurisdiction prior to the October 1, 1998, effective date of RSPA Docket HM-200, to transport flammable liquids under the conditions listed below. Cargo tanks having a capacity of less than 13,250 liters (3,500 gallons) used for the transportation of flammable liquid petroleum products may continue to be used under the provisions of 49 CFR 173.8(b). Cargo tanks transporting flammable liquids other than petroleum products, or having a capacity of 13,250 liters or more, may continue to be used under the following requirements pursuant to 49 CFR 173.8(a) until July 1, 2000.

(1) The flammable liquid has no secondary hazard(s) for which transportation in a MC-306 cargo tank is not authorized.

(2) The cargo tanks are maintained, retested, inspected and marked in accordance with 49 CFR 173.24(b), (e), (f), (g) and (h); 173.24(a)(1) and (2), (c) and (d)(1); and 49 CFR Part 180 applicable to a MC-306 DOT specification cargo tank.

(d) Leaking packages. Package closures shall be adequate to prevent leakage of contents, and leaking packages shall not be transported.

(e) Qualification and Maintenance of Packagings. Except as provided in subsections (c) and (f), the maintenance, retesting, inspection and

qualification of packages shall be in accordance with 49 CFR Part 173, Subpart B and 49 CFR Part 180. Copies of certificates, reports, and records of retesting shall be subject to inspection by any authorized employee of the department.

(f) Anhydrous Ammonia—Additional Packagings. Truck-mounted cargo tanks manufactured before 1970, or manufactured before 1972 and

having a capacity of 7,571 liters (2,000 gallons) or less, may be continued in service by private carriers to transport anhydrous ammonia between a filling point and a ranch, or between two locations on one ranch, or between ranches, and need not meet specifications in 49 CFR Part 178, provided:

[The next page is 130.3.]

(1) The tank meets design, construction, repair and operational requirements for anhydrous ammonia transportation tanks in the Unfired Vessels Safety Orders, Chapter 4, Title 8, California Code of Regulations; and

(2) The tank is operated by a carrier not subject to federal jurisdiction.

NOTE: Authority and reference cited: Sections 34019 and 34501, Vehicle Code.

HISTORY

1. New subsection (g) filed 5-12-77 as an emergency; effective upon filing (Register 77, No. 20).
2. Certificate of Compliance filed 7-15-77 (Register 77, No. 29).
3. Amendment of subsection (a) filed 12-21-77 as an emergency; designated effective 1-1-78. Certificate of Compliance included (Register 77, No. 52).
4. Amendment filed 7-26-78; designated effective 9-1-78 (Register 78, No. 30).
5. Amendment of subsection (g) filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
6. Amendment of subsection (e) filed 2-22-82; effective thirtieth day thereafter (Register 82, No. 9).
7. Amendment of subsection (b) filed 6-22-83; effective thirtieth day thereafter (Register 83, No. 26).
8. Amendment of subsections (b) and (e) filed 5-4-84; effective thirtieth day thereafter (Register 84, No. 18).
9. Amendment filed 7-20-87; operative 8-19-87 (Register 87, No. 30).
10. Change without regulatory effect of subsections (b), (e) and (f)(2)(A) filed 2-8-88; operative 3-9-88 (Register 88, No. 7).
11. Amendment of subsection (f) and repealer of subsection (g) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
12. Amendment filed 3-6-95; operative 4-5-95 (Register 95, No. 10).
13. Amendment of subsections (c)(2) and (e) filed 8-20-97; operative 9-19-97 (Register 97, No. 34).
14. Amendment of subsection (c) filed 10-26-98 as an emergency; operative 11-25-98 (Register 98, No. 44).

§ 1163.1. Prohibited Transportation.

Shippers shall not offer and carriers shall not transport any of the following:

(a) Materials designated as "Forbidden" by 49 CFR 172.101.

(b) Any package containing any materials or combinations of materials that is forbidden to be tendered for transportation by the provisions of 49 CFR 173.21.

(c) Hazardous materials prepared or offered for shipment in a manner specifically prohibited or restricted by 49 CFR Part 173 or 177.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Repealer and new section filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
2. Amendment of subsections (a) and (c) and amendment of NOTE filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1164. Vehicle Loading.

(a) Loading Requirements. Load securement, loading, unloading and vehicle utilization shall comply with 49 CFR Part 177, Subparts B and C.

(b) Packages. Packages shall be secured during transit by use of bracing, chocks, or tiedowns to prevent their sliding, falling, tipping, or rolling with normal vehicle acceleration, deceleration, or change in direction. Ends, sidewalls, or doors of van bodies, or racks on flatbed vehicles shall not be relied upon for the securement of portable tanks.

NOTE: Authority and reference cited: Section 34501, Vehicle Code.

HISTORY

1. Amendment filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
2. New subsection (a)(7) and amendment of subsection (d) filed 2-22-82; effective thirtieth day thereafter (Register 82, No. 9).
3. Amendment filed 6-22-83; effective thirtieth day thereafter (Register 83, No. 26).
4. Amendment filed 7-20-87; operative 8-19-87 (Register 87, No. 30).
5. Change without regulatory effect by moving text from Section 1165(d) to Section 1164(b) and from Section 1165(c) to Section 1164(c) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
6. Amendment of subsection (a) and repealer of subsections (c)-(f) filed 3-6-95; operative 4-5-95 (Register 95, No. 10).

§ 1165. [Reserved].

NOTE: Authority cited: Section 32102, Vehicle Code. Reference: Section 32107, Vehicle Code.

HISTORY

1. New subsection (e) filed 5-12-77 as an emergency; effective upon filing (Register 77, No. 20).
2. Certificate of Compliance filed 7-15-77 (Register 77, No. 29).
3. Amendment of subsection (b) filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
4. New subsection (e) and relettering and amendment of former subsection (e) to subsection (f) filed 2-22-82; effective thirtieth day thereafter (Register 82, No. 9).
5. Amendment filed 6-22-83; effective thirtieth day thereafter (Register 83, No. 26).
6. Repealer of subsection (e) filed 9-7-84; effective thirtieth day thereafter (Register 84, No. 36).
7. Repealer filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
8. New section filed 11-25-91; operative 3-24-91 (Register 92, No. 8).
9. Change without regulatory effect repealing section filed 11-16-94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 46).
10. Repealer of section heading filed 8-20-97; operative 9-19-97 (Register 97, No. 34).

§ 1165.1. [Reserved].

NOTE: Authority and reference cited: Section 34501, Vehicle Code.

HISTORY

1. Repealer filed 2-22-82; effective thirtieth day thereafter (Register 82, No. 9).
2. Repealer of section heading filed 8-20-97; operative 9-19-97 (Register 97, No. 34).

§ 1166. Reporting of Incidents Involving Hazardous Materials or Hazardous Wastes.

(a) Carriers directly subject to federal jurisdiction pursuant to 49 CFR Part 171 shall comply with the detailed written incident reporting requirements contained in 49 CFR 171.16.

(b) Carriers not directly subject to federal jurisdiction shall report incidents involving hazardous materials or hazardous wastes during transportation, loading or unloading, or temporary storage on carrier premises as follows:

(1) Reports Required. A written report is required of incidents that result in:

(A) Any spill or discharge of hazardous materials or hazardous wastes from any package container, or tanker

(B) Fatality, injury, or hospitalization of any person due to fire, explosion of, or exposure to any hazardous material or hazardous wastes.

(C) Continuing danger to life, health or natural resources at the scene of the incident.

(D) Estimated property damage exceeding \$50,000.

(2) Report Content and Routing. The written report shall, within 30 days of the date of incident discovery, be submitted to the Department of the California Highway Patrol, Commercial Vehicle Section, Post Office Box 942898, Sacramento, CA 94298-0001. The report shall include time and date of occurrence, injuries, property damage, continuing danger to life at the scene of the incident, identification of the commodity and its classification, and other pertinent details. The report may be prepared utilizing DOT Form F5800.1 (Rev. 6/89), Hazardous Materials Incident Report.

(3) Report Retention. A copy of each hazardous materials or hazardous waste spill report shall be retained by the carrier for at least six months, and shall be subject to inspection by duly authorized employees of the department.

(4) Exceptions. The requirements of subsection (b) do not apply to incidents involving the spill or discharge of materials:

(A) Transported under the following proper shipping names:

(i) Consumer commodity

(ii) Battery, *electric storage*, wet, filled with acid or alkali

(iii) Paint and paint related material when shipped in packagings of five gallons or less.

(B) Prepared and transported as a limited quantity shipment in accordance with this article.

(5) The exceptions to incident reporting provided in paragraph (4) of this subsection do not apply to:

(A) Materials in Packing Group I other than consumer commodities.
 (B) Incidents involving the transportation of hazardous waste, or:
 (C) Incidents where any of the following occur as a direct result of hazardous materials release or threatened release:

- (i) A person is killed; or
- (ii) A person receives injuries requiring his or her hospitalization; or
- (iii) Estimated carrier or other property damage exceeds \$50,000; or
- (iv) An evacuation of the general public occurs lasting one or more hours; or
- (v) One or more major transportation arteries or facilities are closed or shut down for one hour or more.

(c) The DOT Hazardous Materials Incident Report form F5800.1 (Rev. 6/89), a guide for completing the report and text of the reporting requirements are available at the following internet sites respectively: <http://hazmat.dot.gov/5800.pdf>, <http://hazmat.dot.gov/5800guid.pdf>, and <http://hazmat.dot.gov/spills.htm#171.16>. Alternatively, the form F5800.1 and the guide document for assisting in the completion of DOT Form F5800.1 may be obtained from the Office of Hazardous Materials Transportation, DHM-51, U.S. Department of Transportation, Washington, DC 20590-0001.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Amendment filed 7-8-81; effective thirtieth day thereafter (Register 81, No. 28).
2. Change without regulatory effect of subsection (b) (Register 86, No. 48).
3. Amendment of subsections (b) and (d)(3) filed 11-30-88; operative 12-30-88 (Register 88, No. 51).
4. Amendment of subsection (b) filed 9-27-90; operative 10-27-90 (Register 90, No. 45).
5. Editorial correction restoring subsections (c) and (d) (Register 92, No. 12).
6. Amendment of subsections (b) and (d) filed 3-6-95; operative 4-5-95 (Register 95, No. 10).
7. New subsection (a) and subsection relettering, and amendment of newly designated subsections (b), (b)(1), (b)(2), (b)(4) and (b)(4)(B) filed 8-14-96; operative 9-13-96 (Register 96, No. 33).
8. Amendment of section and NOTE filed 10-5-99; operative 11-4-99 (Register 99, No. 41).

§ 1167. Delivery of Shipments; Action in Event of Accidents.

The delivery of hazardous materials shipments and required driver action in the event of accidents shall be governed by provisions of 49 CFR Part 177, Subpart D (commencing with Section 177.854). Notwithstanding the provisions of Section 1163(d), a leaking packaging which develops or is discovered subsequent to the commencement of transportation may be transported in accordance with 49 CFR Part 177, Subpart D.

2. Repealer filed 3–6–95; operative 4–5–95 (Register 95, No. 10).
3. Change without regulatory effect repealing section heading filed 12–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 49).

§ 1197. [Reserved].

NOTE: Authority and reference cited: Section 34019, Vehicle Code.

HISTORY

1. New section filed 5–4–84; effective thirtieth day thereafter (Register 84, No. 18).
2. Repealer filed 3–6–95; operative 4–5–95 (Register 95, No. 10).
3. Change without regulatory effect repealing section heading filed 12–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 49).

Chapter 6.5. Motor Carrier Safety *

* Formerly Subchapter 6, Article 2 (Sections 1210–1230, not consecutive).

Article 1. Definitions and General Provisions**§ 1200. Scope.**

(a) Applicability. Unless otherwise indicated within a specific section, the provisions of this chapter shall apply to farm labor vehicles and the vehicles listed in Vehicle Code Sections 34500 and 34500.1 and their operation.

(b) Limited Application.

(1) Two-axle motor trucks with a gross vehicle weight rating of 26,000 pounds or less transporting hazardous materials in quantities for which placards are required pursuant to Vehicle Code Section 27903 shall be subject to the following Sections of this chapter: 1212, 1212.5, 1213, 1213.1, 1214, 1215, 1229, 1230, 1232, 1234, and 1256.

(2) Two-axle motor trucks with a gross vehicle weight rating of 26,000 pounds or less transporting hazardous materials in quantities for which placards are not required shall be subject to the following Sections of this chapter: 1212, 1212.5, 1214, 1215 (except 1215(b)), 1229, 1230, and 1232. Two-axle motortrucks transporting hazardous materials for which a license is required by Vehicle Code Section 32000.5 shall also be subject to Section 1256.

(3) Section 1213.1 Subsections (c) through (f), shall apply to drivers of commercial motor vehicles as defined in Vehicle Code Section 15210.

(4) Two-axle motor trucks described in subdivision (j) of Vehicle Code Section 34500 shall be subject only to Sections 1212, 1212.5 and 1213 of this chapter.

(5) Persons operating vehicles which cause those persons to be subject to the Motor Carriers of Property Act as described in Division 14.85 of the Vehicle Code, but which vehicles are not included in Vehicle Code Section 34500, shall be subject to Article 6.5 of this chapter.

(c) Exceptions.

This chapter shall not apply to vehicles used primarily off the highway and not required to be registered pursuant to Vehicle Code Section 4000(a).

NOTE: Authority cited: Sections 31401, 34501, 34501.2, 34501.5, 34508 and 34513, Vehicle Code; and Section 39831, Education Code. Reference: Sections 31401, 34500, 34500.1, 34501, 34501.2, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. New subchapter 6.5 (articles 1–9, consecutive; sections 1200–1293, consecutive) filed 8–14–78; designated effective 9–18–78 (Register 78, No. 33). For prior history, see Register 78, No. 33 (subchapter 6, article 2, sections 1210–1230, not consecutive).
2. Amendment of section title filed 4–9–79; designated effective 6–1–79 (Register 79, No. 15).
3. Amendment of subsection (a) filed 6–9–82; effective thirtieth day thereafter (Register 82, No. 24).
4. Amendment filed 10–28–82; effective thirtieth day thereafter (Register 82, No. 44).
5. Amendment filed 4–27–83; effective thirtieth day thereafter (Register 83, No. 18).

6. Amendment of subsection (c) filed 6–22–83; effective thirtieth day thereafter (Register 83, No. 26).
7. Amendment filed 10–30–86; effective thirtieth day thereafter (Register 86, No. 44).
8. Amendment of subsection (a) filed 8–4–87; operative 9–3–87 (Register 87, No. 32).
9. Change without regulatory effect adding new subsection (b)(3) filed 8–13–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 4).
10. New subsection (b)(4) filed 4–28–92; operative 5–28–92 (Register 92, No. 18).
11. Amendment of subsections (a), (b)(1), (b)(2), (c) and NOTE filed 7–22–93; operative 8–21–93 (Register 93, No. 30).
12. Amendment of subsection (b)(4) and NOTE filed 9–6–95; operative 10–6–95 (Register 95, No. 36).
13. Amendment of subsection (a) filed 3–31–99; operative 4–30–99 (Register 99, No. 14).
14. Amendment of subsection (b)(3) filed 10–24–2001; operative 11–23–2001 (Register 2001, No. 43).
15. New subsection (b)(5) filed 3–20–2002; operative 4–19–2002 (Register 2002, No. 12).

§ 1201. Definitions.

The following terms are defined for purposes of this chapter:

- (a) Adverse driving conditions. Snow, sleet, fog, other adverse weather conditions, a highway covered with snow or ice, or unusual road and traffic conditions, none of which were apparent on the basis of information known to the person dispatching the run at the time it was begun.
- (b) Bus. Every motor vehicle defined in Vehicle Code Section 233 and every school bus, school pupil activity bus, youth bus, and farm labor bus. Bus “type” is determined as follows:
 - (1) Type 1. Designed for carrying more than 16 passengers and the driver.
 - (2) Type 2. Designed for carrying not more than 16 passengers and the driver; or manufactured on or after April 1, 1977, having a manufacturer’s gross vehicle weight rating of 10,000 lb or less, and designed for carrying not more than 20 passengers and the driver.
- (c) Co-driver. A driver teamed with another driver for the purpose of alternating driving duties during a trip. While one drives, the other ordinarily rests in a sleeper berth. Both driver and co-driver maintain separate driver’s records of duty status pursuant to Section 1213 of this title.
- (d) Commercial Motor Vehicle. Any vehicle or combination of vehicles as defined in Vehicle Code Section 15210(b)(1).
- (e) Commissioner. Commissioner of the Department of the California Highway Patrol.
- (f) Department. Department of the California Highway Patrol.
- (g) Drive or Operate. These terms include all time spent at the driving controls of a motor vehicle in operation.
- (h) Driver. Any person, including the owner–driver, who drives any motor vehicle subject to this chapter, and any person, whether driving for compensation or not, who is under the direct control of and drives for a motor carrier.
- (i) Driver–salesperson. Any employee who is employed solely as such by a private carrier of property by motor vehicle, who is engaged both in selling goods, services, or the use of goods, and in delivering by commercial motor vehicle the goods sold or provided or upon which the services are performed, who does so entirely within a radius of 100 miles of the point at which the driver reports for duty, who devotes not more than 50 percent of his/her hours on duty to driving time. The term “selling goods” for purposes of this section shall include in all cases solicitation or obtaining of reorders or new accounts, and may also include other selling or merchandising activities designed to retain the customer or to increase the sale of goods or services, in addition to solicitation or obtaining of reorders or new accounts.
- (j) Driving Time. Means all time spent at the driving controls of a commercial motor vehicle in operation.
- (k) Eight Consecutive Days. The period of 8 consecutive days beginning on any day at the time designated by the motor carrier for a 24-hour period.
- (l) FMVSS. Federal Motor Vehicle Safety Standard(s) in effect at the

time the vehicle or component is manufactured.

- (m) GPPV—General Public Paratransit Vehicle. Any motor vehicle specified in Vehicle Code Section 336.
- (n) Interstate Driver. Interstate driver means the driver of a vehicle engaged in interstate commerce as defined in 49 CFR, Section 390.5, as those regulations now exist or are hereafter amended.
- (o) Intrastate Driver. Intrastate driver means a driver engaged in trade, traffic, or transportation not described in the term “interstate driver.”
- (p) Manufacturer of the Chassis. The original manufacturer of the chassis or the manufacturer of any integral type of school bus.
- (q) Motor Carrier or Carrier. The registered owner, lessee, licensee, school district superintendent, or bailee of any vehicle who operates or directs the operations of any such vehicle on either a for–hire or not–for–hire basis. The terms “motor carrier” and “carrier” may be used interchangeably in this chapter.
- (r) Multiple Stops. All stops made in any one village, town, or city may be computed as one.
- (s) On–duty Time. All time from the time a driver begins to work, or is required to be in readiness to work, until the time the driver is relieved from work and all responsibility for performing work. On–duty time shall include:
 - (1) All time at a carrier or shipper plant, terminal, facility, or other property, or on any public property, waiting to be dispatched, unless the driver has been relieved from duty by the motor carrier;
 - (2) All time inspecting, servicing, or conditioning any vehicle;
 - (3) All “driving time” as defined in this section;
 - (4) All time, other than driving time, in or upon any motor vehicle, except time spent resting in a sleeper berth as defined by the term “sleeper berth” in this section;
 - (5) All time loading or unloading a vehicle, supervising, or assisting in the loading or unloading, attending a vehicle being loaded or unloaded, remaining in readiness to operate the vehicle, or in giving or receiving receipts for shipments loaded or unloaded;
 - (6) All time spent complying with driver requirements relating to accidents;
 - (7) All time repairing, obtaining assistance, or remaining in attendance in or about a disabled vehicle;
 - (8) All time spent providing a breath sample or urine specimen, including travel time to and from the collection site, in order to comply with the random, reasonable suspicion, post accident, or follow–up testing required by 49 CFR Part 382, when directed by a motor carrier;
 - (9) Performing any other work in the capacity of, or in the employ or service of, a common, contract or private motor carrier; and
 - (10) Performing any compensated work for any nonmotor carrier entity.
- (t) Pupil Transportation. The transportation of any pupil enrolled in a public or private school at or below the twelfth–grade level to or from school in a school bus, to or from a school activity in a school bus or SPAB, from a school to a nonschool–related activity within 25 miles of the school in a youth bus, or the transportation of any student enrolled in a community college to or from the community college or a college activity, in a vehicle designated as a school bus by resolution of the governing board pursuant to Vehicle Code Section 545(g), and certified by the department.
- (u) SPAB—School Pupil Activity Bus. Any motor vehicle specified in Vehicle Code Section 546.
- (v) School District Superintendent. This term or a similar phrase includes county superintendent of schools and the equivalent official of a private or public school that does not have a school district superintendent.
- (w) Seven Consecutive Days. The period of 7 consecutive days beginning on any day at the time designated by the motor carrier for a 24-hour period.
- (x) Sleeper Berth. A berth conforming to the requirements of Section 1265.

[The next page is 131.]

(y) Supporting Documents. Supporting documents are the records of a motor carrier which are maintained in the ordinary course of business which may be used to verify the information recorded on drivers' records of duty status. Examples are: bills of lading, carrier pros, freight bills, dispatch records, driver call-in records, gate record receipts, weight/scale tickets, fuel receipts, fuel billing statements, toll receipts, international registration plan receipts, international fuel tax agreement receipts, trip permits, port of entry receipts, cash advance receipts, delivery receipts, lumber receipts, interchange and inspection reports, lessor settlement sheets, over/short and damage reports, agricultural inspection reports, Commercial Vehicle Safety Alliance reports, accident reports, telephone billing statements, credit card receipts, driver fax reports, on-board computer reports, border crossing reports, custom declarations, traffic citations, overweight/oversize reports and citations, and/or other documents directly related to the motor carrier's operation, which are retained by the motor carrier in connection with the operation of its transportation business. Supporting documents may include other documents which the motor carrier maintains and which can be used to verify information on drivers' records of duty status.

(z) Trailer—bus. A trailer or semi-trailer designed or used for the transportation of more than 10 persons.

(aa) Truck. All motortrucks and truck tractors specified in Vehicle Code Section 34500.

(bb) Twenty-four Hour Period. Any 24-consecutive-hour period beginning at the time designated by the motor carrier for the terminal from which the driver is normally dispatched.

(cc) Wheelchair. A specially constructed device on wheels used exclusively to transport a physically handicapped person except infant seat devices, strollers, and gurneys.

(dd) Wheelchair School Bus. Any school bus that has been designed or modified in accordance with Section 1293 of this title to transport pupils confined to wheelchairs.

(ee) Work Period. The duration between the time a driver first reports for duty and the time a driver is completely relieved of all duties and is permitted to go off duty for eight consecutive hours. The terms "work period" and "tour of duty" have the same meaning.

NOTE: Authority cited: Sections 31401, 34501, 34501.5, 34508 and 34520, Vehicle Code; and Section 39831, Education Code. Reference: Sections 336, 546, 31401, 34501, 34501.2, 34501.5, 34508 and 34520, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment filed 5-14-79; effective July 1, 1979 (Register 79, No. 19).
2. Amendment of subsection (k) filed 4-3-80; designated effective 7-1-80 (Register 80, No. 14).
3. Amendment of subsection (j) filed 12-28-81; effective thirtieth day thereafter (Register 82, No. 1).
4. Amendment of subsections (p), (r) and (w) filed 6-9-82; effective thirtieth day thereafter (Register 82, No. 24).
5. Amendment of subsections (a), (p) and (s), and new subsection (z) filed 10-28-82; effective thirtieth day thereafter (Register 82, No. 44).
6. Amendment filed 4-27-83; effective thirtieth day thereafter (Register 83, No. 18).
7. Amendment filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).
8. Amendment filed 8-16-88; operative 9-15-88 (Register 88, No. 34).
9. Amendment of subsection (l) filed 12-5-88; operative 1-4-89 (Register 88, No. 51).
10. Amendment of subsection (k)(4) filed 7-17-89; operative 8-16-89 (Register 89, No. 29).
11. Change without regulatory effect adding new subsections (a), (h), (i), (j), (m), (p), (q)(9), (v), (w), and (z), subsection relettering, and amendment of newly designated subsections (q)-(q)(8) filed 2-4-93 pursuant to section 100, title 1, California Code of Regulations (Register 93, No. 6).
12. Editorial correction of printing error (Register 93, No. 12).
13. Change without regulatory effect amending subsection (g) filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).
14. Change without regulatory effect repealing subsection (t) and subsection relettering filed 4-1-96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
15. New subsection (w), subsection relettering and amendment of NOTE filed 1-8-98; operative 2-7-98 (Register 98, No. 19).
16. Amendment of section and NOTE filed 10-24-2001; operative 11-23-2001 (Register 2001, No. 43).
17. Amendment of subsections (i), (n)-(o), (s) and (bb) filed 10-12-2007; operative 11-11-2007 (Register 2007, No. 41).

§ 1202. General Provisions.

The general provisions of this chapter are as follows:

(a) Inspections by Department. Motor carriers shall afford authorized representatives of the department a reasonable opportunity to enter terminals, maintenance facilities, farm labor camps, or other private property to inspect vehicles and records to determine compliance with this chapter. Every driver shall permit the inspection of any vehicle or pertinent records for which the driver is responsible or has under his or her control.

(b) Authority of District Boards. The governing board of any school district, county superintendent of schools, or equivalent private school entity or official, may adopt and enforce additional requirements governing the transportation of pupils. Such requirements shall not conflict with any law or state administrative regulation.

(c) Application to Private School Buses. The provisions of this chapter shall apply equally to private school buses and to private school officials and agencies unless the context clearly indicates that no such application may reasonably be made.

(d) Special Application. Regulations in this title relating to buses and to the transportation of passengers shall also apply to trailer buses.

(e) Exemptions. The Commissioner may grant exemptions from any of the requirements of this chapter when, in his judgment, requests appear reasonable, or the results intended by these regulations can be accomplished by alternate methods of compliance. However, no exemption will be granted if, in the opinion of the Commissioner, the exemption would compromise the safety requirements of these regulations. In addition, any exemption granted by the Commissioner is nontransferable and may be rescinded at any time for cause.

(1) Application for Exemption. An application for exemption shall be made in writing to the Commissioner, and it shall include the following data:

Reason for requesting an exemption

Alternate method(s) of compliance

When relevant, the make and model, vehicle identification number, and license number of the vehicle for which the exemption is being requested

The application shall be mailed to:

CALIFORNIA HIGHWAY PATROL
ENFORCEMENT SERVICES DIVISION
POST OFFICE BOX 942898
SACRAMENTO, CA 94298-0001

(2) Copy of Exemption. A copy of any exemption granted shall be carried in the vehicle(s) for which it was issued at all times, unless specified otherwise in the exemption, and shall be presented for inspection upon demand by any authorized representative of the department.

(3) Blanket Exemptions. The provisions of this subsection do not apply to any blanket exemptions the Commissioner may elect to issue. A blanket exemption is an exemption from a particular provision of this subchapter granted to all vehicles, or vehicles manufactured on or after a specified date, pending a change in these regulations.

(f) Motor Carrier of Property Certificate of Compliance. Any motor carrier of property, as defined in Section 34601 of the Vehicle Code, who contracts or subcontracts with, or otherwise provides transportation services for, another motor carrier of property shall provide to that motor carrier a certificate as set forth in Section 34620(b) of the Vehicle Code. The certificate may be on a form provided by the department, or may be a carrier-provided form containing the following information:

(1) The name of the contracted motor carrier.

(2) The contracted motor carrier's Motor Carrier Permit number and expiration date.

(3) The signature of the contracted motor carrier or his or her agent.

(4) The printed name, title, and driver's license number of the contracted motor carrier or his or her agent.

(5) The date the certificate is signed.

(6) The name of the contracting motor carrier.

(7) The following statement, inserting the above information as indicated: "I, the undersigned, certify that (*name of contracted carrier*) holds

a Motor Carrier Permit, Number (*permit number*), which is valid through (*expiration date*), a copy of which is attached. I further certify that I, or a company officer, will immediately notify users of this company's services if the permit is suspended, revoked, or is otherwise rendered invalid. (*signature of contracted motor carrier or agent*) (*date*) (*printed name, title, and driver's license number of contracted motor carrier or agent*)"

(g) As used in subsection (f), "contracted motor carrier" means the motor carrier providing the transportation service. The motor carrier for whom the transportation service is provided shall be referred to as the "contracting motor carrier."

NOTE: Authority cited: Sections 546, 31401, 34501, 34501.5, 34508 and 34620, Vehicle Code; and Section 39831, Education Code. Reference: Sections 2808, 31401, 34501, 34501.5, 34508 and 34620, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment of subsection (d) filed 8-27-82; effective thirtieth day thereafter (Register 82, No. 35).
2. Amendment filed 4-27-83; effective thirtieth day thereafter (Register 83, No. 18).
3. Amendment filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).
4. Change without regulatory effect of subsection (f)(1) and NOTE (Register 86, No. 48).
5. New subsections (g)-(h) and amendment of NOTE filed 9-2-98; operative 10-2-98 (Register 98, No. 36).
6. Amendment of subsections (a), (c), (d) and (f)-(f)(2) filed 3-31-99; operative 4-30-99 (Register 99, No. 14).
7. Change without regulatory effect repealing subsection (d), relettering subsections, and amending newly redesignated subsection (g) filed 7-11-2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 28).

§ 1202.1. Applicability of Federal Regulations.

Carriers, drivers, and vehicles engaged in interstate commerce or in the transportation of hazardous substances or hazardous wastes as defined in 49 CFR 171.8 (published October 1, 2006) shall be subject to the following Federal Motor Carrier Safety Regulations contained in Title 49, Code of Federal Regulations:

Section	Subject	Publication Date
385.415	What operational requirements apply to the transportation of a hazardous material for which a permit is required?	October 1, 2006
391.15(b)(2)	Disqualification for loss of Driving Privilege	October 1, 2006
392.60	Unauthorized Persons Not to Be Transported	October 1, 2006
393.86	Rear end protection	October 1, 2006
393.93	Seats, Seat Belt Assemblies, and Seat Belt Assembly Anchorages	October 1, 2006
396.11	Driver Vehicle Inspection Report(s)	October 1, 2006
396.13	Driver inspection	October 1, 2006
396.17	Periodic Inspection	October 1, 2006
397.17	Tires	October 1, 2006
397.19	Instructions and Documents	October 1, 2006
397.67	Motor carrier responsibility for routing	October 1, 2006

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. New section filed 3-7-85; effective thirtieth day thereafter (Register 85, No. 10).
2. Amendment filed 7-17-89; operative 8-16-89 (Register 89, No. 29).
3. Amendment filed 1-24-91; operative 2-23-91 (Register 91, No. 12).
4. Editorial correction of printing error (Register 91, No. 12).
5. Change without regulatory effect amending section filed 3-21-91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 14).
6. Editorial correction of printing error restoring text and HISTORY 2. (Register 91, No. 30).
7. Editorial correction restoring sections 392.60, 392.61, 396.11 and 396.17 (Register 91, No. 48).
8. Editorial correction restoring HISTORY 2, deleting former HISTORY 5, and renumbering (Register 95, No. 15).
9. Amendment filed 9-6-95; operative 10-6-95 (Register 95, No. 36).
10. Amendment filed 3-31-99; operative 4-30-99 (Register 99, No. 14).
11. Amendment filed 4-10-2008; operative 5-10-2008 (Register 2008, No. 15).

§ 1202.2. Applicability of Federal Regulations.

Carriers, drivers, and vehicles engaged in intrastate commerce shall be subject to the following Federal Motor Carrier Safety Regulations contained in Title 49, Code of Federal Regulations:

Section	Subject	Publication Date
385.415	What operational requirements apply to the transportation of a hazardous material for which a permit is required?	October 1, 2006
393.86	Rear End Protection (vehicles manufactured after July 1, 1997)	October 1, 2006
396.11	Driver Vehicle Inspection Reports	October 1, 2006
396.13	Driver Inspection	October 1, 2006
397.17	Tires	October 1, 2006
397.67	Motor Carrier Responsibility for Routing	October 1, 2006

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. New section filed 6-17-96; operative 7-17-96 (Register 96, No. 25).
2. Amendment filed 3-31-99; operative 4-30-99 (Register 99, No. 14).
3. Amendment filed 4-10-2008; operative 5-10-2008 (Register 2008, No. 15).

Article 2. School Bus, SPAB, Youth Bus, and Farm Labor Vehicle Driver Certificates

§ 1203. Words and Phrases.

Words and phrases used in this article are as defined in the Vehicle Code and this subchapter unless otherwise indicated.

HISTORY

2. Amendment of subsection (a)(2) filed 4–3–80; designated effective 7–1–80 (Register 80, No. 14).
3. Amendment filed 10–28–82; effective thirtieth day thereafter (Register 82, No. 44).
4. Amendment filed 5–17–84; effective thirtieth day thereafter (Register 84, No. 20).
5. Repealer filed 1–24–91; operative 2–23–91 (Register 91, No. 7).

Article 3. General Driving Requirements

§ 1212. Driver Hours of Service.

(a) General. The rules in this section, unless otherwise specified, apply to all intrastate motor carriers and drivers.

(b) Adverse driving conditions.

(1) A driver who encounters adverse driving conditions, as defined in Section 1201, and cannot, because of those conditions, safely complete the run within the maximum driving time permitted by Section 1212.5 may drive and be permitted or required to drive for not more than 2 additional hours in order to complete that run or to reach a place offering safety for vehicle occupants and security for the vehicle and its cargo. However, that driver may not drive or be permitted to drive:

(A) More than 12 hours in the aggregate for bus drivers and 14 hours for truck drivers following eight consecutive hours off duty for bus drivers and ten consecutive hours off duty for truck drivers; or

(B) After the driver has been on duty 15 hours following eight consecutive hours off duty for bus drivers and after the end of the 16th hour after coming on duty, following ten consecutive hours off duty, for truck drivers.

(2) Emergency conditions. In the event of a traffic accident, medical emergency, or disaster, a driver may complete his/her run without being in violation of the provisions of these regulations, if such run reasonably could have been completed absent the emergency.

(3) Relief Point. Bus drivers (other than school bus and school pupil activity bus drivers) in urban and suburban service may exceed their regulated hours in order to reach a regularly scheduled relief point, providing the additional time does not exceed one hour.

(c) Driver-salesperson. The provisions of Section 1212.5(b) shall not apply to any driver-salesperson whose total driving time does not exceed 40 hours in any period of seven consecutive days.

(d) Oilfield operations. (1) In the instance of drivers of commercial motor vehicles used exclusively in the transportation of oilfield equipment, including the stringing and picking up of pipe used in pipelines, and servicing of the field operations of the natural gas and oil industry, any period of eight consecutive days may end with the beginning of any off-duty period of 24 or more successive hours.

(2) In the case of specially trained drivers of motor vehicles which are specially constructed to service oil wells, on-duty time shall not include waiting time at a natural gas or oil well site; provided, that all such time shall be fully and accurately accounted for in records to be maintained by the motor carrier. Such records shall be made available upon request of any authorized employee of the department.

(e) 100 air-mile radius driver. A driver is exempt from the requirements of Section 1213 if:

(1) The driver operates within a 100 air-mile radius of the normal work reporting location;

(2) The driver, except a driver salesperson, returns to the work reporting location and is released from work within 12 consecutive hours;

(3) The driver of a school bus, school pupil activity bus, youth bus, or farm labor vehicle returns to the work reporting location and is released from work before the end of the 16th hour after coming on duty;

(4) At least eight consecutive hours off duty for bus drivers and ten consecutive hours off duty for truck drivers, separate each 12 hours on duty; and

(5) The motor carrier that employs the driver maintains and retains for a period of six months accurate and true time records showing:

(A) The time the driver reports for duty each day;

(B) The total number of hours the driver is on duty each day;

(C) The time the driver is released from duty each day; and

(D) The total time for the preceding seven days in accordance with Section 1213(k)(2) for drivers used for the first time or intermittently.

(6) The permanent record produced by a time-recording device such as a "tachograph" (Figure 1) may be used as a driver's record for any tour of duty for an intrastate driver that does not exceed 15 consecutive hours or the 100 air-mile radius, provided the intrastate bus driver does not ex-

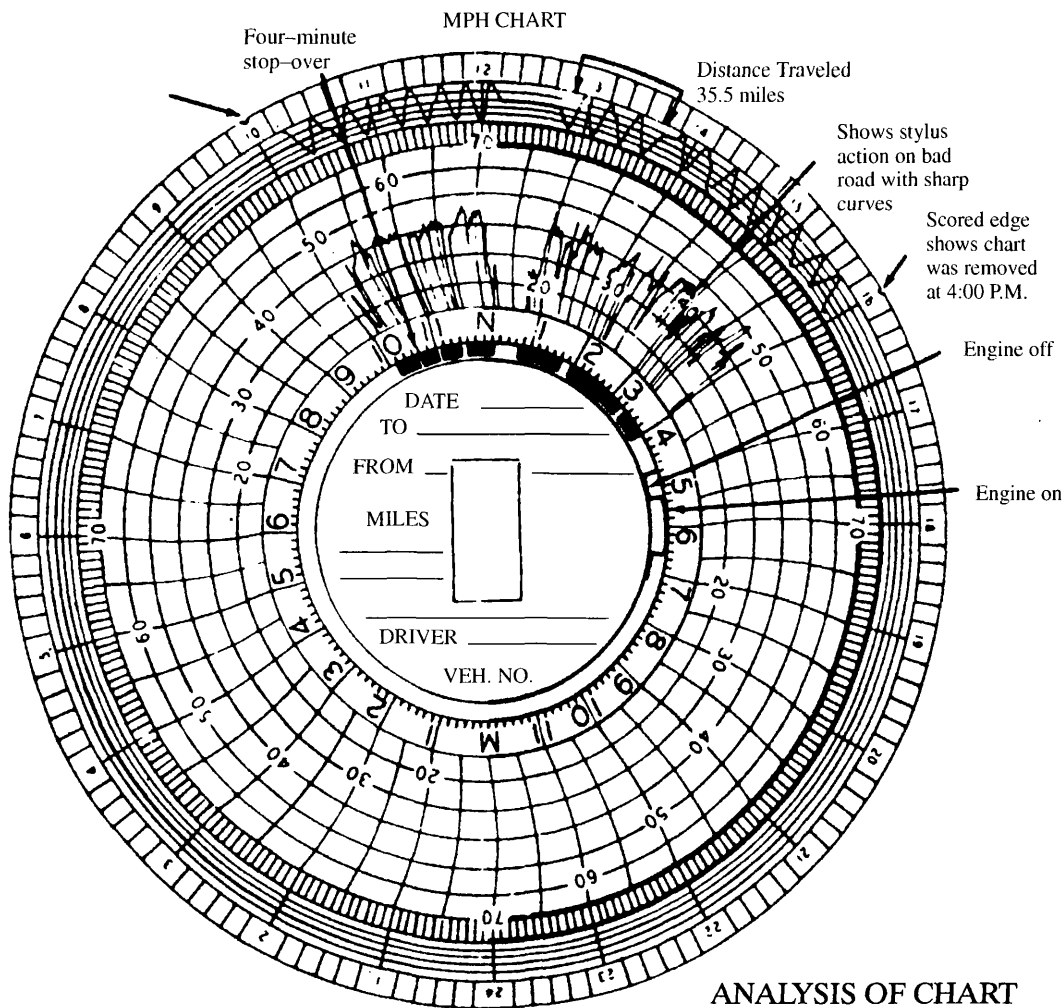

ceed ten hours and the intrastate truck driver does not exceed 12 hours maximum driving time following eight consecutive hours off duty for bus drivers and ten consecutive hours off duty for truck drivers, and the driver enters:

(A) The time the driver reports for duty each day;

(B) The previous day's time of going off duty; and

(C) The data required by Section 1213(e).

(f) Retail store deliveries. The provisions of Section 1212.5(a) shall not apply with respect to drivers of commercial motor vehicles engaged solely in making local deliveries from retail stores and/or retail catalog businesses to the ultimate consumer, when driving solely within a 100 air-mile radius of the driver's work-reporting location, during the period from December 10 to December 25, both inclusive, of each year.

ANALYSIS OF CHART

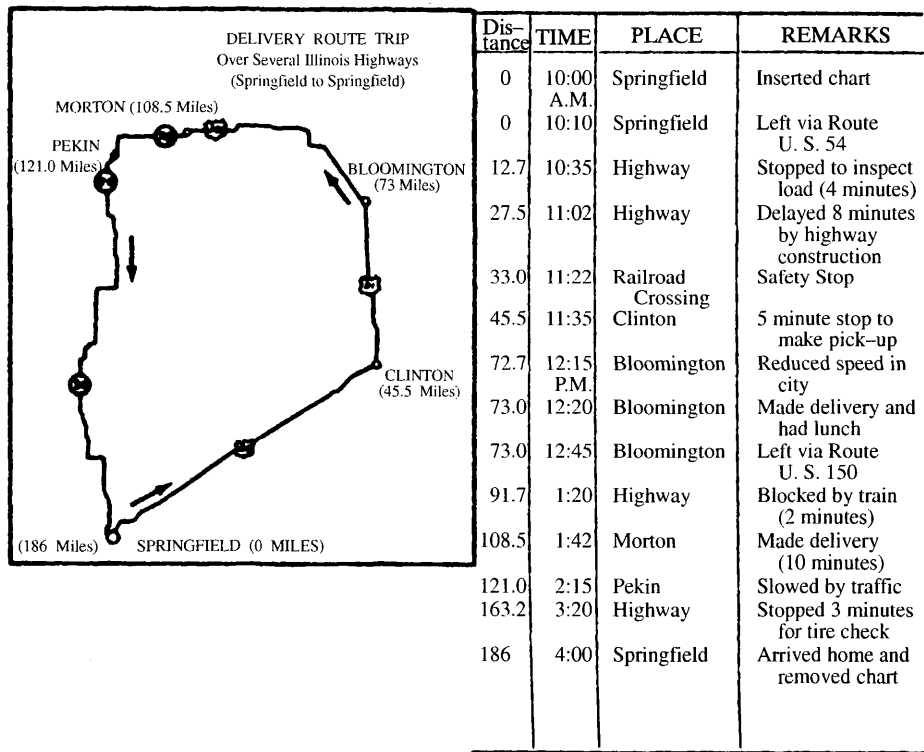

Figure 1. Tachograph Chart and Analysis

(g) Sleeper berths.

(1) Property-carrying motor vehicles. A driver who is driving a truck or truck tractor that is equipped with a sleeper berth, as defined in Section 1265,

(A) Must, before driving, accumulate;

(i) At least ten consecutive hours off duty;

(ii) At least ten consecutive hours of sleeper-berth time;

(iii) A combination of consecutive sleeper-berth and off-duty time amounting to at least ten hours; or

(iv) The equivalent of at least ten consecutive hours off duty if the driver does not comply with paragraph (g)(1)(A)(i), (ii), or (iii) of this section;

(B) May not drive more than 12 hours following one of the ten-hour off-duty periods specified in paragraph (g)(1)(A)(i) through (iv) of this section; and

(C) May not drive after the 16th hour after coming on duty following one of the ten-hour off-duty periods specified in paragraph (g)(1)(A)(i) through (iv) of this section; and

(D) Must exclude from the calculation of the 16-hour limit any sleeper-berth period of at least eight but less than ten consecutive hours.

(2) Specific requirements. The following rules apply in determining compliance with paragraph (g)(1) of this section:

(A) The term "equivalent of at least ten consecutive hours off duty" means a period of:

(i) At least eight but less than ten consecutive hours in a sleeper berth, and

(ii) A separate period of at least two but less than ten consecutive hours either in the sleeper berth or off duty, or any combination thereof.

(B) Calculation of the 12-hour driving limit includes all driving time; compliance must be recalculated from the end of the first of the two periods used to comply with paragraph (g)(2)(A) of this section.

(C) Calculation of the 16-hour limit includes all time except any sleeper-berth period of at least eight but less than ten consecutive hours; compliance must be re-calculated from the end of the first of the two periods used to comply with the requirements of paragraph (g)(2)(A) of this section.

(3) Specially trained driver of a specially constructed oil well servicing commercial motor vehicle at a natural gas or oil well location. A specially trained driver who operates a commercial motor vehicle specially constructed to service natural gas or oil wells that is equipped with a sleeper berth, as defined in Section 1265, or who is off duty at a natural gas or oil well location, may accumulate the equivalent of ten consecutive hours off-duty time by taking a combination of at least ten consecutive hours of off-duty time, sleeper-berth time, or time in other sleeping accommodations at a natural gas or oil well location; or by taking two periods of rest in a sleeper berth, or other sleeping accommodation at a natural gas or oil well location, providing:

(A) Neither rest period is shorter than two hours;

(B) The driving time in the period immediately before and after each rest period, when added together, does not exceed 12 hours;

(C) The driver does not drive after the 16th hour after coming on duty following ten hours off duty, where the 16th hour is calculated:

(i) By excluding any sleeper berth or other sleeping accommodation period of at least two hours which, when added to a subsequent sleeper berth or other sleeping accommodation period, totals at least ten hours, and

(ii) By including all on-duty time, all off-duty time not spent in the sleeper berth or other sleeping accommodations, all such periods of less than two hours, and any period not described in paragraph (g)(2)(A) of this section; and

(D) The driver may not return to driving subject to the normal limits under Section 1212.5 without taking at least ten consecutive hours off duty, at least ten consecutive hours in the sleeper berth or other sleeping accommodations, or a combination of at least ten consecutive hours off duty, sleeper-berth time, or time in other sleeping accommodations.

(4) Passenger-carrying commercial motor vehicles. A bus driver who is driving a bus that is equipped with a sleeper berth, as defined in Section 1265, may accumulate the equivalent of eight consecutive hours of off-duty time by taking a combination of at least eight consecutive hours off-duty and sleeper berth time; or by taking two periods of rest in the sleeper berth, providing:

(A) Neither rest period is shorter than two hours;

(B) The driving time in the period immediately before and after each rest period, when added together, does not exceed ten hours;

(C) The on-duty time in the period immediately before and after each rest period, when added together, does not include any driving time after the 15th hour; and

(D) The driver may not return to driving subject to the normal limits under Section 1212.5 without taking at least eight consecutive hours off duty, at least eight consecutive hours in the sleeper berth, or a combination of at least eight consecutive hours off duty and sleeper berth time.

(h) Travel time. When a driver at the direction of the motor carrier is traveling, but not driving or assuming any other responsibility to the carrier, such time shall be counted as on-duty time unless the driver is afforded at least eight consecutive hours off duty for bus drivers and ten consecutive hours off duty for truck drivers, when arriving at destination, in which case the driver shall be considered off duty for the entire period.

(i) Utility service vehicles. An intrastate driver employed by an electrical corporation, as defined in Section 218 of the Public Utilities Code, a gas corporation, as defined in Section 222 of that code, a telephone corporation, as defined in Section 234 of that code, a water corporation, as defined in Section 241 of that code, or a public water district, as defined in Section 20200 of the Water Code:

(1) May be permitted or required to drive more than the number of hours specified in Section 1212.5 while operating a public utility or public water district vehicle during the emergency restoration of service and related operations.

(2) Upon termination of the emergency and release of a driver from duty, the total on-duty hours accumulated by the driver during the most recent eight consecutive days shall be considered reset to zero upon the driver's completion of an off-duty period of 24 or more consecutive hours.

(j) Fire fighters. For drivers of vehicles owned and operated by any forestry or fire department of any public agency or fire department organized as provided in the Health and Safety Code:

(1) Section 1212.5 does not apply while involved in emergency and related operations.

(2) Upon termination of the emergency and release of a driver from duty, the total on-duty hours accumulated by the driver during the most recent eight consecutive days shall be considered reset to zero upon the driver's completion of an off-duty period of 24 or more consecutive hours.

(k) Farm products. (1) A driver when transporting farm products from the field to the first point of processing or packing, shall not drive for any period after having been on duty 16 hours or more following eight consecutive hours off duty and shall not drive for any period after having been on duty for 112 hours in any consecutive eight-day period, except that a driver transporting special situation farm products from the field to the first point of processing or packing, or transporting livestock from pasture to pasture, may be permitted, during one period of not more than 28 consecutive days or a combination of two periods totaling not more than 28 days in a calendar year, to drive for not more than 12 hours during any workday of not more than 16 hours. A driver who thereby exceeds the driving time limits specified in Section 1212.5(b)(2) shall maintain a driver's record of duty status, and shall keep a duplicate copy in his or her possession when driving a vehicle subject to this chapter. These records shall be presented immediately upon request by an authorized employee of the department, or any police officer or deputy sheriff.

(2) Upon the request of the Director of Food and Agriculture, the commissioner may, for good cause, temporarily waive the maximum on-duty

time limits applicable to any eight-day period when an emergency exists due to inclement weather, natural disaster, or an adverse economic condition that threatens to disrupt the orderly movement of farm products during harvest for the duration of the emergency. For purposes of this paragraph, an emergency does not include a strike or labor dispute.

(3) For purposes of this subdivision, the following terms have the following meanings:

(A) "Farm Products" means every agricultural, horticultural, viticultural, or vegetable product of the soil, honey and beeswax, oilseeds, poultry, livestock, milk, or timber.

(B) "First point of processing or packing" means a location where farm products are dried, canned, extracted, fermented, distilled, frozen, ginned, eviscerated, pasteurized, packed, packaged, bottled, conditioned, or otherwise manufactured, processed, or preserved for distribution in wholesale or resale markets.

(C) "Special situation farm products" means fruit, tomatoes, sugar beets, grains, wine grapes, grape concentrate, cotton, or nuts.

(I) Law Enforcement. Sections 1212.5 and 1213 do not apply to intrastate drivers employed by a law enforcement agency during an emergency or when restoring the public peace.

(m) Construction Materials and Equipment. In the instance of a driver of a vehicle who is used primarily in the transportation of construction materials and equipment, the total on-duty hours accumulated by the driver during the most recent eight consecutive days shall be considered reset to zero upon the driver's completion of an off-duty period of 24 or more consecutive hours.

(1) Transportation of "construction materials and equipment" means the transportation of construction and pavement materials, construction equipment, and construction maintenance vehicles, by a driver to or from an active construction site (a construction site between mobilization of equipment and materials to the site to the final completion of the construction project), within a 50-mile radius of the normal work reporting location of the driver.

(2) This paragraph does not apply to the transportation of materials found by the Secretary of the United States Department of Transportation to be hazardous under Title 49, United States Code, Section 5103, in an amount requiring placarding under regulations issued in order to carry out that section.

(n) Limited Applicability. The exceptions provided in subsections (i), (j), and (k), are not available to the driver of a vehicle transporting hazardous substances or hazardous waste, as those terms are defined in Section 171.8 of Title 49, Code of Federal Regulations, as those regulations exist or are hereafter amended.

NOTE: Authority cited: Sections 31401, 34501, 34501.2, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 545, 31401, 34501, 34501.2, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Change without regulatory effect repealing section and adopting new section filed 2-4-93 pursuant to section 100, title 1, California Code of Regulations (Register 93, No. 6). For prior history, see Register 92, No. 49.
2. Editorial correction of printing error in section heading (Register 93, No. 12).
3. Editorial correction restoring inadvertently omitted article heading (Register 93, No. 16).
4. Change without regulatory effect amending subsection (i) filed 5-28-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 22).
5. Change without regulatory effect amending subsection (a) and adopting new subsection (I) filed 9-28-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 40).
6. Change without regulatory effect amending subsection (i) and adding new NOTE filed 11-29-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 48).
7. Amendment filed 10-4-99; operative 10-4-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 41).
8. Amendment filed 10-12-2007; operative 11-11-2007 (Register 2007, No. 41).

§ 1212.5. Maximum Driving and On-Duty Time.

(a) Maximum driving time. Except as provided in Sections 1212(b)(1), 1212(f), 1212(i), 1212(j), 1212(k), and 1212(l), no motor

carrier shall permit or require any driver used by it to drive nor shall any such driver drive:

(1) Intrastate bus drivers and drivers of tank vehicles with a capacity of more than 500 gallons transporting flammable liquid:

(A) More than ten hours following eight consecutive hours off duty for bus drivers and ten consecutive hours off duty for truck drivers; or

(B) For any period after having been on duty 15 hours following eight consecutive hours off duty for bus drivers and after the end of the 16th hour after coming on duty following ten consecutive hours off duty for truck drivers.

(2) Intrastate Truck Drivers:

(A) More than 12 cumulative hours following ten consecutive hours off duty; or

(B) For any period after the end of the 16th hour after coming on duty following ten consecutive hours off duty.

(3) School Bus, School Pupil Activity Bus, Youth Bus and Farm Labor Vehicle Drivers:

(A) More than ten hours within a work period; or

(B) After the end of the 16th hour after coming on duty following eight consecutive hours off duty.

(4) No motor carrier shall permit or require a driver, regardless of the number of motor carriers using the driver's services, to drive nor shall any driver drive, except as provided in Section 1212(k), for any period after having been on duty for 80 hours in any consecutive eight days.

(5) For truck drivers listed in subsections (1) and (2), any period of eight consecutive days may end with the beginning of any off-duty period of 34 or more consecutive hours.

(b) Interstate driver. Motor carriers and drivers engaged in interstate commerce and the driver of a vehicle transporting hazardous substances or hazardous waste, as those terms are defined in Section 171.8 of Title 49, Code of Federal Regulations, shall comply with the federal driver hours-of-service regulations contained in Title 49, Code of Federal Regulations, Part 395, as those regulations now exist or are hereafter amended.

(c) Referenced regulations. Copies of Title 49, Code of Federal Regulations, can be obtained from:

5. Amendment of subsection (b) filed 9-6-95; operative 10-6-95 (Register 95, No. 36).
6. Amendment filed 10-4-99; operative 10-4-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 41).
7. Amendment of subsections (a), (b) and (b)(2) and repealer of subsection (c) filed 1-18-2000; operative 2-17-2000 (Register 2000, No. 3).
8. Amendment filed 10-12-2007; operative 11-11-2007 (Register 2007, No. 41).

§ 1213. Driver's Record of Duty Status.

(a) Carrier responsibility. Except as provided in subsection (b), every motor carrier shall require every driver used by the motor carrier to record his/her duty status for each 24-hour period using the methods prescribed in either paragraphs (a)(1) or (2) of this section.

(1) Every driver shall record his/her duty status, in duplicate, for each 24-hour period. The duty status time shall be recorded on a specified grid, as shown in paragraph (h) of this section. The grid and the requirements of paragraph (e) of this section may be combined with any compa-

ny forms. The previously approved format of the Daily Log, Form MCS-59 or the Multiday Log, MCS-139 and 139A, which meets the requirements of this section, may continue to be used.

(2) Every driver shall record his/her duty status by using an automatic on-board recording device that meets the requirements of Section 1213.2. The requirements of Section 1213 shall not apply, except paragraphs (f) and (l).

(3) The record shall be presented for inspection immediately upon request by any authorized employee of the department, or any regularly employed and salaried police officer or deputy sheriff.

(4) Interstate drivers, subject to and in compliance with the record requirements of Sections 395.8 or 395.15, 49 CFR, shall be deemed in compliance with this section.

(b) Exceptions. A driver's record of duty status is not required for drivers of the following vehicles, provided documentation of their total days worked and time of reporting on and off duty each day, is maintained by the motor carrier for six months:

(1) Vehicles owned and operated by any forestry or fire department of any public agency or fire department organized as provided in the Health and Safety Code.

(2) Vehicles, owned and operated by local law enforcement agencies, which are engaged in the transportation of inmates or prisoners within the county where the agency is located.

(c) Duty status. The duty status shall be recorded as follows:

(1) "Off duty" or "OFF."

(2) "Sleeper berth" or "SB" (only if a sleeper berth used).

(3) "Driving" or "D."

(4) "On-duty not driving" or "ON."

(d) Location of change of duty status. For each change of duty status (e.g., the place of reporting for work, starting to drive, on-duty not driving and where released from work), the name of the city, town, or village, with State abbreviation, shall be recorded.

NOTE: If a change of duty status occurs at a location other than a city, town, or village, show one of the following: (1) The highway number and nearest milepost followed by the name of the nearest city, town, or village and State abbreviation, (2) the highway number and the name of the service plaza followed by the name of the nearest city, town, or village and State abbreviation, or (3) the highway numbers of the nearest two intersecting roadways followed by the name of the nearest city, town, or village and State abbreviation.

(e) Required information. The following information must be included on the form in addition to the grid:

(1) Date;

(2) Total miles driving today;

(3) Bus, truck or tractor, and trailer number;

(4) Name of carrier;

(5) Driver's signature/certification;

(6) 24-hour period starting time (e.g., midnight, 9:00 a.m., noon, 3:00 p.m.);

(7) Main office address;

(8) Remarks;

(9) Name of co-driver;

(10) Total hours (far right edge of grid);

(11) Shipping document number(s), or name of shipper and commodity;

(f) Incomplete or false records. No motor carrier shall allow or require, and no driver shall prepare or submit, a record of duty status which is not true and accurate. Failure to complete the record of duty activities of this

section or Section 1213.2, failure to preserve a record of such duty activities, or making of false reports in connection with such duty activities shall make the driver and/or the carrier liable to prosecution.

(g) Driver responsibility. The driver's activities shall be recorded in accordance with the following provisions:

(1) Entries to be current. Drivers shall keep their record of duty status current to the time shown for the last change of duty status.

(2) Entries made by driver only. All entries relating to driver's duty status must be legible and in the driver's own handwriting.

(3) Date. The month, day and year for the beginning of each 24-hour period shall be shown on the form containing the driver's duty status record.

(4) Total mileage driven. Total mileage driven during the 24-hour period shall be recorded on the form containing the driver's duty status record.

(5) Vehicle identification. The carrier's vehicle number or State and license number of each bus, truck, truck tractor and trailer operated during that 24-hour period shall be shown on the form containing the driver's duty status record.

(6) Name of carrier. The name(s) of the motor carrier(s) for which work is performed shall be shown on the form containing the driver's duty status record. When work is performed for more than one motor carrier during the same 24-hour period, the beginning and finishing time, shown a.m. or p.m., worked for each carrier shall be shown after each carrier's name. Drivers of leased vehicles shall show the name of the motor carrier performing the transportation.

(7) Signature/certification. The driver shall certify to the correctness of all entries by signing the form containing the driver's duty status record with his/her legal name or name of record. The driver's signature certifies that all entries required by this section made by the driver are true and correct.

(8) Time base to be used. (A) The driver's duty status record shall be prepared, maintained, and submitted using the time standard in effect at the driver's home terminal, for a 24-hour period beginning with the time specified by the motor carrier for that driver's home terminal.

(B) The term "seven or eight consecutive days" means the seven or eight consecutive 24-hour periods as designated by the carrier for the driver's home terminal.

(C) The 24-hour period starting time must be identified on the driver's duty status record. One-hour increments must appear on the graph, be identified, and preprinted. The words "Midnight" and "Noon" must appear above or beside the appropriate one-hour increment.

(9) Main office address. The motor carrier's main office address shall be shown on the form containing the driver's duty status record.

(10) Recording days off duty. Two or more consecutive 24-hour periods off duty may be recorded on one duty status record.

(11) Total hours. The total hours in each duty status: off duty other than in a sleeper berth; off duty in a sleeper berth; driving, and on duty not driving, shall be entered to the right of the grid. The total of such entries shall equal 24 hours.

(12) Shipping document number(s), or name of shipper and commodity shall be shown on the driver's record of duty status.

(h) Graph grid. The following graph grid (Figure 2) must be incorporated into a motor carrier recordkeeping system which must also contain the information required in paragraph (e) of this section.

Figure 2. Graph Grid (Horizontally and Vertically)

(i) Graph grid preparation. The graph grid may be used horizontally or vertically and shall be completed as follows:

(1) Off duty. Except for time spent resting in a sleeper berth, a continuous line shall be drawn between the appropriate time markers to record the period(s) of time when the driver is not on duty, is not required to be in readiness to work, or is not under any responsibility for performing work.

(2) Sleeper berth. A continuous line shall be drawn between the appropriate time markers to record the period(s) of time off duty resting in a sleeper berth, as defined in Section 1201. (If a non-sleeper berth operation, sleeper berth need not be shown on the grid.)

(3) Driving. A continuous line shall be drawn between the appropriate time markers to record the period(s) of time on duty driving a motor vehicle, as "drive or operate" is defined in Section 1201.

(4) On duty not driving. A continuous line shall be drawn between the appropriate time markers to record the period(s) of time on duty not driving as specified in Section 1201(q).

(5) Location—remarks. The name of the city, town, or village, with State abbreviations where each change of duty status occurs shall be recorded.

NOTE: If a change of duty status occurs at a location other than a city, town, or village, show one of the following: (1) The highway number and nearest milepost followed by the name of the nearest city, town, or village and State abbreviation, (2) the highway number and the name of the service plaza followed by the name of the nearest city, town, or village and State abbreviation, or (3) the highway numbers of the nearest two intersecting roadways followed by the name of the nearest city, town, or village and State abbreviation.

(j) Filing driver's record of duty status. Each day, the driver shall submit or forward the original driver's record of duty status to the regular employing motor carrier following the completion of the form. Drivers who do not return to the home terminal each day may submit their original records of duty status upon their first return to the home terminal, provided the interval does not exceed 13 days.

(k) Drivers used by more than one motor carrier. (1) When the services of a driver are used by more than one motor carrier during any 24-hour period in effect at the driver's home terminal, the driver shall submit a copy of the record of duty status to each motor carrier. The record shall include:

(A) All duty time for the entire 24-hour period;

(B) The name of each motor carrier served by the driver during that period; and

(C) The beginning and finishing time, including a.m. or p.m., worked for each carrier.

(2) Motor carriers, when using a driver for the first time or intermittently, shall obtain from the driver a signed statement giving the total time on duty during the immediately preceding seven days and the time at which the driver was last relieved from duty prior to beginning work for the motor carriers.

(l) Retention of driver's record of duty status. The driver shall retain the duplicate copy of each record of duty status for the current day and the previous seven consecutive days which shall be in his/her possession and available for inspection while on duty. The records shall be presented for inspection immediately upon request by any authorized employee of the department, or any regularly employed and salaried police officer or deputy sheriff.

NOTE: Driver's Record of Duty Status. The graph grid, when incorporated as part of any form used by a motor carrier, must be of sufficient size to be legible.

The following executed specimen grid (Figure 3) illustrates how a driver's duty status should be recorded for a trip from Richmond, Virginia, to Newark, New Jersey. The grid reflects the midnight to midnight 24 hour period. The driver in this instance reported for duty at the motor carrier's terminal. The driver reported for work at 6 a.m., helped load, checked with dispatch, made a pretrip inspection, and performed other duties until 7:30 a.m. when the driver began driving. At 9 a.m. the driver had a minor accident in Fredericksburg, Virginia, and spent one half hour handling details with the local police. The driver arrived at the company's Baltimore, Maryland, terminal at noon and went to lunch while minor repairs were made to the tractor. At 1 p.m. the driver resumed the trip and made a delivery in Philadelphia, Pennsylvania, between 3 p.m. and 3:30 p.m. at which time the driver started driving again. Upon arrival at Cherry Hill, New Jersey, at 4 p.m., the driver entered the sleeper berth for a rest break until 5:45 p.m. at which time the driver resumed driving again. At 7 p.m. the driver arrived at the company's terminal in Newark, New Jersey. Between 7 p.m. and 8 p.m. the driver prepared the required paperwork including completing the driver's record of duty status, vehicle condition report, insurance report for the Fredericksburg, Virginia accident, checked for the next day's dispatch, etc. At 8 p.m., the driver went off duty.

NOTE: Authority cited: Sections 31401, 34501, 34501.2, 34501.5, and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 545, 31401, 34501, 34501.2, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Change without regulatory effect repealing section and adopting new section filed 2-4-93 pursuant to section 100, title 1, California Code of Regulations (Register 93, No. 6).

2. Editorial correction of printing error (Register 93, No. 12).
3. Change without regulatory effect amending subsection (a)(3) and figure 2 filed 8-7-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 32).
4. Repealer of subsection (g)(11), subsection renumbering and amendment of NOTE filed 9-6-95; operative 10-6-95 (Register 95, No. 36).
5. Amendment filed 10-4-99; operative 10-4-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 41).
6. New subsection (a)(4) and amendment of subsections (f), (j) and (l) filed 10-12-2007; operative 11-11-2007 (Register 2007, No. 41).

§ 1213.1. Placing Drivers Out-of-Service.

(a) Driver out-of-service. Members of the department may place a driver out of service, and shall note in the driver's record of duty status that an out-of-service order was given, at the time and place of examination upon finding that the driver:

(1) Has driven or been on duty longer than the periods specified in Section 1212.5, or

(2) Has failed to maintain a driver's record as required by Section 1213 and is unable to establish eligibility to drive pursuant to Section 1212.5.

(b) Eligibility to resume driving. A driver placed out of service pursuant to subdivision (a) shall not operate a motor vehicle until he or she can establish eligibility to drive pursuant to Section 1212.5.

(c) Alcohol zero tolerance. No person may operate a commercial motor vehicle, as defined in Vehicle Code Section 15210, when that person's blood alcohol content is found to be 0.01%, by weight, or greater.

(d) Possession of alcoholic beverages. No person shall be on-duty or operate a commercial motor vehicle while the driver possesses wine of not less than one-half of one per centum of alcohol by volume, beer as defined in 26 United States Code 5052(a), of the Internal Revenue Code of 1954, or distilled spirits as defined in 5002(a)(8) of such code. However, this does not apply to possession of wine, beer, or distilled spirits which are manifested and transported as part of a shipment; or possessed or used by bus passengers.

(1) This does not prohibit an owner-operator using his/her own vehicle in an off-duty status, or a driver using a company truck or tractor in an off-duty status from carrying any bottle, can, or other receptacle containing any alcoholic beverage unless that container has been opened, or a seal broken, or the contents of which have been partially removed, in a commercial motor vehicle, as defined in Section 15210 of the Vehicle Code, when transported to locations such as a motel, restaurant, or residence.

(e) Alcohol-related out-of-service. Members of this Department shall place a driver out of service, and note in the driver's record of duty status that such an order was given, at the time and place that the driver was found to be in violation of Section 1213.1(c) or (d).

(f) Minimum out-of-service period. A driver placed out of service pursuant to subdivision (c) or (d) shall not operate a commercial motor vehicle for a period of 24 hours.

NOTE: Authority cited: Sections 15210, 31401, 34501 and 34501.15, Vehicle Code. Reference: Sections 15210, 31401, 34501, 34501.15 and 34520, Vehicle Code.

HISTORY

1. New section filed 9-30-80; designated effective 11-1-80 (Register 80, No. 40).
2. Amendment of subsection (a)(2) filed 8-31-83; effective thirtieth day thereafter (Register 83, No. 36).
3. Change without regulatory effect amending subsections (a) and (b) and NOTE and adopting subsections (c)-(f) filed 8-13-91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 4).
4. Change without regulatory effect amending subsections (a)(2) and (b) filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).
5. Change without regulatory effect amending subsection (e) filed 8-7-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 32).
6. Amendment filed 10-4-99; operative 10-4-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 41).
7. New subsections (d) and (d)(1), subsection relettering, amendment of newly designated subsections (e) and (f) and amendment of NOTE filed 7-10-2002; operative 8-9-2002 (Register 2002, No. 28).

§ 1213.2. Automatic On-Board Recording Device.

(a) Automatic On-Board Recording Device. For the purposes of this section, an automatic on-board recording device is an electric, electron-

ic, electromechanical, or mechanical device capable of recording driver's duty status information accurately and automatically.

(b) Minimum Information Requirements. The device must be installed to record specific operations of the vehicle in which it is installed. As a minimum, the device must record engine use, road speed, miles driven, the date, and time of day.

(c) Display Requirements. Automatic on-board recording devices shall produce, upon demand, an electronic display or printout of a driver's hours of service showing the time, sequence, and location of duty status changes including the driver's starting time at the beginning of each day.

(d) Handwritten Records. Upon the request of any authorized employee of the department, or any regularly employed and salaried police officer or deputy sheriff, drivers using an automatic on-board recording device shall produce a handwritten driver's record of duty status based upon the information stored in the device, relating to the current day and the preceding seven days.

(e) Support Systems. Support systems used in conjunction with on-board recorders at the driver's terminal or the motor carrier's principal place of business must be capable of providing authorized employees of the department, or any regularly employed and salaried police officer or deputy sheriff, with an individual driver's hours of service records. The support systems must also provide information concerning on-board system failures and identification of edited data.

(f) Previous Seven Days. Each driver shall have in his/her possession records of duty status for the previous seven consecutive days. These records shall consist of information stored in and retrievable from the automatic on-board recording device, handwritten records, computer generated records, or any combination thereof.

(g) Driver's Certification. All hard (paper) copies of the driver's record of duty status shall be signed by the driver. The driver's signature certifies that the information contained thereon is true and correct.

(h) Duty Status. The duty status and additional information required in section 1213(c) shall be recorded using the wording required by section 1213(c), an abbreviated form of the word, or an identifiable code or character.

(i) Required Documents. Each driver shall have in his/her possession and make available upon request of any authorized employee of the department, or any regularly employed and salaried police officer or deputy sheriff, instructions describing the data that may be retrieved, a list of function codes, geographic location codes, and blank driver's record of duty status graph-grids.

(j) Inoperative Device. When the automatic on-board recording device is inoperative or the driver is unable to retrieve the required information from the device, each driver shall reconstruct the records of duty status for the current and the prior seven days and continue to prepare a handwritten record of duty status until the automatic on-board recording device is fully operational.

(k) Multiple Drivers. When more than one driver is using the automatic on-board recording device, the device must be capable of recording separately each driver's duty status and shall record the sequential changes in duty status and times when the changes occurred for each driver.

(l) Display Capabilities. Automatic on-board recording devices with electronic displays shall have the capability of displaying the following:

- (1) Driver's total hours of driving.
- (2) Total hours on duty today.
- (3) Total miles driven today.

(4) The sequential changes in duty status, and the times and locations where changes occurred for each driver.

(m) Malfunction Warning. The automatic on-board recording device shall be capable of warning the driver visually or audibly that the device has ceased to function. Automatic on-board recording devices installed and operational as of October 31, 1988, and authorized by a Departmental exemption or Federal Highway Administration (FHWA) waiver to be used in lieu of a handwritten record of duty status are exempt from this requirement.

(n) Data Reproduction. When data is reproduced in printed form, the automatic on-board recording device/system shall identify sensor failure and edited data. Automatic on-board recording devices installed and operational as of October 31, 1988, and authorized by a Departmental exemption or FHWA waiver to be used in lieu of the handwritten record of duty status are exempt from this requirement.

(o) Update. The automatic on-board recording device shall permit duty status to be updated only when the vehicle is at rest.

(p) Performance Certification. Carriers shall obtain a certificate from the manufacturer certifying the design of the automatic on-board recorder has been sufficiently tested under the condition in which it will be used to meet the requirements of this section.

(q) Tamper-proof. The automatic on-board recording device and associated support systems must be tamper-proof and not permit altering of the information collected concerning the driver's hours of service.

(r) Device Maintenance. Carriers shall ensure that the automatic on-board recording device and associated support system are properly maintained and recalibrated in accordance with the manufacturer's specifications.

(s) Training. Carriers shall ensure that drivers are trained regarding the proper operation of the device.

NOTE: Authority cited: Sections 31401 and 34501, Vehicle Code. Reference: Sections 31401 and 34501 Vehicle Code.

HISTORY

1. New section filed 5-14-90; operative 6-13-90 (Register 90, No. 23).
2. Change without regulatory effect amending subsection (m) filed 10-7-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 41).
3. Change without regulatory effect amending subsections (h), (q) and (r) filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).
4. Change without regulatory effect amending subsection (l) filed 8-7-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 32).
5. Amendment filed 10-24-2001; operative 11-23-2001 (Register 2001, No. 43).

§ 1214. Driver Fatigue.

No driver shall operate a motor vehicle, and a motor carrier shall not require or permit a driver to operate a motor vehicle, while the driver's ability or alertness is so impaired, or so likely to become impaired, through fatigue, illness, or any other cause, as to make it unsafe for him/her to begin or continue to operate the motor vehicle. However, in a case of grave emergency where the hazard to occupants of the motor vehicle or other users of the highway would be increased by compliance with this section, the driver may continue to operate the motor vehicle to the nearest place at which that hazard is removed.

NOTE: Authority cited: Sections 31401, 34500.1, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 545, 31401, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment of section heading, repealer and new section and new NOTE filed 10-30-2003; operative 11-29-2003 (Register 2003, No. 44).

§ 1215. Vehicle Condition.

(a) General. It shall be unlawful for the driver to drive a vehicle that is not in safe operating condition or is not equipped as required by all provisions of law and this chapter.

(b) Daily Inspection. Pursuant to Sections 1202.1 and 1202.2, all drivers shall perform vehicle inspections and submit written reports in accordance with the requirements of Title 49, Code of Federal Regulations, Sections 396.11 and 396.13, as follows:

(1) Before driving a motor vehicle, the driver shall:

(A) Inspect each vehicle daily to ascertain that it is in safe operating condition and equipped as required by all provisions of law, and all equipment is in good working order;

(B) Review the last vehicle inspection report;

(C) Sign the report, only if defects or deficiencies were noted by the driver who prepared the report, to acknowledge that the driver has reviewed it and that there is a certification pursuant to subsection (f) that the required repairs have been performed. The signature requirement does not apply to listed defects on a towed unit which is no longer part of the vehicle combination.

(2) Subsections (B) and (C) do not apply to school bus drivers or publicly owned and operated transit system drivers.

(c) Daily Report. Every motor carrier shall require its drivers to report, and every driver shall prepare a report in writing at the completion of each day's work on each vehicle operated. School bus drivers' reports shall cover at least the items listed in subdivision (d), and all other drivers' reports shall cover at least the following parts and accessories:

(1) Service brakes including trailer brake connections

(2) Parking (hand) brake

(3) Steering mechanism

(4) Lighting devices and reflectors

(5) Tires

(6) Horn

(7) Windshield wipers

(8) Rear vision mirrors

(9) Coupling devices

(10) Wheels and rims

(11) Emergency equipment

(d) School bus drivers. For school bus drivers, the inspection shall include, but is not limited to:

(1) All gauges, indicators, and warning devices

(2) Horns

(3) Driver's seat and seat belts

(4) All doors, door emergency releases, and windows

(5) All seats, handrails, and modesty panels

(6) Interior and exterior lighting systems

(7) All heating, cooling, and ventilating systems

(8) All glass and mirrors, including adjustment of mirrors

(9) Windshield wipers and washers

(10) All required emergency equipment

(11) All tires, wheels, and lugnuts

(12) Brake system

(A) Air compressor governor cut in and cut out pressures

(B) Static pressure for air loss

(C) Applied brake pressure loss

(D) Low air pressure warning devices

(E) Emergency stopping systems (draining reservoirs in dual air systems is not required)

(F) Parking brake

(G) Antiskid device (if equipped)

(H) Vacuum gauge, ensuring it reads not less than 15 inches

(I) Low vacuum warning devices

(J) Brake pedal for brake adjustment

(e) Report Content. The report shall identify the motor vehicle and all towed vehicles and list any defect or deficiency discovered by or reported to the driver which would affect safety of operation of the motor vehicle or combination or result in its mechanical breakdown. If no defect or deficiency is discovered by or reported to the driver, the report(s) shall so indicate. In all instances, the driver shall sign the vehicle inspection report. On two-driver operations, only one driver needs to sign the report, provided both drivers agree as to the defects or deficiencies. If a driver operates more than one vehicle during the day, a report shall be prepared for each vehicle operated.

(f) Corrective Action. Prior to operating a motor vehicle, motor carriers or their authorized agent(s) shall effect repair of any item listed on the motor vehicle inspection report(s) that would be likely to affect the safety of operation of the motor vehicle or any towed vehicles.

(1) Motor carriers or their authorized agents shall certify on the report(s) which lists any defects or deficiencies, that the defects or deficiencies have been corrected or that correction is unnecessary before the vehicle is again dispatched.

(2) Subsection (1) does not apply to school bus or publicly owned and operated transit system motor carriers.

(g) Repairs. Unless the driver of a school bus or SPAB is the mechanic charged with the care and maintenance of the bus, the driver shall not make any repairs of the bus or its equipment except necessary emergency repairs on the road.

(h) Exception. Subsection (c) shall not apply to a motor carrier operating only one motor vehicle, provided the motor vehicle is a motor truck or truck tractor, and the motor carrier is the owner and sole driver of the motor vehicle. A motor carrier, otherwise excepted from the reporting requirement by this subdivision, who tows trailer(s) not owned by or leased to that motor carrier, shall submit documented daily report(s) for the trailers as required by subsection (b). Such reports shall be submitted to the person(s) from whom the trailers were obtained.

(i) Private motor carriers of passengers. The exemption provided to private motor carriers of passengers in 49 CFR Section 396.11(d), shall not apply to intrastate private motor carriers of passengers operating any bus, as defined in Vehicle Code Section 233.

NOTE: Authority cited: Sections 31401, 34501 and 34501.5, Vehicle Code. Reference: Sections 31401, 34501 and 34501.5, Vehicle Code.

HISTORY

1. Amendment of subsection (a) filed 4-2-81; effective thirtieth day thereafter (Register 81, No. 14).
2. Amendment of subsections (a)(12)(E) and (b) filed 5-17-84; effective thirtieth day thereafter (Register 84, No. 20).
3. Amendment of subsection (a) filed 8-16-88; operative 9-15-88 (Register 88, No. 34).
4. New subsection (d) filed 1-9-95; operative 2-8-95 (Register 95, No. 2).
5. Change without regulatory effect amending first paragraph filed 8-7-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 32).
6. Amendment filed 12-11-97; operative 1-10-98 (Register 97, No. 50).
7. Editorial correction of subsection (c) (Register 98, No. 4).
8. Amendment of subsections (b)(1)(B) and (d), repealer of subsection (f)(2), subsection renumbering, and amendment of newly designated subsection (f)(2) and subsections (h) and (i) filed 7-26-99; operative 8-25-99 (Register 99, No. 31).

§ 1216. Transportation of Property.

The following requirements govern the transportation of hazardous materials and other property on buses and farm labor vehicles:

(a) Hazardous Materials. Motor carriers and drivers shall not transport, or knowingly permit passengers to carry, any hazardous material as defined in Vehicle Code Section 353. These restrictions shall not apply to:

(1) Oxygen medically prescribed for, and in the possession of, a passenger and in a container designed for personal use.

(2) Personal-use articles in the immediate possession of a driver or passenger.

(3) Hazardous materials transported in a bus (except a school bus, SPAB, or youth bus) subject to federal jurisdiction and in compliance with the applicable provisions of 49 CFR Part 177.

(b) Fuel. Fuel shall not be transported except in the vehicle's regular fuel tanks.

(c) General Property. Drivers and motor carriers shall not permit any greater quantity of freight, express, or baggage in vehicles than can be safely and conveniently carried without causing discomfort or unreasonable annoyance to passengers. In no event shall aisles, doors, steps, or emergency exits be blocked.

(d) Animals. A driver or motor carrier may refuse to transport dogs or other animals except as provided in Civil Code Section 54.2. When transported upon a bus engaged in public passenger transportation, all other animals shall be muzzled or securely crated to eliminate the possibility of injury to passengers. No animals except those specified in Civil Code Section 54.2 shall be transported in a school bus, SPAB, or youth bus. In such cases, the driver may determine whether the animal should be muzzled.

(e) Tools in Farm Labor Vehicles. All cutting tools or tools with sharp edges carried in the passenger compartment of a farm labor vehicle shall be placed in covered containers. All other tools, equipment, or materials carried in the passenger compartment shall be secured to the body of the vehicle.

(f) Wheelchairs. Wheelchairs transported on buses, except school buses, shall meet the following requirements:

(1) Brakes. The wheelchair shall have brakes or other effective mechanical means of holding it stationary during raising and lowering of a wheelchair platform.

(2) Batteries. Batteries used to propel wheelchairs shall be spill resistant or in a spill resistant container and shall be securely attached to the wheelchair.

(3) Flammable Fuel. The wheelchair shall not use flammable fuel.

NOTE: Authority cited: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code. Reference: Sections 336, 353, 31401, 34501 and 34501.5, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. New subsection (f) filed 7-13-79; effective thirtieth day thereafter (Register 79, No. 28).
2. Amendment of subsection (d) filed 12-28-81; effective thirtieth day thereafter (Register 82, No. 1).
3. Amendment filed 6-9-82; effective thirtieth day thereafter (Register 82, No. 24).
4. Amendment of subsection (d) filed 10-28-82; effective thirtieth day thereafter (Register 82, No. 44).
5. Amendment of subsections (a)(1)-(3) and amendment of NOTE filed 1-24-2000; operative 2-23-2000 (Register 2000, No. 4).

§ 1217. Transportation of Passengers.

No driver shall drive a vehicle transporting passengers in violation of the following provisions:

(a) Seating Capacity. Except as provided in subsection (e), the number of passengers (excluding infants in arms) shall not exceed the number of safe and adequate seating spaces, or for school buses, school pupil activity buses, youth buses, and farm labor vehicles, the number of passengers specified by the seating capacity rating set forth in the departmental Vehicle Inspection Approval Certificate.

(b) Weight. No more passengers shall be transported than the number whose weight, in addition to the weight of any property transported, can be carried without exceeding the manufacturer's maximum gross vehicle weight rating or the combined maximum rating of the tires supporting each axle.

(c) Step Wells. Passengers shall not be permitted in the front step well of any bus while the vehicle is in motion.

(d) Seat Beside Driver. No more than two pupils shall be allowed to occupy the seating space beside the driver of a Type 2 school bus.

(e) Standing Passengers. A vehicle shall not be put in motion until all passengers are seated, and all passengers must remain seated while the vehicle is in motion. Standing passengers are permitted only on a bus (except a school bus, SPAB, or youth bus) operated in regularly scheduled passenger stage service or urban and suburban service by a common carrier or publicly-owned transit system, and equipped with grab handles or other means of support for standing passengers, and constructed so that standing room in the aisle is at least 74 in. high.

(f) Open Doors. While passengers are aboard, a vehicle shall not be put in motion until the doors are closed. The doors shall not be opened until the vehicle is stopped. The doors of a school bus shall be closed while the bus is in motion, whether or not there are passengers in the school bus.

(g) Emergency Exits. While a passenger is aboard, no bus shall be put in motion with any emergency exit locked or otherwise secured against being opened from the inside. While a passenger is aboard, no bus, equipped with emergency exits that are designed to be opened from the outside, shall be put in motion with such emergency exits locked or otherwise secured against being opened from either the outside or the inside. This paragraph shall not apply to buses operated by or under contract to law enforcement agencies while transporting persons in police custody.

(h) Interior Lighting. During darkness, the driver shall ensure that the interior lighting is sufficient for passengers to enter and exit safely and whenever otherwise deemed necessary.

(i) Ejection of Pupils. The driver of a school bus, youth bus, or SPAB shall not eject any school pupil unless the pupil is given into the custody of a parent or any person designated by the parent or school.

(j) Exemptions. The provisions of subsections (c) and (e) shall not apply to persons testing or training a driver, maintenance personnel, a sales

or manufacturers' representative, or an adult acting upon a request by a school bus or SPAB driver to supervise or assist a pupil.

NOTE: Authority and reference cited: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code; and Section 38047, Education Code.

HISTORY

1. New subsection (i) filed 4-3-80; designated effective 7-1-80 (Register 80, No. 14).
2. Amendment of subsection (i) filed 6-9-82; effective thirtieth day thereafter (Register 82, No. 24).
3. Amendment of subsections (a), (e) and (h) filed 10-28-82; effective thirtieth day thereafter (Register 82, No. 44).
4. New subsection (g) and subsection relettering filed 4-22-93; operative 5-24-93 (Register 93, No. 17).
5. Editorial correction of printing error in subsection (g) (Register 93, No. 22).
6. Amendment of subsection (f) and NOTE filed 4-15-98; operative 5-15-98 (Register 98, No. 16).

§ 1218. Fueling Restrictions.

When a vehicle is being refueled, the nozzle of the fuel hose shall be in contact with the intake of the fuel tank throughout the entire time of refueling. No driver or motor carrier shall permit a vehicle to be fueled while the engine is running, a radio on the vehicle is transmitting, the vehicle is close to any open flame or ignition source (including persons who are smoking), or passengers are aboard any bus except one fueled with diesel fuel in an open area or in a structure open on both the entrance and exit ends.

Article 4. Additional Requirements for School Bus, SPAB, and Youth Bus Drivers

§ 1219. School Bus Accidents.

(a) Reporting. Whenever any school bus accident occurs, the driver shall stop at the scene, immediately notify or cause to be notified the department, his or her employer, and the school district for which the bus may be operated under contract.

(b) Sending for Help. In the event of an accident or emergency, a driver shall not leave the immediate vicinity of the bus to seek aid unless no pupil aboard can be sent to summon help.

NOTE: Authority cited: Sections 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 546, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Vehicle Code.

HISTORY

1. Amendment of subsection (a) filed 4-9-79; designated effective 6-1-79 (Register 79, No. 15).
2. Amendment filed 8-27-82; effective thirtieth day thereafter (Register 82, No. 35).
3. Amendment of Article 4 heading filed 10-28-82; effective thirtieth day thereafter (Register 82, No. 44).
4. Amendment filed 5-29-87; operative 6-28-87 (Register 87, No. 23).

§ 1220. Discontinuance from Use.

When a bus is rendered unsafe for continued operation due to accident damage or a mechanical failure, the driver shall discontinue use of the bus and notify the motor carrier of these circumstances. The driver or motor carrier shall then make the necessary arrangements to have the pupils safely transported to their destinations.

§ 1221. Alcoholic Beverages.

Alcoholic beverages shall not be transported in a school bus, SPAB, or youth bus at any time.

NOTE: Authority cited: Sections 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment filed 10-28-82; effective thirtieth day thereafter (Register 82, No. 44).
2. Amendment filed 10-15-91; operative 11-14-91 (Register 92, No. 6).

§ 1222. Smoking.

When a pupil is aboard, smoking is prohibited in a school bus or SPAB.

§ 1223. Driver's Vision.

The driver shall not allow any person to occupy a position that will interfere with the driver's vision to the front or sides, or in the rear view mirrors.

§ 1224. Seat Belt Use.

The driver shall be properly secured to the driver's seat with the seat belt at all times while the bus is in motion.

NOTE: Authority cited: Sections 34501, 34501.5 and 34508, Vehicle Code; and Section 38047, Education Code. Reference: Sections 545, 546, 680, 34501, 34501.5 and 34508, Vehicle Code.

HISTORY

Article 5. Additional Requirements for School Bus Drivers

§ 1225. Headlamps.

The driver shall ensure the headlamps are lighted while the bus is in motion.

NOTE: Authority cited: Sections 34501, 34501.5 and 34508, Vehicle Code; and Section 38047, Education Code. Reference: Sections 545, 546, 680, 34501, 34501.5 and 34508, Vehicle Code.

HISTORY

1. Amendment of section and new NOTE filed 3-22-2001; operative 4-21-2001 (Register 2001, No. 12).

§ 1226. Leaving Driver's Compartment.

When a pupil is aboard, the driver shall not leave the driver's compartment without first stopping the engine, effectively setting the parking brake, placing the transmission in first or reverse gear or park position, and removing the ignition keys, which shall remain in the driver's possession. On vehicles with automatic transmissions which do not have a park position, the transmission shall be placed in neutral.

NOTE: Authority and reference cited: Section 34501.5, Vehicle Code.

HISTORY

1. Change without regulatory effect (Register 86, No. 48).
2. Change without regulatory effect amending section filed 9-24-91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 52).

§ 1227. School Bus Stops.

NOTE: Authority cited: Sections 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 22504, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment filed 4-27-83; effective thirtieth day thereafter (Register 83, No. 18).
2. Amendment of subsection (b) filed 1-20-89; operative 2-19-89 (Register 89, No. 5).
3. Change without regulatory effect repealing section filed 9-2-93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 36).

§ 1228. Railroad Crossing.

In addition to the provisions of Vehicle Code Section 22452, the driver shall stop the school bus parallel to and as close as practicable to the appropriate edge of the highway, fully open the entrance door on a Type 1 bus or open the window on a Type 2 bus, and then listen and look to ensure that the tracks are clear of an approaching train, and proceed only when the tracks are safe to cross and the door is closed.

NOTE: Authority and reference cited: Section 34501.5, Vehicle Code.

HISTORY

1. Amendment filed 4-3-80; designated effective 7-1-80 (Register 80, No. 14).

Article 6. Carrier Requirements

§ 1229. Driving Proficiency.

Motor carriers shall require each driver to demonstrate that the driver is capable of safely operating each different type of vehicle or vehicle combination (i.e., vehicles with different controls, gauges, of different size, or requiring different driving skills) before driving such vehicle(s) on a highway unsupervised. The driver's capability to operate the vehicle

shall include special equipment such as wheelchair lifts, ramps, or wheelchair tie downs. This Section shall not apply to a motor carrier who is the owner and sole driver of a vehicle or combination of vehicles.

NOTE: Authority cited: Sections 31401, 34501 and 34501.5, Vehicle Code. Reference: Sections 31401, 34501 and 34501.5, Vehicle Code.

HISTORY

1. Amendment filed 5-15-81; effective thirtieth day thereafter (Register 81, No. 20).
2. Amendment of section and NOTE filed 1-9-95; operative 2-8-95 (Register 95, No. 2).

§ 1230. Unlawful Operation.

No motor carrier shall knowingly require or permit the operation of any vehicle that is not in safe operating condition or not equipped and maintained as required by any law or this chapter; or knowingly require or permit any driver to drive in violation of any law or this chapter.

(a) **Out-of-Service Vehicles.** Authorized employees of the department may declare and mark any vehicle "out of service" in accordance with Section 1239, when its hazardous condition or loading appears likely to cause an accident, injury, or breakdown. A vehicle so marked shall not be operated, nor shall the out of service notice be removed, until the vehicle is safe to drive.

(b) **Damaged Vehicles.** A vehicle damaged by an accident or other cause shall not be driven from the location where the damage occurred until it has been inspected by a qualified person who has determined that the vehicle is safe to drive.

NOTE: Authority cited: Sections 2402, 2410, 31401 and 34501, Vehicle Code. Reference: Sections 260, 322, 2402, 2410, 2804, 12500, 12502, 12515(b), 14603, 15210, 15250, 15275, 15278, 20002, 23152, 24002, 24400, 24252, 24600, 24603, 24604, 24952, 27154, 27155, 27465, 27501, 27903, 29001, 29002, 29003, 29004, 31401, 34500, 34501, 34506 and 34510, Vehicle Code.

HISTORY

1. Change without regulatory effect amending first paragraph filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).
2. Amendment of subsection (a) and amendment of NOTE filed 7-10-2002; operative 8-9-2002 (Register 2002, No. 28).

§ 1230.5. Intermodal Chassis Inspection Tags.

(1) **Intermodal Chassis Inspection Tags.** Any motor carrier operating from an ocean marine terminal and conducting the intermodal roadability inspection, as defined in Section 34505.9 of the Vehicle Code, shall affix a green tag to each intermodal chassis that has passed the inspection and a red tag to each chassis that has failed the inspection. The tags may be in a format provided by the department, PASS (10-04) or FAIL (10-04), or may be in carrier-provided format containing, at a minimum, the following information:

- (1) The name of the inspector.
- (2) The date and time the inspection took place.
- (3) The result of the daily roadability inspection indicated by the term "pass" or "fail," as appropriate.
- (4) The following statement inserted directly below the term "pass" or "fail:" "On the date noted, this intermodal chassis was inspected pursuant to the requirements of California Vehicle Code Section 34505.9, and found to be *(defective)* or *(in compliance)*. *(The following defects) or (No defects)* were observed:"
- (5) Additional information is permitted, provided it does not render the required information illegible.

(b) **Minimum Dimensions.** Intermodal chassis inspection tags shall be of a size not less than 5.5 inches in height by 8.5 inches in width.

(c) **Placement and Durability of Tags.** Intermodal chassis inspection tags shall be securely attached in a conspicuous location so as to be visible from the rear of the intermodal chassis and maintained by the motor carrier in a condition so that the format, legibility, color, and visibility will not be substantially reduced due to weather, deterioration, dirt, or other matter encountered incidental to transportation. The tag may be removed upon release of the chassis from the ocean marine terminal.

NOTE: Authority cited: Sections 34501 and 34505.9, Vehicle Code. Reference: Sections 34501.12, 34505.5 and 34505.9, Vehicle Code.

HISTORY

1. New section filed 10-28-2004; operative 11-27-2004 (Register 2004, No. 44).

§ 1231. Vehicle Inspection Approval Certificate.

A vehicle inspection approval certificate designed and furnished by the department shall be displayed in each school bus, SPAB, youth bus, farm labor vehicle, and GPPV pursuant to Vehicle Code Sections 2807, 2807.1, 2807.3, 31401, and 34501.8. The following provisions shall apply to vehicle inspection approval certificates:

(a) **Display of Certificate.** The certificate shall be placed in a certificate holder provided by the motor carrier and posted in an easy-to-reach and visible area of the driver's compartment of the vehicle for which it was issued. The certificate holder shall be designed so the certificate can be easily inserted and removed and is clearly legible under a transparent covering.

(b) **Issuance of Certificate.** The certificate shall be issued to the specific vehicle and motor carrier named on the certificate. The certificate will be signed and dated by an authorized employee of the department certifying that on the inspection date the vehicle complied with applicable laws and regulations governing its construction, design, and equipment (and color, if a school bus).

(c) **Youth Bus Inspection Fee.** The fee for inspection of a youth bus is eighty-five dollars (\$85). When necessary to verify that corrections have been made, not more than one reinspection may be scheduled at each terminal or facility without payment of another inspection fee.

(d) **GPPV Inspection.** The fee for inspection of a GPPV is fifty dollars (\$50). When necessary to verify that corrections have been made, not more than one reinspection may be scheduled at each terminal or facility without payment of another inspection fee. Application for inspection of GPPVs shall be made to the department on forms provided by the department and shall be accompanied by the prescribed fees.

NOTE: Authority cited: Sections 2807.3, 31401, 31401.5, 34501.5, 34508 and 34508, Vehicle Code. Reference: Sections 2807.3, 31401, 31401.5, 34501, 34501.5, 34501.8 and 34508, Vehicle Code.

HISTORY

1. Amendment filed 10-28-82; effective thirtieth day thereafter (Register 82, No. 44).
2. Amendment of first paragraph and new subsection (d) filed 8-16-88; operative 9-15-88 (Register 88, No. 34).

§ 1231.5. Farm Labor Vehicle Certification Stickers.

Two farm labor vehicle certification stickers issued by the department shall be displayed on each certified farm labor vehicle. The following provisions shall apply to farm labor vehicle certification stickers:

(a) **Issuance and Display of Stickers.** Farm labor vehicle certification stickers shall be issued in pairs to a specific vehicle and shall be affixed as follows to the front and rear of each certified farm labor vehicle at the time the inspection approval certificate is issued pursuant to Section 1231.

(1) **Front.** One farm labor vehicle certification sticker shall be displayed on the lower right-hand corner of the windshield farthest removed from the driver.

(2) **Rear.** One farm labor vehicle certification sticker shall be displayed on the right side of the rear window of the vehicle. If the vehicle does not have a rear window, the sticker shall be displayed on the right side of the rear bumper.

(b) **Removal of Farm Labor Vehicle Certification Stickers.** Farm labor vehicle certification stickers shall be removed from any vehicle:

(1) before the vehicle is transferred into the possession of a new owner, is registered to a new owner, or is discarded or otherwise released from the ownership of the person or organization named on the vehicle inspection approval certificate issued pursuant to Section 1231.

(2) when the stickers are replaced by new stickers at the time of the next certification inspection by the department.

(c) **Design of Stickers.**

(1) **Size and Content:** The farm labor vehicle certification sticker shall be approximately 2.5 inches in height by 4 inches wide, and shall have the words "Certified Farm Labor Vehicle" superimposed over the California Highway Patrol shield. The month and year of issue shall be indicated by punch-outs (see figure 1). The last two digits of the year of expiration of the sticker shall be shown at the top of the sticker. Each sticker shall show the toll-free telephone number for reporting farm la-

bor vehicle violations, and each pair of stickers shall have a unique serial number.

(2) Color. Each farm labor vehicle certification sticker shall be color-coded to denote the quarter of the calendar year in which it was issued and will expire as follows:

- (A) Stickers issued in the first quarter shall be green.
- (B) Stickers issued in the second quarter shall be yellow.
- (C) Stickers issued in the third quarter shall be orange.
- (D) Stickers issued in the fourth quarter shall be white.

(3) Month of Issue. The upper left and upper right-hand corners of the sticker shall be removed as follows to indicate the month of the quarter in which it was issued:

(A) During the first month of the quarter, the upper left-hand and upper right-hand corners shall be removed before the sticker is affixed.

(B) During the second month of the quarter, only the upper left-hand corner shall be removed before the sticker is affixed.

(C) During the third month of the quarter, no corners shall be removed.

(4) Specifications. Stickers shall be fabricated of durable material, and construction shall assure self destruction when any attempt is made to remove a sticker from its original application surface. Evidence of self-destruction must permanently alter the appearance of the sticker.

Figure 1

(d) Modification of Stickers. No person other than an authorized employee of the department shall punch dates into or otherwise modify any farm labor vehicle certification sticker. A farm labor vehicle certification sticker which has been modified to indicate more than one issue date, or which has been otherwise tampered with is invalid and both stickers shall be removed from the vehicle.

(e) Transfer of Inspection Stickers or Certificates. No farm labor vehicle certification sticker, label, or vehicle inspection approval certificate issued by the department to a farm labor vehicle shall be transferred to another vehicle.

NOTE: Authority cited: Section 31401.5, Vehicle Code. Reference Sections 31401 and 31401.5, Vehicle Code.

HISTORY

1. New section filed 7-3-2001; operative 8-2-2001 (Register 2001, No. 27).

§ 1232. Vehicle Inspection and Maintenance.

The following provisions apply to the inspection and maintenance of vehicles subject to this chapter.

(a) Preventive Maintenance. Motor carriers shall ensure that all vehicles subject to their control, and all required accessories on the vehicles, are regularly and systematically inspected, maintained, and lubricated to ensure they are in safe and proper operating condition. The carriers shall have a means of indicating the types of inspection, maintenance, and lubrication operations to be performed on each vehicle and the date or mileage when these operations are due. The inspection required by this subsection is more in depth than the daily inspection performed by the driver. Motor carriers shall ensure compliance with this subsection when a vehicle is assigned away from the carrier's regular maintenance facility for periods exceeding normal inspection, maintenance, and lubrication intervals.

(b) Periodic Preventive Maintenance Inspection. School bus, SPAB, and GPPV carriers shall ensure every bus is inspected every 3,000 miles or 45 calendar days, whichever occurs first; or more often if necessary to ensure safe operation. Buses out of service exceeding 45 calendar days

need not be inspected at 45-day intervals, provided they are inspected prior to being placed back into service.

This periodic inspection shall at a minimum cover:

- (1) Brake adjustment
- (2) Brake system leaks
- (3) Two-way check valve in dual air systems, alternately draining and recharging primary and secondary air reservoirs
- (4) All tank mounting brackets
- (5) All belts and hoses for wear
- (6) Tires and wheels
- (7) Steering and suspension
- (c) Oil or Grease Accumulations. Excessive amounts of grease or oil on the vehicle shall be removed and their cause corrected.
- (d) Cleanliness of Buses. Every bus shall be kept clean and free of litter.

(e) Inspector Qualifications. Motor carriers shall ensure that individuals performing inspections, maintenance, repairs or service to the brakes or brake systems of vehicles subject to this chapter are qualified in accordance with 49 CFR 396.25 (published October 1, 2006).

NOTE: Authority cited: Sections 2807.2, 31401, 34501 and 34501.5, Vehicle Code. Reference: Sections 2807.2, 31401, 34501 and 34501.5, Vehicle Code.

HISTORY

1. New subsection (e) filed 9-27-78; designated effective 10-27-78 (Register 78, No. 39).
2. Amendment filed 8-24-79; designated effective 10-1-79 (Register 79, No. 34).
3. Amendment filed 4-2-81; effective thirtieth day thereafter (Register 81, No. 14).
4. Amendment of subsection (b) filed 6-9-82; effective thirtieth day thereafter (Register 82, No. 24).
5. Amendment of subsection (b) filed 5-17-84; effective thirtieth day thereafter (Register 84, No. 20).
6. Amendment of subsection (b) filed 8-16-88; operative 9-15-88 (Register 88, No. 34).
7. New subsection (e) filed 9-21-94; operative 9-21-94 pursuant to Government Code section 11346.2(d) (Register 94, No. 38).
8. Change without regulatory effect amending first paragraph and subsection (e) filed 8-7-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 32).
9. Amendment of subsection (e) filed 3-31-99; operative 4-30-99 (Register 99, No. 14).
10. Amendment of subsections (b) and (e) filed 4-10-2008; operative 5-10-2008 (Register 2008, No. 15).

§ 1233. Safety Compliance Ratings.

(a) *Definitions of Safety Compliance Ratings.* Compliance ratings shall have the following meanings:

(1) Satisfactory. A satisfactory rating means compliance with applicable laws and regulations or only minor discrepancies in statutory or regulatory requirements were noted, and overall compliance was within reasonable bounds.

(2) Unsatisfactory. An unsatisfactory rating means a continued disregard of statutory or regulatory requirements, a finding of numerous violations, a finding of serious violations that adversely affect the safe operation of vehicles, or a lack of compliance with hazardous materials shipping or carriage requirements.

(3) Conditional. A conditional rating means there was a previous rating of "unsatisfactory," and the carrier, terminal, facility or shipper has been reinspected and compliance is no longer necessarily "unsatisfactory," but that actual compliance cannot be determined. A follow-up inspection will be conducted to determine compliance.

(b) *Inspections by the Department.*

(1) Motor carriers. Motor carriers are inspected by the Department at their principal places of business and assigned safety compliance ratings which reflect each motor carrier's overall compliance with the requirements of Vehicle Code Section 34520.

(2) Motor carrier terminals and maintenance facilities. Motor carrier terminals and maintenance facilities are inspected by the Department pursuant to Vehicle Code Sections 34501(a)(3), 34501(c), and 34501.12(d) and assigned safety compliance ratings which reflect each terminal's overall compliance with the laws and regulations governing drivers' hours of service, vehicle condition, preventive maintenance practices, hazardous materials carriage, and records required by statute or regulation.

(3) Hazardous materials shippers. Hazardous materials shippers are inspected by the Department and are assigned safety compliance ratings which reflect each shipper's overall compliance with laws and regulations governing the packaging, description, marking, labeling, offering and other requirements of the United States Department of Transportation governing the transportation of hazardous materials, including any exceptions contained in state law or regulation.

(c) *Assignment of Safety Compliance Ratings.* The Department's evaluation of the motor carrier's, terminal's, or hazardous materials shipper's potential for overall safety shall be the final determining factor in the rating assigned.

(d) *Rating Review.* Any motor carrier, or shipper who receives an unsatisfactory rating and believes the rating is not justified, may, within five calendar days following the assignment of the rating, request a review of the rating by contacting the Department at the telephone number indicated on the inspection report. The sole purpose of the rating review is to determine whether the inspection and its findings are consistent with laws, regulations, and Department policy in effect at the time of the inspection. A rating review is not for the purpose of evaluating any corrective actions taken by the carrier or shipper since the time of the inspection.

(e) *Carrier Responsibility for Disclosure of Safety Compliance Ratings.*

(1) A motor carrier contracting to transport passengers in a bus shall give notice to the user of the carrier's most recent safety compliance rating.

(2) A motor carrier transporting school pupils to or from school activities in a school bus or school pupil activity bus (SPAB) shall give notice to the school district superintendent of the carrier's most recent safety compliance rating.

(3) Notice may be given by posting the safety compliance rating in the public area of the carrier's terminal or principal place of business, or by publishing the rating in the local news media.

(4) The carrier shall provide its latest rating upon any request from the public whether received in writing, in person, or by telephone. Safety compliance ratings are also available from the Department.

NOTE: Authority cited: Sections 31401, 34501, 34501.5, 34508 and 34520, Vehicle Code. Reference: Sections 31401, 34501, 34501.5, 34508 and 34520, Vehicle Code.

HISTORY

1. New section filed 4-29-82; effective thirtieth day thereafter (Register 82, No. 18).
2. Amendment filed 4-27-83; effective thirtieth day thereafter (Register 83, No. 18).
3. Amendment filed 9-6-95; operative 10-6-95 (Register 95, No. 36).
4. Repealer and new section and amendment of NOTE filed 4-6-99; operative 5-6-99 (Register 99, No. 15).
5. Editorial correction of subsection (b)(3) (Register 99, No. 20).

§ 1233.5. Change of Address.

Each motor carrier subject to the provisions of this chapter shall notify the department in writing of any change of address or cessation of regulated activity at any of the carrier's terminals. Such notification shall be made within 15 days of the change and shall be forwarded to:

CALIFORNIA HIGHWAY PATROL
COMMERCIAL RECORDS UNIT
P.O. BOX 942898
SACRAMENTO, CA 94298-0001

NOTE: Authority cited: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. New section filed 9-6-95; operative 10-6-95 (Register 95, No. 36).

§ 1234. Required Records for Motor Carriers.

The following records are required:

(a) *Driver's Record.* Motor carriers shall require each driver and each codriver to keep a driver's record pursuant to Section 1213. Motor carriers shall keep the original copies of all drivers' records with any supporting documents, as defined in Section 1201(y), for 6 months. Drivers' re-

cords of duty status and all supporting documents shall be made available for inspection immediately upon request by an authorized employee of the department. Drivers' records and/or supporting documents not readily available or accessible shall be made available within 3 business days.

(b) *Driver's Authorized Vehicles.* Motor carriers shall maintain a record of the different types of vehicles and vehicle combinations each driver is capable of driving as specified in Section 1229.

(c) *Driver's Records.* School bus, SPAB, youth bus, farm labor vehicle, and GPPV carriers shall maintain a record of required documents for each driver they employ. The carrier shall notify each driver of the expiration date of the documents listed in (1) through (4), and the carrier shall ensure each document is renewed prior to expiration. The record shall contain the following data:

(1) Driver's license class, number, restrictions and expiration date.

(2) Driver's certificate restrictions, expiration date, certificate issuance date and driver's date of birth.

(3) Date medical certificate expires.

(4) Expiration date of driver's first aid certificate, license as a physician and surgeon, osteopath, or registered nurse, or certificate as a physician's assistant or emergency medical technician when such certificate or license is used to obtain a waiver of the first aid examination pursuant to Vehicle Code Section 12522.

(5) Date and number of hours of training specified in Education Code Sections 40080-40090 or Vehicle Code Section 12523 since issuance of the driver's current certificate.

(d) *Mileage Records.* School bus, SPAB, and youth bus carriers shall keep records of the mileage each bus travels during the fiscal year (July 1 through June 30). These records shall be retained for the current fiscal year plus the previous year.

(e) *Daily Vehicle Inspection Reports.* Motor carriers shall require drivers to submit a documented daily vehicle inspection report pursuant to Section 1215(c). Reports shall be carefully examined, defects likely to affect the safe operation of the motor vehicle or combination or result in a mechanical breakdown shall be corrected before the vehicle or combination is driven on the highway, and carriers shall retain such reports for at least three months.

(f) *Inspection, Maintenance, Lubrication, and Repair Records.* Motor carriers shall document each systematic inspection, maintenance, and lubrication, and repair performed for each vehicle under their control. These vehicle records shall be kept at the carrier's maintenance facility or terminal where the vehicle is regularly garaged. Such records shall be retained by the carrier for one year and include at least:

(1) Identification of the vehicle, including make, model, license number, or other means of positive identification

(2) Date or mileage and nature of each inspection, maintenance, lubrication, and repair performed

(3) Date or mileage and nature of each inspection, maintenance, and lubrication to be performed; i.e., the inspection, maintenance, and lubrication intervals

(4) The name of the lessor or contractor furnishing any vehicle

(5) On school bus, SPAB, and GPPV records, the signature of the person performing the inspection

(g) *Temporarily Assigned Vehicle.* When a vehicle is garaged at other than the carrier's regular maintenance facility for periods exceeding normal intervals for inspection, maintenance, and lubrication, carriers shall ensure the record(s) indicating the date or mileage and nature of these operations to be performed, are kept in the vehicle.

(h) *School Bus Accident Reports.* School bus carriers shall maintain a report of each accident that occurred on public or private property involving a school bus with pupils aboard. The report shall contain pertinent details of the accident and it shall be retained for 12 months from the date of the accident. If the accident was not investigated by the CHP, the carrier shall forward a copy of the report to the local CHP within five work days of the date of the accident.

12. Amendment of subsection (e) filed 12–11–97; operative 1–10–98 (Register 97, No. 50).
13. Amendment of subsection (a) and NOTE filed 1–8–98; operative 2–7–98 (Register 98, No. 19).
14. Amendment of subsection (a) and amendment of NOTE filed 10–12–2007; operative 11–11–2007 (Register 2007, No. 41).

§ 1234.5. Farm Labor Vehicle Inspection Scheduling.

It is the responsibility of the owner or operator of a farm labor vehicle to schedule the annual inspection required by Section 31401 of the Vehicle Code. Farm labor vehicle owners or operators shall request scheduling of inspections as follows:

(a) **Renewal Inspections.** The owner or operator of a farm labor vehicle that has a currently valid inspection certificate shall make the request for inspection not later than four weeks prior to the expiration date of the certificate.

(b) **Initial Inspections.** The owner or operator of a farm labor vehicle required to have its initial inspection shall make the request for inspection not later than three business days prior to the requested date.

NOTE: Authority cited: Section 31401.5, Vehicle Code. Reference: Sections 31401 and 31401.5, Vehicle Code.

HISTORY

1. New section filed 7–3–2001; operative 8–2–2001 (Register 2001, No. 27).

§ 1235. Towing Other Vehicles.

A school bus or SPAB shall not tow any vehicle. Other buses and farm labor vehicles shall not tow any vehicle except as follows:

(a) **Urban or Suburban Service—Farm Labor Vehicle.** A bus operated in urban or suburban service by a common carrier, publicly owned transit system, or passenger charter-party carrier, and a farm labor vehicle, may tow a trailer or semitrailer, used to carry property for use by passengers, provided the trailer/semitrailer and property does not exceed a gross weight of 6,000 lbs.

(b) **Bus.** A bus may tow a trailer—bus pursuant to the provisions of the Vehicle Code.

(c) **Bus Under 10,000 Lb GVW.** A bus with a gross vehicle weight of less than 10,000 lb may tow any vehicle, pursuant to the provisions of the Vehicle Code.

NOTE: Authority and reference cited: Sections 546, 31401, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment filed 7–1–83; effective thirtieth day thereafter (Register 83, No. 27).

Article 6.5. Carrier Identification Numbers

§ 1235.1. Application for Carrier Identification Number.

(a) **Required Application.** Persons subject to Section 34507.5 of the Vehicle Code shall apply to the department for a carrier identification number as required by that section, using the application specified in paragraph (e).

(b) **Person Defined.** Whenever in this article reference is made to a person, it shall be understood to mean an individual, partnership, corporation, limited liability company, state or local government agency, firm, association, or other legal entity who is subject to Section 34507.5 of the Vehicle Code. For purposes of this article, the terms “carrier,” “firm,” “legal entity,” “motor carrier,” “motor carrier of property,” “organization,” “owner,” “person,” or other collective term shall be interchangeable unless specified otherwise in a specific instance.

(c) **CA Number.** The carrier identification number referenced in Section 34507.5 of the Vehicle Code shall be referred to in this section as a “CA number.” CA numbers are generated by an automated record system operated by the department. CA numbers shall be assigned to each new applicant in sequence, and requests for specific numbers shall not be honored by the department.

(d) **Application Fee.** Applications for CA numbers are received and processed without charge to the applicant.

(e) **Motor Carrier Profile.** Persons subject to Section 34507.5 of the Vehicle Code shall submit a completed application for a CA number on a *Motor Carrier Profile*, CHP 362, as revised in June 1999, which is hereby incorporated by reference.

(1) Single copies of this application are available free of charge from the department at its field division offices in Redding, Rancho Cordova, Vallejo, Fresno, Los Angeles, San Diego, San Luis Obispo, and San Bernardino, or from its Commercial Vehicle Section in Sacramento.

(2) The current version of the application is also available for printing from the Internet at the department’s Internet site at www.chp.ca.gov under *Forms*. The specific location of this application on the department’s Internet site may vary over time as the site is updated, but should be locatable using the search term “CHP 362.”

(f) **Completion and Submission.** Applications shall be completed legibly, and mailed or otherwise delivered to the department according to the instructions contained in the application.

NOTE: Authority cited: Sections 34500 and 34501, Vehicle Code. Reference: Sections 34507.5, 34507.6, 34620(a) and 34621(b)(4), Vehicle Code.

HISTORY

1. New article 6.5 (sections 1235.1–1235.6) and section filed 3–20–2002; operative 4–19–2002 (Register 2002, No. 12).

§ 1235.2. Motor Carrier Safety Records of the Department.

(a) **Records Associated With CA Numbers.** The record system referenced in section 1235.1 contains carrier records and terminal records. All of the information in the record system is public information.

(b) **Carrier Records.** Carrier records may contain some or all of the following information:

(1) Identification by the legal name of each person who is a motor carrier as defined in Section 408 of the Vehicle Code or a motor carrier of property as defined in Section 34601 of the Vehicle Code.

(2) Any properly adopted business names used by the carrier.

(3) The physical address, mailing address, and telephone number of the carrier’s principal place of business.

(4) At the carrier’s option, the names of two individuals designated by the motor carrier as emergency contacts, with day and night telephone numbers for each, which the department may use if necessary to contact the carrier’s management regarding an emergency involving a vehicle or driver of the carrier.

(5) Codes assigned by the department representing the geographical location of the carrier’s principal place of business.

(6) Identification of the type of legal entity the person is, such as individual, partnership, corporation, or limited liability company.

(7) If the applicant is a partnership, corporation, or limited liability company, the applicant's federal employer identification number, or if an individual, the individual's driver license number or state-issued identification card number and state of issue, and if the individual has employees, the individual's federal employer identification number.

(8) The carrier's California or foreign corporation number assigned by the California Secretary of State.

(9) Identification of the state agency that created the record in the automated system, either the department in connection with its duty to regulate the safe operation of vehicles described in Division 14.8 of the Vehicle Code, or the Department of Motor Vehicles in connection with its duty to administer the Motor Carriers of Property Permit Act in Division 14.85 of that code.

(10) Brief descriptions of the types of regulated vehicles the carrier operates or transportation activities in which the carrier is engaged, referred to collectively as "types of operation."

(11) The number and locations of terminals the carrier operates in California, each identified as active or inactive.

(12) Status of the carrier record as a whole as active or inactive, and the effective date of that status.

(13) The date on which the carrier record was most recently updated.

(14) A listing of licenses, operating authorities and registrations held by the carrier to conduct various transportation-related activities, and cross-references to identification numbers issued by other agencies to that carrier.

(15) A count of regulated vehicles and hazardous materials tanks and containers in the carrier's fleet, and the number of drivers, derived as the sum of all vehicle counts indicated in (c)(10) and (11).

(16) Fleet mileage by year, as reported by the carrier.

(17) Business (doing business as) names the carrier uses.

(18) A listing of the carrier's terminals subject to the inspection program mandated by Vehicle Code Section 34501.12, if applicable.

(19) A listing of citations written to the carrier by the department for violations relating to operation of commercial vehicles, not including adjudication.

(20) A listing of accident reports taken or received by the department in which the carrier was identified as an involved party in the accident.

(21) A listing of locations at which the carrier operates terminals.

(c) Terminal Records. Terminal records may contain some or all of the following information:

(1) The name the carrier uses at the terminal location, and the address.

(2) The terminal office telephone number.

(3) At the carrier's option, the names of two individuals designated by the motor carrier as emergency contacts for that specific terminal, with day and night telephone numbers for each, which the department may use if necessary to contact the terminal's management regarding an emergency involving a vehicle or driver believed to be from that terminal.

(4) Codes assigned by the department representing the geographical location of the terminal.

(5) Types of operation in which the carrier is engaged at the terminal.

(6) The rating assigned by the department pursuant to Section 1233 to the terminal, and the date of the rating assignment.

(7) The date on which the most recent information about the terminal was entered into the record.

(8) A listing of any transportation-related licenses or registrations associated with the specific terminal.

(9) A history of fees paid and inspections completed pursuant to Section 34501.12 of the Vehicle Code.

(10) A count of vehicles operated from the terminal, with codes indicating types of vehicles and a legend explaining the codes.

(11) A count of drivers based at the terminal.

(12) Fleet mileage by year of vehicles operated from the terminal.

(13) A history of terminal ratings showing the ratings given for each of four categories of compliance matters, and the overall compliance rat-

ing assigned to the terminal, with an indication of whether each inspection was conducted pursuant to Section 34501.12 of the Vehicle Code or other authority, whether a due process notice was issued when an unsatisfactory rating was assigned, the predominant type of operation upon which compliance was rated, the date of the inspection, and a tentative suspense date for departmental review of the record and possible scheduling of the next inspection.

NOTE: Authority cited: Sections 34500 and 34501, Vehicle Code. Reference: Sections 34507.5, 34507.6, 34620(a) and 34621(b)(4), Vehicle Code.

HISTORY

1. New section filed 3-20-2002; operative 4-19-2002 (Register 2002, No. 12).

§ 1235.3. Required Information and Assignment of Identification Numbers.

(a) "Doing Business As" Names. "Doing Business As" (DBA) names under which a person operates may be associated in the department's records with the CA number and legal name of the person.

(b) DBA Name Not A Separate Entity. The fact that a person does business under another name does not create an entity distinct from that person. Except as specifically permitted in this section, DBA names that are fictitious business names shall not be included on the application referenced in Section 1235.1 unless they are adopted in compliance with the Business and Professions Code, commencing with Section 17900.

(1) The name of another carrier to whom a person is contracted or under whose federal operating authority the person operates is not acceptable as a DBA name of that person.

(2) The department may require the applicant to provide verification of compliance with the requirements of the Business and Professions Code regarding the adoption of fictitious business names.

(c) Legal Name Required. A CA number shall be assigned in the legal name of the person who is a motor carrier or motor carrier of property.

(1) An individual who operates vehicles which cause the individual to be subject to Section 34507.5 of the Vehicle Code shall, upon submission of a properly completed application, be assigned one CA number in the legal name of that individual.

(A) A business or other enterprise which is operated as a sole proprietorship, but managed jointly by a family, such as by a husband and wife, siblings, parent and child, or is managed by unrelated individuals in an informal partnership, shall be identified on the application referenced in Section 1235.1 as operated by one individual, and a CA number shall be assigned in the legal name of the individual so identified.

(2) A partnership, corporation, or limited liability company that operates vehicles which cause it to be subject to Section 34507.5 of the Vehicle Code shall, upon submission of a properly completed application, be assigned one CA number in the legal name of the partnership, corporation, or limited liability company.

(3) A department or an independent commission of the state that operates vehicles which cause it to be subject to Section 34507.5 of the Vehicle Code shall, upon submission of a properly completed application, be assigned one CA number in the legal name of the department or commission. Except as provided in subsections (c) and (d), levels of state government below the department level shall not be identified as DBAs of the state. As used in this paragraph, the term "department level" means the first major organizational subdivision of a state Department or Commission below its executive level.

(4) A county shall be assigned one CA number. County departments may be identified as DBA names of the county. Except as provided in subsections (c) and (d), levels of county government below the county department level shall not be identified as DBAs of the county.

(5) A city shall be assigned one CA number. City departments may be identified as DBA names of the city. Except as provided in subsections (c) and (d), levels of city government below the city department level shall not be identified as DBAs of the city.

(d) Commissions and Special Districts. A county or city commission, or a special district or joint powers agency governed by a board of trustees, that operates vehicles which cause the commission, district or agency to be subject to Section 34507.5 of the Vehicle Code, shall, upon

submission of a properly completed application, be assigned a CA number separately from the level of government with which it is associated.

(e) Public School Districts. A public school district operated by the state, a county, or a city shall, upon submission of a properly completed application, be assigned a CA number separately from the level of government with which it is associated.

(f) Associations and Other Organizations. Associations and other organizations comprising a federation of relatively independent local offices, chapters, congregations, or other units but which are affiliated statewide or nationally with a central organization in such a manner that they share the same federal employer identification number, shall be considered one organization and shall share the same CA number, unless a local chapter is incorporated separately from the state or national organization. The name of each local chapter of the organization may be identified as a DBA of the organization if the local chapter operates one or more vehicles that cause the organization to be subject to Section 34507.5 of the Vehicle Code and the DBA name is properly adopted pursuant to subsection (b), except that any one DBA name shall not be repeated in the records of the department regardless of how many locations use that DBA name.

(g) Reorganizations. Reorganization of a business, enterprise, or other organization under the ownership of a different legal person, such as from a sole proprietorship to a partnership or from a partnership to a corporation shall be considered the emergence of a new or different person, which, if that new person operates vehicles that cause the person to be subject to Section 34507.5 of the Vehicle Code, shall require application for a new CA number pursuant to Section 1235.1.

(1) "Reorganization" includes the dissolution of an entity and the creation of a new entity of the same type, such as from a corporation to a new corporation, or from a limited liability company to a new limited liability company, even if all the individuals who comprise the management of the new entity are the same individuals who managed the previous entity.

(2) Upon issuance of a new CA number to the new legal entity, the department may place the CA number of the former organization in inactive status.

(h) Individuals Participating in Multiple Businesses. An individual operating one or more businesses as a sole proprietor shall be assigned one CA number, regardless of the number of businesses operated. An individual who enters into a partnership or participates as an owner in the formation of a corporation or limited liability company, but continues to operate one or more businesses as a sole proprietor, shall retain his or her original CA number, which shall continue to represent that individual as a sole proprietor. The partnership, corporation or limited liability company in which that individual participates as a partner or co-owner is a separate legal entity and shall be assigned its own CA number.

NOTE: Authority cited: Sections 34500 and 34501, Vehicle Code. Reference: Sections 34507.5, 34507.6, 34620(a) and 34621(b)(4), Vehicle Code.

HISTORY

1. New section filed 3–20–2002; operative 4–19–2002 (Register 2002, No. 12).

§ 1235.4. Identification Numbers Nontransferable.

(a) One CA Number Per Person. An individual shall be assigned one CA number regardless of how many business enterprises the individual may operate as a sole proprietor or DBA names he or she may use. A partnership, corporation, or limited liability company shall be assigned one CA number, regardless of how many internal divisions it may have or DBA names it may use in representing its business enterprises to the public. The CA number shall represent the legal name of that person, not a DBA name the person may use.

(b) Nontransferable. A CA number is not transferable from one person to another, except to correct any errors on the part of the department in the assignment of a number. The department will deny issuance of a CA number to any person the department determines to have been assigned a CA number previously, unless the previously-assigned CA number no longer exists in the department's files due to processes described in Section 1235.5. Once a CA number ceases to exist in the records of the department due to processes described in Section 1235.5, that number shall

not be reassigned to any person, except when it was deleted by the department's error.

(1) Pending a hearing pursuant to the Administrative Procedure Act of the Government Code commencing with Section 11500, the department may refuse to issue a new CA number to a legal entity that is owned or managed, in whole or in part, by an individual against whom the department, the Department of Motor Vehicles, or the Public Utilities Commission has an unresolved action, and, in the department's opinion, the individual's purpose in applying for the new CA number is to circumvent or thwart the action.

(c) Name Changes. The department will update its records to reflect a change in the legal name of any person who has been assigned a CA number upon submission of satisfactory evidence that the new name represents the same legal entity currently associated with that CA number, and the change is not the result of the formation of a new legal entity.

(d) Inactive Entities. A person who ceases to be subject to Section 34507.5 of the Vehicle Code shall retain or forfeit an existing CA number according to the following:

(1) If a person ceases operations in California or fails to notify the department of a change of address pursuant to Section 1233.5 of this title for three or more years, the department may consider the person inactive and may place the person's CA number in inactive status. If the person subsequently resumes operations in California, the person's inactive CA number and its associated carrier record shall be restored to active status. The person shall not be assigned a new CA number.

(2) If a person ceases operations in California, or fails to notify the department of a change of address pursuant to Section 1233.5 of this title for six or more years, the department may consider the person no longer to exist, or no longer subject to Section 34507.5 of the Vehicle Code, and may purge the CA number and its associated records from the department's record system. If the person resumes operations in California subsequent to the purge of the records, the person's original CA number shall not be restored, and the person shall be treated as a new applicant pursuant to section 1235.1.

(3) The department may delay purging an inactive CA number and its associated record from its automated system beyond the time frames in subsections (1) or (2) for any reason, and is not obligated to place a record in inactive status at any particular time.

(e) Mergers and Acquisitions. When two or more persons combine into one organization through a merger, acquisition or other legal transaction, retention of existing CA numbers and issuance of new numbers shall be governed as follows:

(1) When a new partnership, corporation, or limited liability company is formed from former entities, some or all of whom held CA numbers, the resulting new organization is a new person and shall apply for a new CA number pursuant to Section 1235.1. The CA number of any former entity that no longer exists or no longer operates vehicles that would make it subject to Section 34507.5 of the Vehicle Code, may be placed in inactive status by the department.

(2) When a person acquires another person's business assets and will continue to operate as the same person he or she was prior to making the acquisition, as opposed to reorganizing as a new legal entity, that person shall retain his or her existing CA number and shall advise the department which terminals purchased from the former owner, if any, will be operated by the new owner. If vehicles described in Vehicle Code Section 34500 are to be operated from any of those terminals, the department will create new terminal records under the new owner's existing CA number for those terminals, and will place the terminals at those addresses that are under the former owner's CA number in inactive status.

(3) All vehicles acquired in the transaction that are the subject of Section 34507.5 of the Vehicle Code shall be remarked with the name or DBA name and CA number of that person pursuant to that section, Sections 27900 and 27901 of that code, and Sections 1256 or 1256.5 of this title.

(4) When ownership of a business operated as a sole proprietorship passes from one individual to another, including the passage of owner-

ship between individual members of a family, the new owner is a different person and shall apply for a new CA number unless he or she already has one, in which case the transaction shall be treated as indicated in subsection (2).

(5) The new owner shall identify to the department the former entities that were acquired and that no longer exist as separate legal entities. In the case of acquisitions from an individual who will cease operations that would cause him or her to be subject to Section 34507.5 of the Vehicle Code, the new owner shall identify the former owner of the business or other organization to the department.

(6) If the new owner is a motor carrier as defined in Section 408 of the Vehicle Code, he or she shall identify which motor carrier terminals belonging to the former owner will continue to be operated as terminals of the new owner. If the new owner is subject to Section 34507.5 of the Vehicle Code solely because it is a motor carrier of property as defined in Section 34601 of the Vehicle Code, but is not a motor carrier as defined in Section 408 of the Vehicle Code, no business locations need be identified to the department except the new owner's principal place of business.

(f) Divisions and Dissolutions. When a motor carrier or motor carrier of property divides its operations into two or more new legal entities, the retention of an existing CA number and issuance of a new CA number shall be governed as follows:

(1) When the original motor carrier or motor carrier of property continues to exist as the same legal entity, it shall retain the CA number it had before the division, pursuant to subsection (d)(2).

(2) When the original motor carrier or motor carrier of property reorganizes as a different entity type, or as the same type but a new legal entity, that entity shall apply for a new CA number pursuant to Section 1235.1.

(3) The portion of the original legal entity which has been separated and formed into a new legal entity shall apply for a new CA number pursuant to Section 1235.1.

NOTE: Authority cited: Sections 34500 and 34501, Vehicle Code. Reference: Sections 34507.5, 34507.6, 34620(a) and 34621(b)(4), Vehicle Code.

HISTORY

1. New section filed 3-20-2002; operative 4-19-2002 (Register 2002, No. 12).

§ 1235.5. Retention of Records by the Department.

(a) Deletion of CA Numbers. A CA number and its associated records will be deleted from the department's automated record system for any of the following reasons:

(1) A number was assigned in error to a person who was not subject to Section 34507.5 of the Vehicle Code at the time the number was assigned.

(2) A second or subsequent number was assigned to the same person in error. In this circumstance, any carrier or terminal information associated with a superfluous CA number will be transferred to the person's correct CA number.

(A) The department may, at its discretion, permit a person to choose which CA number to keep and which to delete. This permission will not be extended if either of the following conditions exist:

(i) The department is aware the person is currently the subject of any legal proceeding in which any CA number associated with that person appears, or may appear, on any exhibit in the proceeding.

(ii) The person is subject to follow-up inspections after that person's failure to attain a satisfactory compliance rating during any regulatory inspection performed by the department.

(3) The department has determined that the person no longer exists as a legal entity or has ceased to be subject to Section 34507.5 of the Vehicle Code, and sufficient time has passed that the department is unlikely to need to refer to the record associated with that CA number, and legal action against that person, as a motor carrier or a motor carrier of property, is not pending or contemplated by the department, and is not known to the department to be pending or contemplated by the Department of Motor Vehicles, the Public Utilities Commission, or the Federal Motor Carrier Safety Administration.

(4) The department will coordinate with the Department of Motor Vehicles to ensure that deletion of a CA number does not cause the inadvertent invalidation of a motor carrier of property permit, and if the carrier possesses such a permit, to arrange with the Department of Motor Vehicles for corresponding correction of relevant information associated with the permit in that agency's records, such as correction of the CA number associated with it.

NOTE: Authority cited: Sections 34500 and 34501, Vehicle Code. Reference: Sections 34507.5, 34507.6, 34620(a) and 34621(b)(4), Vehicle Code.

HISTORY

1. New section filed 3-20-2002; operative 4-19-2002 (Register 2002, No. 12).

§ 1235.6. Reconciliation of Records.

(a) Conformance With This Article. The department maintains an ongoing effort to conform its electronic records to the requirements of this article by each of the following actions:

(1) Identifying persons who may have been assigned more than one CA number and consolidating all of that person's information under one CA number, requiring the person to use only that single CA number, and deleting superfluous CA numbers and their associated records from the record system;

(2) Identifying CA numbers that represent multiple legal entities and requiring each legal entity who is a motor carrier or a motor carrier of property to obtain a separate CA number; and

(3) Identifying legal entities that have been assigned a CA number but which are not, and never were, either a motor carrier or a motor carrier of property, and removing those entities from the record system of the department after transferring any information to the record of the true owner, as appropriate.

(b) Time to Comply. In carrying out the objectives of subsection (a), the department will use the most expeditious methods to communicate with persons who are subject to this article, such as using telephone or facsimile communications to the extent they are practical. When it is determined that a "person" is actually multiple persons and additional CA numbers are needed, or that a person has multiple CA numbers and one or more of them must be discontinued, the department will grant a reasonable period of time for the submission of new applications pursuant to Section 1235.1, the updating of carrier identification information, and if necessary, the remarking of vehicles pursuant to Section 34507.5 of the Vehicle Code. The department will negotiate a date by which any necessary remarking of vehicles with correct CA numbers will be accomplished, and provide to the person or persons a letter which can be copied and carried in vehicles and shown to any peace officer to show that the process of achieving compliance is in progress pursuant to a negotiated agreement.

(c) Enforcement. It is not the intent of the department to take enforcement action against any person who reasonably may not have known that he or she has been using an incorrect CA number due to any of the circumstances indicated in subsection (a). Enforcement action shall be taken only when the department has determined that a person is uncooperative in complying with the requirements of this article.

NOTE: Authority cited: Sections 34500 and 34501, Vehicle Code. Reference: Sections 34507.5, 34507.6, 34620(a) and 34621(b)(4), Vehicle Code.

HISTORY

1. New section filed 3-20-2002; operative 4-19-2002 (Register 2002, No. 12).

Article 7. Additional Requirements for School Bus, SPAB, and Youth Bus Carriers

§ 1236. Reporting Driver Status.

(a) Dismissal. Dismissal of any driver for a cause relating to pupil transportation safety shall be reported by the carrier to the Department of Motor Vehicles within five days of the dismissal date.

(b) Employment or Training Status. Carriers shall notify the local CHP office within 10 calendar days of the hiring of a certified school bus, SPAB, or youth bus driver, or of any driver who fails to receive the train-

ing specified in California Education Code Sections 40082, 40083, 40084, 40085 and 40086 or Vehicle Code Section 12523.

NOTE: Authority cited: Sections 34501, 34501.5 and 34508, Vehicle Code; and Sections 39831, 40082, 40083, 40084, 40085 and 40086, Education Code. Reference: Sections 12523, 34501, 34501.5 and 34508, Vehicle Code; and Sections 39831, 40082, 40083, 40084, 40085 and 40086, Education Code.

HISTORY

1. Amendment of subsection (b) and Article 7 heading filed 10–28–82; effective thirtieth day thereafter (Register 82, No. 44).
2. Change without regulatory effect amending subsection (b) and NOTE filed 10–7–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 41).

§ 1237. Reporting of Accidents.

Whenever a school bus, SPAB, or youth bus driver is involved in an accident specified in Section 1219, that requires the Department to be notified immediately by the driver, the carrier shall ensure the accident has been reported within 24 hours to the department and the superintendent of the school district for which the bus was operated. If the driver is physically incapable of reporting the accident, the carrier shall make the required notifications immediately upon becoming aware of such accident.

NOTE: Authority cited: Sections 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 546, 12523, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment filed 8–27–82; effective thirtieth day thereafter (Register 82, No. 35).
2. Amendment filed 10–28–82; effective thirtieth day thereafter (Register 82, No. 44).
3. Amendment filed 4–27–83; effective thirtieth day thereafter (Register 83, No. 18).

§ 1238. School Bus Stops.

(a) Designated Stops. School bus and SPAB stops made for receiving and discharging pupils shall be designated by the school district superintendent.

(b) Prohibited Stops. A school bus stop shall not be designated at the following locations:

- (1) Within 200 ft of the nearest rail of any railroad crossing or grade, except at railroad stations or on highways that parallel the railroad tracks
- (2) The left-hand side of any highway

(3) On a divided or multiple-lane highway where pupils must cross the highway to board or after exiting the bus, unless traffic is controlled by a traffic officer or official traffic control signal. For the purposes of this subsection, a multiple-lane highway is defined as any highway having two or more lanes of travel in each direction.

(c) CHP Approval. Unless approved by the department, a school bus stop shall not be designated at the following locations:

(1) Upon the main traveled portion of a highway where there is not a clear view of the stop from 500 ft in each direction along the highway and the speed limit is more than 25 mph.

(2) On a highway, pursuant to Vehicle Code Section 22504(c)

NOTE: Authority cited: Sections 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 22504, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment filed 4–9–79; designated effective 6–1–79 (Register 79, No. 15).
2. Editorial correction of subsection designation in subsection (b) (Register 79, No. 17).
3. Amendment filed 4–27–83; effective thirtieth day thereafter (Register 83, No. 18).
4. Amendment of subsection (b)(3) filed 10–30–91; operative 11–29–91 (Register 92, No. 6).

Article 7.5. Commercial Vehicle Out-of-Service Criteria

§ 1239. Commercial Vehicle Safety Alliance North American Standard Out-of-Service Criteria.

(a) *Applicability*. This article shall apply to those vehicles described in Sections 260, 322, 15210 and 34500 of the California Vehicle Code.

(b) *Incorporation by Reference*. This article incorporates by reference portions of the Commercial Vehicle Safety Alliance North American Standard Out-of-Service Criteria including Part I (with the exception of those items related to waiver of physical disqualification), Part II, and Part III. All references to the Commercial Vehicle Safety Alliance North American Standard Out-of-Service Criteria in this article are those criteria published on January 1, 2004.

(c) *Availability of Referenced Criteria*. Copies of the Commercial Vehicle Safety Alliance North American Standard Out-of-Service Criteria can be obtained from:

COMMERCIAL VEHICLE SAFETY ALLIANCE
1101 17TH STREET, N.W., SUITE 803
WASHINGTON, DC 20036

NOTE: Authority cited: Sections 2402, 2410, 31401 and 34501, Vehicle Code. Reference: Sections 260, 322, 2402, 2410, 2804, 12500, 12502, 12515(b), 14603, 15210, 15250, 15275, 15278, 23152, 24002, 24400, 24252, 24600, 24603, 24604, 24952, 27154, 27155, 27465, 27501, 27903, 29001, 29002, 29003, 29004, 31401, 34500, 34501, 34506, 34510 and 34520, Vehicle Code.

HISTORY

1. New article 7.5 (section 1239) and section filed 8–2–99; operative 9–1–99 (Register 99, No. 32).
2. Amendment of section heading, section and NOTE filed 7–10–2002; operative 8–9–2002 (Register 2002, No. 28).
3. Amendment of subsection (b) and amendment of the document, *Commercial Vehicle Safety Alliance North American Standard Out-of-Service Criteria* (incorporated by reference) filed 5–6–2003; operative 6–5–2003 (Register 2003, No. 19).
4. Amendment of subsections (b) and (c) filed 6–15–2006; operative 7–15–2006 (Register 2006, No. 24).

Article 8. General Equipment Requirements

§ 1240. Federal Motor Vehicle Safety Standards.

A Federal Motor Vehicle Safety Standard that conflicts with an equipment provision of this title as to the same aspect of performance shall supersede that specific provision of this title with respect to vehicles manufactured and maintained in compliance with applicable federal standards.

§ 1241. Major Changes.

Unless otherwise specified, these regulations shall not require major reconstruction or major additions to vehicles in service on March 1, 1965. However, this section shall not limit the power of the department to promulgate regulations for changes or additions based upon a demonstrated need in the interest of safety.

§ 1242. Fire Extinguishers.

Every motor vehicle or combination of vehicles (except those otherwise specified below) shall be equipped with one fully charged fire extinguisher having at least a 4B:C rating.

(a) Approvals. Each fire extinguisher shall have been rated and labeled by one of the following test labs approved by the State Fire Marshal to test and label portable fire extinguishers for sale in California.

(1) Underwriter's Laboratories, Northbrook, Illinois. All sizes and classifications.

[The next page is 135.]

(2) Factory Mutual Research Corporation, Norwood, Massachusetts. Sizes 10B:C, 1A 10B:C, 2A 40B:C, 3A 40B:C, and 4A 80B:C fire extinguishers filled with Halon 1211 or Halon 1301.

(b) Prohibited Extinguishers. Fire extinguishers using any carbon tetrachloride, chlorobromomethane, or methyl bromide as extinguishing agents shall not be carried for use in or about any vehicle.

(c) Exceptions. This section shall not apply to vehicles (except school buses, SPABS, youth buses, farm labor vehicles, and GPPVs) operated solely within a 5-mile radius of one or adjoining municipalities, vehicles subject to more restrictive provisions in this title or other code, or vehicles in any "driveaway-towaway operation" as defined in Section 303 of the Vehicle Code.

(d) Securement. Each fire extinguisher shall be securely mounted on the motor vehicle or trailer in a conspicuous place or a clearly marked compartment and readily accessible.

(e) Maintenance. Each fire extinguisher shall be maintained in efficient operating condition and equipped with some means of determining if it is fully charged.

(f) School Bus Fire Extinguishers. In addition to the other requirements of this section, school buses shall be equipped with one or two extinguishers having an aggregate rating of not less than 8B:C units, provided each extinguisher is rated at not less than 4B:C. A wheelchair school bus shall be equipped with two extinguishers, each one rated at not less than 8B:C; one to be placed in the driver's compartment and the other at the wheelchair loading door or emergency exit.

(1) School bus fire extinguishers shall be inspected and serviced only by a person, firm, or organization authorized to do so by the State Fire Marshal.

(2) Inspection or servicing shall be done at yearly intervals or at intervals prescribed in regulations adopted by the State Fire Marshal, whichever intervals are shorter.

NOTE: Authority cited: Sections 31401, 34501, 34501.5, 34501.8 and 34508, Vehicle Code; and Section 39831, Education Code. Reference: Sections 31401, 34501, 34501.5, 34501.8 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment of subsection (c) filed 7-30-80; designated effective 9-1-80 (Register 80, No. 31).
2. Amendment of subsection (c) filed 5-15-81; effective thirtieth day thereafter (Register 81, No. 20).
3. Amendment filed 11-5-81; effective thirtieth day thereafter (Register 81, No. 45).
4. Amendment filed 10-28-82; effective thirtieth day thereafter (Register 82, No. 44).
5. Amendment filed 10-28-86; effective thirtieth day thereafter (Register 86, No. 44).
6. Amendment of subsection (c) filed 8-16-88; operative 9-15-88 (Register 88, No. 34).

§ 1242.5. Liquid Burning Flares, Fusees, Oil Lanterns, etc.

Liquid burning flares, fusees, oil lanterns, or any signal produced by a flame shall not be carried on any commercial motor vehicle using compressed gas as a motor fuel.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. New section filed 6-17-96; operative 7-17-96 (Register 96, No. 25).

§ 1243. First Aid Kits.

(a) Vehicles Required to Carry Kits. Every school bus, youth bus, farm labor vehicle, and GPPV shall carry a readily visible, accessible, and plainly marked first aid kit.

(b) Construction. The kit shall be constructed to prevent dust and moisture from reaching the contents and maintained in good condition. The kit shall be removable from the place secured.

(c) Minimum Requirements. The required contents of school bus first aid kits and the required number of units (determined by the number of passengers a school bus is designed to carry) are shown in Table I. Each youth bus and farm labor vehicle shall be equipped with a 10-unit first aid kit (Table I). First aid kits in use that conform to the former U. S. Department of Transportation regulations on first aid kits for buses will continue to be accepted.

Table I. Required Units in First Aid Kits

Unit	Number of Passengers		
	1-16	17-42	43 or more
1-in. adhesive compress	1	2	2
2-in. bandage compress	1	2	2
3-in. bandage compress	1	1	2
4-in. bandage compress	1	1	2
Eye dressing packet (3 cotton eye pads, 3 sets adhesive plastic strips)	—	—	1
Plain gauze pads (3 x 3-in.)	1	1	1
Gauze roller bandage (2 rolls, 2 in. x 6 yd.)	1	1	2
Plain absorbent gauze (1/2 sq. yd.)	1	2	4
Plain absorbent gauze (24 x 72-in.)	1	2	3
Triangular bandages (40-in.)	1	3	4
Scissors, tweezers	1	1	1
TOTAL UNITS	10	16	24

NOTE: Authority cited: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code. Reference: Sections 31401, 34501 and 34501.5, Vehicle Code.

HISTORY

1. Amendment of subsection (c) and repealer of subsection (d) filed 5-14-79; effective July 1, 1979 (Register 79, No. 19).
2. Amendment filed 8-31-83; effective thirtieth day thereafter (Register 83, No. 36).
3. Amendment of subsections (a) and (c) filed 4-16-86; effective thirtieth day thereafter (Register 86, No. 16).
4. Amendment of subsection (a) filed 8-16-88; operative 9-15-88 (Register 88, No. 34).
5. Amendment of subsection (c) (Table I) and NOTE filed 4-15-98; operative 5-15-98 (Register 98, No. 16).

§ 1244. Tires, Rims, and Wheels.

All tires, rims, and wheels used on vehicles subject to these regulations shall comply with the requirements of Article 14, Chapter 4, of this title, beginning with Section 1080, and the following provisions:

(a) Aluminum Wheels. No aluminum alloy disc wheel demountable at the hub and manufactured on or before September 30, 1955, shall be used on the front or steering axle(s) of a motor vehicle or the leading vehicle of a vehicle combination.

(b) Spare Tires. Externally mounted spare tires shall be contained and supported by tire carriers or other means specifically designed for the purpose and secured to prevent accidental release of the tires.

(c) School Bus Tires and Rims. All tires and rims used on school buses shall comply with the following requirements:

(1) All tires on a school bus shall be of the same size, except as otherwise specified on the Federal data plate or label.

(2) All Type 1 school buses shall have dual tires on the rear axle.

(3) No tire shall be permitted inside a Type 1 school bus, nor shall any tire compartment project into the passenger compartment. Spare tires shall be secured to the vehicle and shall not be placed across a window, entrance, or any exit, or in any position that may endanger the occupants.

NOTE: Authority and reference cited: Section 34508, Vehicle Code.

HISTORY

1. Amendment of subsection (b) filed 4-2-81; effective thirtieth day thereafter (Register 81, No. 14).
2. Amendment of subsection (c) filed 4-16-86; effective thirtieth day thereafter (Register 86, No. 16).
3. Change without regulatory effect amending first paragraph filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).

§ 1245. Brakes—All Vehicles.

(a) Reciprocating Compressor Discharge Line—Every part of the first 24-inch length of a reciprocating air compressor discharge line, measured from the compressor discharge port, shall be designed to withstand at least 450 degrees Fahrenheit for continuous service and, if flexible hose, shall be reinforced by at least one layer of wire braid. The entire air discharge line and its couplings shall show no leakage under a pressure of 200 pounds per square inch for 5 minutes. This provision does not ap-

ply to school buses manufactured prior to January 1, 1968, or to vehicles manufactured on and after March 1, 1975, in compliance with FMVSS 121 (49 CFR 571.121).

(b) Check Valves—Motor vehicles equipped with a check valve in compliance with Vehicle Code Sections 26507 and 26522 shall have a readily accessible means for testing proper operation of the valve, and tools needed for the test shall be carried in the vehicle. The means shall not consist of loosening any connection between the source of compressed air or vacuum and the check valve. This provision does not apply to Type 1 school buses manufactured prior to January 2, 1968.

(1) In air brake systems, the means shall be a manually operated drain cock or other device between the check valve and the compressor.

(2) In vacuum systems, the means may be the stopping of the engine.

(c) Air Reservoirs—Property-carrying vehicles first sold and registered after January 1, 1967, school buses, farm labor vehicles, and Type 1 buses, equipped with air or vacuum brakes, shall have a reserve capacity sufficient to ensure a full service brake application with the engine stopped without depleting the air pressure or vacuum below 70 percent of that indicated by a gauge immediately before the brake application. Such vehicles manufactured on and after March 1, 1975, and equipped with air brakes shall have a reserve capacity sufficient to ensure a full brake application with the engine stopped without depleting the air pressure below 85 percent of that indicated by a gauge immediately before the application.

(1) Air Reservoir Specifications—Air brake reservoirs installed as original equipment on vehicles manufactured in compliance with FMVSS 121 (49 CFR 571.121) are not required to be marked. Replacement air brake reservoirs shall meet SAE J10 in the 1965 or later edition of the SAE Handbook and be marked with the manufacturer's initials followed by "SAE J10 150 psi Rated Working Pressure" and the date of manufacture. Auxiliary air tanks shall meet the requirements of Section 1252 of this title.

(2) Air Reservoir Drains—Air reservoirs used in brake systems shall have means other than a plug for draining water and contaminants from the lowest portion of the reservoir. Multicompartment air brake reservoirs shall provide such means for draining each compartment.

(d) Air Flow Restriction—Any valve or other mechanism of an air brake system that restricts the free flow of compressed air between the brake application control and the brake actuators at application pressures above 10 pounds per square inch under normal operating conditions shall comply with the brake equipment requirements in Article 12, Chapter 4, of this title, beginning with Section 1061, except as provided in Vehicle Code Section 26311(b) governing reduced braking effort on front wheels.

(e) Detachable Connections—Detachable air or vacuum connections shall be constructed, installed, and maintained to ensure against accidental disconnection. When connections at the end of flexible air lines are left detached, they shall be adequately protected against the entrance of dirt.

(f) Brake Tubing and Hose Requirements—Tubing, pipe, and hose used in air, vacuum, or hydraulic brake systems shall be:

(1) designed and constructed in a manner that ensures proper, adequate, and continued functioning,

(2) sufficiently long and flexible to accommodate without damage all normal motions of the parts to which it is attached,

(3) suitably secured against chafing, kinking, or other mechanical damage,

(4) installed in a manner that prevents contact with the vehicle's exhaust system or other source of high temperature, and

(5) installed in a manner that ensures proper continued functioning and that is free of leaks, constrictions, or other defects.

(A) Tubing or pipe shall be supported to minimize fatigue.

(B) Metal-to-metal contact shall be avoided by the use of soft nonmetallic cushions at points of support.

(C) Tubing or pipe shall be protected against road hazards either by a protected location or adequate shielding at exposed areas.

(D) Protective loom, where used, shall be both water and acid resistant.

(E) Vacuum brake systems shall be connected to the engine manifold with fittings at least 3/8 inch in inside diameter.

(g) Brake Tubing and Hose Connections—Connections for air, vacuum or hydraulic brake systems shall:

(1) be adequate in material and construction to ensure proper continued functioning.

(2) be designed, constructed, and installed to ensure an attachment free of leaks, constrictions, or other defects when properly connected, and

(3) use fittings that meet SAE J512 OCT 80, Automotive Tube Fittings, or SAE J246 MAR 81, Spherical and Flanged Sleeve (Compression) Tube Fittings, for tubing splices made on a vehicle on or after July 1, 1992.

(h) Brake Tubing—Metallic tubing shall only be used where relative movement in the line does not occur.

(1) On vehicles manufactured after July 1, 1992, and on any replacements made to the brake line on any vehicle after this date, nonmetallic (plastic) brake tubing shall only be used where relative movement does not occur or through an articulation point provided movement is less than 4.5 degrees in a vertical plane and 7.4 degrees in a transverse horizontal plane. Plastic tubing shall not touch or be attached to leaf, coil, or air suspension springs.

(2) Brake Hose and Coiled Nonmetallic Tubing—Brake hose and coiled nonmetallic brake tubing is for use where substantial relative movement in the line occurs or the line is exposed to potential tension or impact such as between the frame and axle in a conventional suspension system. Only coiled nonmetallic brake tubing or brake hose may be used for connections between towed and towing vehicles or between the frame of a towed vehicle and the sliding subframe of an adjustable axle of that vehicle. If coiled nonmetallic brake tubing is used in these locations it shall be encased in a spring guard or similar device which resists kinking of the tubing at the fittings to which it is attached.

(i) Air Brake Tubing Standards—Air brake tubing that is original equipment on a vehicle at time of manufacture is not required by FMVSS to meet any requirement but is subject to National Highway Traffic Safety Administration (NHTSA) recall if it become a safety defect. Replacement brake tubing installed on or after July 1, 1992, shall meet the following Society of Automotive Engineers Standards:

(1) Metallic Tubing—Metallic tubing shall be copper tubing or galvanized steel pipe meeting SAE J1149, Metallic Air Brake System Tubing and Pipe. Copper tubing shall be permanently and legibly marked "Air Brake."

(2) Nonmetallic Tubing—Nonmetallic tubing shall meet SAE J844, Nonmetallic Air Brake System Tubing, Type B (reinforced). Such tubing shall be identified in contrasting color with the markings "Airbrake, SAE J844 Type B," the nominal outside diameter of the tubing in inches, and the tubing manufacturer's name or symbol.

(j) Brake Hose Standards—Air, hydraulic, and vacuum brake hoses installed on and after September 1, 1974, shall comply with FMVSS 106, Brake Hoses (49 CFR 571.106), except S12 and S13.

(1) Original Equipment Components—Components that are original equipment on a vehicle at time of manufacture are not required by FMVSS to be identified in any manner but are subject to NHTSA recall for noncompliance with the performance requirements of the standards.

(2) Brake Hose—Air, hydraulic, and vacuum brake hose manufactured on or after September 1, 1974, shall be marked in letters at least 1/8 inch high with "DOT", the hose manufacturer's designation, the month and year of manufacture, and the nominal inside diameter of the hose. FMVSS 106 does not require these markings to be visible on a completed brake hose assembly.

(3) Replacement Air Brake Hose Assemblies—Replacement air brake hose assemblies manufactured on or after September 1, 1974, with end fittings attached to the hose by crimping or swaging shall have at least one end fitting etched, stamped, or embossed with a designation at least 1/16 inch high that identifies the hose assembly manufacturer.

(4) Air Brake Hose Fittings—Air brake hose fittings manufactured on or after September 1, 1974, that are not crimped or swaged shall have at

least one component etched, stamped, or embossed in block capital letters, numerals, or symbols at least 1/16 inch high with "DOT", a designation that identifies the manufacturer of that component of the fittings, "A" for nonreusable fittings at "AI" or "AII" for reusable fittings, and the nominal inside diameter in inches or millimeters (or outside diameter of plastic tubing) to which the fitting is properly attached.

(5) Hydraulic Brake Hose Assemblies—Hydraulic brake hose assemblies manufactured on and after September 1, 1974, shall have at least one end fitting etched, stamped, or embossed with a designation at least 1/16 inch high that identifies the manufacturer of the assembly. Each hose shall have at least two clearly identifiable stripes at least 1/16 inch wide placed on opposite sides of the hose parallel to its longitudinal axis, except where the end fittings prevent its installation in a twisted orientation on either side of the vehicle.

(6) Vacuum Brake Hose Assemblies—Vacuum brake hose assemblies manufactured on or after September 1, 1974, with end fittings that are attached to the hose by crimping or swaging, or to plastic tubing by heat shrinking or interference fit, shall have at least one end fitting etched, stamped, or embossed with a designation at least 1/16 inch high that identifies the manufacturer of the assembly.

(7) Manufacturer's Option—At the manufacturer's option, brake hose assemblies may instead be marked by a band around the assembly with the letters "DOT" and with a designation that identifies the hose assembly manufacturer, in letters, numerals, or symbols at least 1/16 inch high.

(k) Air Leakage Rates—Air leakage with the engine stopped and the air reservoir pressure at governor cutout as specified in Section 1061(b) of this title shall not exceed the following rates.

(1) With service brake released and air or spring parking brakes applied:

2 pounds per square inch per minute for single vehicles,

3 pounds per square inch per minute for combinations of two vehicles, and

5 pounds per square inch per minute for combinations of three or more vehicles.

(2) With service brakes applied and air or spring parking brakes released:

3 pounds per square inch per minute for single vehicles,

4 pounds per square inch per minute for combinations of two vehicles, and

6 pounds per square inch per minute for combinations of three or more vehicles.

(3) No leakage shall occur in tubing or hose even if the overall leakage is less than the specified limit.

(l) Hydraulic Brakes—The pressure of hydraulic brakes shall not be higher than the manufacturer's rated capacity of the hose assemblies.

NOTE: Authority cited: Sections 26502, 31401, 34501, 34501.5 and 34508, Vehicle Code. Reference: Sections 26502, 31401, 34501, 34501.5 and 34508, Vehicle Code.

HISTORY

1. Amendment of subsection (c)(4) filed 10-22-81; effective thirtieth day thereafter (Register 81, No. 43).
2. Amendment filed 8-31-83; effective thirtieth day thereafter (Register 83, No. 36).
3. Change without regulatory effect of subsection (e) (Register 86, No. 48).
4. Repealer and new section filed 5-14-92; operative 6-15-92 (Register 92, No. 20).
5. Editorial correction of printing error in subsection (i)(2) (Register 94, No. 2).
6. Repealer of subsection (d), subsection relettering, and amendment of newly designated subsection (j)(5) filed 9-6-95; operative 10-6-95 (Register 95, No. 36).

§ 1246. Brakes—School Buses and Farm Labor Vehicles.

The following additional brake requirements shall apply to school buses and farm labor vehicles:

(a) Air Brakes—Type 1 school buses having 10 or more rows of seats and manufactured after January 1, 1970, and prior to April 1, 1977, shall be equipped with full compressed air brakes. Type 1 school buses equipped with air brakes and manufactured after January 1, 1953, shall have at least two reservoirs connected in series. On all school buses manufactured on or after July 1, 1970, the air-actuated devices outside the

service and emergency brake systems shall also be provided with a reservoir equal to at least six times the total volume at full travel of all auxiliary devices supplied by the reservoir. The reservoir requirement for the air-actuated devices outside the service and emergency brake systems shall not apply to school buses manufactured on or after March 1, 1975, in compliance with FMVSS 121 (49 CFR 571.121).

(b) Warning Devices—Type 1 school bus brake systems shall have warning devices as follows:

(1) Air brakes shall have a buzzer or other audible warning signal and a visual, air-operated, flag-type warning device, both used exclusively for the brake system. Both devices shall give a continuous warning when the air supply pressure in the first reservoir to receive air from the compressor, or any service reservoir, drops below a fixed pressure as specified by Vehicle Code Section 26506. The flag-type device is not required on vehicles manufactured on or after March 1, 1975, in compliance with FMVSS 121 (49 CFR 571.121).

(2) Vacuum brakes shall have a buzzer or other audible warning signal and a visual, vacuum-operated, flag-type warning device, both used exclusively for the brake system. They shall provide continuous warning to the driver when the vacuum in the supply system drops to 8 inches of mercury and less. The requirement for the flag device shall not apply to vehicles manufactured with a dual or split type service brake system powered by power-assist vacuum chambers.

(3) The visual warning devices required in (1) and (2) shall be readily visible to the driver when seated in the normal driving position.

(4) Override switches are prohibited for audible warning devices required in (1) and (2).

(5) The requirements in (1) and (2) for warning devices to be used exclusively for the brake system shall not be construed to prohibit multi-channel warning devices that monitor other vehicle systems in addition to the brake system if such devices provide a clear brake system warning that cannot be activated by any of the other monitored vehicle systems.

(c) Brake System Modification—Brakes on Type 1 school buses may be modified only with the written approval of the school bus chassis manufacturer or by using brake system options of a type available from the bus manufacturer and represented by the bus manufacturer as suitable for use on the specific model school bus. Modifications shall not render the brake system in violation of the provisions of this title or of any other law or regulation. Modifications shall not render inoperative any item of brake-related equipment nor diminish any aspect of performance of a brake system manufactured in compliance with FMVSS 121, except as permitted by written ruling of the National Highway Traffic Safety Administration.

(1) Air system cleaning devices, such as automatic condensate drains and air dryers, are not considered a modification of the brake system if they are installed in accordance with the component manufacturer's instructions.

(2) A conversion from an air brake chamber that has an air applied parking brake or emergency stopping system function to a brake chamber that has a spring applied parking brake or emergency stopping system function, or vice versa, is not considered a modification if the conversion is made in accordance with the substitute component manufacturer's instructions.

(3) Any advisory recommendations by the component manufacturer shall be considered mandatory. The instructions shall be retained by the school bus operator for reference by California Highway Patrol personnel for comparison with the completed installations.

(d) Service Brake System—Type 1 school buses manufactured on and after January 1, 1968, shall comply with the following requirements:

(1) Foot Pedal Travel—The travel of hydraulic brake foot pedals shall not exceed 60 percent of the available travel when measured statically at the minimum pedal force required for compliance with Vehicle Code Sections 26454 on stopping distance.

(2) Air or Vacuum Reservoirs—The combined volume of all service reservoirs shall be at least 12 times the combined volume of all service brake chambers at maximum travel of the pistons or diaphragms.

(3) Check Valves—Brake systems safeguarded by the check valve referenced in Section 1245(b) of this title shall meet the following requirements:

(A) Air Brake System—At least half of the required air reservoir capacity shall be safeguarded to prevent the stored air from being depleted by any failure or leakage in the connection to the source of compressed air. Air supply for the service brakes shall be protected so that failure of the air-actuated devices outside the service brake system will not drop the service brake supply system pressure to less than 60 pounds per square inch.

(B) Vacuum Brake System—The required vacuum brake system reservoir capacity shall be safeguarded to prevent the stored vacuum from being depleted by any failure or leakage in its connection to the source of vacuum. The supply of vacuum for all devices or systems other than the brake system shall be drawn from between the brake system check valve and the source of vacuum.

(e) Emergency Stopping System—Type 1 school buses manufactured after January 1, 1968, shall comply with the following emergency stopping system requirements:

(1) The brakes shall be capable of being applied, released, and reapplied by the driver but shall not be capable of being released from the driver's seat after any reapplication unless energy is available for an immediate reapplication.

(2) The brakes shall be manually applied and released under modulated control by the driver to maintain directional stability during a complete emergency stop.

(3) Failure or malfunction of any part in either the emergency stopping system or the service brake system shall not leave the vehicle without operative brakes capable of stopping the vehicle loaded up to the manufacturer's gross vehicle weight rating within the requirements of California Vehicle Code Section 26508(k)(3).

This provision does not apply to a failure in the mechanical parts of the wheel brake assemblies or the brake pedal and linkage to the brake valve or master cylinder.

(4) School buses manufactured on or after March 1, 1975, in compliance with FMVSS 121 (49 CFR 571.121) and maintained in compliance with that standard, shall be deemed in compliance with this subsection.

(f) Reservoir Capacity—The reservoir capacity of school buses and farm labor vehicles shall be sufficient to complete one operation of the doors after the engine has stopped and the brakes have been fully applied. NOTE: Authority cited: Sections 31401 and 34508, Vehicle Code. Reference: Sections 31401 and 34508, Vehicle Code.

HISTORY

1. Amendment of subsections (b)(2) and (d)(3)(A) filed 6-9-82; effective thirtieth day thereafter (Register 82, No. 24).
2. Amendment of subsection (b)(1) filed 4-16-86; effective thirtieth day thereafter (Register 86, No. 16).
3. Repealer and new section filed 5-14-92; operative 6-15-92 (Register 92, No. 20).
4. Editorial correction of printing error in subsection (e)(3) (Register 92, No. 29).
5. Change without regulatory effect amending subsection (d)(3)(B) and NOTE filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).

§ 1247. Towing Equipment.

The lower half of the fifth wheel on any truck, tractor, or dolly shall be securely attached to the frame by nonwelded U-bolts of adequate size or other equally effective means. Capscrews and bolts used to secure the fifth wheel to the vehicle frame shall meet SAE Standard J429 for Grade 5 threaded fasteners in the 1965 or any later edition of the SAE Handbook, and shall be installed so that the frame will not crack, warp, or become deformed. Positive means shall be provided to prevent the lower half of the fifth wheel from shifting on the frame to which it is attached. Locking devices on a sliding fifth wheel shall have sufficient strength to control the gross weight of the vehicle or combination of vehicles being towed. All fifth wheel components shall be maintained in good condition.

§ 1248. Storage Batteries.

Every storage battery on a motor vehicle first sold and registered after January 1, 1967, unless located in the engine compartment, shall be protected by a substantial and securely fastened enclosure or removable cover. Battery compartments and all adjacent metal parts subject to corrosion from battery leakage shall be finished with an acid-resistant substance, and the compartments shall be vented to provide adequate battery ventilation and drainage. Cables passing through a metal compartment to the starting motor shall be insulated against grounding by acidproof and waterproof bushings. When both the battery and the fuel tank are installed under the driver's seat, they shall be separated by a partition, and each compartment shall be provided with independent covering, ventilation, and drainage.

§ 1249. Wiring.

Wiring and fuses on vehicles shall be as follows:

(a) Specifications. Wiring for circuits shall be constructed and installed to conform with mechanical and electrical requirements not less than those recommended for automobile wiring in the 1952 or any later edition of the SAE Handbook. Required lamps shall be connected to the source of power with stranded wire. This shall not prohibit use of the frame or other metal parts of a motor vehicle as a ground-return system, provided there is adequate electrical grounding between towing and towed vehicles.

(b) Wiring Protection. Wires shall be grouped together and protected either by nonmetallic tape, braid, or other covering capable of withstanding severe abrasion or a metallic sheath or tube. Wiring shall be properly supported and located so as to avoid becoming charred, overheated, or enmeshed in moving parts. Insofar as is practical, wiring shall not be adjacent to any part of the fuel system. Unless the wiring is metal covered, the edges of all holes in metal through which the wiring passes shall be rolled or bushed with a grommet of rubber or other suitable material.

(c) Wire Size and Connectors. Wires shall be of sufficient size to eliminate excessive voltage drop and to prevent overheating. All joints shall be soldered or fastened both mechanically and electrically with equally effective connectors and shall be insulated. Voltage at the bulb sockets when lamps are burning shall be at least 85% of the design voltage of the bulb with the engine running.

(d) Detachable Connections. The electrical wiring of detachable connections between towing and towed vehicles shall be contained in a cable, cables, or other substantially constructed protective device, and shall be mechanically and electrically adequate and free of short or open circuits. Suitable provisions shall be made for the prevention of an incorrect connection or an accidental disconnection. Any detachable connection made by twisting wires together from the towed and towing units is prohibited. Wires or cables shall have sufficient slack to accommodate all normal motion of the parts to which they are attached without damage to the connection.

(e) Spare Fuses. Each combination of vehicles or each motor vehicle if operated singly shall be equipped with at least one spare fuse or other overload protective device, if the devices used are not of a reset type, for each kind and size used. In driveaway-towaway operations, spares located on any one of the vehicles will be deemed adequate.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. Amendment of first paragraph and new subsection (e) and NOTE filed 6-17-96; operative 7-17-96 (Register 96, No. 25).

§ 1250. School Bus Wiring.

Additional requirements for school bus wiring are as follows:

(a) All school buses shall be equipped with spare fuses of each size used.

(b) All interior wiring for Type 1 school buses constructed after January 1, 1953, and Type 2 school buses constructed on and after July 1, 1970, shall be concealed, and all exposed wiring shall be protected with a waterproof insulation.

(c) The wiring of each Type 1 school bus constructed after January 1, 1953, shall be arranged in at least ten circuits: (1) starting, (2) ignition, (3) headlamps, taillamps and dash lamps, (4) stop lamps, (5) flashing red/amber lamps, (6) turn signal lamps, (7) clearance lamps and/or side-marker lamps and stepwell lamps, (8) interior lamps, (9) heaters, defrosters, etc., and (10) horn. Each circuit except ignition circuits shall be protected by a separate fuse or circuit breaker with a rating no greater than the safe capacity of the circuit. Fuses, circuit breakers, flashers, pilot lamps, and switches shall be mounted in accessible locations. Head lamps and tail lamps shall be illuminated by a common switch.

(d) Ignition circuits on all school buses manufactured after July 1, 1980, shall incorporate a key-type switch that will stop the engine when the switch is turned to the off position.

NOTE: Authority and reference cited: Section 34508, Vehicle Code.

HISTORY

1. New subsection (d) filed 4-3-80; designated effective 7-1-80 (Register 80, No. 14).
2. Amendment of subsection (c) filed 9-6-95; operative 10-6-95 (Register 95, No. 36).

§ 1251. Dump Body Vehicle Equipment.

Every vehicle equipped with a dump body that tilts to release its load through an opening at the rear by gravity, or a hopper body that releases its load without tilting through a bottom-hinged opening, shall comply with the following applicable requirements:

(a) Identification of Load Release Functions. Identification plates, labels, or markings shall clearly indicate the functions of hopper body load release actuator switches and valves and of dump body elevating controls located in driver's compartments.

(b) Electrical Load Release Controls. Electrical wiring circuits used to actuate hopper body load release mechanisms shall comply with the requirements in Section 1249, subsections (a), (b), and (d) of this title. Such wiring shall not terminate in plugs, connectors, or connections used for other electrical circuits. Load release actuator switches mounted on instrument panels in driver's compartments shall be protected by guards or spring-loaded covers to prevent unintentional operation.

(c) Pneumatic Load Release Controls. Pneumatic control valves located in driver's compartments to actuate hopper body load release mechanisms shall be installed, protected, or guarded to prevent unintentional operation.

(d) Hydraulic Elevating Systems. Every dump body, elevating mechanism, or hydraulic system control shall have a device that gives the driver a clearly audible or visible warning when sufficient force is applied to cause or sustain dumpbody elevation.

(e) External Controls. Unless designed to prevent accidental actuation, load elevating and releasing controls located outside driver's compartments shall be installed in a protected location or shielded to prevent accidental actuation.

§ 1252. Auxiliary Air Tanks.

Airtanks having an inside diameter of more than 6 in. and used for the operation of auxiliary equipment that is not part of the brake system but has the same source of compressed air shall comply with the following requirements:

(a) Air Tanks 1971 and Later. Auxiliary air tanks on vehicles first manufactured and registered after January 1, 1971, shall be constructed and marked in accordance with the 1962 or any later edition of section VIII, Unfired Pressure Vessels, ASME Boiler and Pressure Vessel Code (American Society of Mechanical Engineers), or with SAE Standard J10 in the 1965 or any later edition of the SAE Handbook.

(b) Air Tanks Before 1971. Auxiliary air tanks on vehicles registered prior to January 1, 1971, shall meet the requirements of preceding subsection (a), or they shall be designed and constructed in accordance with recognized engineering practices and standards with a safety factor of not less than four times the tank working pressure.

(c) Securement. Auxiliary air tanks shall be positioned and secured so that, when the vehicle is fully loaded, the bottom of the tank and any connection thereto is not lower than the lowest horizontal edge of the vehicle axle.

(d) Tubing and Hose Requirements. All tubing and hose used in the installation of air tanks subject to this section shall comply with the specific requirements for brake tubing and hose in Section 1245(h) through (k) of this title. This provision shall not apply to auxiliary air-actuated systems equipped with air pressure protection devices that prevent the air pressure in the service brake system from dropping below 60 pounds per square inch in the event of air pressure loss from any portion of the auxiliary system, provided the tubing, hose, and fittings used in such installations are designed for air pressure applications.

NOTE: Authority cited: Sections 31401, 31501, 31501.5 and 34508, Vehicle Code. Reference: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code.

HISTORY

1. Amendment of subsection (d) filed 6-9-82; effective thirtieth day thereafter (Register 82, No. 24).
2. Amendment of subsection (d) and NOTE adding Reference filed 7-22-91; operative 8-21-91 (Register 91, No. 46).
3. Amendment of subsection (d) filed 5-14-92; operative 6-15-92 (Register 92, No. 20).

§ 1253. Liquid Fuel Supply Tanks and Systems.

Motor vehicles (except school buses) propelled by fuel that is liquid at normal atmospheric pressures and temperatures shall be equipped as follows:

(a) General Requirements. Every tank or container that contains fuel for the motor vehicle upon which it is installed shall be substantially constructed, free of leaks, securely mounted, maintained in good condition, and sealed by a cap or plug with a bayonet-type joint, screw threads, or other equally effective means of securement. No fuel system shall permit direct gravity or siphon feed to the carburetor or injector.

(b) Projection. No part of any fuel tank, container, or intake pipe, including valves and pipes, shall project beyond the overall width or forward of the front axle of the motor vehicle upon which it is installed. Drains and fittings attached to the bottom of diesel fuel tanks shall be mounted as close to the tank as practicable.

(c) Installation. Fuel supply lines shall be properly supported to minimize vibration.

(1) Fuel lines shall not extend between the towed and towing vehicles of a vehicle combination in motion.

(2) Selector valves for regulating fuel feed from more than one tank shall not be operable while the vehicle is in motion unless they are within easy reach of the driver.

(d) Additional Requirements for Motor Vehicles Manufactured after July 1, 1997.

(1) A fuel line which is not completely enclosed in a protective housing must not extend more than two inches below the fuel tank or its sump. Diesel fuel crossover, return, and withdrawal lines which extend below the bottom of the tank or sump must be protected against damage from impact.

(2) Excess Flow Valve. When pressure devices are used to force fuel from a fuel tank, a device which prevents the flow of fuel from the fuel tank if the fuel feed line is broken must be installed in the fuel system.

NOTE: Authority cited: Section 34501, Vehicle Code. Reference: Section 34501, Vehicle Code.

HISTORY

1. New subsections (d)-(d)(2) and new NOTE filed 6-17-96; operative 7-17-96 (Register 96, No. 25).

§ 1254. Liquefied and Compressed Gas Fuel Systems.

Motor vehicles fueled by compressed or liquefied natural gas or liquefied petroleum gas shall be equipped with fuel containers and systems that comply with Article 2, commencing with Section 930 of this title. A school bus that has been modified to use compressed or liquefied natural gas or liquefied petroleum gas shall not be used to transport pupils until the fuel system installation has been inspected by the department.

NOTE: Authority and reference cited: Sections 31401, 34501, 34501.5, and 34508, Vehicle Code.

HISTORY

1. Amendment filed 4-3-80; designated effective 7-1-80 (Register 80, No. 14).
2. Amendment filed 9-6-95; operative 10-6-95 (Register 95, No. 36).

§ 1255. Fuel Tanks and Fuel Lines.

(a) Fuel lines shall not enter or pass through the passenger compartment of any bus, except to provide fuel to a combustion heater installed in compliance with Section 1259.

(b) Fuel tanks on school buses shall be located entirely outside the passenger compartment.

(c) Type 1 Buses. Fuel tanks on Type 1 school buses constructed after January 1, 1950, and prior to April 1, 1977, shall have a capacity of not less than 18 gal and shall be mounted between the front axle and a point not less than 18 in. from the rear end of the frame or body and to the right side. However, if insufficient space is available on the right side of a short wheel base chassis designed to carry fewer than 30 pupils, the tank may be placed on the left side. The tank shall not extend above the side member of the chassis or beyond the outer edge of the body. Filler, vent, and drain openings shall be outside the bus body. The filler shall not project beyond body panels. Except for diesel fuel systems, fittings through which fuel is drawn shall be located above the normal "full" line of tanks installed after January 1, 1974.

(d) Type 2 Buses. For fuel tanks on Type 2 school buses manufactured on and after July 1, 1970, those specifications set forth in the regulations of the Department of Transportation, National Highway Traffic Safety Administration, Federal Motor Vehicle Safety Standards applicable at time of manufacture shall apply.

NOTE: Authority and reference cited: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code.

HISTORY

1. Amendment filed 4-27-83; effective thirtieth day thereafter (Register 83, No. 18).

§ 1256. Identification.

(a) Vehicles and Combinations. Every motor vehicle other than a school bus, or at least one vehicle in every combination of vehicles exceeding a total length of 40 feet, shall display on both sides the name or trademark of the motor carrier under whose authority the vehicle or combination of vehicles is being operated or the name of the lessor or lessee thereof. Required markings shall contrast sharply with the background and shall be readily legible during daylight from a distance of 50 feet.

(b) Hazardous Waste Transporters. Each vehicle in a combination of vehicles registered with the Department of Toxic Substances Control for the transportation of hazardous waste shall display on both sides the name or trademark of the hazardous waste transporter, as required by Section 66263.23(e) of Title 22 of this code.

(c) Passenger Stage Service. Buses and other vehicles operated in passenger stage service by a passenger stage corporation, and such vehicles operated by an entity receiving financial transit assistance from the state, shall display in the interior of such vehicles in clear view of passengers a notice prohibiting smoking in the vehicle. The notice shall be displayed as a symbol and in English, as required by Section 25949.2 of the Health and Safety Code.

(d) Farm Labor Vehicles. Every farm labor vehicle shall be identified as follows:

(1) Markings.

(A) The words "FARM LABOR VEHICLE" shall be displayed on each side of each farm labor vehicle in uppercase lettering on a sharply contrasting background. Letters shall be a minimum of 1.5 inches in height and clearly legible from a distance of 50 feet during daylight hours.

(B) The words "TO REPORT VIOLATIONS" in uppercase characters and the toll-free telephone number "1-800-TELL CHP" shall be displayed on the exterior on each side of each farm labor vehicle on a sharply contrasting background. Characters shall be a minimum of 1 inch in height and may be displayed on one or two lines.

(2) Interior Notice. A farm labor vehicle notice in English and Spanish, furnished by the department, shall be displayed in the interior of each farm labor vehicle in a location visible to the passengers. The required notice, *Farm Labor Vehicle Notice*, CHP 408C (New 12-99), shall be completed by an authorized employee of the department to indicate the maximum number of passengers the vehicle is permitted to transport and the vehicle license number. The notice shall also advise the reader of the toll-free departmental telephone number where violations relating to the operation of farm labor vehicles may be reported.

NOTE: Authority cited: Sections 31401 and 34501, Vehicle Code. Reference: Sections 31401, 34501 and 34507.5, Vehicle Code.

HISTORY

1. New subsection (b)(3)(D) filed 8-24-79; designated effective 10-1-79 (Register 79, No. 34).
2. Amendment of subsection (b)(1) filed 4-2-81; effective thirtieth day thereafter (Register 81, No. 14).
3. Amendment of subsection (b)(2) filed 5-15-81; effective thirtieth day thereafter (Register 81, No. 20).
4. Amendment of subsection (b)(3)(B) filed 4-27-83; effective thirtieth day thereafter (Register 83, No. 18).
5. Amendment of subsection (a) and repealer of subsection (c) filed 7-12-85; effective thirtieth day thereafter (Register 85, No. 28).
6. New subsection (b)(3)(E) filed 10-31-86; effective thirtieth day thereafter (Register 86, No. 44).
7. Amendment filed 7-17-89; operative 8-16-89 (Register 89, No. 29).
8. Editorial correction adding text inadvertently omitted from printing (Register 91, No. 18).
9. Editorial correction of subsection (b)(3)(E)3. and restoring missing HISTORY 7. and renumbering former HISTORY 7. to current HISTORY 8. (Register 91, No. 31).
10. Repealer and new section filed 11-27-91; operative 12-27-91 (Register 92, No. 9).
11. Change without regulatory effect amending subsection (a) filed 5-13-92 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 20).
12. Amendment of subsections (b) and (c) and new subsections (d)-(d)(2) filed 7-3-2001; operative 8-2-2001 (Register 2001, No. 27).

§ 1256.5. School Bus Color and Signs.

(a) Each school bus shall be identified as follows:

(1) Body and Trim Colors. Whenever in this section the color yellow is specified, it shall mean National School Bus Yellow unless otherwise stated. Exteriors (except bumpers, grilles, lamp bodies, and other accessories) shall be yellow. The following items may be black:

(A) Moldings and rub rails.

(B) Seals, scratch guards, and other components manufactured from rubber or similar flexible synthetic materials.

(C) A border no more than 4 inches wide around stop lamps, turn signal lamps, or flashing red/amber lamps. The border around turn signal lamps may incorporate an arrow indicating direction of turn.

(D) The wheels may be a color different from the body color, and the upper half of the engine hood may be black. The roof of a school bus may be painted white, but the words "SCHOOL BUS" shall have a yellow background.

(2) Identifying Signs and Numbers. Each school bus shall be identified with the exterior signs and numbers shown in subsection (b). Signs may be either adhesive decals or painted, and shall be maintained in legible condition. Letters and numerals of all signs required by subsection (b) shall be solid black on a yellow background unless otherwise specifically permitted or required, and width shall be proportionate to height. On school buses manufactured on or after January 1, 1992, required signs applied to curved or slanted surfaces shall have a projected height and width that comply with the size requirements of this section.

(3) Trim, logos, accessories, and other minor appearance items installed as standard factory equipment may have bright metal finishes such as chrome plating or stainless steel.

(b) Required School Bus Signs

(1) School Bus. The words "SCHOOL BUS" or the word "SCHOOL-BUS" shall be displayed as required in Vehicle Code Section 27906(a), in upper case lettering, and shall be located above the windshield and above the rear windows of the bus.

(2) Stop When Red Lights Flash. The words "Stop When Red Lights Flash" shall be displayed as required in Vehicle Code Section 27906(c).

(3) Carrier Name. The name of the motor carrier operating the school bus shall be displayed below the windows on both sides of the bus in letters not less than 4 inches nor more than 6 inches in height. As an alternative, a sign showing the name of the school in letters 4 to 6 inches in height and the name of the district or contractor 2 to 6 inches in height is permitted. Carrier names or lettering styles which constitute a registered trademark may include a registered trademark symbol displayed in close proximity to the carrier name. Addresses, telephone numbers, stripes, slogans, or graphic designs other than the lettering style of the carrier name shall not be considered part of the carrier name and are prohibited. Extremely ornate lettering styles which substantially reduce the legibility of the required sign from a distance of 50 feet shall not be used.

(4) Bus Number. The bus number assigned by the company or school shall be displayed in characters at least 4 inches in height in one of the following manners:

(A) On all four corners of the bus body.

(B) On both front corners and centered on the rear of the bus body.

(C) On buses manufactured on and after January 1, 1992, on both sides and both ends of the bus. Each number display shall be at least 6 inches from any other sign or manufacturer's logo. The front and rear numbers shall be displayed below the bottom edge of the passengers' side window glass, and may be displayed on the bumpers of the bus only if the background behind the number is yellow and extends at least one inch above, below, and to each side of the number. After January 1, 1992, any school bus, regardless of age, may be marked to comply with this subsection instead of subsection (A) or (B) above.

(D) Buses 30 feet in length or longer may display the bus number twice on each side, one display as close as possible to each end of the bus.

(E) No school bus shall display a bus number in more locations than authorized by this section. Except for older school buses permitted to be marked as described in subsections (A) and (B), no school bus shall display a number on a corner of the vehicle to serve as both a side and end number.

(5) Carrier Number. The carrier identification number assigned by the department shall be displayed in characters two inches in height on both sides of the bus, centered not less than two inches nor more than 24 inches below the carrier name. The display shall consist of the letters CA followed by the digits assigned to the carrier. A space may be inserted between the letters CA and the digits.

(A) School buses may display the carrier's valid operating authority or identification number assigned by the Interstate Commerce Commission, the California Public Utilities Commission, or the United States Department of Transportation, in the manner specified above for carrier identification numbers, instead of the carrier identification number assigned by the department.

(B) Carrier identification numbers assigned by the department or identification numbers assigned by the Public Utilities Commission and displayed on school buses prior to September 1, 1989, may continue to be displayed irrespective of the size and location requirements of subsection (b)(5) of this section.

(6) Emergency Exit. A sign reading "EMERGENCY EXIT" in upper case letters 2 inches in height shall be on the exterior of the bus on or above each emergency exit. Exterior emergency exit signs may have a white background if located above the emergency exit in the white area of school buses with white roofs. A sign reading "EMERGENCY EXIT" in upper case letters at least 2 inches in height shall be on the interior of the bus on or above each emergency exit. Interior emergency exit signs shall be of any color that contrasts sharply with the background. Interior emergency exit signs may be backlit if no glaring light is projected into the driver's eyes either directly or by reflection from any surface forward or to either side of the driver.

(A) For exterior or interior emergency exit signs, the words "EMERGENCY DOOR" in upper case letters may be used to identify floor-level emergency doors instead of the words "EMERGENCY EXIT".

(B) Roof emergency exits shall be identified as described in subsection (b)(6) for other emergency exits, except that emergency exit signs for roof exits need not meet the size and color requirements of that subsection if they are clearly identified as emergency exits on the interior and exterior of the emergency exit assembly as supplied by its manufacturer.

(C) School buses manufactured prior to January 1, 1992 may have emergency exit signs applied as decals on the window glass of the emergency exit. If this option is exercised, the emergency exit decals shall meet the size and wording requirements of this subsection, but need not meet the color requirements.

(7) Stop Signal Arm. School buses manufactured on or after September 1, 1992, shall be equipped with at least one stop signal arm. School buses manufactured prior to September 1, 1992, may be equipped with stop signal arms. Stop signal arms shall meet the requirements of Federal Motor Vehicle Standard No. 131 (49 CFR 571.131) and the following:

(A) Size. The stop signal arm shall be a regular octagon which is at least 17.72 inches x 17.72 inches and not more than 18.25 inches x 18.25 inches in diameter.

(B) Color. The stop signal arm shall be red on both sides except as provided in subsection (C). The Stop Signal Arm shall have a white border of 0.47 inches on both sides. The word "STOP" shall be displayed on both sides, in white upper-case letters. The letters shall be a minimum of 5.9 inches in height, and a maximum of 8.0 inches in height, with a minimum stroke width of 0.79 inches and a maximum stroke width of 1.0 inches.

(C) Location. The stop signal arm shall be installed on the left side of the bus, as close as practical to the rear of the bus. The stop signal arm may not be located on a door or emergency exit door, or in any location where it can be contacted by a door or an emergency exit door when the stop signal arm is deployed or retracted. A second stop signal arm may be installed on the left side of the school bus, as close as practical to the front of the bus. When two stop signal arms are installed on a school bus, the rearmost stop signal arm shall not contain any lettering, symbols, or markings on the forward side, and the forward side shall not be reflectorized. Each stop signal arm shall be located such that, when in the extended position:

1. The arm is perpendicular to the side of the bus, plus or minus five degrees;

2. The top edge of the stop signal arm is parallel to and not more than 6 inches from a horizontal plane tangent to the lower edge of the frame of the passenger window immediately behind the driver's window; and

3. The vertical center line of the stop sign is at least 9 inches away from the side of the school bus.

(D) Warning Lamps. Each side of the arm shall be equipped with two alternately flashing red lamps meeting the requirements of SAE J1133, April 1984. The lamps shall be centered on the vertical centerline of the stop signal arm. One of the lamps shall be located at the extreme top of the stop arm and the other at its extreme bottom.

(E) Strobe Lamps. In lieu of warning lamps, each side of the arm may be equipped with two alternately flashing red strobe lamps meeting the requirements of SAE J1133, April 1984. If strobe lamps are used in lieu of required warning lamps, the existing lamps shall be removed, and the strobe lamp shall be installed in compliance with subparagraph (D) of this section.

(F) Reflectorization. Except as provided in subsection (C), if reflectorization is used the entire surface of both sides of the stop signal arm shall be reflectorized with type III retroreflectorized material that meets the minimum specific intensity requirements of FMVSS 131, S6.1.

(G) In lieu of incandescent or strobe warning lamps otherwise required by this section, each side of the stop signal arm may be equipped with

flashing light emitting diodes (LEDs) that spell out the word "STOP," meeting the requirements of FMVSS 131 (49 CFR 571.131). If LEDs are used in lieu of required warning or strobe lamps, the existing lamp-type stop signal arm(s) shall be removed, and the LED stop signal arm(s) shall be installed in compliance with subparagraph (C) of this section.

(H) Operation. The stop signal arm shall be operated by electricity, air or vacuum. Manual operation of the stop signal arm is prohibited. The stop signal arm shall be automatically extended whenever the alternately flashing red signal lamp switch is activated as required by Vehicle Code Section 22112. The stop arm shall not be activated or deployed at any other time.

(c) Optional school bus markings. The following signs, when displayed as specified, are permitted on school buses:

(1) An additional bus number may be placed on the roof for aerial identification. If used, this number shall be black on a white or yellow background. No size requirement shall apply to this number.

(2) Handicapped Sign. A white-on-blue international handicapped (wheelchair) sign may be displayed on any school bus equipped to transport pupils confined to wheelchairs. One sign may be displayed on each side and on the rear of the bus. Each sign shall be no larger than 12 inches in height and the width shall be proportional to the height. The sign shall not obscure any required sign on the bus.

(3) Additional Signs. Signs consisting of numbers, letters or illustrations with contents limited to special identification, bus routing information, warning against unauthorized entry, or an acknowledgment of a sponsor's donation of a school bus may be displayed. No color restrictions apply to this sign. The display area shall be a maximum of 12 inches by 12 inches on the sides of a school bus below the bottom edge of the passengers' side window glass and not closer than 12 inches from any required sign.

(4) Route Identification. A changeable sign designating the current route assignment of a school bus may be displayed on the right side of the bus above the entrance door or through the windshield as described in Vehicle Code Section 26708(b)(5). The sign, when installed above the entrance door, shall not exceed 6 inches in height and 16 inches in length, and shall not obstruct any required light. The face of the sign may be any color, and the body or housing of the sign shall be black or yellow. Such signs shall not emit any light. Any electrically changed signs shall be installed with all control cables protected by grommets where they pass through body panels, and shall be provided with a separate fuse or circuit breaker which does not supply power to any other device. Body or roof panels shall not be cut to recess such signs into the body or roof unless written concurrence is first obtained from the body manufacturer, stating that the proposed modification will not adversely affect the compliance of the bus with any Federal Motor Vehicle Safety Standard applicable at the time the bus was manufactured.

(d) On school buses operated for demonstration purposes and which are not certified by the department for pupil transportation pursuant to Vehicle Code Section 2807(b), the name of the manufacturer, dealer or owner may be displayed in any manner that clearly indicates the entity responsible for the operation of the bus.

(e) On a school bus leased, rented or lent to a school district, private school or contractor, for periods of not more than 30 days in any one school year, temporary signs bearing the carrier name and identification number of the school or contractor may be displayed on both sides of the bus near the name of the bailor in lieu of the permanent signs otherwise required by this section. Such temporary signs need not meet the color requirements set forth in subsection (a) of this section, but shall be displayed in characters of not less than 2 inches in height and in sharp contrast with the background. The temporary signs shall be removed immediately upon return of the bus to the bailor.

(f) Limitations on school bus markings. Colors, signs, bumper stickers, numbers or reflectorizing material not required or specifically permitted by this article shall not be permitted on school buses. A school bus operated for demonstration purposes which is not certified pursuant to

Vehicle Code Section 2807(b) is not subject to the limitations of this subsection. However, prior to certification by the department for the transportation of school pupils, all signs, colors, and other graphic devices not required or permitted by this section shall be removed, and all required signs shall be applied.

(1) The rear bumper of a school bus may be marked with diagonal reflectorized material in accordance with Vehicle Code Section 25500. The rear of a school bus body may be marked with a strip of retroreflective yellow material no greater than 2 inches in width. The strip must be placed from the left lower corner of the required "School Bus" lettering, across to the left side of the bus, then vertically down to the top of the bumper, across the bus on a line immediately above the bumper to the right side, then vertically up to a point even with the strip placement on the left side, and concluding with a horizontal strip terminating at the right lower corner of the "School Bus" lettering. The upper horizontal strip of retroreflective material may be continued below the "School Bus" lettering to connect with the strip on the left side if the body design permits. Retroreflective tape may have interruptions to avoid and/or accommodate functional components such as rivets, rubrails, curved surfaces, hinges and handles, provided the tape is immediately adjacent to these components.

(2) Emergency exits on school buses manufactured on or after May 2, 1994, shall meet the requirements of Federal Motor Vehicle Standard No. 217, S5.5.3 (49 CFR 571.217 S5.5.3) in effect at the time of manufacture. School buses manufactured prior to May 2, 1994, may be marked in accordance with FMVSS 217. Emergency exit markings in compliance with FMVSS 217 S5.5.3 shall have precedence over any other retroreflective marking permitted by this section.

(3) One reflectorized yellow horizontal stripe of any length and not exceeding 12 inches in width may be on each side of a school bus. The carrier's name may be superimposed over the stripe, but if so, shall not be reflectorized as otherwise permitted in subsection (4) below.

(4) The characters of any required sign may be formed from or painted with black material, which may reflect white light. Optional signs and their backgrounds shall not be reflectorized, except that the optional roof aerial identification number permitted in subsection (c)(1) may reflect white light. The background of the roof number shall not be reflectorized.

(5) Interior signs. Posting of safe driving and riding instructions in the driver's compartment is permitted if it does not restrict the driver's view of traffic or the instrument panel.

(6) Vehicle Information Labels. Small exterior tags or labels with lettering of not more than one inch in height indicating operational information such as, but not limited to, type of fuel, tire pressure, air reservoir drain locations, coolant filler location, etc. are not considered signs for the purposes of this section. Markings on fuel containers and fuel filler locations for liquefied petroleum gas (LPG), compressed natural gas (CNG), and liquefied natural gas (LNG) shall comply with the marking requirements for those containers as specified in this title and Vehicle Code Section 27909 regardless of the requirements of this subsection. Vehicle markings required by National Fire Protection Association Standard 52 for CNG-powered vehicles are permitted as specified in NFPA 52-1988 published by that organization.

(7) Logos. Logos of the manufacturer(s) of a school bus are not considered signs for the purposes of this section; however, logos shall not be displayed within 6 inches of any required sign. Exterior signs of any size representing the dealer or distributor of the bus are not permitted unless the dealer or distributor is either the manufacturer of the bus or, in the case of school buses manufactured in two or more stages, the final stage manufacturer. Signs on step well risers that are visible through door glass are not considered to be on the exterior of the bus.

NOTE: Authority cited: Sections 34501.5 and 34508, Vehicle Code. Reference: Sections 34501.5 and 34508, Vehicle Code; Sections 39831 and 39842, Education Code.

HISTORY

1. New section filed 11-27-91; operative 12-27-91 (Register 92, No. 9).
2. New subsection (b)(7) filed 9-15-92; operative 9-15-92 (Register 92, No. 38).

3. Change without regulatory effect amending subsections (b)(7)(C)3, (b)(7)(D) and (b)(7)(G) filed 1–6–93; operative 2–5–93 pursuant to title 1, section 100, California Code of Regulations (Register 93, No. 2).
4. Amendment of subsections (b)(4)(C), (f)(1) and (f)(7) and new subsection (f)(2) and subsection redesignation filed 5–13–94; operative 6–13–94 (Register 94, No. 19).
5. Amendment of subsections (a)(1) and (a)(1)(C) filed 9–6–95; operative 10–6–95 (Register 95, No. 36).
6. Change without regulatory effect amending subsection (c)(3) and NOTE filed 12–5–95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 49).
7. New subsection (b)(7)(G) and subsection relettering filed 3–17–99; operative 4–16–99 (Register 99, No. 12).

§ 1257. Mirrors.

All buses subject to this title shall be equipped with interior mirror(s) that give the driver a clear view of the interior of the vehicle and any rear and center entrance or exit doors and stepwells. In lieu of mirrors, trailer-bus combinations and articulated buses may be equipped with closed circuit video systems or adult monitors in voice contact with the driver.

NOTE: Authority and reference cited: Sections 546, 31401, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment filed 7–1–83; effective thirtieth day thereafter (Register 83, No. 27).

§ 1258. Mirrors on School Buses.

All Type 1 school buses and Type 2 school buses constructed on and after July 1, 1970, shall be equipped with two exterior rearview mirrors, one on each side of the bus. Every school bus shall be equipped with a cross-view mirror mounted on the front exterior of the bus to provide the seated driver with a clear view of the area directly in front of the bus.

(a) Size of Rearview Mirrors. Type 1 school buses constructed after January 1, 1965, and Type 2 school buses constructed after April 1, 1977, shall have exterior side mounted rearview mirrors, each with at least 50 sq in. in the reflective area.

(b) Size of Cross View Mirrors. All front exterior crossview mirrors required on Type 1 school buses shall have at least 40 sq in. in the reflective area.

§ 1259. Heaters and Defrosters.

(a) Buses. Every bus shall have a safe, effective defroster and heating system, which shall produce sufficient heat to provide reasonable comfort for occupants. All heating system pipes and radiators shall be shielded to protect the occupants and their clothing, and the moving parts of all heaters and defrosters shall present no hazard to occupants. Air intakes shall be located to minimize the entrance of exhaust fumes into the bus. If combustion heaters are used, they shall be installed on new buses by the body or bus manufacturer, and on buses now in service, by authorized dealers or garages. Heaters and defrosters are not required for trailer-buses of open air construction.

(b) School Buses. Every school bus shall be equipped with an effective defrosting device of the hot air duct type.

(c) Trucks and Farm Labor Vehicles. Every truck and farm labor vehicle shall be equipped with an adequate mechanically operated defrosting device, or adequate air-circulating system that removes snow, ice, frost, fog, or internal moisture from the windshield.

NOTE: Authority cited: Sections 31401, 34501 and 34501.5, Vehicle Code. Reference: Section 26712, Vehicle Code.

HISTORY

1. Amendment of subsection (c) filed 5–14–79; designated effective 7–1–79 (Register 79, No. 19).
2. Amendment filed 7–1–83; effective thirtieth day thereafter (Register 83, No. 27).

§ 1260. Ventilation.

Requirements for ventilation are as follows:

(a) Buses and Farm Labor Vehicles. All buses and farm labor vehicles shall provide ventilation that is adequate for passengers in any weather. Openings for ventilation through the front of a vehicle shall be equipped with screens that prevent passage of insects, gravel, and other objects.

(b) School Buses. School bus bodies shall be equipped with a suitable ventilating system of sufficient capacity to maintain adequate ventilation during operation without the opening of windows except in extremely hot weather. Ventilation shall be adequate to assure a complete change of air at least once every 3 minutes while a school bus is moving.

HISTORY

1. Change without regulatory effect amending subsection (b) filed 8–7–95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 32).

§ 1261. Exhaust Systems.

Exhaust systems shall comply with the Vehicle Code and the following:

(a) Every motor vehicle propelled by an internal combustion engine shall be equipped with a system to direct the discharge of combustion exhaust gases.

(b) No part of an exhaust system shall be located where its position would likely result in burning, charring, or damaging the electrical wiring, the fuel supply, or any combustible part of the motor vehicle.

(c) No exhaust system shall discharge to the atmosphere at a location directly below the fuel tank or the fuel tank filler pipe unless a shield is installed in a manner that prevents spilled fuel from contacting the exhaust system.

(d) The exhaust system of a Type 1 bus, other than a school bus, powered by a gasoline engine shall discharge to the atmosphere at or within 6 inches forward of the rearmost part of the bus.

(e) The exhaust system of a Type 1 bus, other than a school bus, using fuels other than gasoline shall discharge to the atmosphere either:

(1) At or within 15 inches forward of the rearmost part of the vehicle, or

(2) To the rear of all doors or windows designed to be opened, except windows designed to be opened solely as emergency exits.

(f) The exhaust system of every truck and truck tractor shall discharge to the atmosphere at a location to the rear of the cab or, if the exhaust projects above the cab, at a location near the rear of the cab. This requirement shall not apply to airport tank trucks used exclusively to fuel aircraft.

(g) Exhaust system repairs shall permit no leakage or discharge of exhaust gases at any location other than the discharge location required or permitted by this section.

(h) The exhaust system shall be securely fastened to the vehicle.

(i) Exhaust systems may use hangers which permit required movement due to expansion and contraction caused by heat of the exhaust and relative motion between engine and chassis of a vehicle.

(j) School Buses. The exhaust pipe of each Type 1 school bus and each Type 2 school bus constructed on or after July 1, 1970, shall project beyond the rear or side of the body of the bus but not beyond the bumper and shall not discharge near an entrance or exit, except that exhaust pipes may discharge near, but not directly under, doors designed to be opened solely as emergency exits. No flexible pipe or tubing shall be used except where necessary to prevent breakage.

NOTE: Authority cited: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code. Reference: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code; and Section 393.83, Title 49, Code of Federal Regulations.

HISTORY

1. Amendment of subsection (a), relettering subsection (b) to (j), adding new subsections (b) through (i), amendment of subsection (j) and new NOTE filed 7–22–91; operative 8–21–91 (Register 91, No. 46).

§ 1262. Speedometer and Odometer.

School buses, school pupil activity buses, youth buses, and farm labor vehicles shall be equipped with an accurate speedometer and odometer. The speedometer shall be visible from the driver's seat and illuminated during darkness. School pupil activity buses may use means other than an odometer for determining accrued mileage.

NOTE: Authority and reference cited: Sections 31401, 34501, 34501.5 and 34508, Vehicle Code; and Section 39831, Education Code.

HISTORY

1. Amendment filed 10–28–82; effective thirtieth day thereafter (Register 82, No. 44).

§ 1263. Interior Lamps.

All buses operated during darkness shall be equipped with a sufficient number of interior lamps to illuminate the interior of the bus without interfering with the driver's vision.

§ 1264. Passenger Compartments.

(a) **Signaling Device.** All farm labor vehicles in which the passenger compartment is separated from the driver's compartment and all trailer-buses shall be equipped with a buzzer or other signaling device that can be actuated by the passengers to gain the attention of the driver. A horn, as required by Vehicle Code Section 27000, shall not be used to comply with this requirement.

(b) **Vehicle Windows.** Every farm labor vehicle shall have at least one window at each side near the front of the passenger compartment. Each window shall not be less than 10 in. high and 16 in. wide. This requirement may be met by windows complying with Section 1269 of this title.

(c) **Broken Glass.** All cracked or broken glass having sharp or jagged edges, in windows or elsewhere on a farm labor vehicle, shall be removed.

NOTE: Authority and reference cited: Sections 31401, 34501 and 34501.5, Vehicle Code.

HISTORY

1. Amendment filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).

§ 1265. Sleeper Berths.

The following requirements shall apply to motor vehicles equipped with sleeper berths:

(a) **Mattress.** Sleeper berths shall be equipped with springs and a mattress at least 4 in. thick (unless the mattress is innerspring, air, or foam rubber) and adequate bedding. Sleeper berths shall be constructed to permit ready removal of mattress and bedding for cleaning.

(b) **Ventilation.** Sleeper berths shall be provided with louvers or other means of ventilation that are reasonably dust proof and rain proof.

(c) **Location.** Sleeper berths shall be located to prevent entrance of gases from the exhaust system, overheating or damage by the exhaust system, and leakage from the fuel system. Sleeper berths shall not be located in the cargo space unless completely and securely compartmentalized. No sleeper berth shall be installed in or on any trailer or semitrailer other than a house trailer.

(d) **Communication With Driver.** Unless the sleeper berth is inside the driver's compartment or has a direct entrance thereto, means shall be provided to enable the occupant of the berth to communicate with the driver. Such means may be a telephone, speaker tube, buzzer, pull cord, or other mechanical or electrical device.

(e) **Entrance and Exit.** Sleeper berths shall be constructed and maintained so that the occupant has at least two means of exiting without assistance. The two exits shall be on opposite sides of the vehicle and shall be not less than 18 in. high and 21 in. wide. However, if the berth is part of the cab and between the berth and the driving seat, has a doorway or opening at least 18 in. high and 36 in. wide, the requirement for two exits does not apply.

(f) **Size.** Sleeper berths shall be not less than 75 in. long, measured on the centerline of the longitudinal axis; 21 in. wide at the center; and 21 in. high at the center, measured from the top of the mattress. Sleeper berths shall be constructed so as not to hinder the ready entrance or exit of the occupant.

(g) **Federal Requirements.** Carriers subject to and in compliance with sleeper berth requirements of the U.S. Department of Transportation shall be deemed in compliance with this section.

§ 1266. Drive Shaft Protection.

A drive shaft guard to prevent broken shafts from whipping through the floor or dropping to the ground shall be required on:

(a) **School Buses.**—On all Type 1 school buses constructed after January 1, 1950, and all Type 2 school buses constructed on or after July 1, 1970, each segment of the drive shaft shall be equipped with a guard.

(b) **Other Vehicles.**—All Type 1 buses and all farm labor vehicles designed for more than 16 passengers and the driver shall be equipped with at least one guard or bracket if the drive shaft extends under the passenger compartment.

§ 1267. Bus Entrances and Exits.

The following requirements shall govern entrances and exits of all buses (except buses operated by law enforcement agencies to transport prisoners) and farm labor vehicles:

(a) **Door and Step Clearance.**—Doors and steps shall be kept clear at all times to permit safe entrance and exit of passengers.

(b) **Grab Handles.**—Every Type 1 bus and farm labor truck shall be equipped with grab handles, stanchions, or bars at least 10 in. long and installed within convenient reach of persons boarding or leaving.

(c) **Safety Bars.**—To prevent passengers from falling into the step well, Type 1 buses shall have a safety bar or panel directly behind each step well.

(d) **Door Construction and Maintenance.**—Doors in all buses and farm labor trucks shall be substantially constructed, in accordance with acceptable standards, and maintained in good working order to permit safe entrance and exit. All doors shall afford easy release in case of emergency but shall be prevented from opening accidentally. Manually operated doors shall be constructed so that no parts thereof can come together with an exposed shearing action. Chains, cables, or bars may be used on farm labor trucks instead of doors provided they are:

(1) Secured at not more than 6 in. (152.4 mm) above or below a horizontal centerline of the opening, and

(2) Equipped with a quick release device that allows only enough slack to permit easy operation.

(e) **Doors Not Adjacent to Driver.**—In Type 1 buses (except school buses) any passenger door not immediately adjacent to the driver shall meet the following requirements: For buses manufactured prior to January 1, 1993, the term "not immediately adjacent to the driver" shall mean that the door opening and steps are not within the direct, clear view of the driver, unassisted by mirrors or other devices. For buses manufactured on and after January 1, 1993, the term "not immediately adjacent to the driver" shall mean that the front of the door frame opening is more than 12 inches to the rear of a transverse vertical plane at the front of the driver's seat back rest with the seat adjusted to its rearmost position and the back rest adjusted to its most vertical position. The front of the backrest is that point, on the vertical centerline of the front of the backrest, which is midway between the seat cushion and the top of the seat back, excluding any movable head rest.

(1) Doors closed by power actuators shall be:

(A) Equipped with a sensitive edge, designed and maintained to release the door-closing force, and to reopen sufficiently to fully release a person or object caught in the closing doors.

(i) Except as provided in (iii), doors on buses manufactured on or after January 1, 1993, shall release when the door closes on an object as small as a 1/2-inch diameter smooth cylinder held perpendicular to the plane of the door opening at any point where the door halves meet, or if a single piece door, where the door edge meets the door frame.

(ii) The performance standard specified in (i) and (iii) shall not apply to the top two inches or the bottom two inches of the sensitive edge.

(iii) For buses equipped with a 4-inch or larger gap between the power-closed doors, the doors shall react as specified in (i) when closing on a 1-inch diameter smooth cylinder.

(B) Designed and equipped to signal the driver if the doors completely close on any part of a person's body or any object

(C) Adjusted and maintained, when operated or actuated by treadle steps, to close in not less than 2 1/2 seconds after a person steps off such treadle.

(2) Doors closed by return springs, counterweights, or other passive means shall be:

(A) Designed to permit at least 4-inches of clearance between the solid or metal edges of doors when fully closed. This requirement shall not ap-

ply to a door opened by a power actuator and equipped with a sensitive edge that complies with (e)(1)(A) of this section.

(B) Adjusted to allow at least 1 1/2 seconds closing time from the fully open to the closed position

(C) Designed and maintained so that the force required to start the doors moving away from the completely closed position does not exceed 20 pounds, applied at the solid edge of the door with the bus on a level surface. Door movement allowed by slack in the door closing mechanical linkage shall not be considered in determining compliance with this requirement.

(D) As an alternative to paragraph (C), doors closed by return springs, counter weights, or other means, may instead be equipped with sensitive edges meeting the same requirements as doors closed by power actuators.

(E) Designed and equipped with a door lock control operated by the driver while seated in the driver's seat, and equipped with a warning light visible to the driver to indicate when the door is unlocked.

(3) Except as provided in (C), all doors shall be interlocked with the brakes and accelerator so that the bus cannot move when the doors are open and the doors cannot open when the bus is moving without engaging the interlock.

(A) The interlock shall function so that:

(i) the brakes on at least one axle are applied, and

(ii) the accelerator is released when or before the doors begin to open, and

(iii) the brakes cannot be released nor the accelerator applied while the doors are open.

(B) In buses permitted by section 1217 of this chapter to transport standing passengers, the interlock system may be equipped with speed sensors set at a speed of 3 miles per hour or greater at which speed the interlock may disengage.

(C) Buses may be equipped with a remote control not accessible from the driver's seated position, to override the interlock system to allow emergency movement of the bus if the doors cannot be closed. On buses equipped with such installations, placing the control in the override position shall actuate a warning consisting of an audible indicator and a red light indicator visible to the driver with a label integral with or adjacent to the light stating "Warning—Interlock Deactivated" in letters at least 3/16 inch high.

(4) The provisions of this subsection shall not apply to a door not adjacent to the driver when equipped with a wheelchair lift that prevents persons from entering or exiting such doors while the bus is in motion.

NOTE: Authority cited: Sections 31401, 34501, 34501.5, and 34508, Vehicle Code. Reference: Sections 31400, 31401, 34501, 34501.5, and 34508, Vehicle Code.

HISTORY

1. Amendment filed 5-14-79; designated effective 7-1-79 (Register 79, No. 19).
2. New subsection (e)(3) filed 6-18-80; designated effective 8-1-80 (Register 80, No. 25).
3. Amending of subsections (e)-(e)(2), new subsection (e)(3) and subsection renumbering filed 8-3-92; operative 1-1-93 pursuant to Government Code section 11346.2 (Register 92, No. 32).
4. Change without regulatory effect amending subsection (e)(3)(C) filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).

§ 1268. Emergency Exits.

Buses (except school buses and buses operated by law enforcement agencies to transport prisoners) and all farm labor trucks shall be equipped with emergency exits as follows:

(a) September 1, 1973, and Later—Every Type 1 bus manufactured on or after September 1, 1973, shall comply with the Federal Motor Vehicle Standard 217 applicable at the time of manufacture.

(b) Before September 1973—Every Type 1 bus manufactured before September 1, 1973, shall be equipped with at least one of the following:

- (1) An emergency door on the left side to the rear of the driver's seat
- (2) An emergency door at the rear center of the bus
- (3) Escape windows of the push-out type

(c) Type 2 Bus—Every Type 2 bus shall be equipped with at least one emergency door or push-out escape window either at the rear of the bus or on each side, to the rear of the driver's seat.

(d) Federal Standard—Buses equipped with emergency exits conforming to FMVSS 217 are deemed in compliance with this section.

(e) Exemption—Any bus in service within single or adjoining municipalities or business or residential districts adjacent to and commercially part of such municipalities is exempt from emergency exit requirements when equipped with a door next to each passenger seat or (in addition to the front entrance) an exit door that can be easily opened by a passenger in an emergency. Open air type buses shall be deemed in compliance with this subsection if the side enclosures do not exceed 50 in. in height measured from the vehicle floor and the open area meets the emergency exit size and location requirements in FMVSS 217 for buses of 10,000 GVWR or less.

(f) Specifications for Emergency Doors—Every emergency door shall have:

(1) An opening from the floor to the top of the window line or higher and at least 24 in. wide

(2) A latch that can be readily opened by a passenger in an emergency

(3) On buses (other than farm labor) a warning device that is not directly connected with any lighting circuit and will actuate, when the door is unlatched, either an audible signal or an easily seen red light on the instrument panel

(4) A sign reading "Emergency Door" on the interior of each emergency door or center exit door used in lieu thereof, except that farm labor vehicles shall have signs reading "Emergency Exit" on the exterior and interior of emergency exits printed in English and the language of the workers being transported

(g) Emergency Exit Locking Device. Every emergency exit locking device shall be designed and installed in such a manner that it cannot move to a locked condition as a result of vehicle vibration, vehicle movement or other unintentional causes.

(h) Farm Labor Truck Emergency Exits—Every farm labor vehicle with side enclosures more than 50 in. high, or with clearance of less than 30 in. between the upper edge of the side enclosures and the top, or with vertical roof supports less than 30 in. apart shall have an emergency exit remote from the entrance. Vehicles conforming with emergency exit requirements of subsection (f) of this section shall be deemed in compliance.

(1) Size of Door Opening. Farm labor vehicle emergency exit doors shall have an opening at least 7 sq ft in area and 2 ft wide. They shall be operable from both the interior and exterior of the vehicle. Single-panel hinged side doors shall be hinged on the front edge.

(2) Aisle Space. Farm labor vehicle aisle space shall be sufficient to permit rapid movement or unloading of passengers in event of an emergency. In no event, shall an aisle or other access to any emergency exit be blocked by baggage or other obstacles.

NOTE: Authority and reference cited: Sections 31401, 34501 and 34501.5, Vehicle Code.

HISTORY

1. Amendment filed 5-14-79; designated effective 7-1-79 (Register 79, No. 19).
2. Amendment of subsection (e) filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).
3. New subsection (g) and subsection relettering filed 4-22-93; operative 5-24-93 (Register 93, No. 17).

§ 1269. Side Windows As Emergency Exits.

Side windows used as emergency exits on buses (other than school buses and buses operated by law enforcement agencies to transport passengers) and all farm labor vehicles shall have the following:

(a) Type 1 Bus—On a Type 1 bus, an unobstructed opening at least 17 3/4 x 13 in. The total escape area shall be at least 67 sq in. for each seating space, including the driver's. At least 40% of the escape areas shall be located on one side of the bus.

(b) Type 2 Bus and Farm Labor Vehicle—On a Type 2 bus and any farm labor vehicle not a Type 1 bus, one or two openings, of at least 564 sq in., with a minimum dimension of at least 12 in.

(1) In lieu of compliance with Section 1268(h)(1), a farm labor vehicle less than 80 in. wide may be equipped with not less than one sliding or push-out escape window on each side of the passenger compartment. Each window shall provide an unobstructed opening of not less than 17 3/4 x 13 in. and shall be constructed and latched so that passengers can open it readily in an emergency. The total escape areas shall equal at least 67 sq in. for each seating space, and not less than 40% of this escape area shall be located on one side of the vehicle. This does not apply to passenger(s) seated in the driver's compartment separated from the passenger compartment.

(2) Rear emergency windows that may be used in lieu of emergency exit doors shall provide an unobstructed opening of not less than 6 sq ft and a minimum width of 16 in.

(3) All push out windows shall have instructions for operation on the interior.

NOTE: Authority and reference cited: Sections 31401, 34501, and 34501.5, Vehicle Code.

HISTORY

1. Amendment filed 5-14-79; designated effective 7-1-79 (Register 79, No. 19).
2. Change without regulatory effect amending subsection (b)(1) filed 5-11-95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 19).

§ 1269.1. Equipment for Transporting Wheelchairs.

Equipment installed after January 1, 1980, on any bus, except a schoolbus, for transporting handicapped persons in wheelchairs shall meet the following requirements:

(a) Wheelchair Lift—Wheelchair lifts installed on such buses shall comply with Chapter 4, Article 15 of this title, commencing with Section 1090 and shall be installed as follows:

(1) Gaps—On a bus in use, gaps between the platform and the bus in areas over which a wheelchair can roll shall not be greater than 15 mm (0.60 in.) horizontally or greater than 6 mm (0.24 in.) vertically.
